

## Read The Almighty Dragon General Chapter 3331

The Almighty Dragon General Chapter 3331-James realized that the area Melinda was in, near the Ancestral Talisman Master, was in the same place.

The area was located above the Sacred Blossom, so the entirety of the blossom could be seen from there. There were approximately a thousand seats in the area. However, most of the seats were empty.

Appearing below, James jumped and flew toward the central area. In the next moment, he appeared there.

Then, he glanced around the place. Currently, there were around a hundred living beings in the central area.

James could sense that the aura of the hundred living beings was extremely frightening. They should be in the Ancestral God Rank.

Huff!

James took a deep breath, and he looked shocked.

“How terrifying. I didn’t expect the Primeval Age to have so many masters.”

Right then everyone present was looking at James. All of them watched him leave his seat and go to the centre. The scene shocked all powerhouses and a few cultivators present.

“Who is that?”

“Does he not know that the seatings in the central area have been prearranged and that every seat represents a powerhouse?”

“This brat doesn’t know where he stands.”

Many people were anxious for James.

Although there were not any bodyguards here, all living beings followed the rules. After being shown to their seats, they dared not move around, even if they were Ancestral Gods. They were afraid that they might offend other powerhouses unknowingly and be killed.

Meanwhile, James walked to the central area directly. He was too brave. It was James’ first time here, so he was unaware of the rules.

He came to the front of the central area where the Ancestral Talisman Master was at.

As for Melinda, she was only one seat away from the Ancestral Talisman Master.

Under everyone's gaze, James arrived at the seat in front of Melinda and the Ancestral Talisman Master. From this seat, the whole Sacred Blossom could be seen.

After taking a glance at the Sacred Blossom that had not bloomed, he turned to look at the Ancestral Talisman Master.

The Ancestral Talisman Master was an elder. He appeared to be in his sixties. The black robe he wore made him look elegant. His eyes were slightly closed as if he were uninterested in the outside world.

"He's the Ancestral Talisman Master?" James mumbled.

Then, he turned to look at Melinda, who was on the other side.

At this time, Melinda was staring at him strangely with her big eyes.

Very generously, James sat on the seat in front of him.

The moment he sat down, a ray of eye-piercing white light burst out from the seat, followed by a terrifying Sword Energy. The energy made James' body fly into the air before falling hard onto the ground.

"What just happened?"

James got up from the ground awkwardly and glanced at the seat before him. The seat looked normal, and it was nothing out of the ordinary.

However, when he sat on the seat, an extremely horrifying Sword Energy burst out.

"You're quite brave." Melinda looked at James and smiled. "Do you know whose seat you're sitting on?"

James laughed. "Who cares? As long as he isn't here, I can sit here."

As he spoke, he sat down again. This time, he became careful. He tried to suppress the Sword Energy from the seat by using his power.

When he sat down, the Sword Light burst from the seat. Nonetheless, he was prepared this time, so he was not pushed out of the seat.

Innumerable Sword Energy surrounded him, making him appear magnificent.

"This is the Ancestral Sword Master's..." Melinda spoke up but could not finish speaking, and her mouth was agape. "How can this be?"

She was stunned.

At this moment, the Ancestral Talisman Master also opened his eyes slowly. He glanced at James, who was sitting on the Ancestral Sword Master's seat, with a shocked expression.

Meanwhile, the powerhouses, who had entered the venue and were waiting for the Sacred Blossom to bloom, were all surprised.

That was the Ancestral Sword Master's seat.

In the past, whenever the Ancestral Sword Master came here, he would sit there, and it was not just once.

Even though the Ancestral Sword Master had been absent on numerous occasions, ordinary people could not sit in his seat. That was because one must endure the pressure of the Ancestral Sword Master's swordsmanship when sitting down.

Now, a young man was sitting in the Ancestral Sword Master's seat.

Huh?

A commotion suddenly arose around the Sacred Blossom.

All living beings were guessing James' identity.

## **Read The Almighty Dragon General Chapter 3332**

The Almighty Dragon General Chapter 3332-It was unknown how often the Ancestral Sword Master had been absent to view the Sacred Blossom. Nevertheless, his seat had always been empty. On so many occasions, no one dared to sit in his seat.

Firstly, no one could sit in it.

Secondly, no one dared to sit in it.

Now, a young man was sitting in the Ancestral Sword Master's seat, and he managed to resist the pressure of the Ancestral Sword Master's swordsmanship.

For a while, many powerhouses were taking guesses about James' identity.

"Could he be a new Inner Disciple?"

“Probably so. Only by being the Ancestral Sword Master’s Inner Disciple and having his consent can he sit there.”

The sound of discussions resounded.

Even Melinda thought James was an Inner Disciple of the Ancestral Sword Master. She could not help but ask, “When did the Ancestral Sword Master take you in as his disciple? Why wasn’t there any news about this?”

The Ancestral Talisman Master, next to James, was no longer interested in what was happening after glancing at James. He closed his eyes and continued waiting for the beginning of the Sacred Blossom.

Sitting in the Ancestral Sword Master’s seat, James could feel that he was being engulfed by the Sword Energy. The Sword Energy was not hostile toward him.

The Sword Path Energy entered his body and stimulated the Sword Path Ousia in his body. Right then, the Sword Path Ousia seemed to be absorbing the Sword Path Energy.

At that moment, James fell into a mysterious state.

In a trance, a figure appeared in his mind. The figure was interpreting and teaching the Sword Path.

James was enlightened. Hours seemed to have passed, but in reality, only minutes had passed.

He had a breakthrough. James had reached the third Consolidation, and his comprehension of the Sword Path had increased.

After the figure in his mind disappeared, he woke up from the mysterious state. Sensing that he had reached the third Consolidation, he could not help but take a deep breath.

“How strange. Not only have I sat in the place the Ancestral Sword Master had sat before, but my comprehension of the Sword Path has also increased. In just a moment, I’ve reached the next Consolidation.”

“It’s no wonder he’s the top powerhouse of this era.”

He was very strong. The more James was in contact with a bigshot, the more he felt that his cultivation base was low.

“Not bad.” In the seat beside him, Melinda smiled. “I didn’t expect you to comprehend the Sword Path and reach the third Consolidation the moment you sat in the seat.”

Looking at Melinda, James grinned. "Thank you for your compliment."

"It's nothing. You have always been outstanding." Melinda asked, "By the way, what's your relationship with the Ancestral Sword Master? I know you aren't his Inner Disciple because if you were his Inner Disciple, you wouldn't have comprehended the Sword Path the moment you sat in his seat."

James smiled.

Strictly speaking, he was the Ancestral Sword Master's successor. However, as he was not the Ancestral Sword Master's Inner Disciple, he did not receive any guidance from him, so did not explain himself.

At this time, an elder hurried over.

The elder appeared to be in the eighties. He wore a grey robe and had the aura of a cultivator. With an anxious expression, he stood before James and looked at him before scolding, "What are you doing? This is the Ancestral Sword Master's seat. How can you sit here? Get up."

The elder was the current Sect Leader of the Path Sect, and his name was Xzavier Darius. Although he was an Ancestral God, he was only a Mystical Ancestral God.

James responded indifferently, "The Ancestral Sword Master hasn't arrived, so why can't I sit here? It's empty anyway. It'll be a waste if no one sits here."

Melinda spoke up, "Sect Leader, don't worry. If he can sit in this seat, it means he has received the Ancestral Sword Master's consent. Otherwise, he wouldn't have been able to sit here."

Then, Xzavier looked at James.

He could sense James' cultivation rank and could not help but be stunned as confusion was written all over his face. "The Ancestral Sword Master allowed you to sit here? That's impossible. You've only reached the Divine Rank and haven't even stepped into the Quasi-Emperor Rank. Even if the Ancestral Sword Master were to send a disciple, it wouldn't be you."

"Why not?"

James felt unhappy. It was just a seat. Was it worth chasing him away?

Presently, it seemed that only by admitting that he was the Ancestral Sword Master's disciple could he sit here, and only by sitting here could he see the entire Sacred Blossom.

Nonetheless, how should he make the elder in front of him think he was the Ancestral Sword Master?

After thinking about it, he realized that there was only one way.

## **Read The Almighty Dragon General Chapter 3333**

The Almighty Dragon General Chapter 3333-The only way was to take out the Ancestral Sword Master's weapon—the Crepe Myrtle Divine Sword.

If the Crepe Myrtle Divine Sword appeared, everyone would believe he was an Ancestral Sword Master's disciple.

Nonetheless, he was worried that taking the sword out would attract trouble.

'Anyway, I have to see the Ancestral Sword Master sooner or later. If I take out the Crepe Myrtle Divine Sword now and let the powerhouses think I'm an Ancestral Sword Master's disciple, I can walk around this world more freely,' James thought.

If the Ancestral Sword Master found out later and blamed him, he would tell him the truth about him being from the future. However, he feared that taking out the Crepe Myrtle Divine Sword would cause Karma.

The Sect Leader of the Path Sect looked at James and asked, "Can you prove that you're an Ancestral Sword Master's disciple? If you can't, leave this seat immediately. I can't afford to have the Ancestral Sword Master lay the blame on me."

At this moment, many people's gazes were fixated on James.

After pondering for a while, James summoned the Crepe Myrtle Divine Sword from the Celestial Abode. Throwing the Crepe Myrtle Divine Sword in his hand to the Sect Leader of the Path Sect, he said, "See for yourself."

Then, the Sect Leader of the Path Sect took the Crepe Myrtle Divine Sword. The moment he touched it, it sent his body flying.

As for the Crepe Myrtle Divine Sword, it was floating in front of James.

"It's the Crepe Myrtle Divine Sword."

"It's the Ancestral Sword Master's weapon."

"The Ancestral Sword Master passed the Crepe Myrtle Divine Sword to him."

“He’s certainly an Ancestral Sword Master’s disciple.”

The surrounding crowd roared.

James was worried about Karma happening, so he wanted to put the Crepe Myrtle Divine Sword away. Nevertheless, before he could do so, a shadow appeared all of a sudden and took the Crepe Myrtle Divine Sword.

“The Sword Guard...”

Upon seeing the shadow, everyone present was stupefied. The shadow that appeared was not just anyone. It was the Ancestral Sword Master’s chambermaid, and she was known as the Sword Guard, a mysterious powerhouse.

“Give me back my Crepe Myrtle Divine Sword.”

James stood up and said.

The shadow held the Crepe Myrtle Divine Sword and took a look at it before giving it back to James. She did not say anything, nor did she stay for long. Soon, her body disappeared on the spot.

After confirming that the Crepe Myrtle Divine Sword was not swapped, James put it away.

This time, no Karma happened after he took out the Crepe Myrtle Divine Sword.

The Sect Leader of the Path Sect, who was sent flying just now, walked over and said respectfully, “Since you’re an Ancestral Sword Master’s disciple, you’re qualified to sit here.”

Then, he turned and walked away.

Meanwhile, everyone else’s gaze was fixed on James.

“What’s this young man’s background?”

“Although his cultivation rank isn’t high, he got his hands on the Ancestral Sword Master’s weapon. It seems that the Ancestral Sword Master values him.”

“The Ancestral Sword Master’s insight can’t be wrong. Just wait. In a few years, this universe will have another renowned prodigy.”

Numerous powerhouses began discussing.

James was not interested in the other powerhouses' discussions, so he turned to look at Melinda and started conversing with her.

"Melinda, is Winnie doing fine in the Heavenly Path Sect?"

"Winnie?" Melinda cast a strange look at James.

James responded, "Winnie, the new Inner Disciple your father took in and the one who awakened the Special Scythe of Judgment. Don't tell me that you don't know?"

"You know my identity?" Melinda was puzzled.

"Of course." James nodded and continued, "Who doesn't? You're the Macrocosm Ancestral God's daughter."

Melinda rolled her eyes at James before saying, "It's highly likely that you're the only one who knows about my identity here. No one else does."

"Is that so?"

James swept his gaze around the place and realized that all the powerhouses in this area appeared confused. It was obvious that they had no idea what James was talking about and were unaware of Melinda's identity.

"Haha. My bad. I apologize for exposing your identity."

Melinda waved her hand with a look of indifference and asked, "My identity is a secret. Not many people know about it. Even several powerful Gods don't know about my existence. So, how do you know who I really am?"

### **Read The Almighty Dragon General Chapter 3334**

The Almighty Dragon General Chapter 3334-Melinda was curious as to how James knew about her identity. It was strictly confidential. In addition to that, she rarely traveled around the outside world. Only the living beings of Mount Heavenly Path knew of her identity.

Regarding Melinda's question, James did not have much to say.

He did not know how to explain it to her. He could not possibly tell her that he got acquainted with her many years later and that he knew her future self, right?

Even if he told her that, Melinda would not believe him. Thus, he would rather not explain it.

As for the other living beings, they stopped discussing the topic after a while.

That was because only the top powerhouses could be here. Each of them had a great history, and their identities were all extraordinary. Even if the Ancestral Sword Master came personally, they would not be extremely shocked.

They discussed James because of curiosity as they had no idea when the Ancestral Sword Master took in such a disciple.

The surroundings fell silent again. All powerhouses were waiting quietly.

They were waiting for the Sacred Blossom to bloom.

When James did not answer Melinda, the latter stopped asking.

Meanwhile, James' gaze was fixated on the Ancestral Talisman Master. He was curious about the kind of person the Ancestral Talisman Master was. Did he create the Curse Magic that he cultivated? Did he enter the Dark World and obtain the Curse Magic from the deepest part of the Dark World?

He had always wanted to know the answer to this question.

In the past, James could not get an answer.

Now, the Ancestral Talisman Master was right next to him.

After a moment of thought, James mustered up the courage and asked, "Ancestral Talisman Master, I have a few questions, and I hope you can give me some advice."

Next to James, the Ancestral Talisman Master opened his eyes slightly and turned to look at James. With a confused expression, he asked, "I don't know any sword-fighting techniques, so what advice can I give you?"

James answered seriously, "It's about Curse Magic."

"Oh?" The Ancestral Talisman Master became interested. "What about it?"

Frankly, James said, "I've also studied Curse Magic and Curse Power. I found out that it's quite similar to the Dark Power of the Dark World. Moreover, while studying Curse Magic, I learned something from it and managed to cultivate Dark Ousia. Did you create this Curse Magic or did it originate from the Dark World?"

When the Ancestral Talisman Master heard James' words, his interest grew.

"You studied my Curse Magic?" He instantly became happy. "My Curse Magic is a unique manual. Aside from the most distinguished disciples, no one else knows about it."

Besides, my disciples won't spread it to outsiders without my consent. Yet, you say you know Curse Magic?"

"You don't need to know about how I know Curse Magic. I just want to know if the Curse Magic originated from the Dark World," James responded.

Hearing that, the Ancestral Talisman Master became serious. Then, he waved his hands and several inscriptions appeared in his hands. The inscriptions scattered around and formed a unique space.

He cut off contact with the outside world. In this space, no matter what the two of them did, the surrounding living beings could not sense it.

"Who are you?" The Ancestral Talisman Master stared at James.

Then, James' Curse Ousia emerged.

"The Curse Ousia?"

The Ancestral Talisman Master was taken aback.

He was certain that he did not pass his Curse Magic to James. His disciples would never go against the rules and spread it to outsiders either.

"That's right. It's the Curse Ousia." James then asked, "Now, can you answer my question? Is this Curse Magic from the Dark World?"

The Ancestral Talisman Master looked at James, deep in thought.

After a while, he finally spoke up. "Although I don't know what's your background, nor do I know how did you learn Curse Magic, I can tell you that the Curse Magic did not originate from the Dark World."

"Did you create it yourself?" James asked.

The Ancestral Talisman Master shook his head and answered, "No."

"Where did it come from then?" James was curious.

Upon facing James' curiosity, the Ancestral Talisman Master did not hide it from him and answered him truthfully, "The Curse Magic originates from another universe. It's the Lord of the Eleventh Universe's signature skill."

"It originates from the Eleventh Universe?"

## Read The Almighty Dragon General Chapter 3335

The Almighty Dragon General Chapter 3335-James was astonished. He thought that the Curse Magic originated from the Dark World.

As the Curse Power was similar to the Dark Power, he perfected the Dark Scripture further after understanding the Curse Magic. It was only then he successfully cultivated Dark Ousia.

Now, he found out that the Curse Magic came from the Eleventh Universe. Furthermore, it was the Lord of the Eleventh Universe's signature skill.

So, how did the Ancestral Talisman Master learn it? Did the Lord of the Eleventh Universe teach him?

"Now, can you tell me who you are?" The Ancestral Talisman Master looked at James.

With a smile, James answered, "I'm sorry. I can't tell you my identity yet. One day, you will find out about it."

James could not tell him his identity. When he came to this era, he had already been tainted with significant Karma. If he told the Ancestral Talisman Master who he was, some parts of history would change.

He could not handle this kind of Karma. He should let nature take its course for everything.

Since James was reluctant to tell him, the Ancestral Talisman Master did not push him further. He waved his hands and dispersed the surrounding inscriptions.

"Hey!"

Next to James, someone called out to him. He turned and realized Melinda was looking at him strangely.

"What is it?" He asked.

Melinda responded, "What are you discussing with the Ancestral Talisman Master?"

"Nothing." James did not explain further.

"Is that so?" Melinda did not believe him. James could tell she had doubts as her eyes were darting back and forth, probably thinking about something.

Nevertheless, she did not continue asking him questions.

James did not talk either. With his legs crossed, he closed his eyes and began to rest.

Meanwhile, in the faraway Human Realm...

In the Ancestral Sword Master's seclusion sanctuary on Mount Sword God, a shadow appeared out of nowhere, kneeling on one leg. Then, a sweet voice spoke, "Master."

The Ancestral Sword Master slowly opened his eyes and asked, "What did you find out?"

The shadow responded, "I found that the Crepe Myrtle Divine Sword has indeed appeared in the Void Realm. After going to the Void Realm, I discovered that the owner of the Crepe Myrtle Divine Sword had gone to Katun Realm to see the Sacred Blossom. He also sat in your previous seat, claiming he was your disciple and showing off the Crepe Myrtle Divine Sword."

The shadow told the story of what happened in the venue of the Sacred Blossom without leaving out any details.

"His cultivation rank is quite low. He's only at the Divine Rank and hasn't even reached the Quasi-Emperor Rank."

The Ancestral Sword Master listened to her words seriously.

He did not expect the Sword Guard to find out the whereabouts of the Crepe Myrtle Divine Sword so quickly, nor did he expect that the person who had the Crepe Myrtle Divine Sword was a weak cultivator below the Quasi-Emperor Rank.

He knew that the other Crepe Myrtle Divine Sword was from the future. According to his hunch, the person should be an elite powerhouse who came through crossing the River of Time.

Although crossing the River of Time was difficult, it was easy for the elite powerhouses. In fact, he was capable of crossing the River of Time too, but he needed to bear the corresponding Karma.

Under normal circumstances, no powerhouses would be willing to bear the Karma. Presently, what he could not understand was that the person who had the Crepe Myrtle Divine Sword had not even reached the Quasi-Emperor Rank.

If a person of this cultivation rank crossed the River of Time and appeared in this era, he would be devoured by the backlash of Karma

"What's going on?" The Ancestral Sword was puzzled.

"It seems that I have to meet this person from the future personally," the Ancestral Sword mumbled.

The Sword Guard before him said, "Master, he will come to Mount Sword God to hear you talk about techniques."

"I got it. You may leave." The Ancestral Sword Master waved his hand slightly.

## **Read The Almighty Dragon General Chapter 3336**

The Almighty Dragon General Chapter 3336-After the Sword Guard left, the Ancestral Sword Master fell into deep thought.

He knew that only someone strong could sit in his seat.

Since he was a Caelum Ancestral God, the aura he left behind was terrifying. Only powerhouses ranked higher than the Ancestral God Rank could withstand his seat. However, the Sword Guard told him the person had only reached the Divine Rank.

It was impossible. If someone managed to sit in his seat, there would only be one possibility. Whoever it was shared the same power as him.

The Ancestral Sword Master knew that James was related to him in some way. It was just that he had no idea how so.

He did not continue to ponder on this as he closed his eyes and took a rest.

Meanwhile, at the venue of the Sacred Blossom, everyone had stopped discussing James. All living beings present were taking a rest.

As time passed, more living beings arrived at the venue. Aside from the core area, everywhere else was filled to the brim.

The buds of the Sacred Blossom were in mid-air. James kept his eyes on them. They were huge, approximately the size of a basket, and blossomed with colorful glare.

Meanwhile, the space below the Sacred Blossom was magical. There was a mass of magical mud, and it was floating in mid-air without falling.

When James was confused about it, the buds of the Sacred Blossom changed.

A ray of light shot up to the sky from the Sacred Blossom. Following the ray of white light, the buds transformed and a radiant flower bloomed.

The Sacred Blossom bloomed in an instant. The moment it bloomed, countless Paths were summoned in this area which was filled with rules and sigils.

James stared at the Sacred Blossom.

Every petal of the Sacred Blossom represented a Path, and each did its part. Every powerhouse in the venue was grasping the Paths earnestly.

As for James, he did not know what to grasp, so he just stared at the Sacred Blossom.

His gaze was mainly fixed on the core area of the Sacred Blossom. The five petals represented the Five Great Paths and one represented Karma.

The petal that represented Karma was the largest. It occupied the center of the Sacred Blossom.

Watching the petal which represented Karma, he realized that this petal was mystical. It contained a magical power. Unfortunately, James could not comprehend anything from the petal.

Then, he looked at the five petals surrounding the Karma. They represented Time, Space, Life, Death, and Reincarnation.

All five petals were dazzling. The five Paths did not seem to have a connection with each other, but at the same time, they seemed to have a little connection.

James was attracted by the five dazzling petals. He seemed to have fallen into a trance.

It also seemed that he had seen the birth of a living being in another space. He watched the living being growing up from a baby to a teenager to an adult, getting married, continuing the generation, and growing old before dying and being buried in the ground.

This scene flashed in James' mind.

In the meantime, James seemed to have comprehended something.

At this moment, he seemed to have understood the secret of Time, Space, Life, Death, and Reincarnation. He wanted to grab the sudden inspiration, but the more he wanted to grab it, the more it got away from him.

James grew anxious. Nonetheless, the more anxious he felt, the more useless it was.

In the end, he calmed himself down.

## Read The Almighty Dragon General Chapter 3337

The Almighty Dragon General Chapter 3337-Waking up from the mysterious trance, James focused on the five petals representing the Five Great Paths again.

Firstly, he stared at the petal representing Time.

Right then, mysterious words slowly appeared in the petal representing Time, and these words entered James' mind. A few cryptic and old pieces of information also appeared in his mind.

It was a secret art that recorded the profound Time. If James mastered it, he could cultivate and comprehend the Time Path.

The Time Path was one of the Five Great Paths. Since ancient times, only the strongest powerhouses would try to cultivate and comprehend it. Since the Time Path was extremely profound, only the strongest powerhouses had the time to study it.

At this moment, James was studying Time.

Time was unpredictable. It could not be seen or touched. It could only be sensed.

James silently was trying to grasp Time.

Slowly, by using the cultivation method learned from the petal representing Time, a surge of mysterious power emerged in his body. It was the power of Time.

When the power of Time emerged, he used the cultivation method to absorb the power of Time in the Time petal. Almost instantly, the surge of power reached the thirty-third stage, almost reaching Consolidation.

'A-Am I going to cultivate another Ousia?

'If so, does that mean I'll have eleven Ousias?'

A thought flashed in James' mind. It only entered his mind for a split second.

He did not want to give up this cultivation chance. Soon, he focused on cultivating and began Consolidation.

Whilst consolidating, his body floated toward the Sacred Blossom and arrived on the petal representing Time. He sat on the petal with his legs crossed as if he were a plant growing on the petal.

There were many powerhouses gathered in this area. Every powerhouse was focusing on their cultivation. Nevertheless, James' unusual activity attracted several powerhouses' attention.

At once, numerous powerhouses halted their cultivation and stared at James on the Sacred Blossom petal, shocked.

"W-What's going on?"

"No one's been able to sit on the Sacred Blossom petal since ancient times. Who is he? How can he withstand the pressure of the countless Paths, approach the Sacred Blossom, and sit on the petal?"

"I remember that many powerhouses as strong as Caelum Ancestral God have tried to do that, but they could only get within three meters of the Sacred Blossom. They could not withstand the countless Paths' power."

Everyone was stunned.

As for James, he used the opportunity to cultivate. He tried to absorb the power of Time as much as possible. As he carried out Consolidation, an Ousia gradually emerged in his body.

It was the Time Ousia.

Soon, James succeeded in cultivating the Time Ousia, and the moment he was successful, the petal he sat on withered.

This shocked everyone once more.

"The petal representing Time has withered. What happened?"

"It's the first time such a weird thing happened."

In the meantime, James floated back to his initial seat. His gaze was fixated on the petal representing Time, and at this moment, mysterious words appeared in the petal.

The words flew and entered his head while several pieces of information appeared in his mind. It was a text that recorded the profound Space and the cultivation method of Space.

James had no idea why he had such an opportunity. Nonetheless, he did not want to miss out on this chance. Closing his eyes, he focused on comprehending the Space Path and cultivating the power of Space.

Shortly after, he succeeded in cultivating the power of Space, and this power increased quickly. In the blink of an eye, it almost reached Consolidation.

When it was almost time for Consolidation, his body flew again, and he sat on the petal representing Space. Absorbing the power of this petal, he began consolidating.

### **Recommended Novels**

## **Read The Almighty Dragon General Chapter 3338**

The Almighty Dragon General Chapter 3338-Cultivating Ousia became easy at this moment. Consolidation had also become simple. Since James carried out Consolidation without any hindrance, there were already twelve Ousias in his body.

After he succeeded in cultivating the Space Ousia, he went back to his initial seat once more.

“Not bad.”

James felt satisfied. He had no idea why he could comprehend the mysterious cultivation method from the Sacred Blossom, but he was satisfied since his travels were not for nothing this time.

He did not plan to continue cultivating.

Glancing at the two withered petals, he mumbled, confused, “The other petals are still dazzling, so why have these two petals withered?”

Then, he looked at the third petal. It was the petal that represented Life.

When he stared at the petal representing Life, Inscription Sigils appeared in the petal again and entered his mind. Once more, information appeared in his thoughts.

‘Again? How is this possible?’

James was completely bewildered. Nevertheless, since the Inscription Sigils appeared, he had to cultivate them. Thus, he began to comprehend them right away.

Soon, he grasped the cultivation method and cultivated the Life Path. Once he cultivated it, a new power surged in his body. The power increased quickly, and soon, it almost reached Consolidation.

During Consolidation, his body moved toward the petal representing Life and began to absorb the power in the petal to carry out Consolidation.

The Consolidation this time was also very easy.

Shortly after, he managed to cultivate the thirteenth Ousia.

James went back to his seat again. He thought that it was the end.

Nonetheless, when he looked at the petal representing Death, he obtained the Inscription to cultivate the Death Path.

He did not decline and began cultivating.

Not long after, fourteen Ousias appeared in his body.

“Uh...”

Even James was taken aback. Other people found it difficult to cultivate an Ousia, but his Ousias appeared one after another.

‘Among the Five Great Paths, only Reincarnation is left.’

James shifted his gaze toward the petal representing Reincarnation. Then, he acquired the Inscription to cultivate the Reincarnation Path.

Thus, he continued his cultivation.

While he was focusing on his cultivation, the other powerhouses at the venue were stunned. They saw James cultivating new Ousias continuously and watched him reach Consolidation repeatedly.

Following the withering of the petal representing Reincarnation, James had cultivated the fifth Ousia. His cultivation powers were frightening—Time, Space, Life, Death, and Reincarnation.

“This should be the last one.”

Once again, James went back to his seat. He stared at the five petals that had turned into stones and mumbled.

The moment he stared at the five petals, a kind of Demonic Power from the five withered petals seemed to be attracting James.

James stared at the five petals. Then, he grasped the inspiration he failed to grab moments ago. To be exact, he had comprehended things that he failed to understand last time.

‘I get it now.’

After a long while, James took a deep breath.

At this moment, he was enlightened. Closing his eyes, he began his cultivation immediately.

During his cultivation, the five new Ousias in his body appeared one after another above his head.

All the powerhouses were watching James. They wanted to see what would happen next.

Then, the five Ousias above James' head changed.

## **Read The Almighty Dragon General Chapter 3339**

The Almighty Dragon General Chapter 3339-Five Great Paths Ousia were rearranging themselves.

Time was behind Space. As the saying went, Time only existed because there was Space. Space referred to Heaven and Earth, while Time was born after Space.

Following right after, the Ousia representing Life also changed. It appeared behind Time.

In James' comprehension, Life meant the life of all beings. It referred to everything in this world. All plants and living beings represented Life.

Life was followed by the Death Ousia. Death referred to the end of a living being's life.

Lastly, the Reincarnation Ousia appeared in the central region of the Four Great Paths Ousia.

In James' understanding and comprehension, the process of Life to Death was known as Reincarnation.

At this moment, his Five Great Paths Ousia had a new arrangement.

The Four Great Paths Ousia formed a circle with the Reincarnation Ousia in the middle. The Five Great Paths Ousia had no connection with each other, but there was a connection in some way. The Five Great Paths Ousia were indispensable.

If one of them was gone, they would be incomplete.

The Four Great Paths Ousia spun endlessly, and a magical power emerged from the Reincarnation Ousia in the central region, entering the Four Great Paths Ousia. This scene looked magical and strange.

All the powerhouses were watching this unfold. Even if they were experienced and knowledgeable, they were clueless as to what James understood from the Sacred Blossom.

A powerhouse as powerful as the Ancestral Cultivator Master had a serious expression. He focused on James cultivating the Five Great Paths Ousia, watched the latter arrange them, and saw the Five Great Paths Ousia become whole and the birth of an entirely new power.

“This power...”

The Ancestral Talisman Master looked serious. Sensing the power born from the compatibility of the Five Great Paths Ousia, he seemed to have understood something, but at the same time, he felt as if he understood nothing.

“Is this the true solution of the universe?”

“To become a Macrocosm Ancestral God and obtain Macrocosm Power, one must cultivate this way?” the Ancestral Talisman Master mumbled.

Among the Five Great Paths Ousia, he sensed the embryonic form of Macrocosm Power.

He believed that as long as James focused on cultivating, the latter could cultivate the power of the Five Great Paths to the extreme. He would then be able to form Macrocosm Power and become a Macrocosm Ancestral God.

At this moment, the Ancestral Talisman Master seemed to have found a path to become a Macrocosm Ancestral God.

Closing his eyes, he tried to sense the power. He slightly shook his head to no avail and muttered, “This is the path he walked. It’s a path that’s only fated for him.”

“What a shame,” the Ancestral Talisman Master looked disappointed as he mumbled to himself, “I’ve been here so many times, yet I failed to comprehend this. If I could grasp it earlier, I would have been a Macrocosm Ancestral God.”

The Ancestral Talisman Master could tell the result, but the other powerhouses could not. It was because their cultivation ranks were low.

As for the Ancestral Master, he was at the peak of a Caelum Ancestral God. He was so close to being a Macrocosm Ancestral God. It was this step that haunted him for countless years.

James was still focusing on his cultivation. He had comprehended the core relationship between the Five Great Paths and rearranged them, forming a mysterious power. However, he did not know what this power was.

As he stopped his cultivation, the Five Great Paths Ousia went back into his body. Even though they had returned, the order did not change.

“How intriguing.” James looked within his body and watched the Five Great Paths Ousia, shocked.

He did not study the Five Great Paths Ousia further. Holding his breath, he stopped his cultivation.

The Ancestral Talisman Master stood up first with his hands clasped and said, “Congratulations.”

“Congratulations?” James was confused. “What’s there to congratulate?”

“Haha.” While laughing, the Ancestral Talisman Master disappeared.

Meanwhile, the other powerhouses were envious of James. Although they had no idea what James comprehended, they knew James had grasped something terrific.

The Almighty Dragon General Chapter 3340-No one knew what James had comprehended. Even James was confused. He only knew that he had cultivated five Ousias and that there were fifteen Ousias in his body.

Aside from that, the Ousias formed by the Five Great Paths were connected to one another, creating a new power.

The power was extremely strong. It surpassed all the power James currently possessed.

It was just that James could not tell how powerful it was yet since he had not fought with anyone.

Meanwhile, the Sacred Blossom was still blooming. Other than the petals representing the Five Great Paths, the petals were still dazzling.

As James had already benefited a lot from the Sacred Blossom, he did not continue to cultivate and comprehend. Instead, he stood up and walked away from the area. He

knew that the bloom of the Sacred Blossom would take a while, so he waited at the Path Sect patiently.

The moment he returned to his arranged quarter, the Path Sect's powerhouses came to meet him.

One of them was Xbalanque Darby, who wanted to take in disciples, and the other powerhouse was the Sect Leader of the Path Sect, Xzavier Darius, the elder who asked him to leave moments ago.

The two of them appeared in the courtyard of James' quarter.

Sitting on the courtyard fence, James had a blade of grass in his mouth. Lazily, he looked at the two elders who appeared in the courtyard.

"Is there anything you need?" he asked indifferently.

With a bright smile, Xzavier, the Sect Leader of the Path Sect said, "Greetings, I am the Sect Leader of the Path Sect, Xzavier Darius."

James had already guessed who was before. He knew that the Sect Leader of the Path Sect was an Ancestral God. Although he was a Mystical Ancestral God, the lowest rank of the Ancestral God Rank, he was terrifying as his rank was higher than any of the powerhouses James had met.

"Greetings, Sect Leader." After saying that, James hopped off the fence and stood in the courtyard. He looked at Xzavier and asked, "Is there anything you need?"

Smiling, Xzavier responded, "You truly are unprecedented. It's your first time seeing the Sacred Blossom, yet you have comprehended something great."

"Thank you for your kind words." James was humble.

Then, Xbalanque said, "The Path Sect is willing to give you the best treasure in exchange for the things you comprehended from the Sacred Blossom."

Xzavier nodded and continued, "That's right. If you have any request, no matter what it is, we will give it to you."

It was only then that James understood that the two of them came to meet him merely because they wanted the things he had comprehended.

With a slight smile, he said, "It isn't because I'm selfish, but even if I give them to you, you can't cultivate them."

The two were confused.

James explained, "When I watched the Sacred Blossom, I comprehended the Five Great Paths and cultivated the Five Great Paths Ousia. Even if I give them to you, can you successfully cultivate the Ousia?"

"Huh?"

The two exchanged gazes.

Then, Xzavier said, "The Five Great Paths are supreme. Since ancient times, there were a few powerhouses who comprehended the Five Great Paths. However, they grasped them from the rules of Heaven and Earth. No one could create a cultivation method. If you could come up with a cultivation method for the Five Great Paths, we will definitely be grateful to you."

Even though no Path Sect disciples had succeeded in cultivating the Five Great Paths Ousia, if they could get their hands on the cultivation method, they would be able to cultivate an Ousia.

An Ousia representing the Five Great Path was extremely powerful. In the same cultivation rank, one could defeat everyone else.

Thus, when James comprehended the cultivation method of the Five Great Paths, everyone was envious.

At this point, James did not know what heaven-defying cultivation method he comprehended.

It was the cultivation method of the Five Great Paths.
