

Almighty D 1071

Chapter 1071: 236: great burning is teaching Zhao Xueyin a lesson. This woman is too fierce! 2

She still managed to charm ye Langhua to death!

“When he heard this, Zhang Peng immediately became anxious and hurriedly said, “Sister Xueyin, don’t! I’m just casually saying it! Don’t worry, I’ll definitely be able to woo Ye Zhuo!” ”

Zhao Xueyin was only then satisfied. “You’ll act according to the circumstances later.”

Zhang Peng nodded.

The two of them returned to the restaurant one after the other. Ye Zhuo had already finished eating and was currently looking at his phone.

“Zhao Xueyin sat in her seat and said with a smile, “Ye Zhuo, you’re still single, right?” ”

Ye Zhuo raised his eyes slightly. “I have a boyfriend.”

A boyfriend? !

Zhao Xueyin was stunned.

“Zhang Peng had already prepared the words, so he could only swallow them silently. ”

“Zhao xueyin smiled and said, “Since you’re so outstanding, your boyfriend must be even more outstanding, right?” ”

Ye Zao picked up the cup and took a sip of coffee. His red lips parted slightly. "Miss Zhao seems to be very interested in my private life?"

Miss Zhao?

Why would ye Zao suddenly call her that?

"Zhao Xueyin narrowed her eyes. She suddenly had a bad premonition in her heart. She smiled and said, "Ye Zao, do you have some misunderstanding about me?" "

"Ye Zhuo gently placed the coffee cup on the table and leaned against the back of his chair. He looked at Zhao Xueyin and said faintly, "Zhao Xueyin, female, 26 years old, unmarried. She graduated from Country F's Ivy League School of Finance. She is the only daughter of Zhao Zhendong of the Shunxi Financial Group and is also one of the executive elders of the Shunxi Financial Group." "

""Tell me, why are you getting close to me?" "

"Ye Zhuo's tone was very calm, but not a single word was spoken. His eyes were cold, as if they were coated with a layer of snow, making people not dare to look at him directly. "

"In fact, the day Zhao Xueyin got close to her, Ye Zhuo already knew that Zhao Xueyin was up to no good. "

"On one hand, he was too lazy to expose her, and on the other hand, he wanted to see what other tricks Zhao Xueyin had up her sleeve. "

Zhao Xueyin was stunned.

She did not expect ye Zhuo to say such a thing.

Could it be that ye Zhuo had been acting with her all these days?

“Zhao Xueyin, who had always been high and mighty, was able to dominate everything no matter where she went. For the first time in her life, she was at a disadvantage in front of a girl who was younger and weaker than her. ”

“Zhao Xueyin decided not to pretend anymore, she smiled and said, “As expected of Aunt Lang’s granddaughter. You are smarter than I thought! I am Zhao Xueyin. I have never lied to you, and I have no intention of getting close to you. I just want to be friends with you.” ”

“At this point, Zhao Xueyin paused, looked at ye Zhuo, and continued: ”

“”You’re Aunt Lang’s granddaughter. You’ll definitely take over the position of Old Master Ye in the future, and Old Master Ye and Aunt Lang are the people I admire the most. That’s why I took the liberty to get to know you in such a presumptuous way. I hope you don’t mind.” ”

“Zhao Xueyin’s words were sincere. If it were anyone else, they would definitely be deceived by her beautiful words. ”

But who was ye Zhuo?

“”Do you mind if we talk about this now since you’ve already done it?”Ye Zhuo picked up the phone on the table. “Miss Zhao, we still have a long way to go! See You at the Shunxi Financial Group.” ”

“After saying this, Ye Zhuo turned around and left. His back view was extremely dashing. ”

Zhao Xueyin looked at ye Zhuo’s back view and frowned. She picked up the cup on the table and threw it on the ground.

Crack!

The Coffee Cup was smashed into pieces.

“At this moment, ye Zhuo suddenly looked back and met Zhao Xueyin’s angry eyes. He smiled and opened his red lips. “I forgot to thank Miss Zhao for your hospitality. The free lunch is indeed delicious!”

“Under the bright crystal lights, she just stood there. Her lips were red and her teeth were white. Her eyes were like a painting. ”

Her appearance was so infuriating.

“Zhao Xueyin was so angry that her whole body was trembling, but she had no choice but to control her emotions. ”

Damn it!

This damn ye Zhuo!

“For the first time in her life, she, Zhao Xueyin, was actually fooled by a little girl! ”

Meet with the Shunxi Financial Group?

“How confident ye Zhuo was today, she would make ye Zhuo regret it in the future! ”

Zhao Xueyin held her anger in her heart and felt extremely uncomfortable.

“At this moment, a waiter from the restaurant jogged over. “Customer, May I help you?” ”

““No Need!”Zhao Xueyin continued, “The bill.” ”

“Please follow me over here.”

“Zhang Peng said, “Sister Xueyin, let me settle the bill.” ”

“No need.” Zhao Xueyin followed the waiter to the cashier counter.

“The waiter continued, “Including the Broken Cup, it’s a total of 1,080 yuan.” ”

Zhao Xueyin took out a gold card. “Swipe it.”

“”Okay, please wait a moment.”The cashier took the gold card with both hands. ”

Chapter 1072: 236: Great Burning is teaching Zhao Xueyin a lesson. This woman is too fierce! 3

“Zhang Peng carefully walked over from behind. “Then what sister Xueyin, I’ll be leaving first.” ”

Zhao Xueyin nodded.

Zhang Peng immediately ran away.

...

“Just as Zhang Peng walked out of the restaurant, he saw ye burning get into an SUV that was extremely cool. ”

“A few seconds later, the SUV disappeared into the traffic. ”

“Zhang Peng stood there with his mouth agape. After a long while, he said in a daze, “So Cool!” ”

This was the first time Zhang Peng had seen a girl drive a car so well.

He did not know what Zhao Xueyin was thinking. She actually thought that he could catch up to a girl like ye Zao!

“Thinking of this, Zhang Peng shook his head speechlessly.”

In the SUV.

Ye Zao received a call.

It was from Cen Jiang. Ye Zao held the steering wheel with one hand and picked up the phone with the other. “Hello.”

“”Miss Ye, it’s me.” ”

“”Speak,”ye Zao said concisely.”

“”Miss Ye, do you have time to come to the base now?” ”

“There was a crossroad ahead, so ye Zao was going straight. Hearing this, he suddenly turned the steering wheel. “I’ll be there soon.” ”

Chi —

“The tires scraped against the ground, creating a cloud of green smoke.”

The driver in the car behind was stunned. “D * MN! This woman is too fierce!”

“Half an hour later, the handsome SUV stopped steadily at the entrance of the base.”

“The car door opened, and a handsome and slender figure leaned out of the car. There was light snow floating in the air, and it was unknown what had turned into a heavy snowfall. The sky was filled with flying snow, and the figure in the wine-red coat., it was as dazzling as the red plum blossoms blooming in the cold winter. ”

“”Is that Miss Ye?”Just then, the gate of the base opened, and two little girls walked out. ”

“It’s Miss Ye!”

The round-faced little girl’s eyes were almost sparkling. “Miss Ye is so beautiful! No wonder even master five was conquered!”

“As they spoke, Ye Zhuo had already walked in front of the two. ”

“The round-faced girl mustered up her courage and said, “Miss Ye!” ”

“Hello.”Ye Zhuo lowered his eyes slightly.

“After receiving ye Zhuo’s reply, the round-faced girl was so excited that she almost jumped up. She did not expect ye Zhuo to respond to her. ”

“The round-faced girl continued, “Miss Ye, can we... can we take a photo with you?” ”

“Sure.”Ye Zhuo never refused a kind request.

“That’s Great!”

“After successfully taking a photo with Ye Zhuo, the two girls were still a little confused. ”

Who would have thought that ye Zhuo would be so approachable?

“The round-faced girl held her phone and said, “Miss ye is really, really great!” ”

On the other side.

“Ye Zhuo had already walked to the office. Just as he took off his coat, someone knocked on the office door. ”

“”Come in,”ye Zao said faintly. ”

“Cen Jiang jogged out of the office and looked at Ye Zao. “Miss Ye, you’re finally here!” ”

“”What happened?”Ye Zao rolled up his sleeves, revealing a fair and beautiful arm. ”

“Cen Jiang continued, “There was a technical problem during the construction process. You may need to come over personally to take a look.” ”

“Okay.”

Ye Zhuo followed Cen Jiang to the construction warehouse.

“The construction warehouse was very large, covering an area of 10 hectares. At this time, the plan to develop an aircraft carrier was already in full swing. Everyone was doing their jobs in an orderly manner. ”

“”Old Nie! Old Nie! Miss Ye Is Here!”Just as they stepped into the construction warehouse, Cen Jiang pressed the communicator on his chest. ”

“”Team leader Cen Jiang, we are in area c.”old Nie’s voice came from the other end of the communicator. ”

“Cen Jiang turned to look at Ye Zhuo. “Miss Ye, come with me.” ”

Ye Zhuo followed Cen Jiang’s footsteps.

Old Nie and a group of researchers were discussing the welding work in Area C.

“Aircraft carriers were space tools, so the welding work had to be precise. However, they had found many masters, but they were unable to do it exactly as described in the blueprint. ”

“Cen Jiang brought ye Zhuo to old nie and the group of researchers. “Old NIE, let me introduce you. This is Miss Ye.” ”

Old Nie looked up and saw ye Zao with long hair draped over his shoulders.

The little girl was very beautiful.

It was just that...

She was a little young.

Too Young!

“When old nie first received the aircraft carrier design from Cen Jiang, he was still full of confidence. He felt that this miss ye, whom he had never met before, would definitely be able to lead them to develop the most powerful aircraft carrier and make the whole world cheer for them! ”

“When old nie first saw the aircraft carrier design, he was shocked, but now he was disappointed. ”

This...

Wasn't she just a little girl?

She looked a few years younger than his daughter.

Chapter 1073: 236: Da Zao wants to teach Zhao Xueyin a lesson. This woman is too fierce! 4

"Such a young girl, she probably doesn't even understand the principle of a plane taking off. How could she develop an aircraft carrier? "

This is simply a fantasy!

"For a moment, old NIE's expression was very complicated. "

"Ye Zao looked at Old Nie with a smile. "Hello, I'm Ye Zao. If you have any problems, just tell me." "

Tell Her?

Could she understand?

Old Nie was already fifty years old this year. What was there to talk about with a little girl?

It was a waste of time.

"Old Nie looked at Cen Jiang. "Team leader Cen Jiang, I'm sorry, Miss Ye! I suddenly feel a little uncomfortable in my stomach and I need to go to the bathroom." "

“Cen Jiang said, “Old nie, go quickly! I’ll talk to Little Ma, Little Liu, and the others.” ”

“Old Nie took off his helmet and walked toward the exit. As soon as he turned around, his expression changed. Anyone with a discerning eye could tell that old nie was in a bad mood.”

“Old Nie was an old researcher in the base. Seeing him like this, the other research members passing by discussed animatedly.”

“What’s wrong with old Nie?”

“I don’t know.”

“Did he get bullied in Miss Ye’s research group?”

“What’s going on? Old Nie joined Miss Ye’s research group too? Why didn’t I know?”

“”It’s all because of Cen Jiang!”! “But old nie wanted to join sister Xue’s laboratory. Who knew Cen Jiang would trick him into developing an aircraft carrier together? Looking at him now, it’s most likely that he has woken up!”! “It’s not too late to make amends. If only old nie could wake up earlier. Unfortunately, Sister Xue’s research room is already full!” ”

“DAMN! This old nie is too miserable!”

“”But this is also his own fault! He didn’t even use his brain to think. What is an aircraft carrier? If they really can successfully develop an aircraft carrier, wouldn’t miss ye become a national treasure?” ”

“”I heard from Cen Jiang that the aircraft carrier that miss ye developed can not only fly in space, but also successfully land on the eight planets of the Solar System within a day!” ”

“”F * ck! Is this for real? ! Land on the eight planets? If we can really land on the eight planets within a day, won’t the entire Solar System become China’s?”There were so many precious resources in the Solar

System! If these resources could be transported back to Earth, wouldn't China surpass country C and become the number one country in the world? ! ”

Just thinking about it made him extremely excited!

“That person continued, “No way! I want to join Miss Ye’s Ye’s research group too!” ”

“The eight planets of the Solar System?” A bespectacled middle-aged man in the crowd sneered. “Do you know what is the furthest planet from Earth among the eight planets?”

“Of course it’s Neptune!”

“The middle-aged man continued, “Then do you know how many kilometers Neptune is from Earth?” ”

“This time, no one could answer. ”

This involved everyone’s blind spot.

“Although everyone was a research member, who would study the distance between Neptune and Earth for no reason? ”

“The middle-aged man continued, “Neptune is 4.35 billion kilometers from Earth!” ”

“At this point, he paused, then, he continued, “Do you know what 4.35 billion kilometers is? Based on the current speed of the world’s fastest aircraft, 300 kilometers per year, it would take nearly 200 kilometers to reach Neptune!” ”

“As soon as he said this, a gasp came from the crowd. ”

200 years?

This was too terrifying!

“What if Miss ye designs an aircraft carrier that can reach the speed of light?”

“Hearing that, the middle-aged man’s face was filled with a disdainful smile, “Speed of light? It’s not that I’ve underestimated Miss Ye, but with Miss Ye’s current ability, it’s still impossible to develop an aircraft carrier! You still have delusions of reaching the speed of light? Isn’t this a Dream?”Speaking up to this point., the middle-aged man patted the man’s shoulder and said meaningfully, “It’s better for young people to keep their feet on the ground and dream less!” ”

“Old Nie’s mood was not very good to begin with, so when he heard these words, his mood became even worse. He could not help but sigh. ”

It was all his fault for being obsessed!

“The middle-aged man raised his head to look at old nie, he smiled and said, “Old NIE, ah! You should also take good care of your disciple! Oh! But you can’t completely blame your disciple. As the saying goes, ‘the best is not the best’. With a good master like you around, how good can your disciple be?” ”

“Yu Zifei said angrily, “Don’t you dare talk about my master like that! Miss Ye will definitely lead my master and the others to develop an aircraft carrier and land on Neptune!” ”

“The middle-aged man laughed out loud, “The carbon content on Neptune is as high as 10% , the pressure is 11 million times that of Earth, and the temperature is as high as 4,000 degrees Celsius. Methane and ammonia ice will become hot liquids under the immense pressure, and carbon atoms will also start to crystallize into diamonds. If your miss ye can really bring it to land on Neptune, then the expensive diamonds won’t be a big deal. When that time comes, our China will not only become a diamond country, but also realize diamond freedom! I wish Miss Ye an early completion of the aircraft carrier program!” ”

Chapter 1074: 236: great burning is going to teach Zhao Xueyin a lesson. This woman is too fierce! 5

“When he said that, the surrounding people burst into laughter. ”

Diamond Freedom?

How could that be possible!

“The conditions on Neptune were harsh. Even if ye Zao had designed the speed of light, the aircraft carrier would not be able to land on Neptune smoothly! ”

Yu Zifei wanted to say something else.

Old Nie’s face was cold. “Zifei! Come Back!”

Yu Zifei walked over unwillingly. “Teacher! He...”

Old Nie interrupted Yu Zifei. “Don’t embarrass me here! Follow Me!”

Embarrass me?

Yu Zifei’s heart was filled with blood and he felt very uncomfortable.

How could he be called embarrassed?

““Teacher! You’re mistaken! They were slandering miss ye just now, so i...” ”

Old Nie sighed. “What they said is right.”

“Teacher?”Yu Zifei looked at old nie in surprise.

“Old Nie continued, “Miss Ye’s aircraft carrier project was originally a dream. I was also old and muddle-headed, so I decided to join her research group!” ”

“Yu Zifei did not expect his teacher to suddenly become like this. “Teacher, you’re one of Miss Ye’s research group members. How can you say that about Miss Ye! You should believe in Miss Ye!” ”

Old Nie sighed and did not say another word.

“At this moment, footsteps suddenly sounded behind him. ”

“Nie Gong.”

Old Nie turned around and saw Tang Xue. “Miss Tang.”

“Tang Xue smiled and said, “Nie Gong, what’s wrong with you? Why are you frowning?” ”

“Nothing.” He had chosen to join Ye Zhuo’s research team back then. It was too late for him to say anything now! He could only bite the bullet!

“Tang Xue seemed to have seen through old NIE’s worries. “Nie Gong, you’re worried about Miss Ye’s aircraft carrier plan, right?” ”

“Hearing this, old nie felt a little embarrassed. Back then, Tang Xue had visited the cottage three times and wanted to invite him to join her laboratory. However, his head had been kicked by a donkey and he had directly rejected Tang Xue! ”

There was no use regretting it now!

“If he had known earlier, he wouldn’t have rejected Tang Xue no matter what. ”

“Tang Xue continued, “Nie Gong, actually, I knew long ago that there was a loophole in the aircraft carrier plan. After all, Miss Ye’s age was obvious. Even if she had the ability to build an aircraft carrier, she also lacked actual combat experience. Talking about war on paper is ultimately empty. That’s why I had to visit the cottage three times!” ”

“When old nie heard this, his face alternated between green and white. He didn’t know what to say. ”

“Tang Xue looked at old nie and said, “Nie Gong, if you regret now, the door of our Tang family’s laboratory will always be open to you!” ”

“When he heard this, old Nie’s eyes lit up. “Miss Tang! Are you serious?” ”

“Tang Xue smiled and said, “Of course I’m serious! Do you think I would lie to You? As long as you’re willing to come back, we welcome you at any time!” ”

“Old Nie said somewhat embarrassedly, “Miss Tang, do you not mind at all that I treated you in the past?” ”

““What’s there to mind!”Tang Xue continued, “Everyone makes mistakes. Moreover, none of us are Saints!” ”

“Miss Tang! Thank you!”Old Nie was ashamed. “Thank you for not bothering with me!”

““It’s nothing,”Tang Xue smiled and said, “Nie Gong, if you’ve thought it through, just contact me. I have something to do, so I’ll leave first.” ”

““Take care, Miss Tang.”Looking at Tang Xue’s back, the dark cloud in old Nie’s heart finally dissipated. ”

“Yu Zifei frowned slightly. “Teacher, you’re not really going to quit Miss Ye’s research group, are you?” ”

“Old Nie nodded, “I was originally worried that Miss Tang would hold a grudge against me for rejecting her before. Now that Miss Tang isn’t willing to hold a grudge against me, why shouldn’t I go back?” Old Nie wasn’t the kind of person who wouldn’t turn back until he hit a wall. ”

“”Teacher! How can you do this?” Yu Zifei frowned. “Now that Miss Ye’s aircraft carrier project has begun, if you withdraw now, who will fill your vacancy?” ”

“Old Nie patted Yu Zifei’s shoulder. “Zifei, you’re still young. Some things can not be done with a passion. When you reach my age, you’ll understand my current mood!” Old Nie was already in his fifties, he had practically dedicated his life to the Cen family’s base. He wanted to do something when he retired! ”

He didn’t want to be ridiculed by others by following ye Zhuo!

“After entering Tang Xue’s laboratory and retiring, he would receive a sky-high pension. ”

“Following ye Zhuo, not only would he not receive any pension, he would also be ridiculed by others! ”

Chapter 1075: 236: great burning hands to educate Zhao Xueyin. This woman is too fierce! 6

“Yu Zifei did not understand old nie. He really did not understand. As a person, one should have a beginning and an end. What was the point of retreating halfway? ”

“Teacher! This is not the work of a Gentleman!”

“Old NIE continued, “I only know that a wise man submits to circumstances! Since you mentioned the work of a gentleman, after I leave, you can volunteer and apply to join Miss Ye’s research group!” ”

“After saying this, old nie strode towards the construction warehouse. ”

Yu Zifei looked at old nie's back and frowned.

"Cen Jiang had been waiting for old nie for a long time. "Old Nie, you're finally here!" "

"Old Nie ignored Cen Jiang and looked at Ye Zhuo. "Miss Ye, I have a presumptuous request. I hope you can fulfill it." "

Ye Zhuo raised his eyes slightly. "Go ahead."

"Old Nie continued, "Miss Ye, I'm almost 50 years old this year. There are many things that I'm already unable to do. Back then, I didn't think it through and joined your research group. Now that I think about it, I really shouldn't have, so I think... .. I think.." "

"Quitting at the last minute was indeed not something to shed tears in the light. At the end, old Nie felt a little embarrassed. "

"Ye Zhuo revealed old nie's worries in a single sentence. "So you're backing out of the research team first, right?" "

"Yes." Old Nie hurriedly nodded.

"Cen Jiang said in disbelief, "Old nie! What are you talking about? You're joking with Miss Ye, right?" "

"Old Nie shook his head and said very seriously, "Team leader Cen, I'm not joking." "

"Old Nie!" Cen Jiang frowned. "Now that the aircraft carrier plan has been implemented, what do you mean by backing out now?" "

"Old Nie raised his head to look at Cen Jiang. "Team leader Cen, I have my own difficulties. I hope you can understand." "

Understand?

Withdrawing at the last minute was a matter of character. How could he understand old nie?

“Not to mention that he couldn’t understand old nie, he probably wouldn’t be able to pass ye Zhuo’s test!”

“Cen Jiang continued, “Old nie, you were the one who volunteered to join our research team back then. No one made things difficult for you. Now that you want to withdraw, don’t you think it’s a very immoral thing to do?” ”

““Back then, it was my fault for being obsessed. I’m willing to bear all the consequences.” ”

“Cen Jiang was so angry that he pressed his temples. He looked at ye Zao again, and his expression remained indifferent. ”

““Miss Ye, I hope you can help me!”Old Nie looked at ye Zao with a sincere attitude. ”

“Ye Zao’s red lips opened slightly. “It’s not sweet to force things. Since you’ve already said it to this extent, then I won’t force you to stay. But there’s something I want to say first.” ”

““Miss Ye, please speak,”said old nie. ”

“Ye Zhuo’s expression was indifferent as he enunciated each word clearly. “You only have one chance. If you choose to withdraw this time and want to join us again, it’ll be difficult. I, Ye Zhuo, never accept people who go back on their words and have other intentions!” ”

“Hearing this, old nie almost laughed out loud. ”

Regret?

He would regret it?

“This little girl, Ye Zhuo, isn’t she overestimating me too much! ”

Who Did she think she was?

“Old Nie held back the smile in his heart and looked up at Ye Zhuo. “Miss Ye, don’t worry! I, old NIE, have always kept my word and never regretted it! Since I said so today, I definitely won’t regret it!” ”

“Ye Zhuo nodded slightly and turned to look at the others. “If any of you are like old Nie and don’t want to stay here, you can choose to leave with old nie.” ”

“As soon as he said this, five or six people immediately walked out and stood behind old nie. ”

“Ye Zao continued, “Is there anyone else?” ”

Another seven or eight people walked out one after another.

“They were already full of questions about the aircraft carrier plan. Now that they saw that ye Zao was so young, they became even more nervous. Now that they heard ye Zao say this, they all chose to stand out. ”

“Is there anyone else?”Ye Zao asked again.

“Seeing that no one stood out, ye Zao continued, “Are you sure there’s no one else? If we miss this opportunity today, if anyone regrets leaving at the last minute in the future, it won’t be that simple!” ”

“After saying this, more than ten people stood out. ”

“This way, the technical team’s personnel were reduced by more than half. ”

Cen Jiang was extremely anxious.

“Since everyone had left, how was the aircraft carrier plan going to continue? ”

Ye Zhuo’s expression did not change. “Is there anyone else?”

“This time, no one stood up. ”

“Ye Zhuo turned to look at Tang Mi. “Little Tang, bring them to go through the procedures.” ”

“”Okay.”Tang mi nodded and turned to look at everyone. “Everyone, follow me.” ”

“After everyone left, Ye Zhuo turned to Cen Jiang and said, “Find someone to replace old Nie’s work. Then, tell me about the problems you’ve encountered.” ”

“”Okay.”Under the current situation, Cen Jiang could only try his best to calm himself down. ”

“After giving Cen Jiang Instructions, ye Zhuo tied up his hair and casually picked up a thin wire to fix it. Then, he put a helmet on his head and walked into the construction warehouse. ”

Cen Jiang stared blankly at Ye Zao’s back. It took him a long time to react and quickly ran over to look for ye Zao.

“About an hour later, Cen Jiang did the handover work and brought his men to the construction warehouse. However, Ye Zao was nowhere to be seen. ”

“Coincidentally, Tang Mi was walking over. Cen Jiang pulled tang mi and said, “Little Stutterer, have you seen Miss Ye?” ”

“Tang mi said, “Miss Ye is in area c.” ”

“”Thank you.”Cen Jiang turned to look at the man beside him. “Zhou Gong, let’s go to Area C!” ”

The man known as Zhou Gong nodded.

“As soon as they arrived at Area C, they saw ye Zhuo wearing a helmet and standing in the middle of a group of workers, “In order to solve the problem of aircraft carriers flying at hypersonic speeds in the atmosphere, we have to use nuclear reactors to power them. Therefore, don’t skip the steps that shouldn’t be skipped here!” ”

“Someone questioned, “Nuclear reactors require a large number of reactors. Normal nuclear power plants, nuclear submarines, and all of them are built at the seaside. We are not near the seaside here. Will this really work?” ”

Ye Zao’s eyebrows remained unchanged. He picked up the blueprint and wrote a formula in less than a few minutes. He handed it to the person. “Take a look at this.”

“After the person received ye Zao’s formula, he was immediately speechless.”

“At this moment, Cen Jiang brought Zhou Gong to ye Zao’s side and said, “Miss Ye! This is Zhou Gong, the person who replaced old nie.” ”

“Ye Zao took the initiative to extend his hand to Zhou Gong. “Hello, I’m Ye Zao.” ”

“”Miss Ye, I’ve heard a lot about you. I’m Zhou Dongyang!”Zhou Gong reached out and held ye Zao’s hand.”

“After saying that, Zhou Gong took out the blueprint and continued, “Miss Ye! You see, there’s a problem here. No matter what kind of welding tool is used here, it can’t achieve the precise effect that you want.” ”

“Ye Zhuo took the blueprint and frowned slightly. “How about this, I’ll follow you to the scene to take a look.” ”

“Okay.” Zhou Gong nodded.

Ye Zhuo followed Zhou Gong to Area C.

On the other side.

Old Nie came to Tang Xue’s laboratory.

“Tang Xue welcomed old Nie’s arrival. “Nie Gong, welcome to our laboratory.” ”

“Old Nie said a little embarrassedly, “Miss Tang, I still have something to trouble you with.” ”

“Go ahead.”

“Old Nie continued, “Besides me, there are more than twenty other researchers who have left Miss Ye’s research group, so I’d like to ask for your help.” ”

More than twenty researchers had left!

Wasn’t this equivalent to more than half of ye Zao’s main research group members leaving?

“Thinking of this, Tang Xue’s eyes flickered with Schadenfreude. ”

More than twenty research members had left. She wanted to see how ye Zao would end up next.

“Chapter 1076: 237: a slap in the face, YC’s father is mighty! 1”

“When she thought about the fact that ye Zao’s research team had lost more than 20 researchers and that the aircraft carrier project could not continue, Tang Xue felt extremely happy. ”

She had long disliked ye Zao.

“Unfortunately, Ye Zao’s ability was too high, and she could not shake ye Zao’s position in the base. ”

“Moreover, Ye Zao’s starting point was too high. ”

“She was only 20 years old, but she was already a YC doctor in the science and technology industry. Tang Xue still couldn’t forget the scene of ye Zao being worshipped by a group of big shots at the last foreign science and Technology Exhibition. ”

“As the saying goes, the higher you stand, the more miserable you fall. ”

“Ye Zao put down his arrogant words, saying that he could develop an aircraft carrier. Right now, who knew how many people were waiting to see ye Zao make a fool of himself. ”

“At that time, Ye Zao would become the biggest joke in the science and Technology World! ”

“Seeing that Tang Xue did not speak for a long time, old nie said somewhat uneasily, “Miss Tang, if you feel that it’s difficult, then forget it.”After all, there were twenty researchers. Even if Tang Xue wanted to help, she was afraid that even if she wanted to, she would not be able to. ”

“Tang Xue instantly reacted and said with a smile, “It’s not difficult! It’s not difficult at all!”After saying that, Tang Xue looked at the assistant beside her and said, “Xiao Wei, you and Nie Gong go and calculate the list of researchers!” ”

“Okay.”Xiao Wei nodded.

“Hearing that, old nie was moved and said, “Miss Tang, thank you! I thank you on behalf of everyone!” ”

“Tang Xue said, “Nie Gong, you’re too polite. We’re all from the same base, so it’s normal for us to help each other! Now that you’re in trouble, if I don’t show you anything, that would be too cold.” ”

“Hearing this, old nie bowed to Tang Xue. ”

“At present, all the experiments in the base had already started. If no one was willing to let them join, then they could only wait for the experiment to end before joining the new experimental group. ”

The shortest experiment would only end half a year later.

“Now that Tang Xue was willing to help them, old nie was really touched! ”

Probably no one else in the entire base was willing to help them apart from Tang Xue!

“Thinking of how he had previously rejected Tang Xue, old nie felt extremely ashamed. ”

“Fortunately, Tang Xue wasn’t willing to argue with her. ”

“Tang Xue smiled as she helped old nie up. “Nie Gong, bring Xiaowei to do the list first! Don’t worry, I’ll definitely arrange a proper position for them.” ”

Old Nie thanked her a few more times before bringing Xiaowei to do the list.

“Tang Xue looked at Old Nie’s back, her eyes filled with ridicule. ”

She wasn’t helping old nie.

She was helping herself.

“Once ye Zao fell from the altar, she would still be the brightest star in the CEN experimental base!”

What was ye Zao?

“Speaking of which, ye Zao had dug his own grave. If she hadn’t come up with the aircraft carrier plan, things wouldn’t have turned out this way.”

“Since ye Zao wanted to be famous so much, she would help ye Zao. Tang Xue had a plan in mind.”

“Ruth.”

“Sister Xue.” Ruth walked to Tang Xue’s side.

“Tang Xue continued, “Post Miss Ye’s aircraft carrier plan on the International Technology website.” ”

“Currently, only the people at the CEN base knew that ye Zao was going to build an aircraft carrier.”

Although the base was holding a press conference tomorrow.

But the international science and technology network was connected to the entire world. Wouldn’t it be better if everyone in the world knew about this news?

It was just a show.

“Of course, the more the audience, the more exciting it would be!”

Ruth nodded. “Okay.”

“After saying this, Ruth went to the international network to release the news of ye Zao building an aircraft carrier. ”

“Not long after, a piece of news on the international network was placed at the top as a hot topic. ”

nuhulu YC officially joined the CEN base and reached an agreement with CEN Wuye to officially develop an aircraft carrier capable of landing on the eight planets within two years!

NUHULU YC builds an aircraft carrier!

landing on the eight planets within two years!

“Upon seeing this piece of news, the International Science and technology network exploded. ”

An aircraft carrier!

Eight planets!

And it was a two-year period.

“No matter which keyword it was, it was shocking. ”

Damn! Is this for real? Dad joined the CEN family base? and he wants to build an aircraft carrier

Dad merged with his stepmother

Dad Is Awesome

Not to mention whether he can land on the eight planets! Are you sure it's a two-year period? Two hundred countries joined hands and haven't built an aircraft carrier in more than sixty years. Niu Hulu can build an aircraft carrier in two years? Are you sure it's not a joke

[I was so scared that I dared to go in and check the calendar. I'm sure that today is not April 1st.]

"[when dad was dealing with dozens of missions a day, you guys said that dad was a team of a thousand people. In the end, Dad still slapped me in the face!] "

"Chapter 1077: 237: a slap in the face, YC's dad is awesome! 2"

"[the brother upstairs is right! Dad has never been a braggart. Since she has joined her stepmother's base, she will definitely be able to complete the aircraft carrier project within two years.] "

-LSB- suppDad dad!]

[we all believe in Dad!]

"[Niu Hulu's dog licks are too crazy! They actually believe in such unrealistic words, building an aircraft carrier within two years? Why didn't she say that she would ascend to the Sky?] "

"[let's make a hypothesis!]! If Niu Hulu could really build an aircraft carrier that could land on the eight planets, that would be a matter that would benefit all mankind! Not to mention other planets, just the diamonds on Neptune alone could allow us to realize the National Diamond Freedom Plan!] "

[F * ck! Diamond Freedom!]

"[the previous poster also said that it was just a hypothesis! Diamond Freedom. If the aircraft carrier could really be developed so easily, why wait until now?] "

[has Niu Hulu gone crazy? Aircraft carrier? Does she think that building an aircraft carrier is as easy as building a plane? Who does she think she is? She dares to boast about anything!]

“[I’m not a fan of Niu Hulu. I used to think that Niu Hulu was pretty good. At least she could win glory for the country in the science and Technology Competition!]! [but now, why does Niu Hulu look like she has been bewitched by someone?]? [developing an aircraft carrier?]? [and she even made such a big deal out of it!]! [isn’t she afraid that she will be blacklisted by the Chinese science and Technology Industry?] ”

“[don’t forget, Niu Hulu is not only a big shot in the science and technology industry, she is also a star in the entertainment industry. She probably thinks that the science and technology industry is a food industry! isn’t it just bragging to make it hot? Anyway, bragging is not illegal!] ”

“[no matter what others say, we, the brothers of the Niu Hulu family, have always supported Dad!] ”

[right! We have always supported Dad!]

[waiting for dad to slap his face!]

[dog licking is so disgusting!]

“[watch carefully, dog licking, it’s not certain who will slap whose face!] ”

“[hahaha! Building an aircraft carrier within two years, this is definitely the biggest joke I’ve seen in 20120!] ”

[this is the international network! It’s so embarrassing that it’s thrown overseas!]

“[even if we succeed, we will fail! China’s technological path has come to an end. Niu Hulu hasn’t even achieved anything yet, and she’s already so arrogant!] ”

[she's indeed arrogant! Could it be that the experts from over 200 countries are inferior to her? Who does she think she is?]

"[Niu Hulu's contribution to the technological world is undeniable, but she can't do it Like This! With her arrogance, does she still have anyone in her eyes? Building an aircraft carrier? I think she's using the intelligence of the experts from all over the world to rub against the floor!] "

"[niu Hulu seems to have forgotten the saying that the stronger the better!]! Although she won first place in last year's science and technology competition, there were many experts who were stronger than her. It was just that they disdained to show up! Unlike Niu Hulu, who actually said that she could build an aircraft carrier! Did she think that her family owned an aircraft carrier company? What a joke "

"[everyone, let's not talk too much. Niu Hulu's sons are not to be trifled with. They are afraid of getting into trouble!] "

[sit and wait for tomorrow's press conference!]

[sit and wait together!]

Tang Xue sat in front of the computer and looked at the comments on the forum. The corners of her mouth curled up slightly.

The reactions of the people on the international internet were more extreme than she had imagined.

It was not even two years yet!

"Once it was two years, Ye Zhuo would really lose face abroad! "

"Moreover, the base was going to hold a press conference tomorrow. "

"Now that half of the researchers in ye Zhuo's research group were gone, she wanted to see how ye Zhuo would explain it to everyone. "

“Thinking that ye Zhuo would make a fool of himself in front of the cameras tomorrow, Tang Xue felt extremely happy, and the curve of her lips became more obvious. ”

On the other side.

At the construction warehouse in Area C.

“Actually, Zhou Gong was the same as old nie from before. He had doubts about ye Zao. After all, Ye Zao was too young, but he believed in the four brothers, Jianghe Huhai. ”

“Since Jianghe Huhai had no doubt in Ye Zao, then ye Zao definitely had a reason to convince them. ”

“Looking at ye Zao who was speaking with assurance and assurance, Zhou Gong could not help but say, “Miss Ye, talking on paper is still talking on paper. Can you please give us a demonstration?” ”

Ye Zao smiled slightly. “Of course.”

“As she spoke, she walked to a worker’s side and bowed slightly. “Let me use the computer for a while.” ”

“Okay.”The worker in blue uniform stood up and offered his seat to Ye Zao.

“Ye Zao sat in front of the computer and pressed two buttons casually. The computer screen switched to the 3D design page. He clicked on it and enlarged it. Then, he began to modify the loopholes. After modifying the design, Ye Zao looked up at Cen Jiang, “Bring me a precision welding machine.” ”

Chapter 1078: 237: a face-smacking reversal. YC’s father is mighty! 3

“Okay!”Cen Jiang nodded and jogged over to get something for Ye Zhuo.

“A moment later, Cen Jiang came over with the precision welding machine. “Miss Ye, here.” ”

“Ye Zhuo took the welding machine, put on his goggles, and walked inside. ”

“Cen Hu looked at Tang mi beside him in surprise. “Miss Ye, are you going to do it yourself?” ”

“I think so.”Tang mi nodded.

“While she was speaking, ye Zao had already taken the welding tool in his hand and started to operate it. ”

“She was wearing a pair of goggles and was half-squatting there. Sparks flew from the welding, but there was not a single trace of fear on her. ”

Every welding position was accurate to 0.001 millimeters. Even the advanced welder was amazed.

Zhou Gong looked at her and narrowed his eyes. His nervous heart instantly calmed down.

He had a feeling that ye Zhuo would definitely lead them to build an aircraft carrier that would shock the whole world!

Zhou Gong was instantly full of confidence!

“After ye Zhuo finished welding a point, he told the welder about his experience. ”

More than twenty senior welders listened very seriously!

“”Team leader Cen Jiang.”At this moment, the assistant walked to Cen Jiang’s side. ”

“What’s Wrong?”Cen Jiang turned his head to look.

“The assistant continued, “Yu Zifei wants to see you.” ”

“Yu Zifei?”Cen Jiang frowned. “Is it old Nie’s disciple?”

“Yes.”The assistant nodded.

“Cen Jiang continued, “Did he say what it is?” ”

“He didn’t say.”

“Cen Jiang Thought for a moment, then turned around to say something to Cen Hu. He then followed his assistant to the construction warehouse. ”

“Yu Zifei was waiting outside the construction warehouse. When she saw Cen Jiang coming over, she immediately went up to him and said, “Team leader Cen Jiang.” ”

“Because of old NIE’s matter, Cen Jiang didn’t have a good expression towards Yu Zifei. “Why are you looking for me?” ”

“Yu Zifei said, “Team leader Cen Jiang, I want to join Miss Ye’s research team.” ”

“Cen Jiang was stunned. “The two of you are quite interesting. One chickened out at the last minute, and the other applied to join at this time...”speaking up to this point.., cen Jiang paused for a moment before continuing, “Who knows what kind of shameful ideas the two of you are planning!” ”

“Cen Jiang had a very good impression of old nie and his disciple in the past. Ever since Old Nie’s ‘betrayal’, Cen Jiang’s influence on old Nie had plummeted. ”

A normal person would not do such a disgusting thing!

“Yu Zifei continued, “Team leader Cen Jiang, I want to join Miss Ye’s research team. There will be a press conference tomorrow. I want to contribute to the research team. Please give me a chance.” ”

Cen Jiang Sized Up Yu Zifei from head to toe.

“Yu Zifei generously let Cen Jiang size him up, he said sincerely, “Team leader Cen Jiang, teacher Nie’s actions were indeed his fault, but I’m me, and teacher Nie is teacher Nie! Team leader Cen Jiang, please let me join the research team!” ”

Cen Jiang narrowed his eyes. “Aren’t you afraid that Miss Ye will disappoint you?”

“I believe in Miss Ye!”

“Cen Jiang nodded. “Alright, even if you believe in Miss Ye, what if Miss Ye really can’t build an aircraft carrier? After two years, it’ll be a futile effort. What are you going to do? Aren’t you afraid of being implicated by Miss Ye?” ”

“”Then I won’t regret it either!”Yu Zifei said very seriously. “Since I chose to believe in Miss Ye, I’ll never regret it! In this life, I have to go crazy for myself once!” ”

“Although so far, more than 200 countries around the world had failed to build an aircraft carrier, Yu Zifei believed in ye Zhuo! ”

“Even if ye Zhuo really couldn’t build an aircraft carrier, he wouldn’t regret it! ”

Yu Zifei was fortunate enough to watch the live broadcast of last year’s science and technology competition.

He knew how powerful ye Zao was.

“From then on, he became a member of the NIU Hulu family. ”

“Now That Ye Zao’s research team was short of manpower, as his son, he naturally couldn’t just stand by and watch! ”

“Are you sure?”

“Yes! I’m sure!”Yu Zifei’s gaze was firm.

Cen Jiang glanced at Yu Zifei. “Wait here. I’ll go ask Miss Ye.”

“Yu Zifei was, after all, old Nie’s disciple. ”

What kind of good disciple could old nie produce if he went back on his word?

What If ye Zhuo wasn’t willing to let Yu Zifei join the research team?

“Normally, Cen Jiang wouldn’t even bother to ask. He hated people who went back on their word the most in his life. But now, the research team had suddenly lost more than 20 researchers. It was a time of shortage, the press conference was going to be held tomorrow, and the other members of the base were avoiding the scientific research group! ”

“At this time, they couldn’t care less. ”

“Chapter 1079: 237: Face slapping, YC’s father is mighty! 4”

“If there’s one more person, it’s one more person! ”

""Okay."Yu Zifei bent down. "Sorry to trouble you, team leader Cen Jiang." "

Cen Jiang walked inside.

"When he arrived, Ye Zhuo's welding work had already been completed. "Miss Ye." "

"What's Wrong?"Ye Zhuo looked back slightly.

"Cen Jiang continued, "Old Nie's disciple, Yu Zifei, wants to join our research team." "

Ye Zhuo took off his goggles. "Bring me to take a look."

"Come with me."

Ye Zhuo followed Cen Jiang's footsteps and the two of them arrived outside the construction warehouse.

"Miss Ye!"Yu Zifei saw ye Zhuo and came up to him excitedly.

"Cen Jiang hurriedly introduced, "Miss Ye, this is old Nie's disciple, Yu Zifei." "

Ye Zhuo looked at Yu Zifei. "Hello."

"Yu Zifei said, "Miss Ye, I'm Yu Zifei, a metaphor. You Can Call Me Little Yu. I want to join your research group." "

""The reason."Ye Zao's words were concise, and his eyes were cold. "

"In terms of age, Yu Zifei was more than ten years older than ye Zao, but standing in front of ye Zao, Yu Zifei was extremely nervous, "Miss Ye, I've had an aerospace dream since I was young. I hope that one

day I can board an aircraft carrier that I personally created and travel the universe! I believe that you will definitely lead us all to create an aircraft carrier that will amaze the world!" "

"Speaking up to this point, Yu Zifei paused before continuing, "Even if I fail, it doesn't matter! At least I've strived for my dream and worked hard!" "

He was already in his thirties.

"Although he had joined the Cen family base, he had been a dispensable existence in the base for so many years. "

He wanted to use this opportunity to fight for himself!

"Once he succeeded, he would be famous throughout the world! "

"If he didn't succeed, he could just start all over again! "

"Have you thought it through?"Ye Zhuo raised his eyebrows slightly.

"Yu Zifei nodded. "Yes, Miss Ye, don't worry. I definitely won't quit at the last minute like my master did!" "

"Are you sure?"Ye Zhuo asked again.

"Yu Zifei's gaze was firm as he nodded. "Yes and definitely! Miss Ye, no matter how many times you ask, I will always give the same answer!" "

"Ye Zhuo turned to look at Cen Jiang. "Cen Jiang, take Little Yu to arrange some work." "

Cen Jiang was stunned. Did Ye Zhuo agree to this?

Yu Zifei was also a little surprised.

“He had thought that ye Zhuo would make things difficult for him because he was old nie’s disciple, but now it seemed like he was being petty.”

Ye Zhuo was not the kind of person to be calculative.

Cen Jiang nodded. “Alright.” Then he looked at Yu Zifei. “Follow me over here.”

“Yu Zifei followed Cen Jiang’s footsteps and turned to look at Ye Zhuo. “Miss Ye, thank you!” ”

“Work hard.” Ye Zhuo’s tone was clear and shallow.

“Yu Zifei hurriedly nodded. “Miss Ye, I Will!” He would definitely work hard and not let ye Zhuo down! ”

“After Yu Zifei left, Cen Hu came to Ye Zao’s side. “Miss Ye.” ”

“What’s Wrong?” Ye Zao looked back slightly.

“Cen Hu continued, “The press conference is going to be held tomorrow! Do you think we should postpone the press conference for a few days?” ”

““There’s no need.” Ye Zao’s tone was indifferent, but his voice was firm. ”

“Cen Hu frowned. “But now that more than half of the researchers have left, how are we going to explain to everyone at the press conference tomorrow?” ”

“The aircraft carrier project had just started, and half of the researchers had already disappeared. ”

“At the press conference, it would more or less look bad. ”

“”There’s no need to explain.”Ye Zhuo’s tone was a little flat, “Our ultimate goal is to create an aircraft carrier. The process is not important, but the results are! “Even if those who have a different heart don’t leave today, they will still be cleaned up in the future! “From another perspective, this might not be a bad thing for us!” ”

“Cen Hu nodded. “Alright, I’ll inform them. The press conference tomorrow will be held as usual.” ”

“Okay.”Ye Zhuo nodded slightly.

Ye Zhuo stayed at the base until midnight.

“When he got home, he took a rose bath before lying on the sofa and playing with his phone. ”

“Suddenly, Ye Zhuo saw a Weibo post. ”

It was about the aircraft carrier project.

“The blogger gave a long speech. First, he gave examples of the distance between the eight planets and earth. Then, he gave examples of the difficulties of building aircraft carriers. ”

“Finally, he summarized a sentence. ”

“China’s scientific research, success or failure, YC! ”

“Thus, the word YC successfully made the blogger become a trending topic. ”

“With a slight frown, ye Zhuo clicked forward to the post with the caption: [I’m really sorry, I only have success in my dictionary, not failure.] ”

“Chapter 1080: 237: a face-slapping twist, YC’s father is mighty! 5”

“It was a very simple line of words, but it revealed an unstoppable domineering aura.”

“It was fine if ye Zhuo did not forward it, but once he forwarded it, the entire Weibo was paralyzed.”

[some internet celebrities are really funny! They even want to come and take advantage of this kind of topic!]

“[people are talking about tech guru Nehulu YC, not some random Sitara YC! Do you really think that you are a tech guru just because you have a YC in your ID?] ”

“[didn’t some people say that they didn’t want to be famous? If they really didn’t want to be famous, why did they even try to steal this kind of popularity?] ”

[I really doubt that her live broadcast account name was obtained by imitating YC!]

“[the person above, be more confident and remove the words ‘really doubt’.] ”

“[hahaha, I’m laughing so hard that my head is falling off! How can there be such a person?] ”

“[only winning and not losing? This is too stupid! Moreover, the human blogger didn’t talk about you. People are talking about Dr. YC! Are You a Doctor?] ”

“[I used to think that she was quite Buddhist and didn’t fight for it, but now I can see it! Disgusting!] ”

[this is even worse than Zhou Chenyu!]

“Ye Zhuo didn’t think too much about it. After forwarding it to Weibo, she went to bed. She didn’t know that Weibo was directly paralyzed because of a Weibo post that she casually forwarded. ”

...

“In the blink of an eye, it was the second day. ”

The day of the press conference.

The press conference was held in the southern region of the base.

“Before the time was up, all the reporters had already arrived. ”

“After all, it was an aircraft carrier! ”

“Currently, no technology bigshot had said that they could build an aircraft carrier. Niu Hulu was the first. ”

“Therefore, everyone was very excited and wanted to get their hands on some first-hand news. ”

“Tang Xue looked at the reporters surrounding the southern region and turned to look at her assistant.

“Ruth, come over here for a moment.” ”

Ruth walked over to Tang Xue.

Tang Xue leaned into Ruth’s ear and whispered something in her ear.

“Hearing this, Ruth nodded. “Alright, I know what to do.” ”

“Go.”

Ruth walked towards the south side.

“Not long after, an explosive piece of news spread among the reporters. ”

“Ye Zhuo’s aircraft carrier project had just begun, and 29 out of 58 researchers had left! ”

“However, no one believed that this was real. ”

“After all, the other party was the Dr. YC of the scientific and technological world. Could it be that he did not even have this little bit of charisma? ”

10:10 am.

The press conference officially began.

Cen Shaoqing stood on the stage and presided over the press conference.

“”Cen Wuye, may I ask if it’s true that the CEN base and Dr. YC collaborated to create the aircraft carrier project?” ”

“It’s true.”Cen Shaoqing nodded slightly.

“”Then why is Dr. YC still nowhere to be seen even after the press conference has started?”The reporter continued to ask, “I heard that Dr. YC’s research group had lost half of their advanced researchers when the aircraft carrier project had just started. How long do you think the remaining half of the advanced researchers will last?” ”

“Is the reason why Dr. YC hasn’t appeared in the press conference for a long time because of the influence of the group of researchers leaving?”

The Reporters' questions came one after another.

"Cen Shaoqing stood on the stage, twirling the Buddha beads as he methodically answered everyone's questions."

"It's already 10:20 am, and Dr. YC still hasn't arrived. May I ask if she's Afraid?" "

Cen Shaoqing frowned slightly. He was about to say something when his gaze suddenly passed over the reporters and looked towards the entrance.

The coldness in his eyes gradually faded.

Everything came back to life.

"Seeing Cen Shaoqing like this, the reporters who were asking questions also turned back to look."

They saw a detailed figure walking towards them step by step from the entrance.

Her figure was graceful.

It was cold and chilly.

"When the reporters who were surrounding the entrance saw her coming over, they all automatically made way for her."

Who Was She?

"Ye Zhuo had only appeared in the science and technology industry, and many people had never seen her before."

“Isn’t this Sitara Leaf?”

“”She was on country 2!”Soon, someone recognized ye Zhuo. ”

“Oh! I know! She’s CEN Fifth Master’s girlfriend! Didn’t Cen fifth master announce it last time?”

“She seemed to have retweeted Big V’s Weibo to gain popularity last night. I didn’t expect that she would come directly to the venue today! Her eating style is really ugly.”

“After recognizing ye Zao, everyone started to discuss animatedly. ”

Today’s press conference was broadcast live.

“Seeing ye Zao come over, the bullet screen exploded. ”

“[yesterday, she gained popularity on Weibo. Today, she gained popularity on the spot again! There is no one like her! Why is she so disgusting?] ”

“[even if she is Cen Wuye’s girlfriend, she doesn’t have to be so high-profile, right? This is a scientific research press conference, not in the entertainment circle! She wants to gain popularity too?] ”

[I can’t watch anymore either!]

[the whole screen is filled with awkwardness.]

“[I want to see Dr. YC! who wants to see her! Does she really think that just because she is pretty, she can do whatever she wants?] ”

“[one is Niu Hulu YC, and the other is Sitara YC. Do you guys think that these two are the same person?] ”

“[please, the one upstairs has some brains! Can an internet celebrity compete with a tech tycoon? Although Dr. YC is a little arrogant this time, her previous contributions to China are real!] ”

“[add 10,086! I also feel that an internet celebrity can’t compete with a technology tycoon.] ”

-LSB- daWhy why would an internet celebrity like her join in the fun?]

[I’m Speechless!]

“At this moment, the words on the bullet screen suddenly changed to ‘Daddy’and ‘Daddy is mighty’. ”

“[a troll army, right?] ”

[it must be someone who hired a troll army! How disgusting!]

“At this moment, ye Zao walked onto the stage and gently took the microphone from the reporter’s hand. “I’m sorry to disappoint everyone. I didn’t retreat at the last minute, nor did I run away.” ”

“The reporter who was taken out of the microphone was stunned. He stared blankly at ye Zao for a long time before he reacted. Then, he said, “Who, who are you?” ”

“Ye Zao just looked at the camera like that. His clear face was covered in a layer of snow. With a pause, he said, “Niu Hu Lu · YC.” ”

Niu Hulu · YC!

Who would have thought that ye Zao was actually Niu Hulu · YC?

The words on the bullet screen all changed to ‘F * ck!’!

“Not to mention the audience in front of the screen, even the reporters at the scene were stunned. ”

Sitara and Niu Hulu were actually the same person!

“”You, you just said that you are YC?”The reporter looked at Ye Zao and his voice was trembling. “The YC of Doctor YC?” ”

“”Yes.”Ye Zao’s tone was indifferent, “You didn’t hear wrong.” ”

“Ah Ah Ah! Daddy is so handsome!”

“Ye is so awesome!”

“This reversal is really a slap to the face!”

“I want to be a fan of father ye for a hundred years!”

“A thousand years.”

“”Mom, I’m doing well! The streamer that I’m a fan of is actually a big shot!” ”

“”From an internet celebrity to a technology big shot, this is definitely a master of Crossover!” ”

“After a long while, the reporters at the scene finally digested the fact that Ye Zao was Dr. YC. ”

“The reporters continued to ask, “Dr. YC, I heard that 29 out of the 58 researchers in the research group that you set up have left! is the loss of half of the members related to your incomplete aircraft carrier plan?” ”

“May I ask how you plan to fill the vacancies of these 29 members?”

““Dr. YC, I heard that the researchers at the CEN’s base are avoiding your research team. Is that true?” ”

“Why can’t you convince them?”

Da Da da —

“At this moment, footsteps suddenly came from the air. “Dr. YC, I wonder if I have the honor to join your research team?” ”

“This is Dr. Warne!”Someone in the crowd recognized Dr. Warne.

Who was Dr. Warne?

His achievements could be recorded in history.

““And me.”As soon as he said that, a second voice came. ”

““Father YC, we also want to join your research team.” ”

“However, in the blink of an eye, a group of big shots who could shake the entire scientific and technological world with just a stomp of their feet stood in front of the camera. ”
