

Almighty D 1661

Chapter 1661: 348: Miss Ye's anger is very scary. She's in the late stage of strict housekeeping! 4

""I've said before that the eight planets can land at will, but Europa is the only one that can't go."Ye Zhuo's tone was a little faint. "

""Why?"Director Ma didn't understand ye Zhuo very much. "Miss Ye, if Europa is really suitable to live on, then we can completely carry out the plan of moving to Europa!" "

"Although director Ma had never been to Europa, through his years of research on Europa, he knew that there must be life on Europa! "

"After all, Europa had an atmosphere, a water source, and an oasis! "

"After saying that, director ma continued, "Miss Ye, instead of spending all your effort to transform the desolate Mars, you might as well invest all your heart and soul in Europa!" "

Director Ma really wanted to go to Europa to take a look.

"However, the person who made the decision here was ye Zhuo. "

"Since ye Zhuo didn't agree, there was nothing he could do. "

"Ye Zhuo slightly raised his eyes, but no expression could be seen on his clear and shallow brows.
"Europa may seem beautiful, but it is actually full of dangers. Although there are mountains and rivers, it is not suitable for the survival of us humans!" "

""You didn't even take a look, so how would you know that Europa is full of dangers and is not suitable for the survival of humans?"Director ma asked back. "

“Director Ma had always respected ye Zao. Otherwise, he would not have supported ye Zao from the start of the aircraft carrier project until today! ”

“But now, he was a little angry. ”

He felt that ye Zao was too dictatorial!

She thought that she would not let everyone land in Europe!

“After saying that, director Ma felt that his tone was not quite right, then, he said, “Miss Ye, my words just now might have been a little too harsh! Please don’t be angry. I really want to go to Europe to take a look. Firstly, I don’t want the Chinese people to lose a precious resource just like that! “Secondly, I don’t want to let country C or other countries take advantage of this! “We clearly have a lightspeed aircraft carrier, but we don’t want to land on Europe. This is simply a waste of God’s Gift!” ”

“Other than China, there were many countries that wanted to land on Europe to seize the resources first. ”

“Ye Zhuo tapped the table with his fingers, “Director Ma, I can understand your feelings. “Actually, before this, I had also studied Europa. If there wasn’t concrete evidence that Europa was indeed not suitable for human survival, I wouldn’t have stopped everyone from landing on Europa.” ”

“What evidence?”Director ma asked.

“Ye Zhuo reached out and pressed on the mouse. Immediately, data graphs of Europa appeared on the projector.”

“According to the data graphs, Europa was indeed not suitable for survival. ”

“Seeing this, everyone began to discuss. ”

""All the tranquility and peace on Europa are fake. Once humans land on Europa, unless they never return to Earth, the consequences will be unimaginable once they return to Earth."Speaking up to this point., ye Zhuo clicked on the mouse and retrieved the data graph. "So, director Ma, it's better for you to quickly withdraw your thoughts." "

"Director ma frowned slightly, "Miss Ye, these data maps are all observed by the naked eye. Everything at the moment is just a guess. I think that before landing on Europa, no one should label Europa!" "

"There was a saying that said, "Practice makes perfect!"! "

"No matter what, director Ma wanted to go to Europa to take a look. Only by witnessing it with his own eyes could he be at ease! "

""I think what director Ma said makes sense," professor Feng said, "Miss Ye, none of us have ever been to the Europa! Besides, director Ma and I have been studying the Europa for more than ten years. Through observation, the Europa is not as serious as what miss ye said." "

"Ye Zhuo had never logged into the Europa. The data that she presented were all her guesses! Professor Yue was the same as director Ma. She had studied Europa for so many years and even dreamed of logging onto Europa to take a look. Previously, there was no way to go, but now that there was a way, she did not want to give up just like that! "

"What if Europa had an inexhaustible supply of resources? Just because ye Zhuo's guesses did not log onto Europa and let other countries get there first, the loss would be too great! "

"Yu Zifei continued, "Professor Feng, director Ma, I can understand your feelings, but since miss ye said that the Europa is in danger, she must have her reasons! "We should trust Miss Ye. If we land in the Europa and bring the danger back to Earth, no one can bear the responsibility!" "

"Tang mi nodded. "Yes, I also support Miss Ye." "

Chapter 1662: 348: Miss Ye's anger is very scary. She's in the late stage of wife control! 5

“The four brothers, rivers, lakes, and seas, naturally supported ye Zhuo. ”

“Professor Feng looked at Tang Mi and Yu Zifei. “Little Tang, Little Yu, you’re too young. You haven’t experienced what we’ve experienced. You have no idea what Europa means to us!” ”

“In recent years, Professor Feng and the others had put in a lot of effort for Europa. They had almost forgotten about food and sleep, all so that one day they could ascend to Europa and benefit mankind and earth! ”

“But now, a young junior suddenly stood up and told them that Europa was a planet full of dangers and would do nothing but harm to Earth! ”

Perhaps no one would be able to accept such a thing.

“It would have been fine if ye Zao had landed on Europa, but now, Ye Zao had never landed on Europa at all. Her words had no credibility at all. ”

“Ye Zao spoke faintly, “Professor Feng, I understand your current feelings. I also know that you and director Ma have put in a lot of effort for Europa over the years, but it is not suitable for survival. No matter how much effort you have put in, it can not change this fact.” ”

Professor Feng didn’t say anything.

“Ye Zhuo was indeed capable. Otherwise, he wouldn’t have led everyone to build an aircraft carrier that surpassed the speed of light in a year. ”

It was because of ye Zhuo’s ability that restricted her right to speak!

“Professor Feng only hated himself for not having this ability. If she could crack the secret of the speed of light, she wouldn’t have asked for Ye Zhuo’s opinion. ”

“Now That Ye Zao was against them landing on Europa, it would be useless no matter how much they insisted. ”

“However, Professor Feng was unwilling. ”

“He was unwilling to give up on Europa, and he was even more unwilling to let all his years of hard work go to waste! ”

“Director ma continued, “Miss Ye, nothing is absolute. I still hope that you can seriously consider it. “Europa is only 900 million kilometers away from us. It will only take an hour to land on Europa. I know that your time is very precious, but it is not to the extent that you can’t even spare a few hours.” ”

“”Don’t you understand, director Ma?”Ye Zhuo closed the computer and looked at director Ma. His gaze was already cold. “This is not a matter of Time!” ”

Director Ma shut his mouth.

“Although ye Zao was about the same age as his granddaughter, he was a little afraid of Ye Zao! ”

Professor Feng didn’t dare to say anything else.

“”Okay, let’s continue the topic of Mars,”ye Zao said. ”

“Then, director Ma and Professor Feng didn’t say anything more about the topic of Mars. ”

“In their opinion, Ye Zao was a waste of time. ”

“Instead of using Europa, they were going to use manpower and material resources to transform a worthless, abandoned planet. ”

What kind of place was Mars?

“Director Ma and the others had done their research a long time ago. It was undeniable that there was life on Mars a long time ago. However, due to the depletion of resources, Mars was abandoned by the natives! ”

What was there to study on an abandoned planet?

Director Ma was a little confused about ye Zao’s brain circuits!

“However, Ye Zao was a leader. When a leader spoke, he could only listen. No matter how dissatisfied he was, he could only give suggestions. ”

“No matter how he thought about it, director Ma felt a little uncomfortable. ”

Uncomfortable.

“After the meeting ended, director Ma and Professor Feng walked at the back. Director ma lowered his voice and said, “Professor Feng, what do you think?” ”

Professor Feng was also very helpless. “It’s useless no matter what I think. The most important thing is what Miss Ye thinks!”

Director ma sighed. “Why do you think Miss Ye has such a big opinion of Europa?”

It could be seen that ye Zhuo was in a state of complete resistance to Europa. His expression even changed slightly.

He really did not know what was so scary about Europa.

Could it be that there was really a terrifying virus on Europa?

“However, such a thing as a virus could not be detected by observation alone. ”

How did ye Zao Know About It?

Was it just a figment of his imagination?

Professor Feng shook his head. “Who knows what Miss Ye is thinking!”

““Why don’t we go and Beg Master Five?”Director ma continued, “Now that we have an aircraft carrier, going to Europa is very simple. As long as master five agrees, even if miss ye objects, it will be useless, right?” ”

“Master five? What kind of joke is this! Do you think Master Five can make Miss Ye’s decision?”Professor Feng looked at director Ma.

Cen Shaoqing was just like ye Zao’s brainless fan.

“As long as ye Zao objects, Cen Shaoqing would absolutely not get involved in the slightest! ”

Chapter 1663: 348: Miss Ye’s anger is very scary. Late stage of wife discipline! 6

“Director ma continued, “Landing on Europa is a big matter. Master Five can listen to miss ye for small matters, but he definitely can’t do big things!”Director Ma had seen Cen Shaoqing’s methods before. He did not believe that Cen Shaoqing was a wife discipline.”

Wife discipline?

It did not exist!

“After saying that, director ma said, “Let’s give it a try! How do we know if we can do it if we don’t give it a try? What if master five agrees?””

“Professor Feng could only nod. “Alright, let’s give it a try then.””

The two of them walked all the way to Cen Shaoqing’s office.

“When they arrived, Cen Shaoqing was in a meeting. The secretary asked them to wait for about half an hour.”

The two of them could only wait outside the door.

“Soon, half an hour had passed.”

“The Secretary opened the door. “The two of you, master five wants you to enter.””

The two of them walked into the office.

“Cen Shaoqing was standing in front of the French window with his back facing the two of them. The setting sun had coated his body with a layer of golden light, and he was holding a string of Buddhist beads in his hand. Looking at him like this, he looked like a refined jade that was unattainable.”

“”Master Five,” director Ma was the first to speak.”

“”Speak,” Cen Shaoqing opened his thin lips.”

“Director ma continued, “Master Five, professor Feng and I have decided to carry out the plan to land on Europa, Europa. We hope that you can approve it.””

“Europa?”Cen Shaoqing raised his eyebrows slightly. “The Europa that is known as the small earth?”

“Yes.”Director ma nodded. “We have studied Europa for many years and have agreed that Europa is more suitable for human survival than Mars.”

“What did Miss Ye Say?”Cen Shaoqing asked.

“Director Ma licked his lips and continued, “Miss Ye did not agree to the landing.””

“”Her opinion is my opinion. Since she doesn’t agree to log in, there’s no need for you to ask me again,”Cen Shaoqing said.”

“Director ma still didn’t want to give up, “Master Five, none of us, including Miss Ye, have logged into Europa, so we can’t label Europa.”. “I hope you can convince Miss Ye.”. “Let us land on Europa. Europa definitely has a lot of energy. If you don’t make a decision now, you’ll definitely regret it in the future.””

“”Miss Ye has her reasons for doing this.”Cen Shaoqing turned his eyes slightly, “Europa is 900 million kilometers away from us. No one knows what kind of risks are involved! If something happens, which one of you can bear the responsibility? Can you bear it or can professor Feng?””

“Director Ma wanted to say more, but was secretly stopped by Feng Zhan.”

“Professor Feng continued, “Since master five and Miss Ye have the same intention, then you can pretend that we didn’t come today! We’ll leave First!””

Cen Shaoqing waved his hand.

Professor Feng pulled director Ma out of the office.

Director Ma was very depressed!

He didn't expect Cen Shaoqing to be so strict with his wife.

"If ye Zhuo did not want to go, he would not let him go!"

"Does master five not have his own opinions?" Director ma said indignantly.

"Professor Feng had an expression that she had long known. He continued, "I've already told you that as long as Miss Ye does not agree, master five will definitely not agree. If you don't believe me, what can I do?"

Director ma sighed. "Then what should we do now?"

"I don't know!" Professor Feng Sighed. "I hope that miss ye can think it through and lead us to Europa."

Let Ye Zhuo think it through on her own?

How Long would that take?

"Director ma said, "If Miss Ye doesn't think it through, won't we never be able to land in Europa?"

"In his opinion, Ye Zhuo did it on purpose."

"She deliberately said that Europa was dangerous, and she wanted to prove her ability by not letting them land on Europa."

No.

"Even if ye Zao didn't agree, he couldn't give up on landing on Europa. He had to prove to Cen Shaoqing, Ye Zao, and the other people in the base that his idea was not wrong. Europa was a habitable planet!"

“Thinking of this, director Ma narrowed his eyes, and a bright light flashed in his eyes.”

On the other side.

In the laboratory.

“Ye Zhuo was wearing an isolation suit as she sat under the analyzer to study the Martian soil. She discovered that the Martian soil was not completely sandy, and the content of the elements in it was far higher than the Earth’s soil.”

“The density was very high, and the iron content ratio was also higher than normal soil. There were magnesium sulfate, iron oxide, and carbonate in it!”

“However, no organic substances were detected.”

Ye Zhuo frowned slightly. This was not quite what she had imagined.

“In her previous life, she had not participated in the Mars research project. Before she left, Mars had not succeeded in creating an oasis.”

“The reason why ye Zhuo was so obsessed with the Mars project was partly to develop interstellar tourism, and partly to fulfill the last wish of her teacher.”

“Ye Zao’s teacher was a very talented person. His lifelong wish was to prove to everyone that Mars was not an abandoned planet. On Mars, there was an oasis that could be developed to benefit mankind.”

Unfortunately.

“In the end, not only did his teacher fail to fulfill this wish, he ended up with an unfavorable ending.”

“Thinking of his teacher, ye Zao’s expression darkened a little.”

“”Miss Ye.” At this moment, Tang Mi walked in from outside.”

“”What’s Wrong?” Ye Zhuo looked back slightly. However, in the blink of an eye, no expression could be seen on her face.”

“One in front and one in the back, they were two completely different people.”

“Tang mi continued, “Miss Ye, this is the test report of Mars’ Magma. Please take a look.””

“Unlike Earth, the surface of Mars was surrounded by many active volcanoes. In order to turn Mars into an oasis, not only did they have to solve the problem of soil and water, but they also had to solve the problem of volcanoes.”

Ye Zhuo took the report and read it carefully. Her beautiful brows furrowed slightly.

“Ten minutes later, Ye Zhuo left the laboratory and went to the aircraft carrier.”

Yu Zifei and the others were preparing to land on Mars.

“Miss Ye.” Cen Jiang jogged over.

Ye Zhuo nodded slightly. “When will you set off?”

“”In ten minutes,” Cen Jiang said.”

“Ye Zhuo continued, “I’ll go with you.””

“After saying that, she pressed the switch on her arm. In an instant, the clothes on her body turned into a handsome Martian suit!”

Mars had no oxygen to keep up. They needed the Martian suit on the bed in order to walk normally.

“Seeing ye Zao like this, Cen Jiang asked in puzzlement, “Miss Ye, did something happen?””

“Ye Zao said, “I want to go up personally to take a look. By the way, where is the login point this time?””

Cen Jiang took out his phone and showed the coordinates to ye Zao.

“Ye Zao took a look and then zoomed in on the map. He pointed at one of the coordinates and said, “Change the landing point to here.””

“Cen Jiang nodded. “Alright, then I’ll go and reset the route now.””

“Go.”Ye Zao walked into the cabin.

“”Miss Ye, why are you here?”Cen he was a little surprised when he saw ye Zao Board the aircraft carrier.”

“Ye Zao said, “I’ll go with you to Mars to take a look.””

“OH.”Cen he nodded.

“Ten minutes later, the aircraft carrier set off.”

Mars was not far from Earth. It would only take half an hour to get there by an aircraft carrier.

“According to the coordinates given by ye Zao, the aircraft carrier successfully landed in the volcanic zone.”

“Standing on the runway of the aircraft carrier, one could clearly see that there was a volcano erupting not far away.”

“Telescope.”Ye Zao extended his hand.

The assistant immediately handed the silent telescope to Ye Zao.

“A few minutes later, ye Zao returned the telescope to the assistant and opened his red lips slightly. “I’ll go over for a while. You guys wait for me at the same place.””

“After all, they were on Mars. The assistant was a little worried and said, “Miss Ye, shall I go with you?””

“No need.”Ye Zao opened the door of the small aircraft. “Just wait at the same place.”

“Chapter 1664: 349: you, Miss Ye, or you, Miss Ye! 1”

“Ye Zao refused to follow, so the assistant could only give up. He continued, “Miss Ye, please take care of your safety.” ”

“Okay.”Ye Zao nodded slightly and fastened his seat belt.

The assistant helped to close the cabin door.

The aircraft flew out of the aircraft carrier’s runway and soon disappeared into the ring of volcanoes in front of them.

"Where's Miss Ye?" Yu Zifei walked out from inside and asked curiously when he did not see ye Zao.

The assistant turned to look at Yu Zifei. "Miss Ye said that she wanted to go to the front to take a look. She asked us to wait for her here."

Yu Zifei frowned. "Miss Ye went alone?"

This was the ring of fire. It would be a little dangerous if ye Zao went alone.

"The assistant nodded. "I said I would go with Miss Ye, but she didn't want me to go with her." "

"Got it. You Go ahead and do your work," Yu Zifei said. "

"Okay." The assistant walked to the side. She still had to film the geographical environment on Mars and provide vegetarian dishes for other countries.

China was the first country to land on Mars. Other countries needed to rely on the materials provided by China for scientific research.

"Yu Zifei looked at the ring of fire not far away, his eyes full of worry. "

"A moment later, Yu Zifei seemed to remember something and called his assistant. "Fangfei!" "

"Team leader Yu!" His assistant, Ma Fangfei, walked out. "

"Yu Zifei continued, "Did miss ye go that way just now?" "

"That way." Ma Fangfei pointed in a direction.

“Looking at the direction that Ma Fangfei was pointing in, Yu Zifei’s heart skipped a beat. “Oh no!” ”

““What’s wrong, team leader Yu?”Ma Fangfei quickly asked. ”

Yu Zifei didn’t say anything and turned around to walk into the interior of the aircraft carrier.

“Cen he and the others were just about to come out when they saw Yu Zifei’s anxious look and asked curiously, “Old Yu, what’s wrong with you? Why are you in such a hurry!” ”

“Yu Zifei was thirty years old this year. The four brothers of Jianghe, Huhai, were older, so everyone called him old Yu. ”

Yu Zifei’s expression was a little ugly. “Miss Ye just went to the Northwest district alone.”

““The Northwest District? What’s wrong with the Northwest District?”Cen he asked, puzzled. ”

“Cen Hai reacted at this time, and the smile on his face instantly disappeared. “There will be a chain volcanic eruption in the Northwest District in ten minutes! At that time, the volcanic magma will engulf the entire basin!” ”

“Hearing this, the air instantly became quiet! ”

The volcanic magma engulfing the entire basin was not a joke.

“One had to know that the temperature of the volcanic magma was as high as 1,300 degrees Celsius! ”

“Once the aircraft was engulfed by the magma, there was almost no chance of survival. ”

“This was ye Zhuo’s first time landing on Mars. When they heard this news, everyone was very anxious.
”

Cen Jiang frowned slightly. "Hurry up and contact Miss Ye! Tell her this news."

"I'll contact her!" Cen he immediately turned on the communicator.

"Soon, Ye Zao's call was connected. "

"Hello."

"Hearing ye Zao's voice, Cen he and the others heaved a sigh of relief. "

""Miss Ye, how are you now?" Cen he asked anxiously. "

"Everything is fine." Ye Zao looked at the surface of Mars through the window of the spacecraft and said concisely.

"CEN he continued, "Miss Ye, there will be a large-scale volcanic eruption in the northwest region in 10 minutes. At that time, the entire basin will be submerged. Please come back quickly!" "

Ye Zao's voice did not sound abnormal. "I will return to my original place in 10 minutes."

""Okay." CEN he continued, "Miss Ye, let's keep in touch. You must pay attention to your safety!" "

"I will. You Don't have to worry."

"Cen Jiang continued, "Miss Ye, where are you now? I'm coming to look for you!" "

There must be something for ye Zhuo to take the risk to go to the northwest district. It was better to have one more person to help than one person.

“No need. Just wait here. That’s all for now.” As soon as he said that, Ye Zhuo cut off the communication. ”

“Goodbye, Miss Ye.” ”

“Seeing that Cen Jiang had cut off the communication device, Yu Zifei asked anxiously, “What did Miss Ye Say?” ”

“Cen Jiang said, “Miss Ye doesn’t want me to go over. Let’s wait here first.” ”

Yu Zifei nodded.

Over here.

“Ye Zhuo piloted the aircraft to a very dangerous Mars belt. Through the window, he could see fiery red magma constantly erupting from the volcano’s mouth. ”

Bang Bang Bang —

Smoke rose everywhere.

“If he was not careful, the aircraft would be hit by the sudden eruption of lava. ”

It was even scarier than the scene of a disaster movie.

Ye Zao skillfully piloted the aircraft and landed on a safe extinct volcano.

Chapter 1665: 349: Miss Ye or Miss Ye! 2

Ye Zhuo opened the cabin door and walked out of the spacecraft. She picked up the tools she brought with her and began to collect samples from the crater.

“She had limited time. In addition to collecting some special samples, she also needed to find volcanic crystals.”

“Through studying volcanic crystals, she could completely suppress the problem of volcanic eruptions.”

Only by suppressing the problem of volcanic eruptions could she make Mars an oasis.

1

“Before ye Zao came, he had checked the surrounding terrain very clearly, so it was relatively easy to find samples.”

Bang —

“At this moment, an extinct volcano that was very close to ye Zao suddenly erupted.”

“Ye Zao raised his eyes slightly, and a faint light flashed in his eyes.”

It seemed that the time of the large-scale eruption was much earlier than she had estimated!

She still had to speed up!

“After collecting the samples here, ye Zao immediately piloted the aircraft and flew to the next crater.”

“As soon as ye Zao sat in the aircraft, the surrounding extinct volcanoes spewed out lava one after another.”

“Ye Zao activated the aircraft while looking out of the window, her beautiful brows slightly furrowed. ”

“According to the situation, she had to find the volcanic crystal within three minutes! ”

Ye Zao increased her speed.

The aircraft flew in the thick volcanic smoke.

“Not only was the volcanic smoke dense and low visibility, but there were also all kinds of harmful objects in the smoke. The slightest carelessness could endanger one’s life. ”

Ye Zao controlled the screen with one hand and put on the glasses with the other.

“The glasses looked no different from ordinary myopia glasses, but in fact, the material was special. Not only could they see through the thick smoke, but they could also find volcanic crystals in a volcano. ”

“After putting on the glasses, ye Zao quickly located the approximate location of the volcanic crystals in a group of volcanoes and pressed the button to land ”

“Three seconds later, the aircraft successfully landed on the top of the volcano. ”

“According to the budget, the fire would erupt within five minutes, so ye Zao had to find the volcanic crystal within four minutes and drive the aircraft away. ”

Time passed by minute by minute.

Ye Zao held the detector and probed the specific location of the volcanic crystal bit by bit.

“At this moment, the detector rang, and the location of the volcanic crystal appeared on the detection screen.”

Ye Zao immediately squatted down and took out the instrument to collect the volcanic crystal.

“The volcanic crystal was in a liquid state and its temperature was as high as 1,000 degrees Celsius. Only special containers could be used to install it.”

Di —

It took exactly four minutes to collect the volcanic crystal!

Ye Zao did not stay any longer. He immediately brought the volcanic crystal back to the aircraft and prepared to leave.

At this moment.

Bang!

The surrounding volcanoes erupted. The originally quiet volcanic area instantly turned into a sea of fire!

It was extremely eye-catching.

“Because it was a large-scale eruption, even the ground began to shake.”

The earth shook and the mountains shook!

“Even Cen Jiang, Yu Zifei, and the others who remained at the same spot also felt the tremors.”

“Ma Fangfei was holding the camera and photographing the surface of Mars when she suddenly exclaimed, “Oh my God!” ”

“What’s Wrong?”Cen Jiang immediately asked.

“Ma Fangfei handed the camera to Cen Jiang. “CEN, Officer Cen, look at the Northwest District!” ”

“Cen Jiang took the camera and when he saw the scene over there, his expression immediately changed.
”

“In the meantime, the Northwest district was boiling with lava, like a purgatory on Earth. ”

“In the boiling lava, there was no sign of any aircraft. ”

“Erhe! Quickly contact Miss Ye!”

“Seeing Cen Jiang like this, Cen he did not dare to be careless and immediately picked up his communicator to contact ye Zao. ”

“Miss Ye!”

“Is Miss Ye There?”

“Miss Ye!”

“He called many times, but there was no response from ye Zao. ”

“Seeing this, Ma Fangfei quickly picked up her communicator and called Ye Zao. “Miss Ye, this is Ma Fangfei. Can You Hear Me?” ”

“Miss Ye! This is Cen Hai!”

“”Miss Ye, this is Cen Hu!” ”

“”Miss Ye, this is Yu Zifei!” ”

“For a moment, everyone on the aircraft carrier started calling ye Zao.”

“However, there was still no response from ye Zao’s side. It was as if a stone had sunk into the ocean.”

Ye Zao did not respond. Cen Jiang’s face was pale and his body was covered in cold sweat.

The northwest region was already covered in magma. Ye Zao’s side did not respond for a long time.

The result was already very obvious!

No.

It wouldn’t happen.

“Ye Zao was so powerful, nothing would happen to him.”

Cen Jiang comforted himself in his heart.

“Other than being anxious, Cen Jiang was also regretting not following ye Zao, and even more regretting protecting ye Zao in times of danger.”

“If anything really happened to Ye Zao, Cen Jiang would never forgive himself even if he died.”

“Chapter 1666: 349: you, Miss Ye, are still you, Miss Ye! 3”

“No matter how the crowd called out to Ye Zhuo, there was no response from ye Zhuo. ”

“Cen Hai raised his head to look at Cen Jiang. “Brother, what if we can’t contact Miss Ye?” ”

“Cen Hu was on the verge of tears. “Y-miss ye won’t be in trouble, right? !” ”

“Shut your Jinx Mouth!”Cen he directly gave Cen Hu a slap. “Miss Ye won’t be in trouble!”

“Cen Hu would not have let Cen he off so easily under normal circumstances, but today was different. Not only did Cen Hu not make a fuss, he said instead, “Yes, yes, yes. Miss ye will definitely be fine.” ”

“Cen Jiang was also very anxious now, but he had no choice but to calm himself down. He continued, “All of you wait here. I’ll go to the Northwest District to look for Miss Ye.” ”

“No matter how dangerous the Northwest District was now, he had to go there personally! ”

“Cen Hai said, “I’ll go with you!” ”

“Yu Zifei immediately said, “I want to go too!” ”

“”And we also have to go together,”Cen Hu, Cen He, and Ma Fangfei also said. ”

“They were all people who had followed ye Zao from the beginning and were absolutely loyal to ye Zao. Now That Ye Zao’s whereabouts were unknown, the few of them were very anxious and wished that they could replace ye Zao! ”

“Cen Jiang said as he walked in, “Don’t cause trouble. Wait here. What if Miss Ye comes back and sees that we’re not here? What do you want her to do? So, I’ll Go! If you can’t contact me in two hours, immediately return to Earth and request for reinforcements!” ”

“Since he had decided to go look for ye Zao, Cen Jiang had prepared for the worst. ”

“”Brother!”Cen Hai looked at Cen Jiang, his eyes slightly red. ”

“Cen Jiang was the leader among the four brothers, but usually, the other three never called him brother Cen Jiang. Instead, they called him Big Jiang. ”

“Cen Jiang patted Cen Hai’s shoulder. “Don’t worry. Even if I die in a sea of fire, I will definitely bring miss ye back.” ”

“Cen he and Cen Hu looked at Cen Jiang and then said, “Brother, pay attention to your safety.” ”

“”Okay.”Cen Jiang put on his glasses, opened the door of the aircraft, sat inside, and prepared to leave. ”

Yu Zifei held the observer and looked at the rolling magma in front of him. He had a bad feeling.

The situation in the northwest region was too terrible.

“If ye Zhuo was really unfortunate enough to be hit by the magma, there was almost no chance of survival. ”

At the same time.

On the other side.

Director Ma received Ma Fangfei’s message.

“What did you say? Miss Ye is missing?” Director Ma was very surprised.

“Ma Fangfei stood in the cockpit, she lowered her voice and said, “Dad, please lower your voice! Are you afraid that others won’t hear you? Right now, Cen Jiang has gone to look for Miss Ye. He wants us to contact master five to request for backup if we can’t contact him in two hours!” ”

“Director ma continued, “Fangfei, are you sure you can’t contact Miss Ye Now?” ”

“”En.” Ma Fangfei’s eyes were a little red. “The current situation in the northwest district is very bad. Dad, do you think something really happened to Miss Ye?” ”

“”Don’t worry.” Director ma consoled, “Miss Ye is blessed by the heavens. Nothing will happen to her.” ”

“Ma fangfei continued, “You don’t know the situation here at all. The temperature of the magma is as high as 1,300 degrees Celsius...” ”

“Before Ma Fangfei could finish her sentence, director Ma interrupted her, “Fangfei, don’t be anxious. Miss ye will definitely be fine! I have other matters to attend to, so I won’t talk to you anymore.” After that, director Ma directly hung up the phone. ”

“After hanging up the phone, director Ma rushed to Professor Feng’s office. ”

“Professor Feng was writing the experiment report. When he saw director Ma rush over, he raised his head in confusion. “Director Ma, What’s Wrong With You? Why are you in such a hurry?” ”

Director ma closed the office door and then closed the curtains.

“Seeing him like this, professor Feng became even more curious. “What’s Wrong?” ”

“Director ma lowered his voice and said, “I have good news for you.” ”

“Good News?” Professor Feng frowned. “What Good News?”

“Director Ma continued, “Miss Ye lost contact on Mars. When Fangfei spoke to me, she said that Miss Ye is probably doomed.” ”

“What?” Professor Feng’s face turned pale. “How could this be?”

Director Ma shook his head. “I’m not too sure about the details. I heard from Fangfei that Miss Ye seemed to be looking for something and happened to encounter a large-scale volcanic eruption. Do you think this is good news?”

“”Miss Ye’s life and death are unknown. What kind of good news is this?” Professor Feng looked up at Director Ma, his face full of anger. ”

“Chapter 1667: 349: you, Miss Ye, or you, Miss Ye! 4”

“The corners of Dean Ma’s mouth curled up into a smile. “Think about it carefully. If Miss Ye is no longer here, won’t there be no one who can stop us from landing on Europa?” ”

“Then.., Dean Ma continued, “Although Miss Ye is quite young and very talented, this is her fate. So what if we’re sad? The dead are dead! Even if we cry to death, we can’t bring her back from the dead!” ”

Professor Feng fell silent.

“Director Ma glanced at Professor Feng, then, he said, “Actually, this is also a karmic cycle. If Miss Ye could listen to us and give up Mars to land on Europa, she wouldn’t have lost her life on Mars. “In the end, Miss Ye was too conceited. She thought that if she could create a lightspeed aircraft carrier, she would definitely be able to conquer Mars. In fact, she doesn’t understand Mars at all. How could Mars be as easy to conquer as she thought?” ”

“In director Ma’s opinion, Ye Zao had brought this upon himself. ”

“After all, he had once persuaded ye Zao not to carry out the Mars plan. ”

“If Mars was suitable for human habitation, it would not have been abandoned by the aborigines. ”

What use could an abandoned planet have for humans?

“Although director Ma felt that it was a pity that ye Zao died young despite being full of talent, he did not sympathize with her at all. ”

There was nothing to sympathize with people who asked for trouble.

“Moreover, ye Zao’s accident did not do him any harm. ”

“Professor Feng narrowed his eyes. “Although that’s what you said, Miss Ye is still too young. She’s only in her twenties!” ”

“Most importantly, Ye Zao was full of talent. ”

“Since ye Zao could create an aircraft carrier that surpassed the speed of light, then she could bring mankind a second miracle and a third miracle. But now, everything came to an abrupt end. It was really a pity! ”

“Director ma sighed and said, “This is her life. What can we do? If she had listened to our words, she wouldn’t have ended up like this!” ”

“After saying that, director ma continued, “Professor Feng, now is not the time to talk about this. The most important thing now is to set a route to Europa!” ”

Director Ma wished that he could immediately land in Europa!

"Professor Feng continued, "Director Ma, although going to Europa is very important, saving Miss Ye is more important. We should immediately report this matter to Master Five! Let Master Five think of a way to save Miss Ye!" "

"No!" Director Ma directly denied it.

"Why?" Professor Feng asked.

"Director Ma continued, "Fangfei has repeatedly warned me not to tell this news to others. If you tell Master Five now, isn't that slapping my face? What do you want Fangfei to think of me?" Actually, Director Ma was more afraid of Cen Shaoqing coming forward, what if he saved Ye Zao? "

"Once Ye Zao returned, they would never be able to go to Europe! "

"Therefore, before this matter was exposed, Cen Shaoqing must not know about it. "

"Upon hearing this, Professor Feng sighed. "Then, then what should we do now?" "

"Do our best and leave it to Fate!" Director Ma continued, "Leave everything to Cen Jiang and the others. If Miss Ye is not destined to have this calamity, then she will definitely be fine! "If Miss Ye is destined to have this calamity, then no matter how much we do, it will all be in vain!" "

"Alright!" Professor Feng said.

"She had said what she had to say and done what she had to do. It was Director Ma who did not agree, so even if something really happened to Ye Zhuo, it could not be blamed on her! "

She had done her best!

“Director ma continued, “When do you think it is appropriate for us to set off for Europe?” ”

“What do you think?”Professor Yue turned to look at director Ma.

“Director ma continued, “This matter should not be delayed. It is best to proceed in the next few days!”Cen Shaoqing liked ye Zhuo so much. If something happened to Ye Zhuo, he would definitely be unable to recover, people who were unable to recover would naturally be unable to manage the base.”

“By the time Cen Shaoqing reacted, they had already returned from Europa! ”

“Professor Feng also thought of this and nodded. “Alright, I’ll listen to you.” ”

“Director ma turned on the computer that he carried with him, then, he said, “Professor Feng, look, I plan to log in from here! I’ve done some research. The western hemisphere of Europa is covered with many rainforests. It’s almost the most likely place to give birth to life.” ”

Professor Feng looked at the computer screen and frowned slightly. “Isn’t this place too dangerous?”

““When did you become like Miss Ye?”Director ma continued, “We’ve done so many years of research. Do you see any danger from the surface of Europa?” ”

“Chapter 1668: 349: you, Miss Ye, or you, Miss Ye! 5”

Professor Feng shook his head.

“After studying Europa for so many years, professor Feng had indeed never seen any danger on Europa. This was also the reason why she was puzzled by Ye Zhuo’s refusal to let them land on Europa.”

""Then it's fine!" Director Ma smiled and said, "Let's set the landing point here! Moreover, we have an aircraft carrier. The supply system of an aircraft carrier is the best in the world. Even if there is really any danger, we don't have to worry!" "

""Okay." Professor Feng nodded. Then, he said, "Do we really not have to report the situation on Mars to Master Five?" "

"If he didn't say it, Professor Feng would feel a little uneasy. "

"But if she was asked to say it, she felt unwilling. In short, it was very difficult. "

"Just like Director Ma, she wanted to board Europa even in her dreams. Europa was her lifelong dream! "

"However, with Ye Zao around, it was impossible to ascend to Europa! "

"This time, Ye Zao's accident on Mars was a very good opportunity for them. "

""Why are you so wishy-washy?" Director Ma was a little impatient. He stood up and said, "If you want to tell Master Five, you can go now! I absolutely won't stop you! Just don't regret it!" "

"Professor Feng quickly stood up and explained, "Director Ma, I didn't mean it that way. You've misunderstood me!" "

"Director Ma glanced at Professor Feng. "Since you didn't mean it that way, then just pretend that nothing happened and wait for the result quietly!" "

"Yes." Professor Feng nodded.

"In fact, there was no need to wait for the result. "

Ye Zhuo was definitely doomed now.

“Ma Fangfei was not the kind of child who did not know her limits. If the situation was not critical, she would never have told director Ma about this matter. ”

On the other side.

“Just as Cen Jiang was preparing everything and starting the aircraft to set off, a cry of surprise suddenly came from the communicator, “Look, what is that?” ”

A small black dot was flying over from the side of the rolling magma.

“As the Black Dot got closer and closer, they could vaguely make out the appearance of the spacecraft. ”

Spacecraft!

“On Mars, other than them and Ye Zhuo, there was no other spacecraft. ”

“If this spacecraft was not an alien creature, it must be ye Zhuo. ”

“Cen he kept adjusting the focus of the telescope. Finally, a smile appeared on his taut face. “Miss Ye! It’s Miss Ye’s spacecraft! Miss ye is back!” ”

““Quick, let me take a look at the telescope!”Cen Hu snatched the telescope from CEN he’s hand. ”

“Seeing the flying device becoming clearer and clearer on the telescope, Cen Hu was so excited that he was about to cry. ”

It was indeed ye Zao’s flying device.

No one could understand what he was feeling right now.

Only Ma Fangfei and the others excitedly waved at the flying device. “Miss Ye! Miss Ye!”

“Cen Jiang, who was sitting in the aircraft, looked up and indeed saw ye Zao’s spaceship. ”

Cen Jiang quickly set up a flight path to return to the aircraft carrier runway.

Rumble —

Cen Jiang had just stopped when ye Zao’s aircraft steadily stopped beside him.

“Miss Ye!” Everyone immediately surrounded ye Zao.

Ye Zao pushed open the cabin door and looked at everyone. His jade-like face was full of confusion.

“What happened to you guys?”

“”Sob, sob, sob...” Ma Fangfei hugged ye Zao and cried. “There was a huge explosion in the northwest region. We thought, thought...” Ma Fangfei could not say the rest of her words. ”

Ye Zao chuckled. “You thought something happened to me?”

“Yes.” Ma Fangfei nodded.

“Ye Zao smiled and said, “Don’t worry, I’m Fine.” ”

“In fact, it was just a little bit. Ye Zao had almost brushed past the grim reaper. ”

“She had always been used to reporting good news but not bad news. Since she was fine, there was no need for everyone to be nervous. ”

“Ma fangfei sighed and said, “As expected, Miss Ye is still Miss Ye!”If it were anyone else, under such circumstances, they would probably have been in trouble long ago! ”

“”Oh right,”ye Zao continued, “How are the collection of your samples coming along?” ”

“Ma fangfei said, “Almost all of them have been collected.” ”

Ye Zhuo nodded slightly. “Alright. Then we can go back after making some preparations.”

“With Ye Zhuo’s return, the atmosphere in the aircraft carrier returned to normal. Everyone was chatting and laughing, and it was very harmonious. ”

An hour later.

Professor Feng and director Ma were analyzing the situation on the Europa as they walked out.

Bang!

“At this moment, a person ran in from outside and collided head-on with director Ma. ”

“Director Ma was caught off guard and almost fell to the ground. Fortunately, Professor Feng reached out to hold him in time. ”

“Chapter 1669: 349: you, Miss Ye, or you, Miss Ye! 6”

“”I, I’m sorry, I’m sorry. Director Ma, Are You Alright? I didn’t do it on purpose!”That person immediately apologized to director Ma. ”

“Director ma raised his head unhappily and said with a frown, “Xiao Shen, why are you in such a hurry?”
”

““Yes, it’s Miss Ye...” ”

“Before Xiao Shen could finish his sentence, director Ma hurriedly interrupted him. “What’s wrong with Miss Ye? Don’t be anxious, speak slowly!” Could it be that Cen Jiang had already found ye Zao’s body? ”

This was too fast!

“At the same time, director Ma also heaved a sigh of relief. ”

He was really afraid that ye Zao would turn misfortune into luck!

“Xiao Shen took a deep breath and continued, “Miss Ye brought back the volcanic crystal from Mount Mars. Now, she’s letting master five go over to study it!” ”

What?

Ye Zao brought back the volcanic crystal from Mars?

That means...

Ye Zao is fine?

“Director ma continued, “Miss Ye has already returned?” ”

“That’s right!” Xiao Shen nodded.

“You didn’t see wrongly?” Director Ma followed up with a question.

“”I didn’t see wrongly. Miss ye just spoke to me!” Xiao Shen continued, “Director Ma, I Won’t chat with you anymore! Miss Ye has also instructed me on other matters!” ”

“After saying that, Xiao Shen jogged away. ”

“Looking at Xiao Shen’s back, director Ma’s face was filled with disappointment. “Why are you back again?” ”

Ma Fangfei had clearly said in the communication device that ye Zao had been in trouble.

But now...

Ye Zao had actually returned. How could director Ma accept this?

He simply couldn’t accept it!

“Beside him, professor Yue also had a desolate look on his face. He turned to look at director Ma. “What should we do now?” ”

Director ma frowned tightly. “Let’s go over and take a look first.”

Professor Feng nodded.

“The two of them came to Big C district together, but because ye Zhuo was having a meeting inside, they didn’t see Ye Zhuo. ”

“Seeing director Ma come over, Ma Fangfei ran over with a smile. “Dad! Auntie Feng.” ”

Professor Feng smiled and nodded. "Fangfei."

"Director Ma's face was stern. "Fangfei, come with me." "

"OH." Ma Fangfei followed director Ma's footsteps.

The two of them came to Ma Fangfei's office.

"Director Ma's expression was very unsightly. "Fangfei, what's going on?" "

""What do you mean, what's going on?" Ma Fangfei asked in puzzlement. "

"Director Ma continued, "Didn't you say that Miss Ye was in danger? Then why did Miss Ye come back safely?" "

""Dad, aren't you happy that Miss Ye came back safely?" Ma Fangfei carefully sized up director Ma's expression. "

"Director Ma restrained the expression on his face, then he said, "How can I not be happy that Miss Ye came back safely? What I'm angry about is why you didn't tell me about this in advance! You made me worry for such a long time for nothing!" Director Ma almost discussed with Professor Feng about what would happen after landing in Europa. "

Who would have thought that Ye Zhuoyou would come back at this time!

"Ma Fangfei smiled and said, "I was too happy! "That's why I forgot to tell you. I'm really sorry for making you worry for so long! "Dad, do you know? "Miss Ye is really amazing. She actually got the volcanic crystal on Mars. I believe that in the near future, Miss Ye will definitely be able to turn a barren Mars into an oasis!" "

Director Ma wished he could give Ma Fangfei a slap.

But he still controlled his emotions.

““I still have things to do, so I’ll be leaving First!”Director ma turned around and walked out. ”

“Ma Fangfei followed director Ma’s footsteps. “Dad, you called me over just to ask about this?” ”

““En.”Director ma nodded and said with a change of heart, “Now that I know that Miss Ye is fine, I can be at ease! Alright, you go do your thing. I still have other things to do with Professor Feng!” ”

““Alright, then I’ll go and do other things!”Ma Fangfei walked to the other side. ”

“Seeing director Ma come out, Professor Feng immediately went up to him and said in a low voice, “How is it? Miss ye has really returned?” ”

“Yes.”Director ma nodded.

Professor Feng Sighed. “I knew it wouldn’t be that easy!”How could a person like ye Zhuo easily get into trouble?

“Director ma continued, “Don’t be discouraged, there will always be other opportunities!”No matter what, he had to land on Europa and prove himself to the world! ”

On the other side.

Country C.

“Dr. Cara sat at the head of the conference table, “Everyone, now that China has taken over our experimental base, we have to crack the secret of the aircraft carrier reaching the speed of light!”If not, wouldn’t all the resources on the eight planets.., become China’s? ”

“Because of the speed of light aircraft carrier, the number one country in the world had changed from country C to China! ”

No one could continue to develop like this.

“When this was said, everyone agreed. ”

“However, how to crack it became a big problem. ”

“If they wanted to crack the secret, they had to know enough about the aircraft carrier. But now, they hadn’t even touched the edge of the aircraft carrier, how could they crack it? ”

““Dr. Cara, I have an idea.”Jamila raised her hand. ”

“Go ahead.”Dr. Cara looked at Jamila.

“Jamila turned on the computer and clicked the mouse. A transparent barrier immediately appeared in the air, and the information of two people appeared on the barrier. ”

““These two people are core members of the CEN Base’s greater area C. they participated in the construction of the aircraft carrier. This is Ma Jianbang, and this is Feng Qi. We can bribe them.” ”

““Bribe?”A voice of opposition immediately appeared in the air, “The Chinese are famous for their loyalty! Moreover, YC just led them to successfully land on the eight planets. Bribing them is easy. Do you think they will be bribed by us?” ”

“Jamila laughed softly, then, she said, “Ma Jianbang and Feng Qi have studied Europa for most of their lives. They dreamed of landing on Europa, but YC rejected their plan. “If we use this as a condition, I believe that they will definitely switch sides!” ”

“Other than Tang Xue, Jamila had also arranged other spies in the Cen family’s base, so he knew so clearly. ”

“Professor Cara narrowed his eyes and continued, “Alright, I’ll leave this matter to you. As long as they cooperate with us, landing on Europa will be a piece of cake!” ”

Jamila nodded. “Then I’ll make a trip to China Tomorrow.”

“Okay.”

China.

“Through the volcanic crystals that he brought back, Ye Zao had successfully customized a plan to improve the climate and environment of Mars. ”

“Yu Zifei stood up and said, “Miss Ye, I’m applying to become the person-in-charge of the OASIS Project.” ”

“Ye Zao lowered his eyes slightly and continued, “To complete this project, you’ll need to stay on Mars for a long time and come back once a month. Can you accept that?” Although an aircraft carrier could reach the speed of light, it would require a lot of energy to operate once, currently, the samples that were brought back from other planets were still under research. They were unable to provide an inexhaustible supply of fuel. If the aircraft carrier flew frequently, it would burden earth! ”

“Sure.” Yu Zifei nodded.

“Ye Zhuo continued, “I will give you one night to think about it. You should go back and discuss it with your parents.” It was not a small matter to go to Mars for a long time. Yu Zifei had to discuss it with his parents. ”

“Alright.” Yu Zifei nodded.

The next morning.

“Director Ma went to find Professor Feng. “Professor Feng, let’s go out for lunch together.” ”

“Professor Feng said, “I have other things to deal with at noon. I might not have time to go out.” ”

“Director ma continued, “How long can it take for us to have lunch together? Coincidentally, I have something to discuss with you.” ”

Professor Feng immediately understood.

It was better to have a meal than to discuss something.

“Alright.”Professor Feng nodded.

“At 12 o’clock in the afternoon, Professor Feng arrived at the restaurant that director Ma had arranged for. ”

“When he saw Professor Feng walking over, director Ma immediately stood up. “Professor Feng, over here!” ”

Professor Feng walked over and realized that there was someone sitting at the dining table.

“Director ma smiled and said, “Professor Feng, this is Dr. Jamila. You should have met him before.” ”

Chapter 1670: 349: omnipotent existence! 1

Professor Feng was stunned.

She did not expect to see Jamila here.

“Although she was a little surprised, she did not show it. She smiled and said, “Hello, Dr. Jamila.” ”

“”Hello, Professor Feng.” Jamila stood up and took the initiative to reach out her hand to professor Feng.
”

Professor Feng reached out his hand to hold Jamila’s hand.

“Director ma smiled and said, “Professor Feng, we are all on the same side. There’s no need to be so formal. Please sit down.” ”

Jamila smiled and nodded. “Director Ma is right.”

Professor Feng felt that something was wrong.

Why would director Ma arrange for her to have dinner with Jamila?

Professor Feng did not have a good impression of Jamila.

“It was because when the aircraft carrier project hadn’t been completed, Jamila had been so arrogant. ”

It was as if the Chinese were inferior to C Nation in everything!

Jamila called the waiter over to order. “What’s the Chef’s recommended menu today?”

The waiter handed the menu to Jamila.

Jamila took the menu and began to order.

Professor Feng then realized that the usually crowded western restaurant didn't have many customers today.

Professor Feng felt that something was wrong and raised his head to look at director Ma.

"Director Ma smiled at her, indicating that she was at ease. "

"I'm sorry, I have to go to the washroom." "

"Okay." Camilla nodded.

"After professor Feng left, Camilla looked at director Ma and continued, "Didn't director Ma explain the situation to Professor Feng?" "

"Director Ma said, "Professor Feng has a strange personality. In our words, she is a hypocrite. If I had told her in advance, she wouldn't have come with me." "

"After working with Professor Feng for so many years, director Ma knew director Ma too well. "

Jamila nodded to show that she understood.

"At this moment, director Ma received a text message. "

Director Ma clicked on the text message and saw that it was from Professor Feng.

"After reading the text message, director Ma stood up from the dining table. "Dr. Jamila, I'm sorry. I need to go to the bathroom too." "

"Please go ahead."

Director Ma walked in the direction of the bathroom.

“Just as he reached the corner, he saw Professor Feng standing there waiting for him.”

“Director Ma walked over. “Professor Feng, are you looking for me for something?” ”

“Professor Feng’s expression didn’t look too good. “Director Ma, what do you mean?” ”

“What’s Wrong?” Director Ma was stunned.

“Professor Feng continued, “Why did you call Jamila over?” ”

“I just want to ask you a question.” Director Ma looked at Professor Feng. “Do you want to land in Europa?”

Of course!

Europa was professor Feng’s lifelong dream.

“Hearing this, professor Feng nodded.”

“Director Ma continued, “I have a way for you to successfully land in Europe.” ”

Professor Feng’s eyes lit up. “What Way?”

The corners of director Ma’s mouth curled into a satisfied smile. “Cooperate with C Nation. Dr. Jamila will help us realize this wish.”

What?

Cooperate with C Nation?

“Professor Feng widened his eyes and glared at director Ma. “Ma Jianbang, what are you talking about? You want me to betray the base? Betray Miss Ye?” ”

“Although professor Feng really wanted to land on Europa, she couldn’t make her betray ye Zhuo and the base! ”

“”Keep your voice down! “Listen to me!” Director ma continued, “This is not betrayal, this is a good bird choosing its habitat! “Think about it, what was our purpose in joining the CEN’s base? “Was it to study Europa and land on Europa?” ”

Professor Feng didn’t say anything as he recalled their original goal and dream.

“When Professor Feng first heard about Europa, she was in her second year of high school. ”

“At that time, she had been longing to land on this beautiful and mysterious planet. ”

“When she learned that the aircraft carrier plan had succeeded in taking off, she was so happy that tears filled her eyes. ”

Because she saw hope.

“She had thought that she would never be able to land on Europa in her lifetime! After all, Europa was too far away from Earth. With the current speed of humans, it was impossible for them to land on Europa. ”

Until the light speed aircraft carrier appeared!

“But who knew that when they proposed the plan to land on Europa, Ye Zhuo rejected the plan without hesitation! ”

God knows how desperate she was at that time!

Only those who had experienced it personally would know that feeling.

“Not only did ye Zhuo reject their plan to land in Europe, but he also belittled Europe to the point that it was useless and permanently banned them from entering Europe! ”

“Seeing that Professor Feng remained silent, director ma continued, “Professor Feng, I’m the same as you. None of us want to betray the base or Miss Ye! But now, we have already gone against our original ideals. Are you willing to give up on Europe just like that?” ”
