The Almighty Dragon General Chapter 3381-James immediately sensed the three cultivators ahead of him.

He stood atop the snow-capped mountain and looked at the three men floating in the air before him.

James immediately raised his guard. He knew the three cultivators were after his life, so he would have to fight an intense battle soon.

James sensed their cultivation rank.

Fortunately, they were Fifth Heaven Grand Emperors, similar to his physical strength.

A Fifth Heaven Grand Emperor was nothing extraordinary in the Primeval Age. However, they would be overpowering powerhouses in the age James came from.

James' portrait had been revealed to the public a long time ago.

The three cultivators quickly confirmed he was their target after seeing his face.

The three advanced in the air to James and appeared a thousand meters away from him.

"Surrender to us, James, and we'll leave you the chance to be reincarnated. Otherwise, we'll destroy your soul, leaving you no chance to resurrect again."

James would have fled instantly if the opponent was a Seventh Heaven Grand Emperor.

However, he was not afraid of mere Fifth Heaven Grand Emperors. He looked at his opponents and said coldly, "I didn't expect cultivators to come after me so soon. Since you've come to me, don't think of leaving. This place will be your burial ground."

James had to suppress his anger previously and did not have an outlet to vent.

Now that these three had come to him, he would use them to release his pent-up anger.

"Haha!"

"You're too arrogant, James."

"Although your physical strength is at the Grand Emperor Rank's Fifth Heaven, your cultivation rank is pathetic. The three of us are Fifth Heaven Grand Emperors, and killing you will be a piece of cake."

“Let’s not waste time talking to him. Just attack and kill him.”

Immediately, powerful auras erupted from the three cultivators.

The aura of Grand Emperors was incredibly oppressive. The surrounding snow-capped mountain began to collapse from the force, and the space in the area distorted.

Faced with three Fifth Heaven Grand Emperors, James clenched his fists tightly.

At that moment, his muscles and bones overflowed with power, spreading to every inch of his body.

“Die!” James shouted furiously, then dashed through the space.

He clenched his fist and swung at the three opponents before him.

His physical strength was at the Grand Emperor Rank’s Fifth Heaven and contained explosive force. James did not use any fancy moves but pure physical strength. His punch could part the skies and split the ground.

As he swung his fist, the space around him began to distort. His pure physical strength was aimed directly at his three opponents.

“Pfft,” One of them snorted coldly.

The leader of the three made the first move. He raised his hand, and powerful force emerged from his palm to resist James’ attack.

It was a battle between pure physical strength and Path Energy.

The two forces clashed.

Boom!

A hole immediately appeared in the space. The collision’s shock waves spread like water ripples and destroyed everything in the way.

The terrifying force knocked away the opponent, and his Blood Energy churned. Unable to suppress it, he spat out blood. After the collision, he was shocked.

Meanwhile, James easily stabilized himself after taking a few steps backward.

He charged at his opponent again without hesitation, intending to seize the opportunity to kill one of the three.

The other two immediately sprung into action, attacking James from the left and right.

James spread out his hands to block the attacks.

At that moment, he felt crushed by the two forces. Although his physical strength was at the Grand Emperor Rank's Fifth Heaven, he could not bear it, and his body showed signs of splitting apart.

The Heavenly Path's injuries in his body were affected, and his face distorted in pain.

At that moment, the first opponent that was knocked away charged at James again. He appeared in front of James instantly and launched a terrifying attack at James' chest.

Despite having impressive physical strength, James' chest sunk from the attack, and he spat out a mouthful of blood.

The Almighty Dragon General Chapter 3382-James was being attacked from both his left and right. Moreover, there was another opponent directly ahead of him.

His body was already injured by the Heavenly Path, and his injuries relapsed during the fight. The Heavenly Path's Power spread throughout his body, causing him unbearable pain.

James roared, "Get lost!!!"

A purple light manifested, and the Crepe Myrtle Divine Sword appeared ahead of him. James retracted his hands and flashed away to avoid the pincer attack of the two opponents.

The next moment, he appeared close to the Crepe Myrtle Divine Sword and grabbed it instantly.

James fled to a safe distance with the Crepe Myrtle Divine Sword and panted heavily as blood trickled down his forehead.

"Damn it," James cursed.

He was already wounded and might die from the Heavenly Path's Power before his enemy could even kill him.

The three cultivators looked at the Crepe Myrtle Divine Sword in James' hand warily.

As Fifth Heaven Grand Emperors, they knew about the Crepe Myrtle Divine Sword and knew it was the Ancestral Sword Master's weapon.

The Ancestral Sword Master's weapon had monstrous power, and they did not dare to act rashly.

One of them asked, "What should we do now? James has the Ancestral Sword Master's Crepe Myrtle Divine Sword. His strength would definitely be enhanced significantly after wielding it."

The leader thought awhile and said, "There's nothing to worry about. As long as we join forces, we'll surely kill him. Can't you tell from his expression? He must still have old injuries in his body. Let's strike together."

"Alright."

The three launched attacks once again.

James gripped the Crepe Myrtle Divine Sword with a cold expression.

The power of his Sword Path immediately permeated his entire body and boosted his physical strength. At that moment, his strength rose to a higher level.

Although his strength was slightly boosted, the power of his Sword Path Ousia was not enough to reach the Grand Emperor Rank's Sixth Heaven

"Die!!!"

James' face darkened, and his body disappeared. Then, countless shadow figures spread across the sky.

Each figure had terrifying strength.

"The Second Swordsmanship?"

The expressions of the three opponents changed instantly.

They knew how terrifying the First Swordsmanship was and did not dare to act recklessly. They immediately mobilized their full strength to form a protective barrier around their bodies.

The shadow figures continued to multiply. Then, they suddenly merged, and James appeared before one of them in a flash.

Countless Sword Moves merged, and powerful strength beyond James' cultivation rank burst out. With the addition of the Crepe Myrtle Divine Sword, James could unleash terrifying strength.

One of the opponents used all his strength to defend against the attack.

However, his protective barrier was shattered instantly.

The Crepe Myrtle Divine Sword pierced his body, and a bright Sword Light emerged from the sword and burst within him.

The body of this Fifth Heaven Grand Emperor was destroyed instantly, and his soul was severely injured. The remnant soul that survived the attack quickly fled.

“Do you think you can escape?”

James’ murderous aura was intimidating.

The three had come for his life, so he was not going to show them any mercy.

Powerful Sword Intent emerged from the Crepe Myrtle Divine Sword, containing a murderous aura. The Sword Intent struck the fleeing soul and destroyed it instantly.

The other two were dumbfounded.

How could a Fifth Heaven Grand Emperor be obliterated so easily?

At that moment, the two no longer had the desire to fight and wanted to flee.

However, James did not give them the chance.

He immediately performed his Curse Magic.

During this period, his knowledge of Curse Magic had grown much stronger. Moreover, he had also learned various Supernatural Powers related to Curse Magic, including Confinement and Sealing techniques.

James confined the remaining two and sealed off the surrounding space.

The Almighty Dragon General Chapter 3383-However, both of them were Fifth Heaven Grand Emperors and easily broke through James’ confinement and the seal around the area.

The outcome of a battle between powerhouses could be determined in an instant.

As soon as James’ confined the two opponents, he launched an attack.

He unleashed the First Swordsmanship and killed another opponent.

The remaining one had already begun to flee to the distance, but there was nowhere to run as James had cultivated the Space Path.

James sensed the fluctuations in space and chased after him. He appeared before the last opponent instantly and blocked his path.

The man was terrified by James' hostility.

He quickly begged for his life, saying, "I made a mistake, James. Please give me a chance."

James looked at him coldly and said, "You should've thought about the consequences before you decided to come for my life."

Hearing this, the man's expression darkened.

"You leave me no choice, James!"

The man intended to go all out at James.

He summoned his Path Seal, which was rhombus-shaped. Powerful force emitted from the Path Seal, and cracks began to form on it.

James caught on that the opponent was going to destroy his Path Seal.

As his Path Seal continuously broke, the man's strength grew stronger.

Suddenly, time around them began to rewind.

"You?"

The man was shocked.

While distracted, James had already thrust his sword at him.

As time went backward, the man's Path Seal recovered, and he lost all hopes of fighting back. Before he could react, James had already pierced through his body.

The man's body was obliterated, and even his soul was destroyed.

The battle was over.

James put away the Crepe Myrtle Divine Sword and panted continuously.

He looked around him and quickly left without any hesitation.

Since these three cultivators were able to find him, his location must have already been exposed. Thus, he had to leave instantly. Given his current physical condition, he would not be able to fight back if another powerhouse were to appear.

After James left, the area returned to calm. However, the aftermath of the battle remained.

Not long after James had fled, a void appeared in the planet's sky, and a powerhouse emerged from it.

"Did I come too late?"

"There are traces of a battle that happened just a while ago. It seems some other powerhouses must've found him before me. If there's no mistake, James has probably already killed them."

...

James left the planet using the power of his Space Path. He created a passage and traveled to a distant region in outer space.

James found a desolate planet and sat in a lotus position on the ruin. He activated the Dark Power in his body and suppressed the injuries dealt by the Heavenly Path.

After stabilizing his injuries, he felt slightly relieved.

He reached out and wiped the sweat from his forehead.

"Three Fifth Heaven Grand Emperors were enough to make me struggle. What would I do if I were to face a Seventh Heaven Grand Emperor?"

James had a solemn expression.

He had no idea what kind of reward Herschel promised to the powerhouses of the universe for them to hunt him down. However, he knew that many powerful cultivators would surely come for his life with the order of Mount Heavenly Path's Young Master.

"How was my location exposed?"

James was puzzled.

He had arrived in an unknown world and practiced for just a short while. Yet, enemies had already come to him.

"Could it be that some powerhouses are divining my location? If that's the case, I won't be able to hide from these powerhouses no matter where I go."

James fell into thought. He began to brainstorm how he would survive these ten thousand years.

He could not keep fleeing forever.

James had to improve his cultivation rank quickly.

Once he became a Grand Emperor, he would not have to be afraid of a Seventh Heaven Grand Emperor as he already had overpowering physical strength.

The Almighty Dragon General Chapter 3384-James could not keep hiding.

He wanted to fight back and kill the creatures that came for his life. Once he killed a bunch of them, no one would dare to approach him recklessly.

For him to consecutively kill the opponents that showed up, he would have to improve his strength quickly.

His Sword Path had already stepped into the Quasi Emperor Rank and multiplied into two Ousias.

It would be much easier to continue improving his Sword Path. As long as he absorbed heaven and earth's power, he could increase his Sword Path Ousia and multiply it again.

Another multiplication meant another breakthrough in his cultivation rank.

James took a deep breath, and he was greatly determined.

He scanned the planet he landed on.

It was another desolate planet that had been abandoned for many years. The power was harsh and not pure energy, making it unsuitable for living beings to absorb.

However, James did not care.

He unleashed his Divine Sense and sensed his surroundings to find the region with the most abundant energy. Then, he dashed over in a flash.

Space rifts constantly appeared in the sky above the region.

The unstable space was caused by a battle many years ago.

James could tell at a glance that the planet used to be very prosperous in the past but was destroyed by a fight.

With a thought, James summoned his Elemental Ousias to form the Elemental Inversion Formation. His body rapidly absorbed the harsh energy from the surroundings.

Immediately afterward, the Demonic Lotus emerged from his body.

The Demonic Lotus was his Natal Lotu, which possessed unpredictable strength. James rarely used it because of its bizarre strength. However, he was eager to get stronger and could not be bothered anymore.

The Demonic Lotus dispersed into black mist and spread out into the surroundings to absorb the harsh energy from the area.

Then, the Demonic Lotus converted the energy into power for the Sword Path Ousia. At the same time, James distributed the energy to his other Ousias.

Even though he mainly focused on the Sword Path, he did not want to neglect his other Paths.

James absorbed the energy of the planet rapidly with the help of the Elemental Inversion formation, the Demonic Lotus, and his cultivation method. He was improving very speedily.

He cultivated in a Time Formation. Soon, his Sword Path Ousia reached the peak of its current rank and was ready for another breakthrough so it could multiply again.

James chose to break through.

At that moment, the Sword Path Ousia in his body slowly separated, and the third Ousia was formed.

Right then, a tribulation cloud appeared in the sky. It was a powerful lightning tribulation.

“Perfect.” James laughed out loud.

He was not afraid of the lightning tribulation. The Demonic Lotus swept over toward the clouds and began absorbing the energy from the Heavenly Tribulation.

The Heavenly Tribulation’s power and a few flashes of lightning entered James’ body through the Demonic Lotus.

The lightning kept flashing around in James’ body, constantly causing damage to him.

However, the lightning from the Heavenly Tribulation did not cause substantial harm.

James forcibly absorbed the power from the lightning tribulation and converted them into power for his Ousia.

All his Ousias kept improving rapidly.

The lightning tribulation contained very majestic power.

His Yin and Yang Ousias, Elemental Ousias, and Five Great Paths' Ousias all reached the peak of the Divine Rank's Second Consolidation.

Meanwhile, his Curse Ousia reached the peak of the Divine Rank's Third Consolidation.

However, his Dark Ousia showed no improvement because the energy of the Illuminated World could not nourish it.
