

Read The Almighty Dragon General Chapter 3001

The Almighty Dragon General Chapter 3001-At that moment, James had already catalyzed the Jade Seal and seized back control of the Curse Power in this world. As Curse Power no longer headed in the Chancellor's direction, his aura stopped growing. There were also signs of the Curse Power inside his body seeping away.

The Chancellor summoned his full strength to catalyze Curse Magic in an attempt to control the Curse Power. However, the Jade Seal was too magical, absorbing all Curse Power.

"Damn it!"

The Chancellor's expression was solemn.

James was the most troublesome of all. Once he was dead, everything would be over.

His mind stirred, and he charged toward James. In an instant, he appeared before James and raised his hand. Innumerable threads of dark Curse Power materialized and gathered to form an unparalleled divine sword.

The dark divine sword swept toward James, carrying destructive power. As the dark divine sword shredded through the air, the destructive power it carried destroyed space and created deep spatial fissures.

"Die!"

The Chancellor roared.

As he roared, the dark sword formed by Curse Power swept toward James.

"James, dodge his attack. I can't block his attack with my current strength."

Jabari warned.

James heeded his warning. At that moment, his mind stirred, and 108 Infinity Steles appeared out of nowhere. Using the Infinity Steles, he formed a Superformation and placed himself in the middle.

The 108 Infinity Steles circulated around his body.

The dark sword struck the Infinity Steles.

Boom!

An explosion occurred in mid-air.

The terrifying sword struck one of the Infinity Steles. Then, the other steles began to shiver. As they began to be knocked back, spatial fissures began to appear.

The Chancellor's attacks were overwhelming. Even James, who had obtained Emperor Jabari's strength and possessed the terrifying Infinity Steles, could not deflect his moves.

The Infinity Steles were divine objects created during the creation of heaven and earth. The stronger the wielder was, the more power they would possess. Now that James had the strength of a Grand Emperor at the Second Heaven, the Infinity Steles he summoned were incredibly terrifying. Even so, he could not deflect the Chancellor's attacks.

James, who was in the middle of the Infinity Steles, suffered injuries. He could only feel an overwhelming power passing through the formation and spreading throughout his body. This power began frantically destroying his body.

Though his physical body was reshaped by the Demonic Lotus—not to mention that Emperor Jabari's strength had activated the concealed Demonic Lotus power within his body—this allowing his physical strength to reach the Grand Emperor Rank's Fifth Heaven, he was nonetheless unable to resist the attack.

Cracks began to appear on his body. At that moment, dark Demonic Energy materialized and circulated throughout his body, rejuvenating his injured body.

James did not dare let his guard down. As he hurriedly staggered backward, he summoned his full strength and catalyzed the Jade Seal to frantically absorb the Curse Power of this world and even that of the Chancellor. That was because he knew that as long as the Chancellor was denied of Curse Power, his strength would decrease. If that happened, he would emerge victorious.

Upon seeing this, the many powerful figures from afar could feel a chill down their spines.

"He's too strong," the Martial Reverend could not help but exclaim, "I wouldn't have been able to deflect the attack. I would have been turned to ashes, and my soul would have been obliterated. I never thought that James would be able to accomplish that and escape unscathed."

The Almighty Dragon General Chapter 3002-At that moment, the Chancellor was invincible. No one stood a chance against him. Everyone saw James deflecting his attack, but James only barely managed to do so by summoning the Infinity Steles. Even

so, he suffered injuries. Without the Infinity Steles, he would have been severely injured or even dead despite his current physical strength, which was equivalent to a Grand Emperor at the Fifth Heaven.

After blocking the Chancellor's brutal attack, James hurriedly retreated and stayed far away from this region. At the same time, he catalyzed the Jade Seal and kept absorbing Curse Power. He concentrated on suppressing the Curse Power he absorbed as well. James knew that the Chancellor had an advantage, so he chose not to fight head-on.

"Damn it!" the Chancellor cursed.

He never expected James to resist his attack and escape alive.

The Chancellor charged toward James.

James, meanwhile, continued to retreat and stayed a certain distance away from his pursuer. Soon, they were far away from the battlefield.

Meanwhile, there was still a fierce battle going on.

Now that one of the Twelve Furies had been annihilated, only eleven remained, fighting tooth and nail for their survival. Even though they were Grand Emperors, they gradually lost ground and suffered injuries after being relentlessly attacked by millions of attackers. However, as they were Grand Emperors, none could completely annihilate them without possessing overwhelming strength. Without the Nine Heavens God-Annihlating Formation, no one could accomplish such a feat.

At that moment, James continued to flee. After obtaining Emperor Jabari's strength, he was now at the Grand Emperor Rank's Second Heaven. After his Demonic Lotus power was activated by Emperor Jabari's power, his physical strength was now at the Grand Emperor Rank's Fifth Heaven. His strength was terrifying, and his speed was extraordinary.

He traversed the void and continued to flee, while the Chancellor was close on his heels. As he pursued James, he kept launching attack after attack. Each of the attacks had unbelievable destructive capabilities, and as such, this world was slowly being destroyed.

James had no intention of fighting the Chancellor whatsoever. Now, he kept fleeing while catalyzing the Jade Seal at the same time to frantically absorb the Curse Power of this world and that of the Chancellor.

Though the Chancellor practiced Curse Magic and could control Curse Power, the Curse Power inside his body kept being depleted and absorbed. He knew that death awaited him if this continued. As such, he had to kill James as soon as possible.

However, along the way, he could not manage to launch a single attack on James. This made him livid.

In a desolated area of the Cursed World...

Swoosh!

The void was being torn apart.

A man walked out of the void. On his head was a black Jade Seal, and he was surrounded by 108 Infinity Steles.

It was James who made his escape here.

Immediately, the Chancellor appeared as well.

Terrifying power shredded through the air.

Boom!

The power struck the region where James was. However, James managed to dodge in time.

The region was completely destroyed.

“Where do you think you’re going?”

The Chancellor’s expression was livid. Standing in mid-air, he made a few hand gestures, and black characters materialized before spreading out into this space.

At that moment, the space was sealed.

James tried to flee through the void but realized that space has been fortified. Even with his full force, he could not tear open the void.

The Chancellor charged toward him.

Read The Almighty Dragon General Chapter 3004

The Almighty Dragon General Chapter 3004-The Sanctuary of Darkness had been making preparations to resurrect a certain powerful individual for many long years. Throughout the many long years, they controlled many powerful individuals to do their bidding. However, just as they were about to accomplish their objective, James appeared out of nowhere and ruined their plans. So, James had to die. Otherwise, the

plan would fail. If the Master blamed the Chancellor for this failure, he had no way of shouldering the responsibility. The plan must work even if the Twelve Furies had to pay with their lives.

Killing intent rose in the Chancellor's heart. Holding a black sword in his hand, he exuded a terrifying aura. He was originally a Grand Emperor at the Second Heaven. Yet, after absorbing the Curse Power of this world, he was now at the Ninth Heaven. This strength was unprecedented even in the Primeval Age, where he would be considered a top-notch fighter. Though James had many treasures in his possession, the Chancellor believed that he would not live for long.

Clenching the sword in his hand, his body flashed, and he appeared before James and pierced with his sword. At his rank, his speed was extraordinary, so fast in fact that even James could not sense his presence. By the time James reacted, the sword was only inches away.

His mind stirred, and the Infinity Steles in the pile of rubble down below appeared before him in an instant and blocked the Chancellor's fatal attacks.

Boom!

The terrifying sword struck the Infinity Steles.

Though the Chancellor's attack was terrifying, the Infinity Steles were unscathed. However, after absorbing the attack, the power spread throughout James' body. James was immediately sent flying and he spurted out a mouthful of blood. At that moment, he hurriedly summoned the wheel created by the Five Elements of Genesis and launched a counteroffensive.

Knowing how powerful the Elemental Wheel was, the Chancellor chose to dodge the attack.

James seized the opportunity and summoned the Infinity Steles that had been knocked away to form a formation. At the same time, he summoned Demonic Energy to heal his injuries. Now that he had breathing room, he summoned the Jade Seal once more and frantically absorbed the Curse Power of this world and even that of the Chancellor.

Though the Chancellor guarded the Curse Power inside his body fiercely, he could not stop them from escaping. Though the depletion speed was slow, this could not continue. If this continued, he would only become weaker and eventually be annihilated by James.

"Die!" he roared.

He knew the only way to emerge victorious was to swiftly end James' life. He attacked relentlessly, and with his immense power, he fought against the Elemental Wheel head-

on. James suffered tremendous injuries. As James suffered injuries, Emperor Jabari, who was inside the Celestial Abode, was also affected as well. His soul became dimmer, almost on the verge of disappearing.

“Grand Emperor.”

The Spirit Tool was anxious.

Jabari waved his hand slightly and said, “I’m alright. Though my power has been depleted, I can still hang in there.”

Even so, the circumstances did not bode well for them. If James could not defeat the Chancellor as soon as possible, his energy would continue to be depleted. Once his power was completely depleted, he would completely disintegrate into nothingness. However, he did not apply pressure on James.

The fierce battle continued.

James kept suffering injuries and only recovered his injuries through his Demonic Energy. He knew this must not go on.

The moment the Chancellor was sent flying by the Elemental Wheel, James’ mind stirred, and the Jade Seal flew toward the Chancellor and appeared on his head. As the Jade Seal approached the Chancellor, a mysterious power materialized, frantically absorbing the Curse Power inside the Chancellor’s body. In that instant, the Chancellor’s Curse Power was severely depleted.

Read The Almighty Dragon General Chapter 3005

The Almighty Dragon General Chapter 3005-“Dammit, what the hell is this?”

The Chancellor’s expression was solemn.

He raised the sword in his hand to knock the Jade Seal back. However, as he pierced his sword, the sword was stuck to the Jade Seal. When he tried pulling his sword back, a powerful suction force came from the Jade Seal. Even when he used his full force, he could not take back his sword. At the same time, the Curse Power inside his body was continued to being depleted.

His face paled, and he hurriedly abandoned his weapon. After abandoning his weapon, he hurriedly fled. Meanwhile, the weapon fell to the ground.

“How terrifying! What was that? Why was it able to suppress my Curse Power?”

The Chancellor appeared in the distance and gazed at the black Jade Seal levitating in mid-air. His expression was unusually grim. To his understanding, Curse Power should be invincible and was a power that surpassed all. Now, however, the Curse Power was completely being suppressed.

At that moment, the Jade Seal charged toward him. His face paled.

“Curses!”

He knew this could not go on. Before his power was completely taken away, he had to annihilate James.

His mind stirred, and his sword on the ground flew toward him. Holding the black sword in his hand, he attacked James relentlessly.

James, on the other hand, summoned the Elemental Wheel and the Infinity Steles to parry his attacks.

The fierce battle raged on.

The void was being destroyed, and cracks kept appearing on the ground.

In the blink of an eye, ten days passed. Over the past ten days, James suffered many injuries. However, with his unparalleled physical body, he managed to hang in there. However, he could clearly sense that Emperor Jabari’s strength had decreased significantly. However, at the same time, the Chancellor’s strength had been sapped away by the Jade Seal. In the beginning, the Chancellor’s strength was equivalent to the Grand Emperor Rank’s Ninth Heaven. Now, he was only at the Seventh Heaven. His rank had decreased substantially. So, though Emperor Jabari’s strength had been depleted, the pressure on James was slowly decreasing. He knew that his chances of winning were growing.

Meanwhile, over the past ten days, the Martial Reverend, Thea, and the Grand Emperor beasts who had been under the control of the Sanctuary, had managed to annihilate the remaining eleven Furies. After annihilating them, they hurriedly headed to the battlefield by sensing the battle aura. However, the battle between James and the Chancellor was too fierce. Even a Grand Emperor such as the Martial Reverend could not participate. Otherwise, he would suffer injuries very soon. So, they chose not to make trouble for James and instead watched from the distance.

On the battlefield in the distance...

As Xainte gazed at the battle in the distance, she glanced at Thea who was beside her and asked, “Mother, what rank is Father at? Why does his strength fluctuate from time to time?”

Thea was confused as well. She had no idea about James' rank either.

She shook her head slightly and said, "I don't know either."

Xainte asked once more, "What are the black stone tablets near him, and what is that colorful wheel? I sense immense power coming from them."

Thea explained, "They are treasures that have existed since the creation of heaven and earth. The black stone tablets are the Infinity Steles. They are providences of the First Calamity on Earth. The other should be the Five Elements of Genesis, the providence of the Second Calamity. They are both unparalleled providences which your father obtained."

"Oh." Xainte seemed to be in deep thought. Then, she asked, "I thought you said Earth has undergone three calamities. So what is the treasure for the third one?"

James had told Thea everything about the Third Calamity.

Thea said, "There are quite a few providences for the Third Calamity. However, the ultimate providence is 'Leap out of the Three Dimensions, Relinquish the Five Elements, and Attain an Emperor's body'. Your father obtained this providence, yet he gave it away to someone else."

The Almighty Dragon General Chapter 3006-"What?!"

Xainte was shocked.

"He gave them away to someone else?!"

She had no preconceived notion about the providence of the Third Calamity on Earth. However, based on the previous two providences, the third one should have been terrifying.

"What is the third providence? Why did Father give them away to someone else? Who was the person?"

Thea explained, "In essence, after obtaining the ultimate providence of the Third Calamity, one will be able to reach the Grand Emperor Rank easily. Throughout the entire process, there'll be no Heavenly Tribulations. In any case, he gave it away to a woman."

Speaking of which, Thea could not help but be slightly jealous.

Hearing this, Xainte smirked, "I never thought that Father would be such a playboy. He seemed to be an upright man."

In the distance, the fierce battle continued.

In just ten days, the Chancellor had lost the strength of two sub-ranks. It infuriated him. Over the past ten days, he had summoned his full strength, yet he could only inflict minor injuries on James and could not completely annihilate him. Now, as his strength decreased, his attacks could no longer deal any fatal blow to James because James' physical body was at the Grand Emperor Rank's Fifth Heaven. Together with the Infinity Steles, the Five Elements of Genesis, the Ancestral God Weapon, and many other treasures in his possession, the Chancellor could do nothing.

He knew that his chances of winning had vanished. If continued fighting, his power would be further depleted. Once his Curse Power was completely absorbed, he would be nothing more than a sheep to the slaughter.

At that moment, he thought of escaping. As long as he survived this ordeal, he could make a comeback one day.

Seeing that the Chancellor retreated, James immediately knew what was on his mind. He did not give the Chancellor the opportunity to flee. The Elemental Wheel charged toward the Chancellor and crushed the space in his surroundings. The Chancellor came under direct hit and suffered grave injuries.

"Damn it!"

He wiped the blood trace off his lips. His expression was solemn. Though he wanted to kill James, he had no way of accomplishing that.

At that moment, the Jade Seal hovered above his head and frantically absorbed the Curse Power inside his body.

"Kid, don't cross the Sanctuary of Darkness. You'll regret this. No matter who you are, you will be dead meat," the Chancellor warned.

Leaving that remark, he slashed the void and created a fissure. Then, his body flashed, and he entered the fissure, vanishing without a trace.

"Trying to escape?"

James' face darkened as he hurriedly gave chase. However, by the time he was there, the fissure was gone. He tried sensing his opponent's aura and forcibly tore open the void to pursue him. After arriving at a different location, he completely lost track of the Chancellor's aura. Standing in mid-air, he sensed his surroundings. However, there was

no sign of any aura. His expression was grim. If he could not annihilate the mastermind behind this, it would more difficult the next time they meet.

At that moment, Jabari's voice came, "Never mind, James. Stop chasing after him. My strength is almost depleted. Hurry up and suppress the Curse Power within your body. Otherwise, you'll die once my power recedes."

"Understood."

Hearing this, James stopped giving chase.

He immediately sat in a lotus position in mid-air and concentrated on suppressing the Curse Power inside his body.

Recommended Novels

Read The Almighty Dragon General Chapter 3007

The Almighty Dragon General Chapter 3007-The world was full of Curse Power. James knew that he could suppress and transform them into mysterious inscriptions. So, he did not let this opportunity slip by and began using the Jade Seal to frantically absorb the Curse Power of this world.

Soon, Thea, Xainte, the Martial Reverend, and many others arrived. Then, they saw James sitting in mid-air. At that moment, he was covered in dark Curse Power.

They knew that James was suppressing Curse Power, so they did not interrupt him and instead remain by the sidelines.

As the Emperor was worried that the Chancellor would return, he wanted James to leave as soon as possible after suppressing the Curse Power. He set up a Time Formation in James' surroundings to allow him to suppress Curse Power within. At the same time, he consumed an elixir that recovered one's soul to maintain the power of his soul.

In the blink of an eye, ten years passed, and Thea, Xainte, and the others had been waiting all this while. A long time had also passed inside the Time Formation. However, James did not leave his closed-door meditation. In the meantime, the Jade Seal kept absorbing Curse Power. Those who were contaminated by Curse Power upon entering this world had it taken away, including the trapped living beings and the primordial fighters.

Xainte looked at James who was in the Time Formation and asked, "It's been ten years. Is he done yet?"

Thea consoled her, saying, "The Curse Power is terrifying. Suppressing them completely is an extremely difficult feat."

"Oh."

Xainte waited patiently.

Meanwhile, Emperor Jabari who was inside the Celestial Abode kept providing power to James. As he was in a soul state, not to mention that this was only a remnant of his soul, he did not have much remaining strength. All these years, his energy had almost been depleted. He only barely managed to remain in existence because he kept consuming the elixir. Otherwise, he would have long faded away.

Upon seeing Emperor Jabari's body turning dimmer and dimmer, the Spirit Tool became increasingly worried.

A long time passed.

In the blink of an eye, a hundred years had passed. Over the past century, everyone could clearly sense that the world's Curse Power had greatly diminished and it was almost completely eradicated.

Meanwhile, James had completely absorbed the Curse Power of this world and suppressed them. Millions of dark characters began to form inside his body, gathering inside his elixir field to form a ball of dark clouds.

After so long, Emperor Jabari could no longer maintain his current form. Upon sensing that James had completely suppressed the Curse Power, he breathed a sigh of relief. Then, without uttering a single word, he vanished without a trace. The Spirit Tool knew that it would take a long time for Emperor Jabari's soul to recover.

Meanwhile, the Time Formation in the air slowly disappeared, and James slowly descended from the sky. Upon losing Emperor Jabari's power, his strength weakened. Besides, without the support of Emperor Jabari's power, the activated power inside his physical body slowly returned to seclusion and completely vanished in the end. Though he had grown weaker, he knew that he had reaped a lot of benefits. His physical strength had been completely activated. It had disappeared, but his physical strength was nonetheless still overwhelming. After remaining at the Divine Rank's First Stage, his power stopped seeping away.

Besides, during the battle when he was imbued with Jabari's power, his Sage Energy had been frantically absorbing this power and the Curse Power outside. When his life was hanging by a thread, the Elixir of Nine Deaths increased his rank to the Sage Rank's Fifteenth Stage. Even though Emperor Jabari's strength had vanished, his rank stabilized at the Sage Rank's Twentieth Stage. Compared to the past, he had jumped by five sub-ranks. Though he was still considered weak, he was already satisfied.

The journey to the Cursed World drastically increased his rank. With his current physical strength, he could fight against a cultivator at the Divine Rank's First Stage.

Recommended Novels

Read The Almighty Dragon General Chapter 3008

The Almighty Dragon General Chapter 3008-James' physical strength increased drastically and was now at the Divine Rank's First Stage. Even his rank was at the Sage Rank's Twentieth Stage. This, however, was not the point. The most significant of all was that James had absorbed the Curse Power of this world. At that moment, millions of black characters appeared in his elixir field. Each of them was ever-changing and mysterious. James knew that this must be the Curse Inscription, the key to cultivating Curse Magic. Once his rank reached the Divine Rank, he would be able to cultivate Curse Magic properly.

He slowly descended from the sky and landed steadily on the ground.

Thea hurriedly walked over to him and asked with concern, "Are you alright?"

James smiled faintly and said, "What could go wrong? Though the battle was fierce, I'm a man blessed by the Heavenly Path. As such, I'm able to overcome all odds. Now that the battle was over, I have obtained many benefits."

"And your rank?"

Thea looked at him in confusion.

Even now, she could not see through James. She could not figure out why his strength fluctuated constantly.

James smiled coyly and whispered something in her ear.

"Ah, I see..."

Realization dawned on Thea's face.

At that moment, many powerful individuals walked toward them. This included the Martial Reverend, the powerful figures of the Five Academies, and the Grand Emperors who had been controlled.

"Thank you for saving our lives, Master James."

"If not for you, we would have perished."

They were thankful for James.

James waved his hand slightly.

Glancing at Thea, he said, "The mastermind has escaped. I don't know where he is now. As long as he still lives, his plan would survive. Now, our priority is to destroy the Resurrection Formation."

"Mhm." Thea nodded.

James said, "I don't know how to destroy this formation. I'll leave this to the rest of you."

An individual well-versed in formations stepped forward and said, "This is simple. We just need to find the Eye of the formation. However, this world is too big. No one knows where the Eye is concealed at."

Everyone's gaze was fixed on James. Since James was the one who defeated the mastermind, he must have had an idea. They knew clearly just how powerful the mastermind was. After absorbing the Curse Power of this world, his strength was equivalent to the Grand Emperor Rank's Ninth Heaven. In the end, he was defeated by James. This meant that James' strength was equivalent to his.

James, however, shrugged and said, "You'll have to deal with this by yourselves."

He really had no idea what to do. Now that Emperor Jabari had entered a closed-door meditation to heal his injuries, he had no way to seek his advice.

Since James was reluctant to help, the others had no choice but to gather and discuss ways to destroy the formation. After a brief discussion, they first decided to seek the other living beings trapped in this world. Then, they would use their help to search for the Eye.

With the assistance of many powerful figures, they eventually found the Eye and destroyed the Resurrection Formation.

Now, another problem had arisen. How would they leave this place?

Everyone's gaze was once again fixed on James. They believed that since he was this powerful, he must know the way out.

James sighed and said, "Stop looking at me, guys. I really have no idea how to leave this world."

"Do you really not know, Master James?" A Grand Emperor at the First Heaven found this hard to believe. To him, James was simply reluctant to lend a helping hand.

James nodded and said, "I really don't know. Besides, stop calling me Master James. My rank is insignificant. I'm unworthy of that title."

Read The Almighty Dragon General Chapter 3009

The Almighty Dragon General Chapter 3009-Hearing this, the others scoffed.

Insignificant? If James was considered insignificant, they would be mere ants.

James was eager to leave this bizarre world as well. He looked at Thea and asked, "Thea, do you really not know how to leave this place?"

Thea shook her head and said, "Yes."

James said, "In this case, let's go separate ways and search around for any exits that we may have missed."

"Understood, Sir!"

Everyone obeyed.

Then, they went their separate ways and began searching around for an exit. However, no matter how hard they searched, they could not find anything.

"Master James, we couldn't find an exit."

"What should we do now?"

Many Grand Emperors looked at James.

James sat on a stone. Since no one was able to find anything, there was nothing he could do.

Thea was sitting beside him, pensive. Suddenly, an idea flashed through her mind, and she said, "I know!"

"What?" James turned around and looked at her.

Thea said, "We've searched everywhere, but there's one place we skipped—the Sanctuary of Darkness. My guess is that the exit is hidden there."

James believed that this was possible. He hurriedly stood up and said, "What are we waiting for then? Let's head over to the Sanctuary at once."

So, the powerful figures followed James and headed to the Sanctuary. Soon, they arrived outside it. James, Thea, Xainte, and some of the more powerful ones, entered

first and searched around the place. As expected, they found the exit and left the Cursed World.

When they passed through the passageway and reappeared, they were outside the Malevolent Demon Residence. Then, they hurriedly left the place. More and more living beings escaped the Cursed World and arrived at this place before heading into the depths of the wilderness.

Outside the Malevolent Demon Residence, the Martial Reverend looked at James respectfully and said, "James, this place isn't that far away from the Paragon Sect. Why don't you pay a visit there?"

James waved his hand slightly and said, "I won't be going to the Paragon Sect. I have something else to attend to."

Hearing this, the Great Elder of the Paragon Sect stood up and looked at Xainte, saying, "Xainte..."

Xainte immediately understood what he meant. She looked at James and pouted. "The Paragon Sect is where I grew up. Don't you want to have a look?"

"Hmm..."

James scratched his head.

The Martial Reverend chimed in, "We still have no idea about the identity of the mastermind who escaped. However, there must be a powerful force behind this incident. Though he has escaped, he will surely make his comeback. Please follow me to the Paragon Sect where we can discuss our next course of action."

James thought about it and said, "I can pay the Paragon Sect a visit. But, I won't be participating in any discussions."

James' rank was insignificant, and he had no right to participate. Besides, he had to make his way to the Elixir Pavilion to see if it was the one mentioned by Xandros Teagan. His current priority was to search for the Ancestral God Rank Elixir. Though he could roughly guess that the Sanctuary of Darkness was targeting him, this was mere speculation, and he did not wish to fight against such an organization at this point in time.

Xainte smiled brightly and said, "That's more like it! What about you, Mother?"

Thea smiled and said, "Since James is going, of course I'm accompanying him."

Recommended Novels

Read The Almighty Dragon General Chapter 3010

The Almighty Dragon General Chapter 3010-After being warmly welcomed by the Martial Reverend, James planned to head over to the Paragon Sect for a walk. The other powerful figures who were freed walked toward him.

"This is farewell, Master James. If you need anything in the future, don't hesitate to call me. I'll be there in an instant."

"Goodbye, Master James. Just tell me if there's anything you need in the future."

...

No matter the living beings that entered the Cursed World or those who were controlled by the Curse Power, they all showed James their gratitude.

Seeing this, James only grinned.

James and the others did not linger for long. Together with the Martial Reverend, the Great Elder of the Paragon Sect, and many others, they left the great wilderness.

"Before heading to the Paragon Sect, I need to go to Southern Plains City for a while," James said.

Xainte furrowed her eyebrows and asked, "But why?"

James said, "It's a long story. I went to a place called the Stardust Realm in the Boundless Realm..."

James narrated the chain of events that unfolded in the Stardust Realm, including his relationship with Yevpraksiya.

"How do I put this...? Yevpraksiya is sort of my chambermaid. If I don't bring her along to the Paragon Sect, I'm gonna feel awful."

Hearing this, Thea remained silent. Even if James had an affair with this chambermaid called Yevpraksiya, she could only turn a blind eye. This was no longer Earth in the past.

They departed on their journey. Soon, they arrived at Southern Plains City.

The moment a powerful figure such as the Martial Reverend appeared, there was a commotion. Even the Lord of the Southern Plains City welcomed him personally. However, the Martial Reverend did not plan on staying here for long.

James went to an inn and found Yevpraksiya there. All this while, Yevpraksiya had been waiting in Southern Plains City. As no news of James came, she became worried. She wanted to head to the depths of the great wilderness to search for him. However, her rank was too insignificant. Every day, she was filled with consternation.

Suddenly, the door opened.

Yevpraksiya who was in the midst of spacing out turned to look at the door. Upon seeing James, she excitedly stood up and rushed toward James, grabbing his hand and crying out in delight, "You're alright, Mr. Caden! I'm so glad!"

At that moment, Thea and Xainte walked into the room.

Thea frowned when she saw what was happening.

Xainte, on the other hand, was smiling brightly.

Yevpraksiya looked at the two who entered her room. Though she did not recognize Thea, she was immediately dumbfounded upon seeing Xainte.

"X-Xainte Callahan?"

Xainte's prestige in this world was unrivaled. Though her strength was not exactly top-notch in the Boundless Realm, her potential was terrifying. Since antiquity, no one had been able to become a Quasi-Emperor in tens of thousands of years.

Xaine scrutinized Yevpraksiya, who was considered rather beautiful. However, her rank was low.

James hurriedly pulled away from Yevpraksiya's grip and said with a smile, "This is my wife, Thea Callahan. This is my daughter."

"What?"

Yevpraksiya was stunned.

What was going on? How did Xainte suddenly become James' daughter after coming back from the great wilderness?

"This is a long story. I'll tell you some other day." James did not explain much.

Thea, on the other hand, said coldly, "Since we've found her, we should get going."

"Mhm." James nodded and said, "Let's go."
