

Revenge On Love Rats After Rebirth by Olivia Marsh Chapter 1328 Storm Is Coming

Chapter 1328 Storm Is Coming

If the girl really had something to do with Callum, Oscar didn't want it, as she already had enough burden on her heart.

And according to Selena's true identity, it was only a matter of time before she left H Country.

Perhaps everything here, except for that man, was not worth staying for that girl.

Patrick looked at Oscar, and for a moment, he seemed to want to say something, but he swallowed it abruptly when he met Oscar's sharp eyes.

"Father, I don't know what you're planning, but I hope... unless it's absolutely necessary, please don't let her get hurt."

"No matter what happened in the past, she is innocent."

Oscar turned his wheelchair and walked away, his indifferent voice came through, "Until the truth about certain things is completely revealed, she will always be Miss Turner."

...

After Selena left the Turner family, she went to Capital University.

Oscar had just reminded her that the power struggle in the institute had reached a critical point, and Cassius couldn't resist showing his fangs anymore. The Capital University laboratory, which was his main target, could not afford any problems.

Selena walked into the laboratory and ordered Leia to call everyone to the meeting room.

Eden was the first to arrive.

Black Crow and White Crow came soon after, and within a few minutes, Joanna came with Hamish.

Selena's gaze fell on Joanna, somewhat surprised, and asked, "How is Dante?"

Knowing that Selena was the owner of Lab 717, she naturally guessed her relationship with Dante.

Joanna gave Selena a cold glance, "Miss Turner, I should really pray that Osvaldo will never do anything to you, otherwise..."

With her ruthlessness and determination, even the death of her lover might not make her look back.

This meant that Dante's situation was obviously not good.

Selena frowned, but before she could speak, Black Crow spoke coldly, "How dare he?!"

Although Julian was smiling, his eyes had already turned cold, "If there really comes a day, it might not just be him who pays the price."

Joanna looked at the two men and it was unclear what she was thinking, as a hint of complexity flickered in her eyes. Then, upon seeing Selena's expression, Joanna's expression became ambiguous.

Leia looked at the big shots who suddenly became confrontational and weakly hugged herself, hiding behind Selena, quietly speaking up for her master's honor, "Young Master would never do anything that would harm Madam Selena, even if it means sacrificing himself..."

Under the watchful gaze of Black Crow and White Crow, Joanna calmly walked over to the sofa and lit a cigarette before looking at Selena, "What brings you here today?"

Selena said in a low voice, "The current leader of the Research Institute is about to be replaced, and Cassius has taken action. He will stop at nothing to target the Capital University laboratory."

As soon as this topic was brought up, everyone's expression became serious.

Although it appeared calm inside and outside the Capital University laboratory at present, everyone present knew that the reason for the calm was that the other side was also waiting for them to develop the vaccine for the underground city.

Once the vaccine for the underground city was released, the peace in the entire capital would be completely shattered.

At that time, it would not just be the various forces in the capital that would be involved.

Whether it was Cassius, the woman hiding in the Riddle family, or even the "Divine Love" behind them, they would all inevitably take action!

Selena currently did not have many people at her disposal. Once she confronted her former "Divine Love," even if she was confident, she dared not say that she could ensure the success of the underground city vaccine.

Because her enemies were not just "Divine Love," but also the various influential families in the capital and even the Empire's "Divine Love," each of whom was a formidable entity.

But even though she knew it was difficult, Selena never had the slightest thought of giving up or retreating.

Her clear gaze swept over the people in the room, and a confident and elegant smile appeared at the corner of her lips, "After waiting for so long, if we still can't find out who's behind all of this, how can I justify enduring the grudges of those two people for so long?"

If it wasn't for the sake of exposing the mastermind behind the destruction of the Turner family, Selena would not have tolerated Cassius and Manny for so long.

The vaccine for the underground city virus was not just a lifesaving medicine, but also the best revenge bait.

Therefore, it must be successful!

Joanna looked at Selena, who appeared ready to go solo, and didn't even consider Osvaldo's existence. She spoke with a cool tone, "Miss Turner, I suggest you go back and thoroughly study your man."

"Study him inside out, from top to bottom, and make sure you research thoroughly!"

Selena blinked, thinking that Joanna was worried that Osvaldo would be affected by her. She said, "You can rest assured, Joanna. I will protect him."

Since she had accepted the confession from the beautiful woman, she naturally had the obligation to protect him.

Joanna and Leia were speechless.

Black Crow's lips twitched.

For a moment, there was an eerie silence in the meeting room.

White Crow coughed, suppressing some emotions, "There won't be any danger here until the underground virus is researched."

"Focus all your energy on the research institute for now. When the matters at the research institute are resolved, we'll arrange for the Capital University laboratory."

This meant that the vaccine for the underground virus would only be available after the matters at the research institute were resolved.

Julian lifted a glass of water and poured a cup of tea for Selena, speaking gently, "Take it one step at a time and don't tire yourself out."

Selena sensed that Joanna's expression was odd, but didn't dwell on it. She nodded at Julian's words, "That's the best way."

For now, she had to devote all her efforts to the research institute.

After arranging a series of matters, Selena walked out of the gates of Capital University in the evening.

Then, she saw Christ waiting outside.

Selena furrowed her eyebrows.

Leia became defensive as soon as she saw Christ.

Christ was now the person in charge of the research institute. It could be said that his attitude was crucial to whether Selena could successfully take the position of the research institute dean and help the Turner family regain control of the institute.

From the moment the news came out, Leia guessed that this man would definitely come looking for Selena.

Christ was leaning against the car door, smoking. When he saw Selena's figure, he extinguished the cigarette and walked towards Selena.

Leia stood in front of Selena, staring at the man with displeasure.

Selena patted Leia's shoulder and said, "It's okay."

Leia looked at Selena and then at Christ, reluctantly stepping aside.
