The Almighty Dragon General Chapter 2511—They stood before the abyss.

James peered at the abyss before him, which was filled with a black aura.

The black mist blocked his vision, making it difficult for him to see what was inside.

Sophie said, “The region outside is still considered safe.

If they’re fortunate, even ordinary living beings can reach there by traversing the Ancient Magic Circle.

However, this is the true restricted area of the Demon Realm where even Grand Emperors would not dare barge in recklessly.” Hearing this, James furrowed his eyebrows.

“Even Grand Emperors?” “Yes.” Sophie nodded and said, “Legend has it that there’s an Emperor-Annihilating Talisman here.

It was left behind by powerful figures in the Primeval Age to prevent Grand-Emperors from coming here.” James asked puzzledly, “Why do they want to prevent Grand Emperors from coming here?” Sophie shook her head, “I don’t know either.

When Emperor Jabari came here, my strength was still weak, and he didn’t tell me a lot of things.

He only mentioned that this place is a restricted area of not just the Demon Realm, but the entire universe.

If I’m not mistaken, Xandros Tegan, the lord of the Human Realm, is trapped inside the Demon Abyss.” James smiled bitterly and said, “If even a Grand Emperor could die, will I even stand a chance?” Sophie shook her head and said, “Not necessarily...

The Emperor- Annihilating Talisman only targets powerful cultivators.

You’re not especially strong, considering that you have yet to cross into the Sage Rank, so you might not die from entering the depths of the Demon Abyss.

If you’re fortunate, you might even obtain incredible providence.” Hearing this, James gulped.

Even if he could obtain providence at a place where even Grand Emperors would not dare enter, he would be invincible.

“T won’t be accompanying you for the rest of your journey.

I'll be returning to the Celestial Abode." Sophie said.

Then, in the blink of an eye, she turned into a white light and entered the ring on James' finger.

In the next instant, she was already back inside the Celestial Abode.

James, meanwhile, looked at the Demon Abyss before him.

Due to the black mist, he could not see or sense how large the place was.

Not only that, but the powerful aura here prevented his Divine Sense from spreading to the surroundings and observing the situation.

He could only see the scenery before him.

Before him was a steep cliff.

However, this was nothing to him.

"I hope Xandros is in the Demon Abyss.

Fingers crossed that everything goes well." Standing before the Demon Abyss, James took a deep breath.

Then, he leaped into it and descended into the abyss below.

This place was treacherous, and even Grand Emperors could be destroyed by the Emperor-Annihilating Talisman and lose their lives.

However, along the way, James did not encounter any danger.

After plummeting for three days, he finally arrived at the bottommost part of the Demon Abyss.

The Demonic Energy here had completely disappeared, and there was only darkness all around him.

However, since James was a cultivator, the darkness did not affect his vision.

Scanning his surroundings, he noticed some mysterious linear characters on the cliff behind him.

He had no idea if they were carved onto the cliff by someone or if they were simply natural.

The ground was pitted and scarred, with limbs and bones scattered everywhere.

There were humanoid bones as well as those belonging to some unknown monsters.

James took a deep breath.

“What is this place? Why are there so many skeletal remains here? Could it be that everyone who came here is dead? Is there not a single survivor?”

The Almighty Dragon General Chapter 2512–The ground was covered with skeletal remains.

Ordinary skeletons would not last long before disintegrating into nothingness.

However, although countless ages had passed, the skeletal remains in this place were all well-preserved.

This indicated that the ones who came here were all peerless fighters.

After all, who else would dare intrude besides those who were unrivaled? “Where is Xandros trapped?” James scanned his surroundings.

As the abyss was huge, he could not see the end at a glance.

Puzzled, he proceeded with caution.

There were skeletal remains everywhere, which puzzled him.

Why were there so many skeletal remains on the ground? Did a fierce battle break out here? James found it hard to believe that every living being that came here was dead.

The only explanation was that a fierce battle had broken out here in the past, and many were involved in the conflict.

However, they were all dead.

As he stepped on some skeletal remains on the ground, they instantly shattered and turned into ashes.

The bone ash was swept up, and a nauseating smell filled the air.

Right then, an immense power materialized from within the Celestial Abode and shielded him.

At the same time, Sophie's voice came, "James, there's a certain venomous insect in the Demon Abyss.

Even a cultivator at the Divine Rank would be poisoned.

Those who came here perished due to the poison.

The bone ashes contain deadly poison, and you'll die immediately the moment you come into contact." Hearing this, James' blood ran cold.

Fortunately, Sophie protected him in advance.

Otherwise, he would have been dead.

"Sophie, where do you think Xandros is imprisoned?" James asked.

Sophie's voice came, "I don't know either.

The Demon Abyss is a huge place, and even Emperor Jabari couldn't completely understand the place.

So, I'm afraid I can't help you out here.

Look around and try your luck.

You just have terrible luck if you can't find Xandros." "Mhm." James nodded.

Since Sophie said this, he could only search around patiently.

He proceeded with caution.

With each step he took, he stopped and scanned his surroundings.

Just like that, he pressed on into the Demon Abyss.

Meanwhile, in the Chamber of Scriptures beneath Mount Tai on Earth, the custodian was looking at a shadow.

The shadow said, "James had entered the Demon Abyss." Hearing this, the custodian furrowed her eyebrows and said, "The Demon Abyss is a terrifying place.

Even powerful figures could lose their lives there.

Can he really find Xandros and return safely?" The custodian was worried about James.

As she watched him grow, she did not want anything to happen to him.

The shadow said, "He should be fine.

After all, he's an extremely lucky person.

Besides, he has Emperor Jabari's Celestial Abode.

Back then, when Emperor Jabari entered the depths of the Demon Abyss, there was a powerful figure inside the Celestial Abode helping him out.

This same person should also help James out, so there's no point in us worrying.

We can only wait patiently for James' news." "Mhm." The custodian nodded.

There was nothing much she could do at the moment.

As such, she could only wait patiently.

Meanwhile, James proceeded deeper into the Demon Abyss in search of Xandros.

However, he knew nothing about him, nor the location where he was imprisoned.

As he had no clue whatsoever, he could only search around blindly.

Just like that, he searched around blindly.

In the blink of an eye, thirty years passed.

Thirty years was a long period of time for him.

In the Demon Abyss...
