Chapter 30

But the words had already been driven to this point by Selena, and she could only go along with Selena's words as it was difficult for her to end it in public.

"How come?" Leah collected the coldness in her eyes, the expression on her face looked generous and kind, "Selena, what kind of compensation do you want? As long as I can do it, I will definitely try my best to satisfy you."

Selena tilted her head, smiling faintly as she spat out the words, "I want you to swear in public with everything you own, that you will never lay hand on the Riddle family's shares belonging to my mother, this request is not difficult, right?"

Leah froze.

Before she could say anything, Molly was already the first to scream, "That's impossible! Selena, don't get ahead of yourself, everything in the Riddle family belongs to Leah!"

"Mom!" Leah scrambled to pull Molly's wrist, embedding her nails in her arm, stopping her from losing her temper in time. Unfortunately, Molly's high-pitched screams had been heard by many people, and instantly, they drew a large chorus of accusations.

"What Molly said is ridiculous, what Selena said is the share that belongs to her mother. It is of course reserved for Selena, how can it become Leah's?"

"I can see that this mother and daughter have not only killed Selena's mother, but they have been coveting what her mother left for her, how shameful!"

"Molly is a mistress, Leah is not like her mother, she is so talented, I don't think she would be as shameless as her mother, right?"

Leah was so angry that her eyes went black.

How could she have expected that Selena would actually make such an offer?

Only she knew why Molly had lost her temper in this way.

Because the Riddle family was supported by the former Mrs. Riddle, the woman who had died, and the shares owned by one person almost took up half of the entire Riddle family.

Once these shares were given to Selena, it would mean that the entire Riddle family was owned by Selena alone Mrs. Walson looked at Dominic's face with dissatisfaction and grunted coldly.

If Dominic hadn't completely killed Selena's heart for him, the shares of the Riddle family that ostensibly belonged to the former Mrs. Riddle, plus the twenty percent of shares that Selena held in her hand, the entire Riddle family would definitely belong to Selena.

It would be equivalent to belonging to Dominic.

Selena's maternal grandfather's family was in the capital.

Unfortunately, this was all screwed up by Dominic, a foolish man.

The more Mrs. Walson thought about it, the more she got angry, and she glared viciously at Dominic.

Dominic had obviously thought of this as well, and his face became sullen.

But he still felt condescendingly that he was the only one who disliked Selena, and that all Selena had done was to make him give up Leah and be with her.

Everyone was looking at Leah, waiting for her reply.

After all, the request made by Selena would seem to anyone with a normal outlook as natural and unproblematic.

Not to mention the difficulty of it.

Unless Leah had attention to occupy it. This request was almost considered as Selena's generosity.
