

Almighty D 2391

Chapter 2391: 501: Humiliate Yourself! 1

“Bai Mo, you can’t go back. ”

“Although the voice wasn’t loud, Bai Mo heard it just in time. ”

Bai Mo’s pupils constricted and she looked back.

She saw Liu Chao appear behind her at some point in time.

“What do you mean?” Bai Mo subconsciously felt that things weren’t that simple.

“Liu Chao continued, “Didn’t I say it before? In the future, you can only be like me and be an ordinary person on Earth.” ”

Bai Mo had always looked down on Earthlings.

She felt that all Earthlings were inferior.

“Now, she was unable to return to the s galaxy and could only live on Earth forever. To her, it was worse than death. ”

“”It’s You! It’s you who hid the interstellar shuttle, isn’t it! Liu Chao! I think you don’t want to live anymore!” Bai Mo glared at Liu Chao. ”

“The corners of Liu Chao’s mouth curled into a mocking smile. “Bai Mo, don’t you understand what’s going on now that things have developed to this point?” ”

“Liu Chao was an ordinary person in the s galaxy, and Earth was no exception. ”

How could he have the ability to hide the interstellar shuttle?

Bai Mo was stunned.

It was ye Zhuo.

It had to be ye Zhuo.

Ye Zhuo had taken her shuttle.

What should she do now?

She couldn’t stay on Earth forever.

She had to return to the s galaxy.

“Bai Mo tried her best to calm herself down. She turned to look at Liu Chao, then, she said, “Liu Chao, as long as you tell me where the interstellar shuttle is, I can let bygones be bygones! I can even bring you back to the S Galaxy so that you can live a life that ordinary people envy.” ”

“”Bai Mo, do you think I’ll believe your nonsense again?”Liu Chao said angrily, “If it weren’t for you, I wouldn’t have become like this!” ”

Liu Chao would never forget what he looked like when he first came to Earth.

He had even slept with a group of rats.

“He was born on a high-class planet and enjoyed the most advanced technology. Once he came to Earth, he was like a Yuanmou Person and was very unfamiliar with everything on Earth.”

No one knew how much pain he had suffered during that time.

“At that time, he still didn’t know that the mastermind of all this was Bai Mo..”

He had always treated Bai Mo as his savior.

“Now that he thought about it, he was simply extremely stupid.”

“Bai Mo continued, “Liu Chao, trust me one more time! In the past, I was young and ignorant. It was my fault. I shouldn’t have done that! Now That I’m Yours, a woman should treat her husband as heaven and her son as Earth. After we return to the s galaxy, we will immediately get married and have another child. Our family of three will live a happy life.” ”

“Although Bai Mo had fallen to such a state, her mind was still clear. She knew that she could not go head-to-head with Liu Chao at this time.”

She should be soft when she should be soft.

“Rather than infuriating Liu Chao, it was better to let Liu Chao have a bright future.”

“After all, at this time, the only person who could help her was Liu Chao.”

She was the daughter of the Bai family in the s galaxy. How could Liu Chao be worthy of her!

“When she reached the s galaxy, she would kill Liu Chao immediately!”

“It was undeniable that Bai Mo’s promise was very tempting. If it had been anyone else, they might have already wavered. ”

But Liu Chao would not.

“Because he would never forget the life he had first come to Earth, and now he had already adapted to life on Earth. ”

He did not think that Earth was worse than the s galaxy.

“The people of the s galaxy felt that they were superior to others. In fact, their material life and spiritual life were far inferior to Earth’s. ”

“Compared to the distant s galaxy, he preferred life on Earth. ”

The people of Earth were more flesh and blood than the people of s galaxy.

““I forgot to tell you that on Earth, we are already a legal couple,”said Liu Chao. ”

Liu Chao’s biggest wish was to get married and have children.

Bai Mo had a good appearance and figure. She was a good choice for a wife.

“What did you say?”Bai Mo’s face was full of disbelief.

A legal couple?

She and a lowly person like Liu Chao were a legal couple?

How was that possible!

It couldn't be!

Bai Mo's stomach churned and she almost vomited.

It was so disgusting.

“Looks like you've forgotten, but it doesn't matter. You just have to remember that from now on, you'll be my Liu Chao's person in life and my Liu Chao's ghost in death.”

He wanted to torture Bai Mo for the rest of his life and make her pay the price.

“Bai Mo stood there, her face extremely pale. At this moment, she suddenly thought of using the chip in her body to contact the emergency contact of the s galaxy.”

She had two emergency contacts in total.

“One was her mother, and the other was Bai Yuanyuan.”

“According to the time calculation, her mother should still be at the gambling table at this moment, so it was definitely impossible to contact her mother.”

Chapter 2392: 501: Self-humiliation! 2

“Therefore, she could only contact Bai Yuanyuan.”

“With this thought in mind, Bai Mo hurriedly rolled up the sleeve on her left wrist and pressed the button on her watch.”

“However, the familiar activation sound did not ring out.”

What was going on?

Bai Mo’s face became paler and paler.

“Haven’t you noticed a problem?” Liu Chao continued to speak.

“Hearing this, Bai Mo immediately looked up at Liu Chao.”

“Liu Chao continued, “Your Chip was destroyed. From now on, you, Bai Mo, no longer exist in the S Galaxy.” ”

Bai Mo immediately raised her hand to touch her collarbone.

“In the next second, all the blood in Bai Mo’s body instantly flowed backwards.”

It was gone.

It was really gone.

What should she do now?

“If she didn’t have the chip, even if she found the interstellar shuttle, she wouldn’t be able to return.”

“In the s galaxy, every baby would have a chip implanted into their body from the day they were born.”

This chip would accompany the baby's entire life.

"If something happened midway, the chip would disappear along with the host, and the host's information would disappear from the s galaxy's database. "

Where was her chip?

"In that instant, Bai Mo panicked. She walked to Liu Chao's side and grabbed his collar tightly. Her facial features were twisted to the extreme. "What did you do to me? Liu Chao! Do you believe that I'll kill you? !" "

Liu Chao did not retaliate against Bai Mo. he just stood there.

Bai Mo became angrier and angrier. She reached out and grabbed Liu Chao's neck.

"Liu Chao, who had not retaliated at all, flung Bai Mo away at this moment. "

Bang.

Bai Mo was thrown to the ground. Intense pain came from her body.

It was extremely painful.

"Liu Chao looked down at Bai Mo and said, "Bai Mo, wake up. You're no longer the high and mighty second miss of the Bai family." "

"After saying that, Liu Chao turned around and left. "

Bai Mo looked at Liu Chao's back with a vicious look in her eyes.

Wait!

“She had to make Liu Chao pay. Bai Mo clutched the sand on the ground tightly. Because she had used too much strength, her knuckles were slightly white.”

Liu Chao was not worried at all that Bai Mo would run away.

“Besides him, Bai Mo had no one else to rely on on Earth. She could not run away at all.”

“Unless, Bai Mo wanted to live the life that he had lived before.”

“Spending all his time with rats, he could not bear to see the light of day.”

...

On the other side.

Lin Ze and Bai Jingshu’s wedding was successfully completed.

Bai Jingshu went to find ye Zhuo and asked about Bai Mo’s situation.

“Ye Zhuo told Bai Jingshu the truth. “Bai Mo is already an ordinary person now. She will no longer have any relations with the s galaxy. Sister-in-law, just pretend that you never had this cousin.” ”

People like Bai Mo should be cut off from each other and never have any contact with each other again.

“Otherwise, she would regret it for the rest of her life.”

“After listening to Bai Mo’s experience, Bai Jingshu sighed. ”

“After all, Bai Mo was once such a proud person. Now that she had fallen from the clouds, she would definitely not be able to accept it. ”

“However, this was all Bai Mo’s retribution. ”

She would not be Mr. Dongguo either.

“”Alright, I understand.”Bai Jingshu grabbed ye Zao’s hand. “Zao, thank you. If it wasn’t for you, I really wouldn’t know how to handle this matter.” ”

Bai Jingshu was different from ye Zao.

Ye Zao was decisive and never hesitated.

“”We’re all one family,”ye Zao said. ”

“Seeing Bai Jingshu like this, Ye Zao was somewhat gratified. ”

“She was most afraid that Bai Jingshu was the kind of person who was indecisive. If that was really the case, then this matter would not be handled properly. ”

“Fortunately, it was not. ”

Bai Jingshu had a clear distinction between gratitude and resentment.

“Bai Jingshu continued, “Your brother and I have already completed the wedding. When are you and Mr. Cen going to organize it?” ”

“When the time comes, it will naturally be done,” ye Zao said with a smile. ”

Bai Jingshu nodded. “You’re right.”

“Ye Zao continued, “Bai Mo will probably look for you again in the near future. Sister-in-law, you should know what to do, right?” ”

“Don’t worry,” Bai Jingshu continued, “Zao, don’t worry. I definitely won’t drag your brother down.” ”

“Ye Zao smiled and said, “Oh right, sister-in-law, when are you guys going to hold a baby? I think dad and mom can’t wait any longer.” ”

“Upon hearing this, a bashful expression appeared on Bai Jingshu’s face. ”

“Let nature take its course.”

“Ye Zao said, “Does that mean that you and my brother won’t use contraception?” Ye Zao was a doctor, so when he said this, he didn’t feel that there was anything wrong with it. However, Bai Jingshu was different. Although she was already married.., she was already a married woman, but she was still a little shy to discuss these private matters with outsiders. ”

Chapter 2393: 501: asking for humiliation! 3

“A moment later, Bai Jingshu said, “No.” ”

“In any case, a child had to be born sooner or later, so there was no need to take any measures. ”

“Ye Zao smiled. “Alright, I’ll tell my parents to prepare themselves mentally.” ”

“At that moment, ye Zao’s phone rang.”

“Ye Zao picked up the call and his expression changed slightly. “Alright, I’ll be right there.” ”

“After hanging up the phone, Ye Zhuo turned to look at Bai Jingshu. “Sister-in-law, there’s something I need to go to the base right away.” ”

Bai Jingshu nodded. “Then hurry up and go! Don’t delay the important matters!”

“”Okay.”Ye Zhuo put away his phone and continued, “Help me tell mom and Dad That I won’t be home for dinner later.” ”

“Okay.”

Ye Zao jogged all the way to the parking lot.

“Her driving skills were very good. In addition, a lot of things had happened at the base. It would have taken her half an hour to get there in ten minutes.”

Chi —

“After a burst of brakes, the car stopped steadily at the entrance of the base.”

“In a moment, the car door opened and a slender figure leaned out of the car. It was against the light, so her face could not be seen clearly.”

Ye Zhuo had just gotten out of the car when another Black Land Rover stopped.

“A few seconds later, Cen Shaoqing walked out of the car.”

“Leader.”

Ye Zhuo looked at Cen Shaoqing. “You received a call too?”

“When he received the call, Cen Shaoqing was setting up the marriage proposal venue. He did not want to come, but something had indeed happened that he had to come. ”

“En.”Cen Shaoqing caught up with Ye Zhuo’s footsteps. “Let’s go in and take a look first.”

Ye Zao nodded slightly.

“After entering the base, the two of them changed into their lab coats and walked into the lab. ”

“Before they entered, they saw a group of people in lab coats discussing among themselves. ”

“When they saw the two of them enter, they immediately made way for them. ”

““Miss Ye, master five!” ”

“What’s going on?”Ye Zao asked.

“Dr. Zhang immediately stood up, “It’s like this. We’ve detected single-celled organisms from the alien debris sent from L continent. The most incredible thing is that in just three days, these single-celled organisms have already evolved into multi-celled organisms, and they’re still evolving at a speed visible to the naked eye! “We’re worried that if this continues, things will turn out to be out of our control!” ”

Extraterrestrial life was full of danger. No one knew what these things would evolve into.

What if they were the nemesis of mankind?

“Tens of thousands of years ago, dinosaurs could go extinct once, so it was very likely that mankind would go extinct again. ”

“Hearing this, Ye Zhuo frowned without leaving a trace. “Where are the things?” ”

“Here.”Dr. Zhang immediately led ye Zhuo and Cen Shaoqing to the laboratory table.

“These single-celled organisms could only be observed with a microscope, but now, even without a microscope, they could still be seen. ”

“CEN Shaoqing continued, “Immediately inform the LZHOU scientific research base to stop the research and destroy these things immediately!” ”

“Dr. Zhang’s prediction was right. If these organisms continued to evolve, the situation would become uncontrollable. ”

They had to be destroyed immediately.

“Ye Zao looked at these things with an unpleasant expression. He added, “Use potassium carbonate to destroy them.” ”

“Okay.”

“Soon, these alien creatures were destroyed. ”

“Ye Zao was still worried, so he personally went to check them. ”

He only heaved a sigh of relief after he confirmed that there were no problems.

“Seeing ye Zao like this, professor Zhang continued, “Miss Ye, are these creatures scary?” ”

“Ye Zao’s red lips parted slightly, “If we don’t stop them, this will be a disaster for China and the whole world.” ”

“It’s that serious?”Professor Zhang was a little surprised.

“He had expected that these creatures were not simple, but he did not expect the consequences to be so serious. ”

“Ye Zao nodded slightly, “Professor Zhang, it’s a good thing that you discovered it early and reported it in time.” ”

“Professor Zhang continued, “The growth rate of these alien creatures is too terrifying, that’s why I feel that something is wrong. I’m going to check if LZHOU has received any notice and ask them to quickly destroy it!” ”

““Go,”ye Zao said. ”

Professor Zhang immediately walked out.

Lzhou.

Research base.

“The person in charge of the base was sitting in his office, listening to the report from his assistant. He raised his eyes slightly and continued, “This is from China?” ”

““Yes, Mr. Mario.” ”

“Mario turned the thumb ring on his index finger and narrowed his eyes, “The Chinese have always had a lot of thoughts, especially that YC.” ”

Chapter 2394: 501: Self-humiliation! 4

YC had created the first aircraft carrier and created an oasis on Mars. It was now an existence that no one could surpass.

China had once become the number one technological power.

“If they wanted to surpass China, they had to create a legend in the scientific research community that would make everyone’s eyes shine. ”

L continent had been silent for a very long time.

“This time, they would definitely be able to raise their heads in front of the entire world. ”

“”Then what do you mean?”The assistant looked at Mario, unable to guess what he was thinking. ”

He did not know how to deal with the rest of the matter.

“Mario continued, “Continue with the experiment. Don’t bother about those people.” ”

“Hearing this, the assistant hesitated, he continued, “It was professor Zhang who personally contacted us. He said that this single-celled organism is extremely terrifying. In just three days, it has evolved into a multi-celled organism. If we don’t dispose of it in time, it will be a disaster.” ”

“This was an unknown extraterrestrial organism. Furthermore, this was an earth that was rich in resources. If what Professor Zhang Said was true, then wouldn’t the people who participated in the experiment be finished? ”

“Scaremongering!” Mario laughed out loud. “Did YC really think that I would believe such nonsense?”

“From Mario’s point of view, ye Zao had made up such a ridiculous story because he wanted to keep these precious resources for himself. ”

Did he really think that she was a three-year-old child?

That she was so gullible?

“The assistant continued, “But Dr. Zhang Said...” ”

“Hearing this, Mario’s expression instantly changed. He raised his head to look at the assistant. “You don’t have to come over tomorrow.” ”

This sudden sentence caused the assistant to be dumbfounded.

“”Mr. Mario, I...” ”

“Just as the assistant was about to explain, Mario continued, “I don’t need a traitor here!” ”

Mario had always been like this.

Suspicious.

Unable to listen to his persuasion.

“Especially now that he felt that he had found a way to surpass China, how could he be willing to give up?”

“The assistant clearly knew Mario’s character and continued, “Yes, sir.” ”

“After saying that, he turned around and left. ”

“Looking at the back of his assistant, Mario picked up the phone on his desk and made a call. ”

“Very quickly, the call was connected. ”

“Mario continued, “Keep an eye on Guinevere.” ”

“Yes.” A respectful voice came from the other end.

“Mario did not accept the opinions of the Chinese, causing a huge sensation in the laboratory. ”

“After all, Ye Zao’s status in the scientific research world was not something that an ordinary person could compare to. ”

“Furthermore, the phrase ‘disaster’ was not something that could be casually said. ”

“Since ye Zao had said so, there must be a reason behind it. ”

“At that moment, the higher-ups of the laboratory were split into two factions. ”

“One was in support of ye Zao, while the other was in support of Mario. ”

Mario arrived at the scene.

“Immediately, a doyen walked over to Mario’s side, with an excited expression, he said, “Mr. Mario, I think what Dr. YC said makes sense. These extraterrestrial creatures are already unknown. Now that they have evolved so quickly, if they are allowed to develop, the situation will definitely become serious!” ”

Mario’s face was filled with disdain.

“The elder continued, “Mr. Mario, please hurry up with this experiment! Don’t do anything that you will regret!” ”

“Of course, there were also those who objected, “I don’t think so! After all, YC belongs to China. What if she wants to keep it for herself?” ”

“After all, the L continent had also sent a sample to ye Zao.”

“Fortunately, Mario had a trick up his sleeve. He had sent everything to Ye Zao.”

“Therefore, even if it was ye Zao ”

“That won’t happen! Doctor YC isn’t that kind of person!”

“Although kading had not had much contact with ye Zao before this, through two experiments that had shocked the entire world, Kading was able to tell that ye Zao wasn’t that kind of person who schemed against others.”

She did not even bother to do so.

“Mario turned his head, his expression a little strange. “That means you know a lot about YC?” ”

“Mr. Mario, it’s not a question of whether we understand or not!” Keating continued, “It’s what Dr. YC said that makes sense! “While we can still destroy these cells, hurry up and destroy them. You have to know that we simply can not afford to take this risk!” ”

L continent was just a small island.

It was surrounded by the sea.

“If anything really went wrong with the experiment, it would be an irreparable situation! ”

“Therefore, they had to nip the danger in the bud from the very beginning. ”

“Mario continued, “Keating, what do you mean by this?” ”

Chapter 2395: 501: Self-humiliation! 5

“Keating said, “Destroy those alien creatures immediately!” ”

“Mario laughed out loud, “I think you’re a spy sent by YC!” ”

“Mr. Mario! Please wake up. If something really happens, none of us can bear the responsibility!” Keating frowned deeply. ”

“Mario faced the crowd and said, “All of you, those who support Kading, stand on the left. Those who support me, stand on the right.” ”

“After saying that, the crowd began to discuss among themselves, before consciously standing on the left and right sides. ”

“After all, Mario was the highest leader of the base, so there were quite a few people who supported him.”

“Furthermore, there were only a few people who supported Kading.”

These people were all old colleagues of Kading and had worked for many years.

“Just like Kading, they saw a crisis in the calm.”

“If things really reached a point where they couldn’t control themselves, there would be no turning back.”

“Mario continued, “Since ancient times, the minority has followed the majority. Now, I announce that the experiment continues!” ”

Kading was so anxious that his face had turned red. “Mr. Mario! You’ll regret it!”

“Mario looked at Kading and said, “If you’re not convinced, the door to the laboratory is right there. All of you can leave at any time!” ”

“Kading’s heart was filled with anger. He had worked at the base for decades. If he were to really leave, he would be a little reluctant to do so.”

“However, if he didn’t leave, he would be extremely depressed.”

“Mario continued, “Since you’re not leaving, then I have no objections. Meeting adjourned.” ”

“After saying that, Mario continued, “Nick, come to my office.” ”

Nick nodded and followed Mario's footsteps.

Everyone looked at Mario's back with a complicated expression on their faces.

"Kading turned around and said, "All of you have chosen such an outcome. You will definitely regret it one day!" "

"Dr. Kading, with your timid personality, you will never be able to achieve anything great!" "

"The expression on Dr. Kading's face was extremely complicated. He wanted to say something, but he knew very well that it did not make sense to these people, so he could only endure it. "

"Kading, what do we do now?" Jack walked to Kading's side and asked in a low voice. "

"Kading frowned and said, "Let's go back to the lab first." "

"Okay." Jack followed Kading's footsteps.

The group walked into the lab.

At the hua base.

Dr. Zhang had received the news that Lzhou was not willing to cooperate to destroy the alien creatures.

Dr. Zhang frowned slightly and immediately went to tell ye Zao the news.

"Hearing this, Ye Zao's expression did not change significantly. He continued, "Is the news reliable?" "

Dr. Zhang nodded. "It's very reliable!"

“Ye Zao continued, “Connect me to Mario.” ”

““Okay, Miss Ye, please wait a moment.”Dr. Zhang immediately went to make arrangements. ”

Mario did not find it strange at all when he received ye Zao’s invitation.

This was all within his expectations.

Did Ye Zao really think that he was an idiot? That he would fall for it.

“The assistant looked at Mario and asked, “Sir, do you want to contact Doctor YC?” ”

Mario nodded.

“Alright.”

The assistant immediately went to handle it.

“Very soon, Mario’s figure appeared on the other end of the screen. ”

“Ye Zao sat in his office. “Hello, Mr. Mario. I’m YC.” ”

Mario stood up from his chair. “Dr. YC.”

“Ye Zao did not beat around the bush and went straight to the point, he continued, “Mr. Mario, after testing, our laboratory discovered that your research base had sent over a biopsy sample that contained dangerous ingredients. We recommend that you use potassium carbonate to destroy it immediately! Otherwise, it will bring about a devastating blow!” ”

““Doctor YC, I know that you’re thinking about our L continent. I appreciate your kindness.” Mario smiled as he looked at Ye Zhuo, “However, none of us know the final result. Scientific research is a process of continuous research and hard work. If we don’t even have the courage to do research, how can we use scientific research to change the world?” ”

“Ye Zao had not even done any research, so how could he determine whether the result was good or bad? ”

He could not just rely on his mouth.

“Ye Zao was still young and could not hide anything. If she had used a different method, he might have been able to listen to her. ”

“However, ye Zao had said that there was something dangerous about it. Wasn’t this an alarmist? ”

Did he really think that he would be so easily fooled.

“Ye Zao’s expression did not change. “Mr. Mario, I hope that you can listen to my face carefully. If you don’t cooperate with me and destroy it, if you really end up regretting it, there’s no return button for you to press.” ”

Chapter 2396: 501: Self-humiliation! 6

““Please rest assured, Dr. YC.” Mario continued, “I, Mario, will never regret doing things.” ”

He would only regret if he really listened to ye Zao’s words.

“The more ye Zao stopped him from researching, the more he felt that extraterrestrial life forms carried special energy. Ye Zao definitely wanted to take possession of this energy for himself and create the third greatest miracle in the world. ”

This was simply the actions of a villain!

“Indeed, a villain had left China! ”

“Although ye Zao had already stood at the peak of the scientific research world, she still could not change the villain’s actions that were inherent in her bones. ”

“After saying this, Mario continued, “I am well aware of what Dr. YC means. To borrow a phrase from your country, we are all thousand-year-old foxes. There’s no need to play chat Zhai in front of each other.” ”

“The meaning of this sentence was already very clear, and it even carried a hint of provocation. ”

“However, Ye Zhuo was not angry, and he did not say much, “I have already brought the words to you. The slightest carelessness in the extraterrestrial life forms that have fallen from outer planets will bring about a disaster to humanity. As for whether or not to destroy them, the decision is entirely in your hands, Mr. Mario.” ”

“Fortunately, L continent was an island country. As long as they established a defensive line, it would not affect other countries. ”

“Mario smiled and said, “Please Rest assured, Dr. YC. If it really brings disaster to mankind, I, Mario, will take full responsibility!” ”

“”I’m just afraid that you won’t be able to bear it when the time comes.”Ye Zao’s tone was faint, but his voice was firm and powerful. ”

“Mario continued, “As for whether or not you can bear it, I won’t trouble Dr. YC to worry about it.” ”

“After saying that, Mario cut off the connection and cursed in a low voice, “What the hell!” ”

What a child!

“When he started his scientific research, there was no ye Zao on Earth!”

What right did ye Zao have to criticize him in front of him today.

Just you wait!

“One day, he would be as dazzling as ye Zao. He wanted to let everyone in the world know of his great name, Mario.”

Ye Zao immediately called an emergency meeting.

Mario did not agree to destroy the extraterrestrial life forms. The most important thing now was to contact the other countries to complete the defense work.

Ye Zao immediately contacted the leaders of the various countries’ scientific research bases.

“After learning of this news, the International Scientific Research Department immediately issued a statement.”

“For a moment, the topic of conversation exploded.”

[do any of you still remember the beautiful Europa Incident?]

“At that time, country C insisted on landing on Europa, but they paid a heavy price in the end.”

“If country C had listened to ye Zao’s words at that time, they would not have suffered such a huge loss.”

“However, not only did country C not listen to Ye Zao’s words at that time, but when they landed on Europa, they even secretly rejoiced and even mocked ye Zao for being timid. ”

The current L continent was the country C that had insisted on doing it.

“[I support Dr. YC. After all, this matter concerns the safety of all of humanity.] ”

[I support Dr. YC!]

[isn’t it just a few multicellular organisms? Is it as exaggerated as a disaster? Isn’t this a little alarmist?]

“[first of all, that is a type of organism that fell from outer space. None of us know what it will evolve into. Moreover, the international department also said that this single cell evolved into a multicellular organism in less than three days. What about three weeks later?]? What about three months later? What about three years later? What’s the difference between this and raising a Tiger?” ”

“”The analysis above is very correct. The Europa incident back then became an irremediable situation because country C did not listen to Dr. YC’s face. Hurry up and wake up, Izhou! Don’t do something that you’ll regret!” ”

“Most importantly, country C, who had always been the happiest, did not make a sound on this matter. However, they had always been on the same side as China. ”

Mario looked at the words of the international department with a disdainful expression on his face.

“These stupid humans, just wait! One day, they would regret their actions on the Internet. ”

“At that time, he would let everyone know that no one from L continent could match up to them. ”

There was also C nation.

“He had thought that C nation would be different from other countries. After all, C nation had always had good taste. He had not expected C nation to be in cahoots with ye Zao this time. ”

“As expected, each generation was getting worse and worse! ”

“With country C being like this, how would they be able to stand up again? ”

It looked like they would have to depend on their continent in the future.

“Mario picked up the microphone and continued, “Speed up the progress of the experiment!” ”

He wanted to let everyone see the most effective results of the experiment in the shortest amount of time!

““Mr. Mario, you... you should come over and take a look.”A flustered voice came from the other end of the microphone. ”

Chapter 2397: 501: asking for humiliation! 7

“What’s going on?”Mario asked with a frown.

“You’ll know when you come over.”Another voice came from the other end.

“Mario frowned slightly. After hanging up the phone, he immediately rushed to the laboratory. ”

“Ten minutes later, Mario appeared at the entrance of the laboratory. ”

“When his assistant saw him, he immediately rushed over. “Mr. Mario, please come over quickly.” ”

Mario followed in his assistant's footsteps.

The two of them came to the experiment platform.

Mario was completely stunned when he saw the exotic beast trapped in the middle of the glass cover.

"He saw that the exotic beast was covered in disgusting mucus. It had three heads and five claws, but it only had two heads."

"What is this?"

"Mario had never seen such a strange thing before, and was instantly stunned."

"The assistant gulped and continued, "This is the alien that evolved from the shape of the falling object."

"What?" Mario narrowed his eyes.

"The assistant continued, "Just, just 10 minutes ago, it was only the size of a sesame seed. I, I just turned around and it, it, it became like this!" "

"How can this be?" Mario also felt that it was strange. He stood in front of the glass cover and carefully observed it.

"The assistant continued, "Doctor, do you think that it would..." "

"In less than ten minutes, a creature the size of a fly had turned into the size of a bird. If it continued to evolve at this rate, would it turn into the size of a dinosaur?" "

Or even bigger?

The assistant did not even dare to think about it!

No Wonder Ye Zao suggested destroying it.

“At this moment, Mario pressed his index finger to his lips and made a silent gesture. “Shh.” ”

The assistant immediately shut up.

Mario bent down and took out the lighter he carried with him. He lit a piece of paper and threw it into the glass cover.

“He had thought that the exotic beasts would be afraid of fire. Who knew that just as the burning fire was about to fall on the exotic beasts, a transparent barrier suddenly appeared in the air, blocking the burning fire. ”

“Furthermore, the moment the fire touched the barrier, the barrier actually split into pieces. ”

It was obvious that the strange beast had absorbed the fire and converted the fire into energy.

“Seeing this scene, Mario’s eyes were filled with excitement. ”

“He knew that this fallen alien creature must contain some mysterious energy. If not, ye Zao would not have come up with a plan to destroy it. ”

“Compared to the excitement in Mario’s eyes, the assistant was almost scared to death. His eyes were filled with fear, and his entire body was trembling. ”

How could there be such a strange creature.

This creature reminded him of the strange beast on Europa.

“Mario continued, “Bring the liquid nitrogen.” ”

The assistant was still in a state of panic and did not say anything.

“Mario repeated, “Bring the liquid nitrogen.” ”

“Only then did the assistant come to his senses. He nodded and said, “Alright, Please Wait a moment.” ”

“With that, the assistant hurriedly jogged over to look for the liquid nitrogen. ”

“Very soon, the assistant returned with the liquid nitrogen. ”

““Doctor, liquid nitrogen.” ”

“Mario reached out to receive it, then injected the liquid nitrogen into the glass cover. ”

“Under normal circumstances, any living creature would be frozen the moment they came into contact with the liquid nitrogen. ”

“However, the exotic beasts within the glass cover didn’t have any. ”

“Not only did they not have any, they were abnormally active. ”

“The white liquid nitrogen flickered with a strange blue light, looking somewhat terrifying. ”

“It seemed that although the exotic beasts weren’t afraid of liquid nitrogen, they weren’t able to absorb it. Just as Mario was about to withdraw the liquid nitrogen, the white smoke in the glass cover suddenly began to decrease, and it was getting lesser and lesser.”

Only when the white smoke had completely disappeared did Mario see that all the liquid nitrogen smoke had been sucked into the mouths of the exotic beasts.

“Furthermore, the exotic beasts were already much larger than what could be seen with the naked eye.”

This was a little terrifying.

Who would have thought that these exotic beasts weren’t afraid of fire or ice? They were even able to absorb the energy from ice and fire.

“Right at this moment, Mario seemed to have thought of something as he continued, “Go get the potash.” ”

Ye Zao had said that he would use potash to destroy the objects that had fallen. This meant that the exotic beast was afraid of potash.

“Indeed, when the term potash was captured, the exotic beast that had been baring its fangs and brandishing its claws immediately shrank back into the glass cover.”

Mario’s eyes were filled with astonishment. So this exotic beast could actually understand human speech.

That was even better!

“The assistant had also noticed the strange behavior of the exotic beast, and immediately trotted over to get the potash.”

“Mario took the potash and tightly sprinkled a bit of powder inside. The exotic beast hiding in the corner began to squeal. Most importantly, Mario had also noticed that when the powder was sprinkled on the exotic beast’s body., the Strange Beast’s body had shrunk by several times. ”

So the potassium carbonate was really effective against Strange Beasts!

“The Strange Beast gave Mario, who was holding the potassium carbonate, a pleading look. ”

“Mario guessed that the strange beast should be able to understand human speech. He continued, “Let’s make an exchange. You give me the energy I want, and I’ll let you evolve smoothly.” ”

“Hearing this, the strange beast immediately nodded. Furthermore, it had three heads. ”

“Mario immediately retracted his hands and continued, “I want a perpetual motion machine.” ”

The exotic beast nodded its head.

“As long as they had a perpetual motion machine, L continent would be able to build a flying machine that could surpass the speed of light. ”

“First it would be a flying machine, then an aircraft carrier. He would let the world see the progress of L continent one step at a time. ”

“Seeing the exotic beast like this, Mario nodded his head in satisfaction. Holding the potash in his hand, he said, “Then let’s work together happily. Otherwise, I won’t be able to hold the potash in my hand firmly.” ”

The Strange Beast continued to nod its head.

“It clearly had a disgusting appearance, but at this moment, it was even more obedient than a cat. ”

“The assistant, who had been a little afraid, was no longer afraid. In fact, he even felt some sympathy for the strange beast. After being targeted by someone like Mario, it was likely that he would only be able to be used as a test subject in the future.”

“Mario placed the potash back into the bag. Looking at his assistant, he continued, “Send someone to keep an eye on it 24 hours a day.” ”

“Alright.”His assistant nodded.

“After saying that, Mario turned around and left. After taking a few steps, he stopped in his tracks and turned to look at the exotic beast before continuing, “Ten Days? Ten Days is all I can get to see the perpetual motion machine?” ”

The exotic beast immediately nodded its head.

The corners of Mario’s mouth curled up in a satisfied smile before he turned around and continued walking out.

“Ye Zhuo and Cen Shaoqing took a flight overnight to the international research department. Together with the top experts from all over the world, they researched and established a defensive line. After more than six hours of discussion, they confirmed the final plan.”

Country C and a few other countries even withdrew their embassies stationed in LZHOU overnight.

Many countries that cooperated with lzhou also directly canceled their cooperation with lzhou.

“When Mario heard the news, he wasn’t angry. Instead, he laughed out loud.”

Just wait!

“When he got the perpetual motion machine, even if those blind people kneeled on the ground and begged for cooperation, he wouldn’t spare them a second glance.”

“Right now, China was dominant in the world of scientific research and lacked a counterbalance.”

“Now, the counterbalance had appeared out of nowhere, but they did not know how to cherish it.”

Idiots!

They were all idiots!

...

On the other side.

Bai Mo had been wandering on the streets for two days.

“In these two days, she had not eaten a drop of water. Her face was pale and she was in dire straits.”

She refused to admit defeat!

She absolutely could not admit defeat!

“At this moment, Bai Mo walked to the side of a trash can. When she saw that half a large pancake had been thrown away by the trash can, she subconsciously swallowed her saliva.”

“In the past two days, Bai Mo had been so hungry for food from outside the door.”

“In the next second, without waiting for her reaction, she rushed over, picked up the pancake, and began to devour it.”

It was not until she finished half of the pancake that Bai Mo broke down and cried.

Chapter 2398: 502: the expected result! 1

Bai Mo's strength seemed to have been sucked away in an instant.

She cried so much that she could not control herself.

She did not understand why she had come to this point.

She was clearly born into a noble family and was the favored daughter of heaven.

Why would fate play such a joke on her.

"After crying for a long time, Bai Mo finally stopped. She raised her head and looked at the people coming and going, her eyes filled with sorrow."

She was born noble. When had she ever experienced such a thing.

"Although it was only a few days, she had experienced the darkest things in her life."

The current her could not go back to the s galaxy.

Earth... seemed to have no place for her.

What should she do?

“At this moment, Bai Mo thought of Liu Chao.”

Should she really give herself to Liu Chao?

No.

She wasn't willing.

“But if she didn't look for Liu Chao, she had no other choice.”

“She didn't have an ID card, no household register...”

“Bai Mo sat on the ground in a daze. In the end, she decided to look for Liu Chao.”

Finding Liu Chao was better than starving to death.

“As long as she was alive, there was hope of returning. As long as she returned to s galaxy, she could take revenge.”

She couldn't die.

She absolutely couldn't die.

“Although her parents didn't know that she had come to Earth, Bai Yuanyuan knew that if Bai Yuanyuan found out that she couldn't contact her, she would definitely tell her parents. At that time, she could return to the s galaxy.”

“As long as she could return to the s galaxy, what was the point of enduring humiliation?”

“The great ancestor of the Ming dynasty, Zhu Yuanzhang, was once a beggar when he ascended to the throne.”

“Thinking of this, Bai Mo stood up from the ground and walked towards the intersection.”

Liu Chao’s place was not far from here. It would take about half an hour to walk.

“Although it would only take half an hour to walk, Bai Mo was too tired and walked for about forty minutes before he reached Liu Chao’s place.”

The door was closed.

Bai Mo reached out and knocked on the door.

“Very soon, the door was opened from the inside.”

The person who opened the door was really Liu Chao.

“When Liu Chao saw Bai Mo, he was not surprised. “Have you thought it through?” ”

Bai Mo did not say anything and just nodded.

“Are You Mute?”Liu Chao continued to speak.

“Knowing that Liu Chao was deliberately trying to make things difficult for her, Bai Mo could only swallow her anger. “I’ve thought it through.” ”

“At this moment, Bai Mo did not expect that she would have such a day even in her dreams.”

Bai Jingshu!

“One day, she would make Bai Jingshu pay the price.”

“Liu Chao looked at Bai mo. “Since you know you’re wrong, shouldn’t you do something to show your sincerity?” ”

“What do you want me to do?” Bai Mo looked up at Liu Chao.

Liu Chao raised his hand and slapped Bai Mo’s face. “Who are you showing your dead face to?”

Slap.

“With a crisp slap, the right side of Bai Mo’s face turned red and swollen, and blood seeped out from the corner of her mouth. ”

It was very painful.

“Bai Mo bit her lip and wanted to resist, but she was nothing now, so she could only bite off her teeth and swallow the blood. ”

““I know I’m wrong,” Bai Mo continued. ”

Liu Chao nodded in satisfaction. “Come in.”

“Bai Mo followed Liu Chao’s footsteps. The two-bedroom, one-living room was no different from the last time Bai Mo came. ”

“Liu Chao sat on the sofa and said to Bai Mo, “Go and wash my clothes in the bathroom.” ”

WASH clothes?

Did Earth not even have a washing machine?

Bai Mo's eyes were filled with disbelief.

"Seeing that Bai Mo did not move for a long time, Liu Chao continued, "Bai Mo, are you deaf?" "

"Bai Mo was stunned and instantly reacted. "I, I know." "

"After saying that, she walked into the bathroom. "

"Bai Mo's body was delicate and precious. Other than the suffering she had suffered on earth these past few days, she had not personally done anything. "

How could she know how to wash clothes?

"Moreover, Liu Chao's clothes were dirty and smelly. "

"Although Bai Mo was extremely unwilling, she had already fallen to such a state. She could only continue to endure humiliation and live. "

"Anything that she did not know how to do, when she was forced into a corner, she could only never show up. "

Bai Mo found the laundry detergent and imitated what she saw on the television. She started to do the laundry.

"After doing the laundry with great difficulty, Liu Chao thought about sitting on the sofa to rest for a while. Then, he said, "I'm hungry. Go and Cook." "

This Bai Mo really did not know how to do it.

“Bai Mo looked at Liu Chao. “I, I don’t know how to do it.” ”

“Liu Chao continued, “If you don’t know how to cook, then come with me. I’ll teach you how to cook noodles. From now on, cook a bowl of noodles and fry an egg every morning.” ”

Bai Mo followed behind Liu Chao without saying a word.

Liu Chao walked into the kitchen and began to teach Bai Mo how to cook noodles.

Chapter 2399: 502: predictable result! 2

“It was easy to cook the noodles. All one had to do was boil the water, add the noodles, boil it again, add some oil and salt, and sprinkle some chopped green onions on it. ”

“However, frying an egg was a little difficult for Bai Mo because if one was not careful, the egg would be fried. Not only that, the oil in the pot would also spill out. ”

“Liu Chao finished frying an egg. After he scooped it out, he gave the pot to Bai Mo and said, “You try frying one.” ”

Bai Mo nodded and imitated Liu Chao. She raised the pot to boil the oil and then knocked an egg into it.

“The moment the egg was placed in the pot, the hot oil instantly exploded. ”

“Bai Mo was so scared that she turned white and screamed. However, Liu Chao, who was eating noodles in the living room, ignored her. ”

Bai Mo had no choice but to think of a solution herself.

“Five minutes later, Bai Mo brought out a fried egg.”

“Liu Chao continued, “There are still some noodles in the pot. You can eat them yourself. Don’t waste the eggs. Earth is not like the galaxy, and you are no longer the high and mighty second lady of the Bai family.” ”

“When she heard the last sentence, Bai Mo held the plate tightly. Because she used too much force, her knuckles had turned slightly white.”

“Even though she was extremely humiliated, Bai Mo still smiled and said, “Okay.” ”

“After saying that, she turned around and went to the kitchen to get some noodles. Then, in front of Liu Chao, she ate the noodles and the failed fried egg.”

“Looking at Bai Mo like this, Liu Chao was a little surprised.”

He didn’t expect Bai Mo to be so tolerant.

It seemed that he had underestimated Bai Mo..

...

On the other side.

At the CEN Group’s base.

“Due to the changes in the continent, Ye Zhuo had been at the base for the past few days.”

“Miss Ye, it’s already the fifth day today, but there’s still no movement from L continent.” Worker Xu walked to Ye Zhuo’s side and continued, “Do you think that this time, it’s our cup bow and Snake Shadow?” ”

“If L continent really developed an invention that shocked the world this time, then wouldn’t they be the ones to be slapped in the face.”

Ye Zhuo stood in front of the experimental platform. “How’s the defense line coming along?”

Worker Xu nodded. “It’s almost done. I estimate that it will be completed in three days.”

Three Days?

“Hearing this, Ye Zhuo frowned slightly. “I can’t wait any longer. Try to complete all the defense systems by 12 o’clock Tomorrow.” ”

“Is it that urgent?” Worker Xu asked.

The originally three-day project was suddenly reduced to one day. Such a huge workload was not just for show.

“If this order was given, one could imagine how the people below would react. ”

“Ye Zao continued, “It’s not that there’s no movement in L continent. It’s just that those ignorant people mistook danger for peace.” ”

“Seeing ye Zao like this, worker Xu did not dare to delay. He nodded and said, “Then I’ll do it right away.” ”

“Go.” Ye Zhuo continued, “Activate the fast flying machine. I will arrive at the scene with you.” ”

“You will go too?” Worker Xu was a little surprised.

“Ye Zhuo nodded slightly. “At the critical moment, I will advance and retreat together with everyone.” ”

“Okay.” Worker Xu immediately went to inform everyone.

“Fifteen minutes later, everyone gathered on the Flying Machine. ”

“Although the speed of this aircraft was not as fast as the speed of light on an aircraft carrier, it could still reach a speed of 6,000 kilometers per hour. Because Earth’s energy was limited, ye Zhuo rarely used the aircraft unless it was a critical moment. ”

“Although they could use the aircraft carrier to land on the eight planets to obtain energy, excessive harvesting would cause an imbalance in the Solar System’s energy supply. ”

“In less than an hour, the aircraft landed in the critical mangrove forest of Izhou. ”

The defense line had to be established in the mangrove forest.

“It was equivalent to a transparent glass cover, directly covering Izhou and isolating it from the other countries. ”

The conditions in the mangrove forest were not very good. Ye Zao walked beside a group of men without any hesitation. He could even support his exhausted assistant.

“After inspecting the mangrove forest, ye Zao and the others returned to the nearby base and worked overtime with the technicians from various countries to build a defensive line. ”

“Dr. YC is really amazing!”

““Sometimes, I even think that she is a man.” ”

“I have the same illusion.”

“ ... ”

The leaders of the various countries' bases stood outside the laboratory and looked at the busy backs of Ye Zao and the others. They could not help but sigh.

Even men probably did not have ye Zao's creativity.

They saw a miracle in this little girl.

“If a miracle had a name, it would definitely be Ye Zao. ”

“Not long after, footsteps came from outside the door. ”

Chapter 2400: 502: predictable result! 3

“Fifth Master.”Someone called out in the air.

“The others also turned around at this time. As expected, they saw Cen Shaoqing walking over and greeted him respectfully. ”

“He was wearing his lab coat as he walked into the laboratory. In a low voice, he asked, “Is Miss ye inside?” ”

“Miss Ye is.”

Cen Shaoqing did not say anything else and continued walking inside.

“When everything was almost done, ye Zao realized that Cen Shaoqing had arrived. He took off his mask and asked in surprise, “When did you come?” ”

““It’s been almost three hours,” cen shaoqing continued, “I saw that you were in a good state, so I didn’t call you.” ”

“This was ye Zao’s charm. As soon as she entered the laboratory, she would immediately enter a good state. No one could influence her. ”

“Ye Zao continued, “Now that we’re almost done with our work, shall we go out and eat something?” ”

“Yes.”Cen Shaoqing nodded slightly and followed ye Zao’s footsteps.

“Although it was only a temporary base, a rest room had been built. ”

“At this time, there were already many people sitting in the lounge eating. ”

Ye Zhuo sat on the chair and waited for CEN Shaoqing to get the food.

“From Ye Zhuo’s angle, he could just see Cen Shaoqing queuing up. ”

“He did not use his privilege. Instead, like everyone else, he queued up to get the food. ”

“However, his aura was strong. Even though he was hidden in the crowd, people could still see him at a glance. ”

“After waiting for about ten minutes, CEN Shaoqing walked over with food in his hands. “There’s no more pickled fish. I’ve ordered a super spicy red blood curd.” ”

“Recently, Ye Zao had been especially obsessed with pickled fish. Whenever he went to eat, he would order pickled fish. ”

“Okay.”Ye Zao nodded slightly.

Cen Shaoqing placed the food on the table one by one.

“Because they were all small portions, CEN Shaoqing ordered a variety of dishes. ”

“There were hairy blood curd, cold-mixed fern root powder, fried chicken, mapo tofu, and so on. ”

There were also two desserts.

“Ye Zhuo took out disposable chopsticks and continued, “When did you know that I was coming?” ”

“You still have the nerve to say that? Why didn’t you tell me that you were coming to Lzhou?”Cen Shaoqing raised his eyebrows slightly.

“Indeed, Ye Zhuo did not have the time to inform Cen Shaoqing. He touched his nose guiltily and said, “I saw that you were quite busy.” ”

Cen Shaoqing picked up his cup and took a sip of water. “It’s alright. I’ve already finished what I needed to do.”

He had originally planned to prepare a proposal after he was done with what he was doing. Who knew that such a thing would happen halfway through.

His plans could not keep up with the changes.

“At the thought of this, Cen Shaoqing’s eyes dimmed and he continued to drink. ”

Why was it so difficult for him to get his hands on a beauty?

“Ye Zhuo picked up a piece of fresh duck blood and placed it in Cen Shaoqing’s bowl. He then said, “The duck blood cooked by the chef is very delicious. You should try it too.” ”

Duck Blood?

“Cen Shaoqing instinctively resisted, but he still picked it up and tasted it. ”

“Ever since he got together with Ye Zhuo, he had started to eat almost everything. ”

“The taste was not as bad as he had imagined. It was very similar to tofu, but it was much more tender and smooth than tofu. ”

“Is it good?”Ye Zhuo asked.

Cen Shaoqing nodded slightly. “It’s not bad.”

“After the defensive line was established, Ye Zhuo had the international department issue a statement. ”

“From today onwards, if the people of L continent wanted to leave the island, they could take a boat and leave immediately. When the strange beasts of L continent reached a point where they could no longer control them, they would seal off the exit. ”

“After this statement was issued, it immediately caused a huge uproar in L continent. ”

People wanted to flee the island.

“Of course, most people said that they believed in Mario and wanted to work with L continent.”

“So, 100,000 people left L continent that day.”

“Mario thought that the people of I continent would believe him unconditionally. When he saw that nearly two-thirds of the people left the island, it would be a lie to say that he didn’t feel anything.”

“However, he wasn’t too sad.”

“One day, these people would know that his choice wasn’t wrong.”

There was always speculation behind success.

Mario stood up from his office chair and walked towards the laboratory.

“Just as he arrived at the laboratory, he heard a roar.”

Mario didn’t find it strange and continued to walk in.

He saw that the three exotic beasts that were only the size of birds a few days ago were now the size of elephants.

“Because they had three heads, they looked extremely terrifying.”

“Hearing Mario’s footsteps, the exotic beast immediately turned around and knelt down on one knee with its head lowered. Like a pet dog, it begged Mario to pet it.”
