The Almighty Dragon General Chapter 3169-James said solemnly, "We might've gotten lost. Emperor Jabari mentioned it's easy to lose your way in the Dark World. It's impossible to accurately perceive time and get a hold of your surroundings in the Dark World."

Nico asked. "Then what should we do now? Should we turn back or keep going forward?"

James fell into deep thought. Even a powerhouse like Emperor Jabari got lost in the Dark World and only left after spending thousands of Epochs there.

If the two of them were to lose their way in the Dark World, they might never be able to make it out.

"Let's turn back," said James.

He still had other important things to do and did not want to get trapped in the Dark World for too long. If he were to get lost, humans would go extinct by the time he found the exit.

"Alright." Nico nodded.

The two turned back and tried to go back the way they came. However, they were still surrounded by dark mist even after walking for a long time.

"There's something wrong, James. We've been traveling for so long. I feel like we didn't walk far when we entered the black mist, yet why haven't we walked out of it by now?"

James stopped and began to perceive their surroundings.

He detected a few open fields around them that were full of potholes. Black mist continuously poured out of the ground.

However, his perception was limited, and he could only sense things within a small range.

James said solemnly, "We've most likely lost our way in here."

"Then what should we do?" asked Nico.

Since things have come to this, James had no choice but to seek Emperor Jabari's help.

"Emperor Jabari, I think we entered the Dark World and lost our way."

Emperor Jabari replied shortly after, "Then there's nothing you can do. The Dark World is a bizarre place. Even the Heavenly Path has no control over this palace.

"Moreover, the Paths of the Illuminated World are practically useless in the Dark World. This place has its own Paths.

"I stayed in the Dark World for about three thousand Epochs but I barely understood their Paths, nor did I understand their Dark Heavenly Path.

"The Dark Heavenly Path is basically the same as the Illuminated World's Heavenly Path, and it controls the Dark World.

"I think I can resurrect myself in the Dark World. The Heavenly Path of the Illuminated World can't interfere with the affairs here.

"After I revive, I can leave them Dark World. As long as I don't meddle too much in the Illuminated World's affairs, the Heavenly Path will most likely turn a blind eye to me."

James fell into thought and asked. "So it's going to be almost impossible for me to leave this place?"

Emperor Jabari replied, "Yeah. Since you've already stumbled into the Dark World, you might as well take advantage of the situation. The Dark World is also full of resources. You can also look for materials to resurrect me in the Dark World. As long as I'm resurrected, I should be able to lead you out of the Dark World with my understanding of the place."

"Alright."

At this point, James had no other choice.

He turned to Nico and said, "We're already lost in the Dark World. For now, we'll have to forget about leaving. Instead, let's search the place and look for materials to resurrect Emperor Jabari. He's our only hope to leave this place."

Nico nodded and said, "Alright."

Although the Dark World was full of unknown dangers, James and Nico had nothing to worry about.

After discussing briefly, the two continued to wander the Dark World.

Meanwhile, Emperor Jabari was performing a simple divining technique on the area to locate materials around them that could be used to reform his body.

Although he could not determine the exact location, he could still get a rough estimation of where they could be in the Dark World.

The Almighty Dragon General Chapter 3170-Emperor Jabari was trying to divine the area and find materials to rebuild his body.

However, the Extrapolation Path was from the Illuminated World, so its power was weakened significantly in the Dark World.

He could only estimate the rough direction of the materials and not their specific location.

He was still weak from the previous battle, and the Illuminated World's powers were almost completely useless in the Dark World.

"James, I can only divine a rough estimation of where the materials might be. Keep going forward. I can't tell you for how long you'll need to keep advancing though. You'll have to get closer to it for me to pinpoint its location."

Emperor Jabari's voice came from the Celestial Abode.

"Alright." James nodded.

He turned to Nico and said, "Let's keep going forward."

Along the way, Emperor Jabari had to keep observing their surroundings and guiding James toward the material.

James continued to proceed in spite of the darkness and had no idea how long had passed.

"Turn left."

James suddenly snapped back to reality after hearing Emperor Jabari's voice.

"What happened just now?"

James was alarmed.

Just now, he was moving forward unconsciously. If not for Emperor Jabari's voice, he would've continued mindlessly.

"The Dark World is terrifying..."

James took a deep breath to steady himself.

The deeper they advanced into the Dark World, the stronger the corrosive power of the mist.

James raised his hand. He saw thick, black mist on his hand, slowly devouring his flesh. Blood began to ooze out from his palm.

He wanted to use his energy to heal his wounds, but his powers had little effect in the Dark World. So, he was unable to treat his injury.

Even the Demonic Energy in his body was rendered useless, and he could only exert a bit of it.

"This place is creeping me out."

James murmured, "At this rate, my body is going to be eroded by the Dark Power here."

He turned toward Nico.

Nico, on the other hand, was doing fine. His cultivation rank was much higher, and was physically much stronger. Therefore, the corrosive powers from the black mist had yet to affect him.

"Emperor Jabari, I don't think going on like this is feasible. The mist here will devour my body here and it'll soon cease to exist."

James asked Emperor Jabari for an alternative.

Emperor Jabari fell into deep thought. After a while, he said, "I know very little about the Dark World, James. I've tried divining to find a solution. The only way for you I can sense for you to survive here is to cultivate a Path of the Dark World.

"A Path of the Dark World?" The suggestion horrified James.

"Yeah. You'll need to learn a Path of the Dark World, then absorb the Dark Power here and convert it into your own. After that, you'll be able to form an Ousia as well."

"Let me try."

James immediately sat in a lotus position and tried to absorb the power within the Dark World to convert it into his own power.

However, the Illuminated World's cultivation methods were ineffective in the Dark World. Therefore, James could not rely on previously used cultivation methods to absorb the Dark World's power.

Emperor Jabari's voice came from the Celestial Abode. "You can't do that. It's not going to work. I've stayed in the Dark World for three thousand Epochs. I've already tried it before."

"I've studied the Dark World's power. The power here can only be absorbed by evil spirits. When I got lost in the Dark World, I tried to create a cultivation method that could be used by the living. However, I never succeeded despite all that time."
