Chapter 1601: 341: Every Minute and second is torture. Who does she think she is! 4

“I’m asking you a question!” Zhou Xiang continued.

Cen Shaoqing turned a page of the book. “I don’t know either.”

““What Book Are You Reading?” Zhou Xiang said speechlessly, “Is it that good?””

“It’s not bad.” Cen Shaoqing’s tone was indifferent.

“I asked you what book it is?” Zhou Xiang said unhappily.

Cen Shaoqing’s tone was low. “I’m just taking a look.”

Zhou Xiang:” ...”

She could finally see that Cen Shaoqing only acted like a normal person when he was by Ye Zhuo’s side.

“Other times, he was as reticent as gold!”

“After eating, Zhou Xiang stood up from the chair. When she passed by Cen Shaoqing, she specially turned her head to look at his book.”

She thought that Cen Shaoqing was definitely reading some kind of Buddhist scripture.

He did not expect the title of the article to be: how to make durian layer cake.

Zhou Xiang could not help but sigh. "The power of love is really great!"

"If it was in the past, Cen Shaoqing would not even enter the dessert room, let alone read books on this subject."

"After reading the recipe for several desserts, cen Shaoqing sent a message to ye Zhuo."

"[ leader, do you want to eat durian layer cake or mango halberd? ]"

"After a while, Ye Zhuo replied, [ I want to eat both. ]"

Cen Shaoqing:" ..."

"A few seconds later, Cen Shaoqing replied, [ Okay. ]"

"They had ingredients for these two desserts at home, so it was not too troublesome to cook them."

"After replying to Ye Zhuo's message, Cen Shaoqing took the book and walked to the dessert room."

10:30 pm.

"Ye Zao sat in front of his desk and looked at the big data. At this moment, his phone lit up. Ye Zao picked up his phone and looked at it. It was a message from CEN Shaoqing. [ come down, I'm downstairs. ]"

"Seeing this message, ye Zao immediately put on his coat and walked downstairs with his phone."

"When he passed by the living room, little white asked, "Big Zao, it's so late. Where are you going?""

“”I have something to do,”ye Zhuoluo said.”

“Do you want me to help duck?”Little White continued to ask.

“No need.”It was snowing outside. Ye Zhuoluo picked up an umbrella.

“”If you need help, don’t be polite. We’re all on the same side!”Little White shouted at Ye Zhuoluo’s back.”

Ye zhuoluo came to the door.

Cen Shaoqing leaned against the car door. He didn’t have an umbrella. The Snowflakes fell all over his shoulders.

“Why don’t you have an umbrella?”Ye Zao jogged over and held the umbrella over his head.

“It’s okay. I’m not cold.”Cen Shaoqing’s thin lips opened slightly.

Ye Zao stood on Tiptoe and swept the snow on his shoulder. “It’s so late. Why did you come to see me?”

“Didn’t you say that you wanted to eat mango pancake and durian cake?”Cen Shaoqing said.

“You bought it?”Ye Zhuo asked.

“Cen Shaoqing nodded slightly and did not explain that he made it himself. He opened the door of the passenger seat, took out the dessert box inside, and handed it to Ye Zhuo.”

“Ye Zhuo said, “Come in and have a seat with me.””

Cen Shaoqing looked at his watch. “It’s too late. It’s not suitable.”It was not good for girls.

"I didn't realize that you were so Conservative."Ye Zhuo took the dessert.

"CEN Shaoqing continued, "Go back quickly. Go to bed early after eating the dessert.""

"When are you going back?"Ye Zhuo asked.

""I'll go back when I see you go in,"Cen Shaoqing said."

Ye Zhuo nodded slightly. "Then I'll go back first. Drive safe on the road."

"Okay."

Cen Shaoqing watched ye Zao's back.

"Ye Zao took a few steps forward and suddenly turned around. He trotted over and stood on his toes. His red lips landed on the man's cold chin. "Cen Shaoqing, thank you!""

Cen Shaoqing reached out and hugged her waist. He lowered his head and pecked her lips lightly. "You're so short!"

"Hearing this, Ye Zao was unhappy. "Who are you calling short! I'm 173 and you're 190. Aren't we just 17 centimeters apart?""

""To be precise, it's 20 centimeters."CEN Shaoqing continued, "Grandma was afraid that I would be too tall to find a girlfriend, so she underreported by 3 centimeters.""

Ye Zao:" ... "I'm so angry!

"Cen Shaoqing reached out and rubbed ye Zao's head. "Alright, let's go back.""

Ye Zao gave him a kick before leaving.

“Looking at a certain someone’s back, Cen Shaoqing’s lips curled into a faint smile.”

What a little girl!

Ye Zhuo carried the dessert box back into the house.

“Coincidentally, Lin Jincheng came down from upstairs. Lin Jincheng asked curiously, “Zhuozhuo, did you order takeout?””

“”No.”Ye Zhuo explained, “Cen Shaoqing brought the dessert. Dad, do you want to try it?””

Lin Jincheng shook his head. “You eat it. I can’t eat it.”

Chapter 1602: 341: Every Minute and second is torture. Who does she think she is! 5

“Ye Zao smiled and said, “Actually, I was just being polite with you.” ”

“This girl!”Lin Jincheng chuckled.

“Ye Zao went upstairs and tasted the durian layer cake. He found that the taste was not right. Then, he tasted the mango pancake. Then, he took out his phone and sent a message to CEN Shaoqing. After editing a paragraph, Ye Zao deleted it again, cen Shaoqing must still be on the way. He would send it when he got home. ”

“Fifteen minutes later, Ye Zao sent a message to CEN Shaoqing. [ are you home yet? ] ”

"[ yes, I'm soaking my feet. ] Cen Shaoqing sent a picture of him soaking his feet to ye Zao. "

"Ever since he got a girlfriend, Cen Shaoqing was used to taking a photo of what he was doing and sending it to the other party. "

He understood all the actions of those couples that he did not understand in the past. He even enjoyed it.

"Ye Zhuo also took a photo for him. [ these two desserts were not bought. You made them yourself, right? ] "

Cen Shaoqing was stunned. [ did you taste it? ]

[ yes. ]

Cen Shaoqing continued to reply: [ as expected of a biological girlfriend. ]

Ye Zao sent an emoji.

...

Time passed quickly.

"In the blink of an eye, the lantern festival had passed. On the day that Baizhi and Liu de left the Cen family, Ye Zao and some of the Cen family's older sisters had gone to the airport to send them off. "

The rest of their lives became busier again.

Ye Zao was busy running between the school and the base.

“She was already a junior this year. Unlike other departments, the chemistry department had to participate in various experiments during her junior year. ”

Ye Zhuo had just finished an experiment when he received a call from Tang Mi. She said that there was a problem with the laboratory.

“”Alright, I’ll be there right away.” ”

Ye Zhuo hung up the phone and sat in the driver’s seat. He then drove towards the base.

“Half an hour later, the car arrived at the base. ”

“Tang Mi was standing at the door. When she saw ye Zhuo walking over, she immediately went up to him. “Miss Ye!” ”

Ye Zao nodded slightly. “What went wrong?”

“Tang mi continued, “Didn’t you propose to use a nuclear reactor as the power raw material? “But when we did the experiment today, we found that the nuclear reactor didn’t react at all with the protons! “Miss Ye, do you think there’s a problem with the calculation formula?” ”

“At present, the production of the aircraft carrier was already half completed. If there was a problem with the power raw materials at this time, then all the efforts that they had put in for so long would be in vain! ”

“”It shouldn’t be a problem with the formula.”Ye Zhuo continued, “Don’t worry, let’s go in and take a look first.” ”

“Okay.”Tang mi nodded and followed ye Zhuo’s footsteps.

“Although it was only half an hour, the news of a problem with the power raw materials had already spread throughout the base.”

“The aircraft carrier plan was already in doubt. Now that the power raw materials had gone wrong again, the entire construction cabin was in an uproar.”

Everyone was discussing whether the aircraft carrier plan was going to be declared a failure!

“After all, the power raw materials were the heart of the aircraft carrier.”

“If the aircraft carrier wanted to reach the speed of light, it had to use the nuclear reactor as the power raw materials.”

“And the nuclear reactor had gone wrong again and again. From the looks of it, this aircraft carrier plan was most likely going to end in failure!”

“Cen Jiang appeared among the crowd and said with a smile, “Don’t worry, everyone. Miss Ye hasn’t arrived yet! I believe that Miss Ye will definitely have a way to solve it.” ”

Cen Jiang’s appearance successfully reduced the noise of the crowd’s discussion.

“Although the aircraft carrier plan had not been completed, they had witnessed ye Zhuo’s ability. Perhaps ye Zhuo really had a way to solve it.”

“”Team leader Cen, have the leaders informed Miss Ye?” ”

“Cen Jiang said, “Don’t worry, everyone. We’ve already informed her.” ”

On the other side.

In Tang Xue’s office.

Tang Xue listened to her assistant's report and smiled as she looked up. "Really? What's the problem this time?"

"Although the aircraft carrier project had always been a fantasy, and Tang Xue had long been used to having problems from time to time, every time she heard that something had happened in Area C, she could not help but be excited."

She was very much looking forward to the arrival of the three-year agreement soon.

"More than a year had passed, and now there were less than two years left."

"The assistant continued, "I heard that it's the nuclear reaction and the proton problem!" "

"Hearing this, Tang Xue narrowed her eyes. "Did ye Zao previously claim that he could combine the nuclear reaction and the proton as power materials to create an aircraft carrier that was faster than the speed of light?" "

""Yes."The assistant nodded. "Now that there is a problem with the power materials, the people in Area C are worried that the aircraft carrier will not be completed as promised." "

Chapter 1603: 341: Every Minute and second is torture. Who does she think she is? ! 6

"Tang Xue laughed out loud. "Not to mention not being able to complete it according to the agreement, even if ye Zhuo was given another 30 years, she wouldn't be able to complete it! Using a nuclear reactor as raw material, who does she think she is?" "

A nuclear reactor could be used as power raw material?

“When Tang Xue heard this comment back then, she thought it was funny and laughable. As expected, there was a problem with the power raw material now.”

“Where is Tang Mi Now?”Tang Xue continued to ask.

“”I just saw her enter the laboratory with Miss Ye,”the assistant replied. ”

“What an idiot!”Tang Xue’s tone was a little disappointed. “What time is it? She’s still dreaming of making a name for herself!”

“As one of the leaders of the aircraft carrier project team, if the aircraft carrier project was successfully completed, Tang Mi’s name would be carved on the milestone of history along with all the members. ”

Praise from generation to generation.

Unfortunately.

Tang mi miscalculated and walked on a path of no return.

“When the betting agreement came into effect, Tang Mi would just wait to Cry! ”

“Soon, it was time to get off work. ”

The employees in the base left one after another. Only the lab staff of Big C remained at their posts.

“After Tang Xue left the base, she did not go straight home. Instead, she went to a coffee shop. ”

“When she arrived at the agreed-upon location, the other party was already waiting. ”

Tang Xue smiled as she walked over. “Mr. William.”

“Miss Tang.” William raised his head slightly. “Please take a seat.”

Tang Xue leaned over and sat on the chair opposite William.

“William took a sip of coffee and continued, “How’s the Cen’s base recently?” ”

““As you wish, there’s been another problem today,” Tang Xue said. ”

“What problem?” William asked.

““The problem of the aircraft carrier’s power raw materials.” Tang Xue also took a sip of coffee, then she said, “Mr. William, actually there’s no need to worry about the headquarters at all. Not to mention that there’s less than two years before the three-year agreement, even if ye Zao was given another two years, she wouldn’t be able to build an aircraft carrier faster than the speed of light.” ”

“William stirred the coffee in his cup and smiled. “I’m relieved with Miss Tang’s words. Don’t worry, Miss Tang. I’ll definitely tell the Headquarters the truth about your contributions.” ”

““Thank you.” Tang Xue raised her cup towards William. “I only hope that after the three-year agreement expires, the headquarters will not forget a person like me. Mr. William, don’t forget your promise.” ”

““Don’t worry, we C Nation people always keep our promises.” William raised his cup. “When the gambling agreement expires, Miss Tang will definitely be the base’s Chinese agent.” ”

“Soon, the Cen’s base would become the base of C Nation and a few other countries, so Tang Xue naturally had to find a way out at this time. ”

“Therefore, she thought of a way to get on William’s good side and signed a contract with him. During these three years, she provided William with all kinds of information, and William promised her the identity of the base’s Chinese agent. ”

“After country C and a few other countries took away the ownership and management rights of the CEN base, she would be the new owner of the CEN base in China! ”

“At that time, whether it was ye Zhuo or Cen Shaoqing, they would all have to look at her! ”

“The more Tang Xue thought about it, the more pleased she became. ”

“William looked at his watch and continued, “Miss Tang, I still have something to do. Let’s make an appointment on wechat the next time we meet.” ”

“Okay.”

“After leaving the cafe, Tang Xue drove home. ”

“When the car stopped at the entrance of the villa, she saw Tang standing at the door talking to someone. ”

“When she got closer, she realized that this person was Tang Mi’s mother, Xiao Qing. ”

Tang Xue smiled and walked over. “Auntie.”

“Xiao Qing saw Tang Xue and said with a smile, “Xiaoxue, you’re back! Did Our Tang Mi come back with you?” ”

““There’s a problem in area C. Tang Mi should still be busy,”Tang Xue said. ”

“Area C? Isn’t Tang Mi in Area B? When did she go to Area C?”Xiao Qing asked in puzzlement.

“Tang Xue said, “Little aunt, don’t you know? In order to pursue her dream, Tang Mi made a name for herself. As early as last year, she joined Miss Ye’s aircraft carrier project team!” ”

“What?”Xiao Qing’s expression changed.

“Of course, she knew about the aircraft carrier incident. But what she didn’t know was that Tang Mi also joined! ”

“”Xiaoxue, are you not joking with me?” ”

“Tang hurriedly said, “Xiaoxue, it’s not good to joke with your auntie about such things!” ”

“”Mom, Auntie, do you think I would joke about such things?”Tang Xue continued, “Auntie, if you don’t believe me, you can ask Tang Mi when she comes back later.” ”

“Tang frowned. “Xiaoxue, you’re Tang Mi’s sister. Why Don’t you try to persuade your sister? Your bones are broken and your tendons are still attached!” ”

Tang Xue sneered with a sarcastic look in her eyes. “Persuade? Can I persuade her?”

“Xiao Qing said, “Xiaoxue, have you tried to persuade Tang Mi?” ”

“”Auntie, I’m her sister. Can I just watch her jump into the fire pit?”Tang Xue turned to look at Xiao Qing and continued, “But not only did she not listen to me, she even thought that I was harming her. What can I Do?” ”

“Chapter 1604: 342: Mu Yourong’s death, directly decided internally? 1”

“Hearing this, Xiao Qing tightly creased his brows.”

“Tang Xue calmly sized up Xiao Qing’s expression. After a moment, she said with some surprise, “Little aunt, don’t tell me that you really don’t know about Tang Mi and the aircraft carrier project team?””

“Xiao Qing shook his head. “I don’t know. If I knew, I would definitely stop her!””

“Although Xiao Qing was not in the research community, when she heard the news about the aircraft carrier incident, she felt that a three-year agreement was a fantasy.”

Three years?

“If China could really build an aircraft carrier within three years, then country C and the other big countries would no longer have a need to exist in this world!”

“One had to know that 100 years ago, country C had joined forces with the more developed countries at that time to start researching spaceships and aircraft carriers.”

“Now, 100 years had passed. Not to mention aircraft carriers, even spaceships that could reach the speed of light had not been developed!”

“As a Chinese, she loved China more than anyone else. She hoped that her country could become stronger day by day. She also hoped that the CEN base could represent China in building the world’s first aircraft carrier that could reach the speed of light.”

“However, China had been invaded before. After that invasion, China was more than twenty years behind the world.”

“Now, China was developing. Although technology was changing, it was impossible to build an aircraft carrier that could reach the speed of light.”

“Before this, Xiao Qing had always treated this matter as news. However, she did not expect her daughter, Tang Mi, to actually become the main character of this matter.”

This made Xiao Qing somewhat unable to accept it.

“Tang Xue took in all of Xiao Qing’s changes in expression, “Since Tang Mi didn’t tell you about this matter, then she definitely didn’t want you to know! It’s all my fault! It’s my fault for blabbering. Auntie, don’t blame Tang Mi. After all, people walk higher, water flows lower! Tang Mi has the desire to advance, and her idea of becoming a person above others is right!””

“This sentence seemed to be a compliment on the surface, but it was actually a sarcastic remark.”

Tang Mi wanted to be the best?

How could it be so easy to be the best?

“Tang Mi was such an untalented idiot. Even entering the CEN base was thanks to her. If it weren’t for her, Tang Mi wouldn’t have been accepted by the CEN base!”

She still wanted to be the best!

Wasn’t this ridiculous?

“At this moment, the sound of a car engine could be heard in the air.”

Xiao Qing turned around and saw that Tang Mi had returned.

“When he saw Tang Mi, the anger in Xiao Qing’s eyes grew even more.”

“Tang mi walked over and greeted politely, “Auntie, Mom.””

Mother Tang smiled and nodded. “Tang Mi is back.”

“Yes.”

Xiao Qing looked at Tang Mi. “Can’t you see that your sister is also standing here?”

“Tang Mi had argued with Tang Xue before, but now that Xiao Qing had opened his mouth, she could only bite the bullet and call Tang Xue, “Sister.””

“Tang Xue smiled and said, “Tang Mi is back.””

“Xiao Qing looked at Tang and Tang Xue. “Her aunt and Xiaoxue, then we’ll go back to our room first.””

“Let’s go back.”Tang nodded. “We should go back too.”

Since they were walking to their respective doors.

“Tang mi walked beside Xiao Qing and saw that his expression didn’t look right. She smiled and said, “Mom, did my dad make you angry again?””

Xiao Qing didn’t say anything.

Tang mi scratched her head. “Mom?”

Xiao Qing still didn’t say anything.

“Actually, when Xiao Qing didn’t say anything, he was quite scary. Tang Mi didn’t dare to say anything more.”

“After a while, the mother and daughter entered the house together.”

Tang Shengli walked out with a smile. "It's good that you two are back. Go Wash your hands and get ready for dinner!"

""Eat, eat, eat! What else can you do besides eating?"Xiao Qing said angrily."

The smile on Tang Shengli's face stiffened. "What's wrong? who provoked you?"

"Ask your good daughter!"

"Me?"Tang mi pointed at herself. "What did I do to You?"

Tang Shengli also looked at Tang Mi. "Hurry up and apologize to your mother!"

"Tang mi said somewhat speechlessly, "What did I do wrong? I'm just going to apologize?"""

""Her mother, what did her daughter do wrong?"Tang shengli turned to look at Xiao Qing."

Xiao Qing was furious. "Let her say it herself!"

"Tang Shengli pointed at Tang mi and said, "Say it yourself!"""

Tang Mi was speechless. "What did I say?"

""That's right!"Tang shengli nodded and turned to look at Xiao Qing. "Her mother, what did you tell her daughter to say?"""

"Xiao Qing was furious. "Tang Shengli, shut up! I have ears, and I can hear myself! Look at you, don't you look like a Father?"""

Tang Shengli scratched his head but didn't say anything.

“Xiao Qing looked at Tang Mi and continued, “Let me ask you, did you join the aircraft carrier project team?””

“Chapter 1605: 342: Mu Yourong’s death, directly decided internally? 2”

“Hearing this, Tang Mi’s expression changed. ”

Oh No!

How did this matter get discovered by Xiao Qing?

“Yes.”Tang mi nodded.

“Since Xiao Qing had already discovered it, then there was no need for her to hide it! ”

“You stupid girl! Who allowed you to join the aircraft carrier project team?”

Tang mi lowered her head and didn’t say anything.

“You joined the aircraft carrier project team?”Tang Shengli turned to look at Tang Mi.

Tang mi nodded.

“Really?”Tang Shengli immediately asked.

“”Yes,”Tang Mi said. ”

“Tang shengli asked again, “When did you join?” ”

“Tang mi thought for a moment and then said, “Last year.” ”

“Tang shengli laughed out loud. “You Child, why didn’t you say hello to your mother and me? ! Good, good, good! This is a good thing!” ”

Tang mi looked at Tang Shengli in surprise. She even thought that she was hallucinating.

“”Good thing? Tang Shengli, I think you’re Crazy!”Xiao Qing walked over, he pinched Tang Shengli’s ear. “That miss ye from their base just signed a betting agreement with C Nation not long ago. Have you thought about the consequences?” ”

“After saying that, Xiao Qing turned to look at Tang Mi. “Leave the aircraft carrier project team immediately!” ”

“Why?”Tang mi frowned.

“”Why? Tell me why!”Xiao Qing continued, “Are you going to watch your bright future be destroyed in your hands?” ”

“Tang mi said firmly, “I believe that Miss Ye will definitely be able to build our own aircraft carrier!” ”

“”I think you’re Crazy!”Xiao Qing continued, “I’ll give you three days to leave the aircraft carrier team immediately! Otherwise, you won’t be our daughter!” ”

“In Xiao Qing’s eyes, Tang Mi’s actions were no different from destroying her own future. ”

“Ye Zhuo had signed a bet agreement. If the aircraft carrier project failed, those who participated in the construction of the aircraft carrier would be nailed to the pillar of shame. ”

Tang Mi was Xiao Qing's daughter. She knew Tang Mi very well. Tang Mi loved scientific research more than her own life.

"If the aircraft carrier project failed, Tang Mi would never be able to set foot in the scientific research world again."

"Tang mi bit her lip and continued, "Now that the matter has been settled, I Can't quit halfway! Even if I really quit the planning team, no department would be willing to take me in!" "

"Xiao Qing continued, "I'll talk to Xiaoxue about this! Xiaoxue will definitely have a way! If it really doesn't work out, I'll go to the primary school and ask you to be her assistant! In short, you should resign immediately!" "

"Speaking up to this point, Xiao Qing sighed and continued, "Tell Me, why can't you learn from Xiaoxue? Look at how much Xiaoxue has." "

He had to admit that Tang Xue was quite amazing.

"Back then, Tang Xue only took the exam once and was accepted by the CEN base."

Tang Mi took the exam three times instead.

It was only until the last time that she was accepted by the CEN base.

""Mom, don't mind my business! "I won't be Tang Xue's assistant, and I Won't resign!"Tang mi continued, "I just want to be by Miss Ye's side! "I want to complete the aircraft carrier project with the people from Area C!" "

Xiao Qing was so angry by Tang Mi's words that he laughed.

Complete the aircraft carrier project?

""Do you think building an aircraft carrier is as easy as building a plane?"Xiao Qing continued, "I've seen the news. Your Miss Ye, who doesn't know the immensity of Heaven and earth, still wants to talk about building an aircraft carrier that can reach the speed of light and land on the eight planets! "You're also a scientist. I don't think I need to explain to you what the speed of light represents, right? "Do you think the current civilization of mankind can build an aircraft that can surpass the speed of light?" "

There were a total of level seven civilizations in the universe.

A level one civilization could use all the resources on the planet they were on.

A level two civilization could freely control the energy output of the planet they were on.

Only a level five civilization could build an aircraft that could surpass the speed of light.

"Humanity was currently in a Level 1 civilization. They had not even reached level 2, yet they were dreaming of landing on the eight planets and flying out of the Solar System. Wasn't this a dream? "

It was precisely because Tang Mi loved scientific research and her work that Xiao Qing did not want to do something that he would regret.

""Why not? You haven't even tried, how do you know you can't?"Tang mi continued, "Miracles are created with your hands, not imagination!" "

""I think you're Crazy!"Xiao Qing continued, "I'll give you one last chance. Leave the aircraft carrier project team tomorrow!" "

Chapter 1606: 342: Mu Yourong's death was decided internally? 3

““Unless the aircraft carrier project team is disbanded, otherwise, I will never leave this world!”Tang mi’s attitude was firm. ”

Xiao Qing frowned and turned to look at Tang Shengli. “Look! Look! This is the good daughter you’ve Spoiled!”

“Our daughter isn’t wrong! How do we know that the aircraft carrier project won’t work if we don’t try!”Tang Shengli said.

“This is outrageous!”Xiao Qing grabbed Tang Shengli’s ear. “What did you say just now? Who Isn’t wrong?”

“Tang Mi was still young, so it was fine if she wasn’t sensible. However, she didn’t expect Tang Shengli to be insensible as well. ”

“Tang Shengli waved Xiao Qing’s hand away, then, he said, “Her mother, I can let you make the decisions about other things in the family! But this is the only thing that can’t be done! So what if her daughter joins the aircraft carrier project team? Young people should have ideals and aspirations! So what if they fail? At least her daughter has once worked hard and strived for her ideals!” ”

“After saying that, Tang Shengli looked at Tang Mi. “Daughter, don’t listen to your mother’s nonsense! I support you! I also believe in You and Miss Ye!” ”

Tang mi looked at Tang Shengli in disbelief. “Dad! Do you really support me?”

Tang shengli patted his chest. “Of course! When have I ever lied to you? Go Chase your dreams! Mom and dad will never hold you back!”

““Thank you, Dad!”Tang Xue hugged Tang Shengli excitedly. ”

“Tang shengli smiled and said, “This child!” ”

""Tang Shengli!"Looking at the father and daughter who looked like a pair of clowns, Xiao Qing was extremely angry. "Are you crazy? Do you know what you're talking about?" "

""I'm Not Crazy!"Tang Shengli looked at Xiao Qing. "In short, you don't have to care about this matter. I support my daughter!" "

""Thank You, Dad! Dad Is So Nice!"Tang Mi was so happy. She thought that she wouldn't be able to get past her parents, but she didn't expect Tang Shengli to support her so much. "

Xiao Qing massaged her temples. "Tang Shengli!"

""Honey, don't be angry!"Tang Shengli walked over and supported Xiao Qing. He continued, "It's right for young people to pursue their dreams! Didn't the books say that a life without dreams is just a salted fish!" "

"Is that her dream? That's her dream! Daydreaming! Impossible!"

"Tang shengli continued, "Honey, whether it's a dream or an ideal, setting a goal is the right thing to do! "Especially at our daughter's age, she should chase after the light and strive for her own goal! "No matter if she succeeds in the end, at least she won't leave any regrets for her youth. "Whose youth isn't crazy?" "

"Speaking up to this point, Tang Shengli sighed and said proudly, "Her mother, you've been through it. You should be able to understand our daughter's current mood!" "

"After hearing this, Xiao Qing's expression calmed down a little. He looked at Tang mi and said, "Have you thought about the consequences of failure?" "

"I have!"Tang mi nodded.

"Can you accept it?"Xiao Qing asked.

“Tang mi looked at Xiao Qing and said, “I can accept it! Just like Father said, I don’t want to leave any regrets for my youth! Even if my plan fails, I’m willing to bear the consequences!” ”

“Looking at the stubborn Tang Mi, Xiao Qing sighed helplessly! ”

“Through her daughter, she seemed to see herself when she was young. ”

“If she had been so brave at that time, she wouldn’t have left any regrets! ”

“Unfortunately, there were no ifs in life, only the present. ”

“”As long as you think it through!”Xiao Qing continued, “If you fail, you’re not allowed to cry beside me!” ”

“”Don’t worry, I Promise I won’t!”Tang mi smiled and said, “Thank you, Mom! Thank you, Dad!” ”

“Silly girl!”Tang Shengli patted Tang Mi’s head.

“Xiao Qing looked at Tang Mi, his eyes full of worry. ”

“Although she knew that the aircraft carrier plan might not succeed, as a mother, she could only respect Tang Mi. ”

As long as Tang Mi didn’t regret it.

“Xiao Qing looked at Tang mi and added, “Tang Mi, you have to think carefully. Sometimes, dreams can’t be done just by being hot-blooded!” ”

“”Yes, Mom, I know.”Tang mi continued, “Since I made this choice, I have thought about it carefully.” ”

“Whether she succeeded or failed, she wouldn’t regret making this decision. ”

“Xiao Qing looked at his daughter and didn’t say anything more, because she saw the determination in Tang Mi’s eyes. ”

Since that was the case.

Then let her try.

What if she succeeded!

On the other side.

“Tang looked at Tang Xue and asked curiously, “Why didn’t you tell me that Tang Mi had joined the aircraft carrier project team?” ”

Tang Xue ate a sliced pear. “It’s not a big deal!”

Chapter 1607: 342: Mu Yourong’s death was decided internally? 4

“Mother Tang continued, “It’s not a big deal that she jumped into the fire pit! I’m telling you, this time, if your uncle and aunt come to beg you, you’re not allowed to help them! That family of ingrates, none of them are good. If it wasn’t for you, would she, Tang Mi, have been accepted into the Cen clan’s base? “They, on the other hand, haven’t even said a word of gratitude all these years!”! “Especially that Tang Mi, not only did she not have the slightest bit of gratitude, she even said that she was accepted into the CEN base by relying on her own strength. If she was really that amazing, why did she die twice?” ”

“Speaking up to this point, Tang continued, “That little slut Tang Mi, is just like her mother! One way in front of others, another way behind others!” ”

“Upon mentioning the matter of admission, Tang Xue was furious. Mother Tang was right, that whole family was ingrates. ”

“At that time, if it wasn’t for her sake, how could the examiner have accepted Tang Mi? ”

“Just based on that idiot, Tang Mi. ”

Not to mention three times.

“Even if she took the test thirty times, she wouldn’t be able to enter the CEN base. ”

“”I know, don’t worry. This time, even if they kneel on the ground and beg me, I won’t help them!” ”

“”That’s right!”Tang nodded, then she said, “There’s no favor in helping them! By the way, Xiaoxue, how’s your negotiation with C Nation Going? Have you signed the contract? Will they hand over the management rights of the CEN base to you?” ”

“”The contract was signed two weeks ago,”Tang Xue said. ”

“Tang was stunned, then she said, “You Child, why didn’t you tell us about such a big matter!” ”

“Tang Xue smiled and said, “Mother, Your Daughter’s Glory is still to come!” ”

Mother Tang nodded.

Her greatest pride in her life was to have an outstanding daughter like Tang Xue.

“They were both girls, and only Tang Xue could inherit the mantle of Old Master Tang. ”

As for Tang Mi?

She could only be Tang Xue's assistant for the rest of her life.

"When the bet agreement expired, Tang Mi wouldn't even have the chance to be Tang Xue's assistant! "

"At that time, the entire Tang Clan could only rely on Tang Xue to carry forward! "

"Thinking of that scene, mother Tang was extremely excited. "

"At that time, she would see how Xiao Qing could still be arrogant in front of her! "

"Xiao Qing relied on the fact that he was born better than her. In front of her, he couldn't wait to raise his head to the sky! "

"After saying that, mother Tang continued, "Oh right, Xiao Xue, your third aunt called me and said that she wants to move your cousin to the CEN Group's base. What do you think?" "

"Has Bai Yun already graduated from university?"Tang Xue asked.

""What University? She has already graduated from graduate school!"Tang continued, "Your third aunt only has one daughter, Yun Yun. If we can help her, we will. I guarantee that Yun Yun will definitely not be like that ingrate Tang Mi!" "

"Bai Yun was Tang's biological niece. As an aunt, she naturally hoped that her niece would be good! "

""Alright."Tang Xue continued, "In a week's time, the CEN family base will have an entrance exam. Please let Bai Yun Register first. I'll inform the examiner when the time comes." "

"Mother Tang nodded. "Alright, then I'll leave the matter of Yun Yun to you!" "

“As long as Bai Yun isn’t that kind of ungrateful person!”Tang Xue said.

“Mother Tang smiled and said, “Little Xue, don’t worry. Yun Yun is definitely not that kind of person!” ”

“After saying that, mother Tang continued, “The next-door neighbor will definitely come and beg you soon. You have to be firm in your stance!” ”

“The aircraft carrier project team was not so easy to pull out of. If Tang Mi wanted to leave unscathed, she would still have to come and beg Tang Xue. ”

“Okay.”Tang Xue nodded.

“Mother Tang continued, “But don’t reject so quickly. Pretend to hesitate for a moment, okay?”She liked to see Tang Shengli and Xiao Qing acting submissively in front of her. ”

“If she directly rejected them, then she wouldn’t be able to see what she wanted to see! ”

“Got it.”

“As soon as she finished speaking, there was a knock on the door. ”

““You’re here so quickly.”Tang hurriedly said, “Little Xue, go upstairs first!” ”

“Okay.”Tang Xue turned around and walked upstairs.

Tang walked over to open the door.

The door opened. The person who came was indeed Xiao Qing.

Xiao Qing was still holding something in his hand.

The corners of Mother Tang's mouth curled up slightly.

"Usually, she did not see Xiao Qing give anything to their family. Now that she had something to ask of them, she only knew how to take things! "

""Her youngest aunt, why is she still here so late?"Mother Tang asked despite knowing the answer. "

"Xiao Qing smiled and said, "Sister-in-law, I just forgot. This is a little local specialty that Shengli brought back from the south city. Take it and have a taste." "

Forgot?

A sarcastic look appeared in Tang's mother's eyes.

Chapter 1608: 342: Mu Yourong's death was decided internally? 5

This Xiao Qing was quite good at lying through his teeth.

Did he really think that everyone in the world was a fool?

""Then thank her little aunt. Quick, come in and have a seat."Mother Tang welcomed Xiao Qing into the house. "

Xiao Qing followed her into the house.

Mother Tang poured a glass of water for Xiao Qing.

“Xiao Qing smiled and said, “If I sit, I’ll leave. I don’t need to drink water! Right, why haven’t I seen Little Xue?” ”

“Tang said, “Xiaoxue has gone upstairs to rest. If you have anything to say, just tell me. We’re family, so there’s no need to be polite.” ”

“”It’s nothing. I’m just asking.”Xiao Qing continued, “By the way, among those local specialties, there’s a dried scallop. It’s especially good for making soup, but it has a bit of a fishy smell. When you’re making soup, remember to ask Auntie to add more cooking wine and Ginger.” ”

“Okay.”Tang nodded.

“Xiao Qing drank a mouthful of water and placed the cup on the table. He stood up and said, “Then I’ll go back First!” ”

Go Back?

Tang was stunned!

“Xiao Qing hadn’t even started begging her, and she was going back already?” ”

“Tang continued, “Why don’t I get someone to call Xiaoxue Down?” ”

She really wanted to see Xiao Qing behave so submissively.

“”No need, no need.”Xiao Qing smiled and said, “I don’t have anything to do with Xiaoxue. Why did you call her down? I’m leaving First!” ”

“After saying that, Xiao Qing turned around and walked out of the door. ”

“Looking at Xiao Qing’s back, Tang frowned tightly. ”

It was different.

This was very different from what she had imagined!

Could it be that Tang Mi didn't want to continue staying in the CEN Group's base?

"Tang felt a little uncomfortable and couldn't help but call out to Xiao Qing, "Her aunt, wait a moment."  
"

""Sister-in-law, is there anything else?"Xiao Qing turned to look at Tang. "

"Tang continued, "Her aunt, when you go back, ask Tang Mi if she has really joined the aircraft carrier project team?" "

"Yes."Xiao Qing nodded.

"Then don't you guys have anything to say?"Tang asked.

"Xiao Qing took a deep breath, "How should I put it! Actually, I'm very opposed to her being in the aircraft carrier project team, but this girl is one-track minded. No matter how I try to persuade her, it won't work! Moreover, she won and supported her. Standing on her side, I can only let her go! I still have to have a dream! What if it comes true?" "

"At the end of his speech, Xiao Qing laughed out loud. "

"Her little aunt! Have you thought it through? This matter isn't a joke! I heard from Xiaoxue that that miss ye even signed the bet agreement!"Tang said.

"Xiao Qing nodded. "I know, I know! But since it has already happened, I can only let her go! Alright, sister-in-law, I Won't talk to you anymore. I have to go back!" "

"After saying that, Xiao Qing turned around and left. "

"Looking at Xiao Qing's back, Tang snorted coldly. "The whole family are idiots! What if it comes true! In your dreams!" "

"After Xiao Qing left, Tang hurriedly ran upstairs. "Xiaoxue! Xiaoxue! I have something big to say!" "

"What big thing?"Tang Xue raised her head to look at Tang. "There was a big fuss."

"Tang continued, "Just now, Xiao Qing came over. Guess what she said?" "

"Did she beg you?"Tang Xue asked.

"No."Tang shook her head. "You definitely can't Guess!"

Tang Xue narrowed her eyes. "What exactly is it? Don't keep us guessing!"

"Tang continued, "Xiao Qing and Tang Shengli actually agreed to let Tang mi continue to stay in the aircraft carrier project team. They even said that young people should have dreams. What if they have eyes? ! Do you think they're crazy? !" "

"Tang Xue snorted. "As expected, like father, like daughter! It's fine if little aunt, a woman, can't figure it out, but I didn't expect little uncle to be confused with her!" "

"These people, were they all living in a dream? "

"Tang Xue continued, "That's good too. Mother, you can tell this matter to the other uncles and grandpas in the family tomorrow!" "

The Tang Clan was a large family.

"Alright." Mother Tang nodded.

...

On the other side.

Wutong Garden.

Mu Yourong had already been locked up here for half a month.

"Although it was only half a month, Mu Yourong seemed to have changed into a completely different person. She was extremely thin and her eyes were lifeless."

Creak —

"At this moment, the door opened."

The sudden light caused mu yourong to squint her eyes in discomfort.

The first thing that came into her sight was a pair of shiny black leather shoes.

"Looking up from the pair of leather shoes, she saw the long legs that were wrapped in the suit pants, followed by that face that was as gentle as jade."

"Seeing that face, Mu Yourong's originally expressionless eyes suddenly revealed a fearful expression."

"Every time she faced Song Shiyu, she still couldn't help but panic."

Chapter 1609: 342: Mu Yourong's death is decided internally? 6

"Song Shiyu looked down at Mu Yourong from above. His gaze was sinister, like a demon that had crawled out from the depths of hell. "

"After a moment, Mu Yourong raised her head and suppressed the panic in her heart. She said weakly, "Please let me die, give me a quick death!" "

"Rather than live with no dignity and suffering, it was better to die. "

Song Shiyu did not speak and slowly put on his gloves.

"Mu Yourong knew what he wanted to do next. "Song Shiyu, I Beg You..." "

"Do you want to die?" Song Shiyu pinched Mu Yourong's chin. "It's not that easy!"

Mu Yourong closed her eyes in despair.

If.

"If there was an afterlife, she would definitely not choose to leave song Shiyu. "

She would do everything in her power to make song Shiyu fall in love with her.

"She would make song Shiyu fall in love with her but not be able to. She would make him her dog, be at her beck and call, and pay with his life for her! "

“She would make the person sitting here, conservatively suffering, become that slut ye Zhuo.”

Wrong.

She was wrong.

She had been wrong from the start.

“If she had known that the only thing that was missing between her and Ye Zhuo was the bite mark on her arm, no matter what price she had to pay, she would have made the exact same bite mark.”

Regret.

Mu Yourong was very regretful now.

She regretted that she had not clearly investigated the entanglement between her and song Shiyu.

“Since the heavens had given her a second life, they would definitely give her a second one.”

Wait.

“Next time, she would definitely let ye Zao die without a complete corpse.”

“As she thought of this, Mu Yourong’s eyes emitted a sinister look. Soon after, her pupils gradually dilated, and in the end, she lost her breath just like that.”

“Unfortunately, Mu Yourong would never have thought that her rebirth was also because of the butterfly effect brought about by Ye Zhuo’s rebirth.”

“If it wasn’t for Ye Zhuo’s rebirth, she wouldn’t have had any chance of rebirth.”

Death was like a lamp going out.

“In the future, Mu Yourong would never appear in the world again. ”

Song Shiyu frowned slightly.

How did she die so quickly?

“In a flash, song Shiyu took off his rubber gloves and turned to look at his assistant. “Take care of it.” ”

““Yes, Boss.”The assistant bowed slightly. ”

Song Shiyu turned around and walked out of the door.

The assistant called the cleanup team over.

“Mu Yourong was a fugitive on death row with a bounty of 100,000 yuan. No one would care about how she died. ”

The next day.

All the major news reported the sudden death of a fugitive on the run.

Ye Zhuodi looked at the news on his phone with an indifferent expression.

She wasn't surprised to see the news of Mu Yourong's death.

A person like Mu Yourong deserved to die.

""Miss Ye! Miss Ye!"At this moment, Tang Mi ran in from outside. "

Ye Zhuo put away his phone. "What's Wrong?"

"Tang mi couldn't hide the excitement on her face. "Miss Ye, your method is already effective! Now that the nuclear reaction and protons have changed, please come and take a look!" "

Ye Zhuo followed Tang Mi and walked to the laboratory.

A lot of people had already gathered in the laboratory.

""Miss Ye, you're amazing! I thought that our aircraft carrier plan would stop at the power materials. I didn't expect that Miss Ye has really changed the nuclear reactor and Protons!" "

"If they had not seen it with their own eyes, who would believe that it was true? "

""I've already said it. With Miss ye around, there's no need to worry at all!" "

"Miss Ye is simply my goddess!"

"Keep your voice down when you say that. Be careful that master five will hear you!"

"Everyone spoke one after another. When they saw ye Zao come over, they immediately made way for him. "

""Miss Ye, look quickly!" "

Ye Zao walked over.

“Unlike everyone present, there wasn’t much excitement on her face. She turned to Cen Jiang and said, “Team leader Cen.” ”

“Miss Ye!”

“Ye Zhuo continued, “Issue a notice that no one in the greater C zone is allowed to spread this news.” ”

“Alright.”Cen Jiang nodded and did not ask ye Zhuo why.

“”In addition,”ye Zhuo continued, “In the future, have the legal department draft a confidentiality agreement. In the future, no matter what happens in our greater C zone, we are not allowed to reveal it to the outside world or other zones! If there are any violators, they will be punished according to the rules!” ”

Cen Jiang nodded. “Alright. I’ll do it right away!”

“After signing the confidentiality agreement, the CEN base rarely heard about aircraft carriers.”

“A week later, Tang Xue felt that something was not quite right. She turned to look at her assistant. “Has there been any movement in the greater c region recently?” ”

The assistant shook his head. “There hasn’t been any movement.”

“Then.., the assistant continued, “The matter of the power raw materials hasn’t been resolved yet. What kind of movement do you think there will be? “Let the nuclear reactors and protons undergo changes before producing the power raw materials. Don’t you think this is a joke? “Once they resolve this problem, the three-year agreement will be up!” ”

“Chapter 1610: 342: Mu Yourong’s death, directly decided internally? 7”

“Tang Xue nodded, feeling that her assistant’s words were quite correct.”

“The power raw material was the heart of an aircraft carrier, and now that the power raw material problem had not been resolved, what sort of activity could be heard from the greater C area?”

“Miss Tang! There’s someone outside looking for you!” An officer walked in.

“Who is it?” Tang Xue asked.

“The officer shook his head, “I don’t know either, but from the looks of it, it should be this year’s examinee.””

Examinee.

“Tang Xue suddenly called out to Bai Yun and immediately stood up from her chair, “Where is she now?””

““She’s just outside,” the officer said.”

Tang Xue immediately walked outside.

“Bai Yun was wearing a beautiful dress and was standing there waiting for Tang Xue. When she saw Tang Xue coming over, Bai Yun immediately waved at her, “Cousin!””

“You’re here.” Tang Xue said with a smile.

““En.” Bai Yun intimately held onto Tang Xue’s arm and continued, “It’s been a long time since we last met. Cousin, you’ve become beautiful again! I don’t even dare to acknowledge you!””

“The corners of Tang Xue’s mouth curled up slightly, “When did you arrive?””

""I arrived in the morning. I even went to visit aunt. Aunt told me to look for you first after I came to the base. She said that you would help me take care of Everything!"After saying that., bai Yun continued, "Cousin, I see that they are all very respectful to you! You are really amazing! When I came here, my mother kept telling me to learn from you! I Can't let you lose face in the future!""

"Bai Yun's words were full of flattery, which made Tang Xue very happy."

Bai Yun was indeed different from Tang Mi.

People like Tang mi deserved to be nailed to the pillar of shame in the scientific research world forever.

"Tang Xue continued, "There are still two hours before the exam. Come with me to my office first.""

"Okay."Bai Yun nodded.

"When they arrived at the office, Tang Xue asked her assistant to bring Bai Yun some coffee."

"Bai Yun said in surprise, "Cousin, is that your assistant?""

"Yes."Tang Xue nodded.

"Bai Yun said expectantly, "Then will I have an assistant in the future?""

"The Bai family's family background was average, and they were not a prominent family. This was the first time Bai Yun had seen someone with an assistant in real life. If he could have an assistant behind him, he would definitely be very impressive!"

""After passing the assessment, it still depends on performance. Not everyone deserves an assistant."Tang Xue continued, "You work hard. I will arrange it for you in the future!""

""Thank you, Cousin!" Bai Yun was very happy."

"A moment later, the assistant brought over coffee."

Bai Yun flattered Tang Xue in the office before coming to the examination venue.

"After Bai Yun left, Tang Xue went to the assessment office to make a trip."

"Little Xue Is Here!" The assessment head stood up from his office chair.

"The assessment head was fifty-five years old this year and was about to retire. Before the Tang family's old master retired, she had worked with Old Master Tang before, so she had always had a good impression of Tang Xue."

"Grandfather Tang had made a lot of contributions to the base. As his granddaughter, Tang Xue would definitely not be too bad."

""Grandpa Chief Examiner." Tang Xue smiled and said, "When I went out just now, I saw a stall selling roasted sweet potatoes outside. I heard that you liked to eat roasted sweet potatoes, so I brought one for you to try.""

"Thank you." The chief examiner took the roasted sweet potatoes with both hands. "I like this one."

"Tang Xue said, "You're being too polite when you say that. When my grandfather was still alive, he told me that you were a very good person. Now that he's gone, he'll treat you as his grandfather in the future.""

""Really?" The chief examinee said in surprise, "Did old professor Tang really say that?""

"Of course it's true!" Tang Xue nodded.

“The chief examinee smiled and said, “I’m indebted to his great love.””

“When he looked up and saw Tang Xue still standing there, the chief examiner continued, “Little Xue, don’t stand there! Quickly sit down!””

“”Thank you, Grandpa Chief Examiner.”Tang Xue thanked him.”

“The chief examiner smiled and said, “You Child, you just said that I don’t need to be polite with you, but now you’re being polite with me!””

Tang Xue smiled embarrassedly.

“The Chief Examiner ate a mouthful of roasted sweet potatoes and continued, “Little Xue, is there something you need from me?””

“Tang Xue continued, “It’s nothing serious. I just wanted to ask you, is the recruitment assessment today?””

“”Yes.”The chief examiner nodded. “Xiaoxue, why are you asking this?””

“”It’s like this, Grandpa Chief Examiner. I have a cousin named Bai Yun. She also participated in this year’s assessment. I’m afraid that someone with the same name as her will get the results wrong. Can I trouble you to check if there are any examinees with the same name as my cousin?”Tang Xue said.”

“”Alright, then I’ll help you check.”The assessment head put down the sweet potato and turned on the computer.”

“After a moment, he raised his head to look at Tang Xue and continued, “Don’t worry. There’s only one examinee this year named Bai Yun.””

“Tang Xue nodded and smiled, “Grandpa Assessment Head, then I’ll leave my cousin Bai Yun to you to take care of her. I still have some matters to attend to over there, so I’ll go over first.””

“The assessment head was a smart person. She had already made her words so clear, so he should be able to understand the hidden meaning behind her words.”

“Moreover, Old Master Tang had been kind to the assessment head, so the assessment head knew what to do.”

The assessment head did not react for a moment and nodded. “You go and do your work first.”

“Watching Tang Xue’s back disappear outside the door, the assessment head frowned.”

What did Tang Xue Mean by that?

She wanted him to take care of Bai Yun?

She wanted him to use the back door for Bai Yun? To make an internal decision?

“The head examiner thought that Tang Xue was the descendant of Old Master Tang and that she must be just like old master tang, full of righteousness. He did not expect that Tang Xue would actually do such a thing.”

“In an instant, the head examiner’s impression of Tang Xue was extremely bad.”

Or could it be that Bai Yun was indeed extraordinary?

“In order to avoid any misunderstandings towards Tang Xue, the examiner personally made a trip to the assessment room.”

Assessment Room.

“Different from the other examinees, Bai Yun sat in front of the assessment table and was using a makeup mirror to refill her lipstick. In any case, she had already been decided internally and it did not matter whether she read or not.”

““Examiner, that is Bai Yun.”The assistant pointed at Bai Yun and introduced her to the examiner.”

“Seeing Bai Yun, the chief examiner frowned slightly.”

“The other examinees were all reading books and doing experiments, but Bai Yun was busy putting on makeup.”

She wasn't here to participate in the assessment! She was clearly here to participate in the beauty contest!

“Half an hour later, the assessment officially began.”

“Looking at the questions on the assessment paper, Bai Yun's head was big. She studied finance in university, so she didn't know much about scientific research.”

She even knew someone.

“Thinking that it was not appropriate to hand in the blank test paper, Bai Yun randomly filled in a bunch of questions.”

“Two hours later, the test competition ended.”

Fifty examinees were waiting in the waiting room for the results.

“Everyone looked anxiously at the assessment screen. Bai Yun was still as calm as ever. Some examinees saw that she was still calm, so they tried to strike up a conversation with her. “Classmate, did you do particularly well in the test?””

“Bai Yun nodded and said confidently, “Yes, in short, it’s no problem for you to be admitted.””

“”I’m really envious of you! By the way, What’s Your Name?””

“My name is Bai Yun. What’s Yours?”

“My name is Zou Ying.”

“At this moment, the voice of the assessment officer finally came from the waiting hall.

“Congratulations, everyone. A total of 15 examinees have been admitted this year. Please Come and report to the assessment director’s office if your names have been read out.””

“”Liu Siyu, Zhou Ying, Feng Jun, Ma Yue, Zou Ying...””

“Upon hearing this, Zou Ying said excitedly, “You’ve reported to me! Bai Yun, I’ll wait for You!””

Bai Yun nodded. “Okay.”

“The announcer’s voice continued, “Sun Hai, Ouyang Yi... the above 15 candidates, please report to the Assessment Director’s Office.””

Bai Yun’s face turned pale.

“She, why didn’t she hear the announcer say her name?”

Wasn’t she chosen?

What was going on?
