The Almighty Dragon General Chapter 2371—James defeated the Elephant King, but it was only the battle's beginning.

After he killed the Elephant King, the beast army would withdraw from the Southwest Province.

However, he would have to defeat Lucifer so that no beasts would ever attack human cities again.

James believed Lucifer had the strength to command the beasts.

Lucifer walked over step by step, stopping right before James. He glanced at James and said, "You just fought, James. If I were to fight you now and win, word would spread that I bullied you and didn't win fair and square."

James replied, "I don't need to rest."

Although he had used all his trump cards during his match with the Elephant King, he did not consume much of his True Essence.

Lucifer gently waved his hand and said, "I'll give you enough time to rest and recuperate. How about this? One month later, we'll have our match on Mount Bane. It'll be the most crucial battle for humankind. I hope you'll prepare well and not let me down. If your strength remains the same after one month, then you won't be able to defeat me."

Lucifer was very confident.

Although James had killed the Elephant King and showed extreme strength, he still did not consider James a match for him.

After speaking, Lucifer turned to his subordinate in black clothes and ordered, "Issue the order for the beast to evacuate the Southwest Province. In this one month, no beasts are allowed to attack any humans. If James fails to defeat me in the fight one month from now, all beast armies will be dispatched to attack the humans and take over Earth."

After issuing the order, Lucifer turned to leave.

He quickly disappeared from the area.

The live broadcast ended.

James dispersed Sacrilegious Ascension.

After deactivating it, he immediately went limp and fell headlong into the ruins on the ground.

Lucifer was confident in his own strength and gave James a month to readjust himself. His decision gained a lot of praise.

“As expected by the one chosen by the Heavenly Path. His character is respectable.”

“Yeah. He gave James a month to prepare for the match.”

“Unfortunately, it’ll be impossible for James to defeat him even if he was given a year or ten.”

“Lucifer is invincible. The Demon Emperor is invincible!”

People worldwide discussed the incident and the battle that would take place in one month.

Although James showed great strength in the battle against the Elephant King, many people still did not think he could measure up to Lucifer.

At that moment, James was lying weakly in the ruins.

He used his Demonic Energy to restore his strength.

Half an hour had passed when he finally recovered.

He stood up from the ground and looked at the demolished Mount Mala. A rare solemn expression appeared on his face.

“One month.

“The safety of Earth’s humans will depend on my battle against Lucifer in one month. If I lose, human territories will be completely occupied by beasts, and humans will lose their homes.

“I have to win the battle in one month.”

James clenched his fists tightly, and a resolute expression formed on his face.

Instead of leaving, he found a place and entered the Celestial Abode.

James sat in the gazebo of the Celestial Abode’s City Lord’s Mansion.

Sophie wore a white dress, and her long, black hair fluttered behind her head. She had a graceful figure.

With a helpless look, he asked, “Ms. Sophie, what do you think about my battle against Lucifer in one month?”

Sophie turned around, and her beautiful face appeared in James’ sight. She replied softly, “Lucifer is a Grand Emperor’s son, with supreme blood flowing through his veins. His lineage alone is enough to beat you. Moreover, he has the Elysian Inscription. Although he isn’t at a high cultivation rank yet, he has very explosive strength.”

James thought awhile and said, “I still have one month left. I can’t give up yet. Ms. Sophie, I’m going to cultivate in the Time Chamber. I need you to overwatch my training.”

James had a determined expression.

The upcoming battle concerned all of humankind’s fate.

Earth’s humans would be doomed if he gave up.

Sophie shook her head slightly and said, “It’s useless. The Heavenly Path has put a seal on your body. It’ll be very tough to break through the seal. With your current strength, you’ll need to break through two consecutive times. That means you’ll need to reach the Immortal Ascension’s Seventh Stair. With the dragon bone’s power and Sacrilegious Ascension, you might have a slim chance of fighting against Lucifer.

“Although the Time Chamber’s passage of time differs from that of the outside world, it’ll still be impossible for you to break through twice in one month.”

“How will I know if I don’t try?”

James knew there was a seal in his body, but he had no idea what kind of seal it was. He still wanted to try.

“Alright.”

Seeing that James was so persistent, Sophie did not want to shatter his hopes. Thus, she turned around and led him into the Celestial Abode’s Time Chamber.

James followed behind her.

In the Time Chamber, there were still many soldiers training. To ensure James could cultivate in peace. Sophie asked the soldiers to halt their cultivation and leave the Time Chamber for the time being.

In the Time Chamber, James sat in a lotus position on the ground.

Sophie stood before him and thought for a while before saying, "James, I think there's only one way you can defeat Lucifer and save humankind."

James glanced at Sophie and asked, "What is it?"

Sophie said, "You'll have to use the Infinity Stele. It's a divine object that appeared at the beginning of the heavens and the earth. If you make good use of the one hundred and eight Infinity Steles, you may be able to defeat Lucifer."

James frowned and said, "But, I can't even unleash the Infinity Stele's power right now. In my hands, the Infinity Steles are nothing but heavy weapons."

Sophie said, "Summon the Infinity Steles. I'll research them for a while."

"Alright."

Chapt

James immediately summoned the 108 Infinity Steles.

The Infinity Steles stood in the Time Chamber.

Sophie looked at the Infinity Steles and glanced at James, saying, "Continue cultivating. It'll be best if you can make a breakthrough during this period. If not, you'll have to borrow the strength of the Infinity Stele."

After speaking, Sophie casually waved her hand.

A bright fruit appeared in her hand.

The fruit floated toward James.

James took the fruit and held it in his hand. He could smell the fruit's charming fragrance and sense it contained significant energy.

Sophie said, "It's a divine fruit from the Celestial Abode. If you can absorb all its energy, you may be able to reach the Immortal Ascension's Sixth Stair. Whether you break through or not will depend on your own abilities."

"Alright."

James did not stay idle and immediately began absorbing the fruit's energy.

When James was in the Ancient Realm, he practiced in the Dragon Abyss and absorbed Dragon Energy. He also repeatedly condensed his cultivation rank and was now at the middle phase of the Immortal Ascension's Fifth Stair.

After he absorbed the fruit's energy, his True Essence immediately increased. In just three months, he reached the peak of the Immortal Ascension's Sixth Stair.

Three months inside the Time Chamber was only one day in the outside world.

This time, James did not intend to condense his cultivation rank anymore because he urgently needed to gain strength.

He wanted to reach the Immortal Ascension's Seventh or Eighth Stair before his match against Lucifer.

By improving his cultivation rank, his physical strength would also increase. With the help of the dragon bone in his body and Sacrilegious Ascension, he might just be able to defeat Lucifer.

In fact, he could no longer do so.

When cultivating in the Ancient Realm's Dragon Abyss, he kept condensing his cultivation rank, and his True Essence was very pure.

When he was about to attempt a breakthrough, Sophie, who had been studying the Infinity Steles, interrupted him and said, "James, you can't make a breakthrough in the Celestial Abode."

"Why?" James looked at her puzzledly.

Sophie said, "Although I don't know what the seal in your body is, I can sense that it might demolish the Celestial Abode if you do it here."

Puzzled, James asked, "It'll shatter the Celestial Abode? But, the Celestial Abode is such a powerful existence. Can the seal's power really destroy it?"

Sophie nodded and said, "Yeah. The seal in your body is an Elysian Seal, which carries the power of Elysium. It's mainly used to restrain the strong. The stronger a person is, the more powerful the seal will be

"Since you're in the Celestial Abode, you'll be protected, and Elysium's power will be directed at the Celestial Abode.

"This is similar to what happens in the Tribulation Rank. If someone at the Sage Rank interferes while one is going through tribulation, the Heavenly Tribulation's power will be raised to that of a Sage Rank."

James could roughly understand what she was saying but was still slightly confused.

Sophie said, "Attempt your breakthrough outside the Celestial Abode."

"Alright." James nodded.

With a thought, he left the Celestial Abode.

When he reappeared, he was in the ruins.

He had cultivated in the Time Chamber for three months, but only one day had passed outside. During this time, some beasts and humans had rushed to Mount Mala.

As soon as James appeared, he saw some beasts around the ruins.

"It's James."

"Why hasn't he left yet?"

The beasts also noticed James but did not dare to approach him, wary of his strength. They avoided him and maintained a distance.

James ignored the beasts.

He found a huge boulder among the ruins and sat in a lotus position.

He relaxed his mind and entered a state of emptiness. Immediately afterward, he activated all his True Essence, allowing it to flow through his body.

"Break!!!"

James roared furiously.

Just as he was about to make a breakthrough and enter the Immortal Ascension's Sixth Stair, a potent force suddenly erupted in his body. It was like a shackle, sealing his True Essence and preventing him from breaking through.

Moreover, the force destroyed his physical body.

In that short moment, James was injured.

Boom!

The power within the seal in his body leaked out, and the huge boulder he was sitting on shattered instantly.

Splurt!

James spat out a mouthful of blood, and his body fell to the ground.

"Th-The seal has such tremendous power."

James was shocked.

Initially, James was not too concerned about the Elysian Seal, but now that it had appeared while he was trying to make a breakthrough, he immediately realized its power. Its force had blocked his meridians and the acupoints all over his body, preventing his True Essence from circulating.

Moreover, the force possessed terrifyingly destructive power, constantly dealing damage to his body.

"Ms. Sophie, is there really no way to break through the Elysian Seal? Will humans never be able to improve?"

James asked Sophie, who was in the Celestial Abode.

"It's not impossible."

Sophie's voice came from the Celestial Abode. "Making a breakthrough has become tougher, a few times tougher than it had been in the past. For your cultivation rank, you'll have to reach the pinnacle of each rank to shatter the Elysian Seal and make a breakthrough."

Hearing this, James said, "I've already reached the pinnacle of every rank. So, why can't I shatter the Elysian Seal?"

Sophie replied, "That's what you think. What you've reached is what you perceived to be the pinnacle. However, you've actually never reached the true pinnacle of every

rank. Moreover, from my understanding, the more Karma you've gathered and the more outstanding your strength, the stronger the Elysian Seal's power will be."

"Your physical body is extraordinary, and you've obtained Emperor Jabari's legacy. Moreover, you've obtained the Infinity Steles. Thus, you carry a significant amount of Karma, which strengthens the Elysian Seal's effect on you."

Hearing this, James had a clearer understanding.

In other words, the Elysian Seal's strength depends on the achievements one had obtained on their cultivation road as well as one's potential and strength.

"I haven't reached the pinnacle?" James murmured.

"You're far from close to the pinnacle."

Sophie said, "You're pretty strong right now, especially your physical strength, which has reached the middle phase of the Immortal Ascension's Eighth Stair. It's time you learn about some of the Celestial Abode's functions. As for the rest, you should get Nova to explain them to you. Also, get him to guide your cultivation."

At that moment, Nova's voice came from the Celestial Abode

"Back then, Emperor Jabari had already foreseen the disasters humans would face. To deal with the Elysian Seal's power and allow his inheritor to break through, he left a seclusion sanctuary in the Celestial Abode

With a thought, James disappeared and entered the Celestial Abode.

After he entered the Celestial Abode, it gradually shrank and buried itself in the sand.

A few beasts and humans surrounded the area.

They had been watching James, but seeing him suddenly disappear, they quickly rushed over.

"How did he suddenly disappear?"

"I saw a light sink into the ground."

“Could it be James has learned some kind of teleportation technique?”

The beasts that rushed over were puzzled.

At that moment, James was already in the City Lord's Mansion.

He looked at Nova and asked, “Nova, where's the sanctuary Emperor Jabari left behind?”

“Come with me.”

Nova turned around and walked out of the City Lord's Mansion.

He led James into an unknown place in the Celestial Abode's city, to which he still had no access. Soon, they reached a courtyard.

The large courtyard had a black door. There was an ancient script engraved on the door.

“Cultivation Courtyard.”

James could not read the script, but he immediately understood what it meant upon seeing it as he was the Celestial Abode's owner. At that moment, information about the courtyard also appeared in his mind.

The courtyard was built by Emperor Jabari.

Nova said to James, “Go ahead.”

James pushed the door open and walked inside.

Immediately, he felt great pressure coming from within it. The force penetrated his body and suppressed his True Essence. He felt his True Essence being continuously condensed.

He was at the peak of the Immortal Ascension's Sixth Stair, but his cultivation was abruptly condensed until the final phase of the Immortal Ascension's Fifth Stair.

“Amazing.”

James was shocked after he sensed his cultivation rank receding but his strength remaining unchanged.

“As expected by the courtyard left behind by Emperor Jabari. It sure is impressive.”

“Of course.”

Sophie suddenly appeared and said, "Emperor Jabari personally laid the inscription around this courtyard. The inscriptions will condense your True Essence as much as possible. So, you can continue cultivating, and when you can no longer condense your True Essence, you can make a breakthrough."

James said helplessly, "My cultivation rank has been suppressed to the final phase of the Immortal Ascension's Fifth Stair."

"Then, you'll have to continue cultivating until you can break through to the Sixth Stair."

"Besides, suppressing your True Essence is only one of this place's benefits. You can also condense your physical strength here. However, there's no need to do so. You won't have to temper your physical strength for now."

"There's also a Time Inscription in the courtyard. It works the same as the Time Chamber, so you can cultivate here with peace of mind."

He was already at the peak of Immortal Ascension's Fifth Stair but was suddenly suppressed back to the last phase of Immortal Ascension's Fourth Stair again.

He was not even at the Immortal Ascension's Fifth Stair anymore.

Fortunately, he had obtained Emperor Jabari's Celestial Abode and the Cultivation Courtyard within it.

Sophie pointed to the room ahead and said, "There are three rooms in the courtyard for cultivating your True Energy, physical body, and soul respectively. You only need to improve your True Energy, so you should only enter the first room."

"Alright." James nodded.

He stepped forward and approached the room.

Then, he pushed the door open and walked inside.

He took a step into the room.

The scenery in the room totally changed once James stepped foot into it. James was no longer looking at a room but at a place with beautiful mountains and rivers.

In the distance, there was a mountain with a waterfall. There was a simple wooden house beside the river at the foot of the mountain.

James looked at the scenery before him in a daze.

At that moment, Sophie's voice resounded. "Everything in front of you is an illusion formed by Primordial Energy."

"Primordial Energy?" James looked puzzled.

Sophie explained, "Primordial Energy is the most original ancient power. Emptyrean Energy is graded as well. In the order of the weakest to the strongest, it's Spiritual Energy, Sage Energy, Divine Energy, and Primordial Energy.

"The Celestial Abode has a powerful attribute. It can absorb the energy from the outside world and convert it into Primordial Energy.

"For countless years, the Celestial Abode has constantly been absorbing the outside world's energy and turning it into Primordial Energy. Emperor Jabari had specifically prepared this for his successor. The Primordial Energy here is enough for you to become an unrivaled powerhouse."

Hearing this, James took a deep breath. "Why didn't you tell me about this earlier?"

Sophie replied, "I've told you before that you're too weak to know all of the Celestial Abode's functions. However, since you've encountered an obstacle, we've brought you here in advance. After you enter the Sage Rank, you should be able to unlock all the Celestial Abode's functions."

"Then, I'll get on with my training."

James took a deep breath and sat in a lotus position.

He sat on a rock at the mountain foot. He discovered that the rock contained extremely pure energy. As soon as he sat on it, pores all over his body enlarged and quickly absorbed the energy within the rock.

As the energy entered his body, he felt a majestic force circulating through his body.

Chapter

"What powerful Primordial Energy."

James could not help but be shocked by it.

Primordial Energy was extremely powerful. It was not on the same level as Empyrean Spiritual Energy

James immediately activated the Novenary Golden Body Siddhi and began to refine the Primordial Energy, converting it into his own True Essence.

While he was cultivating, he could sense that there was a magical power constantly condensing his True Energy.

Hence, he no longer had to condense his True Essence on his own.

At the same time, his cultivation speed was also slowed down.

Even though he had absorbed Primordial Energy, his cultivation speed was still slow. He cultivated for half a year before finally raising his True Essence to the peak of the Immortal Ascension's Fourth Stair

Meanwhile, only two days had passed outside of the Celestial Abode.

James felt like he could make a breakthrough.

Thus, he left the Celestial Abode and returned to the outside world.

James returned to the ruins outside.

There were still many beasts circling the area.

James was immediately spotted when he reappeared, but none of the beasts dared to approach him.

Ignoring them, James sat in a lotus position and mobilized his True Essence. His True Essence surged through his body, attempting to break through the Elysian Seal and improve his cultivation rank.

The Almighty Dragon General Chapter 2376—The Elysian Seal's power emerged from his blood vessels, muscles, limbs, and bones. It permeated his whole body and sealed off all his meridian and acupoints, preventing the flow of his True Essence.

The Elysian Seal also had terrifyingly destructive power.

James was instantly hurt by it.

However, James could tolerate those injuries.

“Break!!!”

James forcibly activated his True Essence..

His True Essence gathered like a torrent and struck the seal in his body.

Boom!

An explosion happened in James’ body, and a seal was broken. A powerful force surged through James’ body, injuring him once again. James fell to the ground and spat out a mouthful of blood.

James got up from the ground and sat in a lotus position. He ignored his wounds and continued to break through the other seals.

Many beasts gathered around him.

Under the beasts’ gazes, James’ body seemed to have become transparent, and thousands of black threads could be seen in his body. The threads entangled together and sealed James’ body.

“Is that the seal on humans?”

“It should be. James is trying to forcefully make a breakthrough.”

“I heard from a senior in my family that the strength of human seals depends on the human’s potential. The greater one’s potential and the more boons one has obtained on their cultivation journey, the stronger the seal will be on them.”

“I’ve also heard of such rumors. It seems the Heavenly Path is deliberately preventing the rise of human prodigies.”

“The seal on James’ body is powerful. However, he also has very potent True Essence. Look at how many threads he’s broken through already.”

The beasts in the distance discussed.

Meanwhile, James tried to shatter the seals with all his strength.

With his terrifying True Essence, the seals on his meridian and acupoints were shattered.

The process lasted for three days.

Three days later, James finally broke through all the seals.

When he broke through the last seal, his cultivation rank increased. His True Essence and physical body evolved again. His physical strength was at the peak of the Immortal Ascension's Eighth Stair. With another breakthrough, he would enter the Immortal Ascension's Ninth Stair.

After James broke through the seals, he stood up and clenched his fists tightly. Immediately, he felt powerful energy flowing through his body. With a calm expression, he murmured, "The Elysian Seal is nothing more than that."

After breaking through the Elysian Seal, James reached the Immortal Ascension's Fifth Stair and gained confidence.

Sophie's voice came from the Celestial Abode. "James, don't underestimate the Elysian Seal. You merely broke through an ordinary seal. As your cultivation rank improves, the seal will become stronger."

"I see. Thanks for the reminder."

James smiled confidently.

After that, he quickly left the ruins. He found a desolate area and entered the Celestial Abode again.

Some of the beasts filmed the incident of James breaking through the Elysian Seal and uploaded it online.

[James broke through the Elysian Seal! He broke through the seal on his body!]

[Tsk, tsk. He's amazing. He managed to break through the seal under such circumstances.]

[He really is gifted.]

[If the Elysian Seal wasn't there, he would have an easy time improving his cultivation rank.]

As the video surfaced online, beasts from all over the world were shocked.

Even Lucifer was slightly surprised when he saw the video. He never expected James to make a breakthrough in just a few days.

However, his shock was overshadowed by his anticipation.

"This is getting interesting. I'm really looking forward to fighting you, James."

The Almighty Dragon General Chapter 2377—James' breakthrough exceeded Lucifer's expectations. He had given James a month to recover and heal his injuries. However, he did not expect James to improve his cultivation rank in just a few days.

James' breakthrough also brought hope to humankind.

[So, it's possible to break through the seal.]

[If James can make a breakthrough, so can we.]

[Let's do our best!]

James was unaware of the hope his breakthrough had brought to all humans. The hopeless humans were now optimistic again.

Meanwhile, James entered the Celestial Abode and went to the room to temper his True Essence.

After entering the Celestial Abode, he began to cultivate determinedly.

His goal was to reach the Immortal Ascension's Third Stair.

It should be feasible with the remaining time he had left.

The Primordial Energy in the room was powerful. James' body was unable to reach its full capacity. As he absorbed the energy, his True Essence increased rapidly. However, the magical formation continuously

condensed his True Essence.

Although his strength kept increasing, his True Essence was improving relatively slowly.

This time, he cultivated for three years.

With the concentrated Primordial Energy, he reached the peak of the Immortal Ascension's Fifth Stair within three years.

Although he had cultivated in the Celestial Abode for three years, only twelve days had passed outside

With the addition of the time he spent cultivating previously, only half a month had passed outside. The battle against Lucifer was only ten days away.

James overestimated himself.

He thought he could reach the Immortal Ascension's Seventh Stair with the time he had, but he could only reach the Sixth Stair. Although he could only reach the Sixth Stair, his True Essence was powerful. He was confident in going against a powerhouse at the Immortal Ascension's Ninth Stair, even if he did not use Sacrilegious Ascension or the dragon bone's power.

That was the benefit of reaching the pinnacle of every cultivation rank.

His True Essence was abundant, allowing him to go against one stronger than himself.

James left the Celestial Abode to make his breakthrough outside.

Mount Mala had been demolished and become ruins.

James appeared in the ruins in a remote area where there were no beasts around. Then, he quickly began to make a breakthrough.

As soon as he activated his True Essence, the seals appeared, sealing all the meridians and acupoints throughout his body. At that moment, thousands of black threads quickly oozed out of his body.

The black threads gathered and formed a silhouette.

James was stunned by the scene.

"What is this?"

At that moment, Sophie's voice came from the Celestial Abode. "James, be careful. This is the Embodiment of the Heavenly Path.

"Huh?" James was taken aback.

He asked, "The Embodiment of the Heavenly Path? What's that? Why would it appear now?"

Sophie explained, "Cultivation itself is something that goes against the heavens. While you cultivate, you'll also encounter some tribulations. The higher your cultivation rank, the more difficult your tribulation will be. The Heavenly Path's Embodiment is a clone of the Heavenly Path.

"From my understanding, the Heavenly Path's Embodiment will only appear when you're attempting to break through to become a Grand Emperor. If you defeat it, you'll become a Grand Emperor."

Sophie took a deep breath.

“I never expected you to face the Heavenly Path’s Embodiment. It seems you’re really extraordinary. Otherwise, the Heavenly Path’s Embodiment wouldn’t appear.”

Hearing Sophie’s explanation, James frowned and said, “Could it be that I have to defeat this so-called Heavenly Path’s Embodiment to make a breakthrough?”

Sophie said, “Mhm, that’s correct. However, you don’t have to worry. The Heavenly Path’s Embodiment will be adjusted to your cultivation rank. You’re currently at the Immortal Ascension’s Fifth Stair, so the Heavenly Path’s Embodiment will also be at the same rank.”

Hearing this, James heaved a sigh of relief.

As long as the Heavenly Path’s Embodiment was not of a rank too high, he was confident in defeating it.

Sophie seemed to have read James’ thoughts and reminded him, “Be careful. Don’t act recklessly. Anything related to the Heavenly Path isn’t going to be easy to deal with.”

“I understand. Thanks, Ms. Sophie.”

James slowly stood up.

The Almighty Dragon General Chapter 2378—James mobilized his True Energy.

As soon as he activated his True Essence, the seal in his body appeared and prevented the flow of his True Essence.

“Huh?” James’ expression changed.

He thought the seal in his body would disappear since the Heavenly Path’s Embodiment had appeared. However, the seal was still in his body, preventing him from using his True Essence. How was he going to fight in such a state?

“Huff!” James took a deep breath.

James decided to use his physical strength to fight.

His physical strength had far exceeded the Immortal Ascension’s Fifth Stair, so he thought that killing the Heavenly Path’s Embodiment would not be hard.

When he attempted to use his physical strength, he found it was also restrained, and he could not unleash any force.

“The Elysian Seal is really powerful.”

James had a solemn expression.

He finally understood the terrifying strength of the Elysian Seal.

A silhouette stood in front of him.

The silhouette was made up of countless black threads and looked illusory. The silhouette emanated terrifying energy. As soon as James stood up, the Heavenly Path’s Embodiment moved.

With a flash, it appeared in front of James.

Before James could react, he was already struck, and his body was sent flying.

After being blasted back a few thousand meters, he fell to the ground and sunk into the ruins.

Unable to use his True Essence and physical strength, James was not a match for the Heavenly Path’s Embodiment and was defeated in a single move.

He struggled to get up from the ruins. He was wounded and spat out a big mouthful of blood. He wore a very solemn expression.

As soon as he got up, the Heavenly Path’s Embodiment appeared in front of him again.

It held a long sword, and Sword Energy burst out, coming straight at James. Under the Sword Energies’ crushing pressure, James found it hard to breathe.

“Damn it,” James cursed out.

Under such circumstances, he had to break through the seals in his body before he could fight the Heavenly Path’s Embodiment.

James immediately sat in a lotus position on the ground and mobilized his True Energy to break through the seal in his body.

Two forces collided with his body.

An incredible force swept across the surroundings, and the surrounding area was razed to the ground.

James did not want to die. He still had a lot he wanted to do.

However, he was powerless in the face of the terrifyingly strong Elysian Seal.

"James, get up! You have to keep going!"

Suddenly, he heard a voice calling for him.

At that moment, an invincible force entered, his body, pulling back his consciousness.

"What?" James was slightly taken aback.

He did not understand what was happening.

Meanwhile, Sophie stood at the City Lord's Mansion within the Celestial Abode, also paying attention to James' attempt to break through the seals.

She said, "This is the power of faith, James."

Confused, James asked, "What's the power of faith?"

"The power of faith is invincible and intangible but a real existence. Humans all over the world are cheering for you. They're thinking about you and praying that you overcome this obstacle. This is the power of faith."

Hearing this, James came to a realization.

He suddenly gained confidence and disregarded the wounds on his body.

Veins bulged on James' face as he roared. The True Essence in his body was like a flood, surging at the sealed meridians and acupoints. His True Essence continuously grew stronger. Under the attack of the strong True Essence, the seals were constantly broken one after another.

The scene lasted for a day.

One day later, the seals on his main acupoints and meridians were broken. However, his body was riddled with injuries and covered in blood. Not even a portion of his body was left unharmed.

If it were someone else, they would have already died.

However, James persisted tenaciously.

He abruptly stood up in the ruins. His long black hair fluttered, and his face bulged with veins. His body emanated murderous intent.

"The Embodiment of the Heavenly Path?!"

James was infuriated. He suddenly attacked the Heavenly Path's Embodiment. Although the seals in his body were not completely broken, they did not cause much of a restrain anymore.

He dashed over and fought fiercely with the Heavenly Path's Embodiment.

While fighting, he urged his True Essence to continuously break through the remaining seals.

It was a tough battle.

James fell to the ground over and over again.

However, he always got back on his feet.

He fought until he was exhausted and had no strength left in his body.

The battle lasted for several days.

During the battle, James broke through all the seals in his body. However, the Heavenly Path's Embodiment was overpowering, and he was not a match for it. After fighting for so long, he was exhausted.

He fell to the ground and gasped for air.

However, the Heavenly Path's Embodiment was still there.

It held onto a long sword and slowly walked toward James. The scene was being broadcasted live on the internet by a beast in the distance.

Seeing the Heavenly Path's Embodiment approaching James slowly, the humans watching the live broadcast held their breath.

"What kind of monster is that? Why is it so strong?"

"It's horrifying."

"James is already exhausted from the battle. He can't hold on any longer."

The humans were desperate.

Some of them began tearing up.

Meanwhile, some beasts also fell silent as they watched the live broadcast.

Lucifer was also watching the battle. He even traveled to Mount Mala to watch it from a distance. He floated in the air and watched the Heavenly Path's Embodiment slowly approach James.

"James is powerful. Even with the seals in his body, he still stood against the Heavenly Path's Embodiment for so long. Even if he failed, he would be remembered forever. After all, he's facing the Heavenly Path's Embodiment, which appears as a tribulation when one is about to break through to become a Grand Emperor," Lucifer murmured.

James heard the approaching footsteps.

At that moment, he was already exhausted.

However, he was not willing to give up.

He secretly gathered his remaining True Essence in the dragon bone within him. Powerful energy immediately emerged from the dragon bone, flowing through his whole body.

Just as the Heavenly Path's Embodiment approached him, he shouted, "Die!!!"

James suddenly leaped up and gathered all his strength in his palm, striking the Heavenly Path's Embodiment.

Terrifying power swept across, and the Heavenly Path's Embodiment dissipated at a speed visible to the naked eye.

Soon, it completely vanished.

Meanwhile, James collapsed to the ground and did not have the strength to get back up. At that moment, a colorful divine light descended from the sky and enveloped James.

James' injuries were miraculously healed, and his exhausted True Essence recovered instantly. His True Essence and physical body went through another evolution.

“He made a breakthrough!!!”

“James made another breakthrough!”

“He’s so strong!”

At that moment, humans all over the world cheered for him.

The beasts, on the other hand, had solemn expressions

James was too powerful. He had transcendent strength and would definitely be a threat to the non- human races in the future.
