

## **Almighty D 1711**

“Chapter 1711: 355: the black-bellied master of the Chu family, Chu Jin! 5”

Cen Jiang took the document and frowned slightly.

“”Team leader Cen, do you think we should report this to Miss Ye?” Professor Feng continued, “It is not a small problem to detect organic matter in the Martian soil. This concerns the safety of team leader Yu and the others on Mars.””

“Cen Jiang continued, “We have examined the soil brought back from Mars more than ten times in batches, but we have not detected any organic matter. What is going on?””

What did organic matter represent?

It represented life!

This also meant that there was life on Mars.

“Once the organic matter on Mars mutated under the influence of Yu Zifei and the others, the consequences would be unimaginable!”

“Before the aircraft carrier landed on Mars, humans knew nothing about Mars.”

“No one knew what kind of species the organic matter detected from the Martian soil was, and whether it would bring a catastrophe to humans.”

Just like the dinosaurs tens of thousands of years ago.

“Before humans, dinosaurs were the strongest overlords on land!”

“But in the end, they were all wiped out!”

“Professor Feng continued, “Leader Cen, don’t be anxious! It could also be that the Martian soil had changed after they brought it back to Earth. After all, earth was rich in resources! What I meant was to first compare it with the analysis report of the volcanic crystal before deciding whether to inform Miss Ye.””

“At this point, professor Feng narrowed his eyes, and a glimmer flashed across his eyes.”

“Cen Jiang held the document. “Miss Ye is not here now, and I don’t have the authority to get the volcanic crystal analysis report.””

What did Cen Jiang Mean?

Could it be that the volcanic crystal analysis report was not with him?

“If the analysis report was not with Cen Jiang, then where was it?”

“Professor Feng continued, “Then when will miss ye be back? This matter should be done sooner rather than later! I’m worried that if the detected organic matter is really brought back from Mars, it will affect team leader Yu and the others.””

“”Miss Ye will probably come back tomorrow or the day after,”Cen Jiang continued, “I’d better report this matter to miss ye first.””

“”That’s fine too.”Professor Feng nodded. “Team leader Cen, I’ll go back first.””

“Okay.”

“After professor Feng left, Cen Jiang immediately called Ye Zhuo and reported the situation to Ye Zhuo.”

“Hearing this, Ye Zhuo frowned slightly and continued, “Send me the test report.””

“According to Ye Zao’s knowledge, Mars was the same as Earth in ancient times. Indeed, a long time ago, an unknown species had ruled Mars. However, an accident had led to the extinction of all the species on Mars, just like the dinosaurs back then.”

“After the extinction of the dinosaurs, there were still humans who had successfully evolved.”

“However, Mars had always maintained the appearance of the period of extinction.”

“After hanging up the phone, Cen Jiang sent the test report to Ye Zhuo.”

“Ye Zhuo looked at the test report, raised his eyebrows slightly, and spoke to Cen Jiang through voice. “Who sent this test report to you?””

““It’s Professor Feng,”Cen Jiang said.”

““Apart from showing you this, did she say anything else?””

“Cen Jiang continued, “Professor Feng asked me to show her the analysis report of the volcanic crystal.””

“Did you?”Ye Zhuo asked.

“No.”Cen Jiang also knew that the analysis report of the volcanic crystal was no small matter. “I said that I don’t have the authority to look at the analysis report of the volcanic crystal.”

""Yes." Ye Zhuo pondered for a moment and then said, "Send the analysis report of the volcanic crystal to her later.""

"What?" Cen Jiang thought that he was hearing things.

Ye Zhuo repeated it again.

"After making sure that he didn't mishear, Cen Jiang continued, "Okay, Miss Ye, I understand.""

"Half an hour later, Cen Jiang brought the analysis report of the volcanic crystal to Professor Feng's office."

""Team leader Cen, have you contacted Miss Ye?" Professor Feng put down his pen and asked."

Cen Jiang nodded. "Yes. Miss ye asked me to bring the analysis report of the volcanic crystal to you to study."

"Hearing this, professor Feng's eyes lit up."

"A second ago, she was still worrying about the volcanic crystal, but unexpectedly, Cen Jiang had sent the volcanic crystal analysis report over in the next second!"

"After saying this, Cen Jiang handed the volcanic crystal analysis report over to Professor Feng, then, he said, "Professor Feng, Miss Ye said that the volcanic crystal analysis report is top-secret information and is the core document of our entire base. The success of the OASIS project all depends on this analysis report and must not be leaked out! "After you've finished your research, send it back immediately!"!  
" ... ""

""Alright. Don't worry, team leader Cen. I know," professor Feng said."

Cen Jiang nodded. "Then I'll go back first."

“Chapter 1712: 355: the black-bellied master of the Chu family, Chu Jin! 6”

Professor Feng sent Cen Jiang Out of the office.

“After Cen Jiang left, Professor Feng immediately closed the office door and took photos of the analysis report of the volcanic crystal with her mobile phone. ”

“After taking photos, she immediately sent a message to director Ma and arranged to meet him at the same place after work. ”

Director Ma was also very excited.

“With the analysis report of the volcano crystal, they could immediately emigrate to country C and study the plan to land in Europe! ”

Didn't Ye Zao Look Down on their plan to land in Europe?

He must make ye Zao Regret It!

Ye Zao missed the precious resources on Europe and let country C land in Europe ahead of time. She would definitely regret it.

“At the thought of this, director Ma's eyes lit up. ”

On the other side.

At the hospital.

“Gu dening returned to the ward. Gu dextrin asked curiously, “How was the Blind Date?” ”

“”That’s it.”GU dening continued, “By the way, Sister has something to tell you.” ”

“Go ahead.”

“Gu dening sat by the bed and continued, “Do you know who introduced me to Chujie? She’s actually Miss Ye’s mother!” ”

“”So, she’s also ye Sen’s sister?”Gu Dextrin asked. ”

“Yes.”Gu dening nodded.

“Does ye Sen Know About This?”Gu Dextrin asked immediately.

“GU dening continued, “He didn’t know at first. Later, he came to the coffee shop with a client to discuss a collaboration and happened to run into us.” ”

“Gu Dextrin didn’t expect things to turn out so exciting. She asked immediately, “How did he react?” ”

“Nothing.”Gu dening picked up an apple. “We sat down and had a cup of coffee together.”

Gu dextrin frowned slightly.

“If ye Sen liked gu dening, he would be very angry when he saw gu dening going on a blind date with someone else. ”

But now...

Ye Sen didn’t react at all.

Gu Dexin felt that her judgment of people wouldn't be wrong. Ye Sen had gu dening in his heart.

"But now, Gu Dexin said that ye Sen didn't have any reaction, which made gu dixin doubt herself. "

""Are you mistaken?"GU dixin continued, "How could ye Sen not have any reaction at all?" "

"Gu dixin said, "Then how would I know?" "

"Then did he say anything?"Gu Dexin was slow in matters of love. Gu Dexin was afraid that she would miss something.

"He didn't say anything. He just said a few words to Chu Jie."

"What did he say?"Gu Dexin asked.

"Gu dening thought for a while and said, "Didn't Chu Jie have a girlfriend before? Why did he go on a blind date again?" "

"Hearing that, Gu Dexin's eyes lit up. "He's jealous! He must be jealous!" "

"Gu dening looked at Gu Dexin speechlessly. "SIS, what are you thinking about?" "

Why was he jealous?

What did this have to do with being jealous?

"Gu dixin continued, "Let me ask you again. What's your impression of Chu Jie? Can you marry him?" "

""SIS, I've only met him once, and that's what you're asking!" "

"Gu dixin said, "I'm asking you what your first feeling is like! Haven't you heard of the Word 'lifelong'? Just like me and your brother-in-law. When I first met your brother-in-law, I felt that your brother-in-law was someone I could entrust my life to! Reality proved that my choice was right! So, one must believe in one's first feeling." "

Gu Dexin was indeed very happy in her life.

The couple was loving and had an excellent son.

"Apart from her husband who was busy with work, she had no other regrets. "

"After saying that, gu dixin continued, "Do you have the urge to get married from Chu Jie's first feelings?" "

"No."Gu dening shook her head.

"Gu dixin frowned slightly. "It doesn't matter if you don't. Actually, I still feel that Ye Sen is more suitable for you. Unfortunately, Ye Sen hasn't been enlightened. Dening, let me ask you a question." "

"You ask."

"GU dixin continued, "If ye Sen were your marriage partner, would you reject him?" "

""Sister, what are you talking about! Don't worry about my personal problems. I know what to do!" "

"Seeing that gu dening had such a big reaction, Gu Dexin knew what to do. "

Not to mention other things.

The two sisters' personalities were quite similar.

"Gu Dexin smiled and said, "I'm not worried! But my parents are worried. Just now, my parents called to show concern for you. They hope that you can bring a son-in-law home for them during the New Year!" "

"Gu Dening was an old woman. Her mother had only given birth to her when she was 43 years old. Now, her parents were in their 70s! "

"Chapter 1713: 355: the black-bellied master of the Chu family, Chu Jin! 7"

The only wish of the two elders was to see Gu Dening have a good home in their lifetime.

It would be best if they could see the birth of their granddaughter.

"Fate hasn't arrived yet. It's useless to rush me." Gu Dening continued, "Tell Mom and Dad not to worry. When fate arrives, I'll naturally bring my boyfriend back." "

"Gu Dexin smiled. "You should also be more attentive to your own matters. Don't think that fate hasn't arrived yet. Sometimes, you have to take the initiative too." "

"Gu Dening dealt with Gu Dexin. "I know, I know!" "

"Seeing her like this, Gu Dexin didn't say anything more. As long as Gu Dening knew what she was doing, it was fine. "

"After all, Gu Dening wasn't a one-year-old or two-year-old child anymore! "

...

On the other side.

Cen Jiang was having an online video call with Yu Zifei and the others when he suddenly received a call from ye Zhuo.

Cen Jiang looked at Yu Zifei across the air. "Wait a moment. Miss ye is calling. I need to take a call first."

Yu Zifei nodded. "Go ahead."

Cen Jiang went outside. "Miss Ye."

"Have you sent the things over to Professor Feng?" Ye Zhuo's voice came from the other end of the phone.

"Cen Jiang said, "I've sent them over." "

""Okay." Ye Zhuo continued, "That's all for now. If there's anything, feel free to contact me." "

""Okay, Miss Ye." "

"After hanging up the phone, Cen Jiang returned inside and continued with the meeting. "

"Yu Zifei said, "A while ago, miss ye said that she was going to Yun Jing. has she not returned yet?" "

""Not yet." Cen Jiang adjusted the angle of the camera and continued, "Let's continue with the topic from before." "

"Alright."

After work.

Professor Feng arrived at the coffee shop at the first possible moment.

Director Ma followed closely behind.

“Not long after Professor Feng arrived, director Ma also arrived. He looked at professor Feng and asked, “Did you get the item?” ”

Professor Feng nodded.

“Director ma continued, “Among the four brothers, Cen Jiang is the most scheming. He didn’t suspect anything, right?” ”

“”No,” professor Feng continued, “Moreover, he was the one who took the initiative to send over the analysis report of the volcanic crystal.” ”

“That’s good.” Director ma heaved a sigh of relief. “I’ve already contacted Jamila. He’ll be here soon.”

“At this moment, footsteps sounded in the air. ”

“Director ma turned around and immediately smiled. “Dr. Jamila, you’re here.” ”

“Jamila smiled and said, “The two of you have indeed lived up to our expectations. Where’s the item?” ”

“”It’s in my mobile phone photo album,” professor Feng continued, “I’m sending it to you now.” ”

“Hurry up and send it.”

“However, at this moment, director Ma gave Professor Feng a look and continued, “Dr. Jamila, we have done what we promised you. I wonder when you will be able to do what you promised us?” ”

“Jamila smiled and said, “Dr. Cara and I are still counting on you two to jointly research the speed of light technology. Please rest assured that we will not go back on our words.” ”

“Then when can we go to country C?”Director ma asked.

“”Anytime,”Jamila answered. ”

“Really?”Director ma asked in surprise.

“Jamila nodded and continued, “All the procedures have been completed. You are now the new people of Country C!” ”

Professor Feng and director Ma looked at each other and saw a bright light in each other’s eyes.

Good!

This was great!

They could finally leave this place.

“Director ma continued, “Then let’s make some preparations. We’ll set off for country C in two days.” ”

“Jamila narrowed her eyes and continued, “Can you send me the analysis report on the Volcanic Crystal Now?” ”

“”Yes.”Director ma nodded. “Professor Feng, quickly send it to him.” ”

Professor Feng took out his phone and sent the analysis report to Jamila.

“When she saw the analysis report, Jamila’s eyes were filled with pride.”

She had overestimated YC!

“If YC was really that powerful, professor Feng and director Ma would not have been able to get their hands on it so easily.”

“Jamila continued, “Since the matter has been settled, I will return to my country first. Please settle the matters here and leave immediately.” ”

“Okay.” Director Ma nodded.

Professor Feng still had a mother who was still alive.

“If she were to go to country C, she would definitely bring her mother along.”

“However, after returning home, her old mother was unwilling to go to country C, she pointed at Professor Feng’s nose and scolded, “China nurtured you and made you, but now you have done such a thing! If you want to leave, you can leave! Even if I die, I will die on Chinese soil!” ”

“Professor Feng saw that his old mother was invulnerable, so he had no choice but to pack his things overnight and board the plane to C country.”

“When she boarded the plane, director Ma had arrived with his family.”

“When director Ma saw her board the plane alone, he asked, “Professor Feng, Where’s Your Mother?” ”

Professor Feng shook his head. “She’s old. She’s a little stubborn!”

What was wrong with C Nation?

“Then should we leave her alone in the country?” Director Ma asked.

“Professor Feng continued, “This is her own choice.” ”

Director Ma sighed helplessly. “Then this is the only way now.”

The next morning.

8:30 am.

Ye Zhuo returned to the base on time.

“The gate of the base had just opened when Cen Jiang came over with the information. “Miss Ye, everything is as you expected. Professor Feng has defected and went to C nation overnight.” ”

“Who else?” Ye Zhuo took the documents and asked.

““Director Ma,” Cen Jiang said. ”

Ye Zhuo nodded slightly.

“Cen Jiang saw that Ye Zhuo was so calm and couldn’t help but ask, “Miss Ye, aren’t you surprised at all?” ”

““Ever since the data was leaked last time, I knew that there must be a traitor within our ranks.” Ye Zhuo continued, “Professor Feng and Director Ma’s lifelong wish is to land in Europe.” ”

“Speaking up to this point, ye Zhuo continued, “I only hope that after they land in Europe, they won’t regret it.” ”

Chapter 1714: 356: The Oasis Project is starting to take effect. Get Rid of it immediately! 1

The danger on Europa was more than ten times crueler than imagined.

“With the current technology of mankind, there was no way to compete with the mutants on Europa. ”

“Even in the world before ye Zao, no one dared to easily land on Europa! ”

“Not only that, the resources on Europa were not beneficial to mankind at all. On the contrary, they were all bad. ”

“Although there were trees on Europa under the observation of the Hubble telescope, the trees on Europa did not need photosynthesis and would not release oxygen. Instead, they would create harmful gases. ”

“To The Mutants, Europa was heaven. ”

“But to humans, it was Hell on Earth! ”

“Cen Jiang did not understand Europa, but he believed in ye Zhuo. “Europa is full of danger. Director Ma and Professor Feng will definitely regret it, but there are all kinds of medicine in this world, but there is no medicine for regret.” ”

“Once they landed in Europa, there was indeed no medicine for regret. ”

“Ye Zhuo continued, “Did the two of them take anything else?” ”

""Other than the volcanic crystal analysis report, nothing else was touched,"Cen Jiang said. "

Ye Zhuo nodded slightly.

""Miss Ye, do you want to issue an arrest warrant?"Cen Jiang continued to ask. "

"Director Ma and Professor Feng were both technologists. The technology industry's intranet could issue arrest warrants. Currently, China was the leader of the technology industry. As long as this arrest warrant was issued, director Ma and Professor Feng would not be able to leave C country for the rest of their lives, once they left C country, they would be immediately arrested! "

""No need,"ye Zhuo said. "

Cen Jiang nodded.

"Ye Zhuo continued, "By the way, what time do you usually have a regular meeting with Mars?" "

"Around 10:30 in the morning."

"Mars was very similar to Earth. There were spring, summer, autumn, and winter, but there were also days and nights. The autobiographical cycle was very similar to Earth's. The time of day was 24 hours and 37 minutes. At 10 o'clock in the morning on Earth, the time on Mars was equivalent to 8 or 9 o'clock in the morning. "

"Ye Zao nodded slightly. "Okay, call me after the regular meeting." "

"Okay."Cen Jiang nodded.

Ye Zao entered the work cabin.

At the same time.

Mars.

“Yu Zifei was lying on a smooth rock, looking at the Blue Planet hanging in the sky. ”

“Mars was very close to Earth, so looking at Earth on Mars made it seem very big, even bigger than looking at the Moon on Earth. ”

“Yu Zifei took out his phone and took a photo. When he was about to send the photo to his family, he remembered that there was no signal on Mars, so he could only smile helplessly. ”

“”Homesick?” At this moment, CEN he walked over and imitated Yu Zifei. He lay on a rock and rested his head on his hand, looking at Earth thousands of miles away. ”

“Yu Zifei smiled and said, “This feeling is quite strange. When I was in Beijing, even if I didn’t go back for a month, I wouldn’t miss home. Now that I’ve only been on Mars for more than a week, I already miss my parents a little.” ”

“”Me too.” Cen he looked at the azure earth and continued, “What do you think they’re doing now?” ”

“Who?” Yu Zifei asked.

“”Just Dajiang and the others.” CEN he continued, “I wonder if Miss Ye and master five have returned.” ”

“Yu Zifei said, “Miss ye should be back soon, right?” ”

“I really miss them!” Cen he sighed. “I go back once a month. It’s only been seven days.”

“Yu Zifei smiled and said, “Don’t you see team leader Cen and the others every day during the regular meetings?” ”

""That feeling is different."CEN he continued, "Old Yu, you broke up with your girlfriend last time. How is it now? Have you gotten back together?" "

"No."

"Cen he turned to look at Yu Zifei and continued, "It's right that you haven't gotten back together! Even if that girlfriend of yours is really married, she will definitely do something to betray you in the future!" "

"Okay."

"The two of them chatted casually. Soon, the sky on Mars was bright. "

The two of them stood up from the rock and began to arrange their work for the day.

""Erhe! erhe!"At this moment, Tang Mi ran over excitedly. "Old Yu is here too!" "

"What's Wrong?"Cen he looked at Tang Mi.

"Tang mi said excitedly, "It sprouted! The potatoes that I planted in the test field a few days ago sprouted today!" "

"Really?"Yu Zifei said in surprise.

"They had been on Mars for a week and had done a lot of experiments, but there had been no results so far. Now that they heard that the potatoes sprouted, they were extremely excited! "

"Of course it's true! Come and take a look with me!"Tang mi led them to the test field.

"Chapter 1715: 356: The Oasis Project is starting to take effect, so I'll chase them out immediately! 2"

The experimental field was not far from the base. They would arrive in ten minutes on the Mars rover.

Tang mi jumped out of the rover. "Come and take a look! The sprouting potatoes are right here!"

Yu Zifei and Cen he also jumped out of the rover.

"Tang mi carefully pushed aside the soil covering the potatoes. Immediately, a purple round bud popped out, tender and tender. "Look, isn't it amazing!" "

"On Earth, sprouting potatoes was the most appropriate thing to do. "

But where was this place?

Mars!

What did sprouting potatoes on Mars mean?

It meant that Mars was indeed suitable for Life!

"At the same time, it also proved that ye Zhuo's oasis project was not wrong. "

""It sprouted! It really sprouted!"Cen he was so excited that his eyes were slightly red. "If this situation continues, we'll be able to live a self-sufficient life on Mars in three months!" "

"Yu Zifei looked at the other potatoes again. Just like the situation here, the other potatoes had all sprouted. "

It seemed that their direction and goal weren't wrong.

"Yu Zifei immediately took out his phone to take a photo. When they had their regular meeting later, he had to report this situation. "

"Cen he looked at Tang Mi and continued, "Have the other plants sprouted?" "

"Tang mi shook her head. "So far, there hasn't been any reaction from the other plants."Other than the potatoes, they had also planted many other crops, but so far, only the potatoes had sprouted. "

"I'll go check."Cen he ran over to the neighboring paddy field.

There was indeed no reaction from the paddy field.

"10:30 am, China time. "

The regular meeting started on time.

Ye Zhuo appeared at the meeting room's main seat.

"Seeing ye Zhuo on the video, CEN he said excitedly, "Miss Ye, you're back! Coincidentally, we have good news to report to you!" "

Ye Zao smiled faintly. "What Good News?"

"Yu Zifei sent the photo to the big screen. CEN he continued, "The potatoes we planted on Mars have already sprouted!" "

"Through the screen, one could see that the potatoes planted in the ground had indeed sprouted out small round sprouts. "

There were also round dewdrops.

“Although it was just a group of sprouted potatoes, it gave people endless hope! ”

“Seeing this scene, everyone in the meeting room stood up and looked at the big screen in disbelief. ”

“Oh my God! It’s sprouting! It’s really sprouting!”

“Are my eyes playing tricks on me?”

“Looks like Mars is really suitable for humans to live on!”

“For a moment, the meeting room was abuzz with discussion. ”

“Ye Zao’s lips curled up slightly. “Thank you for your hard work. In about a week’s time, the seeds of other plants will also sprout one after another. At such a critical moment, you must pay more attention to observe.” ”

““Yes, Miss Ye!” ”

“Ye Zhuo continued, “Also, how are the small animals that we brought along?” ”

“Other than the plant seeds and some saplings, they also brought along many small animals. ”

“However, they were all very common poultry. ”

“For example, pigs, dogs, cows, chickens, ducks, rabbits, and so on. ”

“Yu Zifei had just checked the condition of the small animals last night. He continued, “Other than a yellow ox that was in a bad state, everything else is fine.” ”

“What did the veterinarian say?”Ye Zhuo asked.

“Yu Zifei said, “The veterinarian said it’s not a big problem. It’s just that it hasn’t adapted to the Martian environment yet.” ”

“Ye Zhuo nodded slightly. “If a large number of animals don’t adapt, or if there are signs, you must report it immediately.” ”

“Yu Zifei nodded. “I know, Miss Ye.” ”

“Until the end of the meeting, the leader of the OASIS project team was still very excited.”

None of them had expected that plants could really sprout and grow on Mars.

They did not expect that they could see the results in such a short time!

It seemed that human beings would soon be able to migrate to Mars and carry out the interplanetary tourism plan.

“I’m looking forward to the day when Mars is covered by oases more and more!”

“I’m looking forward to it very much too!”

““Since potatoes can be grown on Mars, Europa is simply a paradise for humans!”Liu Yuan, a former subordinate of professor Feng, said, “I don’t know why Miss Ye has always refused to land on Europa.” ”

“According to the observations of the Hubble telescope, the surface of Europa was much better than that of Mars.”

“Mars was a barren planet, and its environment was even worse than the deserts of China. Europa, on the other hand, was a planet filled with liquid oceans and green plants. ”

“Compared to the two, everyone would choose Europa! ”

“Shen Xing, who was at the side, added, “Didn’t miss ye say that Europa is only calm on the surface? If Europa is really that good, Miss Ye will definitely not oppose the Europa Plan.” ”

“Chapter 1716: 356: The Oasis Project is starting to take effect, kick them out immediately! 3”

“”Shhh! All of you, Lower Your Voices!”At this moment, the head of the Defense Department, Pan Sisi, raised her middle finger and pressed it against her lips, making a gesture to keep quiet. ”

“”Head pan, what’s Going On?”Shen Xing asked curiously. ”

“Pan Sisi lowered her voice and said, “Didn’t you notice that there were two people missing from the regular meeting this morning?” ”

“”Who were they missing?”Shen Xing asked curiously. At that time, she was too surprised that potatoes could be grown on Mars and didn’t pay attention to anything else. She had no idea that there were two people missing from today’s regular meeting. ”

“Liu Yuan reacted at this time and continued, “Teacher Feng and director Ma didn’t come.” ”

Pan Sisi nodded.

“What happened to them? Did they ask for Leave?”Shen Xing asked.

“Pan Sisi looked around and continued, “I heard that Professor Feng and director Ma have defected! They went to C Nation Overnight Last Night!” ”

““That won’t happen! Don’t talk nonsense!”Liu Yuan didn’t believe that her teacher would do such a thing. “I’m not sure about director Ma, but I know that teacher Feng would never do such a thing.” ”

“Liu Yuan was professor Feng’s student, and she also knew about professor Feng’s matter. ”

“Cen Shaoqing was professor Feng’s uncle. Professor Feng had said that she was very grateful to Cen Shaoqing more than once in front of these students. If it weren’t for Cen Shaoqing, she wouldn’t be the person she was now. ”

Professor Feng would never betray Cen Shaoqing!

“Moreover, she was professor Feng’s favorite student. If professor Feng really betrayed the base, he wouldn’t hide it from her. ”

““This is not a matter of speaking nonsense. It’s just that Professor Feng and the others have indeed betrayed the base!”Pan Sisi continued, “Just you wait. The higher-ups will issue a notice soon.” ”

“Shen Xing said in surprise, “Minister Pan, do you have reliable information? Professor Feng and director Ma are just feeling unwell and resting at home.” ”

This matter was too sudden!

One had to know that Professor Feng and director Ma were both veterans of the base.

“Anyone could betray the base, but neither professor Feng nor director Ma would. ”

“Pan Sisi continued, “It’s useless for me to say anything more. You guys can go back and wait for the announcement.” ”

“Liu Yuan, who was painting, walked quickly toward the office. ”

As expected.

“Ten minutes later, there was a new notice on the internal website of the CEN base. ”

Professor Feng and Ma Jianbang had betrayed the base and defected to C Nation. They had been stripped of their citizenship and were banned from entering China for Life!

“Seeing this notice, Liu Yuan sat on the chair with a pale face. ”

She had never thought that it was true.

Her beloved teacher had actually betrayed her.

“Liu Yuan immediately picked up her phone and dialed professor Feng’s number, intending to ask him about it. ”

“However, her phone was switched off. ”

Liu Yuan frowned.

It shouldn’t be!

Professor Feng really shouldn’t have.

“Currently, China was ranked number one on the science and technology rankings. No other country could surpass China in the future. In addition, professor Feng was someone who had participated in the aircraft carrier project. He would definitely have unlimited glory in the future. ”

“However, Professor Feng had betrayed the base.”

One wrong step led to another.

“Once she took this step, she would never have another chance.”

Was it for the sake of landing in Europe?

Liu Yuan felt that it was simply not worth it for professor Feng to do so!

The news of Professor Feng and director Ma’s betrayal quickly spread throughout the base.

“Everyone was discussing it, and they could not believe that it was true.”

...

C country.

“When director Ma and Professor Feng arrived in C country, it was already six o’clock in the morning the next day.”

Dr. Camilla and Dr. Cara were personally waiting for them at the airport to pick them up.

“For now, Professor Feng and director Ma were the Saviors of the entire C country.”

“After all, only the two of them could lead C country to achieve the speed of light.”

“When the two of them walked out of the airport, Dr. Cara welcomed them warmly. “Professor Feng, director Ma, Welcome.” ”

“Director ma smiled and said, “Dr. Cara is too polite.” ”

“Dr. Cara continued, “I’ve arranged for a car to send the two of you back to rest for a while. You can come back tomorrow to attend the welcome banquet that I’ve organized for the two of you.” ”

“”Thank you, Dr. Cara, for your kindness.”Director ma cupped his hands toward Dr. Cara. ”

“Dr. Cara said, “There’s a saying in your country that goes, ‘three visits to the cottage.’the two of you are truly talented people!” ”

“As they spoke, they walked out of the airport. ”

The cars arranged by Dr. Cara were all limited-edition luxury cars.

“Dr. Cara continued, “In the future, you will use these two cars when you travel. If you are not satisfied, I will get someone to exchange them for other cars.” ”

“Chapter 1717: 356: The Oasis Project is starting to take effect, kick them out immediately! 4”

Director Ma’s eyes lit up when he heard this.

“Although the CEN base had arranged cars for them, they were just ordinary cars. His and professor Feng’s car configurations were around one million. ”

“Compared to the ten million luxury cars in C nation, they were not just a little bit inferior! ”

It seemed that his decision to leave the CEN base was really right.

"If they did not leave the CEN base, how could they have such a luxury car? "

"Director ma smiled and said, "I'm satisfied! Very satisfied. Dr. Cara, thank you for your trouble." "

""It's my pleasure."Dr. Cara nodded with a smile and continued, "Also, considering the good relationship between the two of you, the Villa I arranged for the two of you is also next to each other. The two of you won't mind, right?" "

"Director ma continued, "You're too thoughtful! We can't thank you enough, so why would we mind?" "

"During this period, professor Feng didn't say anything. "

"Director ma nudged Professor Feng with his elbow, reminding her to thank Dr. Cara. "

"Professor Feng looked at director Ma and continued, "Dr. Cara, don't worry. Director Ma and I will definitely contribute to C nation's science and Technology." "

""I am relieved with Professor Feng's words!"Professor Cara continued, "You must be tired after a night on the plane. Go back and rest! I will arrange a car to pick you up tomorrow." "

"Okay."Professor Feng nodded.

"Director Ma, Professor Feng, and the others walked to the car. "

"Looking at their backs, professor Cara suddenly realized that something was wrong. He lowered his head and looked at the assistant beside him. "Professor Feng came alone. Does she have any relatives in China?" "

"Director Ma and his family came along, but Professor Feng was alone. "

“Professor Feng has a mother besides her daughter,” said Jamila. “But her mother is old and stubborn. She doesn’t want to come, so she still stays in China!” ”

Dr. Cara nodded.

“Until the two cars disappeared in front of them, Dr. Cara and the others turned around and left. ”

“About an hour later, the car stopped in front of the two villas. ”

“Professor Feng’s daughter, Feng Ying, was already waiting at the door. When she saw her mother get out of the car, she immediately ran over. “Mom!” ”

“Ying Ying!” Since the last time they met, professor Feng had not seen his daughter for more than three years. When he saw Feng Ying running over, Professor Feng excitedly hugged Feng Ying. ”

The mother and daughter hugged each other.

“Mom, I’ve waited for so many days. I’ve finally waited for you to come!” Feng Ying said with slightly red eyes. ”

“Professor Feng helped Feng Ying Wipe Her Eyes. “Silly child, isn’t mom here?” ”

“Feng Ying nodded and looked into the car. “Mom, Where’s Grandma? Does she get Carsick?” ”

“When he mentioned grandma, Professor Feng’s eyes dimmed. He continued, “Your grandma didn’t come.” ”

“Hearing that, Feng Ying said in surprise, “Why? Why didn’t Grandma Come? Did you not let Grandma Come?” ”

“Feng Ying hadn’t seen Grandma for more than three years. Thinking of how her grandma treated her quite well when she was young, Feng Ying originally thought that she would take this opportunity to be filial to Grandma! She didn’t expect Grandma to not come at all. ”

“”It was your grandma who didn’t want to come,” professor Feng continued, “She said that she would die on the land of China.” ”

“Hearing this, Feng Ying frowned. ”

She didn’t expect her grandmother to not come with her.

“Professor Feng sighed and said, “You know your grandmother’s character. If she doesn’t want to, it’s useless even if others say it.” ”

Professor Feng was also reluctant to leave her mother alone in C nation.

But she couldn’t do anything about it.

She couldn’t stay in China with her mother.

“”So you just left Grandma in China?”Feng Ying looked at professor Feng and continued, “Grandma is already 89 years old this year!” ”

How could an 89-year-old old man have the ability to take care of himself?

“Moreover, Professor Feng had just betrayed the CEN base. Not to mention other things, the people in the CEN base would not let the Old Lady Live Well. ”

“Thinking of this, Feng Ying became even more nervous. She continued, “Mom, how could you bear to do that?” ”

“Then what do you want me to do?” Professor Feng looked at Feng Ying and sighed, then, he said, “Don’t worry, Yingying. Your grandmother will be fine. Before I left, I especially asked Auntie Wu to take good care of your grandmother. I will send money to her every month.” ”

“Really?” Feng Ying asked

Professor Feng nodded. “Of course it’s true. Your grandmother is my mother. Can I just leave her alone?”

“Chapter 1718: 356: The Oasis Project is starting to take effect, kick her out immediately! 5”

“Hearing this, Feng Ying felt relieved. ”

She was really afraid that her grandmother would have no one to care for her in her old age.

“Now that she heard that Professor Feng did not ignore the old lady, Feng Ying was not worried anymore. After all, it was the old lady who did not want to come with Professor Feng. ”

“C country was one of the few developed countries in the world, and it was also a holy place for the elderly. If the old lady came to C country, she could at least live for a few more years. ”

“However, she was not willing to come. This could not be blamed on others. ”

“That’s good.” Feng Ying continued, “Auntie Wu is very tired taking care of Grandma alone. Mom, remember to send her more money every month.” ”

“Don’t worry, I will.” Professor Feng nodded. ”

“Feng Ying took the suitcase from Professor Feng. “Then mom, let’s go in quickly.” ”

Professor Feng turned around and greeted director Ma and the others before following Feng Ying into the villa.

Feng Ying had moved into the villa ten days ago.

The villa was already very cozy.

“Feng Ying put away her luggage and asked, “Mom, are we going to be neighbors with Uncle Ma and the others from now on?” ”

“”Yes.” Professor Feng nodded. “Ying Ying, you have to learn to greet them in the future. Why Don’t you say anything when you see Uncle Ma and the others?” ”

“Got it.”

At the same time.

On the other side.

Dr. Cara and Jamila had returned to the base camp.

“The assistant immediately walked over. “Dr. Cara, this is the important information we extracted from the analysis report of the volcanic crystal. Please take a look.” ”

“Dr. Cara took the information and looked at it carefully. After a while, Dr. Cara laughed out loud, “YC is really smart and muddle-headed. She definitely didn’t expect that even though our country C didn’t land on Mars, we still got the analysis report of the volcanic crystal. Moreover, we got it all without any effort.” ”

“Gamira smiled and said, “In the end, it’s the Chinese who are soft-hearted.”If it weren’t for Professor Feng and director Ma, they wouldn’t have gotten the report of the volcanic crystal so easily.”

“Dr. Cara nodded and continued, “Inform them to immediately start the plan to land on Europa.” ”

Europa was a very valuable planet.

“Currently, ye Zao had misjudged Europa. He thought that Europa was a planet with no value and gave them a chance. ”

“Therefore, country C must land in Europa before ye Zao could react and not give ye Zao a chance to regret. ”

“”Okay.” Jamila nodded. “By the way, Dr. Cara, do you think there’s anything wrong with this volcanic crystal analysis report?” ”

“What’s Wrong?” Dr. Cara turned his head.

“Jamila continued, “I always feel that this analysis report is too simple.” ”

The volcanic crystal analysis report was a very confidential document. Why would professor Feng and director Ma suddenly see it?

“Dr. Cara did not take this matter to heart. She continued, “How Old is YC? In the end, she is just a child. How can you expect a child to have leadership?” ”

YC was only in her early twenties.

“Her technological talent was undeniable, but talent and leadership were two different things. ”

“Hearing this, Jamila nodded. ”

“Dr. Cara continued, “I heard that Professor Feng has a very outstanding disciple, Liu Yuan, who is still in the Cen’s base. It would be even better if her disciple could be poached!” ”

“”I’m afraid that’s a little difficult to achieve,”said Jamila. ”

“Why?”Dr. Cara asked.

“Jamila continued, “They come from different backgrounds. Liu Yuan’s grandfather is a veteran of the anti-japanese war.” ”

“Before this, Jamila had wanted to Rope Liu Yuan in as well, but after some investigation, he found that Liu Yuan was not quite the same as he had imagined. ”

“Liu Yuan was very patriotic. Because her ex-boyfriend had a quarter of Japanese ancestry, she resolutely broke up with her ex-boyfriend. ”

1

“Is that so?”

“Yes.”

“Professor cara sighed and continued, “That’s such a pity!” ”

...

The Lin family.

“When Little White came downstairs after charging, it saw that there was a new member in the family. It said in surprise, “My God! Why is there a demolition director in our family?” ”

“Demolition class director? Who?” Ye Shu walked out of the restaurant with breakfast in her hands.  
“Who in our family is the demolition class director?”

“It!” Little White pointed at the Fat Dog on the ground and said.

“The chubby dog was chewing on its slippers and playing with them. When it heard this, it seemed to understand Little White’s words. It tilted its head and looked at little white.”

It was silly and cute.

Little White couldn’t stand this kind of tilting of its head. Its eyes were almost sparkling. “Oh my God! This dog is too cute! I feel that it’s not the cutest little puppy in the Universe!”

“Chapter 1719: 356: The Oasis Project is starting to take effect, kick it out immediately! 6”

Ye Shu was so amused by Little White that she laughed out loud.

“Little White looked at Ye Shu. “Grandma, where did it come from? Can you give it to me as a pet!” ”

Little White had only recently sorted out its seniority.

“Ye Zao was its creator, which was equivalent to a father. If it was called Ye Shu, it would definitely call her grandma.”

“What did you call me?” Ye Shu was stunned.

“Grandma!” Little White said.

Ye Shu touched her face. "Am I that Old?"

"Little White tilted its head and thought for a while. "But Big Zao is my Daddi! If I call you sister, wouldn't the seniority be messed up, Grandma?" "

"Ye Shu, who was forced to be a grandma:" ... "she was speechless. "

""Grandma, Can You Give It to me?"Little White asked again. "

""Yes."Ye Shu nodded. "Then from now on, you will be responsible for its food, daily life, and cleaning up its poop. You will teach it to go to the bathroom and not to urinate or defecate anywhere." "

""Leave it to me!"Little White patted its chest and said proudly, "I used to pour the cat litter for that silly cat!" "

"Speaking of silly cats, Little White's mood became a little lower. "I miss silly cats so much!" "

"Seeing little white like this, Ye Shu also sighed and continued, "Little White, why don't you give it a name?" "

""Who?"Little White continued, "The demolition director?" "

"Ye Shu smiled and said, "Why do you call it the demolition director?" "

""Oh my God! Grandma, don't You Know?"Little White continued, "When you bought it, the owner didn't introduce it to you? Husky's alias is Husky, demolition class teacher. He didn't let go, he's a retard in the dog world!" "

"As Little White said this, it played a video about the Husky to Ye Shu. "

“Seeing the Husky’s crazy demolition behavior on the video, Ye Shu was stunned. After a long while, she said, “The owner only told me that it was a little naughty...” ”

No wonder the shop owner was so enthusiastic when he introduced the Husky!

It turned out that he couldn’t wait to sell this demolition class teacher.

“Little White continued, “Grandma, it’s so fat. Let’s call it Rollie, okay?” ”

“... Okay.”Ye Shu nodded.

“After successfully naming Rollie, Little White was filled with a sense of accomplishment. It picked up rollie and said, “Grandma, I’ll take Rollie out to play first! Don’t miss her!” ”

Ye Shu:” ...”she didn’t want to be a grandma.

“When Lin Jincheng came back in the evening, little white kept calling him grandpa, which made Lin Jincheng dumbfounded. ”

“He wasn’t even fifty years old yet, how could he be a Grandpa? ”

Lin Ze was even more dumbfounded.

Because he had directly changed from an elder brother to an uncle.

The CEN Group’s base didn’t change much because of Professor Feng and director Ma’s departure.

“On the C country side, after director Ma attended the welcoming banquet, professor Feng joined in the intense work. ”

“Although the two of them had some secrets about the speed of light, they could not replicate the light-speed aircraft carrier! ”

“The aircraft carrier was a big project. Not only did it have the most advanced defense and attack systems, but it also incorporated nanotechnology to resist the cold and heat. These were technologies that Professor Feng and director Ma had never mastered. ”

“Professor Feng took out a design blueprint. “In three months, we will build the spaceship on the blueprint. In four months, we will be able to successfully land in Europe.” ”

“Hearing this, Dr. Cara frowned slightly. “Professor Feng, you are mistaken. My goal is to build an aircraft carrier!” ”

What could a spaceship do?

“In the vast universe, a spaceship could not even be considered a fly’s leg. ”

Any asteroid that flew over could destroy the spaceship.

“Professor Feng looked up at Dr. Cara. “Dr. Cara, building an aircraft carrier is not as simple as mastering the speed of light technology.” ”

Dr. Cara was stunned.

“Director Ma continued to smooth things over, “Dr. Cara, although we can’t build an aircraft carrier, the spaceship designed by Professor Feng and I can reach the speed of light. “There is no problem for us to successfully land on Europa. After we collect the energy on Europa and use the energy on Europa, it won’t be too late to study the aircraft carrier.” ”

“At this point, director ma paused and continued, “Europa is rich in energy. We will definitely be able to build an aircraft carrier that surpasses China!” ”

Europa was not like other planets where danger was everywhere. Europa was a very gentle planet. There was no need for an aircraft carrier to land on it.

“Hearing this, Dr. Cara looked up at the two of them. “Three months, right?” ”

“Yes.” Professor Feng nodded.

“”Okay,” Dr. Cara continued, “Then I’ll wait for you for three months! Oh right, I’ve also found a few outstanding disciples for you two.” ”

“Professor Feng smiled at Dr. Cara. “I’m sorry, I’m afraid I’ll have to disappoint you. Director Ma and I don’t accept disciples.” ”

Not accepting disciples?

Director Ma was stunned. He was about to say something when Professor Feng patted him lightly with his hand.

Director Ma immediately understood and did not say anything else.

“Professor Cara smiled and said, “Professor Feng, you may have misunderstood. I don’t have any other intentions. I just want to find a few disciples for the two of you. The two of you are the hope of our C Nation. We can’t let anything happen to the two of you.” ”

“”We appreciate your kindness, but there’s really no need,” professor Feng continued. ”

“”In that case, I won’t force you.” Professor Cara still had a smile on his face. ”

“After professor Cara left, director Ma looked at professor Feng and asked, “Why did you reject Cara? Isn’t it good to have two more people to help us?” ”

Professor Feng looked at director Ma. "Do you think Cara is really that kind-hearted?"

Director Ma narrowed his eyes. "What do you mean?"

"Professor Feng nodded and continued, "The only use we have for C Nation now is the light speed technology. If other people learn it, what value do we have for them?" "

"Hearing this, director Ma felt a chill run down his spine. He continued, "Professor Feng! Fortunately, you reacted quickly! If it were me today, I would have fallen into their trap!" "

They had already been expelled from China.

"If they were to be abandoned by C Nation again, there would be no place for them to rest. "

"Thinking of this, director Ma's forehead was covered in layers of cold sweat. "

"Professor Feng continued, "Don't worry. As long as we control the light speed technology, they won't dare to do anything to us! Our main task now is to quickly research the spaceship." "

Professor Feng couldn't wait to land on Europa.

"Okay." Director Ma nodded. At this moment, director Ma seemed to have thought of something and continued, "Oh right, did Auntie give you that?" "

"Which one?" Professor Feng frowned.

"Suyu!" Director Ma said in disbelief, "She didn't give it to you, right?" "

"Oh no!" Professor Feng's face turned pale, "How could I have forgotten about this!" "

..

Beijing.

In a villa.

“An old man with pale hair was sitting on a rocking chair, staring at the sky in a daze.”

“The young girl behind him said, “Mom, is it really good for us to treat her like this? What if her family finds her?” ”

“A middle-aged woman who was munching on melon seeds said, “What’s there to be afraid of! Her daughter has long run away! She’s now a lonely old woman! Even if she dies, no one will care!” ”

“Chapter 1720: 357: slap her in the face, land in Europe, Regret! 1”

That’s right.

This old man was professor Feng’s old mother.

“Professor Feng was the only daughter of this old man. Now that Professor Feng had left for C country, she had no other relatives in this world.”

Wasn’t this kind of person a lonely old man?

“Therefore, Aunt Wu, who was in charge of taking care of the old lady, did not put the old lady in her eyes. She brought the whole family to the villa and lived a rich life.”

“Auntie Wu, who was in charge of taking care of the old lady, instead changed from a servant to the owner of the villa. ”

And the old lady changed from the owner to someone who lived under someone else’s roof!

“”Mom, what if her daughter suddenly comes back?” ”

“Auntie Wu turned around with a smile. “Oh my silly daughter! Haven’t You Seen the news? That Feng Qi has already been expelled from China! Do you think China will still let her come back now?”In China.., there was no place for Feng Qi to stay. ”

How could she come back!

“The old lady did not have any relatives in Beijing, so Auntie Wu was not worried that Professor Feng would come back to cause trouble for her. She was even less worried that the old lady’s relatives would come back to support her! ”

“With that said, Auntie Wu’s daughter, Yang Ting, heaved a sigh of relief. She continued, “Really? Then she doesn’t have any relatives here?” ”

“”No,” Auntie Wu said. “She’s an only child herself and has given birth to an only child. Even if her family really does have any relatives, she’s already so old. How many of them can still live in this world?” ”

The old lady was already 89 this year. Her relatives were definitely around the same age as her.

The average age in China was 77. How many of them could live to 89?

Yang Ting nodded. “That’s good.”

Auntie Wu looked around and lowered her voice. “I heard that old lady has a treasure. We must think of a way to bring that treasure over.”

"What treasure?" Yang Ting asked curiously.

"Auntie Wu said, 'I heard that it's some kind of jade. It's a national treasure of the Song Dynasty!'" "

Auntie Wu had worked for the Feng family for many years. She was quite familiar with the Feng family's situation. She knew that Professor Feng did not bring the old lady's Plain Jade with him when he went abroad this time.

"Really?" Yang Ting's eyes lit up when she heard that it was a national treasure of the Song dynasty.

An item that was called a national treasure must be very expensive!

"Of course it's true." Auntie Wu nodded. "Once we get our hands on that treasure, we won't have to worry about food and clothing for the rest of Our Lives!" "

"Water, I want to drink water." At this moment, the old lady who was lying on the rocking chair said in a hoarse voice. "

"Can't you pour the water yourself?" Auntie Wu stood up. "Your daughter doesn't even want you anymore. Do you really think you are some old lady? And you want us to pour the water for you? Dream On!"

"Hearing this, the old lady glanced at Auntie Wu. After a moment, she slowly stood up from the rocking chair and staggered to the back room to pour the water. "

"Auntie Wu looked at her back and continued, 'Pour us a glass of water too.'" "

"Mom, don't make things difficult for the old lady. I'll get you some water." Yang Ting stood up from the chair. "

"Tingting, why are you so nice to her?" Auntie Wu said unhappily. "

She was just an old woman who couldn't do anything. There was no need to be too respectful to her.

"Yang Ting looked at the old lady's back and her eyes were full of calculating light, then, she said, "Mom, don't you want her heirloom? "She doesn't have an heir, so let's be nice to her. Maybe she will leave those things to us in the future! "Besides, she is already so old. If anything happens to her, who will pay you in the future? "For a lonely old man like her who doesn't have any immediate relatives, the estate and property will be owned by the state in the future! "But with a will, it's different." "

"As long as there was a will, all these things would belong to their family in the future. "

Yang Ting's words could be said to have woken up the person in the dream!

""Right, right, right. Tingting, you're right! Tell Me, why didn't mom think of this! As expected, everyone who studies is better!"For people like them who didn't have any education., they could only see the benefits in front of them and understand this logic. Auntie Wu immediately ran into the house and said with a smile, "Old Madam, Old Madam! I'll get you some water. Oh right, what do you want to eat for lunch? I'll go buy it for you." "

Auntie Wu's change was too big. The old lady looked at her and was slightly stunned.

"Auntie Wu took the cup from the old lady and said, "Old Lady, didn't you say that you wanted to eat lobster porridge? How about I cook lobster porridge for You for lunch?" "

"After a moment, the old lady reacted and nodded. "Okay." "
