The Almighty Dragon General Chapter 3151-His body contained countless Curse Inscriptions, which contained Curse Power.

Curse Inscriptions continuously emerged from James' body while he was in the Time Formation. The inscriptions revolved around him, and black energy surrounded his body.

James attempted to convert the Curse Inscriptions in his body into Curse Power.

If he could convert them into Curse Power, he could cultivate his second Ousia.

James named it the Curse Ousia.

After cultivating for a while, he converted some of the Curse Inscriptions into Curse Power. Unfortunately, he could not convert them all at once.

Despite that, he did not give up.

He knew that as his knowledge of the general outline of the Curse Inscriptions grew, he would eventually be able to completely convert all of them into Curse Power.

Time passed day by day.

James' comprehension of the basics had grown deeper.

Meanwhile, Melinda was focused on breaching the formations.

A man stood atop a mountain in the distance.

He looked relatively young, seemingly in his twenties.

The man wore a black robe and was rather handsome.

He looked into the distance and looked at Melinda breaking the formation.

"Who is she?" The man frowned.

He had seen the formation before, but it was impossible for him to break it despite his high cultivation rank and attainments.

However, this woman was able to break so many layers of the formation.

"As for James..."

The man's gaze fixated on James.

He knew James was the one that sabotaged his plans time and time again. However, he sensed that James' strength was very low and that he was only in the Divine Rank.

He could easily kill a human cultivator at the Divine Rank with a snap of his fingers.

"Although he has a low cultivation rank, the Curse Power in his body is overwhelming. His strength could be comparable to a Ninth Heaven Grand Emperor if he fully exerted the Curse Power in his body.

"What's with that Jade Seal? Is that the treasure the chancellor mentioned that could absorb Curse Power?"

The black-robed man was none other than the Sanctuary of Darkness' Master.

In the past, he had never shown himself.

However, the Sanctuary of Darkness suffered massive casualties, which significantly affected their following plans. He had to rescue the members captured by the Elixir Pavilion to accomplish his goal.

Therefore, he personally involved himself and removed the Aqua Realm's seawater.

He aimed to lure James and the others away and trap them in the Aqua Realm.

Then, the Sanctuary of Darkness could rescue its members.

The Sanctuary of Darkness' Master did not dare to act recklessly. He stood atop the mountain and carefully watched James' every move.

James' party was completely unaware that they were being watched.

At that moment, James was immersed in his cultivation.

His understanding of the Curse Inscriptions' framework was growing more profound, and he was able to convert more of the Curse Inscriptions into Curse Power.

Previously, he could not refine the Curse Power and could only condense them into Curse Inscriptions.

However, he gradually became more knowledgeable in Curse Magic and could slowly refine Curse Power.

A brand new power emerged in his body—Curse Power.

His Curse Power continued growing more potent and threatening at a rapid rate.

Black inscriptions surrounded his whole body. Curse Power was extracted from the inscriptions and entered his body through his pores. James gradually refined them into pure Curse Power.

The Almighty Dragon General Chapter 3152-Under normal circumstances, it would take a long time for a cultivator to reach the Divine Rank. Even a prodigy with inexhaustible resources would take a substantial amount of time.

Before James cultivated the Curse Inscriptions, he had no Curse Power in his body.

After he practiced Curse Magic, he absorbed the Curse Power within the Curse Inscriptions and continued to grow the Curse Power in his body.

James was focused on his cultivation and made large amounts of progress rapidly.

Before he knew it, the Curse Power in his body had reached the Sage Rank's Thirty-Third Stage—the rank in which he could cultivate an Ousia.

After reaching the Thirty-Third Stage, James temporarily stopped cultivating.

He took a deep breath.

“That was fast.”

He did not expect to raise his Curse Power to such a high level in just a short period.

Previously, he used the Curse Inscriptions to control the Curse Power.

Now, he had Curse Power itself in his body. His Curse Power had reached the rank where he could cultivate an Ousia and was already at the Consolidation stage.

However, he could not overcome the Consolidation stage with his current understanding of Curse Magic.

To get through the Consolidation, he had to further deepen his knowledge of Curse Magic.

After mulling it over briefly, James continued to study the foundations of Curse Magic.

His knowledge of Curse Magic grew more profound.

Curse Magic was a mysterious and unpredictable power.

It was terrifying and nigh unfathomable.

There were many variations to Curse Inscriptions and they could be transformed into different Supernatural Powers.

The Time Formation contained abundant Curse Power.

Xainte watched James' every move from outside the formation.

She could not help asking, "Mom, is Dad practicing Curse Magic?"

"Most likely." Thea was not certain either.

After a brief thought, Xainte said, "I've encountered Curse Magic many times, and I've always felt how malicious it is. However, the Curse Power I feel from Dad seems like pure energy without a sinister aura. Why is that so?"

Thea shook her head.

She did not understand Curse Magic.

Although she was James' wife, she did not pry too much into James' affairs.

"Dad's comprehension of Curse Magic is at the Consolidation stage. It won't be long before he can refine an Ousia."

Xainte was a Quasi-Emperor and could sense James' Curse Power. Therefore, she could tell James' Curse Power was close to the Consolidation stage.

However, she did not know when he would overcome it.

Consolidation was not a tricky matter, but neither was it easy either.

If one thoroughly understood their chosen Path, one could pass the Consolidation easily.

Without proper understanding, one could not pass the Consolidation no matter how long they took.

Inside the Time Formation, James' whole body was surrounded by Curse Inscriptions.

Curse Power emerged continuously from the inscriptions which James absorbed and refined into energy.

At that moment, the Curse Power in his body slowly accumulated.

The Curse Power formed a vortex in his body.

The vortex spun and absorbed the Curse Power from the Curse Inscription.

Time passed silently.

The vortex in James' body slowly converged and materialized into a black crystal.

The Almighty Dragon General Chapter 3153-The crystal was diamond-shaped and pitch black.

The Curse Power in James' body was completely stored within the crystal.

"I've succeeded!"

James took a deep breath.

After cultivating for a while, he finally succeeded in his Consolidation and formed an Ousia.

Now, he possessed two Ousias.

James stood up and drew back his energy. The mysterious inscription around him reabsorbed into his body and encircled his Ousia.

Although he had stopped cultivating, the Curse inscriptions continuously released Curse Power that strengthened Ousia.

James walked out of the Time Formation. As soon as he stepped out, the Time Formation disappeared instantly.

Seeing James had finished cultivating, Xainte walked over and asked. "Dad, have you cultivated your Ousia? What does it look like? Could you summon it for me to have a look?"

James smiled faintly. Summoning it with his mind, a black Curse Ousia appeared in front of him.

Countless mysterious black inscriptions emerged and revolved around the Curse Ousia, making it a bizarre sight.

Xainte stared at the Curse Ousia.

She could sense the powerful strength contained within the Curse Ousia.

Everyone else also looked at James' Curse Ousia.

Even Silvester was intrigued and asked. "What kind of power does the Curse Ousia have?"

James explained with a smile. "The power of the Curse Ousia depends on one's comprehension of Curse Inscriptions. Curse Inscriptions have all-encompassing power and can form any kind of Supernatural Power. Based on the Supernatural Power, it can also further unleash other kinds of powers."

"Curse Magic can destroy but also give life. In short, it can be used as any kind of power and Path. It can also be fused with other Paths."

While speaking, James summoned the Crepe Myrtle Divine Sword.

He held the sword and performed Curse Magic. A strange power emerged from the Crepe Myrtle Divine Sword, and a black Sword Light materialized.

The black Sword Light charged forward, cleaving through the mountains in the distance.

The plants in the surrounding area immediately withered away.

Immediately afterward, a burst of Sword Energy burst forth from the Crepe Myrtle Divine Sword. It swept the surrounding area, and the withered plants were instantly revived.

Everyone watched James in awe.

James said with a faint smile. "This is a very simple destruction and revitalization technique using Curse Magic. Curse Magic is extremely complex, and I've merely comprehended the basics."

"Amazing."

Nico gave James a thumbs up.

Curse Magic was terrifying.

He could finally understand why so many powerhouses joined the Sanctuary of Darkness to obtain Curse Magic.

Once James perfected Curse Magic, who in the Boundless Realm could stand against him?

James put away his Curse Ousia and the Crepe Myrtle Divine Sword. He withdrew his energy, then looked at Melinda floating in the distance.

He asked. "How's your progress?"

Silvester immediately replied, "There are thirty thousand layers to this formation. Each layer is stronger than the previous one. If it were me, I'm afraid I wouldn't be able to break even one layer.

"This woman, on the other hand, is very impressive. She has already broken twenty thousand layers. At this rate, the formation will be broken in just a couple hundred more years."

The 30,000-layered formation was powerful and breaching it got progressively more difficult.

At the rate that Melinda broke the formation layers, Silvester gave a rough estimation of how long more it would take.

"A few hundred more years?" James murmured.

Since there were still a few hundred more years to go, James did not waste time and wanted to return to cultivating.

He was racing against time and had to become stronger as soon as possible before humanity faced the Fourth Calamity.

The Almighty Dragon General Chapter 3154-Melinda would take a few hundred years to completely destroy the formation.

James planned to use the time to continue his cultivation.

"I'll continue to cultivate, then."

After his short remark, James walked toward the distance and asked Nova to set up another Time Formation.

He sat in a lotus position within the Time Formation.

He had already formed his Sword Path Ousia and the Curse Ousia. The next thing for him to do was to cultivate his Elemental Ousia.

He had the Five Elements of Genesis in his body, which could produce Elemental Power. The Elemental Power in his body was incredibly powerful and had already reached the peak of the Sage Rank's Thirty-Third Stage.

Thus, he would reach its Consolidation shortly with a little more practice.

James sat in a lotus position on the ground. Using his mind, he materialized the Five Elements of Genesis.

The Five Elements of Genesis were five treasures.

These treasures existed since the beginning of heaven and earth and contained the power of Genesis.

The Fire Genesis manifested as white flames. A spark of white flames floated in front of James.

James sensed the pure and magical power coming from the flames.

However, his comprehension of the Fire Path was lacking. Therefore, he could not fully utilize the Fire Genesis' power.

The Water Genesis' form was that of a Spring.

The Spring bubbled continuously, and miraculous water formed. The water overflowed and turned into pure power, which filled the air.

The Wood Genesis was Deadwood. On one end of the Deadwood, a few young shoots had sprouted.

Metal Genesis was an oblique piece of stone. It emitted golden light and mysterious power.

The Earth Genesis was soil that contained ancient power.

The Five Elements of Genesis appeared in front of James and lined up in an unusual shape. Considerable power emerged from them, causing them to be in flux with each other.

"The Five Elements of Genesis are amazing."

James looked at the Five Elements of Genesis with an awestruck look.

He had obtained the Five Elements of Genesis long ago but had not studied them thoroughly.

At that moment, he began to study them and grasp the Elemental Path as well as the Elemental Inversion.

Outside the Time Formation, his companions stared at him.

All of them observed the Five Elements of Genesis.

Even powerhouses like Silvester, Helvius, and Nico were amazed by the Five Elements of Genesis.

They knew James used it to defeat Tamuuz.

Nico murmured, "Is that the Five Elements of Genesis? Rumor has it the Five Elements of Genesis have existed since the formation of heaven and earth. They were acquired by five different powerhouses in the Primeval Age. These powerhouses were called the Five Ancestral Masters and were renowned during the Primeval Age.

Silvester looked at the Five Elements of Genesis and took a deep breath. Then, he said, "Mr. Caden has quite the number of rarities. He's very lucky to have acquired so many valuable things. It's no wonder he was entrusted with the responsibility of finding the Ancestral God Rank Elixir."

Everyone was taken aback by the Five Elements of Genesis that James summoned.

James then began to practice the Elemental Inversion.

He had been practicing Elemental Inversion for a long time and already understood some parts of it.

That made it easy for him to fuse their powers.

Blazing Fire Power burst out of the Fire Genesis.

Surging Water Power then flowed out of the Water Genesis.

Elemental Power formed from the Five Elements of Genesis and was absorbed by James.

James refined the Elemental Power and fused them in his body. Eventually, they coalesced and formed an Ousia.

Time went by in the blink of an eye.

Before long, James had cultivated in the Time Formation for an extended period.
