

## Almighty D 1741

Chapter 1741: 359: the all-powerful Miss Ye! 3

“Jamila narrowed his eyes. He knew that he had really met his match this time, he said very sincerely, “Old madam, whether you believe it or not, I still say that we have no purpose. We just want you to spend your old age peacefully and show filial piety on behalf of Professor Feng.” ”

“At this point, Jamila paused and continued, “Since you’re unwilling to go to country C, I won’t force you. This is my contact information. As long as you want, you can contact us at any time.” After saying this, Jamila placed his business card on the table. ”

The old lady was not afraid of offending others. She directly picked up the business card and threw it into the trash can in front of Jamila.

The corner of Jamila’s mouth twitched as he restrained the anger in his heart.

“With his achievements today, he had never dared to do this in front of him. However, today, he was slapped in the face by an old lady from China. This made Jamila feel very uncomfortable. However, at this moment, no matter how uncomfortable he felt, he could only endure it! ”

Nothing was more important than the national treasure of the Song dynasty.

One must never lose something because of something big or small.

“”Old Lady, Professor Feng is your only daughter. I know you are angry and very sad.”Gamila stood up and continued, “Actually, just like you, we are also very sad.” ”

“At this point, Gamila took out an envelope from her bag, “You only have one daughter, Professor Feng. Now that Professor Feng is gone, you have no one to rely on in China. This is a small gift from our professor. Although the pension is not much, it is enough for you to live in China. You must accept it.” ”

“There is no need.”The old lady raised her hand to reject him. “Having such a daughter is a failure for me as a mother! It is her karma to exchange for the death of a guest in another country! You can go. You Don’t have to come again.”

Just pretend that she had never had such a daughter.

Being rejected by the old lady several times in a row made Gamila doubt her life.

“Moreover, this time, he did not say anything else. He just left some money behind. According to normal thinking, the old lady would definitely take the money. ”

“People die for money, and birds die for food. ”

Who was not born to Love Money?

The old lady’s reaction was beyond Gamila’s expectations.

What was even more unexpected was that the old lady did not ask Feng Qi a single word from beginning to end.

“She did not ask if Feng Qi’s body would be transported back to Earth, nor did she ask about Feng Ying. ”

This was a little cold!

““Young man,”at this moment, the old lady continued to speak, interrupting Gamila’s thoughts. ”

Gamila turned around. “Please speak.”

“Please, you are not welcome here.” The old lady was too lazy to say anything more and directly ordered her to leave. ”

Jamila’s expression did not change and she did not feel embarrassed. “Sorry to disturb you.”

“After saying this, Jamila walked out. ”

“After taking a few steps, Jamila seemed to have thought of something and turned to look at the old lady. “I still say the same thing. As long as you want, you can contact us at any time.” After saying this, she did not have any lingering feelings. ”

The old lady was left standing alone in the room in a daze.

It was not until Jamila’s back completely disappeared from her sight that the old lady let down her guard and collapsed on the chair. Two streams of muddy tears rolled down from her eyes.

Feng Qi was her only daughter. It would be a lie to say that she was not sad at all.

But what could she do even if she was sad?

It had already happened!

“The old lady sobbed and said, “I’ve already said that traitors will not have a good ending. This child, she just won’t listen, just won’t Listen!” ”

Retribution!

This was all retribution!

“What evil did she do in her previous life? In this life, the heavens wanted to punish her this way.”

“Auntie Wu looked at the old lady who was crying bitterly. The corners of her mouth curled up. In a moment, she walked forward, she pretended to comfort her, “Old Lady, I’m sorry for your loss. Don’t be sad. If you do this, Professor Feng Won’t be at ease in heaven.” ”

“Heaven?”The old lady raised her head to look at Auntie Wu. “Do you think a person like her can go to Heaven?”

“In the past, people like Feng Qi would be implicated by their entire family, let alone go to heaven!”

“If a woman didn’t teach, her mother’s fault would also be related to her.”

“Hearing this, Auntie Wu was stunned and didn’t know how to respond, she just said, “Madam, it has already happened. No matter how sad you are, it’s useless. An elderly person can’t have too much emotional fluctuation. It’s not good for your health.” ”

The old lady took a deep breath and sighed.

...

“Seeing Jamila coming out of the Feng family’s villa, Tina immediately went up to her. “How is it?” ”

Chapter 1742: 359: The Almighty Miss Ye! 4

Jamila shook her head. “Nothing much. Feng Qi’s mother is even more stubborn than I imagined!”

“She’s just an old lady. Is she that hard to deal with?”Tina frowned.

“After saying that, Tina continued, “She refused to go back with us?” ”

“Yes.” Jamila nodded.

“Why?” Tina asked.

“Jamila continued, “Not only did she refuse to go back with us, she also refused our pension and didn’t ask about Feng Qi’s funeral. “In short, she doesn’t act like a mother who lost her child!” Jamila had never seen such a calm mother. ”

“Hearing that, Tina was also stunned. ”

“Under normal circumstances, when such a thing happened, the family members would only complain that the pension was not enough. ”

She had never seen a family member who refused to go to country C to live in peace and also refused the astronomical pension.

Also.

“Feng Qi was the old lady’s biological daughter after all, but the old lady was so calm! ”

Wasn’t there a saying in China that the dead were the most important?

Did she not think about the mother-daughter relationship in the past at all?

“After thinking for a while, Tina continued, “Chinese people are greedy by nature. Does Feng Qi’s mother complain that the money is too little?” ”

“I don’t think so.” Jamila shook her head. “She never mentioned how much the pension is from the beginning to the end, let alone opening the envelope. If it’s really about the pension, she could have just raised it directly. There’s no need to do this.” ”

“Tina frowned and asked, “Then what should we do now? Dr. Cara has repeatedly told us that we must figure out the matter of the National Treasures of the Song dynasty. If we don’t gain anything from this trip, how are we going to explain it when we go back?” ”

“I don’t know either.” Camilla lit a cigarette. “This matter is more troublesome than we imagined.”

“Before coming here, Camilla had already planned everything. ”

“This trip, she would bring the old lady back to C country and then make a cenotaph for Feng Qi. ”

“In China, funerary objects were very important. He originally wanted to take advantage of the old lady’s longing for Feng Qi and propose to take out the national treasure of the Song dynasty as a funerary object for Feng Qi. ”

Who knew that the old lady would directly reject him!

“I have an idea,” Tina said immediately. ”

“What Idea?” Asked Jamila.

“Tina continued, “We can let Feng Ying Do the old lady’s work. Feng Ying is the old lady’s only granddaughter. After a hundred years, Feng Ying will be the legal heir. Other than giving those things to Feng Ying, who else can we give them to?” ”

“Hearing that, Camilla narrowed her eyes. “We can try that.” ”

“Feng Qi was the only person who had been expelled from China. Feng Ying had not been expelled, so she could still enter and leave China freely. ”

“Tina continued, “Then I’ll go back to China immediately and bring Feng Ying here.” ”

“Okay.” Camilla nodded. “I’ll think of a way to invite Gu si out. Let me know when you guys arrive.”

“Apart from the National Treasures of the Song dynasty, they had to successfully convince Gu si during this trip to China. ”

They hoped that everything would go smoothly on Gu Si’s side and that they would not run into any obstacles again.

“Okay.”

...

Cen’s base.

“Gu Si was one of professor Feng’s proudest disciples. In the past, she and Liu Yuan were considered as a pair of talents. The two of them had completed many famous experiments behind Professor Feng. ”

“Before this, Gu Si was also very interested in Europa. She had almost followed professor Feng to C country. ”

“Fortunately, she had stopped at the precipice in time. ”

“If she had really followed professor Feng to C country, then she would be the one who died in a foreign land! ”

Gu Si was terrified when she didn’t think about this.

She still had a big family counting on her!

“Worker Gu.” At this moment, the assistant’s voice sounded in the air. ”

“What’s Wrong?” Gu Si turned around.

“The assistant continued, “Section B’s leader Fang is looking for you.” ”

Section B?

Leader Fang?

Was she familiar with this person?

“Gu Si hesitated for a moment before continuing, “Alright, I’ll be there right away.” ”

The assistant took the rubber gloves that Gu si handed over.

“When she arrived outside the laboratory, she saw team leader Fang waiting for her outside. ”

Team leader Fang was 35 years old this year. He was an elderly youth with a simple and honest appearance. He was a native of Beijing.

“After she composed her expression, Gu si walked over. “Team leader Fang, You’re looking for me.” ”

“Worker Gu.” Team leader Fang smiled and raised his head.

“Why is team leader Fang looking for me?” Gu Si continued to ask.

“Leader Fang held a stack of documents in his hand. “Gu, I have an analysis report here. No matter how you look at it, it doesn’t seem right. Could you please help me check it?” ”

Chapter 1743: 359: The Almighty Miss Ye! 5

“”Alright.”Gu Si nodded and took the report from leader Fang. With a glance, she could see the hidden problems, she continued, “Here, here, and here are all wrong. Although the Martian soil is similar to Earth’s soil, there are still many differences, such as the quality and organic matter. Take a careful look.” ”

“Hearing this, team leader Fang came to a sudden realization, he nodded and said, “So there’s something wrong with these places. No wonder I haven’t found out the reason! An expert is an expert. Once he makes a move, he can beat us all! By the way, worker Gu, I heard that Mars has successfully grown potatoes? I wonder if it’s true?” ”

“Gu Si shook her head. “I’m not from the OASIS project team, so I’m not very sure either.” ”

“Many things about the oasis project were kept secret from the outside world. Even if Gu Si knew about it, she couldn’t say it out loud. ”

“”I see!”Team leader Fang continued, “Alright then, thank you, Gu. I still have to go back to the office first.” ”

“”You’re welcome,”Gu si continued. ”

“After saying that, team leader Fang turned around and went back to the office. ”

“Just as he reached the corner, team leader Fang took out his phone and sent a message. ”

On the other side.

“Sitting in the car, Jamila received a message from an insider.”

This was a schedule.

“Looking at Gu Si’s schedule for the day, Jamila narrowed her eyes.”

“Gu Si was different from Liu Yuan. Liu Yuan had an influential grandfather in her family, and her patriotic thoughts were carved from her bones.”

As for Gu Si?

“She was born in an ordinary family and had a poor life, but she still had a family.”

“In a big city like Beijing, it was almost too difficult for Gu si to survive beautifully with his family.”

Therefore.

Gu Si was no different from what he had in his bag.

“In a moment, Jamila sent another message to him, setting up a meeting time.”

“After receiving Jamila’s message, team leader Fang took advantage of the lunch break to go to the restaurant that he had arranged with Jamila.”

“Mr. Jamila.”

““Team leader Fang, please take a seat.”Jamila made a ‘please’gesture.”

Team leader Fang sat opposite Jamila.

“Jamila looked at team leader Fang and asked, “How are things on Mars? I heard that YC is implementing the OASIS project.” ”

“Team leader Fang said, “The aircraft carrier was launched three months ago. It is said that potatoes have been planted on Mars, but this claim has not been confirmed, so I am not very sure.” ”

“After thinking for a while, team leader Fang continued, “There has been no news about the OASIS project for a long time.” ”

There has been no news for a long time?

“Hearing this, Jamila narrowed her eyes. If the oasis project went smoothly, there would not be no news from ye Zao’s side. ”

Could it be...

The Oasis project failed?

“If it really failed, it would not be surprising. ”

“After all, the conditions on Mars were terrible, and they did not have the conditions to survive. ”

It was simply a pipe dream to plant an oasis on Mars!

“However, ye Zao had completed one seemingly impossible mission after another, creating one miracle after another. Before confirming the situation, Jamila could not easily make a conclusion. ”

What if ye Zao made another reversal?

“Are you familiar with the person in charge of the Oasis Project?” Jamila asked.

“Not really.” Team leader Fang shook his head.

“He was from Area B, so all the news was just hearsay. Yu Zifei, Cen He, and the others were praised so highly, so how could he have the chance to get in touch with them?”

“Jamila took out a check and said, “Check all these things out, and this check is all yours.” ”

Team leader Fang glanced at it.

“Ten, a hundred, a thousand, ten thousand, a hundred thousand, a million... ”

It was a total of seven figures!

It was close to his annual salary at the Cen family’s experimental base!

This money was enough to cover all the expenses of raising a small family outside.

“Team leader Fang’s eyes were filled with greed. He smiled and said, “Don’t worry, Mr. Jamila. I will definitely not disappoint your expectations.” ”

Jamila nodded in satisfaction. “I believe in team leader Fang’s ability.”

“After saying that, Jamila continued, “There’s one more thing.” ”

“Please speak,” team leader Fang said. ”

“Jamila said, “What about Liu Yuan?” ”

“Before this, Jamila had only gotten a partial understanding of Liu Yuan’s situation from the information.  
”

He was afraid that there would be some mistakes.

But team leader Fang was different. Team leader Fang and Liu Yuan were colleagues from the same base. He could get to know Liu Yuan more directly.

“Team leader Fang said, “Although Liu Yuan is also professor Feng’s disciple, there are still some differences between her and Gu Si. “Liu Yuan was born with real roots. I think you’d better not waste your time with her!”Not to mention that Liu Yuan’s grandfather was a veteran, just based on the fact that Liu Yuan broke up with her ex-boyfriend because he had a quarter of the Japanese bloodline, it could be seen that Liu Yuan would never do anything to let down the CEN base. ”

Chapter 1744: 359: The Almighty Miss Ye! 6

“Different backgrounds, different circumstances. ”

Gu Si and Liu Yuan could not be compared.

“It seemed that there was no difference in his investigation of Liu Yuan. Jamila nodded and continued, “Then let’s do it this way first. When you have a clear understanding of the OASIS project, contact me again.” ”

“With that, Jamila took back the check on the table. ”

“Team leader Fang stood up as well. “Don’t worry, I Promise I won’t let you and Dr. Cara down. By the way, do you still count on helping me move to C Country?”Team leader Fang’s family had many relatives

who had settled in C country, therefore, he also wanted to move to C country, but unfortunately, he had never been able to do so. ”

“Jamila knew what team leader Fang was thinking. She smiled and said, “Team leader Fang, work hard. I will help you bring up this matter in front of Dr. Cara.” ”

“Okay.”Team leader Fang nodded and bowed. “Then I’ll have to trouble you.”

“You’re welcome.”Camilla stood up and left.

“Not long after Camilla left, team leader Fang also walked out of the coffee shop. ”

On the other side.

Ye Zhuo took an aircraft carrier to Mars for a trip.

More than three months had passed. The changes on Mars were not small.

“As far as the eye could see, it was full of lush greenery. Not far away, there were a few white rabbits running around. ”

“If it wasn’t for the Azure Blue Planet hanging in the sky, others would definitely think that this was a corner of Earth. ”

“Yu Zifei brought ye Zao to tour around and then said, “Oh right, Miss Ye, I’ll bring you to the paddy field to take a look.” ”

“Okay.”Ye Zao nodded slightly and followed Cen Jiang’s footsteps.

The paddy field was quite far from here. They needed to take the Mars carriage.

“Fifteen minutes later, they arrived at an open area.”

“A total of 10 acres of paddy field had been mined. At this moment, the professor from the University of Agriculture was leading his students to do experiments. These professors and students were like Yu Zifei and the others. They basically went back once a month.”

“Seeing ye Zhuo and the others come over, the professor immediately brought his students over. “Miss Ye.” ”

“Ye Zao nodded slightly. “Professor Yin, you’ve worked hard.” ”

“It’s not hard at all.” Professor Yin’s face was full of smiles. “It’s our honor to be able to bring them to study on Mars!”

The students behind Professor Yin looked at ye Zao seriously.

Ye Zao was completely different from what they had imagined. She was also a little different from what they had seen on television.

She was very young and very beautiful.

“Ye Zhuo continued, “What is the survival rate and germination rate of the current rice? Have you encountered any thorny problems?” ”

“Hearing this, the Professor adjusted his glasses out of habit and continued, “The survival rate is currently around 90% , but the germination rate of the seeds is only around 25% .” ”

Ye Zhuo frowned slightly. “The germination rate is so low?”

““Yes.” The professor nodded. “Currently, we are looking for the reason.” ”

“Ye Zao continued, “The survival rate is around 90% . This means that the climate on Mars is completely adapted to the growth of rice. The germination rate is not up to the standard. Is it because of the seeds? How many seeds have you brought up?” ”

““A total of 51 types,”the professor replied. “These varieties are the best of the best. Under normal circumstances, the germination rate is more than 99% !” ”

The things that could carry sparks were all carefully selected.

Ye Zao’s beautiful eyes narrowed. “Bring over some samples of each variety.”

“Okay.”The professor immediately asked the student to bring over the samples of the seeds.

“Soon, the student returned with the samples. “Miss Ye, here you are.” ”

“Thank you.”Ye Zao took the samples.

The student glanced at ye Zao.

They felt that ye Zao was different again.

They thought that ye Zao was just a big shot in science and technology. They didn’t expect ye Zao to know so much about plants.

“Where is the laboratory?”Ye Zao continued to ask.

“Please follow me.”The professor made a “Please”gesture.

Ye Zao followed the professor’s footsteps.

“Soon, they arrived at the laboratory.”

Ye Zao took out some samples and did some experiments.

“She was wearing a white lab coat specially designed for experiments. She had a serious look on her face, and her every move exuded a unique charm.”

The students followed her around to take notes.

“They were clearly around the same age. In fact, she was a few years younger than many of the students, but she gave people the impression that she was a teacher.”

This kind of attitude was emitted from her bones.

“There was no way to replicate it, much less imitate it.”

“Three hours later, ye Zao came to a conclusion, “The germination rate is the problem of the seeds. I’ve just looked at them. These seeds all have a common feature. Their embryos and endosperm are dyed in the same color. “Mars is still different from Earth. On Earth, the germination rate is as high as 99% , but on Mars, it may not be possible.” ”

“Hearing this, the professor nodded. “Then what do you mean?” ”

““Change the seeds,”ye Zao said. ”

““Okay,”the professor continued, “By the way, Miss Ye, if the germination rate is reduced because of the embryo and endosperm staining, then we need to change the ordinary seeds.” ”

““Okay.”Ye Zao nodded slightly. “If the seeds still don’t work, we’ll look for other problems.” ”

“Okay.”

“After looking at the paddy fields, Ye Zao was ready to go back. ”

Just as he got off the Mars rover.

“CEN he carried a basket of potatoes and ran over excitedly. “Miss Ye, Miss Ye! Look at our bumper harvest! It’s only 30% of the land, but we’ve already collected more than 1,300 catties of potatoes!” ”

“The yield is so high?”Ye Zao was also a little surprised.

“Under normal circumstances, on a very fertile land, one Mu of land could at most hold 4,500 catties of potatoes. ”

“This was only 30% of the land, and the yield was more than double that on earth! ”

“”Yeah.”Cen he smiled and said, “Not only is the yield high, but the texture of this potato is also very good! When you go back, remember to bring some for them to taste.” ”

“”Okay.”Ye Zhuo nodded slightly, picked up a potato, and looked at it carefully. ”

“Perhaps it was because of the difference in the soil, the potatoes grown on Mars not only had a high yield, but their appearance was also somewhat different from the potatoes grown on earth. ”

Just the size alone was several times larger than a normal potato!

“The potatoes on earth were yellow in color, while the potatoes on Mars were close to white in color. They looked dainty and very good-looking. ”

“When they went back, cen he packed a few baskets for ye Zao. ”

“By the way, Miss Ye, can you help me send this to my parents?” Yu Zifei handed ye Zao a cell phone and continued, “This contains the video I sent to my parents.” ”

“Due to work, Yu Zifei had not been back for more than two months. ”

“Sure.” Ye Zhuo took the phone.

“Yu Zifei continued, “By the way, Miss Ye, the password is 087566.” ”

“Okay.” Ye Zhuo nodded slightly.

...

Saturday.

“As usual, Gu si sent her sister to the tutoring class to learn dance. ”

“Just as she sent her sister to the tutoring class, an unfamiliar male voice sounded from behind her,  
“Miss Gu.” ”

“Gu si frowned slightly. She turned around and saw a blond-haired, blue-eyed face. ”

“Because of Professor Feng, Gu Si wasn’t unfamiliar with this person. ”

Gamila!

“Professor Feng had lost Europa because of Gamila, so Gu si didn’t have a good impression of Gamila.  
She turned around and left. ”

“Seeing this, Gamila immediately chased after her. “Miss Gu, Can we talk privately?” ”

“Chapter 1745: 360: once the Great Scorch is done, he will be sent to prison immediately! 1”

Talk alone?

Talk alone about what?

“Professor Feng and director Ma had sacrificed their lives in Europa. At this time, Jamila came knocking on his door. It was obvious why he was here. ”

“Gu si said, “I don’t think we have anything to talk about!” ”

“”Miss Gu, do you have a misunderstanding about me?”Jamila continued, “I will only take ten minutes of your time. If you still feel that there is nothing to talk about with me after ten minutes, I will leave immediately.” ”

Gu Si glanced at Jamila. There were so many people here. It wouldn’t look good if she continued to be in a stalemate with Jamila.

Jamila immediately made a ‘please’gesture.

Gu Si raised her foot and walked forward.

Jamila followed Gu Si’s footsteps.

The two of them walked to the cafe next door and found a seat to sit down.

The waiter went forward to order.

Gu Si looked up. "A glass of lemonade will do."

"After saying that, she looked at Jamila. "What do you want to say?" "

Jamila ordered a cup of coffee and smiled. "Professor Feng has often mentioned you in front of us before. She said that you are the foundation she is most proud of."

Gu Si smiled slightly. "Thank you for the compliment. But you must have heard wrongly. The foundation that the teacher is most proud of is Liu Yuan."

Gu Si knew her own strength very well. She was not the kind of person who could not find her own strength just because someone complimented her.

"Although professor Feng also appreciated her, he was still far from Liu Yuan. "

"Miss Gu is too modest," Jamila continued, "Professor Feng has indeed mentioned you many times in front of me. She also said that it was her greatest regret that you did not go to C Nation with her." "

"Gu si chuckled, "Is that your real goal?" "

"If professor Feng had really said that, his target should have been Liu Yuan, not her. "

"Because teacher Feng was sacrificed, no one in C Nation has mastered the light speed technology, so you came to find me? Why, do I look like the kind of person who is prone to betrayal?" "

"Jamila took a sip of coffee to ease the awkwardness, "No, you misunderstood." "

Gu Si kept a smile on her face. "Misunderstanding? Then why did you come here? To have coffee with me?"

“Miss Gu, we came to find you to make professor Feng feel at ease.” Jamila paused and continued, “After all, you were the disciple that Professor Feng missed the most before he left for Europe.” ”

These words were too perfect to pick out any mistakes.

“I’m not the only disciple that teacher Feng misses, am I? Have you gone to look for Liu Yuan?” Gu Si asked. ”

Jamila smiled. “Miss Gu, not everyone is worthy of me looking for them personally!” ”

This meant that Liu Yuan was not as good as Gu Si.

“If it were anyone else, they would definitely be very happy to hear this. ”

Gu Si was the same. A faint smile appeared on the corner of her mouth. She said in a flattered manner, “Thank you for your kindness, Mr. Jamila.” ”

Jamila observed the change in Gu Si’s expression without batting an eyelid.

“Seeing the flattered look in Gu Si’s eyes, a hint of sarcasm appeared on Jamila’s face. ”

He had thought that there was something different about Gu Si.

It turned out that she was just like everyone else.

That cold look just now was just an act.

“You’re welcome,” Jamila continued, “It’s just that Miss Gu holds a high position in Professor Feng’s heart. It has nothing to do with me. I’m just passing on Professor Feng’s meaning. Miss Gu, Professor Feng sincerely hopes that you can go to C Nation to develop yourself.”

“At this point, Jamila paused, then she added, “Miss Gu, don’t worry. After you arrive in C Nation, we’ll definitely not mistreat you. The treatment we’ll give you will definitely surpass that of Hua Nation. “Oh right, this is the place our doctor arranged for you to stay. Do you think you’re satisfied?”

Jamila took out a document and placed it in front of Gu Si.

“Gu Si flipped through it, and the smile in her eyes became more and more obvious.”

“Jamila narrowed her eyes and continued, “Miss Gu, this villa has a total of more than a thousand square meters. It’s definitely not a problem for your family to live in it. In addition, we’ve also arranged for a servant, a driver, and a chef for you.”

“For someone like Gu Si, having a servant, a driver, and a chef was an unimaginable life.”

The current Gu Si must be bursting with joy!

“There was a saying in China that went, “If you fly on a branch, you become a Phoenix.”

This saying was very suitable for the current Gu Si.

“Gu Si nodded, she continued, “Then what about my family? The reason why you came to find me, you should have a clear understanding of my situation, right? I’m the eldest sister at home. My parents, including my younger siblings, all live with me. I Can’t abandon them and go live in C country alone.”

Chapter 1746: 360: Great Scorch will be sent to prison! 2

“The corners of Jamila’s mouth twitched, then she said, “Don’t worry, Miss Gu. We will take your family over and let your younger brothers and sisters attend the best schools in China. As for your parents, as long as they are willing, we will give them the most decent jobs. If they’re not willing, then they can live a good life at home. As for food, clothing, and transportation, they don’t have to worry about it, much less you, Miss Gu.” ”

Could China give Gu Si everything that he had given her?

Gu Si was a nobody in China.

“A family of five lived in a crowded two-bedroom living room. They couldn’t even solve the simple housing problem, let alone the servants.”

It was obvious what Gu Si would choose.

Gu Si nodded. “What about nationality?”

“Jamila smiled. “Please rest assured, Miss Gu. We will arrange for your entire family to have C nationality, and it will be a high-class surname.” ”

C country was a country with a distinct class system.

“It was divided into high-class, middle-class, and equivalent surnames.”

“Under normal circumstances, Chinese immigrants would be discriminated against if they did not have a high-class surname in C country, but it was different if they had a high-class surname.”

“With a high-class family name, they would be highly respected no matter where they went.”

“This was the reason why many people not only immigrated to country C, but also changed their names!  
”

“In front of this monstrous power, what was the big deal about changing their family name?”

Gu Si looked up at Jamila. “Then what family name does Mr. Jamila intend to give me?”

““Davis,” Jamila said. ”

“Davis was the tenth most common surname in C nation. Although it was not ranked first among the top ten most common surnames, it was still not bad to be ranked tenth. After all, this was a surname that even a daughter could not exchange for. ”

““You mean, I will be called Gu Si Davis from now on?” ”

“Yes.” Jamila nodded. The sarcasm in her eyes became more and more obvious.

“Although Jamila had met many people who changed their surnames for the sake of power, it was the first time she had met someone like Gu si. ”

Many people would pretend to feel uncomfortable for a while when they talked about changing their surnames.

But what about Gu Si?

“He didn’t even frown, let alone feel uncomfortable. ”

It seemed that his judgment wasn’t wrong.

“Like master, like disciple. ”

“Gu Si maintained her smile and continued, “By the way, did Mr. Jamila ask Liu Yuan?” ”

“Jamila stopped smiling. “Miss Gu, I’ve already told you that Liu Yuan is not worthy of me doing this for her!” ”

“Are you not worthy or do you not dare?” Gu Si looked at Jamila.

“Jamila did not reject Gu Si’s words. She took out a pen and handed it to Gu si. “Miss Gu, if you don’t think it’s a problem, just sign it.” ”

Gu Si took the pen and lowered her head to sign the document.

“Looking at Gu Si who was writing with her head lowered, the corners of Jamila’s mouth curled up into a proud smile. ”

“Although she had hit a wall with Feng Qi’s mother, it was much easier for Gu si than he had imagined. ”

“After a few seconds, Gu si signed the document and handed it to Jamila. ”

“Jamila took the document with a smile. “Miss gu is more reasonable than I thought. If everyone in China was like Miss Gu...”she had barely finished her sentence when.., the rest of the sentence was stuck in her mouth. She couldn’t say anything. In an instant, Jamila’s face turned very ugly. ”

“Gu Si didn’t sign her name on the signature page at all. Instead, she signed four words in a straight line:  
”

Despicable and Shameless!

“Fortunately, Jamila had studied Chinese before and was quite good at it. ”

“Otherwise, she would have been fooled by Gu si today! ”

“Jamila looked up at Gu si. “Miss Gu, what do you mean by this?” ”

“However, Gu si still had a smile on her face. “What’s wrong, Mr. Jamila? Is Something Wrong?” ”

““Is this your signature?” Jamila handed the document over and pointed at the signature, her face full of anger. ”

““You mean this? This is an adjective and an idiom.” Gu si continued, “It’s used to be of poor quality, regardless of shame. It’s a derogatory term.” ”

““I know what it means!” Jamila continued, “I want to know what miss gu means now!” ”

Gu Si drank a mouthful of lemonade. “It means it literally! Don’t you think that this sentence is very appropriate to describe your country?”

“Jamila held back the anger in her heart and forced out a smile. “Miss Gu, don’t joke around.” ”

““I’m joking! Who’s joking around with you!” Gu si continued, “Does Mr. Jamila think that this word is inappropriate?” ”

“Chapter 1747: 360: once the burning sun strikes, you’ll be sent to prison! 3”

“After thinking for a while, Gu si continued, “Then what do you think of the idiom ‘flies ensnare dogs’?” ”

““Miss Gu!” Jamila said with a straight face, “I’m seriously informing you now. Please be more serious. Otherwise, don’t blame me for being impolite! Some opportunities only come once. Once you miss it, there won’t be a second time!” ”

““Ha,” gu si snorted. “Then I’d like to see how impolite you are!” ”

“Jamila narrowed her eyes, which were filled with a layer of hostility.”

“Gu Si was about 1.65 meters tall. Facing the tall and strong Jamila, she was still a little stunned. If Jamila really hit someone, she wouldn’t be Jamila’s match. Fortunately, this was a coffee shop.., gamila probably wouldn’t dare to make a move! ”

“”Gamila Smith, this is China. If you dare to touch a single hair on my head, you can forget about walking out of China!”Gu Si stood up from her chair. Although she wasn’t as tall as Gamila., her aura didn’t lose out to Gamila at all., “Although I, Gu Si, am not born into a proper family, nor am I more politically aware than Liu Yuan, I know one thing! I can not betray my country or my team at any time! I am not only a Chinese in this life, but I will also be a Chinese in my next life and my next life! Do you know what it is like to poach someone? It is called the behavior of a villain! With a villain like you in C Nation, no wonder you have never been able to develop!” ”

“Gu Si loved her country very much. Although she was not Liu Yuan and was not as outstanding as Liu Yuan, one day, she and Liu Yuan would be equally matched. ”

That was:

A patriotic heart.

She was very glad that she could be born in a loving and powerful country.

“At the moment, China was in the midst of development. As the son and daughter of China, Gu Si was very glad that she could contribute to the great rejuvenation of her country. At such a time, how could she betray her country? ! ”

“Jamila was really provoked. His eyes were red, the veins on his face were bulging, and he was so angry that his whole body was trembling. ”

He had never thought that one day he would be fooled by a Chinese.

“At this time, Jamila could not control herself. She raised her hand and was about to hit Gu si. ”

“Looking at Jamila’s raised right hand, Gu Si was stunned. She had never thought that Jamila would attack in public! ”

“Jamila was taller than her, stronger than her, and stronger than her. ”

“It was over, it was over. This time, she would definitely be at a disadvantage. ”

“There should be surveillance cameras in this coffee shop, right? ”

Gu Si was already thinking of calling the police.

“One second, two seconds. ”

“Time passed by minute by minute, but the slap that she had imagined did not fall. ”

Gu Si opened her eyes and saw that a slender figure had appeared beside her.

“It was a very simple white shirt and black pants. Her long hair was tied up into a bun and tied at the back of her head, revealing a fair and beautiful swan neck. The second button of her shirt was not buttoned, and one could vaguely see the beautifully curved collarbone hidden in the collar, looking up from the collarbone, one would see a thin chin, dark red lips, a fair and jade-like oval face, a high nose bridge that was as sharp as a knife, and a pair of soul-captivating Phoenix eyes. ”

“Her eyebrows were like a painting, and she was devastatingly beautiful. ”

“Gu Si was stunned at first, then a smile appeared on the corner of her mouth, and she said in surprise, “Miss Ye!” ”

“Ye Zao pinched Jamila’s hand and twisted it hard. Then, he used force and pressed Jamila’s head on the coffee table.”

The whole process was so cool that it made people want to scream.

“Jamila was stunned. Stars appeared in front of her eyes, and she wanted to break free from ye Zao’s confinement, but she could not use any strength.”

“Not only was Jamila a technologist, she was also a martial arts practitioner. She had not met an opponent for so many years, but today, she was actually pressed down on the coffee table by a little girl!”

Wouldn’t it be a disgrace if this were to spread?

No!

She could not do this!

“Jamila struggled with all her might, but she still did not move an inch.”

“Ye Zao held Jamila’s head with one hand and lifted the coffee cup on the table with the other. Then, he poured the boiling hot coffee on Jamila’s face. “You have such guts? Do you really think that there is no one else in China?””

“Ah!”Jamila shrieked from the scalding coffee.

Ye Zhuo looked back slightly and looked at Gu si. “Call the police.”

“Gu Si was stunned for a moment. Then, she quickly took out her phone and called the police. “Yes, Miss Ye!””

The police arrived very quickly and brought the three of them to the police station.

“Jamila’s nationality was in country C, and Gu Si was from the research base in China. Jamila couldn’t poach her, so she attacked Gu si. This was a very serious international problem. Facing Jamila, it would be a prison sentence.”

Chapter 1748: 360: Great Scorch will make a move and send you straight to jail! 4

“After coming out of the police station, Gu Si looked at ye scorch. “Miss Ye, thank you for today!” ”

“”You’re welcome.”Ye Scorch’s eyes were indifferent. “If it were anyone else today, I wouldn’t have stood by and watched.” ”

“After saying that, Ye Scorch looked at Gu si and continued, “Worker Gu, you’ve made my eyes light up today. There will be a reward for your efforts. If you persevere, your future will definitely be bright!” ”

“Actually, Ye Zhuo had noticed Jiamila and gu si the moment they came in. He hadn’t said anything all this while because he wanted to see what Gu Si would choose. ”

“Jiamila’s treatment was very good. Very few people could resist that kind of temptation, but Gu Si had done it! ”

“”Thank you, Miss Gu!”Gu Si was very excited and bowed to ye Zhuo. ”

“Work hard.”Ye Zao patted Gu si on the shoulder and turned to leave.

“Gu Si looked at ye Zao’s back, her eyes full of determination. ”

“She would definitely work hard and not let ye Zao Down. For a moment, Gu Si was filled with hope for the future.”

On the other side.

“Jamila had never thought that because of Gu Si’s matter, he would be sent to prison!”

He never thought that he would fall into the hands of a Chinese.

Jamila knocked on the iron window.

“I want to see my lawyer!”

Dr. Cara must have a way to get him out!

Definitely!

“On the other side, when Tina brought Feng Ying to China, she received the news that Jamila was in prison.”

Tina frowned.

How could this be?

“She had only been away for a few days, how could Jamila go in?”

“In this situation, Tina could not go directly to the prison to visit Jamila. She could only ask Cara.”

“On the other end of the computer screen, Cara lit a cigar and said slowly, “I already know about this.””

“Cara had many spies. Almost as soon as Jamila went in, Cara received the information.”

““What should I do now?”Tina continued, “Do I need to bail Jamila out?” ”

“Not for the time being.”Cara flicked the ashes on the cigar. “I’ve already arranged for Roger to come over. You and Roger can cooperate with each other for the rest of the matters.”

Tina frowned slightly. “What about Jamila?”

“To Cara, Jamila was already a useless pawn. However, she still had to do enough to maintain her reputation. She could not leave any evidence behind. ”

“Carla looked up at Tina, then, she said, “Jamila and you are both my right-hand men. Naturally, I will not abandon him. Don’t worry, I will do everything I can to save him. “The most important thing for you and Roger now is to bring back the National Treasures of the Song dynasty and Gu Si.” ”

“Okay.”Tina nodded.

“After hanging up the video, Tina closed her computer and went to Feng Ying’s room. ”

“Feng Ying was on the phone with her friends in China. When she saw Tina coming over, she immediately hung up the phone and looked back at Tina. “Miss Tina.” ”

“Tina nodded. “When are you going to visit your grandmother, Miss Feng?” ”

“Feng Ying said, “Tomorrow.” ”

““Sure,”Tina continued, “I’ll say it again. Whether or not Miss Feng can take the position of vice-minister of the International Fashion Department will depend on your performance this time.” ”

The Minister of the International Fashion Department?

“Hearing this, Feng Ying’s eyes lit up. “Miss Tina, don’t worry. I’ll definitely get the Jade.” ”

“Okay.”Tina nodded.

“After saying that, Feng Ying continued, “But Miss Tina, are you really sure that my grandmother has the Jade?” ”

She grew up in front of the old lady and had never heard of any national treasure of the Song dynasty.

““Yes, I’m sure.” ”

Feng Ying nodded. “As long as you’re sure that there’s such a thing.”

“The old lady only had one granddaughter. Not to mention the National Treasure of the Song dynasty, as long as she wanted it, even if she wanted the old lady’s life, the old lady would give it to her with both hands. ”

“Although the National Treasure of the Song dynasty sounded quite valuable, Feng Ying never cared about money. She only wanted to enter the international fashion department and become the leader of the International Fashion Department. It was her lifelong dream! ”

“As long as Carla could make her a deputy minister, she was willing to do anything! ”

“Early the next morning, Feng Ying arrived at the villa with bags of nutritional products. ”

“When she saw Feng Ying, Auntie Wu thought she was seeing things! ”

This!

This is Feng Ying!

Why Is Feng Ying Back?

“Feng Ying didn’t come back to fight for the property, did she? ”

What should she do now?

Wu’s face turned pale!

“What are you waiting for! Where is my grandmother?”Feng Ying looked up at the villa.

“Chapter 1749: 360: Great Scorch, sent straight to jail! 5”

“Auntie Wu finally reacted and said with a smile, “So the eldest miss is back! Please come in, the old lady hasn’t woken up yet.” ”

Feng Ying nodded and went in with Auntie Wu.

“Yang Ting was sitting in the dining room eating breakfast. When she saw Auntie Wu come back with a person, she asked curiously, “Mom, is there a guest in the house?” ”

““What nonsense are you spouting! This is the old lady’s granddaughter!”After saying that, she looked at Feng Ying with a smile. “Miss, please don’t mind her. This is my daughter, Yang Ting!” ”

Yang Ting was completely dumbfounded!

Didn't they say that the old lady's granddaughter was overseas?

Why was she back?

Why was she back at this time?

Was she back to snatch the property?

Feng Ying frowned slightly. "Why do I feel that the two of you treat this place as your own home?"

"No, no!" Auntie Wu quickly explained, "Miss, you've misunderstood. We have no such intention! It's the old lady who is afraid of the dark and loneliness. That's why she asked the three of us to move in and live with her! "If you don't like it, we'll move out immediately!" "

"Feng Ying continued, "I'll come back to accompany Grandma in the future and be filial to her. You guys should move back quickly!" "

The Feng family's villa was not for the servants to live in!

"Feng Ying was the old lady's granddaughter and the owner of the family. At this moment, even if Auntie Wu was unwilling, she could only nod her head. "Alright, eldest miss, I understand. Don't worry, we will move out immediately." "

"Yang Ting stood at the side, feeling extremely uncomfortable. She had thought that she would be able to turn things around this time and become the eldest miss of a rich family! "

Who would have thought!

Who would have thought that Cheng Yaojin would suddenly appear out of nowhere.

“This Feng Ying was really shameless. Usually, she did not come out to show filial piety. Seeing that the old woman was about to die, she came out to fight for the family property!”

Wasn't it disgusting?

““Move out today!”Feng Ying's face was stern as she sized up Wu Sao and her daughter, “Don't think that I don't know what you are thinking! A servant is a servant, and you want to become a Phoenix on the branch? You're daydreaming! You don't even have the slightest self-awareness! “My Grandmother has me, her biological granddaughter. No one can take advantage of this!” ”

““Miss, don't worry. I'll move out today!” ”

Feng Ying glanced at Auntie Wu and turned to walk upstairs.

“Looking at Feng Ying's back leaving, Yang Ting was extremely uncomfortable. She walked to Auntie Wu's side and said, “Mom! What should we do now? Are We really going to move out?”The fat that was in her mouth was snatched away just like that, yang Ting was really unwilling!”

““If we don't move, can we still stay here?”Auntie Wu's face was also filled with depression. She continued, “Quickly go and greet your father! Let him be mentally prepared!” ”

Yang Ting nodded and could only nod.

Her mother was right. This was the Feng family. They couldn't just stay here!

Feng Ying came to the third floor and knocked on the door.

“Perhaps she didn't expect someone to come so early, but no one answered for a long time. ”

It wasn't until Feng Ying found the key and was ready to open the door that the door opened from the inside.

“It had been decades since they last met. The old lady seemed to have aged a lot. If she hadn’t grown up in front of the old lady, Feng Ying wouldn’t dare to recognize her. ”

She couldn’t believe that this was the grandmother who had raised her since she was young.

“”Grandma, Grandma,”Feng Ying said with a choked voice. ”

“Looking at Feng Ying who was standing in front of her, the old lady was a little stunned. “You, you, you are Xiao Ying?” ”

“”It’s me! Grandma, I’m Xiao Ying!”Feng Ying cried out in pain, she hugged the old lady. “I’m sorry, I’m sorry, Grandma. I’m sorry. I shouldn’t have not come back to see you for so long! Grandma, I’m Sorry!” ”

The scene of the grandfather and grandson meeting was a little touching.

The old lady’s face was also full of tears.

“”It’s good that you’re back. It’s good that you’re back.”After a long while, the old lady finally controlled her emotions and continued, “Xiao Ying, you’re not going to C country this time, right?” ”

Not going to C Country?

How could that be!

“Feng Ying continued, “Grandma, I came back to take you there to enjoy life together. My mother has left, and you’re the only family I have now!” ”

“Hearing this, the old lady’s expression immediately changed. ”

“”So, you are going back to C Nation?” ”

“Feng Ying nodded. “Grandma, don’t worry. I Won’t leave you alone this time. I will take you back with me.” ”

“You can go.”The old lady withdrew her hand. “Just pretend that I never had a granddaughter like you!”

“Seeing this, Feng Ying was stunned. She thought that Feng Qi’s saying that the old lady didn’t want to go to C country was just an excuse. She didn’t expect that the old lady really didn’t want to go! ”

Chapter 1750: 360: Great Scorch goes to jail! 6

“At the same time, Tina’s voice came through the earpiece. ”

“Hearing this, Feng Ying narrowed her eyes, she immediately changed her words, “Grandma, if you don’t want to go to country C, then I won’t go either. I’ll stay at home to accompany you. Don’t worry, I won’t be like my mother and let you stay in China alone.” ”

“The old lady’s expression changed when she heard this. She continued, “Really?” ”

““Of course it’s true! Grandma, when have I ever lied to You?” ”

““Okay.”What did people fear most when they were old? Loneliness, of course! The old lady was relieved when she saw that Feng Ying was willing to stay in China. ”

“At this moment, the old lady seemed to have thought of something. She looked at Feng Ying and continued, “You have to promise me one more condition.” ”

““Grandma, please say that as long as I can do it, I will definitely promise you!” ”

“The old lady continued, “You have to promise me that you will never leave China! You can not betray China! You are born a Chinese, and you will die a Chinese soul!” ”

Feng Ying hesitated.

“After a moment, she said, “Okay Grandma, I Promise You!” ”

““Then swear,”the old lady looked at Feng Ying and said, “If you follow in your mother’s footsteps, you will be struck by lightning!” ”

Feng Ying was forced into a corner by the old lady. She could only raise her fingers and swear.

What was there to be afraid of?

“It was already the twenty-first century, and the city had installed lightning rods. Could she really be struck by lightning? ”

“Seeing Feng Ying swear, the old lady was finally satisfied. ”

“Feng Ying smiled and said, “Grandmother, are you relieved now? By the way, are you up now? I’ll help you freshen up.” ”

“Okay.”The old lady nodded.

“Feng Ying followed the old lady into the house and helped the old lady change her clothes, wash her face, and comb her hair. ”

The 89-year-old old lady’s hair was almost completely white. Feng Ying held the old lady’s hair and felt a little sad.

“After all, the old lady was the one who raised her single-handedly. ”

“Grandma, you were the one who combed my hair when I was young. Now it’s finally my turn to comb your hair,” Feng Ying continued, “I haven’t made any great achievements overseas, and I’ve been too ashamed to come back to see you. Don’t be angry. Don’t worry, Wang Hu, I’ll never leave you for the rest of my life.” ”

Feng Ying didn’t lie.

“All these years, she had always been the same. If Feng Qi hadn’t sent her money, she wouldn’t even have been able to maintain her basic food and clothing.”

“It wasn’t that she didn’t have talent in design, but that she lacked talent and appreciation.”

“Therefore, this time, she must seize the opportunity and seize it well. Only when she stood high up could she see far ahead. When she became a high-ranking official, she wouldn’t have to look at others.”

The old lady sighed. “The past is in the past. It will get better in the future.”

“Okay.” Feng Ying smiled at herself in the mirror and said, “By the way, grandma, Can I use this clip to clip your hair? Or this one?” ”

“The old lady smiled and said, “Any one will do.” ”

“Then this one.” Feng Ying picked up a red flower-shaped hair clip and said, “I think this red one suits your skin color best.” ”

“The old lady was a beauty when she was young. Although she was old now, her temperament was still there.”

“Beauty lies in the bones, not in the skin.”

“Okay.” The old lady nodded. “Xiao Ying, what’s that on Your Ear?” ”

“Headphones, listening to music,” Feng Ying explained. ”

“OH.”

“In order to avoid suspicion from the old lady, Feng Ying took off her headphones and continued, “Grandma, I’m not listening to music anymore. I’ll accompany you to have a good chat and make up for the past ten years.” ”

“The old lady continued, “Xiao Ying, have you had a family overseas these years?” ”

“No,” Feng Ying continued, “You’re my only grandmother. If I had a family outside, how could I not inform you?” ”

Marriage was no longer popular among young people in the west.

They lived together and solved each other’s biological needs. There were no financial disputes and no children.

Feng Ying liked this kind of life very much.

“She did not like being tied down and did not like children. Other than pursuing her ideals, this was also the reason why she had always lived abroad. ”

“You are not young anymore. Why don’t Grandma Get Someone to help you look for someone?”The old lady continued.

“No need, grandma. I just want to be filial to you now. I don’t want to think about anything else.” ”

“Hearing this, the old lady’s mouth was full of smiles. She continued, “There’s no conflict between being in a relationship and being filial. If you have this intention, grandma will be satisfied.” ”
