The Almighty Dragon General Chapter 2381—After James defeated the Heavenly Path's Embodiment, a colorful divine light descended from the sky and enveloped him, immediately healing his injuries. At that moment, James fell into a mysterious state.

His True Essence and physical body went through an evolution.

The scene lasted about ten minutes.

Ten minutes later, the divine light dissipated.

James stood up from the ground and looked at the surrounding ruins. Then, he took a deep breath.

"The Elysian Seal is terrifying. I almost died."

His attempt to break through was incredibly dangerous. Fortunately, he got through it and successfully entered the Immortal Ascension's Sixth Stair. Yet, his real strength was comparable to those at the

Immortal Ascension's Ninth Stair.

Moreover, his physical strength was also at the Immortal Ascension's Ninth Stair. With the two combined, he could defeat a powerhouse at the Mage Rank's First Stage even without using Sacrilegious Ascension and the dragon bone's power.

"Huff!" James took a deep breath again.

Then, he noticed the beasts surrounding him.

He left the area, found a desolate region, and entered the Celestial Abode.

At the same time, on Mount Bane, Yuvaan sat in the head seat of Divinity Sect's main hall and was deep

in thought. During this period, he had been paying close attention to James and knew about his two consecutive breakthroughs.

"James really has amazing talent," Yuvaan murmured.

Yuvaan was very clear about the current situation. It was tough for humans to make breakthroughs in their cultivation. However, James made two consecutive breakthroughs in just half a month. James had unlimited potential.

Thus, he was convinced that James had some kind of treasure on him.

Otherwise, it would be impossible for him to have such rapid improvements.

“James became so strong after disappearing for a short time. I can't let him continue to grow anymore. Otherwise, he'll definitely become a threat in the future. However, he's going to have a match with Lucifer. If I were to capture him now, I'd be standing in Lucifer's way.”

Yuvaan had a solemn expression.

He could not afford to offend Lucifer.

Otherwise, he would die a terrible death.

‘What should I do? Yuvaan fell into thought.

‘James’ physical body and treasures are very extraordinary. I have to obtain them. I'll certainly make continuous breakthroughs and become an unrivaled powerhouse of the humans if I obtain them all.’

Yuvaan began plotting to snatch James’ treasures.

At that moment, James had already returned to the Celestial Abode.

In the backyard, Sophie gave him a thumbs up and praised him, “You're really strong, James. I never thought you could defeat the Heavenly Path's Embodiment. Your potential is really limitless.”

James had a bitter look on his face.

Although he got through the tribulation, James knew how dangerous the situation was.

Suddenly thinking of something, Sophie said, “Since you're already so strong, I don't think you'll lose against Lucifer. But, to be safe, I think you should comprehend the Infinity Steles.”

Hearing this, James looked at her.

Sophie smiled proudly and said, “During this time, I've been researching the Infinity Steles. Although I haven't completely cracked their secret, I deciphered some of the inscriptions. I've created a set of Supernatural Powers for you using the Infinity Steles. I'll teach you right away.”

After James successfully made a breakthrough, he disappeared.

All the humans and beasts worldwide were waiting for the battle between James and Lucifer.

Time passed day by day.

In the blink of an eye, it was the day of James and Lucifer's match.

Early in the morning, Lucifer appeared on top of a mountain in Mount Bane.

It was an unknown region that appeared from the Sealed Realms.

After Lucifer showed up, thousands of beasts also gathered. Even Outsiders from the Three Thousand Worlds showed up to spectate.

The match was going to be a pinnacle match.

It was a fight between the two strongest people on Earth.

Lucifer wore a black robe and looked very handsome. He stood calmly on the mountaintop with his hands behind him.

"Lucifer's father was a Grand Emperor and the Emperor of one of the Demon Race's clans."

"Moreover, he has the Elysian Inscription and now leads the beasts on Earth."

"If James wins this battle, the beasts won't attack the humans on Earth in the future."

In the distance, Outsiders from the Three Thousand Worlds gathered and discussed in hushed tones.

"Why hasn't James appeared yet?"

Lucifer had already arrived for a while, but James was nowhere to be seen.

At that moment, a man came from the distance.

He was a handsome man wearing a black robe. He calmly walked through the air and stopped at the mountain where Lucifer was.

He stood hundreds of meters away and looked at Lucifer.

"James is here."

“James has finally shown up. Humanity’s fate depends on this battle. Can James defeat Lucifer?”

Some of Earth’s humans grew tense.

James looked at Lucifer before him and said calmly, “I’m here, Lucifer.”

“Good. I’ve been waiting for a long time,” said Lucifer.

James said, “I might not have been your opponent a month ago, but my strength has since improved significantly. Since you’ve given me a month, I’ll definitely win this match.”

“Ha!” Lucifer snickered.

“I like your confidence, James. As I said, I can guarantee the safety of humanity if you win. No beasts will attack any human territories, nor will my clan attack Earth for ten thousand years.

“The safety of humankind for ten thousand years depends on you.”

After speaking, Lucifer made a gesture for James to attack.

James walked through the air.

He scanned his surroundings.

Many people have gathered in the distance.

They were Outsiders from the Three Thousand Worlds that came to compete for the boons on Earth.

An old man caught James’ attention. The old man wore a gray robe and had a very calm expression. Noticing James’ gaze, a faint smile formed on his face.

The old man was none other than Yuvaan.

James thought to himself, ‘Old freak, I’ll kill you sooner or later.’

His eyes shifted, and he saw some of Earth’s humans.

His grandfather, Thomas, was amongst the crowd.

His other grandfather, Langston, and his uncle, Tyrus, were also there.

Additionally, he also saw Henry, Delainey, the Blithe King, Quincy, and the others from Wurmstead.

Many of the Callahans also came to spectate. All of them stood behind Lex.

James scanned these familiar faces one by one. All of them had heavy expressions, evidently worried about his safety.

Then, he saw Marcello.

Even Harold and Quintina from the Ancient Realm had shown up.

After scanning the crowd, James turned to look at Lucifer, who was standing on the mountaintop before him. He asked indifferently, "Do we decide the outcome like a normal match, or do we fight till one of us dies?"

James' voice echoed through the area.

Even though James had made consecutive breakthroughs and learned a lot of Supernatural Powers related to the Infinity Steles, he was not really confident in defeating Lucifer, who had a powerful origin.

Lucifer's voice sounded. "If I wanted to kill you, I would've done so long ago. Plus, how would I get you to join my clan if I killed you?"

"Alright." James nodded and understood Lucifer's intentions.

Lucifer did not intend to kill him. Instead, his goal was to get James to join the Hadean Clan.

James' robe began to flutter in the winds, and a terrifying energy erupted from his body.

The match was about to begin.

James against Lucifer, who would be the victor?

The Almighty Dragon General Chapter 2383—James' physical strength had already reached the Immortal Ascension's Ninth Stair, and his cultivation rank was at the Immortal Ascension's Sixth Stair.

Without using Sacrilegious Ascension and the dragon bone, he should be able to stand against a powerhouse at the Mage Rank.

He activated his True Essence, allowing it to flow through his body, and the energy emanating from him immediately grew stronger.

Standing not far away, Lucifer saw the scene and smiled faintly, saying, "It seems you've improved a lot in the past month. You have such powerful energy even without activating Sacrilegious Ascension."

Although Lucifer maintained a calm composure, he was shocked internally.

He knew about Sacrilegious Ascension.

Now that James was already so strong, he would undoubtedly be very powerful after activating Sacrilegious Ascension.

James also had a calm expression as he looked at Lucifer. He stretched out his hand and said, "Make your move."

Lucifer laughed and replied, "Alright. Let's have a good match today."

After he spoke, an extremely powerful energy erupted from his body.

His destructive energy caused cracks to form on the mountain below him. Unable to withstand the pressure coming from him, the mountain immediately disintegrated.

Boom!

The mountain collapsed as if it was struck by a destructive force.

His energy was already so domineering before he even made a move. If he were to attack, who would be able to withstand such aggressive force?

The crowd watching from a distance immediately began to retreat to a safer area to watch the fight.

Lucifer had tremendous energy emanating from him. His long black hair fluttered in the air. With a step forward, he immediately appeared in front of James. He clenched his fist and swung it at James.

His punch contained terrifying power.

As he swung his hand, the sky began to change color.

An illusory fist morphed out.

Before the first struck James, he could already feel a dull pain in his body.

This shocked James. His physical strength was absolutely unrivaled.

He already felt a faint pain even before being struck. If the attack were to land on him, it would definitely deal significant damage.

Despite that, James did not dodge.

He wanted to have an exchange of moves to test Lucifer's strength.

Therefore, James stepped forward and blocked Lucifer's attack.

As their fists collided, James felt a terrifying force spreading through his fist. The crushing force deformed his fists and continued to spread through his arm.

Cracks formed on his arm and continued to spread toward his body.

James' body was blasted away by the force.

The Blood Energy in his body churned, and his throat felt warm. Then, he spurted out a mouthful of blood.

Lucifer did not take advantage of his upper hand. Instead, he stood in place and looked at James, who was sent flying in the air. With a calm expression, he said, "If you fight me in this state, you're not going to be a match for me, James. Since you've learned Sacrilegious Ascension, go ahead and use it. Show me how strong the Primordial Divine Ape Race's signature martial art skill is."

In the distance, James looked at the motionless Lucifer ahead of him and gritted his teeth.

The Demonic Energy flowed through his body and healed his injuries. His arm and deformed fists were

restored in an instant.

James shook his arm and said smilingly, "I must admit, you're really strong. With my current strength, I would stand a chance against a powerhouse at the Mage Rank. However, you managed to injure me with just one attack."

James knew it would be impossible to fight against Lucifer without Sacrilegious Ascension.

Thus, he activated it.

His whole body's True Essence gathered and broke his spine.

Immediately afterward, Empyrean Spiritual Energy quickly entered his body and formed a new spine.

One vertebra, two vertebrae, three vertebrae...

In no time, his 33 vertebrae were reformed.

At that moment, his energy had completely fused with the Empyrean Spiritual Energy. At that moment, he felt one with the sky and the ground. The power of heaven and earth was integrated into his body. His strength immediately skyrocketed and surpassed Lucifer's.

He took a step forward.

Heaven and earth's power gathered and weighed down on Lucifer's body.

The Almighty Dragon General Chapter 2384—Lucifer's body was knocked a few steps backward, and he had a pained expression.

"He's strong."

Lucifer gritted his teeth and said, "With Sacrilegious Ascension, your strength has doubled. But, that's what's going to make this fight interesting."

After withstanding Sacrilegious Ascension's pressure, Lucifer clenched his fist and charged at James. Even though he was within Sacrilegious Ascension's force range, he was not slowed down. Instead, he was moving even faster than before. In the blink of an eye, he appeared in front of James.

He swung his fist at James.

His attack contained destructive strength.

James was not afraid and raised his hand to block the attack.

Boom!

Their fists collided.

Two terrifying forces clashed, and an explosion happened in the air.

The collision of the two strands of True Essence caused a huge shock wave to sweep across the surroundings like water ripples, spreading in all directions.

James was knocked tens of meters away. Meanwhile, Lucifer was blasted hundreds of meters into the distance.

Lucifer's fist went numb, and his Blood Energy churned from the impact. Unable to suppress it, he spat out a mouthful of blood. He reached out to wipe the blood on his lips and looked at James with a strange smile.

After James activated Sacrilegious Ascension, his strength was way beyond Lucifer's

Taking advantage of the slight upper hand he gained, James launched another attack.

James rushed toward Lucifer, swinging his fists consecutively. Within a second, he had launched hundreds of moves.

Lucifer was on defense against his attacks.

The two fought from the sky to the ground, then back into the sky.

The others watched as the two fought and separated repeatedly.

There were no fancy moves. It was a battle of pure strength.

Their destructive forces caused the nearby mountain ranges to collapse into ruins. The cultivators spectating in the distance had to keep retreating further away.

The two exchanged about tens of thousands of moves

Lucifer was wounded during the fight. His body was covered in injuries and blood. His hair was also disheveled, and he looked slightly pitiful.

Meanwhile, James was unscathed.

Boom!

They collided once again.

Lucifer was blasted away, and his body plummeted from the sky, slamming into the ruins.

In the distance, the Outsiders from the Three Thousand Worlds observed the match.

The strength James displayed was not inferior to that of anyone present. His strength was already comparable to the Outsiders from the Three Thousand Worlds.

Jace was shocked by the fight. He murmured, "This kid. It's only been a short while, but his strength is already comparable to mine. If I went up against him now, I might not be able to win."

"Did Lucifer lose?"

"Did he really lose so quickly?"

"That's impossible. He's the son of a Grand Emperor. The blood flows within him. It's impossible for him to go down so easily."

Everyone paid attention to the battlefield.

In the ruins of a mountain in the distance, a man covered in blood climbed out. His hair was messy, and he looked very miserable. He leaped into the air and reached out his hand to wipe his lips.

He looked at James in the distance, and a smile formed on his face.

"You're powerful, James. You've exceeded my expectations. Alright, warm-up is over. Next, I'll be going all out on you."

Lucifer's words startled the crowd.

The fight was incredibly intense, yet he was saying it was just a warm-up to him.

Everyone looked at the battlefield before them and the disheveled Lucifer. They began looking forward to Lucifer's following performance and anticipated the battle.

Lucifer stretched his body and said casually, "As expected from the Primordial Divine Ape Race's signature martial art move, Sacrilegious Ascension is indeed powerful. However, my clan also has similar Supernatural Power. It was created by my father and is called Supreme Form."

"Supreme Form?"

In the distance, many beasts frowned upon hearing the Supernatural Power.

"Could it be Emperor Xacobe's signature martial art skill, Supreme Form?"

“What’s Supreme Form?”

“I don’t know.”

Many Outsiders and beasts from the Three Thousand Worlds gathered here were from great families and knew a lot.

Some had heard of Supreme Form, while others were clueless.

Lucifer spoke again. “It’s a unique technique created by my father for those of our bloodline. It’s Supreme Form, also called Super Combat Form. You’re the first opponent to make me execute my Supreme Form.”

After speaking, Lucifer’s energy immediately grew stronger.

His long black hair began to flutter, and his hair stood on its ends.

Then, his black hair gradually turned blonde. At the same time, his physical strength also became more substantial. He no longer had a slender body but now had a burly physique.

His energy grew stronger as his hair color changed.

“Super Saiyan?”

When some of Earth’s cultivators saw his transformation, they could not help but think of a certain anime

After entering his Supreme Form, Lucifer became much more potent. He grinned at James and said, Let’s go again, James”

As soon as he finished speaking, he moved.

Everyone saw his afterimage, and he was already in front of James Lucifer landed a powerful blow on James, blasting him away

Lucifer’s Supreme Form was powerful, and all his traits were improved, especially his speed His movements were terrifyingly fast that James could not even react before he was struck

James felt a sharp pain in his chest. Before he could recompose himself, Lucifer launched another attack

In just a short moment, James was hit several times

Even though he had activated Sacrilegious Ascension and doubled his strength, he could not withstand

Lucifer's fierce attacks.

At that moment, James had no room to counterattack.

Is this all you've got, James?"

Lucifer taunted James while beating him up. "I'll be very disappointed if you're this weak."

James was unable to express his suffering.

Lucifer was too fast, and James could not block the attacks.

He quickly dodged and distanced himself from Lucifer. James appeared in the distance and panted. He looked at his bruised body and urged his Demonic Energy to repair the injuries throughout his body. His wounds quickly healed up.

Huff!

James took a deep breath.

He immediately urged all his strength and attacked.

Lucifer calmly received his attacks.

James was slightly weaker than Lucifer in terms of strength, speed, and reaction.

The two fought fiercely.

After a while, James was in a miserable state.

As for Lucifer, he was not in a good state either. His Blood Energy churned, and some parts of his body were red and swollen.

Boom!

They collided again.

After the two clashed, they quickly retreated.

In the distance, many powerhouses were watching the battle.

“Judging by the strength Lucifer and James displayed, they’ve reached the Mage Rank’s Third Stage. However, neither of them has stepped into the Mage Rank yet.”

“You’re wrong. It’s true James hasn’t stepped into the Mage Rank, but Lucifer is already at the early phase of the Mage Rank.”

“They’re so strong. It’s really impressive. The gap between their physical strength isn’t far apart. But, after Lucifer activated his Supreme Form, his physical strength improved significantly and surpassed James’ greatly.”

“That’s right. James is using Sacrilegious Ascension but only can increase his strength and not strengthen his physical body. Because of this fact alone, Supreme Form is much stronger than Sacrilegious Ascension.”

While the two were fighting, some powerhouses commented on the match from a distance. At the same time, they also measured whether they could defeat either one of them.

On the battlefield, the intense match continued.

The two fought from the ground into the sky and back to the ground again. Their movements were incredibly fast. Apart from the powerhouses, the other spectators could not even see them clearly.

They exchanged about tens of thousands of moves.

None of them gave their opponent a chance to breathe.

After fighting for a while, James had used up much of his True Essence. He quickly distanced himself and panted.

Lucifer also retreated into the distance and panted while looking at James. A faint smile formed on his face. “You’re really good, James. Let’s have another round!”

With that said, he took the initiative to launch an attack.

“You still want to go again?” James cursed loudly.

James quickly dodged. Suddenly, black mist erupted from his body and gathered to form a black lotus

The black lotus appeared before him and had a strange yet frightening aura.

As soon as Lucifer got close, black energy burst out from the black lotus and rapidly transformed into a long sword, darting at Lucifer.

Lucifer did a backflip and leaped high into the sky. At the same time, a dazzling long sword appeared in his hand.

His long sword glowed and constantly shot Sword Energy out, parrying the long black sword coming at him.

The long black sword was shattered into black energy and surrounded Lucifer's body.

"Haha!"

Lucifer burst out laughing. "James, aren't you being a little naive? How can you use the Demonic Lotus against me?"

After Lucifer's laughter resounded, the black energy surrounding him was absorbed by his body.

Seeing this, James frowned.

The Demonic Lotus was a deadly weapon.

If his opponent were someone else, they would immediately be sucked dry and turned into dummies.

However, it was ineffective against Lucifer.

With a thought, James retracted the Demonic Lotus. He chuckled and said, "I forgot you're from the Demon Race. Moreover, you're the Demon Emperor's son. The Demonic Lotus isn't going to work on you."

"It's over, James."

Lucifer floated in the air with powerful energy emanating from his body. His long golden hair fluttered in the air.

"If those are all the trump cards you have, then I'm the winner of this match."

"I wouldn't say so."

James smiled faintly.

He raised his hands, and two different energies formed in his palms.

The two strands of True Energy fused and formed a brand new force. The powerhouses in the distance were shocked as they sensed the force.

“Wh-What terrifying force.”

“What kind of Supernatural Power is this?”

“The Elephant King died after being struck by this technique.”

James unleashed Cosmic Destruction.

It was the move he used to kill the Elephant King.

“Is this your last move?”

Faced with James’ ultimate move, Lucifer remained calm. He smiled lightly and said, “Alright, I’ll withstand this move so you can finally admit defeat.”

The Almighty Dragon General Chapter 2387—Lucifer had watched James fight before and knew the power of Cosmic Destruction. However, he was not afraid and was confident in withstanding James’ attack.

From what he knew, James’ ultimate move was Cosmic Destruction.

Under many watchful gazes, black energy emerged from Lucifer’s body. They quickly gathered and materialized, turning into a set of black armor.

He was immediately dressed in black armor and a black helmet.

At that moment, Lucifer looked like a Demon Emperor.

“What?”

Everyone was startled.

“What kind of Supernatural Power is that?”

“His Demonic Energy turned into armor?”

Everyone’s eyes widened as they watched the scene in shock.

Dressed in new armor, Lucifer looked at James and said, “Make your move, James.”

“Attack.”

James' two stands of energy had gathered to form True Lunar and Terra Essence and attacked Lucifer with great strength.

Lucifer stood in place like a motionless mountain.

Boom!

The True Lunar and Terra Essence exploded around Lucifer's body.

The powerful force caused ripples in the air, continuously spreading in all directions and destroying the surroundings.

After a while, the sky returned to calm.

Lucifer stood in place, but the black armor on his body was damaged. Still, he was unscathed by the attack.

“James.”

Lucifer said, “I must admit, your ultimate move is really powerful. My Demonic Armor can resist attacks from those in the Tribulation Rank's early phase. However, you almost destroyed my armor. On top of that, you haven't even reached the Mage Rank yet.”

James observed Lucifer.

Lucifer's energy was still very stable, and it was obvious the Cosmic Destruction did not cause any substantial damage to him.

James frowned.

He already used Sacrilegious Ascension, which significantly improved his strength. Moreover, Cosmic Destruction allowed his strength to increase even more. However, he was still unable to hurt Lucifer.

Lucifer was terrifyingly strong.

“Are you out of moves yet, James?”

Lucifer's voice sounded again. “Since you've nothing left, admit defeat and submit to me. I won't mistreat you.”

“Out of moves?” James smiled faintly.

"I just finished warming up, Lucifer. Why did you assume I'm out of moves?"

James' voice sounded.

"What?"

Those watching the battle from afar were shocked.

"They were engaged in such a fierce match, but he's saying he's just finished warming up?"

"He's putting on such a big act."

"James can't do anything but spout self-aggrandizing statements now."

Many powerhouses discussed the fight.

Everyone thought James had run out of moves and had already used all his martial art skills.

"Haha."

Lucifer chuckled lightly and said, "If that's the case, let's continue. I want to see what else you have left."

At that moment, James activated the dragon bone's power. Immediately, the dragon bone glowed with a golden light. The inscriptions within the dragon bone were stimulated, and a powerful force was unleashed. The energy surged through James' limbs and bones, allowing his strength to elevate again.

"What?"

"James' energy grew stronger again."

"His current energy feels as if it's about the Mage Rank's Third Stage."

James' energy kept escalating.

The dragon bone's power was really powerful, and its inscription was also overpowering.

Even though James could not comprehend them, he still gained a lot of strength from them.

At that moment, the sky suddenly became cloudy.

Lightning pierced through the black clouds."

Sophie's voice came from inside the Celestial Abode. "James, stop using the dragon bone's power to increase your True Essence right now. If you continue doing so, tribulation will befall you."

In the distance, all the powerhouses were stunned.

"His energy is terrifying. Is he about to reach the Tribulation Rank?"

"It must be since the lightning tribulation has appeared."

Seeing the black clouds in the sky, many powerhouses had shocked expressions.

Even Lucifer's expression became solemn. Suddenly, a playful smile appeared on his face. "James, James. I really underestimated you. Although you've only reached the Immortal Ascension's Sixth Stair, you can raise your energy to the Mage Rank. Tsk, tsk. You're really impressive."

Lucifer gave James a thumbs up.

He had never admired anyone.

At that moment, he was really impressed by James.

Hearing Sophie's warning, James stopped urging the dragon bone's power. In fact, he had already unleashed the maximum strength of the dragon bone. James looked up to the sky and saw the silver- white bolts of lightning, and his heart palpitated.

Thus, he suppressed some of his True Essence.

After he suppressed his True Essence, the clouds in the sky dissipated.

James smiled at Lucifer and said, "I'm in my strongest state now. If you defeat me this time, then I'll admit my defeat."

After James spoke, his body flickered, and he appeared directly before Lucifer. He clenched his fists and threw a punch at Lucifer.

His punch contained two kinds of True Essence and all his physical strength.

James' movements were so fast that Lucifer could not even dodge. Previously, there was already a crack on his Demonic Armor. This time, James' punch caused a hole to form in the Demonic Armor.

Lucifer's body was also sent flying.

His body was knocked a few kilometers away before he could regain a firm footing.

He had a solemn expression, and blood dripped from his lips.

He reached out and wiped the blood from the corner of his lips.

"Interesting. This is very interesting." Lucifer chuckled.

Faced with James' peak strength, he laughed. Then, the energy from his body immediately increased, and his blonde hair gradually became blue.

Soon, he was out of breath.

His hair did not completely turn blue, but a few blonde strands remained and were mixed among the rest.

Despite that, his current energy was inferior to James' energy.

Lucifer grinned and said, "By the way, I forgot to tell you I was only using the First Combat Form just now. Right now, I'm using my Second Combat Form. No, I'm not really in the complete Second Combat Form yet."

James frowned.

He thought he would win.

However, Lucifer also had more tricks under his sleeves.

Moreover, Lucifer had a very impressive origin. James was unsure of what other hidden skills Lucifer would have left.

James still had one more ultimate move, which was related to the 108 Infinity Steles.

However, he was not confident in beating Lucifer with it.

“You’re powerful, Lucifer. How about we end this match in a draw? If we continue fighting, we might fight until one of us dies. It’s not the outcome you want, nor do I want this to happen.”

James thought about it and chose to compromise.

“Oh?”

Lucifer smiled. “If it’s a draw, then what about our bet? Should I continue to send beast armies to attack the humans?”

James’ expression darkened, and he replied, “Then, let’s continue the match.”

The Almighty Dragon General Chapter 2389–Chapter 2389

Lucifer’s energy grew stronger once again after he entered the Second Combat Form. His current energy was comparable to that of James.

However, Tribulation Clouds did not form, meaning he had not reached the Tribulation Rank yet. Still, he was not far from it.

James proposed a draw and wanted to avoid continuing the battle because both of them would end up severely injured. However, he had made a bet with Lucifer.

Humanity would have peace for ten thousand years if he defeated Lucifer.

“Alright.”

Lucifer stretched his muscles.

He knew James was very powerful, powerful enough for the Tribulation Clouds to form, which meant that his strength was at the Tribulation Rank.

Despite that, Lucifer was not afraid.

As the son of a Grand Emperor, Lucifer learned a lot of Supernatural Powers when he was young. Any one of them was enough to severely injure James.

With a thought, Demonic Energy emerged from his body and surrounded him to form another black armor.

Then, Lucifer gestured for James to attack. "Make your move, James. Let me see what else you have left."

Swoosh!

James raised his hand, and a long golden sword manifested in his hand. It was the Primordial Dragon Blade, which was forged with a dragon bone and Ascenium Steel. Sophie mentioned that it was very powerful.

With the Primordial Dragon Blade in his hand, James emitted a powerful aura. He pointed the sword at Lucifer and said solemnly, "I won't show any mercy, Lucifer."

Lucifer laughed. "Haha. Please don't hold back at all."

After he laughed, a sword appeared in his hand. It was a black sword with strange inscriptions on it. As the sword appeared, the surrounding space became distorted.

"This sword?"

"What terrifying power."

"I-It's the Demon Emperor's weapon!"

As soon as the sword appeared, the powerhouses watching the battle from a distance felt a terrifying power.

"That must be it! It's the Demon Emperor's sword."

"I-It really is the Demon Emperor's sword."

Many people exclaimed.

Lucifer, on the other hand, remained calm. He looked at the sword and said, "This used to be my father's long sword. It's called Hadean. It's my clan's treasure. Many powerhouses have died by this sword. Using this sword might be considered toying with you, but without it, I might not be able to defeat you."

After their prolonged battle, Lucifer could grasp James' strength.

At that moment, James' strength was at the Mage Rank, and he was almost unbeatable by others at the same rank.

Only a powerhouse at the Tribulation Rank would be able to defeat him.

James looked at Lucifer's sword. Inscriptions flowed on the black sword's blade. It was very mysterious, and James felt pressure coming from it.

"Time to end this fight," said Lucifer.

After he spoke, his body flashed in front of James.

James raised his sword to parry the attack.

Clank!

A crisp sound resounded through the air.

The Primordial Dragon Blade was instantly shattered. James felt an intense pressure sweeping over him, causing him to vomit blood.

His body fell to the ground and sank into the soil.

The Imperial Weapon was incredibly terrifying. It was his father's sword, so it was very compatible with him.

It gave Lucifer great strength.

With just one move, Lucifer defeated James, who was in his strongest state.

"The Imperial Weapon is really powerful. James is no match against it."

"Yeah. It's the Imperial Weapon that the Demon Emperor wielded. If Lucifer wanted to, he could even kill a powerhouse at the Sage Rank."

"What is a powerhouse at the Sage Rank in the face of the Imperial Weapon?"

The Almighty Dragon General Chapter 2390—Many people were shocked and overwhelmed by the Imperial Weapon.

James' body sank into the ground. He immediately mobilized his True Energy, flew up, and landed firmly on the ground.

He looked at the Primordial Dragon Blade, picked it up, and put it into the Celestial Abode.

"Admit defeat, James."

Lucifer's voice resounded. "With the Imperial Weapon, I can even kill a powerhouse at the Sage Rank. If you submit to me, you'll have access to great boons and get to climb to the top, becoming one of the strongest people."

Lucifer held his long black sword with a calm expression.

James frowned.

Admit defeat?

Impossible. If he admitted defeat, the humans on Earth would be doomed. Earth would become the beasts' territory, and humans would be enslaved.

It was something he absolutely refused to see happen.

"The Imperial Weapon can kill a powerhouse at the Sage Rank, but it can't kill me."

James looked at Lucifer before him and said slowly, "I didn't want to use my last trump card, but I've no choice but to do so now."

"Oh?"

Lucifer was intrigued. He looked at James curiously and said smilingly, "I have the Imperial Weapon. What do you have that can compete with it?"

With a thought, the 108 Infinity Steles emerged out of his body. James leaped 100 meters into the air, and the Infinity Steles floated around him.

"Huh?"

"What are those?"

"The Infinity Stele?"

"Isn't there only one piece? Why does he have so many?"

Seeing the 108 Infinity Steles, all the humans and beasts were shocked.

"Could it be James went through all one hundred and eight Infinity Cities and obtained all of the Infinity Steles within them?"

"Huff!"

"James has a lot of treasures on him."

"The Infinity Steles must be great treasures."

Many people were envious of him.

James floated in the air, and the 108 Infinity Steles surrounded him. Each Infinity Stele emanated with strength no weaker than the Imperial Weapon.

However, James' strength was limited, and the Infinity Steles were not a powerful weapon in his hands.

They were merely some heavy weapons.

"How about you try to make a move, Lucifer?"

James' voice resounded.

Following the sound, the 108 Infinity Stele rotated around James and formed a formation.

"Damn it."

Seeing the Infinity Stele, Lucifer could not help cursing, "He sure has a lot of treasures on him."

However, Lucifer was unwilling to surrender after fighting for so long.

He gripped his long black sword and leaped into the air. A terrifying power exceeding his current cultivation rank emerged from the long sword.

The Imperial Sword was overpowering, and even Lucifer trembled, barely keeping his grip on it.

Lucifer raised the black Imperial Weapon and slashed it at James.

The grounds trembled, and the skies darkened, making it seem like the world was about to end.

His dazzling Sword Light darted at James with terrifying strength.

The Sword Light made even a powerhouse like Yuvaan tremble in fear. He slightly stepped back. Meanwhile, the other beasts trembled even more.

However, James was fearless in the face of the terrifying sword. The Infinity Steles around him glowed with black light rays. They connected with each other and formed a potent formation.

Boom!

The terrifying sword attack clashed with the Infinity Steles' formation.
