

Almighty D 2401

Chapter 2401: 502: the expected result! 4

“Mario touched the head of the exotic beast symbolically before continuing, “How much longer until the perpetual motion machine is ready?” ”

The exotic beast blinked its eyes.

“Three days?” Mario asked.

“Hearing this, the exotic beast blinked again.”

“Mario continued, “If I don’t see the perpetual motion machine in three days, I’ll turn you back into a single-celled organism.” ”

“Hearing these words, the exotic beast was so frightened that its entire body was trembling.”

Mario’s eyes were filled with satisfaction.

“After so many days of research, Mario had long since grasped the ins and outs of the exotic beast.”

“Although this exotic beast wasn’t afraid of anything, potassium carbonate was its nemesis. As long as the potassium carbonate was sprinkled on its body, the Beast’s reminder would shrink by a fold. And so on. As long as the amount of potassium carbonate was sufficient., the exotic beast would change from its current appearance into the most primitive single-celled creature.”

“Therefore, as long as he firmly grasped this point, he would be able to control the exotic beast, allowing it to use the energy within its body to create the perpetual motion machine that he wanted.”

“Of course, what Mario wanted was far from just the perpetual motion machine.”

“He even had the ambition to dominate the world. After all, the energy of the exotic beast was endless.”

“However, when Mario was feeling pleased with himself, he didn’t notice that a complicated expression flashed across the Strange Beast’s eyes.”

This kind of expression wasn’t something that a strange beast should have.

“The moment the assistant raised his head, he happened to see this scene. His heart trembled, and an inexplicable fear ignited in his heart.”

““Bo, Doctor...”the assistant stammered.”

Mario turned around impatiently. “What’s Wrong?”

“The assistant continued, “It, it seems to be a little, a little abnormal...” ”

It was extremely abnormal. It was just a strange beast. How could it have such a gaze.

“Mario asked impatiently, “What’s abnormal about it?” ”

““Its, its gaze is abnormal.”The assistant looked at Mario. “Doctor, its gaze is too terrifying! Let’s hurry up and destroy it!” ”

“Hearing these words, Mario’s anger rose from the bottom of his heart. It was fine if others didn’t believe him, but now the assistant didn’t believe him either ”

“Scram! Get Out of my base right now!” Mario pointed outside and said.

“The assistant was very anxious, because he really saw it. “Doctor, Listen to me. I really saw it just now. It’s definitely not a creature that we can control!” ”

That gaze of his instantly caused the assistant to think of two words.

Disaster.

Ye Zhuo was definitely not scaremongering!

Mario did not allow anyone to doubt him at this moment. He immediately sent people over to pull the assistant out.

The assistant was left outside the experimental base. He was stunned for a long time before he seemed to have thought of something. He immediately stood up and ran in the direction of his home.

“Today was the last day that other countries would open to Lzhou. If he missed this day, he would never be able to leave the island again. ”

There were still three hours before the exit would open.

He had to gather all his family and friends within three hours and leave Lzhou immediately.

“With this thought in mind, the assistant quickly ran to the parking lot and sped all the way home. ”

“Just as the car stopped outside the house, he saw his mother and sister fixing the lawn. ”

“”Jerry! Why are you back at this time?”When his mother saw Jerry’s car, she immediately put down the lawn mowing machine and quickly trotted forward. ”

“Jerry got out of the car and said as he walked, “Mom, Hurry up and pack your things with your sister. We’ll set off immediately! I’ll call the others!” ”

His mother was a little puzzled. “What’s wrong? Where Are We Going?”

Why did he suddenly want to leave.

Jerry didn’t have time to explain to his mother. “You go pack your things first. Pack all the important things. We’ll set off in half an hour.”

“His mother wanted to ask more questions, but Jerry’s sister, Amy, came over and said, “Mom, let’s go pack our things First!” ”

“Jack worked in the laboratory base in L continent, so he knew a lot of things that ordinary people didn’t know. Now that Jerry suddenly wanted to leave, he must have his own reasons. ”

“Okay.”His mother nodded and followed Amy to the room.

“When Jerry came to the room, he sent a group message to his family and friends about leaving l continent. He was worried that they wouldn’t be able to see him, so he called them one by one to inform them. ”

“While he was on the phone, Jerry didn’t stay idle either. He started to pack up his things. ”

“There were too many things. He couldn’t bring everything with him, so he had to bring his valuables with him. ”

“Half an hour later, Jerry arrived at the door. His mother and sister had already packed up everything and put it into the commercial car. ”

An eight-seater business car could hold a lot of things.

His mother looked at Jerry. "Now you can finally tell me why. Why did we suddenly leave?"

"I'll tell you when we get out."

"Okay." His mother carried the dog and sat in the back seat.

Amy got in the back seat as well.

"Jerry put his things in the back seat, then went to the driver's seat and drove away. "

"As he drove away, he looked back at the house he had lived in for more than twenty years. He didn't know if the house would still be there the next time he came back. "

"The next second, Jerry started the engine and drove away. "

"The car was moving very fast. Fortunately, there weren't many people on the road, so Jerry arrived at the ferry very quickly. "

"He still needed to get a certificate when he went out. Today was the last day, and those who were supposed to leave had already left, so there weren't many people at the entrance to get a certificate. The family of three successfully got a certificate. "

"Just as they were getting a certificate, they saw that their cousin's family had also come over to get a certificate. "

“Their cousin, Elena, was still a little skeptical about this matter. “Jerry, are you sure we really have to leave? I heard that if we stay in L continent with Dr. Mario, we can receive a subsidy of 1,000 yuan a day!” ”

“In I continent, the average person’s income was less than 100 dollars a day. ”

“One could imagine how tempting a subsidy of 1,000 dollars was. ”

““We have to leave,” Jerry said very seriously. “Otherwise, when you want to leave, it will be too late! The exit will be closed soon!” ”

“After saying that, Jerry continued, “What about cousin Mark and the others?” ”

“Elena continued, “Of course he’s staying at home to receive his allowance!” ”

“Wasn’t the reward of 1,000 dollars worth worth of money fragrant? ”

“Because of Mario’s policy, many people who had already left had returned to L continent. ”

Jerry frowned slightly. “Didn’t he receive my message?”

““Yes,” Elena continued, “But he doesn’t want to leave. You should know him. He treats money like his life! Moreover, he doesn’t believe what you’re saying at all! “To be honest, I don’t believe what you’re saying either. If there’s really danger, would Dr. Mario be an idiot?” ”

“To the people of L continent, Mario’s actions weren’t small. ”

Gerri picked up his phone and dialed Mark’s number.

“Very soon, the call was connected. Mark’s sloppy words came through. “My dear cousin, may I ask why you’re looking for me?” ”

Jerry went straight to the point. "Pack your things and leave L continent immediately."

"Mark on the other end of the phone was probably eating something, he said with a lisp, "You Guys Go! I want to see what kind of monster would bring disaster to L continent. If there really is such a monster, then it can only be blamed on my bad luck!" "

"You will regret it!" Jerry frowned and said, "You have no idea how terrifying that thing is!" "

"Don't worry, cousin, I won't regret it!" Mark finished an apple and continued, "I have an appointment in the afternoon. I Won't talk to you anymore. Goodbye, Cousin." "

"After that, Mark hung up the phone. "

Gerri frowned.

"Elena smiled and said, "Then, are we still leaving?" "

"Yes!" Gerri put his ID card in front of the car window.

Elena followed Jerry's footsteps.

"When the group of people were driving on the ferry island, they saw that their relatives were already waiting at the exit. "

"Seeing Jerry and the others coming over, Jerry's aunt Karen immediately came forward to welcome them. "Jerry, what's going on? is what you said true?" "

Jerry nodded. "It's true!"

“Karen clasped her hands together. “God bless us, we must ensure that everyone is safe and sound.” ”

“After saying that, Karen realized that mark was not around. “Where’s Mark?” ”

“Jerry said somewhat helplessly, “He doesn’t want to come out.” ”

Karen covered her mouth in surprise. “Then what should we do?”

“Jerry shook his head. “With a word from China, we can only let him fend for himself.” ”

“Mark was not in a hurry at all. After hanging up on Jerry, he went to the bar. ”

“Although many people from L continent had left, these places were still lively, as if the things outside had nothing to do with this place. ”

Mark looked at the scene of singing and dancing in the bar and thought of what Jerry had said to him. The corners of his mouth were full of disdainful smiles.

Jerry was a coward.

He actually believed that kind of nonsense.

He did not believe that I continent would be in a desperate situation because of an unknown creature.

Chapter 2403: 502: predictable outcome! 6

“In the blink of an eye, the next day arrived. ”

“Mario was still asleep when he was woken up by someone. “Doctor, Doctor!” ”

“What’s Wrong?”Mario immediately woke up from his sleep.

“As time passed, the exotic beasts were also changing day by day to prevent any accidents from happening. Mario had been staying at the base for the past few days and had never returned. ”

““Doctor, please come over and take a look!”The deputy minister hurriedly pulled Mario away ”

Mario was still wearing his pajamas. He hadn’t even changed into his lab coat. How did he manage to follow him to the laboratory.

“At this moment, the laboratory that was originally used to lock up the exotic beasts had already collapsed. ”

The exotic beasts had also disappeared.

“Mario’s face turned pale as he immediately asked, “Where are the exotic beasts?” ”

“The deputy minister shook his head. “When I came over to take over this morning, this place was already in this State!” ”

“One had to know that Mario had arranged for ten people to take turns to watch over the exotic beasts. But now, how could these people disappear for no reason? ”

What had happened here?

“The deputy minister continued, “Right now, no one can contact them! Including their families!” ”

“What about the surveillance department? What exactly happened last night?” Mario followed up with a question.

“The Minister of surveillance walked out and looked at Mario, saying, “Doctor, the surveillance system is out of order.” ”

“What?” Mario asked in disbelief.

“The Minister of surveillance braced himself and replied, “The surveillance system is out of order. We didn’t manage to capture any powerful images.” ”

“Trash!” Mario had never expected that this would happen. He flung the glass bottle on the table away. “What a bunch of trash!”

The head and deputy head of the surveillance department were so frightened that their faces turned pale. They didn’t dare to say anything else.

“Mario pressed his temples and roared, “What are you still standing there for? Go and look for it! If you can’t find the exotic beast today, then don’t come back!” ”

The two of them were so frightened that they hurriedly turned around and left.

Mario’s head was in a terrible pain. He took out his phone and made a call. “Come to my office.”

“It was unknown what was said over there, but Mario hung up the phone and walked towards the office.”

“When he returned to the office, a young woman was already waiting. “Doctor.” ”

“Mario nodded and continued, “Track the location that was installed on the exotic beast the last time.” ”

“Hearing that, Joanna asked in surprise, “The beast... has disappeared?” ”

“Although Mario didn’t want to admit that he had lost control of the Beast, that was the truth. “Yes.” ”

Joanna frowned slightly. “How can this be?”

“Let’s find it first. It might just be a misunderstanding.” Mario still had a sliver of hope hidden in his heart.

Never in his wildest dreams did he expect that the beast would disappear one day.

“Hopefully, it was just a misunderstanding. ”

“Joanna walked in front of the computer and turned on the positioning system on the chip. After operating it for a while, she turned to look at Mario and said, “Doctor, we’ve successfully located the Exotic Beast.” ”

“Really?” Mario was overjoyed.

“Yes.” Joanna nodded.

“Mario immediately asked, “How far away is it from us?” ”

““It’s nearby,” Joanna replied. ”

“Hearing this, Mario heaved a sigh of relief. ”

It was good that it hadn’t gone far.

“If it hadn’t gone far, it meant that the exotic beast hadn’t escaped. Something must have happened. ”

“Mario continued, “Where is the exact location?” ”

“Joanna zoomed in on the computer screen and continued, “It’s at 265 West Avenue.” ”

Mario nodded. “Then we’ll set off immediately.”

“At this moment, they had all overlooked a problem. That was the huge size of the exotic beast. How had it managed to escape without making a sound. ”

“The L continent base was heavily guarded. However, when the House of the exotic beast collapsed last night, not a single person had heard a single sound. ”

Thinking about it was extremely terrifying.

Doctor Mario sat in the armored car and arrived at West Avenue.

The buildings on West Avenue weren’t very tall.

“If the exotic beasts were here, they would be easy to find. ”

“However, even when the armored car drove all the way to 265, there was still no sign of the exotic beasts. ”

“This time, Mario was a little flustered. He turned to look at Joanna. “Are you sure this is the place?” ”

Joanna immediately turned on her laptop and confirmed the location of the chip once more. She nodded her head with certainty. “I’m sure this is the place.”

“”But there’s really nothing here,” Mario said. ”

“Qiao na also felt that it was very strange. After all, she had seen exotic beasts before, and she knew their sizes... ”

“After a moment, Qiao na looked at Mario and continued, “Oh right, doctor, can exotic beasts shrink their sizes at will?” ”

Chapter 2404: 502: predictable outcome! 7

“Mario narrowed his eyes. “It’s possible, but it only shrinks its body when it’s in danger.” ”

“Joanna nodded. “That’s right. After all, the exotic beasts have been with you for a long time. They’re influenced by your thoughts and don’t want to scare ordinary people, which is why they shrink their bodies. Why don’t we get out of the car and have a look?” ”

Mario thought about it and it made sense.

“After all, he had tamed the exotic beasts for such a long time. It was normal for the exotic beasts to be influenced by him and subconsciously want to protect Earth. ”

Mario got out of the car with Qiao Na.

“Qiao na followed the GPS and walked to a house. “Doctor, this is the place.” ”

“This house?”Mario asked.

Joanna nodded. “Yes.”

Mario looked at the two bodyguards behind him. "Go in."

The bodyguards immediately pushed the door open and entered.

"Seeing that nothing had happened to the two bodyguards, Mario heaved a sigh of relief and followed them in."

"The owner of the house had long moved away. The house was empty, so quiet that only the sound of their footsteps could be heard."

"Lucy, Lucy!" Mario immediately called out loudly."

It was Mario who had given Lucy the name of the Strange Beast.

"The others also called out for Lucy, but there was still no response."

Mario turned to look at Joanna. "Is Lucy really here?"

"Lucy looked at the GPS watch and continued, "Let's go upstairs first. The GPS shows that she is in a room on the second floor." "

"Alright." Mario still let the bodyguard go up first.

"There were three rooms on the second floor. Joanna continued, "Go to the third room on the left." "

The bodyguard immediately pushed open the door.

"He had thought that he would be able to see the strange beast once he pushed open the door, but..." "

There was nothing.

The room was empty. There was nothing in it.

Joanna walked in and frowned slightly. "How Strange!"

The hope in Mario's eyes disappeared in an instant. "Lucy! Lucy!"

There were a few cabinets at the side. Joanna walked over and opened the door.

"However, the cabinets were also empty."

"At this moment, Joanna's gaze suddenly landed on a doll in the corner of the cabinet."

It was a very popular design from a few years ago. It was somewhat cute.

"However, no matter how Joanna looked at it, she felt that it was strange."

"Joanna gulped and reached out to pick up the doll. The moment she picked it up, Joanna felt that something was very wrong."

"This doll was very heavy, as if it had just been washed and not dried, but its surface was dry."

"Ah!"

"At this moment, a scream suddenly appeared in the air."

Joanna immediately turned around and saw that Mario's secretary was looking at her with a terrified expression.

“To be precise, he was looking at the doll in her hand.”

“Just as Joanna was about to speak, the expressions of the others beside her also became terrified.”

It was extremely terrifying.

“What’s Wrong?” Joanna asked.

“The, the floor...” the secretary said with a pale face.”

Qiao na looked down and her pupils dilated. She was so scared that she threw away the doll in her hand.

She saw that several eyeballs had been dug out from the floor.

They were stained with blood.

“Obviously, these eyeballs had fallen from the doll.”

Patter —

“At this moment, a piece of metal fell on the floor with a crisp sound.”

“Chip!”

“The deputy minister was used to bloody scenes, so he didn’t think much of it. Bending down to pick up the chip on the ground, he raised his head to look at Qiao Na. “Miss Qiao Na, is this the chip?” ”

“Qiao na received the chip with a trembling hand. Enduring the nausea in her body, she said, “Yes, it’s this.” ”

This chip had clearly been installed into the body of the exotic beast. How could it appear together with these eyeballs at this moment.

Could it be...

“Joanna suddenly thought of something and raised her head to look at Mario. “Doctor, these, these eyeballs should belong to those people who were on night duty last night.” ”

“Hearing this, Mario was also given a fright. ”

He had always thought that he could control the exotic beast...

Never Had he thought that this day would come.

What should he do now...

“If these eyeballs were really those people on the night shift last night, it meant that the exotic beast really couldn’t be controlled anymore. ”

“Thinking up to this point, Mario immediately looked at his secretary. “Quick! Quickly inform Ham and prepare more potash!” ”

“As long as he had potash in hand, he would be able to control the exotic beast. ”

“With this in mind, Mario calmed down slightly. ”

Things weren’t at the point of no return.

“Alright.”The secretary nodded and immediately contacted the base headquarters.

“After the headquarters received the news, they immediately began to prepare a large amount of potassium carbonate.”

“Mario lit up a cigarette, his mind in a mess.”

He didn't know what to do.

“Joanna continued, “Doctor, don't be anxious. Perhaps things aren't as bad as you think.” ”

“What do you mean?” Mario asked.

“Joanna replied, “The exotic beasts are huge. Even if they shrink in size, they won't return to their single cell state. If the exotic beasts were really out of control, the various regions wouldn't be as peaceful as they are now.” ”

“Mario narrowed his eyes and turned to look at Joanna, “So what you mean is?” ”

““The exotic beast might have self-destructed,” Joanna said.”

“Self-destructed?” Mario asked.

“Joanna nodded. “Yes. If it hadn't self-destructed, it wouldn't have been so quiet.” ”

“The L continent wasn't that big. No matter where the exotic beast hid, it would be discovered by others. However, there was still no news of it.”

“But how do you explain those eyes?” Mario asked.

“From a certain point of view, Mario actually didn't wish for the Exotic Beasts to disappear.”

“After all, he still needed to make use of the exotic beasts to create a perpetual motion machine.”

“Right now, everyone on Earth was waiting to see him make a fool of himself. If he didn’t come up with anything, wouldn’t he be sending himself to the door for everyone to slap his face?”

No Way.

Mario narrowed his eyes. He had to find the exotic beast!

“At this moment, Mario’s phone suddenly rang. Mario took out his phone and swiped it to answer the call. It was unknown what was said on the other end of the phone, but Mario’s expression suddenly became lively. “Really?” ”

“A moment later, Mario put away his phone and looked at Qiao Na. “Let’s go back!” ”

“Seeing how he was doing, Qiao na asked curiously, “Doctor, did something happen?” ”

“Mario continued, “Lucy has already gone back!” ”

Gone back?

Qiao na frowned slightly. Why did she feel that something wasn’t right.

Mario walked out excitedly. “Let’s hurry back!”

“Although Qiao na felt that it was strange, she didn’t think too much about it. She turned around and followed Mario’s footsteps. ”

“Before long, the car stopped at the entrance of the base. ”

Mario jogged all the way back to the laboratory. "Where's Lucy?"

"Doctor, you're finally back. She's over here. Follow me." The assistant came to Mario's side. "

Mario followed the assistant's footsteps and the two of them came to the west side of the laboratory.

The exotic beast had indeed returned.

"At this moment, the exotic beast was leisurely playing with fire in a special cage. "

"When it saw Mario, the exotic beast seemed to recognize him. It immediately stood up and let out an excited roar. "

"Lucy!"

Mario was very excited.

"However, despite his excitement, Mario still felt that something was wrong. "

The exotic beast seemed to have changed a lot.

"Although it still had three heads, it just felt different. "

"Are You Lucy?" Mario asked.

The exotic beast immediately nodded.

Mario frowned slightly and turned to look at his assistant. "Did it come back on its own?"

“Yes.”The assistant nodded.

Chapter 2405: 503: it's too late to regret! 1

The assistant found it strange that the exotic beast was able to return on its own.

“Logically speaking, the experimental base was like a cage to the exotic beast. It shouldn't have been able to return after escaping.”

“”Oh right, professor, there's also this.”At this moment, the assistant seemed to have thought of something as he handed Mario a black chip.”

Mario took the chip and frowned slightly. “What's This?”

“The assistant continued, “This was brought back by the exotic beast.” ”

“Mario looked at the expression in the chip's eyes. After a moment, he continued, “Pass this to doctor William.” ”

“Alright.”The assistant took the chip from Mario's hands and walked towards Doctor William's office.

Mario stayed where he was and observed the exotic beasts that had returned.

“He had a nagging feeling that there was something different about the exotic beasts, but he couldn't tell what it was.”

“Mario was looking at the exotic beasts, while the exotic beasts were tilting their heads and looking at Mario.”

The human and the exotic beasts were just looking at each other.

On the other side.

The assistant gave the black chip to doctor William.

“Dr. William took the chip and asked, “Did the exotic beast bring it back?” ”

“Yes.”

“Since the exotic beast brought something back, it couldn’t be studied with ordinary instruments. ”

Dr. William brought the chip back to the laboratory.

“Ten minutes later, a surprised voice came from the laboratory. ”

““Oh my God! Go and call Mario over! Oh, forget it. I’ll go find him myself!” ”

“Just as he said this, professor William ran out of the laboratory. ”

Professor William ran all the way to Mario’s side.

“Seeing him come over, Mario asked, “The results of the experiment are out?” ”

William nodded excitedly. “Yes.”

“What is it?” Mario asked.

“William continued, “Old friend, you definitely won’t be able to guess!” ”

“Mario was very curious. “What is it? Hurry up and tell me!”From William’s looks, it shouldn’t be any bad news. ”

Then what kind of good news was it?

“William adjusted his breathing and continued, “It’s the perpetual motion energy! Yes, old friend, you didn’t hear wrongly! We have a perpetual motion machine!” ”

What?

Perpetual Motion Machine?

“At this moment, Mario could hardly believe his ears. ”

Perpetual Motion Machine!

It was actually a perpetual motion machine!

Mario grabbed William’s shoulders tightly. “What did you say? Say It Again! What do we have?”

Was their L continent finally going to have their own perpetual motion machine?

“William said excitedly, “Perpetual motion machine! We have a perpetual motion machine!” ”

“At this moment, Mario was so happy that he almost cried. ”

That’s great!

That's really great!

"In his excitement, Mario hugged William tightly. "

"After a moment, Mario calmed down and continued, "Are you sure that it's a perpetual motion machine?" "

"Yes, I'm very sure!" William nodded his head firmly. "Follow me!" "

William pulled Mario towards the laboratory.

"Very soon, the two of them arrived at the laboratory. "

"William pointed at the glowing rotating object on the laboratory table and said, "Look!" "

"Mario looked in the direction that William was pointing at. At this moment, he was almost in tears and was extremely excited. "

He had waited.

He had finally waited.

"He knew that one day, he would have a perpetual motion machine. "

The two of them were very excited. They wanted to use it again. They even cried out loud.

This kind of feeling could only be understood by scientists.

This was especially so for Mario.

He was filled with mixed emotions now.

“From not being understood at the beginning until now, he had finally obtained a perpetual motion machine. His persistence had finally borne fruit. This made him especially excited.”

The perpetual motion machine had already come out. Was it still far from the days when those people’s faces would ache?

It wasn’t far.

Four years.

A whole four years.

China had stayed at the peak of no one for so long. It was time for them to roll down.

“To count the number of outstanding people, they still had to look at their continent!”

“Thinking of this, Mario’s eyes were filled with a bright light.”

“William turned his head to look at Mario and continued, “Old friend, you’re right! The exotic beasts can indeed bring us good fortune!” ”

“Where’s Keating?” Mario asked.

“”He should be in the C region laboratory,” William replied. ”

Mario’s lips curled into a smile. “Go and call him over.”

“Back then, Keating was the first person to oppose him.”

“As a person from L continent, Keating had actually publicly supported ye Zao.”

Such a person was simply a disgrace to the base.

“Now that the perpetual motion machine had appeared, he wanted to see how Keating would have the face to continue staying in the base.”

William knew what Mario meant and nodded. “I’ll send for him right away.”

Chapter 2406: 503: it’s too late to regret! 2

“Hurry up and go,” Mario said.

“About ten minutes later, Kading arrived.”

“Are the two of you looking for me for something?” Kading asked.

Kading was currently very busy.

“He was busy finding the fatal weakness of the strange beast, and was also looking for the reason why the Strange Beast had escaped.”

“With his back facing kading, Mario looked at the perpetual motion machine that was spinning. He then asked, “Do you know what that is?” ”

“Hearing this, Keating turned his head back and his eyes narrowed.”

This is...

Perpetual Motion Machine?

It was hard to imagine that he would be able to see a perpetual motion machine in the L Continent Laboratory in his lifetime.

Keating's eyes were filled with disbelief. He even suspected that he was dreaming.

"This... this..." Keating turned his head to look at Mario. "This is a perpetual motion machine?"

"Mario didn't expect Kading to be able to see through him with a single glance. The corners of his mouth curled up slightly. "That's right, this is a perpetual motion machine." "

It was really a perpetual motion machine.

This was too inconceivable!

Could it be related to the exotic beasts?

"Thinking of this, Kading narrowed his eyes. "

"If that was really the case, then things wouldn't be as simple as they seemed. "

"However, when the energy of the exotic beasts was so powerful that even their strength was unable to contend against them, it would be a calamity for mankind! "

"Recalling the defensive line that many countries had established near the L continent, the worry in Kading's eyes grew even more intense. "

Kading turned to look at Mario. "Is this the perpetual motion machine for the transformation of Exotic Beasts?"

"That's right," Mario continued, "Kading, didn't you support YC in the past to destroy it? "But now, not only did the exotic beasts not bring about any disaster, they even brought us the perpetual motion machine. Tell me, are you really a spy sent by China? ! "What exactly is the conspiracy behind your support for YC to destroy the exotic beasts?" "

There was only one thing on Mario's mind at the moment.

That was to drive kading out of the base.

A person like Kading simply did not have the qualifications to continue staying in the L continent base.

"I've devoted my entire life to the base. You know very well whether I'm a spy or not." Hearing that Mario suspected that he was a spy, Kading was extremely furious, he continued, "Mario, don't be happy too early! If the exotic beasts were really controllable, there wouldn't be such a thing as suddenly disappearing and suddenly returning! Don't you feel that everything is extremely strange?" "

Extremely Strange.

Kading also had a very strange premonition.

The exotic beasts would soon break free from everyone's control!

"Therefore, he had to nip everything in the bud when he could control it. "

"Thinking of this, kading calmed down a little, he continued, "Mario, think carefully. If it was so easy to get the perpetual motion machine, would YC have destroyed the exotic beast while it was still a single cell? The sudden disappearance of the exotic beast yesterday was a warning!" "

“At this point, Keating paused for a moment before continuing, “The most important thing for us now is to immediately clear up the tracks of the Beast Yesterday! What did it do during the period of its disappearance?” ”

Only by thoroughly investigating everything would we be able to know the true purpose of the Beast!

“Hearing Keating’s words, Mario immediately laughed out loud. “Keating, come and decide! Things have already come to this point, yet you’re still so obstinate! I think you’re a spy sent by China!” ”

“Even though the perpetual motion machine was out, Kading was still deceiving himself. ”

Did he really think that everyone else was as brainless as him?

“Kading continued, “Mario, there’s not much time left for us now! Do you know that the exit to the defense system has already been closed!” ”

“If the people of L continent wanted to leave now, it would be even more difficult than ascending to the heavens ”

Mario couldn’t be bothered with kading as he clapped his hands.

Pa Pa —

“Very quickly, two guards appeared in the laboratory. ”

“Mario continued, “Bring this base traitor down and lock him up.” ”

The two guards immediately controlled kading from both sides.

Kading looked at Mario in disbelief. “Are you crazy? What are you trying to do? I’m not a Spy!”

Mario turned around with a mocking look on his face. “Do spies have the word ‘spy’ engraved on their faces?”

Of course not!

Mario had already tolerated kading for a very long time.

“However, there had never been a suitable reason to arrest kading.”

“After all, Kading was an old man from the base.”

“If they really locked kading up, the others would inevitably be unconvinced.”

But it was different now.

He had used exotic beasts to create a perpetual motion machine!

What was a perpetual motion machine?

A perpetual motion machine was an invention that could cause a sensation all over the world.

“At present, other than China, there was no other country that could create a perpetual motion machine.”

Chapter 2407: 503: it's too late to regret! 3

“Mario! Let Go of Me!”Kading struggled with all his might. “I’m not a spy! You’ll definitely regret it if you do this!”

“Mario’s back was facing kading, and he didn’t say a word. ”

Regret?

The thing he regretted the most right now was sending a single cell sample of the exotic beast to China.

Kading was quickly brought out of the laboratory.

“William looked in the direction where kading had disappeared and frowned slightly. “Mario, isn’t it a little too much for us to do this...”. ”

“Although Kading had always opposed this experiment, his motive was still for the good of Izhou. ”

“Why? Do you want to plead on his behalf?”Mario turned to look at William.

“William continued, “After all, Kading is an elder of the base. I’m afraid that what you do will cause public outrage.” ”

“We have the perpetual motion machine now. What’s there to be afraid of?”Mario retorted.

“In such a huge base, could it be that there was still someone who could create a second perpetual motion machine? ”

“As long as there wasn’t one, they could only endure it no matter how displeased they were! ”

William took a look at Mario and did not say a word. The look in his eyes was a little complicated.

He had a feeling that Mario had changed a lot.

“Hopefully, these were all good changes!”

“Mario continued, “I’ll be out for a while. Take care of the perpetual motion machine.” ”

“Okay.”William nodded.

“After leaving the laboratory, Mario went over to the exotic beast’s side.”

“At first, Mario had felt that the exotic beast was a little strange.”

“But now, Mario didn’t feel that the exotic beast was strange at all.”

“Instead, he felt very amiable.”

“Lucy! Thank you!”

“To Mario, the exotic beast was his boie.”

“If not for the exotic beast, he wouldn’t be where he was now.”

The exotic beast seemed to be responding to Mario as it growled softly.

“Mario continued, “I still want to create an aircraft carrier that surpasses China, can I?” ”

“Now, a perpetual motion machine was no longer enough for Mario.”

The strange beast seemed to understand what Mario was saying as it nodded.

“Seeing this, Mario was very excited as he continued, “Can I really have an aircraft carrier that surpasses China?” ”

The strange beast nodded once again.

Mario was so excited that he almost jumped up from the ground.

“Soon, L continent would become an existence that surpasses the entire world.”

Mario was too excited. He did not notice the abnormal expression in the strange beast’s eyes at all.

Over here.

Kading was locked up in a small black room.

“The small black room was a completely enclosed space. No sound could be heard, and no light could be seen.”

“Kading squatted in a corner, his mind constantly studying the strange behavior of the strange beast.”

The current him couldn’t waste even the slightest bit of time.

Even if he was locked up in a small black room.

Mario announced the news of the perpetual motion machine to the world overnight.

Perpetual Motion Machine!

No one had expected that Lzhou would actually develop a perpetual motion machine.

“For a moment, the international department was in an uproar.”

Could it be that a second China was really going to appear out of nowhere?

“Before this, those neighboring countries that wanted to draw a line between themselves and Lzhou immediately withdrew their defense systems and approached Lzhou with a straight face to ask for peace.”

“In just two days, over a dozen countries had signed cooperation agreements with LZHOU.”

Mario had turned from a plague that everyone kept a distance from to a hot commodity.

“When some of the people who had already left Lzhou heard the news, they began to regret it and set out on a journey back to their country.”

Jerry’s mother was also one of those who regretted it.

“Jerry’s mother, Susan, was originally unwilling to leave the place where she had been born and raised. Now that Lzhou had announced such a big news, she began to pack her things and prepare to go back.”

“Seeing this, Irene immediately went to inform Jerry.”

“Hearing this, Jerry immediately rushed home to stop his mother.”

“”Mom, you can’t go back now!” ”

“Although Jerry didn’t know what the exotic beasts would turn into in the end, he had a feeling that returning to L continent at this time would be a decision they would regret for the rest of their lives.”

Susan looked at Jerry. "But I don't like this place! I didn't like it from the beginning!"

Feelings had no boundaries.

"When one was old, they naturally wished to stay in their homeland. "

"Jerry continued, "Mom, I know what you mean. Please bear with it. Everything is just a facade now. No one knows what will happen in the end! Staying here is a hundred times safer than staying in L continent!" "

"Dr. Mario has already developed a perpetual motion machine. I don't know what you're afraid of!" Susan continued, "It's fine if you don't go back. I have to go back!" "

"In Susan's eyes, her son Jerry was simply unreasonable! "

"Mom, calm down." Jerry was very anxious. "If you really go back, there's no turning back." "

Chapter 2408: 503: it's too late to regret! 4

"Currently, the exit of the defense system was closed. "

"If the people of L continent wanted to enter again, they would have to go through a special entrance. Once they entered, they would never be able to get out again. "

"Don't worry, even if you invite me here in the future, I Won't come to this damn place again!" Susan said angrily. "

“Irene said at the right time, “Mom, I think what Jerry said makes sense. Please calm down. If something really happens, it’ll be too late to regret.” ”

“”Don’t go back, I’ll go back alone.” ”

Susan had made up her mind. No one could stop her.

“Looking at their mother like this, the siblings were helpless.”

Susan packed up the things downstairs and turned to go upstairs.

“Irene continued, “Jerry, can we really not go back now?” ”

“”We can’t go back,” Jerry continued, “You haven’t seen the strange beast with your own eyes. You Don’t know how terrifying it is.” ”

“Although it had been a few days ago, Jerry still remembered the look in the Strange Beast’s eyes.”

“Irene narrowed her eyes. “But mom insists on going back. How about this? I’ll go back with her, and you stay here alone.” ”

Irene was really worried about letting Susan go back alone.

“No.” Jerry shook his head. “Neither you nor mom can go back!”

Irene frowned slightly. “But mom’s side...”

“Susan’s temper was very stubborn. She would never easily change her decision, especially now that Mario had used such a big move like the perpetual motion machine.”

“In fact, Susan wasn’t the only one. Many of her relatives had already left for home. ”

“Jerry continued, “I have a plan for Mom. You Don’t have to worry.” ”

“Alright.”Irene nodded.

Jerry walked upstairs.

“Susan was packing up in the bedroom when she heard footsteps. Without turning her head, she said, “You don’t have to say anymore. I Won’t change my mind! I want to go back immediately!” ”

“”Mom, I really can’t go back!”Jerry continued, “Besides, without me to send you back, how are you going to go back?” ”

“”I’ve already contacted your uncle Joseph. He will come to pick me up,”Susan said without raising her head. ”

Mr. Joseph was Susan’s boyfriend. The two of them had been together for many years.

“Hearing that, Jerry frowned slightly. Joseph was a very wise person. He was very clear about the current situation. He did not expect that Joseph would actually make the decision to go back. ”

“When will uncle Joseph Come?”Jerry asked.

“Susan said, “This has nothing to do with you.” ”

“Jerry sighed and continued, “Since you insist on going back, I will respect your opinion. I can rest assured that you and uncle Joseph can go back together. At least the two of you can take care of each other.” ”

“Hearing this, Susan put down the things in her hands and looked up at Jerry. She asked doubtfully, “Do you really think so?” ”

“”Of course.” Jerry nodded. “No matter what, I will respect your opinion.” ”

“Susan said with satisfaction, “That’s good! Why Don’t you and Irene go back with us?” ”

Jerry shook his head. “We won’t go back with you. Let’s wait for the peace in L Continent.”

“That’s fine.”

“Jerry continued, “Are you thirsty? I’ll get you a glass of water.” ”

“After packing up for a long time, Susan was indeed a little thirsty. She nodded and said, “Go ahead.” ”

Jerry immediately trotted downstairs to get water for Irene.

“After a while, Jerry carried the glass upstairs. “Mom, drink some water.” ”

Susan was really a little thirsty. She took the glass and drank more than half of the water in one go.

“Jerry continued, “Then you pack your things first. I’ll go downstairs to see if uncle Joseph is here.” ”

“You go.” Susan nodded.

“Jerry glanced at Susan, then turned around and went downstairs.”

“Susan continued to pack her things, but for some reason, as she was packing, Susan suddenly felt very sleepy.”

She felt very dizzy.

She looked as if she could fall asleep at any time.

“Susan yawned and was about to go to the bathroom to wash her face to sober up when a strong wave of sleepiness swept over her. The next second, she fainted. ”

Bang!

She fell to the ground.

“Fortunately, the bedroom was covered with a thick wool carpet. Otherwise, a normal person would not be able to withstand such a fall. ”

“Mom!”

“Irene pushed the door open and came in. She saw this scene and immediately trotted over. “Mom, What’s Wrong?” ”

Susan’s eyes were closed and she didn’t react.

Chapter 2409: 503: it’s too late to regret! 5

“Irene was so frightened that her face turned pale as she called out, “Jerry! Jerry!” ”

“Hearing the shouts from upstairs, Jerry quickly ran over. “What’s Wrong!” ”

“Irene’s voice was trembling. “Quickly look at mom, What’s wrong with Mom!” ”

“Jerry smiled and said, “It’s nothing, you don’t have to worry.” ”

“Hearing that, Irene looked at Jerry in disbelief. She didn’t understand why Jerry was so cold-blooded. ”

This was their mother!

“Jerry! What are you talking about?”Irene continued.

“Jerry walked over, picked up Susan, put her on the bed and covered her with the blanket. Then he said, “Mom is really fine. She’ll only sleep for a day at most.” ”

“Sleep for a day?”Irene asked.

“Jerry nodded. “Since mom insists on going back, I can only use my own method to keep her.” ”

“Irene finally understood what Jerry meant and continued, “Is there a problem with the glass of water?” ”

“”Yes.”Jerry did not hide it and said, “I put sleeping pills in it.” ”

“No Wonder.”Irene was relieved.

“At this moment, the sound of a car horn came from outside the house. ”

“Uncle Joseph is here. Let’s hurry down!”

“Irene nodded and asked as they went downstairs, “Why is Uncle Joseph Here?” ”

“Jerry said, “He’s here to pick up mom.” ”

“Irene was not worried about Joseph at all. After all, Joseph was much easier to talk to than Susan. ”

“When the two of them came downstairs, they realized that Irene had come with Joseph. ”

“Are you done packing?”Elena asked.

“Jerry walked over. “We’re not going back, Uncle Joseph. My mom is not feeling well. You Don’t have to go back. Stay and take care of her. When she’s better, you can go back.” ”

“When he heard that Susan was not feeling well, Joseph immediately got out of the driver’s seat. “What happened to Your Mom?” ”

“Joseph had fallen in love with Susan at first sight since he was young. Later on, when Susan got together with someone else, he was never married. Later on, Jerry’s father had an accident and left, so Joseph and Susan naturally got together. ”

“Jerry continued, “Her old habit is acting up again. She has a severe dizziness, so it’s not suitable for her to take a car for the time being.” ”

“Joseph asked, “Then where is she?” ”

“She’s resting upstairs.”

“Joseph immediately said, “I’ll go up to see her.” ”

“”Uncle Joseph, Wait a moment.”Jerry pulled Joseph’s sleeve and continued, “My mother took sleeping pills and finally fell asleep. Why Don’t you not go up to disturb her for the time being?” ”

"I see." Joseph nodded. "Then I'll go up later."

"Elena stood to the side and said somewhat disappointedly, "So we're not going back now?" "

"Joseph continued, "Your aunt isn't feeling well. Let's wait a few days before going back." "

Nothing was more important than Susan.

"Let's talk inside," Jerry said as he walked in, he said, "Actually, it's not a bad thing for us to have such a thing happen. The current situation in L continent isn't stable. Once something happens, we'll never be able to come back." "

"Elena smiled and said, "Cousin, don't be alarmist! You said that Dr. Mario would definitely regret it, but who would have thought that he would be able to build the perpetual motion machine in the blink of an eye! "Do you know how many countries have signed cooperation agreements with our L continent? "Let's take the chance to go back now and get a share! "If we go back too late, we won't get anything!" "

"You're thinking too simple," Jerry said. "

"Elena pursed her lips. "You're thinking too complicated! It's fine if you guys don't go back, I'll go back first." "

"With that, Elena stood up from her chair. "

She didn't want to go back at first.

"But seeing her good friends go back one by one and make use of the current situation to make a fortune, how could she hold back? "

She had to go back immediately!

“Elena!” Jerry called out to her from behind.

“What’s Wrong?” Elena turned around.

“Jerry continued, “I’ve seen Dr. Mario’s experimental subject with my own eyes. I know how terrifying it is. Don’t go back. You’ll really regret it.” ”

“Elena smiled and said, “I know you’re thinking about me, but I have to go back.” ”

““Then have a glass of water before you leave,” Jerry said. ”

He wanted to use the method of keeping his mother to keep Elena.

“However, it was not that easy. ”

“Elena was a very smart person. When Jerry suddenly asked her to drink water, she knew that things were not simple. She smiled and said, “I’m not thirsty, I’ll leave First!” ”

“After saying that, she turned around and left. ”

“Jerry looked at Elena’s back, his eyes full of helplessness. ”

Chapter 2410: 503: it’s Too Late to regret! 6

“Elena found a car and went to the ferry. She found that there was already a long line of people coming back to L continent from the special entrance. She took out her phone and took a photo for Jerry, [if you want to come back, remember to come over and line up early.] ”

“After waiting in line for more than two hours, Elena successfully boarded the ferry back to L continent.”

“In just two days, half of the people from L continent had returned.”

Cen’s base.

“Professor Zhang came to Ye Zao’s office and said hesitantly, “Miss Ye.” ”

““Professor Zhang, if you have something to say, just say it,”ye Zao said. ”

“Professor Zhang didn’t know what to say either. He scratched his head and continued, “Miss Ye, have you seen the International News?” ”

““I have,”ye Zao replied. ”

“Professor Zhang continued, “Lzhou has already developed the perpetual motion machine, but there’s still no movement from the exotic beasts. Many countries have deactivated their defense systems. Do you think we...” ”

“Ye Zao didn’t answer directly. Instead, he said, “Do you know the news of the Exotic Beasts’ disappearance?” ”

“Professor Zhang was stunned for a moment, then shook his head. ”

“Ye Zao put down the newspaper in his hand and opened his red lips slightly. “So, the enemy will always only show you what they want to show you.” ”

“As for what they didn’t want to show them, they wouldn’t be able to see it no matter what. ”

“Professor Zhang asked, “When did the exotic beasts go missing? Then isn’t L continent in a mess now?” ”

“”Not yet.”Ye Zao narrowed her beautiful eyes. “Just watch. By that time, there will be corpses everywhere.” ”

She had already done what she had to do.

“Even if there were corpses everywhere, there was nothing she could do. ”

“After all, it was Lzhou. If she stretched her hand too far, it would not look good. ”

Professor Zhang was stunned again. “But there are indeed many countries that have signed agreements with Lzhou.”

“After all, it was a perpetual motion machine. ”

“If they did not take a shortcut, the backward countries might not be able to create a perpetual motion machine within a hundred years. ”

“Ye Zao’s expression did not change. He continued, “Don’t worry about them.” ”

Professor Zhang nodded. “Alright.”

“Actually, Professor Zhang was still a little worried. ”

“Although China’s technology had reached the peak of no one, even the most powerful people needed allies. ”

It was not a good idea to keep fighting alone. There had to be an ally.

“Ye Zao seemed to have read Professor Zhang’s mind. He asked, “Professor Zhang, have you heard of a saying?” ”

“What?” Professor Zhang was stunned.

“Ye Zao continued, “Only cows and sheep flock together. Ferocious beasts always travel alone.” ”

Powerful people didn’t need allies.

“This sentence was like an epiphany. Professor Zhang looked at ye Zao and said, “Miss Ye, it’s my fault for not thinking things through.” ”

“Ye Zao continued, “Pay more attention to the defense system these days. Those exotic beasts are very cunning. We Can’t give them any chance to exploit.” ”

Those?

“Professor Zhang noticed this term and raised his head to look at Ye Zao. “Miss Ye, isn’t there only one exotic beast?” ”

“”One?”Ye Zao shook his head slightly and continued, “Professor Zhang, you don’t know these exotic beasts very well.” ”

“How many are there?”Professor Zhang continued to ask.

“Ye Zao’s beautiful eyes narrowed slightly, and he continued, “You should ask how many groups there are.” ”

“How many groups?”Professor Zhang asked in disbelief.

“Ye Zao nodded slightly. “There are fifty to sixty groups of these exotic beasts in a group. At the moment, they are at least five groups.” ”

“So Many?” Professor Zhang asked.

“”This is just the beginning,” ye Zhuo continued, “When the prison is officially completed, the number of exotic beasts will increase.” ”

“Professor Zhang was also a smart person. He continued, “Miss Ye, do you mean that I continent is now a prison?” ”

“Yes.” Ye Zhuo nodded slightly.

“At that time, the people trapped in the prison would all become food for the exotic beasts. ”

“Although it sounded cruel, it was the truth. ”

“Professor Zhang continued, “Then, with so many people lining up to enter Lzhou every day, aren’t they courting death?” ”

“”You can say that,” ye Zao said. ”

“Once they entered lzhou, there was no way for them to survive. ”

“Professor Zhang couldn’t watch as so many living beings walked on the road to extinction. He continued, “Can, can we help them? Tell them the truth!” ”

“”Yes.” Ye Zhuo nodded slightly. “But, do you think they will believe you?” ”

“Professor Zhang opened his mouth. After a moment, he continued, “No matter what the outcome is, I still want to try and save each and every one of them.” ”

He could not stand by and watch these people seeking death.
