

# LIFE AFTER PRISON

Chapter 2171

Severin's punch landed on him, and Riley's pupils suddenly shrank violently. Then, the protective shield in front of him instantly shattered, and the fist landed on Riley's chest with a huge blow.

In an instant, Riley felt as if his whole body had been hit by a huge mountain, and he suddenly felt sweetness in his throat. A mouthful of blood spurted out from Riley's mouth involuntarily.

When the disciples around him saw this, they could not help but exclaim.

"Oh no! Riley is injured!"

"Oh my god, Severin is so strong! They were only about to get started and Riley is already injured!"

"That is terrifying!"

Riley's blood vomiting and injury not only caused the surrounding disciples to exclaim, but even the nine peak masters standing in mid-air were surprised when they saw this. In particular, Lejeune and other peak masters who had just placed bets to support Riley were all utterly freaked out.

Compared with the disciples in the audience, all the peak masters and elders were at the ninth level of grandmaster cultivation, so naturally, the disciples judgment was no match for them. All of them looked grim at this moment, and their eyes were extremely solemn. It was because they found that Severin's

strength seemed to be somewhat beyond expectations. That body was so powerful that it was like a ferocious beast in human form. It could actually injure Riley with the power of his flesh alone.

What if he went all out? The peak masters could not imagine it!

“How long has it taken Severin to break through? His combat power has actually reached this level!”

“Damn it! How did this kid practice? How come his body is comparable to the body of a real dragon!” When Lejeune and others saw this, they cursed secretly under their breaths.

Not far away, Myles, Daniella and others saw Riley vomiting blood and was injured. Their faces were, however, full of joy, and the worries on their faces disappeared instantly.

Lejeune and others could see that Severin was extremely powerful.

He was still able to face Riley’s attack with ease. How could they not see it? After all, they were all grandmasters of the ninth level, and they could see it for themselves.

Myles was satisfied when he thought of how Lejeune and others deliberately placed bets to tease him. He had a feeling that Riley would definitely be no match for Severin in this battle.

After being thrown hundreds of feet away, Riley regained his balance. His face was ashen and he looked at Severin with anger, his eyes filled with murderous intent. If a person’s glare could kill a person, Severin might have been slaughtered by Riley’s glare at this moment.

Looking at Riley who was staring at him, Severin sneered and said sarcastically, “You are too weak!”

In response to Severin's ridicule, Riley glared at him, and his whole face turned red. He remembered how he had despised the opponent before the battle. However, this battle was about entering the next round and competing for rankings. Riley suppressed the anger in his heart. He took a deep breath, looked at Severin deeply, and said slowly, "Severin!! Damn you!!"

In so many years, this was the first time that Riley was injured and humiliated like this!

Severin's words instantly ignited the fury in his chest.

#### Chapter 2172

Rays of light flashed around him, and an extremely hot air instantly rose from his body. A scorching hot sun suddenly appeared in the surrounding sky. The sun was rising in the sky, and the surrounding air waves were bending and rolling in the heat.

Riley, who was under the shadow of the sun the size of a millstone, suddenly shouted, "Nine Suns shine in the sky!"

Riley roared angrily, and his hands quickly formed a seal. The sun above his head instantly turned into nine huge fireballs, forming the Nine Suns in the Sky. Nine scorching fireballs hung in the sky, and the scorching firebreaths affected the surrounding space, tearing apart large cracks in the void.

"Go!"

After Riley activated the magical power of his Nine Yang Body Constitution, he looked at Severin with a sneer on his face, his eyes cold, as if he was

looking at a dead person. After muttering crisp syllables, he raised his hand and waved it violently towards Severin. In an instant, the nine huge fireballs suspended in mid-air were all thrown towards Severin. Each fireball was the size of a small mountain, and the crimson light covered the sky. The scorching heat broke every space that it passed through into fragmented pieces. The firebreaths emanated from the fireball was extremely terrifying, and even Severin felt threatened.

He felt that ordinary saint-level monks might have no choice but to run for their lives when facing Riley. There were nine such fireballs!

Facing this attack, Severin took a deep breath and tightened the Scarletsky Sword in his hand. In the next moment, a massive amount of spiritual energy from heaven and earth poured into it, causing the sword to roar.

At the same time, the inner swordsmanship also burst out in Severin's body, turning into a fierce fighting spirit and soaring into the sky, heading straight for the sky thousands of miles high.

“Sky-Soil Heptagold Sword Energy, kill!”

Following his chant, Severin gently waved the Scarletsky Sword in his hand. In an instant, black and yellow fumes could be seen condensed on the long sword, and then a force of heaven and earth swept through it, carrying a terrifying energy. The energy turned into a sword light that was ten thousand feet long and struck out.

The moment the sword light struck out, all the monks within a radius of dozens of miles around the arena heard a huge sword cry in their ears. Immediately afterwards, there was a whistling sound in the air, as if the air was being torn apart.

After these noises, all the monks felt as if their skin had been scratched by the sharp sword energy. Although they were not hurt, countless goose bumps

appeared on their bodies invariably, and their hairs stood up, making them feel that their scalps were tingling. They were all horrified.

Somewhere not far away, Riley, who had just used the Nine Yang Divine Power, immediately felt an immense threat the moment the sword light appeared. This invisible feeling of threat felt the closest when the sword light cut through the sky.

Riley was immediately shocked. He did not think much and directly controlled the nine fireballs to kill Severin.

When Severin saw what was going on behind the scenes, he sneered, and the sword energy moved around his body, controlling the sword light to slash towards the fireball. The nine extremely scorching replicas of the sun only resisted for a brief moment before they were completely chopped into pieces by the Sky-Soil Heptagold Sword Energy, turning into little bits of aura and disappearing into the void. However, the sword light remained unabated, and it directly went for Riley in mid-air.

When Riley saw this, he was immediately frightened. He raised the Sapphire Blue Long Sword in his hand to resist the sword light, but only managed to resist for a moment before being swept up and hit by the massive sword energy.

With the sudden crisp sound in his ears, Riley's pupils shrank violently and he screamed. "No!!"

However, as soon as he did, the Sapphire Blue Long Sword in his hand was instantly chopped into pieces by the Sky-Soil Heptagold Sword Energy. The sword flashed, and before Riley could react, he fell directly from mid-air like a bird with broken wings.

Riley fell from mid-air, and a large mouthful of blood spurted out from his mouth. His whole face instantly twisted into a painful expression, and his whole body seemed to be hit by an ancient sacred mountain, and he was hit hard on the ring. A huge deep pit was smashed out of the ground. The violent shock wave set off a roaring wind that ruthlessly raged around, overturning many disciples in an instant.

Seeing Riley fall from mid-air, countless disciples were so frightened that their scalps went numb, and they started discussing it.

“Holy crap! Riley is actually at a disadvantage!”

“That is unexpected of Severin, he gained the upper hand with just a few moves!”

“It seems that Severin has a better chance of winning!”

The exclamations and boiling sounds of the surrounding disciples were deafening and resounded through the sky.

At the same time, the nine peak masters with their feet in the void, as well as the elders of the major sects, all looked shocked when they saw that Riley was defeated by Severin, especially Lejeune and others who had previously chosen to support Riley in the bet. Their faces turned as black as coal and became extremely gloomy. The strength Severin displayed was simply beyond their expectations.

The two of them fought for just a short while, but Riley was already injured.

One must know that Riley was also one of the five true disciples of the sect, a famous prodigy, and he broke through to the saint realm far earlier than

Severin. Logically speaking, Riley's cultivation strength could definitely suppress Severin, but the result was exactly the opposite.

As the peak master of the ninth level Saint, after these confrontations, Lejeune had already seen that Riley was no match for Severin. That was why his face darkened and he felt sorry for his favorite kid.

At the same time, not far away, Myles and others who were paying attention to the actions on the battlefield saw Severin actually starting to press down on Riley. Myles could not help but laugh heartily, "Hahaha! Okay, Severin really did not disappoint!"

After he finished laughing, he turned his head to look at Lejeune and the others, whose faces were as dark as coal, and raised his eyebrows provocatively, as if he was sure to win.

The center of the pit, Riley slowly stood up from the pit, wiped the blood that overflowed from the corner of his mouth, and stared at Severin with a gloomy look, his eyes gleaming with unprecedented murderous intent.

Riley had been a disciple for more than ten years and had outstanding talent. He was once hailed as a seedling of the Holy King Realm by the elders of the sect. However today, all his pride was shattered by that sword in front of Severin. In all these years, he had never suffered such a huge defeat or suffered such humiliation.

Riley, who had a ferocious face, clenched his fists tightly, and his tone was cold and cold, just like the cold wind blowing across the ancient ice field, freezing the surrounding air with a layer of frost.

"Severin Feuillet!"

"I am going to kill you!!!" As he said it, Riley suddenly flew up from the pit, his feet stepping on the void, and his black hair dancing.

Murderous aura mixed with Riley's saint-level aura instantly turned into an invisible shock wave, penetrating the sky and straight into the clouds, blasting holes in the white clouds thousands of miles high above in the sky.

#### Chapter 2174

Soon after, a terrifying aura burst out from Riley's body, and flames ignited around his body. In just a few breaths, the small flame was fuelled up, covering Riley's entire body. These flames were really weird. They were obviously dark red, but they had no temperature, as if they were virtual objects.

However, Severin clearly sensed that the moment the flames appeared, the surrounding void was twisted and curled up.

Countless powers of heaven and earth seemed to turn into nutrients, growing Riley, making his aura more and more terrifying.

Riley, who was still in his wafting clothes, gently pointed toward the void, and a palm-sized bell suddenly emerged from the void.

The bell was fiery red, and its surface contained the power of heaven and earth and the principles of law. The breath of the high-grade spiritual treasure on it shook the surrounding void, causing the space to shatter, and the exposed space crack blew out a large piece of Nine Heavens Gang Wind.

Riley took out the bell, shook it gently, and the surrounding void instantly shattered, and countless earth, water, wind, and fire emerged. And that bell was like a black hole, swallowing up all the surrounding earth, water, wind and

fire in an instant, and then it swelled in the wind and turned into the size of a millstone.

At the same time, the purple-red flame emanating from Riley's body poured into the bell, causing the bell to shine brightly immediately. Suddenly, it was as if a light spot millions of times brighter than the sun suddenly appeared in the entire sky.

In that light spot, a red beam of light cut through the void, shattering all matter in its path at extremely fast speeds, heading towards Severin!

As soon as this attack appeared, the color of the heaven and earth changed, and the space twisted and collapsed, like the world was destroyed, covering the sky above the entire arena.

When the nine peak masters in the sky saw this, their expressions suddenly changed and they exclaimed.

“Is this a martial skill that combines Riley's Nine Yang Body Constitution magical power and the Crimson Bell?”

“Damn it! Riley's gaze is turning red, he is all out on it!”

The hearts of the major peak masters were beating wildly, because Riley's attack had exceeded the capabilities of the first-level Saint Realm. Even those monks who had just broken through to the second level of the Saint Realm would die if they were hit. This kind of martial arts and supernatural powers could only be used when one was turning into a Scarlet Gaze and had the maximum killing intent.

After all, in a normal arena battle, with the protection of the arena formation, one would only use the required amount of skills and power.

Severin on the other side also found that Riley's gaze was turning red and his attacks became extremely fierce. Seeing this, Severin no longer held back.

The spiritual energy of heaven and earth in his body boiled, stirring the stars in the sky and turning into pure power of heaven and earth.

The next moment, the power of heaven and earth poured into the Scarletsky Sword in his hand, and an unprecedented terrifying sword intent erupted from his body. The sword energy broke through the air, shattering the space within several feet around it, causing space disturbances and blowing out countless turbulent currents.

“What kind of magical power is this!” Riley’s expression changed, and felt a strong threat after Severin used his sword energy.

This feeling was something he had never experienced before. His whole body was shaken at this moment. Without any hesitation, he swung the bell in his hand and smashed it down on Severin’s head.

Seeing this, Severin smiled. He suddenly raised his right hand and gently swiped the Scarletsky Sword in his hand. The dark sword energy in his body continued to roar, and the roaring sound was earth-shattering.

Countless black and yellow fumes and energy spurted out from his pores and mixed into the Scarletsky Sword, causing the nine-foot long sword to emit a hundred-foot sword energy.

Severin chanted, and swung the Scarletsky Sword downwards. The hundred-foot sword energy on the sword was like an arrow from a bow, piercing through the space, and quickly slashed towards Riley.

“Today, I will kill you with one sword!”

Chapter 2175

Although the sword energy approaching rapidly in the sky was only a hundred feet high, Riley did not dare to underestimate it at all. Logically speaking, an ordinary monk in the saint realm could create a large crater with a radius of several miles with one punch, and with a casual blow, he could turn it into a thousand-foot-long.

To a Saint Realm monk, the hundred-feet sword energy felt like a kid's trick.

The moment Riley saw the sword energy coming, his expression completely changed, and a lot of bloodshot eyes appeared in his eyes. The bell in his hand shook violently, and spurted out a large mouthful of blood. The dark sword energy contained in the sword, even though he was several miles away, Riley still felt the feeling of the blade grazing all over his body.

Under his gaze, wherever the golden sword energy passed by, the surrounding spaces collapsed one after another. Even the earth, water, wind, and fire were destroyed, and completely turned into pure void space. Even the usually most violent ones, the so-called saint monks would be injured and killed if they came into contact.

The Nine Heavenly Gang Wind blowing out from the cracks in the void now disappeared without a trace under the sword energy.

Looking at this, Riley was so frightened that his scalp was numb and the hairs all over his body stood up. He looked ferocious and yelled miserably.

“Nine Yang Body Constitution, listen to my orders, the power of heaven and earth will gather in my body!!!”

As he yelled, the purple-red flames on Riley's body burned violently, and the color quickly turned deep and dark. The aura erupted so strong that it instantly shattered the formation above the arena into powder.

Fortunately, the Nine Peak Masters and Sect Master Oskar Burton were there. The moment they discovered that the arena formation was broken, Oskar took the lead. He raised his hand and touched the arena lightly, and countless powers of heaven and earth surged out from all around. In an instant, the broken formation was repaired as before, and strengthened to a state that could withstand the aftermath of the battle between saint-level monks.

Oskar, who had stabilized the arena formation, could not help but say, "Good boy, the battle between these two is almost reaching the second level of the Saint Realm."

At the same time, the hundred-foot sword energy struck by Severin flew several miles across the space and struck hard on the scorching hot spot. The sword energy let out a loud rang, and the huge power of heaven and earth attacked Riley's magical power, completely shattering it in just a few seconds. The remaining power of the sword energy remained unabated as it headed straight for Riley's physical body at extremely fast speeds!

Before Riley could react, the black flames around him instantly erupted into a strong shock wave, and the extremely sharp sword light kept eroding the energy, blood and flames around him.

Seeing the sword energy getting closer and closer to him, Riley became anxious. He made a seal with both hands, and all the cultivation power in his body burst out, trying to make the final resistance.

"Hold it!" Seeing this scene, Severin sneered. How could this powerful Sky-Soil Heptagold Sword Energy, combined with the will of the dark sword energy, create a killing so deathly that no ordinary people could withstand?

Not to mention the seriously injured Riley, even if he was not injured, he probably would not be able to withstand it. One should know that Severin had

spent a lot of hours cultivating this Sky-Soil Heptagold Sword Energy. He had stayed in the sword tomb for a long time at the Seventh Peak in order to understand the dark sword energy. All this was for today!

“Fancy tricks!” Severin suddenly shouted violently, and the sword energy in his body burst out again, heading towards the sword, instantly breaking the balance between Riley’s offense and defense. “Kill!”

A crisp sound broke through the air, and there was no violent explosion as imagined. From the outside, it seemed as if a black line was cut out of the sky in the arena.

### Chapter 2176

In that black line, the space collapsed, the principles of law were shattered, and it became a void. In the middle of the vacuum, Riley stood covered in blood. His robe was torn to pieces by countless sword energies and turned into strips of cloth, revealing dense scars and bleeding.

At the wound, Severin’s brutal sword energy continued to attack Riley’s body, causing his body to begin to collapse. At this moment, Riley was breathing heavily. He was hunched over and looking at Severin, his pupils were filled with deep fear.

At the moment when the sword energy hit, the magical black spiritual fire of his Nine Yang Body Constitution was directly chopped into pieces, the surrounding space was shattered, and he was beaten into a space of complete emptiness. If his soul had not reacted quickly enough and enveloped the whole body with the Crimson Bell, he would have been killed

by now. Even so, his high-grade spiritual treasure, the Crimson Bell, was broken into dozens of pieces, and his physical body was extremely seriously injured, threatening his life.

“Huh? He is not dead yet?!” Seeing Riley still panting in the void, Severin was a little surprised.

The sword he just struck was even difficult for many second-level saints to resist.

Severin was impressed, he was indeed the true genius of the sect, after all, he still had a trick or two. However, he did not intend to let the other party go just yet. He wanted to take the advantage to kill him.

Thinking of this, Severin’s cultivation immediately exploded. At this moment, his whole body seemed to turn into a meteor, rushing out instantly, raising his fist and heading straight towards Riley. At the moment of approaching, the heptagold energy and sword energy in his body were all condensed together at this moment, forming a huge palm, and whacked Riley heavily.

A loud bang could be heard. Riley looked horrified, spitting out a mouthful of blood, his body suddenly fell back, and he screamed,

Sev... Severin, please do not be impulsive!!”

“I am willing to admit...” Before Riley could spit out the words’

admit defeat’ from his throat, Severin killed him again. He raised his fist and struck out, like the sun rising in the sky, countless immortal lights illuminated this empty space.

Seeing that Severin was unwilling to let him go, Riley’s expression changed drastically. He raised his hand and clapped it, and immediately took out a low-grade spiritual weapon from the storage ring.

The moment this wishful-looking spiritual treasure appeared, Severin raised his hand and turned his five fingers into claws, and activated his majestic physical power. The body, which was comparable to the body of a real dragon, directly grabbed the spiritual treasure out of the dense cracks, the spiritual light scattered and immediately downgraded the low-grade spiritual treasure into a spiritual tool.

“Damn!!” Riley cursed when he saw that his only remaining spiritual treasure was destroyed. He was always wary of Severin’s sword energy, but he did not expect that the other party would behave like this without using the Sky-Soil Heptagold Sword Energy.

Riley was extremely frightened. At this moment, he raised his right hand and slapped his chest. His whole body seemed to be ignited with the fire of life. He raised his hands and attacked with all his strength.

Seeing that Riley still wanted to resist him, Severin sneered. He dropped his fists and stepped on the space, bursting out with unprecedented power. This punch carried tremendous force and hit Riley’s chest at an extremely fast speed.

As for Riley who was hit, his chest was instantly dented, his internal organs were shattered and displaced, and a large mouthful of broken lung and organ fragments spewed out from his mouth with a ‘wow’ sound. The huge force tore apart Riley’s body mercilessly, wreaking havoc without stopping, mincing his organs and heart, annihilating the fire of life he had ignited, and destroying his soul.

In an instant, Riley’s body turned directly into a ball of blood mist, floating in this void space.

After watching Riley's body turn into a ball of blood mist, everyone's eyes widened, their pupils shrank, and their jaws unhinged. The disciples around all gasped in unison at this moment, their bodies seemed to bounce off the ground, their scalps were numb, their faces were frightened, and they were speechless.

Suddenly, it seemed that the entire sky became silent. At this moment, several peak masters were in the air.

After seeing Riley being beheaded by Severin and his whole body being turned into blood mist, the nine peak masters in the sky were all stunned. The faces of Lejeune and other peak masters changed slightly, and they were stunned!

When Severin swung that sword just now, he was surprised that the blow was comparable to the second-level Saint Realm. With such strength, Riley would be defeated sooner or later. They never thought that Severin did not stop after injuring Riley, but pursued him fiercely. With the supreme physical power, the powerful spiritual treasure attack directly destroyed the void around Riley's body.

Especially the last punch, it was like a dragon, shining like the sun, with infinite power of heaven and earth contained in it, and it actually shattered Riley's body in an instant. This gave them absolutely no time to react.

Normally, this kind of situation rarely occurred in a competition in the arena, because there were formations to protect you, and there were sect elders nearby to look after you. As soon as one found that something was wrong, one could use help as soon as possible to save the person.

Severin's final blow was too fast for the peak masters to react.

By the time they came to their senses, Riley had already turned into a blood mist, his soul had perished, and there was no sign of resurrection. Even if they had great abilities, they could not save him now.

This silent scene was quickly broken by a sudden frightened exclamation from the carrier.

“Dead...dead?”

“Riley is dead?!”

“Holy crap! Brother Riley, a true disciple of the sect and a proud saint, is actually dead?!”

“Am I hallucinating? He was a saint-level monk!”

A series of loud exclamations came from the surrounding disciples.

Everyone could not believe the situation in front of them. How long had it been since the battle between Riley and Severin? It was only a short moment since they stepped foot into the ring. Riley, who had been so aggressive and arrogant before, fell in the blink of an eye. The impact of this scene was huge. How could everyone not be shocked?

Amidst the exclamations of the disciples, Raymond, who was sitting next to a sect elder on the viewing platform, his face changed drastically, and his eyes looking at Severin were full of fear.

“How long has it been? How come you are able to kill Riley...” Huge waves surged in Raymond's heart.

He just felt a little unbelievable, but the fact had already unfolded before him, Riley had fallen. Not to mention how frightened Raymond was at this moment. He knew Riley's strength. Riley's strength was easily among the top three of the entire younger generation of Grandiuno Sect.

Not only did he possess the Nine Yang Body Constitution, he had also mastered the magical martial arts Nine-Yang Dharma, making him an almost incomparable being in the same realm! However, even a prodigy like Riley could only hold on for a brief moment in front of Severin before he was killed on the spot.

## Chapter 2178

Raymond could not believe how strong Severin was.

At this time, Celeste, who was next to him, was just like himself.

Her delicate face had her jaw unhinged, her eyes were blank, and she was frozen in place. It took her a long time to come back to her senses.

When Celeste came back to her senses, there was a look of shock in her red eyes.

“Rile...Riley is dead!” Celeste looked at Severin with a look of shock on her face and murmured to herself, “How strong are you...?”

At this moment, Celeste could not be more surprised. During the competition just now, she felt that although Severin had broken through to the Saint Realm, he might not be Riley’s opponent.

After all, Riley had broken through to the Saint Realm first, and his strength and cultivation had reached the late stage of the First Level Saint.

In addition, Riley was one of the five true disciples of the sect, a prodigy of the sect, and had a Nine-Yang Body Constitution. He had magical powers, martial arts, and spiritual treasures and elixirs. As the prodigy of the sect, fighting

across borders was a piece of cake for Riley. No matter how she looked at it, Riley had a great chance of winning.

However, since the fight started, Riley was at a disadvantage in just a few moves. Severin started to suppress him and hit him. After the fight, Riley was eventually seriously injured, and he had no choice but to unleash all his cultivation. Riley was no match for Severin, and was eventually punched to death.

Thinking of this, Celeste, who looked at Severin, felt her scalp numb and a chill down her spine. For the first time, she felt that Severin was so strange.

At the same time, Karl, who was sitting on a chair with his eyes closed and concentrating, suddenly opened his eyes at the moment Riley fell. For the first time, emotions of solemnity, surprise and fear appeared in Karl's used-to-be-calm eyes.

He looked up at the arena that had been reduced to nothingness, looked at the blood mist in it, and felt that Riley's aura was quickly dissipating between heaven and earth. Seeing this scene, Karl felt as if his whole body was being swallowed up. After a shock, he jumped up from the chair.

"How is this possible!!!" Karl exclaimed, a little pale. He knew Riley's strength very well. He was one of the best prodigies in the sect, and his combat prowess was not too bad. Even in his time, Riley could be regarded as a rare talent. However, at this moment, he died in the hands of Severin.

Severin, who only later broke through to the saint realm, and was a monk who did not use the best spiritual treasure in the battle.

If Severin took out the top-grade spiritual treasure, the Flameless Pinnacle, he would still find it reasonable, after all, he was showing off the power of the spiritual treasure. However, what was unexpected was that Severin was on

par with Riley with just a mid- grade spiritual treasure. After using his weird sword energy, he was able to kill Riley.

After Karl recovered from the shock, he put away his previous contempt and looked at Severin with a solemn look in his eyes.

Staring at the surging energy and blood on Severin's body like smoke from an oven, Karl secretly said, "This boy's strength is probably comparable to the third level of the Saint Realm. No wonder Riley is no match for him!"

Compared to Karl, who was relatively calm, Spencer, another successor not far away, was shocked at the moment. "How... how is it possible!!" Spencer muttered with a look of shock on his face.

He and Riley were almost the same in league, but with the awakened True Dragon Treasure Body and his powerful physical strength, he could barely surpass Riley by a few points. Riley could not hold on for even a moment, which made Spencer feel a little dumbfounded.

#### Chapter 2179

Seeing Riley's death, Spencer exclaimed and swallowed, looking at Severin with eyes full of fear and uneasiness. Because at this moment, he was already traumatized by Severin.

Although Riley was a bit weaker than him, he was not much weaker, but he could be killed in front of Severin as easily as cutting melons and vegetables. The whole process was smooth and seamless. One must know that the reason why people called someone a prodigy was because, to the prodigy, fighting over a higher level was as easy as eating and drinking.

However, Riley, who was known as a prodigy, died in the hands of Severin. How could Spencer not feel like he was dead?

Looking at the unharmed Severin in the void, Spencer felt sad and could not help but feel his legs trembling. "Admit defeat! I must admit defeat!"

Spencer was determined to pay attention. If he met Severin next time in the ring, he must quickly admit defeat to avoid ending up like Riley.

At this moment, the prodigies in the field and the surrounding disciples were all frightened and stunned by Riley's fall. The nine peak masters in the sky also came to their senses at this time, and all of them looked unhappy. After all, Riley was dead!

As the rescuers of the arena, the peak masters failed to react immediately and it was a dereliction of duty to save Riley.

Looking at Riley, who had long since turned into blood mist, now he could only shift the responsibility onto Severin's head.

Thinking of this, Lejeune's face became gloomy. He looked at Severin with an evil look, and said in a cold tone, "Severin! Do you not know that you cannot kill in a competition in the ring?"

At the same time, the peak masters of the First Peak and the Second Peak not far away heard the words and immediately understood what Lejeune meant. Now Riley had completely cooled down, his soul had collapsed, and no one could save him. The only solution for now was to capture Severin and bring him to justice.

Hearing this, Myles and others not far away stretched their throats, but in the end they had no choice but to say nothing.

Severin's victory over Riley really made Myles, Daniella and others feel excited, but it also gave them a headache at the same time.

Riley's death came with immense implications. If this matter was not handled well, there would be endless troubles. After all, the sect had rules. If one party admitted defeat in the arena competition, they could not continue to attack.

In the fight just now, although Riley did not say the words "defeat" in time, Severin made a killing move and killed someone.

"Oh no... If this matter is not handled well, I am afraid Severin will not only be disqualified from the competition, but also be punished," Myles thought to himself, and suddenly became anxious.

They had invested a lot of resources in Severin. If Severin was disqualified this time, all of their previous investments would be in vain.

While Myles and others were racking their brains to think about how to save Severin, the peak masters from the second and third peaks beside them pondered, and then they said, "Severin, you are ignoring the sect rules, causing casualties without authorization, I will disqualify you from the competition now!"

## Chapter 2180

As soon as the peak masters finished speaking, Leonnel Yves, the master of the second peak, suddenly stretched out his arm. His five fingers turned into claws and he grasped them toward the void. In an instant, an invisible force enveloped Severin's body.

Feeling the sudden invisible force on his body, which stagnated the spiritual energy of heaven and earth in his body, Severin could not help but sneer in his heart.

He snorted coldly, and the phantom of the small sword in his body suddenly burst out, driving the dark sword energy in his body to rise into the sky, and instantly chopped the power around his body into pieces.

Seeing that Severin dared to resist, Leonnel, the leader of the second peak, suddenly felt offended. His face darkened and he shouted, "How bold of you!" "How dare you resist us! I shall punish you today!"

Before he finished speaking, Leonnel's aura suddenly erupted. The aura of the ninth-level Saint Realm shook the void, causing the surrounding space to twist and collapse. The surrounding air was quickly frozen and condensed into countless ice crystal snowflakes.

The terrifying pressure, like an eternal sacred mountain, made everyone around him feel tight and breathless.

Seeing this scene, Severin immediately sneered. "Why did you not stand up and speak when Riley was about to kill me just now?!"

In the battle with Riley just now, Riley was the first to kill him, but at that time no one stood up and spoke. Now after he killed Riley, these people jumped out to accuse him. Even though Severin was generous, he could not help but feel angry at this moment.

When Leonnel heard this, his face became a little ugly, and he shouted coldly, "Humph! You are so stubborn!!"

After saying that, he raised his hand and wanted to slap Severin using a palm print. His palm lightly cut through the space, like a majestic sky and earth, causing intense danger and palpitations in Severin's heart. He knew that if he received this slap, he would probably be seriously injured even if he did not die.

However, facing the coercion of Leonnel's ninth-level saint, Severin only felt that his legs were as heavy as lead. He knew that he could not resist and could not escape, so he simply gritted his teeth and quickly used the Darkgold Bell.

Seeing that the palm print was getting closer and closer to Severin, suddenly, the sect leader Oskar, who had been closing his eyes and concentrating on the high platform and had not spoken a word, spoke at this moment.

“Enough!”

“The sect has already lost a prodigy, and we cannot let another one die now!”

As Oskar spoke, the palm print that was less than a few feet away from Severin dissipated into the air in an instant, as if encountering some force, and collapsed instantly.

When Leonnel heard this, he was still a little dissatisfied and wanted to kill Severin. After all, if Severin died, the bet they just made would not have to be lost to Myles and others.

Another thing, if Severin was eliminated, then Karl would undoubtedly compete for the first place in the competition and successfully get the place to go to Middlebridge!

Thinking of this, Leonnel wanted to speak, “Sect Master! Severin killed someone after all!”

Oskar narrowed his eyes slightly and said calmly, “What? Are you ignoring what I just said?!”

“Besides, did you hear Riley shouting the words ‘admit defeat!’?”

Hearing the sect master's neither sad nor happy words, Leonnel suddenly felt cold sweat all over his body, his soul was breaking down, and countless cold air rose from the soles of his feet and poured into his head from his back.

Leonnell knew that if he continued to delve deeper, he might be in trouble before Severin got into trouble. Thinking of this, he took a deep breath, hurriedly raised his hands to Oskar and said, "My apologies!"

Lejeune and others next to him also noticed Oskar's defensiveness at this time, so they did not dare to say anything any more.
