The Almighty Dragon General Chapter 2857-James shouted, "Attack!" He immediately cast all the Secret Arts he had learned and entered his strongest combat state.

Feb and Qusai also transformed into their true form, and their energies increased explosively.

Maveth shouted from a distance, "You're fighting me, Gorger." He quickly transformed into a huge, golden ant and charged toward Feb.

Feb avoided his attacks and looked for an opening to attack Matilde.

"I'll take you on, James." Lucifer's voice echoed, and he immediately charged at James with his Imperial Weapon.

Swoosh! Dazzling Sword Energy burst forth.

However, the Sword Energy merely cut James' shadow.

James' real body was already charging directly at the Multicolored Flame Python, Matilde.

Sword Energies continuously flew out from the Crepe Myrtle Divine Sword.

The Sword Energies contained terrifying Sword Intent, including Samadhi Sword Intent, Murderous Intent, and Sword Intent formed by James' Sage Energy.

The Sword Energies slammed into the Multicolored Flame Python with overwhelming strength and sent her reeling.

Matilde's body swayed from the impact.

Gradually, her scales were shattered, and blood oozed out from the skin underneath.

James' strongest combat state was terrifying.

Although the Multicolored Flame Python was a descendant of the Ten Primordial Fiends, she could not withstand James' attacks, and the crystal in her body was slowly being consumed.

At the same time, James directed the Infinity Steles to crush Matilde.

The Multicolored Flame Python had a colossal body.

Despite being able to move swiftly, the python's body was an easy target for the Infinity Steles because of its sheer size.

The Infinity Steles smashed into Matilde's body one after another, causing significant damage.

Suddenly, Lucifer unleashed the Elysian Inscription, and it released oppressive amounts of energy.

James felt a crushing pressure on his body.

He instantly fell from the sky and crashed into the ground below.

Bang! His body slammed into the arena, and caused a huge crevasse to form.

James was trapped underneath the arena.

Lucifer did not give James a chance to recover.

As soon as James fell to the ground, several bolts of lightning immediately emerged from the Elysian Inscription and bombarded the area where James had fallen.

Several of the Infinity Steles quickly zoomed over and blocked the lightning strikes.

Swoosh! A figure shot up from the caved-in surface.

The moment James rushed up to the sky, countless strands of black mist seeped out of his body and shrouded it to form black armor.

The shape of the armor was very unusual and it seemed to be made from the Demonic Lotus' petals.

James was forced to use Ten Thousand Demon Art and deploy the Natal Lotus to create protective armor for himself.

As long as he could prevent his body from sustaining damage, he would be able to avoid expending his crystal's energy.

With the protection of the Demonic Lotus, James seized the opportunity to viciously attack the Multicolored Flame Python.

Lucifer's face became solemn.

He cursed in his heart, 'Damn it.

James is as resilient as a cockroach.

He not only has the Infinity Steles, but he also obtained my father's Demonic Lotus.

It's going to be difficult to eliminate him.' Regardless of how tough James was as an opponent, Lucifer would have a chance if James was distracted.

When that happened, Lucifer would be able to exhaust his crystal's energy.

If Maveth or Matilde were eliminated, then Feb and Qusai would be free to do as they please.

Then, he would have to fight against two or even three of them together.

It would put Lucifer in a tough position.

The Almighty Dragon General Chapter 2858-After analyzing the situation, Lucifer began to look for opportunities to deal severe damage to James.

However, James had the protection of the Infinity Steles and the Demonic Lotus petals that made up his armor.

As such, Lucifer's attacks were unable to deal much damage to James.

Moreover, James deliberately avoided him, so it was hard to find an opening.

Since he could not find an opportunity to attack James, he changed his target to Qusai.

Lucifer's strategy was to wear out Qusai's crystal as much as he could or better yet, to eliminate him if it was possible.

By doing so, he could even the odds against him in the following few levels.

Qusai was focused on attacking the Multicolored Flame Python, when Lucifer suddenly intervened and started attacking him.

He could not deal with both of them at once, so he turned his focus to Lucifer first.

Seeing this, James quickly communicated Qusai telepathically, saying, "Be careful.

Lucifer is a very tough opponent.

Try to avoid fighting him head-on if possible.

I'll try and find a chance to eliminate the Multicolored Flame Python as soon as possible." Qusai replied, "Focus on your fight, James.

Although Lucifer is strong, I won't be eliminated that easily." After Lucifer shifted his target, James was now unburdened.

He launched fierce attacks on the Multicolored Flame Python, using every method at his disposal.

However, Multicolored Flame Python would not go down so easily.

Her Multicolored Flames damaged James and exhausted some of his crystal's energy.

However, James was unfazed by this.

James was superior to the Multicolored Flame Python in every aspect.

The fight went on for over an hour.

After the long battle, the Multicolored Flame Python's Sage Energy was fully spent, and she was exhausted.

James quickly seized the opportunity to attack her relentlessly.

After being bombarded with attacks for the next few minutes, the Multicolored Flame Python's crystal was completely exhausted, and she was transported out of the arena.

The battle in the arena was finally over.

Soon, their surroundings changed once more.

James and the others were teleported safely into a new arena.

After they arrived in the new arena, they all chose to stop fighting for the time being as they were expecting a new boon to appear in the new arena.

No one knew where the next boon would appear, so they scattered themselves throughout the arena and paid close attention to their surroundings as they waited for it to show up.

James looked at Qusai in the distance and reached out to him telepathically.

"How are you doing? How much energy does your crystal have left?" Qusai replied, "Lucifer was indeed a tough opponent.

I sustained damage and consumed a lot of my crystal's energy.

Right now, I only have about one-third of its energy left.” James also followed up with Feb.

Feb was on par with Maveth, and both of them dealt damage to each other’s crystal.

Fortunately, Feb’s crystal still had half of its energy left.

James also estimated that Maveth’s crystal was half depleted.

It was likely that his crystal and Lucifer’s had the most energy remaining.

However, James had fought for so long, and the others were constantly trying to sneak a hit on him.

Thus, his crystal also expended a lot of energy.

Based on his deductions, Lucifer’s crystal had the most energy in it.

James glanced at Lucifer.

Sensing James’ gaze, Lucifer turned to James with a faint smile.

Meanwhile, Maveth stood in a corner with a gloomy expression.

His comrade Matilde was eliminated, so he was definitely going to be the next target.

Maveth speculated that Lucifer would not make a move on the new arena but would choose to safely enter the next level as it would increase his chances of obtaining the providence.

While considering the situation, Maveth cursed, “Damn it.” After they appeared in the new arena, the Guardian revealed himself again.

The Guardian looked at everyone in the arena and sincerely praised them.

He had been watching everything from the shadows and knew James had teleported Brielle into the Celestial Abode.

The Guardian coughed softly, “A-hem.”

The Almighty Dragon General Chapter 2859-“Tm sure it wasn’t easy to arrive here.

All of you who have made it here are the best of the best in this age and are destined for greatness.

“There is also a Supernatural Power in this arena.” The Guardian’s voice boomed through the arena, and everyone watched their surroundings intently to snatch the boon as soon as it appeared.

“The Supernatural Power in this arena is called the Cultivation Encyclopedia.

It’s a magical scripture that records various cultivation paths in detail.

“The Jade Emperor himself wrote the scripture.

He summoned all the powerhouses during the Ancient Heavenly Court Age and spent three epochs writing it.

It’s a priceless treasure.” Hearing this, everyone listened excitedly.

It was definitely a great treasure if the Jade Emperor gathered all the powerhouses of the Ancient Heavenly Court Age and took that long to transcribe everything.

Meanwhile, James could not fathom how long three epochs were.

At that moment, Feb noticed James’ confusion and walked over, explaining, “Epochs are a measurement of time.

Under normal circumstances, an epoch is a period from when Sacred Blossoms bloom until the point where they wither.” James asked, “Then how many years is an epoch?” Feb replied, “If we convert it to years, it should be about four billion nine- hundred million years.” “Huff.” James took a deep breath.

4,900,000,000 years was a terrifyingly long time.

In other words, the Jade Emperor spent nearly 15,000,000,000 years writing Cultivation Encyclopedia with the help of countless powerhouses.

The Cultivation Encyclopedia was definitely an extraordinary treasure.

“It’s up to luck to decide who will claim it.” After the Guardian finished speaking, he disappeared from sight.

Everyone continued to observe their surroundings.

At that moment, a sparkle of soft, white light suddenly appeared on the arena’s west side.

Everyone immediately sprung into action after seeing it.

However, Lucifer and James both used their immobilization techniques.

James used his Curse Magic's Confinement, whereas Lucifer used the Elysian Inscription's power to imprison the others.

However, one person was not affected by their techniques.

Qusai quickly appeared before the white light, grabbed it, and put it away.

"You...

How are you still moving?" Lucifer looked at him in disbelief.

Qusai laughed and said, "I knew you would use the Elysian Inscription's power to restrain me.

Before I came to Earth, my father gave me some magical runes.

I happen to have a rune that can neutralize your imprisonment technique." Maveth was also immobilized.

Qusai had already seized the Cultivation Encyclopedia by the time he broke free.

He stomped his feet furiously.

Maveth knew he would be eliminated this round, and if he did not get anything on this level, he would leave empty-handed.

He was dissatisfied with the outcome.

However, there was nothing he could do.

The Almighty Dragon General Chapter 2860-The treasure on this level of the arena was obtained by Qusai.

The Cultivation Encyclopedia was valuable, and Qusai was glad he came to the Ancient Heavenly Court's ruins.

Even if he were to be eliminated now, he had no regret.

At that moment, he felt his clan's decision to befriend James was a wise move.

He managed to obtain good fortune just by accompanying James.

If he were to stand against James, he would never have had the chance to seize the Cultivation Encyclopedia.

Lucifer was incredibly upset that Qusai managed to obtain the treasure.

He wanted to claim all the remaining treasures for himself, but another person snatched it from under his nose.

Maveth was also incredibly displeased.

James looked at the others in the arena and deliberated on who they had to eliminate on this level.

His gaze stopped on Maveth.

Seeing James staring him down, Maveth immediately knew what James intended to do.

"Why are you staring at me like that, James? Are you planning to eliminate me on this level?" James nodded lightly and said, "Correct." Maveth looked at Lucifer and began to plead with him.

"Lucifer, you still haven't gone all out against James.

Once I'm eliminated, you'll have to contend with three powerful enemies.

Do you really think you can fight three of them alone?" Despite his desperate situation, Maveth still did not want to give up.

He wanted to advance further and get a boon from the Ancient Heavenly Court Age from the next level so that he would not leave empty-handed.

Lucifer glanced at James.

At that moment, his expression hardened.

He contemplated for a while before saying, "I have a suggestion." James looked at him and said, "What is it?" Lucifer said, "There are not many people left in the arena.

How about letting everyone obtain a treasure for themselves?" Then, Lucifer looked at Maveth and said, "I propose to let you claim the treasure from the next arena, but in exchange, you'll have to forfeit in the next round.

What do you say?" "Sure," Maveth agreed without hesitation.

Lucifer looked at James and said, "I won't seize the treasure on the next level.

After Maveth obtains the next treasure, it'll be Gorger's turn.

Then, those who get a boon will have to remove themselves from the arena." "In the end, the two of us will fight, and whoever wins will proceed to the last arena and seize the final providence." "As for the girl in the Celestial Abode, I don't care about her.

If you're eliminated, then she is too.

What do you say?" Lucifer proposed a suggestion.

He had obtained a Supernatural Power earlier and was content with his lot.

It was a treasure from the Ancient Heavenly Court Age, and he could become one of the greatest in the universe if he cultivated it to its fullest potential.

Moreover, he already had the Elysian Inscription.

The Elysian Inscription was full of wonders.

As long as he completely comprehended the Elysian Inscription, he could dominate this age.

His suggestion turned the odds in his favor.

Otherwise, he might end up fighting James, Qusai, and the Feb by himself.

Although he was confident in his own strength, he would surely be defeated if three powerhouses attacked him at once.

He would only have to fight James if they agreed to his suggestion.

Lucifer was confident in winning in a one-on-one battle.

After James heard his suggestion, he turned to Qusai and Feb, asking, "What do you two think?" Qusai said, "I've already obtained a treasure from the Ancient Heavenly Court.

This trip has already paid off for me.

Even if I'm eliminated now, I'm content with my lot." Feb thought for a while and said, "If I can guarantee myself a treasure, then I'm not bothered with obtaining the providence."
