The Almighty Dragon General Chapter 2831-Maveth said, "At this point, this is the only option.

Let's first strike and defend Qhuv." After giving it some thought, Matilde said, "Alright."

James had no idea that while they were fighting Qhuv with all their might, Maveth had already made a decision and was making allies with the intent to defend Qhuv.

Qhuv was surrounded by enemies, alone and helpless.

While facing the attacks of five extremely powerful cultivators, he used every tactic he had.

He had even used the Fatal Realm's most terrifying signature skill, the Lethal Blade's Fury.

The Lethal Blade's Fury was a signature skill created by the Fatal Emperor.

This signature skill was extremely powerful, and when combined with the Imperial Weapon, the Lethal Blade, its power was amplified even further.

On the other hand, James and the others had yet to use their ultimate moves yet.

They did not use their strongest signature skills.

They were also slightly ruffled by Qhuv's attacks.

Nevertheless, they had yet to be injured, whereas Qhuv was constantly injured.

After one round of combat, roughly one-tenth of the crystal in Qhuv's body had been expended.

This one-tenth of the crystal merged completely with his physical body and Sage Energy, and his physical strength was enhanced.

His Sage Energy was also enhanced.

The more he fought, the bolder he became.

When James noticed that, despite being hit repeatedly, Qhuv's aura was growing stronger, he could not help but be surprised.

He connected telepathically with the others and said, "We can no longer have mercy on him.

We must now use all of our strength to eliminate Qhuv as soon as possible.

Since the expended crystal is converted into his strength, the more his crystal is depleted, the stronger his strength becomes.

If we keep fighting like this, we will all experience depletion of our crystals.

This is very detrimental to our upcoming battles.” James’ voice was heard in the minds of Lucifer, Feb, Brielle, and Qusai.

After hearing James’ words, Lucifer was the first to act, using all of his power.

He entered his Super Combat Form in an instant and went straight into the Fourth Combat Form.

It was actually not his strongest.

The Fifth Combat Form was his maximum power.

However, now was not the time to display his full strength.

He withheld some of his power.

After he entered the Fourth Combat Form, the aura on Lucifer’s body was far too terrifying.

At this moment, he seemed like a devil, high and mighty, with a dreadful aura erupting from his body.

“Howl.” Qusai no longer held back as well.

He growled before transforming into a wolf.

He was a wolf covered in snow- white fur.

His fur was all standing on end.

Once he reverted to his bestial form, Qusai’s aura was far too powerful.

His aura was that of royalty.

“A Primordial Snow Wolf?” “7 never anticipated James to have such powerful assistance at his side.

Aside from the Gorger, there is also the Primordial Snow Wolf.

Among the Ten Primordial Fiends, James has two of them by his side.” Qusai was a prince of the Fiend Realm.

His father was the Lord of the Fiend Realm, the Supreme Demon Emperor.

The Fiend Realm was one of the most powerful worlds.

They had quite a lot of Grand Emperors.

All of these powerhouses had survived since the Primordial Age because, during the Primordial Age, the Fiend Realm sealed itself off and avoided the massive battle.

Both the Celestial Ant Race and the Multicolored Flame Python were from the Fiend Realm.

Following Qusai’s transformation into his original form, Feb also transformed into her original form, a gigantic Gorger.

Brielle was not negligent either.

She utilized her most powerful ultimate move, and a green lotus appeared on her head.

James no longer hid and immediately used Sacrilegious Ascension.

He entered his strongest state.

Previously, he was concerned that after using Sacrilegious Ascension, he would enter a period of weakness.

Only now did he remember that when one was hurt, only the crystal would be consumed.

He would not be weakened.

“T-This is their most powerful state.

They want to get rid of Qhuv right away.” Many powerhouses were astonished.

The elimination battle had finally begun.

The Almighty Dragon General Chapter 2832-The five of them, James and the others, were all in their strongest state.

In such a state, they could duel anyone present on their own.

Right now, all five of them were up against one person.

The battle had lost its suspense.

As Qhuv watched this unfold, his expression grew graver.

One against five.

He did not have any advantage in the first place.

Now, his opponents were no longer showing mercy and had all entered their strongest state.

The following phase would actually be the most challenging for him.

As he faced these five incredibly powerful individuals, there was a hint of despair in his heart.

However, he did not blame anyone.

He only blamed himself for his bad luck.

If James did not target him early on, with his strength, he would definitely advance to the end.

“Haha.” He laughed wildly as his rage overcame him.

“T£ you want to eliminate me, I’m going to make you pay a hefty price as well.” Qhuv’s voice rang out.

His roar echoed throughout the arena like thunder.

It was deafeningly loud, and the vibration rendered many living beings’ eardrums numb.

“Attack all at once.” James’ voice rang out, “Eliminate him as soon as possible so that we can move on to the next target.” Following the sound of James’ voice, a few other extremely prominent figures approached Qhuv at the same time.

“Qhuv, I will help you.” At this precise moment, a voice came over.

As the voice rang out, a silhouette appeared in front of Qhuv on the battlefield.

When Qhuv saw that it was Maveth, a smile immediately appeared on his face.

He said, beaming, "Maveth Emmet, is that you?" He and Maveth were complete strangers.

They had never met before and did not cross paths.

He was a little perplexed as to why Maveth would assist him at this particular time.

At this moment, Matilde appeared on the battlefield as well, in front of Qhuv.

She glanced at him, then at Maveth, and called out, "Maveth." Watching this, James and the others were slightly stunned.

Maveth looked at Qhuv, smiled faintly, and said, "James, the brat, has gone too far.

He roped in a few allies with the intention to get rid of you.

What you said is correct; after he eliminates you, the other living beings will follow.

Right now, we can only work together to first get rid of James and the others." Maveth knew that even if the three of them worked together, dealing with the other five, including James, would still be quite difficult.

At this point, he wanted to enlist more powerhouses.

If he could draw in two more, it would be five against five, and they would have a huge chance of success.

Maveth looked at the surrounding living beings who remained unmoved and said loudly, "Everyone, are you still not going to take action at this point? James has already roped in so many people.

If we don't strike together and eliminate them first, he'll deal with you slowly next." Maveth's voice rang out.

The living beings present were aware of this.

However, the battle had just begun.

They all had plans in mind.

They wanted to wait for the others to be eliminated first, then sit back and reap the benefits.

Even if James continued to eliminate others, his crystal would deplete.

This would be beneficial to them.

Maveth's voice resounded, yet no living beings stepped forward.

"Count me in." A voice rang out.

Many living beings turned to look in the direction of the voice.

A man walked out slowly.

He was wearing a black robe.

On his face was a cold and detached expression.

"Yorick?" "why is he getting involved now?" As they saw the living being who was walking out, a lot of living beings were taken aback.

Yorick strode up and soon appeared on the battlefield, in front of Maveth.

He looked at him, gave a faint smile, and said, "I agree with what you said.

Now, we can only join hands for the time being and destroy James and the others." Qhuv was incredibly relieved to see so many prominent individuals step forward.

At the same time, the anger in his heart was growing stronger.

He tightened his grip on the Lethal Blade, his murderous intent visible in his expression.

The Almighty Dragon General Chapter 2833-James and the others looked solemn.

Brielle connected telepathically with James and said, "James, this can't go on.

If this keeps up, more formidable individuals will surely join the opponents.

This is extremely detrimental to us." Naturally, James was aware of this.

No more chances should be given to them.

If they were given more time, they would definitely rope in more powerful individuals.

In that case, they would be very passive.

"Charge!" James' voice rang out.

After his voice was heard, Brielle, Feb, Qusai, and Lucifer all struck simultaneously.

At this moment, their hearts seemed to be connected.

They appeared to have shared the same idea, which was to ignore Maveth, Matilde, and Yorick and go straight for Qhuv.

James was the first to strike.

With the Crepe Myrtle Divine Sword in hand, he took a step forward.

As soon as he strode, his body vanished from its original location, and numerous shadows appeared above the arena in the air.

Every shadow was emanating a powerful force.

Before Qhuv could react, countless shadows converged in front of him.

When the numerous shadows overlapped, a purple sword appeared, and a purple Sword Light manifested.

Qhuv raised the Lethal Blade in defense.

“Clang!” Instantaneously, a powerful force struck the Lethal Blade in his hand.

Qhuv’s arm went numb.

He lost his firm hold on the Lethal Blade he was holding for a brief second, and it dropped to the ground.

At this point, the Sword Light swept over him and immediately pierced his body.

Then it exploded inside of him.

Nonetheless, Qhuv was unharmed because the damage was absorbed by the crystal within his body.

During this time, the Lethal Blade, which had fallen to the ground, reappeared in his hand.

With great force, he swung down the Lethal Blade in his hand.

A circular Sword Light was formed and headed straight for James, cutting toward him.

James quickly dodged, avoiding this attack easily.

At this precise moment, Lucifer arrived.

The Imperial Weapon in his hand struck Qhuv once more.

When he was hit, a green lotus swept over.

The green lotus emitted a green light that illuminated the entire sky.

From the sky, a green light descended, engulfing Qhuv.

Cracks appeared in Qhuv's physical body.

The cracks healed as soon as they appeared.

Feb and Qusai had also begun launching ferocious attacks at the same time.

In a matter of seconds, a barrage of attacks was launched.

Before Maveth, Matilde, and Yorick could even react, Qhuv had suffered a round of attacks.

If it were not for the fact that he could not be hurt, he would have lost his ability to fight at this point.

However, once the crystal was obtained, as long as the crystal was not completely depleted, one would still have fighting strength.

Aside from that, their fighting strength would continue to grow.

Qhuv's crystal had been greatly depleted.

The parts that were expended became his own strength, his physical strength.

His aura grew frightening once more.

"Why are you still standing there? Attack all together!" Qhuv roared angrily.

In this instant, Maveth, Matilde, and Yorick all went into a combat state.

Yorick transformed and immediately entered his third stage of transformation.

Maveth turned into his bestial form, a golden ant.

Matilde morphed into a massive python with brightly colored scales.

"Wha—?" "A Celestial Ant and a Multicolored Flame Python?" ot Phew.

» “IT never expected four of the Ten Primordial Fiends to show up here.” “They are of the Ten Fiends’ bloodlines.

Who among them is the most powerful?” After they saw Maveth and Matilde transformed into their bestial forms, many living beings who were watching the battle were stunned.

The Almighty Dragon General Chapter 2834-The Ten Primordial Fiends were the ten behemoths of the Fiend Realm during the Primordial Age.

All of these ten fiends were at the Grand Emperor Rank and well- known during the Primordial Age.

It was never determined who was the strongest and who was the weakest of the Ten Fiends.

The reason for this was that, while they were all from the Primordial Age, they did not all belong to the same time period.

Among them, the Gorgers were the first to appear.

They appeared at the beginning of the Primordial Age.

Conversely, the majority of the others emerged in a later period.

Right now, four of the Ten Fiends had appeared.

The living beings present were all eager to find out which of these four vicious beasts was the strongest.

With the addition of Maveth, Matilde, and Yorick to the battle, Qhuv’s side grew to four.

Meanwhile, there were five on James’ side.

“We’ll each deal with one,” James promptly made a combat analysis and said quickly, “Brielle, stay out of the fight for the time being.

You’ll be watching from the sidelines.

Step in and assist anyone who is in danger.

During this battle, we'll aim to stay unharmed and avoid depleting the crystals in our bodies." "Leave the Celestial Ant to me," Feb said assertively, "The physical body of a Celestial Ant is said to be unrivaled.

I'd like to see if it's really that strong." James instantly reminded her, "Be cautious.

A Celestial Ant is not that easy." James had fought Maveth before.

He was well aware of how terrifying he was.

However, Feb scoffed coldly and said, "Are you looking down on me?" After she said that, she opened her huge mouth.

In her mouth, an extremely powerful force manifested and charged toward Maveth.

Qusai laughed and said, "Well, in that case, leave the Multicolored Flame Python to me." Lucifer shrugged and said, "Then I'll deal with Yorick." James smiled faintly and said, "You guys picked them all, so I'm left with only one option." James' gaze rested on Qhuv.

At this moment, in the arena, a fierce battle had already erupted.

Many prominent figures had begun fighting ferociously.

Damage from the battle continued to appear in the arena and was constantly repaired.

Qhuv's fixed his gaze on James.

He gripped the Lethal Blade in his hand, his face dark and menacing.

He said, enunciating each word, "James, in a one-to-one fight, you don't have any hope of winning." "Really?" James smiled thinly.

He was in his strongest state right now.

ot Die.

n Qhuv roared.

As his roar rang out, his long hair stood on end, and a dreadful aura erupted from his body.

He leaped into the air, emerging at a height of a hundred meters in mid -air.

"Lethal Blade's Fury." He held up the Lethal Blade in his hand.

The Lethal Blade became brilliant, emitting ray after ray of Sword Light.

Every Sword Light possessed the force to obliterate everything.

James dared not be careless.

He was aware that it was a battle of depleting crystal.

If he could, he would try to stay uninjured during the fight.

At this moment, he focused his mind, and an enormous Infinity Stele appeared in front of him, blocking the Sword Lights that were sweeping over.

One, two...

In an instant, a hundred and eight Infinity Steles appeared.

After the Infinity Steles appeared, they formed a formation and surrounded him.

The force of the Lethal Blade's Fury was very powerful.

It was a signature skill created by the Fatal Emperor.

Its power was not inferior to James' sword techniques.

If he did not use the Infinity Steles, James' crystal would have definitely shown wear after he was struck.

Nonetheless, that was not the case after he used the Infinity Steles.

The Lethal Blade's attacks were all blocked by the Infinity Steles.

Whoosh! A hundred and eight Infinity Steles rotated around James' body.

Immediately afterward, an Infinity Stele rushed forward and slammed at Qhuv.

Qhuv quickly resisted.

A Sword Light was formed and struck the Infinity Stele.

The Infinity Stele was jolted backward and smashed into the ground, instantly turning the arena into a bottomless pit.

"So powerful." James was astonished.

As expected of a powerhouse who had acquired a War Order.

His strength was actually quite terrifying.

None of those who were able to come here were weaklings, in actuality.

When he was up against Maveth, James felt stressed.

Right now, when he was facing Qhuv alone, he felt stressed as well.

However, that was all.

One after another, the Infinity Steles slammed forward.

Currently, James had yet to fully comprehend the Infinity Steles.

They were only heavy weapons in his hands.

Only a limited portion of their power could be harnessed by him.

He could only utilize the Infinity Steles' sturdiness and weight to attack his enemies.

The Almighty Dragon General Chapter 2835-Even so, Qhuv appeared a little worse for wear.

"Confinement." "Cycle of Time." While he was using the Infinity Stele, James also employed Curse Magic.

He instantly confined Qhuv.

Nonetheless, Qhuv's strength was too powerful.

With James' understanding of Curse Magic, he still could not confine him completely.

In an instant, he managed to break free from the Confinement and the Cycle of Time Supernatural Powers and stopped aging.

However, at this precise moment, James used his most powerful Sword Move, Samadhi Sword Intent.

A Sword Energy with unrivaled Sword Intent burst forth and pierced straight through Qhuv's body.

However, Qhuv attacked in response, striking the Infinity Stele with a terrifying Sword Light.

Although the Infinity Stele was blocking the damage, the crystal in James' body was showing a little bit of wear.

This tiny bit of wear instantly transformed into a terrible force and sank into James' body.

It merged into his Sage Energy and merged into his physical body.

"Ahhh!" Qhuv let out a roar in rage.

It was not that he was not powerful.

He was indeed quite powerful.

However, James had the Infinity Stele and many other tricks.

He felt he could not put his strength to use.

Currently, half of his crystal had already been consumed.

At this rate, he would be defeated very soon.

However, facing James, he was helpless.

Right now, he wanted to go around James and work with the other living beings first to eliminate others.

James appeared to have seen right through his thoughts.

"Confinement." As soon as he moved, James used Confinement.

Although he could only confine him for a few seconds, they were enough for James.

"Swordsmanship of Destruction." A powerful murderous intent emanated from within James' body.

The murderous intent spread throughout his entire body and spilled into the air.

Then, the murderous intent fused into the sword.

"Whoosh!" A ray of Sword Energy materialized.

The Sword Energy struck Qhuv right away and ran through his body.

Following this attack, the crystal in Qhuv's body was once again greatly depleted.

After this single sword attack, about a tenth of his crystal was immediately exhausted.

"argh! Damn it!" Qhuv roared furiously.

He turned around and swung his sword.

However, this attack landed on the Infinity Stele.

James did not experience any harm at all.

His expression was serene.

If this fight went on as it was, Qhuv would be eliminated sooner or later.

He struck once more.

Shadows that filled the sky were manifested.

"This move again?" Qhuv was fuming.

The attack was very odd.

He could not dodge it at all and could not resist it.

He could only passively defend himself by force.

Regardless, he could not resist it.

He could only watch as the crystal in his body showed depletion.

The moment the shadows merged, the Crepe Myrtle Divine Sword pierced his body once more.

The battle appeared to be tilting toward one side.

Even if Qhuv grew more powerful, he was helpless against James.

After a round of combat, less than a tenth of the energy of the crystal in his body remained.

He would be eliminated very soon.

The Almighty Dragon General Chapter 2836-James was fighting Qhuv.

Qhuv felt he could not put his strength to use and was completely under James' control.

Previously, when it was one against five, his crystal was already severely depleted.

Now, after another round of combat, his crystal had become even more depleted.

It was down to less than a tenth of its energy.

All of the previous energy was incorporated into his body.

His strength had significantly increased.

Despite this, he was unable to harm James.

He could not deplete James' crystal.

"Argh!" Qhuv continued to roar out of rage.

His roar continued to reverberate.

Upon seeing this, many living beings furrowed their brow.

Qhuv demonstrated tremendous strength.

He was not weaker than anyone else present.

However, when he faced James, he was reduced to such a miserable state.

All of them were considering what to do if they were personally James' opponents.

Within a short period of time, these living beings watching the battle began to have all sorts of ideas.

"Should we strike together and wipe out James and these few formidable foes?"
Prominent figures were communicating with one another.

These powerful figures originated from all over the universe.

They did not know each other in the first place.

Now that others were communicating with them telepathically, they were all secretly apprehensive.

They had no idea what each other was thinking.

If they were tricked, it would be troublesome.

“Qhuv, I’ll help you.” A voice rang out.

Immediately after that, a man flew over and appeared in front of Qhuv.

The man was 190 centimeters tall.

He was dressed in a golden robe and looked quite handsome.

As soon as he appeared, many prominent figures recognized him.

“A living being from the Autarch Realm had appeared.” “When an Autarch Body strikes, it is peerless.” “The Autarch Body.

It is a physical body more powerful than a Celestial Ant.” “This is getting interesting.” When the man appeared, he was recognized.

He was a notable figure, a prodigy from the Autarch Realm.

Though he was human, he had an Autarch Body, which was rare even during the Primordial Age.

As James saw the person that had appeared, he could not help but be taken aback.

‘At this point, someone is still stepping forward to help Qhuv.

Do they have a death wish?’ “Who’s there? Give me your name,” James’ voice resounded.

The man in the golden robe looked at James who had an imposing manner, smiled faintly, and said, “The Autarch Realm, Wilvalor Wynfir.” “very good,” James said coldly, “At this point, you still dare to come forward.

That indicates you are powerful enough.

In that case, attack together.” James exuded a magnificent presence.

He disregarded everything.

At this moment, Brielle appeared in front of James and said, “ James, I’ll help you.

I’ll hold up Wilvalor.

You'll deal with Qhuv and eliminate him first.

After fighting fiercely for such a long time, very little of his crystal's energy likely remains." "Mhm." James nodded.

He was going to fight against two by himself.

Now that Brielle appeared, he also planned to first take care of Qhuv.

"Wilvalor, your opponent is me," Brielle shouted.

Immediately afterward, she struck quickly.

"you're looking for death." Wilvalor scoffed coldly.

The two traded blows.

The battle became heated right away.

The Almighty Dragon General Chapter 2837-James seized the opportunity and quickly struck Qhuv.

Qhuv had employed his most powerful strategies.

However, when he faced James, he was attacked until he was unable to strike back.

Even though his crystal had been used and his strength had increased significantly, there was nothing he could do while fighting James.

In this arena, scrimmages continued to erupt.

Among them, James' battle was a trouncing.

In the subsequent fights, Qhuv kept taking hits, and his crystal was constantly drained.

In the blink of an eye, the fierce battle had lasted for an hour.

After an hour, the arena was filled with Sword Shadows.

Numerous shadows merged together and instantly formed a person.

As soon as James appeared, the Crepe Myrtle Divine Sword in his hand unleashed an extremely terrifying force.

This force swept over like an energy wave, directly attacking Qhuv's body.

Qhuv's body was sent flying backward.

When he was sent flying, his body vanished from the arena.

At this moment, the arena changed.

The scene in front of everyone gradually faded and then reappeared in the next arena.

Ahalo also appeared in the center of the arena.

"Wha—?" "Was Qhuv eliminated?" "Is this the second level of the arena?" The surrounding living beings were all perplexed as they looked at the new arena.

Lucifer, Feb, Qusai, and the others were all engaged in fierce combat.

They had now come to a halt.

"Very good," came a voice.

As the voice rang out, the Guardian reappeared in the arena.

As he looked at the remaining thirty-two living beings in the arena, he said with a smile, "Not bad.

I didn't expect a living being to be eliminated in such a short period of time.

I thought it would take a very long time." James felt utterly relieved after Qhuv was eliminated.

After such a long and intense battle, they finally eliminated one individual.

Aside from that, his crystal had barely diminished during the battle up to this point.

He did not leave his combat state and instead waited for the Guardian to speak.

He was certain the Guardian appeared because he had something to say.

Looking at the remaining thirty-two living beings, the Guardian pointed at the golden halo in the center of the arena and said, "Do you see this halo? If you enter it, you can disregard any damage.

Apart from that, your crystal will be restored.” When they heard that, many living beings were intrigued.

So, they could disregard any damage and also recover their depleted crystals? Previously, Feb, Lucifer, Qusai, Brielle, and the others had all experience a fierce battle.

In a clash between powerhouses, it was inevitable for them to get hurt and their crystals to show signs of depletion.

Although there was little depletion, there was still depletion.

They were now able to restore their crystals.

It was great news.

The Guardian continued, “Many more functions are available in the following arenas.

I wish you all the best of luck in making it to the end.” After the Guardian said that, he vanished from the sight of the numerous living beings.

Following his disappearance, James and the others quickly rushed to the center area, occupying it instantly.

The light beam at the center area was not particularly big.

It could only accommodate one person at a time.

Lucifer spoke first, “T fought with Yorick, and my crystal is slightly drained.

To prepare for the upcoming battles, I’m going to stop fighting now.

I’ll first stay in the halo and wait for the crystal to be restored.” James looked at Qusai, Feb, and Brielle, and asked, “What about you guys?” Feb said, “I actually didn’t expect the Celestial Ant to be so powerful.

I used all my strength and still could not do anything to him.

Besides, after a round of combat, my crystal has shown some wear as well.” Qusai also nodded and said, “The Multicolored Flame Python is indeed quite powerful.

We are evenly matched.

My crystal is slightly depleted as well, but not significantly so.” Brielle spoke next, “I simply stayed to the side and helped with the battle.

I didn’t suffer much harm.

My crystal is barely drained.” Upon hearing that, James felt greatly relieved.

After James and the others occupied the center area, Maveth, Matilde, and Wilvalor’s expressions were grave.

The three had huddled together and were conversing in low tones.

They wanted to take the center area.

The Almighty Dragon General Chapter 2838-Despite Maveth, Matilde, Yorick, and Wilvalor’s interventions, these few prominent figures were unable to defend Qhuv.

Now, Qhuv had been eliminated.

The arena had progressed to the second level as well.

After a round of battle, their crystals all showed signs of depletion.

Even though the depletion was not severe, at this rate, they would be eliminated very soon.

“What should we do?” Maveth looked at the center area.

He noticed Lucifer had entered the halo and had begun to restore his drained crystal.

He said, “As matters stand, we can’t give them a chance to take a breather.

Once their crystals are fully restored, we will be the ones to suffer as the battle continues.” Yorick’s face darkened.

He said, “So, what are we waiting for? Let’s go ahead and take it.” Matilde nodded and said, “Mhm.

I agree as well.

While Lucifer is in the halo and is unable to leave, they have one less powerful ally.

Let’s take advantage of this and attack together.” Wilvalor glanced at James and the others and said, “It seems to me that that woman is the weakest.

Let’s work together and attack her at the same time.

We'll eliminate her at the second level." Several powerful figures gathered and discussed countermeasures.

Other living beings had yet to take action since they were not in immediate danger yet.

They were all betting on their luck, thinking that James and the others would not attack them for the time being and that they were temporarily safe.

Right now, they were doing their best to stay out of the fray.

Meanwhile, James and the others were standing around the halo.

James said in a lowered voice, "From the looks of them, they'll be attacking soon.

If my guess is correct, they will cooperate and attack one of us with the intent of eliminating that person first." As he said that, he looked at Brielle.

"Brielle's demonstrated strength is the weakest in the fight thus far.

If I were Yorick and the others, I would choose to strike Brielle." Brielle furrowed her brow slightly and said, "I can still hold my own against one of them.

But if it's me against several, I have absolutely no chance of winning.

I'll be eliminated very soon." James looked at Lucifer, who was in the halo, and asked, "How's the restoration going?" Lucifer shook his head softly and said, "It's restoring very slowly.

There is hardly any recovery.

Given the state of my crystal's depletion, it will take more than a month to fully restore it." After giving it some thought, James said, "Since that's the case, don't restore it.

Come out first and let Brielle go inside.

One can ignore any harm when they are in the halo.

As long as they don't get out after going inside, they won't get hurt.

That means that if they don't get out at this level, they can steadily advance to the next level of the arena." Lucifer stood up straight away and walked out of the halo.

"Brielle, just go," said James.

Brielle was aware that James was acting in her best interests.

She did not hesitate and stepped right into the halo.

James looked at Yorick and the other powerful figures in the distance.

After pondering for a while, he said, "I didn't fight the Multicolored Flame Python or Wilvalor, but I did fight Yorick and Maveth.

In the current situation, Yorick seems to be the weakest." Lucifer nodded and said, "He is, indeed." He had fought Yorick and was aware of his strength.

He was not particularly powerful.

When he used the Fourth Combat Form, he was just able to crush him.

If he used the Fifth Combat Form, he could definitely defeat Yorick.

Feb glanced at Yorick and the other prominent individuals afar and said, "Then let's team up and first deal with Yorick." In the distance, Maveth, Yorick, and the other powerful figures were already planning to attack Brielle first.

They intended to cooperate and get rid of Brielle first, thus weakening the fighting strength of James' side.

However, James was well aware of what they were thinking, and Brielle entered the halo ahead of time.

"What do we do now?" When he noticed that these people were all staring at him, Yorick became aware of something.

His expression turned grim and he said, "It appears that they are going to attack me." Maveth glanced at Yorick and said, "There is nothing we can do.

We can only defend ourselves vigorously.

The other living beings are all wary of one another and unwilling to be allies.

Hmph.

They'll definitely suffer a great deal later on." Upon hearing that, a plan suddenly came to Matilde's mind.

"In that case, let's not attack James and the others for now.

Let's choose someone who has no allies and work together to eliminate them.

Then, when we reach the third level, perhaps our team will become more powerful.” Maveth thought for a while and said, “That’s feasible.” Yorick nodded.

“Mhm.

I’m in favor of that.”

The Almighty Dragon General Chapter 2839-Maveth scanned his surroundings, his gaze sweeping across each and every living being before settling on an unfamiliar man.

He said nonchalantly, “This person’s name is unknown.

I have no idea where he came from.

He looks like a pushover.” “He’s the one, then.” “Attack together.” After confirming their target, Maveth and the other prominent figures acted quickly.

The man who was being targeted seemed to be about twenty years old.

He was wearing a grey robe and had an average appearance.

He seemed to sense something.

Before he realized what was happening, several powerful individuals had already rushed toward him.

His expression changed.

This man was not a typical cultivator.

He was from a powerful world in the universe, called the Stellar Realm.

He was a Stellarfolk, and he wielded the power of the endless starry sky.

Originally, he was watching the fray in amusement from the shadows.

He did not anticipate that he would already be in peril.

In an instant, an extremely powerful force erupted from within his body.

As James and the others were about to attack Yorick, Yorick’s party had already struck the other living being.

James and the others were not in a hurry either and watched the action at the center area.

James smiled faintly and said, "Let's not rush and instead wait for a while." Both Qusai and Feb turned into their original form.

Lucifer returned to normal as well.

James also ceased the various Supernatural Powers that enhanced his strength.

They sat in the lotus position, close to the halo in the center, and began to watch with amusement.

Maveth, Matilde, Yorick, and Wilvalor were all very powerful.

Currently, several formidable figures were cooperating to deal with a single individual.

No matter how powerful the Stellarfolk were, he was outnumbered.

He was attacked until he was powerless to strike back, and he was continually injured.

Regardless, even though it was four versus one, the battle lasted more than three hours.

After three hours, the battle came to an end.

The Stellarfolk was eliminated.

The arena transformed once more and advanced to the third level.

Two halos appeared on the third level of the arena.

One was golden, situated at the center area, while the other was white and was in a corner.

As soon as they appeared at the third arena, James and the others sprinted for the halos since they were familiar with the advantages of the halo from the second level.

If they occupied the halos, they would be in an invincible position.

The others rushed toward the halo in the center area.

James, on the other hand, quickly dashed to the white halo in the corner.

During this period, several other living beings charged at the white halo in the corner as well.

James immediately entered his most powerful state, and the Crepe Myrtle Divine Sword in his hand formed potent Sword Energy.

Sword Energy burst forth and drove these powerful cultivators back.

His body instantly entered the white halo.

As soon as he entered the white halo, he sensed that there was a potent force within the white halo.

This force permeated his entire body.

In a split second, his strength was significantly boosted.

“Wha—?” James was surprised.

He assumed that the white halo would be the same as the golden halo.

Now, it appeared that they were different.

After entering the white halo, one’s strength would be significantly boosted.

The Almighty Dragon General Chapter 2840-After James entered the white halo, his strength was enhanced.

He took a moment to feel it carefully.

His strength had increased by about a rank.

After that, the white halo vanished.

At this moment, the Guardian appeared on the third level of the arena.

Following the appearance of the arena’s third level, the battle temporarily stopped.

The Guardian appeared in front of everyone, he looked at where James was standing, smiled, and said, “A halo will appear at this level.

After you enter the halo, your strength will temporarily increase.

The increase is not much, only about a rank.” When they heard that, many living beings fixed their gaze on James.

They were all astonished.

James was already terrifying enough.

Now that his strength had been increased by a rank, how could they fight him? The Guardian seemed to see through what the living beings were thinking and said with a smile, "This increase of strength is only temporary.

It doesn't last for a very long time.

When the duration is over, the halo that increases one's strength will appear in a corner in the arena at random." Many living beings finally felt relieved when they heard that.

The Guardian looked at the remaining living beings in the arena and said, "These thirty-three levels of arena represent the thirty- three levels of heaven in the Ancient Heavenly Court Age.

The Ancient Heavenly Court Age was a brilliant era.

During this era, there were many formidable cultivators.

These formidable cultivators all developed signature skills that were remembered for eons.

"However, the Ancient Heavenly Court Age ended for various reasons, resulting in the loss of these signature skills.

"And no the thirty-three levels of arenas, some lost signature skills will appear as well.

"Of course, there won't be any in the arena's earlier levels.

If you want to acquire these signature skills, you must progress to the later levels." The Guardian's words intrigued the living beings in the arena.

His laughter continued to reverberate.

"Of course, these signature skills that I mentioned are, at the very least, left behind by Grand Emperors.

They were well-known even during the Ancient Heavenly Court Age.

"Good luck, everyone." The Guardian's voice vanished, as did he from the arena.

James made his way quickly to the center area.

Brielle had already entered the golden halo in the center.

“James, has your strength improved?” Qusai asked.

James nodded and said, “It’s improved quite a lot.” Currently, James could feel the powerful force contained within his body.

He felt that he could fight five opponents by himself.

Feb scanned her surroundings and said, “Stop wasting time.

Let’s strike first and eliminate one person.

They eliminated one, and now it’s our turn.” James cast a glance over at Maveth and the other living beings nearby.

As he looked over, Maveth and the other living beings all backed away slightly, knowing that James’ strength had improved.

James was now a rank stronger than before.

He was not to be trifled with.

James smiled thinly.

He scanned his surroundings.

On the arena’s second level, Maveth and the other living beings attacked a Stellarfolk.

As a result, the living beings who were left alone and without allies all rushed to gather allies.

“Him.

” James haphazardly pointed at a man.

The man looked to be about twenty-five or twenty-six years old.

He was dressed in a gray robe.

He appeared skinny as if he was undernourished.

When he saw James pointing at himself, he was shocked and quickly backed away.

He then immediately looked around for allies, but the surrounding living beings all stayed far away from him.

“Let’s attack, then,” said Feb.

This time, she did not transform into her bestial form.

There was no need for her to transform when there were several of them versus one opponent.

James took the initiative to enter a combat state, turning into his most powerful state.

With the Crepe Myrtle Divine Sword in hand, his aura was magnificent.

The murderous intent in his body was overflowing.

This murderous intent fused into the Crepe Myrtle Divine Sword.

“James, what are you doing?” The expression of the grey-robed man who was being targeted changed slightly.

He said quickly, “D-Don’t attack me.

I’ll join you.

I’ll be your ally.” James said indifferently, “I’m sorry.

I don’t need other living beings on my team.

In this arena, some living beings will inevitably be eliminated.”
