

Almighty D 1081

“Chapter 1081: 239: My Blood is boiling, my face is swollen! 1”

The live bullet screen exploded.

“[F * ck! That’s Dr. Warne, right? I remember learning about him when I was studying modern history!]
”

[one above! I also learned about Dr. Warne.]

[who are those people next to Dr. Warne?]

“[Feiyu Squad! Those people who are studying nuclear bombs! With them, we don’t have to worry about the defense system on the aircraft carrier.] ”

[so many big shots have volunteered to join Dad’s research group. Let’s ask these reporters if their faces hurt!]

“[I’m afraid that even the reporters didn’t expect the situation to get out of control like this, right?] ”

“Following that, the bullet screen was filled with the words ‘dad is mighty’.”

The scene was also very quiet.

“Just as everyone was slightly stunned, another voice came from the entrance, “You guys are too much! Why didn’t you discuss this with Me First! Dr. YC, I wonder if I have the honor to join your research group with everyone?” ”

“As the camera slowly zoomed in, a straight figure slowly walked over. ”

Who Was This?

Dr. Millet!

Dr. Millet and Dr. Warne were the two giants of China’s science and technology industry. Her achievements had been incorporated into high school textbooks.

Such a big shot actually stood behind ye Zao without any hesitation.

“What was even more unexpected was that these big shots stood behind ye Zao, and their aura was actually much lower than ye Zao’s. ”

Invisibly.

Ye Zao had already guided everything.

[it’s Dr. Millet!]

[I learned about Dr. Millet in high school too! I didn’t expect to see him on the live broadcast today!]

[the two giants of the tech world are gathered!]

“[wrong! It’s the three giants! YC’s dad is also a giant, okay? No! Dad should be a giant!] ”

[oh my God! I think I’m Dreaming!]

“[from left, it’s Dr. Warne, Dr. Millay, and then the Feiyu team. If anyone doesn’t know about the Feiyu team, they can go to Baidu.] ”

[even Dr. Millet is here!]

“[as expected, your father is still your father! YC is YC. If it were anyone else, would they be able to gather so many tech bigwigs?] ”

“[I just went to Baidu to search for the Feiyu team. Damn, they are so powerful. One nuclear bomb can blow up an island! I even went on an international kill warrant before. I didn’t expect such people to be conquered by my father! My father is really powerful!] ”

“”Welcome,”ye Zhuo raised his eyes slightly and looked at the camera. His face was expressionless, and his tone was indifferent. “Dear reporters, is there anything else you want to ask?” ”

“Although his tone was indifferent, every word seemed to be stained with a biting cold, intimidating aura. ”

Click.

The reporter standing in front dropped the microphone in his hand on the ground.

He didn’t know what to do.

The atmosphere was unusually quiet.

“Seeing this scene, the mocking smile on Tang Xue’s face disappeared completely. ”

“Ye Zao’s research group had a total of 58 members, and 29 of them had left in one night. In order to prevent those who had left from returning to Ye Zao’s Place, Tang Xue had specially arranged for these 29 people, each of them had a suitable place to go. ”

Who would have thought.

Who would have thought that Dr. Hua'en and Dr. Millet would bring a group of big shots from the science and technology industry to join ye Zao's research team.

Were they crazy?

They actually believed that ye Zao could build an aircraft carrier.

Tang Xue frowned tightly.

"A reporter's eyes were red, looking at the camera, he said, "I've been in the industry for so many years, but this is the first time I've seen such a passionate scene! I believe that under the leadership of Dr. YC, our Chinese science and technology will definitely reach a new peak!" "

"Many of the reporters present had the same feelings, but they were so excited that they could not say anything. "

"Miss Ye!" Tang mi looked at ye Zao on the stage, covered her mouth, and almost screamed. "

Cen Jiang looked at Old Nie who was not far away.

"At this moment, old NIE's expression was very complicated. "

He was now suspecting whether ye Zao could really develop an aircraft carrier.

"Otherwise, why would the big shots of the technology industry even come out? "

"The remaining researchers were full of confidence in ye Zao. "Fortunately, we didn't leave! Otherwise, we would have missed the opportunity to cooperate with Dr. Warne and Dr. Millet!" "

“And the Feiyu team of the technology industry! Their members are the people I admire the most!”

[oh my God! This Moment is so exciting!]

[I really like this face slap.]

[these reporters are all stunned.]

“Chapter 1082: 239: My Blood is boiling, and my face is swollen! 2”

“[if it were me, I would be scared too! Dr. Warne, Dr. Millet, and the Feiyu team, which one of them isn't a big shot among the big shots?] ”

“[Ah Ah Ah! If I'm not mistaken, the one standing next to Dr. Millet is the Dark Horse of the last science and technology competition, right?] ”

[oh my God! What kind of God combination is this!]

“”To be able to see this scene in my lifetime, my life is worth it!” ”

“Worth it! Worth It!”

“”Ah, I'm crying! I regret not recording it just now!” ”

“”Brother upstairs, don't worry, I've recorded it.” ”

“”Brother, add me as a friend!” ”

“Add me as a friend!”

“Add me as a friend + 1”

“+ 10086”

“In front of the camera, ye Zao turned around slightly, looked at everyone, and bowed slowly. “Thank you to everyone standing behind me today!” ”

It had always been easier to add flowers to the icing on the cake than to send charcoal in the snow. Ye Zao would never forget this moment.

“Dr. Millet quickly walked forward and helped ye Zao up, “Dr. YC, we should be the ones thanking you. We have witnessed your ability. We believe that even without our participation, you can still lead the original team members to complete the aircraft carrier project!” ”

The rest of the words were already self-evident.

[Dr. Millet is so kind!]

“[this means that leaf is amazing! If leaf didn’t know anything, would Dr. Millet still be like this?] ”

“The reporters below the stage also reacted at this time. They handed the microphone to Dr. Millet and asked, “Dr. Millet, have you seen Dr. YC’s design before?” ”

““Not yet,”Dr. Millet said honestly. ”

““As far as I know, the top experts from more than 200 countries around the world have gathered together but have yet to develop an aircraft carrier. Do you trust her that much?” ”

“I heard that Dr. YC is also a student of Beijing University!”

“Dr. Millet held the microphone in front of him, then, he said, “Age is not equal to strength!”! Ganluo, a 12-year-old official who became a high official. Li He, a 6-year-old who can recite poems and write a couplet. Cai Wenji, a 4-year-old who can tune himself. The founder of Taoism, Lao Zi, who talks about misfortune and fortune at the age of 10! This reporter comrade, I see that your hair is not short either. Why Can’t your knowledge be longer? Remember to read more when you have time.” ”

“As soon as he said this, Cen Jiang took the lead in clapping. ”

“Then, the audience instantly erupted in applause. ”

“At this moment, a microphone was placed in front of ye Zao, “Dr. YC, is the ‘two-year period’ that was posted all over the internet true? Can you really lead the research team to build an aircraft carrier to land on the eight planets within two years?” ”

“Yes.”Ye Zao nodded slightly.

“The reporter continued, “Then what if your aircraft carrier project is not successfully completed after the two-year period?” ”

“Ye Zhuo looked at the camera and said, “If it’s not successfully completed, then what kind of doctor would I be? Besides... is it difficult to build an aircraft carrier?” ”

Is it difficult?

It’s not difficult to build an aircraft carrier? !

This sentence seemed to be a little arrogant!

“If building an aircraft carrier was really that easy, then C country, which was known as the most technologically advanced country, would not have been unable to develop an aircraft carrier until now. ”

“At this moment, the bullet screen was filled with the words ‘666666’.”

Ye Zao dialed the microphone. “Do you have any other questions?”

““Dr. YC, may I ask who gave you the confidence to be so confident?” ”

“Confidence is such a thing.”Ye Zao raised his eyebrows slightly. “Do you still need others to give it to you?”

Tang Xue looked at Ye Zao on the stage and narrowed her eyes slightly.

“Ruth walked over and handed Tang Xue a cigarette. “Sister Xue, don’t tell me you really believe that ye Zao can build an aircraft carrier?” ”

“She’s too confident.”Tang Xue lit the cigarette.

“Ruth said, “This is called overconfidence.” ”

What was overconfidence called?

Overconfidence!

“In more than 200 countries around the world, tens of thousands of top scientific and technological experts had yet to develop an aircraft carrier. What right did ye Zao have? ”

What right did she have to brag?

“Ruth continued, “Sister Xue, don’t worry. Ye Zao will definitely not end well.” ”

Tang Xue took a puff of her cigarette.

“After the press conference ended, Ye Zao brought everyone to the laboratory to analyze the plan for the aircraft carrier.”

Ye Zao stood in front of the conference table. Behind her was a huge screen.

“The background on the screen was a vast and boundless starry sky, and there was a huge flying object hovering in the starry sky.”

It made people’s scalps go numb just by looking at it!

“Liu Hao, the captain of the Feiyu team, couldn’t help but stand up and suppress the shock in his heart. “Father Ye, is this the space mothership?” ”

“Yes.”Ye Zhuo nodded slightly.

“Liu Hao continued, “Can you see the internal structure from this picture?” ”

“Chapter 1083: 239: My Blood is boiling, my face is swollen! 3”

“Okay.”Ye Zhuo clicked the mouse.

“The picture of the aircraft carrier was immediately magnified by ten times. The tightly shut cabin door slowly opened, and the interior structure of the aircraft carrier was presented to everyone. “This side is the arsenal and the defense system. This is the cockpit, and this is the emergency room...” ”

“After looking at the entire design of the aircraft carrier, the laboratory was silent.”

After a long while.

“Dr. Millet slowly said, “Dr. YC, how do you plan to solve the fuel problem?” ”

Ye Zao switched to another picture. “Build an orbital fuel depot and a space supply station here. The aircraft carrier will detach itself after supplying fuel.”

Dr. Millet nodded and took a pen to write down ye Zao’s words in his notebook.

“Dr. Warne was still immersed in the aircraft carrier design just now. He then asked, “Isn’t that weapon depot too simple? The aircraft carrier is big and the target is big. It’s easy to be hit in the air!”Once hit., all his efforts would be ruined. ”

“Ye Zao returned the picture to the page just now, “We will build a defensive net at the bottom of the aircraft carrier. Any weapon that is thrown over will bounce back! “In addition, this place can store three rockets, three small spaceships, and equipped with an upgraded version of the directed beam energy weapon! “So, you don’t have to worry about the defense system at all!” ”

Dr. Warne nodded.

“After understanding the overall structure of the aircraft carrier, ye Zao got someone to bring out the design proposal and distributed it to everyone. ”

“Everyone looked at the design proposal in their hands, and their eyes were filled with amazement. ”

This was a flawless design proposal!

“Dr. Warne pushed up his glasses. “Miss Ye, to be honest, how long is the estimated completion time in your mind?” ”

Ye Zao looked in the direction of the construction bunker. “One and a half years.”

Two years was just a conservative number.

“When ye Zao lived in that era, the space mothership was just a very ordinary aircraft. Under normal circumstances, it could be completed in two to three months.”

But this world was still not the world she lived in.

One and a half years?

Dr. Warne looked at Ye Zao and could not help but gulp.

“Hearing this, everyone looked at ye Zao with a complicated expression.”

“Seeing everyone like this., ye Zao continued, “I know that a year and a half is a little too long for everyone, but there’s nothing we can do now. Many of the technologies are not mature yet, so we can only slowly explore them. If we can speed up the process, I’ll try my best to speed it up.” ”

Everyone had black question marks on their faces.

???

So Ye Zao still felt that a year and a half was too long?

“C country had been researching aircraft carriers for decades, but they had yet to develop anything. To Ye Zao, it only took a year and a half!”

This was not the most important thing!

The most important thing was that ye Zao still felt that a year and a half was too long!

“Chen Hao gulped and looked at ye Zao. “Father Ye, are you an alien?” ”

He now suspected that Ye Zao was an alien!

“Ye Zao smiled faintly. “You could say that.”After all, she did not belong to this world. ”

“Chen Hao smiled and said, “Then which planet are you from?” ”

““Earth.”Ye Zao’s eyes were serious, “But I live in a different dimension from you guys. In our dimension, the technology is much more advanced than here! “Most people travel in small aircraft. Twenty years ago, interstellar tourism was already developed. “However, there are pros and cons to everything. Because of overexploitation, the environment there is very bad! “Daily food and clothing are all replaced by disgusting nutrient fluids. So, when developing technological civilization, don’t forget to protect the environment.” ”

Chen Hao chuckled. “Father Ye! You’re still so convincing! I almost believed you!”

Ye Zhuo glanced at him. “I’m not joking with you.”

“Chen Hao continued, “Since you’re not from the same dimension as us, then why are you standing in front of us and talking to us now?” ”

“Because the end of science is theology.”It was precisely because the end of science was theology that she became ye Zhuo by chance.

“Thinking of this, ye Zao frowned slightly. ”

He didn’t know how ‘She’in the other world was now.

“Dr. Millet stood up and said, “Dr. YC, can you take us to the construction warehouse to have a look?” ”

“Sure.”Ye Zao nodded slightly.

A group of people followed behind ye Zao and came to the construction warehouse.

“In the construction warehouse, everyone was busy.”

Base Area F.

“After the press conference, Lao Nie went back to his office. As soon as he sat down, someone knocked on the door.”

“Chapter 1084: 239: My Blood is boiling, and my face is swollen! 4”

“Come in.”

Two middle-aged men in white lab coats walked in from outside.

“Nie Gong.”

“Seeing the appearance of the people, old nie smiled and said, “Old Wang, Old Li, take a seat.” ”

“Old Wang, Old Li, leaned over and sat opposite old nie.”

“After a moment, old Wang said hesitantly, “Old NIE, I heard that Dr. Warne, Dr. Millet, and the Feiyu team have joined Miss Ye’s research team. Do you think they can really build an aircraft carrier?” ”

“If the aircraft carrier plan really succeeded, then they would be throwing away the watermelon and picking up the sesame!”

Old Li was also very worried about this problem and looked at old Nie anxiously.

“Old Nie lit a cigarette and took a deep puff, then, he said, “Building an aircraft carrier is not just talk, and it is not something that can be accomplished by Dr. Millet, Dr. Warne, and Feiyu’s team! If it is really that simple, why would c nation wait until now?” ”

“With that said, Old Wang and old Li heaved a sigh of relief. ”

“At this point, old Nie continued, “Just wait and see. Miss ye will be as down and out as she is today!” ”

“The higher one’s height, the worse one’s fall will be. This wasn’t just a saying. ”

“Hearing this, Old Wang and old Li both nodded. ”

...

“Not long after, the live broadcast video of the press conference was spread everywhere. ”

The whole internet was in an uproar!

“In just one morning, Weibo was paralyzed with more than a few poems. ”

This incident even shocked the foreign scientific and technological community.

Even the foreign media started to speak up.

Completing the aircraft carrier project within two years?

Landing on the eight planets?

Was this a dream?

“At the same time, Ye Zhuo also received news of foreign aid.”

Many foreign scientific and technological bigwigs wanted to join her laboratory.

“However, ye Zao rejected all of them.”

An aircraft carrier was not a small matter.

“If they allowed foreigners to join the experiment at this time, it would be hard to explain.”

Could it be that China could not build its own aircraft carrier without foreigners?

“Because of this matter, the foreign media websites were also in an uproar.”

[I heard that Dr. YC rejected the help of country C and Country D! is he going into seclusion? Have they forgotten how the Great Qing dynasty fell?]

“[with such an attitude, you still want to land on the eight planets? In Your Next Life!] ”

“[there’s an old Chinese saying, ‘kindness is like a donkey’s liver and lungs’. If you are in a quagmire, we will help you out of kindness. It’s fine if you don’t get up, but you still have to roll around in your hole. There’s no one like this!] ”

“[complete the aircraft carrier plan in two years? Hehe! Forget about two years, with your brains, you might not even be able to complete it in twenty years!] ”

[how many years has it been since the Qing dynasty fell? Why don't they know how to Learn?]

[this is the best joke I've heard in 20120! Building an aircraft carrier! Isn't this pushing the IQ of the big shots in C Nation's technology industry to the ground?]

[20 years? Saying that they can complete the aircraft carrier project in 20 years is looking up to them! Do they really think that they can hide at home and build an aircraft carrier just because they happened to be in the limelight at the Technology Competition last year? Aren't they overestimating themselves too much?]

“[with the intelligence of Chinese people, I'm afraid they will have to wait for 200 years!]”

[some people happened to be in the limelight at the Science and Technology competition. They don't even know who they are anymore!]

Zhao Xueyin browsed through the news comments on the foreign media websites one by one.

She narrowed her eyes slightly.

It turned out that there was another reason for ye Zhuo to be in the limelight at the Science and Technology competition and to crush the boss of C Nation.

She was just saying.

How could a young girl who was only 20 years old have such a perverse ability!

“This time, Ye Zao had really gone too far!”

He even said something about an aircraft carrier!

Building an aircraft carrier?

He was really arrogant.

Arrogant and brainless.

“Zhao Xueyin shook her head, her eyes filled with ridicule.”

“At this moment, a rapid phone ringtone sounded in the air.”

Zhao Xueyin picked up the phone. “Hello.”

“What are you planning to do?” Father Zhao’s voice came from the other end of the phone.

“Zhao Xueyin continued, “Probably tomorrow or the day after.” ”

“At the moment, she and Ye Zhuo had already fallen out. There was no point in staying here any longer.”

““Then come back tomorrow.” Father Zhao continued, “I’ll Get Ah Lui to come pick you up.” ”

Zhao Xueyin knew what the uniform was thinking. “There’s no need for Big Brother Si to pick me up. I can come back by myself.”

But father Zhao did not give Zhao Xueyin the chance to refuse and directly hung up the phone.

Zhao Xueyin looked at the phone that was hung up and sighed helplessly.

“In a moment, Zhao Xueyin closed the laptop, stood up from the chair, picked up the car keys, and walked out.”

Chapter 1085: 239: My Blood is boiling and my face is swollen! 5

It was already 8:30 pm.

The night view of the capital was beautiful. The neon lights were flashing and snow was falling from the sky.

Zhao Xueyin drove her car to a restaurant and stopped it.

The restaurant's business was booming.

"Even though it was snowing, it was still crowded. Not only that, there was a long line at the entrance."

Zhao Xueyin parked her car and came over to line up.

"At this moment, she suddenly saw a familiar figure."

"The girl's figure was graceful. Under the falling snow, she was only wearing a black dress. The cold wind blew, blowing up the waterfall-like black hair at her waist, revealing her slender figure in the snow."

"The dress was slim, making her slender waist look even more slender."

It couldn't withstand a single fold.

"She had her back to Zhao Xueyin, so Zhao Xueyin couldn't see her face."

“Even so, Zhao Xueyin recognized her at a glance.”

It was ye Zhuo.

“At this moment, another figure appeared in Zhao Xueyin’s sight.”

“The man had a slender figure. He held a string of bright red Buddhist beads in his left hand and wore a moon-white vintage long gown with a pair of buttons. He wore a long black coat over it, and his body emitted a domineering aura.”

No one dared to look directly at him.

“After a moment, the man turned around slightly, took off his coat, and draped it over the girl beside him.”

Only then did Zhao Xueyin see the man’s well-defined facial features clearly.

She was slightly startled.

“His pair of mysterious eyes were deep and bottomless. His skin was very white, as if he had not seen the sun for a long time. It was actually whiter than the snowflakes floating in the air. There was a red mole at the end of his eye, which carried a hint of sickness, the other seven points were cold and arrogant.”

Zhao Xueyin was born noble. She had seen all kinds of men since she was young?

But this was the first time she had seen a man like this.

“After a long time, Zhao Xueyin finally reacted. She did not wait in line anymore. She immediately went back to the car and made a call.”

“Check Ye Zao’s boyfriend for me.”

“After making the call, Zhao Xueyin sat in the driver’s seat and waited.”

“About ten minutes later, Zhao Xueyin received an email.”

Cen Shaoqing.

Male.

People called him CEN fifth master.

The founder of the CEN Group.

“Cen Shaoqing was in a high position, so the information he found was more official.”

Zhao Xueyin curved her lips slightly.

Who Did she think it was.

It was Cen Shaoqing.

“Although the prominent families in the capital all called Cen Shaoqing CEN fifth master, Cen Shaoqing was nothing in the financial world.”

The Cen family was nothing in the financial world.

Although they were all called “Fifth Master”.

“But compared to the founder of HK consortium, CEN Shaoqing was not just a little bit inferior. ”

“At this moment, Zhao Xueyin narrowed her eyes. ”

Sitara YC and Niu Hulu YC were the same person. What if CEN Shaoqing was the fifth Master of HK?

Then what would she do?

“Ever since she became an adult, the fifth master had been Zhao Xueyin’s goal in life. ”

“Thinking of this, Zhao Xueyin turned on her computer and sent a message. ”

Not long after.

The other side replied.

The founder of HK consortium was surnamed Bai.

It had nothing to do with Cen Shaoqing.

“Seeing this, Zhao Xueyin heaved a sigh of relief. ”

It was good that there was no relationship.

She was really afraid that Cen Shaoqing was the fifth Master of HK Consortium.

“In a moment, Zhao Xueyin started the car and rushed back. ”

“When the car passed by Ye Zao, she happened to see ye Zao and Cen Shaoqing kissing under the snow.”

“Under the falling snow, the two of them stood under the dim yellow streetlights.”

The girl stood on her tiptoes slightly and hooked her arm around the man’s neck.

The scene was so romantic that it was like filming an idol drama.

Zhao Xueyin’s eyes were filled with ridicule.

One look at this scene and one could tell that it was ye Zhuo trying to get close to Cen Shaoqing.

How many girls would be so unreserved that they would take the initiative to ask for a Kiss?

It seemed that Si lui was right.

A person like ye Zhuo would definitely not end up better than ye Langhua!

“A moment later, Ye Zhuo let go of Cen Shaoqing and said with a slight frown, “You put your phone in your pocket again?” ”

“Yes.”Cen Shaoqing looked at the man’s Crimson Lips and held back the lust in his heart. His left hand held the Buddha Pearl and remained calm.

“Ye Zhuo continued, “Did you put your phone horizontally?” ”

1

Cen Shaoqing was stunned for a moment.

“Ye Zhuo glanced at him. “If it wasn’t horizontally placed, why would it be protruding?” ”

Cen Shaoqing’s eyebrows jumped and he reached out to grab ye Zhuo’s hand. “Lead us there? I heard that the sweet water shop there is very delicious! Ziteng has already recommended it to me many times!”

“Really?”Ye Zao’s attention was instantly drawn away.

“Of course it’s true.”

Chapter 1086: 239: My Blood is boiling and my face is swollen! 6

The two of them walked to the sugar water shop in front and stopped.

“Before they sat down, Cen Shaoqing took a handkerchief and wiped the table and chair carefully. “Leader, you can sit down now.” ”

Ye Zhuo leaned over and sat down.

“The waiter walked over and handed the dessert list to Ye Zhuo. “Beauty, your boyfriend treats you really well!” ”

“”Thank you.”Ye Zhuo took the dessert list and continued, “This, this, this, and this, all of them.” ”

“The waiter glanced at Ye Zhuo and could not help but remind her, “Beauty, the two of you might not be able to eat so much.” ”

Ye Zhuo raised his eyes slightly. "These are for me to eat alone."

Eat alone?

How could one person eat so much?

"Hearing this, the waiter's eyes were filled with shock."

Could this little girl be the legendary glutton?

"Under the waiter's shocked gaze, CEN Shaoqing continued, "Give me a portion of longan sugar water."
"

"Okay."

"The sugar water restaurant served the food very quickly. In a short while, the table was filled with desserts."

"Looking at the alluring desserts, ye Zao's eyes were filled with stars. He picked up a spoon and began to eat."

"In fact, Cen Shaoqing was not used to desserts in the past, but now he had been assimilated by Ye Zao. Not only did he start to eat desserts, he also felt that the taste of desserts was actually quite good."

...

The next day.

Ye Zao got up on time at seven o'clock.

“After changing his clothes, ye Zao stood in front of the French window and pulled open the curtains.”

Huala —

Golden rays of sunlight shone in from the outside.

“It had snowed the whole night. At this moment, the outside was a vast expanse of whiteness. The sunlight shone on the snowy ground, refracting golden rays of light.”

“Looking at the vast expanse of whiteness of the snowy scenery, his mood also improved.”

Ye Zao hummed a tune as he went downstairs.

“Just as he went downstairs, he saw Lin Jincheng and Lin Ze shoveling snow in the courtyard.”

Ye Zao also took a shovel to shovel snow.

“Just as he took the shovel, Lin Jincheng shouted, “Put it down, put it down! Put it down quickly! Zao Zao, put it down quickly!” ”

“Ye Zao was stunned and put down the shovel. “Dad, What’s Wrong?” ”

“Lin Jincheng jogged over. “Girls can’t do rough work. If they do rough work, their hands will get calluses! Leave this to your brother and me!” ”

“Ye Zao smiled and said, “Your posture just now was seen by people who don’t know. They thought that something big had happened!” Even ye Zao almost thought that there was poison on the shovel! ”

“Ye Langhua walked out of the house and handed ye Zao a warm baby. “Zao Zao, it’s cold outside. Come in quickly! It’s the same in Jincheng. It’s so cold, and you actually brought ah ze outside to shovel snow. Just let the servants do this kind of thing!” ”

“Grandma, I’m wearing an air-conditioned shirt. I’m not cold at all.” Although he said he was not cold, Ye Zao’s hand still took the warm baby from ye Langhua honestly. ”

“Ye Shu walked out from the house and smiled. “Today is LABA festival! Zao Zao, call your uncle later and ask him to come home for dinner tonight.” ”

“Okay.” Ye Zao nodded slightly.

“Ye Sen had been very busy these few days. When he received ye Zhuo’s call, he was discussing a particularly important case with a client. “I’m at Huaihai Road Now!” ”

“After hanging up the phone, Ye Sen turned to look at the client and said apologetically, “I’m sorry, President Xu, my eldest niece called!” ”

“President xu smiled and said, “It’s okay.” ”

“At this moment, the television was broadcasting news about Dr. YC. Ye Sen pointed at the television and said, “The doctor on the television is my niece!” ”

President Xu looked up at the television.

Dr. YC?

Dr. YC was his niece?

Why didn’t he say that the entire scientific and technological world was his family’s relatives?

This ye Sen really knew how to Brag!

“He had no hair on his mouth, so he couldn’t do things properly.”

“Director Xu instantly lost the intention to work with ye sen. he said tactfully, “Director Ye, why don’t we call it a day? I have other things to do...” ”

“Ye Sen looked at his watch, he smiled and said, “Sure! Coincidentally, my eldest niece is here too! Today is LABA festival, and she’s coming to pick me up for dinner! Children are so troublesome. I already said that I don’t want to go back, but she insisted on coming to pick me up. You said that this child is already here, so I can’t not go back!” ”

“Although he said that it was troublesome, Ye Sen’s eyes were filled with happiness.”

Director Xu nodded in response and called for the waiter to settle the bill.

Ye Sen immediately took out cash. “How can I let director Xu pay for the Bill! I’ll pay for it!”

“Director Xu happened to not have any cash on him and wanted to use his phone to pay. When he saw Ye Sen take out the cash, he did not fight to pay.”

“After paying, the two of them walked out of the door.”

“This was a private membership restaurant. When they walked to the door, they had to pass by a long garden. It would take three to four minutes to walk there. The two of them chatted as they walked.”

““President Xu, is there anyone coming to pick you up later? If no one is picking you up, it just so happens that my eldest niece is coming to pick me up. Why don’t I let her send you back first?” ”

“President xu declined politely, “There’s no need. I have a chauffeur coming to pick you up.” ”

““Alright then.”Ye Sen smiled and said, “President Xu, you mustn’t stand on ceremony with me!” “It’s been snowing in the capital recently and the roads aren’t good. My niece’s driving skills are very good. If your chauffeur doesn’t come, ask her to send you back!” ”

“Thank you, there’s no need.” ”

“Ye Sen continued, “By the way, President Xu, do you have a niece?” ”

Director Xu shook his head. “I’m an only child.”

“Being an only child is pretty good, but it’s too lonely.” ”

Director Xu nodded.

“Not long after, the two of them walked out of the door. ”

“Ye Sen looked at the empty door and frowned slightly. “This child, didn’t we talk about it?” ”

Director Xu looked at Ye Sen with a mocking look in his eyes. “Your eldest niece didn’t come?”

It was right that she didn’t come.

“After all, Ye Sen’s niece wasn’t Dr. YC at all. ”

Wouldn’t she be exposed if she came? !

Ye Sen looked ahead. “Maybe something has delayed her!”

“Director Xu nodded and said deliberately, “Big shots like them who do research are usually busy. We should be more considerate!” ”

He thought that ye Sen would be embarrassed if he said this.

“Unexpectedly, not only was Ye Sen not embarrassed, instead, he said with a smile, “You’re right! My niece is usually very busy. Because of the aircraft carrier plan, she is even busier. When she is busy, she can’t even see her shadow! If it weren’t for the LABA festival, I wouldn’t even see her...” ”

President Xu was a little speechless.

He never knew that people could be so thick-skinned.

Did Ye Sen think he was a fool without intelligence?

““Director Xu, your driver isn’t here yet?”Ye Sen asked. ”

““He’ll be here in three minutes,”director Xu said. ”

Ye Sen nodded.

“Soon, a Land Rover appeared at the intersection. Although it had been snowing for the past few days and there was ice on the road, the speed of this Land Rover was not slow at all. It drifted all the way here. ”

Chi —

“With a beautiful swing of its tail, the Black Land Rover was placed horizontally in front of the two of them. ”

“Ye Zhuo pushed open the car door and placed one hand on the car door. He jumped down from the car just like that. His posture was a little handsome. “Uncle, I’m sorry. I bought a bottle of soy sauce for my mother on the way. I was delayed!” ”

““It’s fine, it’s fine.”Ye Sen waved his hand and turned to look at President Xu. “President Xu, I’ll be leaving first then!” ”

President Xu looked at Ye Zao and was a little confused.

He had thought that Ye Sen was bragging to him.

He did not expect that his eldest niece was really the Dr. YC on TV.

“At this moment, president Xu thought that he was blind. ”

Chapter 1087: 240: How could he be worthy of her? He would become a joke in the entire financial world! 1

“President Xu just stood there like that. He was completely stunned, like a statue. ”

“It had started to rain, and he had forgotten to hide. ”

Was the person just now really Dr. YC?

Was he not mistaken?

“Ye Sen was about to close the car door, but when he saw President Xu still standing there in a daze, he turned to look at Ye Zao. “Zao Zao, Wait a moment!” ”

“Okay.”Ye Zao nodded slightly. He turned the steering wheel and stopped the car again.

“Ye Sen held the umbrella and jogged to President Xu’s side. “President Xu, didn’t you bring an umbrella?” ”

“President Xu looked up and only then did he realize that it was raining. “No, I didn’t bring one.” ”

“Here’s my umbrella for you.”Ye Sen handed the umbrella to President Xu.

President Xu took the umbrella. “Thank you.”

“”You’re welcome.”Ye Sen thought for a moment and then said, “President Xu, your driver hasn’t arrived yet. Why Don’t you let my niece Send You Back?” ”

Send him back?

President Xu looked at the Land Rover that was parked there and was a little restless. Perhaps he had seen wrongly just now?

That person was not Dr. YC at all!

Right.

He must have seen wrongly.

How could ye Sen be Dr. YC’s uncle?

Director Xu looked up at ye Sen. “Isn’t this a little bad? Why would I trouble Dr. YC?”

“Ye Sen smiled and said, “What do you mean by ‘Dr. YC’? She is my niece Right Now! Let’s go, director Xu! The rain is getting heavier!” ”

The winter rain was particularly cold.

Director Xu was pulled into the car by Ye Sen.

“The two of them sat in the back seat. Ye Sen looked up at Ye Zao. “Zao Zao, send director Xu Back First! By the way, director Xu, where do you live?” ”

““I live in the bustling city,” chief xu replied. ”

“Ye Sen continued, “Zao Zao, it’s closer to the bustling city by taking panoramic road.” ”

Ye Zao nodded slightly and turned the steering wheel to take panoramic road. “Okay.”

Chief Xu looked at the face in the rearview mirror that looked like a painting. He quietly turned on his phone and searched for Dr. YC.

The internet speed was very fast.

“In less than a few seconds, news about Dr. YC appeared on the web page. ”

That’s right!

It was exactly the same.

This was Dr. YC!

The Living Dr. YC.

President Xu looked at his phone and then at the rearview mirror. His emotions were very complicated.

“He had never thought that one day, he would get into Dr. YC’s car. ”

He had never thought that Ye Sen was actually Dr. YC's uncle.

"At first, he thought that Ye Sen was bragging."

President Xu felt that his face hurt a little.

"After a long while, president Xu finally reacted and said, "Dr. Y, Dr. YC, can we get out of the car and take a photo later?"It was not easy to meet a famous person, so of course he had to take a photo and show it off. "

"After all, this was Dr. YC! "

"If she could really develop an aircraft carrier, she would be the first person in the history of aircraft carriers! "

"Sure."Ye Zhuo nodded slightly.

"Thank you!"President Xu immediately thanked him.

"Ye Sen smiled and continued, "Isn't it just a photo? You're welcome!" "

"Soon, the car drove into the bustling residential area. Ye Zhuo looked back slightly and asked, "President Xu, how many buildings do you live in?" "

"President xu hurriedly said, "Building 16. Just turn right at the next intersection." "

"Okay."

"After a few seconds, the car stopped in front of Building 16. "

Ye Zhuo opened the door and got out of the car.

CEO Xu and Ye Sen followed closely behind.

“CEO Xu handed the phone to ye Sen. “CEO Ye, please help us take a photo.” ”

““You’re welcome,”Ye Sen said. ”

“Ye Zhuo and CEO Xu stood in front of the apartment building. Ye Sen held the phone. “Three, two, one! It’s Done!” ”

“Director Xu jogged over to take the phone. “Thank you, director Ye!” ”

“You’re welcome.”

“Director xu continued, “Then about the cooperation, we’ll talk about it tomorrow.” ”

““Okay.”Ye Sen nodded and asked, “Why don’t I look for you at 10 o’clock Tomorrow Morning?” ”

“Director xu hurriedly said, “No need, no need! I’ll go to Shengdong to look for you at 10 o’clock! It just so happens that I have something to do there on the Way Tomorrow!” ”

““Then I’ll have to trouble you, CEO Xu.” ”

CEO Xu waved his hand. “It’s no trouble at all.”

“Ye Sen turned to look at Ye Zao. “Zao Zao, let’s go.” ”

“Okay.”Ye Zao opened the car door and got into the car.

He got into the car.

“Ye Zao continued, “Uncle, did you bring a change of clothes? If you didn’t bring a change of clothes, you can go back to your place to get them now. My mother said that after Laba, you shouldn’t live outside. It’s safer to live at home.” This was a custom in yunjing, it was said that the eighth day of the twelfth lunar month was a holiday for the Immortals in heaven. From the eighth day of the twelfth lunar month to the thirtieth day of the Lunar New Year, when there were no immortals to maintain order in the human world, it would be more chaotic.”

Wanderers who worked hard outside would choose to come back and live on the eighth day of the twelfth lunar month.

Chapter 1088: 240: How could she be worthy of her? She would become a joke in the entire financial world! 2

“When he heard the word ‘home’, Ye Sen’s heart was instantly filled with warmth. He said with a smile, “After discussing the cooperation with President Xu Tomorrow, we will be going on a business trip the day after tomorrow! When we come back from the business trip, we will get a change of clothes.””

“Okay.” Ye Zhuo nodded slightly.

At the same time.

On the other side.

“Today was the LABA festival. Zhao Xueyin had promised her father that she would go back to celebrate the festival today. At this moment, she was dragging her suitcase to the apartment building.”

“Xueyin.” A familiar male voice came from the air.

Zhao Xueyin frowned slightly and looked up.

It was Si lui.

“Big Brother Si.” Zhao Xueyin put on a professional fake smile and jogged over.

Si lui pushed the door open and got out of the car. He opened the door of the passenger seat for Zhao Xueyin. “Uncle asked me to come and pick you up.”

“Zhao Xueyin rebuked, “My dad is too much! How could I trouble you with such a Big Festival?””

“”It’s fine.” Si lui took the suitcase from Zhao Xueyin and took it to the trunk. “Anyway, there’s nothing going on at home.””

“Si Lui’s parents had passed away early. There was no one else in the family other than him, because as long as it was a new year, they would stay at the Zhao family.”

“Zhao Xueyin sat in the passenger seat, and the smile on her face disappeared in an instant. When the lawyer sat in the driver’s seat, the smile returned to Zhao Xueyin’s face.”

“After getting into the car, the lawyer took out a cup of milk tea from the incubator and handed it to Zhao Xueyin. “The first cup of milk tea for the LABA Festival.””

“Thank you.” Zhao Xueyin took it with both hands.

“The lawyer smiled and said, “You don’t have to be so polite with me.””

Zhao Xueyin inserted the straw into the cup and took a sip of the milk tea. She did not want to speak anymore.

Tired.

Too tired.

“After dealing with Father Zhao every day, she had to deal with the lawyer again.”

The lawyer was not bad.

“He was excellent in all aspects, but he was not master five after all.”

Zhao Xueyin looked at the lawyer.

Her eyes were filled with regret.

If only the lawyer was master five.

Then she would not have to be so tired.

Things didn't go as planned.

“After drinking the milk tea, Zhao Xueyin leaned against the back of the chair and fell asleep unknowingly.”

“Xueyin?”

“Xueyin?” The lawyer called out again.

But Zhao Xueyin still didn't have any reaction.

“From the looks of it, she should have fallen asleep.”

The lawyer held the steering wheel with one hand and took out a white blanket from the storage box on the side with the other hand. He carefully covered Zhao Xueyin with it.

His movements were gentle.

It was as if he was treating a priceless treasure.

The speed of the car was very slow and steady.

“By the time Zhao Xueyin woke up, the car had already entered the vicinity of the Zhao Manor.”

“You’re Awake?”The lawyer tilted his head and looked at Zhao Xueyin.

“Yes.”Zhao Xueyin raised her hand and pressed on her temple. The white blanket slid down her arm.

It was obvious that the lawyer had covered this blanket for her.

Zhao Xueyin sighed in her heart.

The lawyer was putting too much pressure on her.

“At this moment, the lawyer went to the other side and opened the door of the passenger seat. He extended his right hand to Zhao Xueyin. “The ground is frozen. Slow down.””

Zhao Xueyin put her hand on the lawyer’s hand and pulled it down.

“Why are your hands so cold? Are you wearing less clothes?”The lawyer frowned slightly.

“Zhao xueyin smiled and said, “It’s okay. I’m not cold.””

The lawyer took off his down jacket and draped it over Zhao Xueyin’s body. “Quickly put on your clothes. Girls can’t stand the cold.”

“Thank you.”Zhao Xueyin adjusted the down jacket on her body.

Flying Snow glanced past the lawyer’s eyes.

“Under the night sky, the man’s facial features appeared gentle and refined, and he was extraordinarily handsome.”

Zhao Xueyin sighed in her heart once again.

Why wasn’t he master five?

“Seeing Zhao Xueyin looking at him like this, the lawyer said somewhat embarrassedly, “Xueyin, why are you looking at me like that?””

“It’s nothing.”Zhao Xueyin retracted her gaze and very naturally let go of the lawyer’s hand. “Let’s go in.”

“Okay.”Si lui immediately followed Zhao Xueyin’s footsteps.

The two of them walked together into the manor’s Hall.

Today was the LABA festival. The Zhao family’s manor was brightly lit and filled with the festive atmosphere.

“As soon as the two of them walked into the hall, the butler came out to welcome them. “Mr. Si, Miss, you’re back.””

Zhao Xueyin nodded. “Where’s My Father?”

“The butler continued, “Master is waiting for you inside.””

“After passing through the outer hall and the long corridor, they finally arrived at the main hall. Father Zhao was sitting on the sofa. When he saw Si lui, he immediately stood up excitedly. “Ah Lui is back!””

“In the face of Father Zhao’s disregard, Zhao Xueyin did not have any special emotions on her face.”

Because she was already used to it.

“If it wasn’t for the paternity test, Zhao Xueyin would have suspected that Si lui was Father Zhao’s biological son.”

Chapter 1089: 240: How could she be worthy of her? She would become a joke in the entire financial world! 3

“Si Lu walked over and said politely, “Uncle.” ”

Father Zhao held Si Lu’s arm. “The kitchen has already prepared the dishes. We’re just waiting for you guys to come back. Let’s go and eat.”

Si Lu followed Father Zhao in the direction of the restaurant.

Zhao Xueyin followed behind them.

“The housekeeper began to arrange for the dishes to be served in the kitchen. Although there were only three people eating at night, the dishes were very rich and filled the entire table. ”

Father Zhao kept putting food into Si Lu’s bowl.

Zhao Xueyin ate the entire meal as if it were wax.

“After eating, she chatted with Father Zhao for a while before Si Lu suggested leaving. ”

“Father Zhao smiled and said, “Today is the LABA festival, and it’s already so late. Why Don’t you stay at home and rest for the night?” ”

“”No.”The lawyer glanced at Zhao Xueyin and politely refused, “I have something to do when I go back.” ”

“”Since you have something to do, I won’t keep you,”father Zhao continued, “Xueyin, go and see Ah Lui off.” ”

“Okay.”Zhao Xueyin stood up.

“The lawyer looked at father Zhao and said, “Uncle, I’ll be leaving first.” ”

“”It’s snowing outside. Drive slowly on the road,”Father Zhao instructed. ”

Si Lu nodded. “I know.”

“After saying that, Si Lu turned around and walked towards the door. ”

Zhao Xueyin followed his footsteps.

“At this moment, father Zhao suddenly said, “Ah Lu, wait a moment.” ”

““Uncle, is there anything else?”Si Lu turned around and looked at Father Zhao. ”

“Father Zhao said, “There was a lot of preserved laba garlic in the kitchen today. I’ll get the butler to bring some for you.” ”

““Thank you, Uncle.” ”

“Father Zhao smiled and said, “A family doesn’t talk like two families. You’re being too polite.” ”

“Soon, the butler ran over with the preserved laba garlic in his hand. “Mr. Si, here. This preserved laba garlic was just preserved. You’ll have to wait for ten days to half a month before you can eat it.” ”

“Okay.”Lawyer si nodded.

Zhao Xueyin sent lawyer si out of the door.

“When she came back, it was still snowy, but now it was snowing heavily. ”

“Si lui stopped in his tracks. “I’ll send you here. It’s cold outside, you should go back quickly.” ”

“Zhao Xueyin nodded and reminded him, “It’s a snowy day and your vision isn’t good. Drive safe.” ”

“Si lui smiled and said, “I will, don’t worry.” ”

“Seeing Si Lui’s back disappear under the sky full of snow, Zhao Xueyin turned around and went back into the house. ”

“When she returned to the hall, Zhao Xueyin’s expression was obviously not good, “Dad! Didn’t I say that I won’t marry anyone other than Master Wu? What are you trying to do? I’m begging you, please don’t be a couple anymore! I’m really under a lot of pressure! I don’t even know how to face brother Si!” ”

Father Zhao slammed the cup on the table. “What? Are you trying to teach me how to do things again?”

“Dad, that’s not what I meant.” Zhao Xueyin did not know how to explain. “I just feel that you’re making me look bad!” ”

“Father Zhao’s expression was also very ugly, “Who doesn’t know how to dream! ! You also want to marry Master Five, and she also wants to marry Master Five. Can Master Five marry all of you! ! I’m doing this for your own good! “If Master Wu doesn’t like you, you still have a way out! “I watched Ah Lui grow up with my own eyes! “He’s more than enough for you! “Don’t look like you’ve been wronged!” ”

“Who doesn’t want power and wealth?”?

Father Zhao also hoped that Zhao Xueyin could marry Master Wu as she wished.

But what if Master Wu didn’t like Zhao Xueyin?

Then wouldn’t it be a futile effort?

Too Much!

Father Zhao was simply too much.

“Zhao Xueyin was holding back her anger. It was neither up nor down, and it was very uncomfortable. ”

“Because she was not a boy, Zhao Xueyin had worked very hard since she was young. She worked hard to let Father Zhao see her. ”

Finally.

“Hard work paid off, and time gave her the best version of herself.”

But in Father Zhao’s opinion.

She was still not as good as a boy.

“No matter how good a lawyer was, he was only the chairman of the Shunxi Financial Group. He had always worked for the Zhao family.”

He was just a worker.

“From head to toe, which part of his body was worthy of her?”

“But in Father Zhao’s eyes, it was actually her who was not worthy of a lawyer.”

Wasn’t this deliberately trying to disgust people?

“After saying this, Father Zhao also felt that his words were a bit harsh. He looked at Zhao Xueyin., then, he said, “I treat ah lui well for your sake. If anything happens to master five, Ah Lui will always be your escape route! “Moreover, I haven’t revealed the relationship between you two to Ah Lui yet. You two can still be friends for now. Ah Lui won’t affect you from pursuing master five! “What is this called again? “What fetus... ..” ”

Chapter 1090: 240: How could she be worthy of her? She would become a joke in the entire financial world! 4

“In father Zhao’s opinion, if Zhao Xueyin could not be together with master five in the end, then the lawyer would be the best home for Zhao Xueyin.”

“After thinking for a long time, father Zhao finally remembered, “Yes! A spare tire! A spare tire! You young people should know what this means.” ”

“Hearing this, Zhao Xueyin’s expression eased up slightly.”

To be honest.

“With the current status of the Si Lui, he didn’t even have the qualifications to be her spare tire.”

“Zhao Xueyin turned to look at Father Zhao, “Father, I should have told you before that I will never marry anyone other than master five! Master Five is my life’s Goal! Even if I really can’t marry Master Five in the end, I will still marry Jin Ruyu, the eldest son of the Zhen Fei Financial Group!” ”

Zhenfei Financial Group was ranked third on the list.

“If they could marry Jin Ruyu, they would have half of zhenfei financial group in their hands. When they joined forces, their Zhao family would be one of the few existences in the financial world.”

“However, Jin Ruyu would settle for the second best.”

“No matter how good Jin Ruyu was, she could not compare to master five.”

“Father Zhao looked at Zhao Xueyin. “I think you have a higher heart than the sky! Your life is thinner than paper! It’s already good enough to have ah Lui as your spare tire, but you want Jin Ruyu to be your spare tire! Do you really think you are some kind of celestial being?” ”

Zhao Xueyin took a deep breath and tried hard to control her emotions that were about to explode.

“After a moment, Zhao Xueyin calmed down a little and turned to Father Zhao. “Dad, I can’t guarantee that I’ll be able to marry master five! But, marrying Jin Ruyu is only a matter of whether I want to or Not!” ”

“Father Zhao snorted coldly. Looking at Zhao Xueyin like this, he thought of himself when he was young.
”

“At that time, he was as confident as Zhao Xueyin. ”

“This child’s nature was like this, so it couldn’t be blamed on her! ”

“Father Zhao continued, “Did you gain anything from your trip to the capital? Ye Langhua has sent word that ye Zao will be sent over the day after tomorrow.” ”

“The day after tomorrow? So Soon?”Zhao Xueyin narrowed her eyes.

“Father Zhao immediately asked, “Did you fight with Ye Zao This Time?” ”

Zhao Xueyin nodded.

“How was it?”Father Zhao was a little worried.

He was worried that ye Zao was too outstanding and would steal Zhao Xueyin’s limelight.

People were all contrasting with each other.

Just like how green leaves complemented red flowers.

“If ye Zao was a green leaf, then it was fine. ”

“If ye Zao was a red flower, then it would be troublesome. ”

“Currently, Zhao Xueyin was the most outstanding existence in Shunxi Financial Group. If ye Zao was more outstanding than Zhao Xueyin, then how would the Zhao family stand out? ”

How would they be promoted to an aristocratic family?

“Thinking of this, Father Zhao frowned deeply. ”

“Before the aircraft carrier incident, Zhao Xueyin was still very afraid of Ye Zao. After all, Ye Zao had an outstanding performance in the scientific and technological world. ”

“After the aircraft carrier incident, ye Zao could only be a stepping stone for Zhao Xueyin. ”

“Even if ye Zao was a stepping stone for her, she felt that ye Zao was a sore spot! ”

“Zhao Xueyin continued, “After all, Ye Zao is ye Langhua’s biological granddaughter. She’s still a little smart, but she can’t make it to the public. You Don’t have to worry.” ”

“Father Zhao frowned. “If she’s just a little smart, can she make a name for herself in the science and Technology World and become a phd?” ”

“”According to my understanding, the reason ye Zao was able to win first place in last year’s science and Technology Competition and obtain a phd was purely because she picked up a few loopholes.”Speaking up to this point, Zhao Xueyin paused for a moment, then, she asked, “Dad, do you know about the aircraft carrier project that has been hyped up recently?” ”

Father Zhao shook his head.

He was only interested in financial news. He had always been clueless about other things.

“Zhao Xueyin continued, “Ye Zao just released a press conference yesterday. He said that he will develop the world’s first aircraft carrier that can land on the eight planets within two years!” ”

“Hearing this, Father Zhao was stunned. It took him a long time to react. “So, she can really develop an aircraft carrier?” ”

“Zhao Xueyin laughed lightly, “Dad! Do you think an aircraft carrier is a toy? ! You can develop an aircraft carrier just because you say you can! Even C Nation did not develop an aircraft carrier. How Old is Ye Zhuo? Most importantly, she has the aircraft carrier project in her hands to complete. She even has to come to the consortium. Do you think she really has that much time and energy to multitask?” ”

You Can’t have it both ways.

Who Did ye Zao think she was?

Was she a God?

“Hearing this, father Zhao immediately heaved a sigh of relief. ”

“He was Zhao Xueyin’s biological father, and he understood Zhao Xueyin. ”

“Zhao Xueyin had never been a person who underestimated her enemy. Since Zhao Xueyin had said so, then ye Zao definitely did not have any real talent. ”

“Father Zhao raised his head to look at Zhao Xueyin, then he said, “Although ye Zao is not a threat to you, you can not underestimate your enemy. No matter what, she is still a descendant of the Ye family! There is still that old thing Zhang Yifeng behind her! The day after tomorrow will come. You should make a good plan yourself.” ”
