The Almighty Dragon General Chapter 2841-After James finished speaking, his body vanished and reappeared before the gray-robed man.

The man saw a flash of Sword Light, and the next moment, a purple longsword was pointed at him before he could even react.

He wanted to dodge the attack but found that all his escape routes were blocked.

With no other choice, he could only keep retreating backward.

However, James' movements were swift.

He instantly closed the gap and thrust out his sword at the man.

The gray-robed man raised his hand, and powerful force emerged from his palm to block the Crepe Myrtle Divine Sword.

However, he was still weaker than James.

Moreover, James was using the First Swordsmanship, and his strikes were made with every intent to kill.

James called it the Swordsmanship of Destruction.

As soon as James attacked, the gray-robed man was punted away.

Sword Energy emerged from the Crepe Myrtle Divine Sword and pierced through the gray-robed man's body.

Under normal circumstances, the gray-robed man would have been seriously injured, if not dead.

Fortunately, he had a crystal in his body that absorbed the damage instead.

The gray-robed man hissed, "Damn it."

Feb, Qusai, and Lucifer also made their way over in the meantime.

They joined forces and barraged the gray-robed man with a flurry of vicious attacks.

The man was powerless in the face of the overwhelming onslaught from several powerhouses, and the novelebook crystal in his body was being continuously used up.

Seeing the fight, Maveth and the other creatures did not intervene but watched from a distance.

Maveth chuckled lightly.

“James’ group seems to be using the same tactic as ours. They’re also trying to weed out the weak first.”

Matilde nodded and said, “It’s necessary to thin the crowd. There are thirty-three arenas. With thirty-three creatures, one participant must be eliminated on each floor. As such, only one can reach the highest floor. The weak aren’t worthy of making it to the top.”

Weak? None of the participants that arrived in this place were weak.

Truly weak people were not capable of obtaining a War Order. However, James’ party consisted of several powerhouses.

With them ganging up on one person, even a peerless powerhouse would not be able to withstand their combined forces.

The fight lasted for about an hour.

After that, the battle finally ended.

The crystal in the other person’s body was completely spent and destroyed, and he was eliminated.

The surroundings began to change, and the surviving participants were transported to the fourth arena.

A golden halo shone down in the center of the fourth arena as well as the surrounding corners of the area.

Maveth and the other creatures already knew that light from the golden halos could increase their strength.

As soon as they appeared on the fourth floor’s arena, they quickly occupied the spaces around the vicinity of the golden halos.

James’ party was slightly slower and could not occupy one of these spaces.

However, they managed to claim the central region of the arena.

After going through the first two arenas, the creatures that had not allied themselves with anyone quickly grouped up.

Although they did not know each other, they all chose to cooperate momentarily to increase their chances of reaching the end.

Everyone was split into either groups of threes or groups of fives.

James looked around the fourth level of the arena and noticed the participants had grouped together.

His brows furrowed, and he said, "What should we do now?"

Lucifer glanced at Maveth and the other creatures in the distance.

Then, he said, "I have an idea."

James turned to him and said, "Let's hear it."

Lucifer said, "We should temporarily unite with the bean Celestial Ant Race and eliminate the other creatures first.

Then, we'll seize the final providence at the end."

"I..."

James hesitated.

'He wants us to join forces with Maveth, Matilde, Yorick, and Wilvalor?'

The Almighty Dragon General Chapter 2842-Lucifer said, "There are too many creatures in the arena right now. We must eliminate some of the weaker ones first. If we team up with them, we can do exactly that. When we're the only ones left, we'll fight them for providence."

James contemplated briefly and thought that Lucifer's suggestion was feasible. He looked at Feb and Qusai, then asked, "Do you two have any objections?"

The two shook their head and implied their agreement with Lucifer's idea.

James said, "If that's the case, we'll work with them for now. I'll go talk to them."

After he finished speaking, James approached the region where the Celestial Ant Race were located.

Seeing James walking toward them, the Celestial Ant Race and the other creatures immediately raised their guard.

James smiled brightly and said, "Don't worry. I'm not here to fight but to propose a suggestion."

Maveth looked at James coldly and said, "If you have something to say, hurry and cut to the chase."

James said, "I'd like to form a temporary alliance with you and weed out the other creatures. After that, we'll fight for the providence between ourselves. What do you think?"

He proposed the suggestion.

Yorick sneered smugly at him, and said, "Haha. Even if we unite now and take out the other creatures, you'll still have five people in your party. If we fight each other, my side will be disadvantaged since we have fewer numbers."

James shrugged and said, "That's not hard to amend. When we reach that point, we can have one-on-one battles with each other. The winner will proceed to the next round, and the loser will be eliminated."

There were no rules in the arena. So James had to make his own.

Maveth scanned the arena and saw that only a few had been eliminated since the previous round.

There were still many participants in the arena. He thought about it for a moment and said, "Alright."

The two agreed to form a temporary alliance.

There were five people in James' party —James, Qusai, Feb, Lucifer, and Brielle.

On the other side were Maveth, Matilde, Yorick, and Wilvalor.

Together, they had nine powerhouses.

The nine of them were invincible.

Very quickly, they gathered together.

The other creatures watched on warily after they saw the truce between the two formerly hostile teams.

James and Maveth's party did not give the other creature a chance to prepare themselves and quickly struck after choosing a target.

The knockout round officially commenced.

The union of the nine powerhouses made them almost invincible, and none of the other teams could counter them.

Not long after that, more than a dozen powerhouses were eliminated.

Only two teams were left behind.

One of the teams was James' alliance, and the other side was led by a member of the Primordial Demonic Ape Race.

The opposing team was composed of seven exceptionally strong powerhouses.

Half of the participants had been swiftly knocked out, and only sixteen people were left in the arena.

The two teams each took a corner of the arena.

Qusai asked solemnly, "What should we do now? Do we go for them? If we fight them, we'll likely sustain some damage and might wear out the crystals in our body."

During their previous fights, they all fought and assailed their targets together.

Therefore, they were able to effortlessly dispatch their opponents without bean wearing out their crystals.

James stared at the seven opponents before them and said, "These powerhouses are headed by Milo from the Primordial Demonic Ape Race. How about we attack Milo together and eliminate him first?"

James' party began to discuss their next step.

The team headed by Milo was also making plans.

"The woman seems to be the weakest. Let's work together to eliminate her first."

"I think it's doable."

"We'll attack simultaneously."

The Almighty Dragon General Chapter 2843-Their discussion concluded very quickly.

Right after James' side also quickly came to a decision.

As soon as they had sorted out their plans, all of them prepared themselves for battle.

James also did not hold back and used everything at his disposal.

He even summoned the Infinity Stele.

One of the Infinity Steles immediately rushed ahead.

The Infinity Stele enlarged and became 100 meters in size.

It hurtled into the distance with deadly force.

“Dodge!!!”

Many creatures quickly evaded the Infinity Stele.

Boom! The Infinity Stele crashed into the ground and created a deep pit in the arena.

The attack played a huge role in dividing the battlefield.

Milo's party quickly dispersed to dodge the attack.

In that moment, the powerhouses from James' alliance also immediately attacked Milo.

Milo did not expect the opponents to target him first.

However, he was a powerhouse and belonged to the Primordial Demonic Ape Race, one of the Ten Primordial Fiends. He immediately reverted to his true form, which had powerful physical strength.

At the same time, he activated a Supernatural Power similar to the Sacrilegious Ascension.

Milo resisted the series of attacks using his brute force and the enhancements from his Supernatural Power.

Then, he swiftly created distance from James and the others to regroup with his team members.

Concurrently, Milo's party immediately launched fierce attacks at Brielle.

James shouted, “Careful!”

He quickly dashed toward Brielle and shoved her behind him.

The Infinite Steles deflected their opponents' attacks.

James, on the other hand, was only mildly impacted by the shock and did not sustain substantial damage.

The crystal in his body still remained intact.

A fierce brawl broke out in the arena.

More than a dozen powerhouses were engaged in the battle, and various Supernatural Powers and treasures were unleashed upon each other.

Imperial Weapons, rare treasures, and all kinds of extraordinary Yogacaras appeared in the arena.

At this point, no one bothered to conceal their power and utilized every means at their disposal to come out on top.

The large brawl eventually turned into one-on-one battles.

However, James' alliance had more people.

This allowed James, Feb, and Qusai to team up against Milo.

Milo was very powerful and had tremendous physical strength.

However, James was not weak either.

James used everything at his disposal, and with Feb's assistance, he inflicted injury after injury on Milo.

This caused Milo's crystal to gradually be used up.

During the fight, James demonstrated the true might of his swordsmanship skills.

He used the First, Second, Third, and Forth Swordsmanship consecutively and forced Milo to retreat.

Moreover, James had grasped the concept of Murderous Energy and integrated it into his swordsmanship.

After fusing Murderous Energy into his swordsmanship, he named it the Swordsmanship of Destruction.

Although Milo was incredibly powerful, James' Swordsmanship of Destruction continuously dealt novel damage to him and eventually consumed his crystal.

The intense battle continued to take place.

Apart from James, who used all his ultimate moves, the other creatures tried their best to dodge as much as they could and avoid directly confronting anyone.

The fight went on for a very long time.

The entire arena was full of Sword Shadows.

These shadows merged, and James' physical body reappeared.

As soon as he reappeared, the Crepe Myrtle Divine Sword stabbed through Milo's body.

James then transformed into a beam of Sword Light and pierced Milo's body once more.

This gave Milo a gruesome wound.

Countless Sword Energies burst out from Milo's wounds, and his injuries immediately recovered.

At that moment, Feb also struck viciously.

A Devouring Force swept over to Milo and crashed into him.

Milo persisted for half a day against their non-stop attacks but gradually was unable to bear keep up, and the crystal in his body was depleted.

Milo was eliminated and disappeared from the arena.

The Almighty Dragon General Chapter 2844-Milo was incredibly powerful and endured for almost half a day despite being simultaneously attacked by James, Feb, and Qusai.

After defeating Milo, the remaining participants advanced to the next level of the arena.

There were many halos in the arena.

The contenders quickly occupied areas under the halos when they appeared in the new arena.

The halo in the made one immune to damage and could restore the energy of one's crystals.

The white halos gave one a temporary strength boost, while the blue halos also gave one a magical shield that temporarily improved one's defenses.

Lastly, the pink halos improved one's speed.

The halos were all immediately occupied by the participants.

James also managed to occupy one of the speed boosting halos.

At that moment, his speed improved tremendously, and he quickly made his way to the arena's central region.

Brielle stood under the halo in the center.

Soon, Qusai and the others also came over to the central region.

There were only six opponents left on the other team.

James said confidently, "There's only six of them left. Five of us will do one- on-one battles while the rest can attack the remaining one as a team. If we keep up with it, they'll all be eliminated very soon."

Maveth nodded and said, "Mhm. Sounds good. Let's do that now."

After they came up with a tactic, they quickly eliminated their opponents.

One participant from the opposing team would be eliminated every 12 hours.

Soon, there were only nine powerhouses left in the arena.

The final contenders were James, Feb, Qusai, Lucifer, Brielle, Maveth, Matilde, Wilvalor, and Yorick.

The nine of them were transported to the next arena.

This time, none of them rushed to claim the halos.

They all gathered in the arena's central region.

Maveth looked at James and the others, asking, "Now, there are only nine of us left. How do we proceed?"

James said smilingly, "We'll fight one-on-one as we agreed previously. The winner proceeds to the next fight, and the loser will be eliminated."

Yorick looked at James and asked, "Who'll go first?"

Wilvalor said, "Yeah, who's going first? Whoever fights first will be at a disadvantage."

James did not know how to respond.

The arena immediately fell into silence.

James began to secretly discuss with his comrades.

"My idea is that I'd fight in the first round of the one-on-one. After I eliminate one of them, they will only have three left when we proceed to the next level. When that happens, we'll attack the remaining three at once and eliminate all of them in one fell swoop. After we're the last ones remaining, we'll discuss who will seize the providence."

Strategies were essential on the battlefield.

James had already made plans for how to proceed.

Everyone looked at James and agreed with his plan.

After gaining their support, James stepped forward and said, "Since you guys think that the first to fight will be at a disadvantage, how about I volunteer myself for it? You guys discuss and see who'll be my opponent."

James looked at Maveth, Matilde, Wilvalor, and Yorick.

Seeing that James wanted to fight first, the four of them frowned.

They all knew that while James had the lowest cultivation rank among them, he had countless ways to compensate for it.

With that means at his disposal, James was actually the most difficult opponent.

Maveth, Matilde, Wilvalor, and Yorick remained silent.

None of them wanted to fight first, nor did they want to go head up against James.

"What's wrong? Does none of you want to fight?"

James looked at the opposing team and said, "Then this will be troublesome. Are we just going to stand around doing nothing?"

The Almighty Dragon General Chapter 2845-Maveth thought awhile and said, "We shouldn't have one-on-one battles.Regardless of the order, it will not be fair for everyone.I think we should dissolve our alliance and have a battle royale.Whether or not one reaches the end will then be dependent on their own strength."

"A battle royale?"

James frowned.

James was confident in his strength and knew he would definitely make it to the end.He was not worried about Feb and Qusai either.

However, he was most concerned about Brielle.

Brielle was strong, but she was weaker than Maveth and his party.

She would not make it to the end if they were to have a no-holds- barred battle.

"I'm fine with whatever," Lucifer said nonchalantly.

Lucifer was also confident in himself.

He obtained the greatest boon from the Second Calamity, the Elysian Inscription.

After analyzing it properly, he could unleash explosive and destructive power using the Elysian Inscription.

Moreover, he had only gone as far as using his Fourth Combat Form in the previous battles.

Lucifer was still concealing his strength while having already mastered the Fifth Combat Form.

Therefore, he was not bothered by whatever form of battle they chose to perform.

Brielle stood beside James.

She glanced at him and said, "James."

James understood what she was trying to tell him and reassured her.

“Don’t worry.I’ll protect you until the very end.If I’m able to obtain it, I already promised to give you the providence to atone for my past mistakes.”

“I don’t need it.”

Brielle frowned.n.ovel.e.book She did not want anything from James, especially not the providence James worked so hard to obtain.

All she wanted was a Secret Art from the Ancient Heavenly Court.

Above all, whether James could make it to the end and obtain the providence was still uncertain.

Maveth asked, “What do you guys think?”

James was still contemplating.

He felt that a battle royale would put him at a disadvantage since there were many powerful people on his side—Feb, Qusai, and Brielle.

However, Maveth’s point that only one of them would be able to obtain the providence was correct.

“If a battle royale is what you want, then go ahead.”

After a brief hesitation, James nodded and said, “If that’s the case, then we’ll fight each other on every level of the arena.”

Yorick reminded them, “We need to agree not to gang up on the people we’re fighting.”

James shrugged and said, “I can’t agree to that.People are entitled to making their own decisions on who they want to target.”

After speaking, James turned to Feb and Qusai with a knowing smirk.

Since they were in an arena, they were all technically battling each other.

Battles were not about fairness but about whoever had superior strength and strategies.

Although it was a battle royale, they could still team up and target one person.

James did not want to waste any more time.He secretly contacted Brielle using telepathy.

“Rush over to the golden light halo in the center.Stay in there for now, and don’t come out.”

Brielle nodded in response.

While their opponents were distracted, she quickly seized the opportunity and dashed as fast as she could to the halo in the center.

James likewise immediately dashed to a white halo.

The magical energy emitted by the white halo suffused his body and improved his strength.

Lucifer, Feb, and Qusai followed suit and rushed toward the other halos in the arena.

“Hold on, all of you!”

Maveth bellowed furiously, “We haven’t even settled the rules yet. How can you guys claim the halos while we’re still discussing?!”

James sensed the increase in his strength and replied with a faint smile, “We’ve already decided that we’re having a battle royale.

What other rules do we need?”

The Almighty Dragon General Chapter 2846-James had already occupied a white halo in advance, enhancing his strength.

“He did not need to boost his defense since he had the 108 Infinity Steles which could be used as a formation to prevent enemies from getting close or causing substantial damage to him.

After fighting for so long and eliminating many other candidates, the remaining contenders’ crystals were also almost exhausted.

Meanwhile, James’ crystal was still mostly unused and sustained almost no damage.

After James boosted his strength, he said with a smile.

“Let’s start i”

the battle.”

James’ voice echoed throughout the arena.

However, no one moved a muscle.

Instead, they exchanged glances from = and watched each other carefully.

There were nine people left in the arena.

Brielle had occupied the golden halo in the center, which kept her safe for the time being.

The other contenders were also scattered throughout the arena.

Seeing that no one had made a move, James swept his gaze over the remaining contenders.

Finally, his gaze stopped on Yorick.

Seeing James eyeing him intently, Yorick inadvertently stepped backward.

His face darkened when James started approaching with the Crepe Myrtle Divine Sword in his hand.

Yorick asked, "What are you doing, James?"

James smiled and replied, "We're in an arena meant for battles. What do you think I'm doing?"

"There are so many other people here. Why me? We're supposed to have a battle royale, so could you target someone else instead?"

Yorick was helpless. He had fought against James before and lost.

Now that James' strength had been enhanced, James outclassed him.

If James insisted on targeting him, Yorick would have no chance of winning.

James smirked.

"We're definitely in a battle royale. However, I still need to choose someone to attack. You're the weakest among the remaining people, so I have no choice but to target you."

Maveth, Matilde, and Wilvalor watched from afar. Since James had chosen Yorick, they were temporarily safe.

At that moment, Maveth secretly communicated telepathically with Matilde.

"We can't let this continue. Although it's a battle royale, James' comrades won't go after him. He's currently our biggest threat."

Matilde replied telepathically, "Then what should we do now?"

After briefly thinking about it, Maveth replied, "Since James chose to fight Yorick, we'll stand back for now."

While their fight begins, we'll wait for an opportunity to attack James.

Even if we can't eliminate him, we'll at least try to exhaust his crystal."

Maveth and Matilde had a fairly good relationship throughout this ordeal.

Yorick and Wilvalor were temporary comrades.

Since only one person could make it to the final stage, it was inevitable to rely on some trickery to eliminate the other creatures to ensure they made it to the end.

This was especially true since there were only a few of them left.

Matilde agreed to go along with Maveth's strategy.

James was aware that while he was still in combat with Yorick, Maveth and Matilde would seize the opportunity to sneakily attack him to eliminate him.

Therefore, he also reached out to Feb telepathically.

"I'm going to target Yorick first and try to get him eliminated. During my fight, the Celestial Ant and Multicolored Flame Python will try to sneak up on me. Although they won't be able to eliminate me, they'll probably try to deplete my crystal's energy. Keep an eye on them for me. As soon as they make a move, attack them."

Feb replied, "How about I attack them now instead of waiting for them to make a move? I'll keep Maveth occupied, so he won't have the time to do anything else."

Qusai said, "If that's the case, then I'll deal with the Multicolored Flame Python."

James asked, "Then what about Wilvalor?"

Hearing this, Qusai and Feb fell silent.

James continued to give instructions telepathically.

"We can't rely on Lucifer. He was only a member of our temporary alliance. We no longer need the alliance now, so we must be wary of him."

Feb replied, "In situations like this, people tend to prioritize their own safety. If we don't attack Wilvalor, he probably won't intervene."

"Then we'll proceed as planned," James replied.

In just a few moments, James and his comrades had come up with a plan.

"Don't target me, James."

Yorick said, "I know I won't make it to the end, but the Guardian said that Supernatural Powers from the bean Primordial Age would appear on the arenas. They haven't appeared yet, but all I want is a Supernatural Power or Secret Art."
