

After Prison 871

[Chapter 871](#)

A slightly dull sound echoed as Manny was thrown to the ground, spitting out a mouthful of blood, lying there.

The other members of the Tigris Hall, upon hearing the sounds of the fight, immediately rushed over and surrounded the area.

Severin walked over and removed the masks of the three individuals. "Tsk, tsk, Manny, still not admitting it? Hehe, and two elders, we've met before, haven't we? You're the First Elder and Second Elder of the Ladds, right?"

"Sir, spare us, we were just following Mister Manny's orders!"

The First Elder lay on the ground, unable to stand, and pleaded for mercy, barely clinging to life.

The Second Elder added, "Yes, please spare us, we didn't know. We didn't know you were a level nine warrior king."

Severin coldly smiled. "You didn't know I was a level nine warrior king, so you decided to attack me? If my cultivation was a bit weaker today, I'm afraid you two would have killed me already. I won't spare people like you anymore."

After saying that, Severin turned to Zoheb and said, "Mister Zoheb, kill both of them for me!"

Zoheb immediately walked over and put an end to their lives.

Severin then approached Manny, who was trembling in fear. Manny was completely terrified. He could not believe that Severin, whom he had spared before, had come to assassinate him in Longcheng. He never expected that their audacity would be so great.

"I... I know I was wrong, please spare me. I'll do anything for you."

Manny was thoroughly frightened. He could not even dream that Severin would be so formidable. Two level seven warrior kings were easily killed.

Now he understood why the War Gods had chosen Severin to be the Master. This kid was too powerful. With this level of strength, he was definitely the number one in the South County.

"It's too late for apologies. Now it's not just you who will pay the price, but your entire family!"

After speaking, Severin did not waste any more words. He struck Manny's forehead with his palm, killing him instantly.

After killing the three individuals, Severin took off their storage rings. The two old men were elders of the Ladds, so they must have quite a few spiritual herbs on them.

"You guys, take care of the bodies!" Zoheb ordered some people to remove the bodies.

“Alright, everyone rest well. I have a flight tomorrow morning, so I’ll head back to South Link City first,” Severin glanced at everyone and said.

“Understood, Supreme Leader. We estimate that we’ll arrive in South Link City the day after tomorrow. We’ll try to establish the headquarters near the South County Mansion.”

Zohab nodded, feeling a sense of awe. Two level seven warrior kings had finally reached such a level of cultivation, and they were killed by Severin just like that.

After returning to his room, Severin immediately took out his phone and made a call to Calum Irminger.

“Master, is there something you need? Why are you calling me so late at night?”

Calum, who was about to go to sleep, was puzzled by Severin’s call.

[Chapter 872](#)

Severin said, “Mister Manny from Yusky, accompanied by their family’s Elders, came to Drackham to assassinate me. However, I have already killed them.”

“What!” Calum exclaimed, taking in a sharp breath of air. Then he gritted his teeth in anger and said, “Damn it, this Yacob has quite the audacity. It seems that they still can’t accept the fact that you became the Supreme Leader. They dare to send people to assassinate you. They’re truly seeking death.”

Severin smiled and said, “Hehe, it’s fine. They brought it upon themselves, and I couldn’t do anything about it. Your location is closer to Yusky. Their family’s Elders have already died, and their City Lord’s Mansion doesn’t have many experts left. Send people over there. I hope that tomorrow morning, the City Lord’s Mansion in Yusky no longer exists and needs a new replacement.”

“Don’t worry, Master, I’ll take care of it!” Calum immediately agreed.

After hanging up the phone, Severin was bored and took out several storage rings he had obtained today. He took out the useful items and sorted them into his own storage ring before finally going to sleep.

Meanwhile, Calum immediately arranged skilled individuals and headed straight for the City Lord’s Mansion in Yusky. Tonight, Yusky was destined to be engulfed in a storm of bloodshed.

The head of the Loughs prepared the meal and waited for two more hours, but there was still no sign of Manny and the others returning.

His face turned dark, and he said, “This is bad. It seems that Mister Manny and the others won’t be able to return.”

“Really? Both Elders from the Ladds are cultivators of the level seven warrior kings.”

An old man looked surprised.

“They have been out for almost three hours. According to reason, they should have returned within a little over an hour. Since they haven’t returned yet, something must have happened. Could it be that the kid is, even more formidable than the two Elders?”

The head of the Loughs furrowed his brow, filled with worry.

After thinking for a moment, the old man suggested, "Why don't we give Mister Manny a call to check?"

The head of the Loughs immediately shook his head, "Don't make the call. If Mister Manny and the others are dead, and we call at this moment, it might become known that we were assisting Mister Manny. It would be easy for our little family to get implicated."

After some thought, the head of the Loughs said, "If something really happened, we should hear some news by tomorrow. At that time, send a few people to inquire in that area."

The next morning, the head of the Loughs received a distress call from several female members of the Ladds. He learned that the Ladd's head and many powerful cultivators had been killed. Only a few female members, bodyguards, and servants managed to escape with their lives, and they had to disperse on their

own.

"It turns out, it was Yacob and his people who were sent by the War God to kill them."

After hanging up the phone, the head of the Loughs's face turned pale with fear. "The people they offended have connections to the War God, and from the looks of it, the relationship is extraordinary. Otherwise, the War God himself wouldn't have taken action."

At this moment, Severin was sitting alone on an airplane, returning to South Link City once again.

Severin did not inform Diane in advance. After returning to the villa, he entered the house alone.

Seeing Diane sitting on the sofa with her back facing him, Severin walked over gently and covered her eyes from behind.

"Sisi, you mischievous girl!"

Diane smiled and then removed Severin's hand, turning her head to look at him. "Wow, husband, it's actually you. You finally came back, you rascal."

"Hehe, what do you mean by finally coming back? I've only been gone for two or three days. It seems like my wife really missed me!"

Looking at the excited beauty in front of him, Severin felt a warmth in his heart..

[Chapter 873](#)

Upon hearing Severin's words, Diane's cheeks unexpectedly blushed, revealing a rare hint of shyness. She coquettishly replied, "Of course, I've thought about it. You're my husband, how could I not think about it?"

"Hehe, how's your cultivation? Have you made a breakthrough?"

Severin chuckled. With his Grandmaster cultivation, there was no spiritual energy within his body. Therefore, even if he had a method to see through others' cultivation, he could not possibly know what realm Diane's cultivation had reached.

Diane smiled and said, "Of course. I'm already a level six Grandmaster now, and Sheila is a level seven Grandmaster. We've both made progress, you know."

"That's great!" Severin smiled and walked up to Diane, then sat down beside her. "Let's go out for dinner tonight, and invite our parents and your parents too. It's been a while since we went out to eat."

"Sure, now that you're back, it's a good idea to have a little gathering outside."

Diane smiled.

"Ah!" At that moment, Sheila entered from outside and, upon seeing Severin, instantly jumped up in excitement. "Mister Handsome, it's great that you're back! It's so good that you're back!"

Sheila ran over and enthusiastically threw herself into Severin's embrace, her heart filled with joy.

A gust of fragrant wind hit Severin in a daze for an instant. He did not know if Sheila did it intentionally, but she was still so passionate and thick-skinned.

"Hehe!" Seeing Severin's embarrassing look, Diane snickered from the sidelines, and said, "During the few! days you left, girl Sheila has been thinking about you from time to time."

Only then did Sheila realize that there seemed to be something wrong with her actions, and she took two steps back with a trace of blushing on her face. "Well, it was mainly because I was too excited just now, so, so I couldn't hold back all of a sudden..."

Severin could not help but laugh and cry when he heard it. This girl actually used 'couldn't hold back' to describe it?

"Wow, Dad, Dad is back! That's great, Dad is back!"

At the entrance, Selene and Lillie walked in from outside. When Selene saw Severin, she immediately ran

over.

Severin crouched down, picked up his daughter, and kissed her little face. "Little girl, have you missed Dad these past few days?"

"I missed you!"

Selene immediately smiled and said, "Dad, didn't you say you would buy me toys? Did you buy them?"

Severin felt embarrassed and quickly said, "Ah, Dad was in a hurry to come back and see you and Mom, so I forgot on the way. We'll go shopping later, and I'll buy it for you, alright?"

"Yes, good! I want a teddy bear!"

Selene obediently nodded and then gestured with her hand, "I want one this big."

"Alright, as long as Selene likes it, Dad will definitely buy it!"

Looking at his adorable and sensible daughter, Severin's heart warmed.

In the afternoon, Severin took Sheila, Diane, and Selene out for a stroll and bought some toys for Selene.

[Chapter 874](#)

After returning, they rested for a while. In the evening, they went out for a good meal with the whole family. By the time evening arrived, Severin had stopped refining pills and instead went to Diane's room.

Diane was wearing a sexy red silk nightgown. When she saw Severin, her cheeks turned slightly red. She then glanced at him and said, "I thought you would be refining pills tonight. Why did you come here?"

Severin grinned and walked up to the seductive woman in front of him. He pulled her into his arms and said, "After drinking so much red wine tonight, my head is dizzy. Why bother refining pills? The success rate will be low, and it will waste materials. It's better to cuddle with my wife and have a pleasurable sleep!

"You're annoying!" Diane rolled her eyes at Severin, but her heart was pounding.

"You, you're so contradictory!"

Severin chuckled and then kissed her on the red lips.

However, just as they were kissing for a while and Severin was about to carry Diane to the bed, she suddenly said, "Oh, by the way, I heard today that the City Lord's Mansion in Yusky has been destroyed. The War God personally led people to annihilate it. What happened? Do you know?"

Only then did Severin reply, "I had Calum, the War God, do it. Those people from the Ladds are despicable. They found out I went to Drackham, and then Manny brought the Elders of the Ladds to Drackham to assassinate me. It's simply seeking death!"

"I see. That Manny deserves to die. Even after you spared them, they came and knelt down, apologizing and promising not to trouble you again. Yet they secretly sent someone to assassinate you."

After hearing this, Diane could not help but clench her fist. "Fortunately, my husband is powerful and has at high cultivation level. Otherwise, they would have succeeded."

Severin chuckled, seemingly seeing through everything. "Now that I think about it, their apology and display of sincerity were all just a ruse. They knew I was going out, so they planned to assassinate me. That way, even if I died, they would have less suspicion on them."

After saying that, Severin picked up Diane and placed her on the bed. He smirked and said, "Wife, let's not talk about those things now. Let's focus on something else!"

"Something else? What do you mean?"

Diane turned her head shyly and could not help but bite her sexy red lips.

Seeing Diane's seductive appearance, Severin's heart burned even more. He kissed her directly.

Meanwhile, in the room, Sheila could not fall asleep.

"The handsome Severin came back today, and when I hugged him, he didn't resist and didn't try to push me away. Moreover, he didn't show any intention of sending me away. Hehe, it seems I still have a great chance. How wonderful."

After carefully analyzing the situation today, Sheila's mouth curved into a sweet smile.

The next morning, after Severin got up, he leisurely refined pills for the whole morning. At this point, he had reached a level of mastery in refining low-grade second-rank pills. There were still plenty of materials left for the low-grade second-rank pills in his hands, so he planned to refine more to help the cultivation of the high-level members of the gang.

In the afternoon, Severin finally went downstairs to take a walk and rest.

"Governor, there's a beautiful woman

Hall and came to see you!"

Just then, a bodyguard ran in and reported to Severin.

After hearing this, Severin's eyes lit up. "Haha, Hall Master Zoheb and his daughter have come. Let them in."

[Chapter 875](#)

"Hall Master Zoheb, Yasmin, you've arrived. I hope you had a pleasant journey!" Severin greeted them with a smile as soon as they reached the gate of his villa.

"Haha, Supreme Leader, it was not tiring at all!" Zoheb laughed heartily, then glanced at the two beautiful women beside Severin and said, "These two, they are as beautiful as water lilies. They must be the Supreme Leader's wives, right?"

Behind him, Sheila's face instantly turned red, shy and unsure of what to say. Severin was about to explain when Diane beside him laughed and said, "I am his wife, and this young lady, Sheila, is his girlfriend!"

Severin almost coughed up blood and couldn't help but say, "Darling, why are you making things up? When did she become my girlfriend?"

Diane smiled and said, "Don't you remember? When Li Mo came to test us before, you pretended to be her boyfriend, didn't you? So, she is your girlfriend now."

Severin felt embarrassed and forced a smile. "That was just to deal with Li Mo. Besides, Li Mo has already gone to meet the King of Hell. There's no need to pretend anymore."

"Hehe, I understand. It's fine since you're not married yet. It's all good!" Zoheb raised an eyebrow and teased.

Severin quickly changed the topic and said, "Ahem, why is it just the two of you? Where are the other elders?"

Zoheb replied, "Several elders went to find their accommodations. There are also other brothers who will gradually move to South Link City in batches. As soon as we landed, Yasmin and I rushed to see you."

Yasmin smiled and greeted Diane and Sheila. "Greetings to both sisters-in-law. You are both really beautiful!"

Upon being addressed as such by Yasmin, Sheila became even more shy and lowered her head, her face blushing to her ears.

Yasmin noticed that Sheila did not argue and simply blushed, so she guessed that Sheila was probably not Severin's wife yet, but it seemed that their relationship was not simple.

"Let's go inside and have a seat. I'll make you a cup of tea," Diane smiled and invited them.

After everyone was seated, Severin made a phone call and asked Mick Wheatly and the others to come over.

Before long, Mick, Larry Dune, and the others arrived.

"*Supreme Leader, we just found out that you've returned and were about to come and see you. Unexpectedly, you called us!" Gracie Swiften smiled sweetly upon seeing Severin. She realized that she had not been in good spirits during the time she did not see Severin, and she would occasionally think of this guy.

However, as soon as she remembered that this guy was the Supreme Leader and she was his subordinate, she lost the courage to actively pursue him.

Severin smiled and said, "Let me introduce you all. This is Zoheb, the Hall Master of Tigris Hall, and this is his daughter, Miss Yasmin."

"Greetings to all the Hall Masters. From now on, we are all one family. I hope we can help and progress together," Zoheb stood up immediately and said with a smile.

[Chapter 876](#)

Soon, Larry and the others introduced themselves one by one. Severin looked at their cultivation levels and nodded in satisfaction. "Not bad, everyone has made significant progress in their cultivation. I'll give each of you two medicinal pills. Once your realms stabilize, you won't have to worry about running out of pills."

After speaking, Severin took out ten low-grade second-rank medicinal pills and waved his hand, sending them floating in front of the five Hall Masters.

"Supreme Leader, you're amazing! I just broke through yesterday, and now there are more medicinal pills. Haha, it seems like we won't have to worry about running out of pills in the future." Larry laughed happily. as he received the pills cautiously and stored them away.

"Yes, Supreme Leader. You gave me some just two days ago, and now you're giving me more. I feel embarrassed." Zoheb also stored the pills while wearing a smile on his face.

On the side, Mick joked, "Is that so? Nie Hall Master, if you feel embarrassed, you can give them to me. I have thick skin, haha!"

Zoheb hurriedly replied, "That won't do. These are the rewards from Supreme Leader. How can I give them away casually?"

"Haha!"

Everyone burst into laughter upon hearing this.

"Alright, now that everyone is here, exchange contact information with each other. Rest for the afternoon, and we'll have dinner together in the evening!" Severin suggested with a smile.

"That would be great. I didn't expect we could even get free meals!" Rachel chimed in with a cheerful smile.

"You're welcome to come and have meals anytime!" Diane said with a beaming smile.

In the afternoon, everyone took a walk and chatted in the courtyard outside the villa. As the sky grew dark, they gathered for a meal.

Perhaps due to excessive joy and excitement, Zoheb ended up drinking a bit too much and had to be supported by two bodyguards to get into the car.

In the evening, Severin continued his pill refining. However, this time he aimed to refine intermediate-grade second-rank pills instead of the low-grade ones. He had already mastered the refinement of low-grade second-rank pills, achieving a success rate of 90 percent with the help of the Werchester Furnace. Even if he simultaneously refined two sets of materials in one furnace, it was no longer a challenge for him.

Severin knew that at this stage, he could attempt to refine higher-grade pills. After all, Rachel had already reached the level five martial king level, while Zoheb and Gracie had both reached level three warrior king level. Even though the low-grade second-rank pills would still be effective for them, the effects were not as significant anymore.

Therefore, he needed to continue advancing. Time was running out, and every day counted. He needed to become an intermediate-grade second-rank pill refiner or at least a low-grade third-rank refiner as soon as possible. Once he reached that level, he could directly provide them with pills when he found the members of other halls, without wasting more time due to a lack of prepared pills.

Time passed bit by bit. Although Severin had mentally practiced the refinement of intermediate-grade second-rank pills many times, he still wasted a few sets of materials at the beginning.

However, after refining five sets, a smile appeared on Severin's face. "Not bad. I almost succeeded in refining the pill. Just one final step is missing. Tonight, there should be hope for a breakthrough!"

[Chapter 877](#)

After resting for more than ten minutes, Severin adjusted his mood once again and began preheating the pill furnace. He took out a set of materials for alchemy and placed them next to him.

When the time was right, Severin manipulated his spiritual power to levitate one of the materials and swiftly threw it into the pill furnace. As time passed, he continuously threw in one material after another, with sweat drops forming on his forehead.

Despite this, he remained focused, carefully controlling the temperature and observing the situation inside the pill furnace.

“Arise!”

Finally, at a certain moment, Severin suddenly shouted lightly, and a pill shot out, floating in front of him.

“Haha, a mid-grade second-rank pill! It’s finally done!”

Excitedly gazing at the round pill emitting a fragrance, Severin could not contain his joy. At this moment, he could finally be considered a mid-grade second-rank alchemist.

Such an alchemist was probably rare even in the Dragon Kingdom. After all, these pills could help those at the fourth level of the Martial King realm quickly break through their cultivation barriers.

Glancing at the time, Severin realized it was still early. Seizing the opportunity, he continued his pill refining.

Although the success rate was initially low, by daybreak, Severin had already expended ten sets of ingredients, obtaining three more pills in addition to the previous one. Throughout the night, he had successfully produced four mid-grade second-rank pills

“I gave them some pills yesterday. I won’t give them these ones for now. I’ll keep them and provide them later when their cultivation stabilizes and they need the pills.”

After some consideration, Severin put the four pills into ceramic bottles.

After tidying up, he went downstairs to prepare breakfast.

Seeing Severin coming down, Diane immediately smiled and said, “You, did you spend the whole night refining pills again? You’re so dedicated!”

Severin sat down beside her and started eating breakfast while saying, “I had no choice. Time is running out, and I have to work hard. Half a month has passed in the blink of an eye. I need to prepare ahead, right? Besides, for someone like me with high cultivation, even if I don’t sleep for ten nights, it won’t have much impact.”

“Alright, you’re amazing. Enough now.”

Diane gave Severin a teasing look but exuded a charming aura.

“Brother-in-law, brother-in-law, the City Lord of South Link City is here to see you.” Unexpectedly, at that moment, Megan rushed in from outside and informed Severin.

“The City Lord of South Link City is here to see me? What does he want?”

Severin frowned upon hearing the news.

There was also a City Lord's Mansion in South Link City, and in theory, it had the potential to become the Governor. Unfortunately, Severin took the chance away just like that.

However, Severin noticed that the people from the South Link City Lord's Mansion had a good attitude and did not show any unhappiness. They even smiled and congratulated him.

[Chapter 878](#)

However, these days, the other party had not come to find her, so it was a bit puzzling for Severin that they suddenly showed up at her door. "Hmm, let them in, I'll be done eating soon!" Severin nodded and said.

Not long after, the City Lord of South Link City, Clave Nicholz, entered with his son, Benjamin Nicholz. Diane asked a maid to prepare tea for them, while Severin invited them to sit on the sofa. Once they were seated, Severin smiled and said, "City Lord Clave, long time no see. I wonder why you came to visit today. Is there something you need from me?"

Clave smiled faintly and replied, "Governor, it's like this. In a few days, it will be the birthday of Lord Province Governor. He has invited the Governors of Skystream Province, as well as some larger City Lord Mansions, to attend."

As he spoke, Clave took out an invitation letter and handed it to Severin, saying, "This is from the Lord Prefecture Governor, sent by his envoy, asking me to pass it to you. He invites you to attend his 60th birthday celebration."

Upon hearing this, Severin furrowed her eyebrows. Dracodom was vast, with cities as numerous as stars. Dracodom was known as the Darshia and was divided into nine provinces and thirty-six counties. Although South County governed over a hundred cities, it was just one of the thirty-six counties in Skystream Province, which fell within the jurisdiction of Dracodom.

Each governor of the nine provinces governed over four counties, and the strength of each province was similar. South County was under the jurisdiction of Skystream Province, and the status of each governor was not much lower than that of the Four Great War Gods; they were all esteemed figures. To

facilitate, management, the governor of Skystream Province divided his four counties into South County, North County, West County, and East County.

Upon hearing this, Severin accepted the invitation letter and looked at it. He then furrowed her brows and said, "Why did the envoy for the Lord Province Governor's 60th birthday send you to deliver it to me? Why didn't they come directly to my mansion? Do they find it troublesome?"

Clave furrowed his brows and looked around to ensure there were no outsiders present. He then said, "Governor, there's something I'm not sure if I should say.

Severin was slightly taken aback but quickly responded, "There are no outsiders here, just my wife and my little aunt. You can speak directly."

Clave nodded and continued, "The thing is, your appointment as Governor was quite sudden. It seems that the Lord Province Governor is not very satisfied, and he's not pleased."

Severin smiled wryly. "Is that so? Could it be that he has someone else in mind?"

Clave nodded. "Indeed, the Governor of Namvail, Regan Yankov, is his preferred choice. However, unexpectedly, Lord War God personally intervened this time and recommended you for the position of Governor. Although the Lord Governor is not very happy about it, he had no choice but to agree."

After hearing this, Severin could not help but chuckle. "Heh, so that's how it is. If it weren't for me being the County Princess and also personally recommended by the War God Calum, I'm afraid I wouldn't have received this invitation letter."

"How rude! This guy doesn't even send the envoy directly and instead asks Mister Clave to deliver it. He's clearly trying to show us his displeasure," Megan said with crossed arms, indignant.

Severin sighed. "What are you thinking, little girl? After all, he is the Province Governor. If I don't go, it would be quite disrespectful to him. Since he has sent the invitation letter, I should attend. If I don't go, he will hold a grudge against us, and I don't want to have another enemy, especially since the nine provincial governors are not easy to deal with!"

[Chapter 879](#)

After listening, Megan pursed her lips and said, "So what? Who told him to disrespect you first? Besides, you have one of the War Gods backing you. Do you still need to fear him?"

Severin smiled bitterly and said, "Firstly, he didn't outright refuse to invite me. He just asked Lord Nan to pass the invitation to me. It's not a big deal, just shows a lack of importance. If I directly refuse without attending after receiving the invitation, it would be a different matter."

At this point, Severin paused and continued, "Secondly, although the Four War Gods have achieved great military accomplishments and have been awarded the War God's Medal, it doesn't mean they are the strongest in this world. Many hidden experts or hidden clans focus solely on cultivation and don't concern themselves with worldly matters. Moreover, even within the mortal world, there are many strong individuals willing to join the Province Governor's Mansion. If I cause a big scene with the Province Governor, it won't only have a negative impact but also create a lot of trouble."

Clave and Benjamin glanced at each other, both showing a hint of astonishment in their eyes. Obviously, they knew that the Four War Gods and the Nine Province Governors were formidable and held lofty positions. However, they were unaware if those legendary hidden cultivation clans truly existed; it had only been hearsay. Now, upon hearing Severin's words, they were almost certain that the matter was indeed true.

Alright, if that's the case, then it's better to avoid unnecessary trouble. I thought the War Gods were the most powerful," shrugged Megan.

Only then did Severin say, "Hehe, the world is vast, and our Dracodom is also vast. There are always higher mountains. Some people are just low-key most of the time. The Four War Gods only gained

prominence because of their achievements in the war with Cherridom. They were brought to the forefront. Do you understand?"

Diane nodded, "Mm, I understand. It seems I've been too narrow-minded and don't know much about this

world."

At this moment, Clave spoke again. "Uh, sir, I actually came today with another request."

Severin furrowed his brows slightly, slightly surprised, "Tell me, as long as it's something I can help with, I will definitely assist!"

Clave felt somewhat embarrassed as he said, "Well, my son, Benjamin, after obtaining two recipes for first -grade low-level pills, he started to delve into alchemy every day. He's obsessed with alchemy. However, without any guidance, he can only experiment blindly. I don't know if he has any talent in this area."

Pausing for a moment, Clave continued, "Benjamin heard that you are skilled in alchemy and wants to become your disciple. I wonder if you would agree?"

Benjamin, who appeared not only handsome but also a bit honest, seemed a bit nervous at the moment, but finally spoke up. "Sir, I, I really like alchemy. I've already made one, but the quality isn't very good. This is the pill I made. You can take a look."

As Benjamin spoke, he took out the pill he had made and said, "If you are unwilling to accept me as a disciple, I would be grateful for any guidance you can provide whenever you have time."

Severin did not refuse the request. It seemed that the incident of giving the bodyguard a high-grade pill had indeed spread.

After receiving the pill, Severin carefully examined it. He could not help but admit that Benjamin had managed to refine a pill on his own without any guidance, indicating considerable talent and perhaps having endured hardships along the way.

[Chapter 880](#)

At that moment, Benjamin and Clave became extremely nervous when they saw that Severin remained silent and lost in thought. After all, Benjamin was just guessing, but if Severin could offer some guidance, it would undoubtedly improve their future prospects. The most crucial point was that if Severin were to accept Benjamin as his disciple, it would not only benefit Benjamin but also provide support for their family.

After contemplating for a while, Severin decided that it was necessary to take on such a disciple. In the future, he would definitely come into contact with people from other disciplines, and having an extra person to assist in alchemy would be beneficial.

He handed the pill back and said, "The first pill you refined already has such distinct layers, which is actually quite impressive. However, I still want to check and see how strong your mental power is. This is crucial to determine if you're suitable for alchemy. Strong mental power is essential."

“Yes!”

Benjamin felt delighted. From Severin’s tone, it seemed that there was a great chance for him. He immediately released his mental power, and an invisible force spread out.

Severin closed his eyes and sensed it before nodding in satisfaction. “Not bad. With your cultivation at the level two warrior king, your mental power is already comparable to that of a level four warrior king. It indicates that you are highly suitable for alchemy. Your mental power far exceeds that of an ordinary person. From now on, you are my disciple!”

Hearing this, Benjamin and Clave could not contain their excitement. Severin was the Governor of the county and had a good relationship with the War God Calum Irminger. If Benjamin could become Severin’s disciple, the Nicholz’s future would be limitless.

“Thank you, Master. Please accept this disciple’s respect!”

Benjamin immediately knelt down on the ground, respectfully kowtowing to Severin.

“Thank you, Governor. Rest assured, for my son’s alchemy, we will help him find and provide the materials he needs. If you need any materials, we have them and can give them to you,” Clave immediately said excitedly.

Severin smiled faintly and thought for a moment. Then, with a flip of his palm, he took out an alchemy furnace and handed it over. “Benjamin, this alchemy furnace was previously used by me. It’s of decent quality, so I’ll give it to you. You can use it.”

“Thank you, Master!”

Benjamin received the alchemy furnace with excitement, and his eyes shimmered with a special light.

“Get up.”

Seeing that Benjamin was still kneeling, Severin immediately helped him up and said, “It’s still early now. Later, you will refine pills in front of me, and I can guide you. Besides, I have many pill formulas here. I’ll copy a few first-grade low-rank and first-grade mid-rank formulas for you. There are also a few high-rank formulas. You can use these pill formulas for now. When you become a first-grade high-rank alchemist in the future, I’ll give you second-grade formulas!”
