

Read The Almighty Dragon General Chapter 2851

The Almighty Dragon General Chapter 2851-Yorick was struck hundreds of times in just a few seconds and this consumed a large amount of his crystal's energy.

James guessed that the energy in Yorick's crystal was almost depleted and that he could eliminate him in about ten minutes.

Yorick growled, "Argh!!!"

Then, he activated his Secret Art.

His blood began to boil, and his strength increased rapidly.

After his strength was boosted, he began to desperately fight back against James.

Yorick's strength had improved exponentially. He was now able to withstand James' attacks and broke through the Infinite Stele's defenses to deal damage to James.

Meanwhile, Wilvalor and Lucifer also found an opportunity to attack James from the side.

The intense battle continued in the arena.

Feb and Maveth were engaged in combat as well.

Both of them unleashed various Forbidden Arts from the Primordial Age.

At the same time, Qusai was also battling against Matilde.

Brielle attempted to seize the chance to keep Wilvalor and Lucifer occupied.

However, her strength was below theirs, and she was easily knocked away with a single move.

After exchanging a few more blows, her crystal's energy was significantly depleted.

On the other hand, James fought Yorick with all his strength and had to be on guard for Wilvalor and Lucifer's attacks.

He was struggling and getting frustrated by the fact that Wilvalor and Lucifer were continuously flanking him.

However, his strength gradually climbed as the fight prolonged.

His brilliant swordsmanship was on full display.

With a swing of his blade, thousands of Sword Lights appeared and raced toward Yorick.

Although Yorick had unleashed the power of his blood, he could not withstand James' overwhelming attacks, and his crystal's energy continued to deplete.

Swoosh! Blinding sword energy rushed forth.

Yorick was careless and was struck by it.

The attack consumed the very last bit of his crystal's energy.

Yorick was finally eliminated since his crystal was depleted entirely, and he was sent out of the arena.

With Yorick's elimination, the arena's surroundings began to change again.

James and the remaining contenders were transported to the next arena.

This time, there were no beneficial halos in the arena.

As such, they could not boost their strength, defenses, or speed, and neither were they able to recover their crystal's energy.

After arriving at the next arena, James took a relaxed breath.

Now that Yorick was eliminated, he had one less enemy and was much more at ease.

The contenders quickly gathered together.

Feb, Qusai, and Brielle hurried to reunite with James.

Brielle asked worriedly, "Are you alright, James? How much energy did that consume from your crystal?"

James checked the crystal in his body and replied, "A lot of my crystal's energy was consumed after being struck repeatedly so many times by Lucifer and Wilvalor. Probably one-tenth of it is gone."

After the battle, James found about one-tenth of his crystal's energy had been expended.

Feb said, "I still have two-thirds of my crystal's energy left."

Qusai updated his condition, saying, "I'm about the same as Feb and have about two-thirds of energy left."

Brielle said, "My crystal only has half of its energy remaining."

James took a deep breath. The battles from here forward were going to get tougher. n.ovele.book Shortly after they arrived at the new arena, the Guardian reappeared.

"Congratulations to all of you who have made it to this stage. On this level, there is a hidden ancient scripture from the Ancient Heavenly Court Age."

The Guardian's voice boomed through the arena.

Hearing this, James was excited.

The Supernatural Power and Secret Arts left by the powerhouses of the Ancient Heavenly Court are now finally within his reach.

Read The Almighty Dragon General Chapter 2852

The Almighty Dragon General Chapter 2852-The remaining contenders in the arena were James, Feb, Qusai, Brielle, Lucifer, Maveth, Matilde, and Wilvalor.

The Guardian's appearance attracted everyone's attention and temporarily stopped the ongoing fights.

He stood in the middle of the arena. He wore a black robe with an oversized hood that covered his face.

The Guardian announced, "The Ancient Heavenly Court Age was a glorious era where many talented people were born.

There would have been countless Grand Emperors and Ancestral Gods in this age if not for the universe restricting them and preventing them from achieving greater heights.

"Despite the lack of Ancestral Gods in the Ancient Heavenly Court Age, many were very close to the rank.

"All these powerful figures had inherited various Supernatural Powers and Secret Arts, now hidden within the Ancient Heavenly Court's ruins. However, select ones are kept within the last few levels of the arena."

James suddenly remembered what Walganus had told him before entering the South Heaven Gate.

Walganus urged him to search for the Three-Thousand Cultivation Arts within the Ancient Heavenly Court's ruins.

He had previously seen Sophie use the Three-Thousand Cultivation Arts to defeat three unrivaled powerhouses in the Demon Realm.

James could not help but ask, “Mr. Guardian, I heard that the ruler of the universe during the Ancient Heavenly Court Age, the Jade Emperor, created an unparalleled Secret Art back then. Is this Secret Art also in the arena?”

“The Three-Thousand Cultivation Arts...”

The Guardian sighed and said, “That’s the most potent Supernatural Power of the Ancient Heavenly Court Age. It’s a supreme Secret Art that the Jade Emperor created from the knowledge he had gleaned from the Heavenly Path. Unfortunately, not many could comprehend the Three-Thousand Cultivation Arts. As of now, only the Jade Emperor has completely mastered it.

“To answer your question, the Three- Thousand Cultivation Art is indeed in the arena. However, you’ll have to reach the last stage of the arena to acquire it. As for the person who’ll acquire it, that will be left to fate.”

The strong contenders present were excited after hearing the Guardian’s words.

Even if they missed out on the providence, they could still benefit greatly if they reached the last few levels of the arena.

Even a Grand Emperor would be intrigued by Supernatural Powers and Secret Arts from the Ancient Heavenly Court Age.

James asked, “Then, what’s the Supernatural Power on this level?”

The Ancient Heavenly Court Age was a glorious time when countless powerhouses were born.

However, the arenas only held a few Supernatural Powers.

This proved that the Supernatural Powers in these arenas were the strongest from the Ancient Heavenly Court Age.

The Guardian looked at James and said, “The Supernatural Power on this level is called the Thirty-Six Demonic Art.”

“The Thirty-Six Demonic Art?”

All those present in the area were astonished.

What kind of Supernatural Power was that? The Guardian explained, “It’s a set of Supernatural Powers from a Marshal of the Ancient Heavenly Court Age. It’s powerful but

also challenging to master.To completely master the Thirty- Six Demonic Art is a great challenge.”

Lucifer asked, “Mr.Guardian, how do we get this Thirty-six Demonic Art? Where is it located in the arena?”

The Guardian raised his head, and his wrinkled arm stretched out from his wide sleeves.He pointed up to the sky.

Everyone looked toward the sky.

At that moment, a black light appeared in the sky.

As the black light appeared, everyone in the arena leaped into the sky to snatch it after immediately recognizing it was the Thirty- Six Demonic Art.Everyone leaped and appeared before the black light almost at the same time.

After getting close to the black light, they discovered it simply was a piece of black jade with ancient words engraved on it.James and the others grabbed the black jade almost simultaneously.

However, James felt severe pain spreading to his arm after he touched the jade, and he let go.

Those that grabbed the jade were all struck by a force.

Boom!

Read The Almighty Dragon General Chapter 2853

The Almighty Dragon General Chapter 2853-A terrifying power spread through the air, knocking everyone away.

At the pivotal moment, a mysterious inscription appeared in the sky.

It transformed into a powerful force and spread through the air, instantly immobilizing everyone.

“Haha! It’s mine!”

Lucifer chuckled, grabbed the jade, and put it away.He had used the Elysian Inscription to imprison everyone.

By the time James and the other creatures broke free from the Elysian Inscription’s bindings, Lucifer had already seized the Thirty-Six Demonic Art.After Lucifer snatched the jade, he quickly retreated into a corner of the arena.

He looked at everyone's jealous stares and said smugly, "Guys, since I managed to obtain the Thirty-Six Demonic Art, it means that it was destined to be mine. n.ovele.book Don't fight me over it. There's more on the next levels. Right now, it's more important to eliminate someone so we can proceed to the next arena."

Lucifer's voice carried through the arena.

Maveth cursed out, "Damn it."

Thirty-Six Demonic Art was a terrifying Supernatural Power, and Maveth was disappointed he could not get it since Lucifer snatched it with his cunning tactics.

Everyone else was dissatisfied with what had just happened.

However, they all knew it would be tough to snatch away the Thirty -Six Demonic Art since Lucifer had already claimed it.

James and the other creatures descended from the sky and landed in the arena.

James, Feb, Qusai, and Brielle huddled together.

The four looked at the others in the arena.

Qusai asked, "What should we do now, James?"

James said, "What else can we do except fight? You should continue fighting Matilde, and Feb will focus on Maveth."

Feb looked at James and said with a frown, "Are you going to go against the other two? Wilvalor and Lucifer are both very powerful.

Lucifer is especially formidable since he has the Elysian Inscription which contains great strength.

He isn't going to be an easy opponent."

"I know."

James had a solemn expression.

Lucifer was indeed going to be hard to defeat.

However, Brielle was still too weak to fight either Lucifer or Wilvalor.

Thus, he had no choice but to fight them both himself.

James murmured, "I'll have to take down Wilvalor first."

Since James had fought both Lucifer and Wilvalor, he determined that the latter was the weaker one between the two of them.

He was fully confident he could eliminate Wilvalor without expending too much of his crystal's energy if Lucifer did not interfere.

Lucifer seemed to have inferred what James and the others were discussing.

He smiled and said, "I don't plan to join in on the fun on this level. I've exhausted a lot of my Sage Energy after fighting for so long. I'm going to rest and restore my energy."

Maveth looked at Feb with a grim expression.

Read The Almighty Dragon General Chapter 2854

The Almighty Dragon General Chapter 2854-After fighting for an extended period, the remaining contenders had used up a lot of their Sage Energy. As such, Lucifer had chosen to stay out of battle in the current arena to rest and recover his Sage Energy.

Maveth and Matilde also came to the same conclusion. For now, they would recover and safely enter the next level of the arena.

Wilvalor panicked at their words.

James smiled at the anxious Wilvalor.

Now that Wilvalor was his only opponent, eliminating him would be an easy task.

James held the Crepe Myrtle Divine Sword and slowly walked toward Wilvalor. Feb and Qusai also followed behind him.

Seeing the three powerhouses walking toward him, Wilvalor clenched his teeth. If he knew this would happen, he would not have chosen to attack James on the previous level. After he assisted his fellow friends, they easily abandoned him.

Although he was also a powerhouse, he could not fight against three strong opponents at once.

'What can I do?' Wilvalor was distraught.

James did not give him an opportunity to think and swiftly lunged at him.

Feb and Qusai also followed up with aggressive attacks. Knowing that the others were trying to recover their strength during this period, James wanted to end the battle as soon as possible and minimize the time they had to rest.

On the other hand, James was not bothered about exhausting his strength. Since he had the Elemental Inversion, he could recover his strength instantaneously. Since he was able to fight for 30,000 years straight in the past, he was not worried about having insufficient energy to fight the next few battles.

Soon, a fierce battle broke out.

It was clearly a one-sided battle.

Wilvalor was completely helpless in the face of three powerhouses, and his crystal's energy was rapidly expended.

He was eliminated in less than half an hour.

Once again, they were transported to a new arena.

After their surroundings changed, all the remaining contenders except for Brielle immediately rushed into the sky, waiting for the next Supernatural Power to appear. Brielle remained on the ground.

The Guardian reappeared in the arena. He raised his head and smiled after seeing everyone except Brielle in the sky.

"I commend you all on your speed. You've already eliminated another person so quickly. Congratulations on making it to this level. There is another Supernatural Power on this level, called Heatherum."

The Guardian began to introduce the Supernatural Power.

"During the Ancient Heavenly Court Age, there was an incredibly powerful individual called the Ancestral Cultivator Master. Although he wasn't an Ancestral God, he was capable of standing as equals among them."

"Heatherum is a unique martial art skill created by him. Since ancient times, he was the only person who had successfully mastered it."

The Guardian shared information about the name and origin of Heatherum.

The contenders floated in the air listening to him while paying attention to their surroundings. All of them were eager to claim it as soon as it appears since the first person who claims it would be the rightful owner.

This time, James was also prepared. Brielle knew she was too weak to compete with the rest. As such, she sensibly stayed out of it. n.ovele.book She hoped to survive and reach the arena's higher levels, where there would be lesser competition.

This would give her a feasible chance to acquire other Supernatural Powers.

He secretly activated Demonic Energy and intended to use Confinement on the others as soon as the Supernatural Power appeared. Then, he could snatch it while the others were too occupied to react.

At that moment, a soft white light suddenly appeared in the area.

This time, the white light did not appear in the sky but hovered a few meters above the arena. The location where the white light spawned was directly in front of Brielle.

Seeing the white light appear before her, Brielle's heart pounded rapidly. She quickly grabbed the white light and stored it away.

Most of the readers are now reading this novels:-

Read The Almighty Dragon General Chapter 2855

The Almighty Dragon General Chapter 2855-"Mine!"

As soon as Brielle put it away, a powerhouse sprang for her.

Maveth rushed over and struck Brielle, blasting her away with great force.

Fortunately, Brielle had already put away the treasure in her storage space.

James descended from the sky and stood before Brielle. He smiled at her.

"You're pretty lucky to have gotten that."

Brielle smiled mischievously and said, "I wasn't expecting it either. I had no intention of getting Heatherum, but it appeared right in front of me."

The other creatures glared at Brielle with hostile expressions.

Maveth walked over, stretched out his hand, and said, "Hand it over!"

Brielle moved behind James.

James glanced at Maveth and said disdainfully, "Since she's claimed it, there's no reason to hand it over to you."

Our fight previously ended in a draw, so let's settle it once and for all." James glanced at the others in the arena and said, "You should stay out of this and let me fight Maveth properly.

Between his physical strength and my Divine Crepe Myrtle Sword, I'd like to see which will come out on top."

Lucifer shrugged and said, "Do as you please. I'll just watch from here."

Since they had advanced so far in the arena, the others were relieved to not have to fight.

The further they could advance, the higher their chances of obtaining the providence.

Lucifer knew there were many people on James' side.

However, he was not afraid since he had the Elysian Inscription and its power on his side.

Moreover, James' energy would gradually wear out the more he fought.

Thus, Lucifer realized that the more James fought, the better his own chances would be.

Although James asked for a fair fight, he secretly reached out to Feb and Qusai.

He instructed them, "Find an opportunity later to attack Maveth and inflict serious damage on him. I don't want to fight him alone. I believe the Multicolored Flame Python will avoid fighting for now."

Feb and Qusai nodded.

However, Maveth had already suspected their plan. He turned to Lucifer and said, "Are you sure about not fighting this round, Lucifer? The three of us should work together and eliminate James first. Otherwise, Matilde will be next after I'm eliminated, and you'll have to go against the four of them in the final round. Do you think you'll have the chance to obtain the providence against four powerhouses?"

Lucifer looked at Maveth and said calmly, "So you're asking me to join forces with you?"

Maveth replied, "Yeah. You, Me, and Matilde should work together against James, the Gorgon, and Snow Wolf. It's our only chance of getting closer to attaining the providence."

James also took his time.

After coming so far, obtaining the providence was left up to fate.

All of the remaining contenders were almost equally matched, and reaching the final level of the arena hinged on one's luck. He knew Lucifer was going to be a difficult opponent.

Fortunately, he had Feb and Qusai with him.

Both of them could help him exhaust Lucifer's crystal.

Lucifer looked at James' party and pondered deeply.

Truthfully, he was unwilling to fight anymore.

He had already obtained an unrivaled Supernatural Power, so whether or not he seized the providence was no longer important.

Although leaping out of the Three Dimensions, relinquishing the Five Elements, and attaining an Emperor's Body was tempting, he knew one needed to endure hardships in one's cultivation path.

Only by doing so could one reach the ultimate pinnacle of cultivation.

Despite that, he would still welcome a chance to obtain the providence.

However, he would not feel disappointed if he did not manage to either.

Read The Almighty Dragon General Chapter 2856

The Almighty Dragon General Chapter 2856-Lucifer thought to himself, 'Should I team up with them?' He was contemplating whether he should ally with Maveth at this moment.

Lucifer turned to James' party.

Compared to Maveth, James was a far more formidable opponent.

After briefly weighing the odds, Lucifer agreed to Maveth's suggestion.

"Alright, let's do it."

Lucifer turned to James' party, and eventually, his gaze stopped on Brielle. He said calmly, "Since that girl has already obtained her loot here, there's no reason for her to

stay. Besides, she's the weakest among you all. She shouldn't be qualified to be here right now, nor should she proceed further."

Hearing this, Brielle stepped behind James.

Among the remaining people in the arena, she was indeed the weakest.

However, she still managed to seize a Supernatural Power.

James had protected Brielle throughout the previous levels, and she had no desire to proceed to the next level.

Thus, she stood behind James and whispered, "James, let me fight. There's no need for me to go any further. Although I'm not as strong as them, I'll at least try to wear out their crystal's energy. I want to help you obtain the providence."

James looked at her and said with a smile, "As long as I'm still in this arena, no one will dare to eliminate you. How about you hide in the Celestial Abode for the time being? You can come out when we reach the final few levels."

Brielle hesitated and said, "I'm not sure I should do that. I've already obtained a Supernatural Power. If you allow me to hide now, it'll be unfair to Feb and Qusai. They've worked hard supporting you, and it'll be unfair if they don't get anything."

Qusai was very open-minded about it and smiled.

"Whether I seize anything or not is entirely up to my luck and capabilities. Even if I leave empty-handed, the experience of fighting with the countless powerhouses was also worthwhile."

Feb nodded and said, "Yep."

James reassured her.

"Don't worry about it. Just go."

After speaking, James waved his hand, and a powerful force emerged from his palm, forcefully transporting Brielle into the Celestial Abode to rest.

At that moment, James, Feb, Qusai, Maveth, Matilde, and Lucifer were left in the arena.

The six of them were almost equal in strength.

The only thing that would set them apart was their resources and weapons.

"You'll be fighting me, Maveth. We still haven't determined a winner from the last round."

Feb looked at Maveth and smiled, making her seem harmless.

Qusai also looked at Matilde and said, "Let's continue our fight from before. I'd like to see what your Multicolored Flames are capable of!" James looked at Lucifer. Lucifer was the only one remaining. However, James wanted to avoid fighting Lucifer since he was the strongest among all their opponents.

Moreover, he had the Elysian Inscription at his disposal.

If they were to fight, the two of them would lose more than they would gain.

James communicated telepathically with Qusai and Feb.

"There's no need to bother with one-on-one fights. Let's join forces and dispose of one of them first."

Feb asked, "Which one is our target?"

James ruled out Lucifer. He glanced back and forth between Maveth and Matilde.

After thinking for a while, he said, "Maveth has terrifying physical strength and defenses. It's going to take more effort to eliminate him. How about we go for Matilde first?"

Feb and Qusai nodded. Matilde noticed James' gaze and immediately understood what he was planning.

Multicolored Flames erupted from her body as she transformed into a giant python.

Her body was hundreds of meters long, and she had multicolored scales.

At that moment, her body flared with immense power.
