

Read The Almighty Dragon General Chapter 2961

The Almighty Dragon General Chapter 2961-“Precisely.” James nodded.

‘You should head back outside first,’ said Jabari.

James did not spend another second within the Celestial Abode, and his Primordial Spirit quickly returned to his physical body.

At that moment, Jabari observed the patterns carved on the stone wall of the Celestial Abode. In the past, he traveled the universe and had explored many perilous locales.

Therefore, he had a lot of knowledge about the Primeval Age and the Ancient Heavenly Court Age.

After observing the stone wall for a while, Jabari finally identified several clues.

“James, this is the pattern of a Sacred Blossom.”

“Sacred Blossom?”

James was startled. He had heard of Sacred Blossoms before.

They were mysterious existences that took an epoch, more precisely, 4.9 billion years, to flower and wither.

Jabari explained, “It’s an image of a Sacred Blossom, but it’s been jumbled up. It’s a formation and you’ll have to rearrange it to form the complete image to deactivate the formation.

“Unfortunately, there are very few people who know about Sacred Blossoms. Even those who do won’t be able to piece this puzzle together. Every petal on the Sacred Blossom represents a cultivation path. Only one that completely understands all the cultivation paths on the Sacred Blossom can piece this puzzle together.

“I’m surprised there is someone in the Boundless Realm that understands Sacred Blossoms well enough to set up such a formation. This powerhouse must be a Grand Emperor who has achieved many great things.”

James was surprised by his words.

Since this was Thea’s cave, logically speaking, it must have been set up by her. However, he also learned that Thea came to the Eidolon Realm tens of thousands of years earlier than him. Thea’s cultivation rank improved rapidly during this period, but she was still at the Quasi Emperor Rank’s Ninth Tribulation.

'Could she have already become a highly accomplished Grand Emperor?'

After thinking for a while, James put these complicated questions aside. He turned to

Emperor Jabari. "Are you able to solve the puzzle and deactivate the formation?"

Jabari replied, "Of course."

"Haah!" James took a deep breath.

He scanned the crowd and noticed none of them could figure out the patterns engraved on the stone wall despite having observed it for a long time.

Even powerhouses like Xainte, Yikron, and Jules were unable to decipher that the patterns made up a Sacred Blossom.

James suddenly opened his mouth and said loudly, "The puzzle relates to a Sacred Blossom."

As soon as he spoke, everyone fell silent.

Everyone stared at James.

Yikron immediately began insulting him. "A Sacred Blossom? You're not even in the Divine Rank yet. How would you know what a Sacred Blossom is? It's best you shut up if you don't know anything."

Xainte glared at Yikron and said, "How do you know he doesn't know anything?"

"Xainte, I..."

Yikron wanted to explain himself, but Xainte did not give him a chance.

Xainte approached James and asked, "Did you say this puzzle's key is a Sacred Blossom?"

James nodded. "Yeah."

At that moment, everyone present looked at James intently. They were curious to hear what a weak human who had not even reached the Sage Rank had to say.

Most of the readers are now reading this novels:-

Read The Almighty Dragon General Chapter 2962

The Almighty Dragon General Chapter 2962-Most of them shared similar opinions about James.

James was merely a cultivator at the Sage Rank's Tenth Stage. What would he know about Sacred Blossoms?

Even if he happened to know about them, it was most likely from reading records of them in ancient books.

How could a cultivator with such a low rank recognize that the patterns on the stone formed a Sacred Blossom?

To top that, so many powerhouses were present, yet none of them was able to figure it out.

"A Sacred Blossom? It's best to stay quiet if you don't understand anything. Do you even know what Sacred Blossoms are?"

At that moment, a man walked out of the crowd. He had a human appearance but had a pair of black wings on his back.

His nose was slightly pointed, which was somewhat unusual.

The bird-looking man had been observing Xainte for a long time but could not find a chance to strike up a conversation. He seized his chance and walked over to her.

With the demeanor of a gentleman, he introduced himself, "Hello, Xainte. I'm the young master of the Black Eagles. My family happens to have an ancient book that has records of Sacred Blossoms. If you're interested, I can explain it to you in detail." Xainte's brows wrinkled in displeasure. Although she wanted to decline, she remained silent and simply looked at the man.

Since Xainte did not reject him, the man explained excitedly, "Sacred Blossoms are very mythical flowers and have existed since the beginning of the universe.

"It's speculated that countless cultivation paths will unravel when the Sacred Blossoms are in full bloom. The petals of the Sacred Blossoms each represent a cultivation path.

"From my understanding, there is a strange petal in the center of a Sacred Blossom, representing Karma.

"Apart from the center petal, there are five more petals.

"The five petals each represent the other Five Cultivation Paths-Time, Space, Life, Death, and Reincarnation.

“The next layer represents other special cultivation paths such as Yin and Yang, Wind, Rain, Thunder, Lightning, and the like.

“The outermost petals represent the remaining cultivation paths in the universe.

“Witnessing the moment Sacred Blossoms bloom is a perfect chance to comprehend the various cultivation paths. However, it’s rare to find places where Sacred Blossoms bloom. In the entire history of the Boundless Realm, Sacred Blossoms have only been spotted once.

“Moreover, a Sacred Blossom’s lifespan is four billion and nine hundred million years also known as an epoch or a reincarnation cycle.”

The bird-looking man rambled on incessantly. He was very eloquent and gained the approval of many other powerhouses. Most of them had also heard myths of Sacred Blossoms, but none could explain it in as much detail as the bird-looking man.

The man looked toward James with a smug smile. Then, he said, “What do you know about Sacred Blossoms?”

James did not know much about Sacred Blossoms, and all he knew were the same things Emperor Jabari had explained mere moments ago.

He pointed toward the stone wall ahead and said, “I don’t know much about them. I only recognized that this formation is a puzzle related to a Sacred Blossom.

James turned to Xainte and continued to speak, ‘To break the formation, we’ll have to rearrange the puzzle into a Sacred Blossom. Only powerhouses that truly understand various cultivation paths can complete the puzzle.’

Xainte looked at James and asked, “Are you sure?”

James nodded and said, “Mhm. I’m sure the patterns will form a complete picture of a Sacred Blossom.”

Hearing this, Xainte began observing the patterns before her. After staring at it for a prolonged period, she could not figure out anything, let alone know how to rearrange them. She looked at the other powerhouses and asked, “Does anyone understand Sacred Blossom Puzzle Formations?”

Many powerhouses shook their heads in response.

Yikron immediately stepped forward, saying, “Do you really believe this brat, Xainte? He’s simply spouting nonsense. A Sacred Blossom Puzzle Formation? He hasn’t even seen a Sacred Blossom before, so how could he know it’s a Sacred Blossom Puzzle Formation?”

‘That’s right.”

“He must be talking nonsense.”

“I agree. He’s probably just looking for an opportunity to get close to Xainte.” Many powerhouses expressed their disapproval of James.

Most of the readers are now reading this novels:-

Read The Almighty Dragon General Chapter 2963

The Almighty Dragon General Chapter 2963-At that moment, a group of people walked over from a distance.

Everyone present was shocked by their appearance and froze and regarded the approaching group with respect.

Someone murmured softly, “I-It’s the Martial Reverend.”

James looked into the distance. The group approached hastily and quickly arrived at the stone wall.

Xainte stepped forward, looked at the man in the lead, and greeted him respectfully,

“Sect Leader.”

The person leading the group was none other than the Martial Reverend.

He went to the Malevolent Demon Residence in the depths of the Great Wilderness and brought some powerhouses.

Along the way, he did not encounter any monsters or sense any traces of the

Malevolent Demon. So, he advanced into the deepest part of the Malevolent Demon Residence without a second thought.

The Martial Reverend nodded lightly and began observing the stone wall before him.

Seeing him scrutinize the stone wall, everyone remained silent and waited with bated breath for his opinion.

One day passed and then another day too. Eventually, three days were gone in a blink of an eye.

The Martial Reverend took a deep breath and said, “He’s right. It’s a puzzle related to the Sacred Blossom.”

Everyone was startled when they heard the Martial Reverend's remark.

All of them turned to James in astonishment.

Even a renowned veteran like the Martial Reverend took three days to confirm it was a Sacred Blossom puzzle.

On the other hand, James figured it out after briefly observing it.

Could James actually be a powerhouse with strength that was far superior to the Martial Reverend and knowingly chose to conceal himself?

Everyone stared at James in disbelief.

The Martial Reverend also looked at James and asked, "Young Man, how did you know this is a Sacred Blossom puzzle?"

James did not recognize the Martial Reverend but could sense that he wielded considerable influence.

From Xainte's respectful demeanor and greetings, James deduced that the person in front of him was the strongest powerhouse in the Eidolon Realm and the Paragon Sect's Leader.

Despite being in the presence of a Grand Emperor, James was not cowed. He replied calmly, "I have my ways, of course. I'm sure you'll be able to solve this formation since you're the Paragon Sect's leader."

Surprisingly, the Marital Reverend shook his head doubtfully and said, "Although I can tell it's a Sacred Blossom Puzzle Formation, solving it is beyond my ability. To solve this puzzle, one must at least understand all the various cultivation paths in the universe.

"Unfortunately, I only have a scant understanding of the cultivation paths of Karma, Time, Space, Life, Death, and Reincarnation. I don't have enough knowledge to solve this puzzle. If I forcefully break this formation, I'll definitely suffer repercussions. The best-case scenario is that I lose my cultivation base. The more severe consequence would be losing my life along with the opportunity to reincarnate."

"Oh my!"

Hearing the Martial Reverend's words, all the powerhouses gasped in horror. They were relieved they did not act rashly. Otherwise, they would have doomed themselves.

All of them had a very cursory understanding of the Sacred Blossom Puzzle Formation. These formations were not to be reckoned with. So much so that, even a powerhouse like the Martial Reverend could not solve it.

However, Emperor Jabari in the Celestial Abode smiled faintly and said, "Although it's a Sacred Blossom Puzzle Formation, it's incomplete. The Karma and Five Cultivation Paths of the Sacred Blossom are makeshift. I can tell the person who set up this formation isn't proficient in these cultivation paths yet."

James asked, "Emperor Jabari, can you solve the formation?"

"Of course. My strength from when I was in my prime is vastly different from mine now because I'm currently only a soul fragment. However, ordinary Grand Emperors are far beneath me."

Most of the readers are now reading this novels:-

Read The Almighty Dragon General Chapter 2964

The Almighty Dragon General Chapter 2964-Emperor Jabari was very confident. Although he currently existed as a fragment of his original soul, he still did not consider Grand Emperors a threat.

James was relieved to hear Emperor Jabari's remark. He asked, "Could you teach me how to solve the formation? This place has something to do with my wife, and I'm trying to get past this stone wall to find her."

"Sure."

James heaved a sigh of relief. He looked at the group of powerhouses led by the Martial Reverend and said, "I can decipher it."

The area immediately fell silent upon hearing his words.

Everyone stared at James.

Yikron thought he had misheard and walked over to James in disbelief. He asked,

"What did you just say? Did you say you can decipher the formation?"

James nodded slowly in response.

"Ha!" Yikron sneered.

"Who do you think you are? Even the Martial Reverend isn't capable of breaking through this formation, but you think you can?"

James glanced at Yikron in annoyance. He had never antagonized Yikron, yet all the latter has done is mercilessly insult him and get in his way.

James asked calmly, "What happens if I successfully decipher it?"

Yikron replied in a derisive tone, "If you succeed, I'll behead myself for you."

James gently waved his hand, saying, "That won't be necessary. If I succeed, you need to stay away from her."

James pointed at Xainte.

Yikron was slightly taken aback by his request. He burst out laughing again, "Do you really think you'll succeed? Are you just trying to show off in front of Xainte?"

As soon as his insults left his mouth, many people in the crowd laughed along with him.

To them, James simply looked like he was too full of himself.

Even a powerhouse like the Martial Reverend was unable to break the formation. James was at the Sage Rank's Tenth Stage, and any of them could kill him with the snap of a finger.

How could such a weak human like him decipher the formation? James ignored everyone's heckling. He looked at Yikron and asked coldly, "What's wrong? Are you too scared to agree to the condition?"

"Of course not."

Yikron sneered. "If you succeed in breaking the formation, I'll never approach Xainte again."

Then, he added. "However, I'm sure you'll fail."

James disregarded Yikron and walked toward the stone wall. He stood before the stone wall and raised his head to observe the patterns. The patterns were extremely disordered, and even a powerhouse would find it hard to identify it as a Sacred Blossom Puzzle Formation.

After James raised his head, he asked Emperor Jabari for help, "What should I do next?"

Everyone watched in stunned silence as they saw James walk over to the stone wall.

Even Yikron looked on in bewilderment scene and thought, 'Does this brat really know how to decipher it?'

However, he quickly discarded the thought.

'Impossible. He can't possibly know how to solve it. Even the Martial Reverend was baffled by the formation. How could this brat have the strength to break it?'

Intrigued, the Martial Reverend also stared at James. Despite his low cultivation rank, he was able to immediately identify that the stone wall was blocked by a Sacred

Blossom Puzzle Formation.

Now, he even claimed to be able to solve the puzzle. He was curious to see how James would break the formation.

Meanwhile, James stood under the stone wall.

Emperor Jabari made a move from within the Celestial Abode. He raised his hand, unleashing powerful energy from his palm. The energy flowed out from the Celestial Abode and surrounded James.

Most of the readers are now reading this novels:-

Read The Almighty Dragon General Chapter 2965

The Almighty Dragon General Chapter 2965-The potent energy immediately drew everyone's attention.

"T-That's some powerful energy."

"I-It's the energy of an Emperor!"

"Could he be a Grand Emperor that was hiding his true strength?"

After sensing the energy around James, many of them gasped in astonishment.

Yikron's jaw dropped, and he was the most flabbergasted among them. He could not believe how high James' energy skyrocketed in that short moment.

Even Xainte, who knew James' situation, was slightly taken aback. Shocked, she thought to herself, 'H-How does he have such impressive energy? Was he hiding his true strength all this time?'

Everyone was shocked by James.

Meanwhile, Emperor Jabari communicated with James from within the Celestial Abode.

He began instructing James to rearrange the engraved stone pieces. Hearing Emperor Jabari's instructions, James leaped into the air and moved a stone piece. As he pushed

the stone piece, a powerful force exuded from the spot. It was the power of a cultivation path.

Since it was a Sacred Blossom Puzzle Formation, there would be repercussions if one carelessly moved around the stone pieces.

Only those proficient in various cultivation paths could decipher the Sacred Blossom Puzzle Formation.

The terrifying force permeated the air, but James was unscathed as Emperor Jabari's energy easily dispersed it.

James kept moving the stone pieces according to Emperor Jabari's instructions.

Although he moved quickly, it still took him a month to finish solving the puzzle. He did not stop for a moment during the whole month he was rearranging the pieces.

The stone pieces were constantly shifted around, and powerful force would emerge as they were moved. The force was enough to kill a Grand Emperor, but James was completely fine.

Among the people present, only the Martial Reverend and a few other powerhouses could understand why James moved the stone pieces the way he did.

Another month later, James moved the last stone piece.

After that last piece was moved in place, the completed picture of the Sacred blossom was finally displayed.

It was just as the bird-like man said before. There was a central petal that was surrounded by five others.

Then, the petals expanded outward into several more layers.

James descended from the sky and landed on the ground. He looked at the Sacred

Blossom on the stone wall and murmured, "So this is a Sacred Blossom?"

At that moment, the puzzle radiated a dazzling light.

Every petal shone with a blinding light, and the Sacred Blossom on the wall seemed to materialize in the real world. Suddenly, the stone wall cracked open, and a door appeared.

Only white light shone through the door. Even a powerhouse like the Martial Reverend could not see past the light.

Seeing that James had not entered, the other powerhouses did not dare move a muscle either.

James turned around and scanned the crowd.

All eyes were on him.

The Martial Reverend walked over and looked at James with a smile. "You sure hid your strength pretty well. Even I couldn't ascertain your true strength."

James smiled faintly in response.

In actual fact, Emperor Jabari was the one who solved the Sacred Blossom Puzzle Formation, but everyone assumed the effort came from James alone.

In spite of this, James did not explain himself. He let them assume whatever they wanted.

The Martial Reverend looked at James doubtfully.

He was a Grand Emperor and had lived for a long time.

Thus, he knew almost all the powerhouses within the Boundless Realm. Despite that, he had never met James all this time, and neither did James' appearance match those of the powerhouses that vanished from the public eye.

The Grand Emperor could not help but ask out of curiosity, "May I ask for your name?" James smiled faintly and replied, "It's James Caden."

Most of the readers are now reading this novels:-

Read The Almighty Dragon General Chapter 2966

The Almighty Dragon General Chapter 2966-"James Caden?"

The Martial Reverend pondered on the name for a brief moment.

He could not recall if a cultivator named James Caden existed in Eidolon Realm or throughout the Boundless Realm.

He glanced at James and thought, 'Where did this man come from and what's his background? Could he be a powerhouse that has stayed in seclusion?'

Unable to verify James' background, the Martial Reverend quickly put his thoughts behind him.

He looked at James and asked, "What do you think is hidden behind this door, Mr. Caden?"

In this world, the strong were highly respected.

Although James was still comparatively young, the Martial Reverend thought James was deliberately hiding his history and that he must have extraordinary skills to conceal his actual age from others.

As such, he addressed James respectfully despite being a Grand Emperor himself. James felt awkward being addressed so courteously by the Martial Reverend but did not say a word to correct him.

He turned toward the door and said, "I don't know what's inside either. We'll have to go in to find out for ourselves."

However, everyone hung back cautiously.

Although the Malevolent Demon and her inheritance might be on the other side of the door, none of them dared to make a reckless move.

They were all intimidated by the Sacred Blossom Puzzle Formation and were afraid of the unknown dangers awaited them on the other side of the door.

Since there was a powerhouse like James present, it would be safer to let him test test the waters first.

Everyone stared at James.

Those that mocked James were especially mortified by how they treated him.

They all thought that James was just a human cultivator at the Sage Rank's Tenth

Stage and never expected him to be a formidable powerhouse that was downplaying his strength.

They began faulting themselves for not realizing how a mere human at the Sage Rank's Tenth Stage managed to reach this point of the Malevolent Demon Residence. Yikron's face was dour. He recalled how he attacked and injured James some time ago, and was aghast. If James were to take revenge, the entire Southern Academy would be doomed because of his actions.

At that moment, everyone thought James was some kind of hidden powerhouse.

Even Xainte was bewildered about James' true strength.

After dwelling on it for a while, she came to a conclusion.

Her mother was unspeakably strong, and if James was really her father, it was only reasonable that he was just as strong as she was.

Meanwhile, the Martial Reverend was relieved that a peerless cultivator was present among them.

Initially, he had concerns about fighting against the Malevolent Demon. After all, he was wounded by her, and it took him 30,000 years to suppress the sinister energy she had left in his body. He was not confident he could take her down again.

With James here, he felt more at ease. He would be less anxious if James were to join in the fight against the Malevolent Demon.

The Martial Reverend said respectfully, "Please lead the way, Mr. Caden. Take us into the depths of the Malevolent Demon Residence so that we may attack and kill the Malevolent Demon together."

James frowned at his words.

He looked at the door and thought, 'Is Thea really beyond this door?'

He was unsure what dangers awaited him, but he could not be bothered at this point.

Even if there were dangers, he still wanted to press on and find out more about the current situation.

James was worried for Thea's safety.

Besides, he had the Celestial Abode along Emperor Jabari within it. With his support, James was not afraid of the dangers that lay ahead. He walked toward the door without much hesitation.

Under everyone's watchful gazes, James walked through the door. As soon as he entered, his body was enveloped by the light and disappeared from everyone's sight.

The Martial Reverend did not stay behind and followed James through the door.

Seeing this, the others also followed suit.

As the powerhouses entered the door one after another, all the other formations within the Malevolent Demon Residence were deactivated. Those unable to proceed prior to this now quickly made their way to the deepest part of the cave and saw the completed Sacred Blossom Puzzle Formation.

All of them rushed into the door without hesitation.

No one noticed the statue on the stone wall nearby.

At that moment, its eyes suddenly moved.

The statue watched the cultivators rushing into the door as it silently sunk into the stone wall.

Most of the readers are now reading this novels:-

Read The Almighty Dragon General Chapter 2967

The Almighty Dragon General Chapter 2967-In that moment, the Southern Academy's Southern Reverend was on the way to the depths of the Great Wilderness with the powerhouses he gathered.

At that moment, a frail voice spoke in the Southern Reverend's mind.

"Master, the Sacred Blossom Puzzle Formation has been deactivated. All those who entered the cave have entered the horrific space."

Hearing the report, a malicious smirk formed on the Southern Reverend's face. He continued leading the powerhouses into the depths of the Great Wilderness.

Meanwhile, the news about the Malevolent Demon had spread to different parts of the Boundless Realm, and reached the ears of many powerhouses. Some adventurous cultivators also rushed to the Great Wilderness to observe the situation.

After James walked through the door, he felt dizzy and felt as if the world around him was spinning. Just as he was about to lose consciousness, the spinning stopped, and he realized he had arrived at an unknown world.

James scanned his surroundings. He was now standing in a barren area.

There were no plants or living beings; only dead silence.

'What is this place?'

James frowned.

At that moment, his expression immediately changed to one of realization. He sensed a somewhat familiar energy.

"It's Curse Magic. This is extremely potent Curse Magic."

The wrinkles on his creased brow deepened.

He carefully sensed his surroundings to ensure he was not mistaken.

James was horrified that such powerful Curse Magic existed in this world.

Soon, other people began to appear as well.

The first to show up was the Martial Reverend.

After he arrived in the barren area, he was also greatly taken aback.

“W-What’s this energy?”

More than 30,000 years ago, he fought the Malevolent Demon and was injured by her.

The energy she left in his body had troubled him for 30,000 years. Even now, he was still unable to completely dispel the energy from his body.

As soon as he arrived, he immediately sensed the same appalling power.

It was the power of the Malevolent Demon.

“W-What’s this place?”

‘Why do I sense extremely corrupt energy?’

Many powerhouses appeared in the area with puzzled looks.

At that moment, Xainte also arrived. Feeling the Curse Magic, she approached James and asked, ‘What’s happening? Why is there such heavy Curse Magic in this place?’

James shook his head lightly and said, “I-I’m not sure either.”

Xainte frowned and asked, “I-Is it related to... The Malevolent Demon?” Initially, she almost mentioned her mother’s name, but realized there were too many outsiders. As such, she quickly amended her words before responding carelessly.

James gently shook his head.

At that moment, Emperor Jabari’s voice rang in his ears.

“Be careful, James. This place is very unusual, and the energy here is vile. Even though Thea might have reached the Quasi Emperor Rank’s Ninth Tribulation, the energy here is more powerful than anything I’ve ever sensed. A Quasi Emperor at the Ninth Tribulation shouldn’t be able to possess such energy.”

Hearing this, James was shocked. He had a general understanding of the ranks beyond the Divine Rank.

There was the Divine Rank's First, Second, and Third Stage.

Then, the Quasi Emperor Rank had Nine Tribulations one had to endure.

The Grand Emperor Rank was divided into Nine Heavens.

A cultivator at the Grand Emperor Rank's Ninth Heaven was the strongest one could reach in the entire Emperor Rank and would put one on the cusp of becoming Ancestral Gods.

However, Emperor Jabari said the Curse Magic in this place was far superior than the energy of a cultivator at the Quasi Emperor Rank's Ninth Tribulation. James was both bewildered and alarmed.

Most of the readers are now reading this novels:-

Read The Almighty Dragon General Chapter 2968

The Almighty Dragon General Chapter 2968-Overhearing James and Xainte's conversation, the Martial Reverend inquired in turn,

"What is Curse Magic?"

Although he was affected by the Curse Magic, he had no idea what it was.

The Martial Reverend and the other cultivators present had never heard of Curse Magic before.

Many of them looked at James and Xainte perplexedly.

James cast a glance at the Martial Reverend and the other powerhouses gathered.

His main purpose for traveling to the Boundless Realm was to find the Ancestral God

Rank Elixir to ensure humanity's safety. Even if the Boundless Realm were to be isolated from the rest of the world, that was fated to happen and was not something he could prevent.

After careful consideration, James said, "It needs an extremely lengthy explanation. I'll have to start by explaining the Four Calamities humanity had to face."

"Four Calamities?"

The Martial Reverend was puzzled, and so were the other people present.

All the humans present looked at James in confusion.

The Four Calamaties faced by humanity? When was this supposed to happen?

James knew the people of the Boundless Realm had no idea about the Four

Calamities. After all, the Four Calamities were events that would happen 100,000 years in the future.

He looked at the Martial Reverend and asked, "As a Grand Emperor, you must've heard of the Primeval Age, right?"

The Martial Reverend nodded lightly and said, "I have heard it's related to the survival of the Boundless Realm."

The Martial Reverend was a Grand Emperor that had lived for a long time. Therefore, he had vast knowledge.

He said, "A major incident happened during the Primeval Age that led to the destruction of a whole world. Before the world was destroyed, a few powerhouses united and set up a powerful formation. The worlds surrounded by the formation comprises the Boundless Realm.

'That formation is called the Boundless Formation."

James nodded and said, "Indeed. Well, I'll start by explaining about events from the Primeval Age."

"During the Primeval Age, Heaven's Adjudicators used to roam the universe. Their purpose was to punish those that defied the Heavenly Path. Back then, many human powerhouses were dissatisfied with the Heavenly Path and wanted to usurp it to create their own rules.

"Many powerful humans united to rebel against the Heavenly Path. However, they failed, and it marked the end of an age.

"Perhaps the powerhouses had already known it would fail and gained the knowledge that the Heavenly Path would create the Four Calamities to annihilate humans after ages had passed.

"As such, a few Ancestral Gods banded together to refine an Ancestral God Rank Elixir.

'Taking this elixir will temporarily give one the strength of an Ancestral God. It's crucial to resolving the Fourth Calamity that humans will face in the future.

'To ensure the Ancestral God Rank Elixir's safe keeping until the opportune time, many powerhouses joined hands to seal off a region to keep the elixir safe. This place is none other than the Boundless Realm.

"As for the Curse Magic, it's a product of the Third Calamity.

'When the Third Calamity struck, Curse Magic was inflicted on all human beings."

James parted his lips and recounted the events prior.

Hearing this, the Martial Reverend looked at James distrustfully.

Many of the events during the Primeval Age have been long lost. Very few powerhouses fully knew what happened. How could James know so much and even know about the Four Calamities in the future?

The Martial Reverend looked at James and asked, "How do you know all these things?"

James replied slowly, "It's because I came from the future. I appeared in the Boundless Realm after passing through the River of Time. I came here specifically to find the Ancestral God Rank Elixir.

"I've come from the period between the Third Calamity's aftermath and before the Fourth Calamity's onset.

"Humanity's Fourth Calamity is the Judgement Calamity. Heaven's Adjudicators will reappear and try to wipe out the universe's humans. Every member of the human race will face unavoidable judgement. Only by finding the Ancestral God Rank Elixir can we prevent this catastrophe."

"Haah!"

After hearing this, all the humans present took a sharp breath.

The Martial Reverend asked, 'Then what is the origin of Curse Magic?"

James explained, "During the Primeval Age, there was a peerless powerhouse called the Ancestral Talisman Master. He practiced an invincible art called Curse Magic, which uses Curse Power.

"In the future, the Heavenly Path will use Curse Magic to target humans."

Most of the readers are now reading this novels:-

Read The Almighty Dragon General Chapter 2969

The Almighty Dragon General Chapter 2969

The Martial Reverend pondered for a brief moment and asked, "Then why is this place full of Curse Magic? Also, why does the Malevolent Demon know how to use Curse Magic?"

James shook his head. He did not divulge anything about the Malevolent Demon's identity.

Although he knew it was Thea, he did not reveal the information to them.

Thea suffered an Energy Deviation and took many lives. This earned her the hatred of those in the Eidolon Realm. He might also suffer their wrath if he told them how he was related to her.

As for why the place was plagued with Curse Magic, he did not know.

However, there were a few possibilities that came to mind.

One, was that this place had existed since the Primeval Age.

The next was that the Ancestral Talisman Master had a successor that currently resided in the Boundless Realm.

The third was that Curse Magic found its way into the Boundless Realm, and someone in the Boundless Realm obtained its power. This particular living being used Curse Magic in this area, which resulted in the abundant Curse Magic pervading this desolate place.

At that moment, the Martial Reverend was lost in thought. He was trying to evaluate whether there was truth in James' words.

James claimed to have traveled through the River of Time.

How strong must he have been to travel through time?

He was a Grand Emperor and had a lot of knowledge. From his understanding, one had to be proficient in the Path of Time to open up the River of Time.

Traveling through the River of Time was a transcendent act that required one to have the power to go against the Heavenly Path.

Had James reached the Grand Emperor Rank's Ninth Heaven, allowing him to resist the Heavenly Path?

The Martial Reverend fell into thought.

After a while, he asked, 'Then what should we do now?'

Regardless of whether James' words were trustworthy, the most important currently was what they should do next.

How were they going to find the Malevolent Demon? In order to escape this place, they had to kill the Malevolent Demon.

Moreover, the Curse Magic that plagued the area was incredibly oppressive. If it were to leak into the outside world, it would be a hazard to the Boundless Realm.

"Ah!!!"

At that moment, one of the weaker cultivators shouted.

After his alarmed scream rang out, flames burst out from his body and engulfed him.

Seeing this, a powerhouse beside him leaped into action and extinguished the flames with his potent energy.

Although the weaker cultivator survived, he sustained heavy injuries.

James quickly reminded everyone. "Be careful. Don't get afflicted by the Curse Magic. It's almost impossible to expel it from your body. Even a Grand Emperor won't be able to get rid of it."

Despite James' words of warning, his advice was rather ineffective. The cultivators had already stayed in the area for a prolonged period, and the Curse Magic was thick in the air. Therefore, everyone in the area was already beginning to be afflicted by it.

Those that were weaker were already suffering from the effects of the curse.

"Boom!"

A flash of lightning pierced through the sky and struck a cultivator.

With the effects of the curses beginning to take shape, many of the cultivators in the area were affected and sustained injuries.

Some were burned, and others were struck by lightning.

There were also those whose bodies began to rot.

However, everyone was relatively capable and were able to suppress the curses for now.

Although they ended up cursed, they were temporarily safe.

However, the curse would remain in their bodies.

Read The Almighty Dragon General Chapter 2970

The Almighty Dragon General Chapter 2970-“What should I do? I can feel a very bizarre energy in my body. How do I get rid of it?”

“It’s so strange. I was suddenly struck by lightning. There wasn’t even any warning.”

‘What kind of power is this? Why is it so abnormal?’

Everyone was afflicted with Curse Magic and began panicking

James quickly reassured them. “With your strength, there is nothing to worry about. Although you can’t dispel Curse Magic from your body, you are all fully capable of suppressing it.

“In the future, this power will oppress humanity.”

Hearing James’ words, the cultivators slightly calmed down.

The Martial Reverend frowned and asked, “What should we do next, Mr. Caden?”

James felt slightly embarrassed that the Martial Reverend continued addressing him so formally.

He scratched his head awkwardly and said, “We must find out where we are first. Let’s scout the area.”

The Martial Reverend nodded. “Alright.”

Next, the cultivators began surveying the area.

The place was vast, and even a Grand Emperor like the Martial Reverend could not determine the size of the area.

Meanwhile, James called for Emperor Jabari inside the Celestial Abode.

Emperor Jabari used to be at the Ninth Heaven of the Grand Emperor Rank and had adventured to many dangerous places in the universe. Therefore, he was much more knowledgeable than others.

‘What’s this place, Emperor Jabari?’

Emperor Jabari sensed the outside world from within the Celestial Abode.

At that moment, his expression became solemn.

“James, this is a very unusual place. I can sense energy that doesn’t belong to this age. If I’m not mistaken, this place is a remnant of the Primeval Age. Something significant must have happened in this area, resulting in the powerful energy here.”

Hearing this, James asked, “Do you mean to say this place is from the Primeval Age?”

“It should be.”

James thought for a while and asked, “Who’s the person that set up the Sacred Blossom Puzzle Formation? Could it be Thea?”

Emperor Jabari said affirmatively, “No. Even though Thea has improved rapidly, it’s impossible for her to have mastered so many cultivation paths in a few thousand years. It’s unlikely that she set up the Sacred Blossom Puzzle Formation. If I recall correctly, there’s a powerhouse that entered the Boundless Realm before it was sealed off during the Primeval Age.”

“Is that so? Who’s this person?” Emperor Jabari did not know either.

However, he had a bad feeling about it.

The person that set this up was possibly related to the Four Calamities and the human’s attempt to destroy the Heavenly Path during the Primeval Age.

After thinking for a while, Emperor Jabari replied, “The humans in the Primeval Age knew they would fail and left a backup plan.

However, the Heavenly Path is an extraordinary existence.

“The Heavenly Path is an existence that rules the universe. How could it not have known that humans would leave behind a backup plan? I think the person behind this is likely targeting humans.”

Hearing this, James was startled.

“S-So he’s after me?”

Emperor Jabari said, “Mhm. You’re likely his target. I don’t know what Thea went through all these years, but according to what I know currently, she might have gotten into trouble and is being controlled by someone. You’re probably their next target.”

“It seems everything is fated. I was recently awaked and might get involved in this fateful battle from times of eld.”

Emperor Jabari’s complexion was pale. This would hardly concern him if he were still in his prime.
