The Almighty Dragon General Chapter 3385-James laughed out loud, "Haha!"

The Heavenly Tribulation arrived at the perfect time.

The power of the Heavenly Tribulation was potent and was used as energy to enhance his strength.

Although flashes of lightning kept striking him, James laughed through it.

While rejoicing, his Sword Path Ousia separated again.

James officially entered the Quasi Emperor Rank's Second Tribulation. His cultivation rank was improving rapidly. It had not been long since he entered the Quasi Emperor Rank.

After he successfully made it through the Heavenly Tribulation and made a breakthrough, the tribulation clouds began to disperse.

However, James did not want them to disappear. He activated the Space Path's power to trap the tribulation clouds in the sky, trying to prevent them from dissipating so he could use them as a continuous energy source.

Although the Space Path was miraculous, it could not trap the tribulation clouds.

James' plan fell through, and the clouds disappeared.

He dispersed the Time Formation around him and stood up from the ground. James activated a Secret Art, and his Ousias emitted various powers. The powers merged with his physical strength. At that moment, James felt stronger than ever before.

"Although I can significantly enhance my strength, I can't defeat a Sixth Heaven Grand Emperor yet. If all my Ousias step into the Quasi Emperor Rank, I might stand a chance against a Sixth Heaven Grand Emperor after merging them."

James had obtained the power of an Ancestral God before and had some understanding of a Grand Emperor's power. Thus, he could assess his own strength.

His Ousia's power was still relatively weak.

However, once he reached the Quasi Emperor Rank's Ninth Tribulation, he could fuse all the nine Ousias that multiplied from the original Sword Path into a Path Seal. Then, his strength would grow by leaps and bounds.

Once James evolved all his Ousias into Path Seals, he would have over ten Path Seals. Even if he were to reach the Grand Emperor Rank's First Heaven, he could unleash explosive strength.

James had a general understanding of these things.

A First Heaven Grand Emperor with two Path Seals would fight a Second Heaven Grand Emperor with only one Path Seal.

James looked forward to the day when his Ousias would successfully break through the Third Consolidation and begin to multiply. Eventually, they would fuse and evolve into Path Seals.

When that time came, it would be the beginning of his journey to invincibility.

What he had to do now was pave the way for that day.

"Time. Right now, I need to comprehend the Time Path."

James desperately needed more time.

His Sword Path Ousia was already at the Quasi Emperor Rank's Second Tribulation. Thus, he was a cultivator at the Quasi Emperor Rank's Second Tribulation. However, his other Ousias were still very weak.

After glancing around, James did not sense any other living beings. After confirming he was alone, he disappeared from the place. In the next moment, he was already in the Celestial Abode.

As soon as he appeared, Nova came to see him.

Nova greeted him respectfully, "Master."

"Mhm."

James nodded lightly and said, "I've come to retreat and comprehend the Paths I have known for a while."

Nova replied, "There is a huge collection of various paths in the library chamber. Emperor Jabari collected these records in the past. Apart from the Five Great Paths and the Curse Path, almost all the paths in the universe can be found in the library chamber."

"Alright." James nodded.

Then, he quickly left for the Celestial Abode's library chamber. James found many ancient books on the eighth floor of the library chamber.

These books contained the knowledge of several Grand Emperors about various Paths and were very beneficial to James.

James found books about the Yin and Yang Path and the Elemental Path. Then, he set up a Time Formation in the library chamber and reviewed the experiences and understanding of these seniors about these Paths.

The Almighty Dragon General Chapter 3386-James' reading speed was very fast, and he could memorize the contents of the books at a glance.

However, remembering and comprehending them were two different things.

Soon, James finished all the books. He sat in a lotus position on the floor and focused on comprehending the information. He had to comprehend the Paths to grow stronger.

All of his Ousias were close to going through another Consolidation.

The only Ousia that could absorb more energy was his Sword Path.

James absorbed the energy in the environment and continued comprehending the Sword Path.

Gradually, he fell into a trance and entered a mysterious world.

The world was separated into black and white, representing Yin and Yang.

The mysteries of both Paths were presented before him.

James' comprehension of both Paths grew more profound. As his knowledge increased, the power of his Yin and Yang also improved significantly. It was evident he was going through another Consolidation.

It was his Yin and Yang's second Consolidation.

The speed of his improvements was terrifying.

For ordinary living beings, it would take quite a long time to improve their knowledge before reaching the Consolidation Stage. Some people would stay in one stage for many Epochs.

However, James made the Consolidation process seem very easy.

Consolidation was affected by one's state of mind.

If one had a strong mentality, the comprehension rate of one's Path would also improve.

Before James knew it, his Yin and Yang Path Ousia had gone through the second Consolidation.

Until now, no enemies had shown up yet. Thus, James did not leave the Celestial Abode and continued to absorb the power from heaven and earth to improve his Sword Path Ousia, Yin Ousia, and Yang Ousia.

Afterward, James also began to comprehend the Elemental Path.

James read through the records of many of the seniors' comprehension of the Elemental Path, and his knowledge grew another notch higher.

He comprehended the Elemental Path and improved his Elemental Ousias without any hindrance. Soon, his Elemental Ousias reached the stage of a second

Consolidation.

"Huff!"

After his Elemental Ousias went through a Second Consolidation, James stopped cultivating and took a deep breath.

James used his Time Path's Power to sense time.

A hundred years had passed since he fled to this world. During this period, he successfully reached the Quasi Emperor Rank's Second Tribulation. Moreover, his Yin, Yang, and Elemental Ousias had gone through the second Consolidation.

While a hundred years had passed in the outside world, James had cultivated in the Time Formation for over thirty thousand years.

Since he had spent a very long time in cultivation, he decided to stop for now.

With a thought, he left the Celestial Abode and reappeared in the unknown world.

The moment he appeared, he sensed other life forces on the planet. It was not just one, but at least thirty people had arrived.

James immediately knew they were after him.

They could not sense his aura or locate him while he was inside the Celestial Abode.

Now that James had left the Celestial Abode, they caught hold of his aura and located him immediately.

A few cracks appeared around James, and several people appeared.

In just a few seconds, thirty creatures appeared around him.

“It’s James!”

‘The information revealed by Mount Heavenly Path is accurate. James was indeed lurking on this planet.’

“If we kill him, we’ll acquire handsome rewards!”

The cultivators that appeared were excited.

James took a look at them and sensed their cultivation ranks.

None of those that were after his life were weak. All those pursuing him were Fifth Heaven Grand Emperors or even higher.

The cultivators that showed up this time were all Fifth Heaven Grand Emperors.

These thirty cultivators immediately sealed the area and trapped James.

A few cultivators shouted at him, “Surrender, James!”

The Almighty Dragon General Chapter 3387-James looked at the thirty cultivators around him solemnly.

Some time ago, he struggled in a fight against three Fifth Heaven Grand Emperors. How was he going to fight thirty of them?

James had comprehended the Five Great Paths and could use the Time or Space Path to escape.

No one could stop him if he attempted to flee.

However, James did not want to escape.

Instead, he thought about how to kill thirty of these Fifth Heaven Grand Emperors.

He was determined to kill them.

Only by killing these pursuers would he scare off the others. No one would dare to come for his life in the future, and it would be easier for him to survive the ten thousand years.

James refused to keep running from them.

"It's going to be hard to fight thirty Fifth Heaven Grand Emperors." James frowned.

"Die, James!"

One of the opponents was impatient and launched an attack. He held a long sword and appeared before James in a flash.

The man swung his sword at James, performing the First Swordsmanship.

He had a profound comprehension of the First Swordsmanship and incorporated many Sword Moves into the attack.

James quickly activated the power of his Space Path and disappeared from sight.

The man's sword swung in the air, causing the space to split open and ripples to spread through the area.

James resurfaced ten thousand meters away.

He crossed his hands behind his back with no intention of running from the fight.

He planned to use the Elemental Inversion against them.

James' Elemental Ousia had already gone through the second Consolidation. On top of his physical strength, he could use Elemental Inversion to form the Elemental Wheel. James felt he had a chance to defeat the thirty Fifth Heaven Grand Emperors and could even kill them.

After all, the Elemental Inversion was a Supernatural Power created by the Five Ancestral Gods.

However, James could not use the Five Elements of Genesis.

The Five Elements of Genesis already existed in the Primeval Age. Thus, he would attract very potent Karma Power if he summoned them. If that were to happen, he would be badly injured, and it could also cause a relapse of the Heavenly Path's injuries in his body.

“Since you’ve already shown up, don’t think of leaving. This place is where you will all be buried.”

James stood with his hands behind him as his voice resounded throughout the area. Immediately afterward, five Ousias appeared above his head.

“Elemental Ousias?”

“H-How is that possible?”

“It’s rumored that James cultivated the Five Great Paths’ Ousias. On top of that, he has a Sword Path Ousia, which makes that six Ousias. How is it possible for him to have all five Elemental Ousias as well? In total, he would have more than...”

“Huff!” The Grand Emperors in the distance gasped in surprise.

The fact that James cultivated the Five Great Paths’ Ousias had already spread. Moreover, the Ancestral Sword God had publicly stated that James was his disciple. Therefore, everyone assumed that James had a Sword Ousia.

Now, they even witnessed him summoning Elemental Ousias.

The Grand Emperors present were all dumbfounded and confused.

How many Ousias did James have?

“A genius. He’s an absolute genius.”

“No one has ever cultivated that many Ousias throughout history.”

“Yeah, it would be hard to believe if I hadn’t seen it with my own eyes.”

“It’s a pity he offended Mount Heavenly Path. Herschel wants him dead, and it’ll be impossible for him to survive. Otherwise, he would surely rise to become one of the strongest cultivators in the universe with enough time.”

The Grand Emperors in the distance felt it was a pity for James to die.

They also did not really want to kill such a talented cultivator with so much potential.

However, the rewards offered by Mount Heavenly Path were too tempting.

An opponent in the distance asked, “James, do you intend to fight us with your Elemental Ousias? I acknowledge that you’re an outstanding person, but you’re only at the Divine Rank. You don’t even have a Path Seal yet, so how will you stand a chance against us?”

The Almighty Dragon General Chapter 3388-James had several combat means.

The Elemental Inversion and Infinity Steles were two of his ultimate trump cards.

Initially, he had no plans of using them.

However, he was now forced to use them in combat.

James looked at the thirty Fifth Heaven Grand Emperors in the distance and said smilingly, "Since you've come for my life, you better be prepared to die. However, I have a question. Please do enlighten me."

One of the opponents replied, "Go ahead, James. You're a rare prodigy, and it's a pity to kill you like this. If you have any questions, we'll satisfy your curiosity."

James asked, "How did you find me? The universe is so vast. I only arrived on this planet a hundred years ago. Yet, you guys caught up so easily."

A powerhouse answered, "Mount Heavenly Path revealed your location."

"Oh?" James was surprised.

It was just as he speculated. A mysterious powerhouse within Mount Heavenly Path was divining and revealing his location to the public. Therefore, many of these powerhouses could easily obtain information about his whereabouts.

Another powerhouse asked, "Do you have any more questions, James?"

James shook his head and said, "Nope."

"In that case, prepare to die."

After one of the powerhouses spoke, thirty of them immediately launched their attacks. They charged at James, all trying to be the first to kill him to earn the chance to join Mount Heavenly Path.

The energy of the thirty powerhouses gathered and was incredibly scary.

Faced with thirty powerhouses charging at him, James remained calm. Just before their attacks landed on him, the surrounding space began to tremble.

Their attacks did not strike James, but instead, they were teleported away.

“What?”

The opponents that attacked were shocked.

“Space Path?”

“It’s no wonder the Space Path is one of the Five Great Paths. It’s indeed really magical.”

“Having mastered such an extraordinary Path, it would be hard for him to die even if he wanted to.”

Many of the powerhouses were shocked.

Even so, they still wanted to kill James.

They were careless and got teleported by the spatial rifts James created in the space. As long as they could destroy the surrounding space, James’ Space Path would be useless against them.

At that moment, the Elemental Ousias above James’ head merged.

The different elements intertwined and fused to form a mysterious power.

Immediately, the power began to form the Elemental Wheel.

James urged his physical strength, and power emerged from his body. The power submerged into the Elemental Wheel, enhancing its strength.

“Huh?”

“What kind of signature skill is this?”

“What Supernatural Power is he using?”

“It’s unprecedented. One that I’ve never heard of before.”

The Grand Emperors in the distance were shocked.

“Time to say goodbye.”

James’ voice resounded throughout the area.

The Elemental Wheel immediately dashed out with terrifying force.

The force permeated the surroundings. Even Fifth Heaven

Grand Emperors like them felt palpitations, and they immediately fled without hesitation. However, it was already too late.

The Elemental Wheel darted out and crushed down a few opponents.

The Almighty Dragon General Chapter 3389-These Grand Emperors could not resist the power and were crushed into nothingness.

The Elemental Wheel's terrifying force destroyed even their souls, leaving nothing behind.

Those that survived immediately tried to flee.

However, they could not escape James' pursuit as he had cultivated the Space Path.

The Elemental Wheel immediately disappeared into space and chased after the fleeing Grand Emperors.

The thirty Grand Emperors were obliterated in a short moment.

The Elemental Wheel returned to James and dispersed into Elemental Ousias again. Then, they submerged back into his body.

"They overestimated themselves." James smiled faintly.

The Elemental Wheel was indeed a terrifying weapon.

Although the Elemental Wheel was formed by his Elemental Ousaias, James still wiped out the Fifth Heaven Grand Emperors easily. If he used the Five Elements of Genesis to form the Elemental Wheel, he could effortlessly eliminate Seventh Heaven Grand Emperors.

However, he would be struck by Karma Power if he rashly used the Five Elements of Genesis.

Therefore, James did not want to summon them unless it was critical.

"It's time to leave this place."

After James killed thirty of his opponents, he quickly left the area. He traveled into the depths of the universe again and found another uninhabited planet.

After finding a secluded location, James began to cultivate again.

Three years had passed since James killed the thirty Fifth Heaven Grand Emperors.

The news that he had obliterated thirty opponents alone had spread in the past three years.

Many people gathered in the main hall of the Callahan Residence in the Human Realm.

Thea, Danielle, Lanathia, and Sienna were also present.

At that moment, a disciple of the Callahans was reporting the latest news to them.

“The latest news we’ve got on James is from three years ago. James killed about thirty Fifth Heaven Grand Emperors on an unknown planet and left unscathed. Mount Heavenly Path hasn’t released any information about his whereabouts, so his current location is unknown.”

Hearing the report, Thea nodded lightly.

Surprised, Danielle said, “I really didn’t expect James to be

this strong. He’s only at the Divine Rank, and his physical strength is at the Grand Emperor Rank’s Fifth Heaven.

However, he managed to effortlessly kill thirty Fifth Heaven Grand Emperors and leave without breaking a sweat?”

Lana nodded lightly and said, “He’s really impressive. If he was given a little more time, I’m sure he would become a great powerhouse. However, I’m afraid he might not survive the ten-thousand-year time limit.”

The disciple continued to report, ‘There are also rumors that James used all Five Elemental Ousias in his fight against the thirty Fifth Heaven Grand Emperors. Moreover, he unleashed a terrifying signature skill.’

“Five Elemental Ousias?”

Even Thea was shocked by the information.

She rubbed her chin and said, “It’s rumored James cultivated the Five Great Paths’ Ousias. Now, he even has the Five Elemental Ousias? Could it be that he has already broken through the limit permitted by the Heavenly Path?”

Lana already knew about these facts but did not say much.

Meanwhile, Sienna listened carefully to the reports and was relieved to hear that James was still safe.

The Callahans were discussing the latest updates about James.

The Ancestral Sword Master of Mount Sword God was also paying close attention to news about James. At that moment, a subordinate was reporting the latest updates of James to him as well.

After the Ancestral Sword Master learned of the news, he nodded lightly and said, "As expected of someone from the future. Although I don't know what he's doing in our age, I'm sure he'll definitely become a well-known powerhouse in this age very soon."

The Ancestral Sword Master was not the only one tuning into news about James. Even the Ancestral Talisman Master was paying attention to the updates.

The Ancestral Talisman Master was surprised to learn that James used the Elemental Ousias in his recent fight.

"He's a freak. He has the Five Great Paths' Ousias, a Curse Ousia, and the Elemental Ousias. Tsk, tsk. It's unprecedented for anyone to have cultivated so many Ousias."

Details about James' fight spread throughout the universe during the three years.

Knowing that James had cultivated so many Ousias, many Grand Priests and Grand Priestesses of major sects were tempted to take action against James. They all wanted to use the opportunity to make a name for themselves by killing James.

The Almighty Dragon General Chapter 3390-Killing thirty Fifth Heaven Grand Emperors was nothing extraordinary.

Several Grand Priests and Priestesses from major sects had also killed dozens of cultivators at the same cultivation rank as themselves.

Although James' physical strength was at the Grand Emperor Rank's Fifth Heaven, his achievement was very impressive only because his cultivation rank was relatively low.

James had already attracted the attention of many Grand Priests and Grand Priestesses.

Many prodigies in seclusion for years also headed out to hunt for James.

James' name had caused a commotion throughout the universe.

His accomplishments did not bring on his fame. Instead, he went viral because Mount Heavenly Path was targeting him.

No one knew how James had offended Mount Heavenly Path.

However, everyone knew that James would surely die after being targeted by Mount Heavenly Path, regardless of how outstanding he was.

Since ancient times, no one dared to disobey Mount Heavenly Path.

Rumors about James continued to spread like wildfire throughout the universe.

Meanwhile, James had entered another planet that was uninhabited by living beings,

Many desolate planets existed throughout the vast universe, and their surroundings were dead silent.

The planet James arrived on was also very tranquil.

He appeared on a planet that was on the verge of destruction. It had a very harsh environment but very compelling energy.

The power was formed because the planet was about to perish.

Even a Grand Emperor would not be able to resist the power.

Despite having physical strength at the Grand Emperor Rank's Fifth Heaven, it was difficult for James to bear it.

However, he desperately needed to get stronger.

He had the Elemental Inversion Formation and the Demonic Lotus, so he could easily absorb and refine any sort of energy that others could not.

James began to suppress the Heavenly Path's injuries in his body.

The trauma dealt by the Heavenly Path's Power was terrible. Everytime he suffered physical injuries or engaged in battles, the wounds would relapse. James was confident he

could fight a Sixth Heaven Grand Emperor if he did not have these injuries.

After he temporarily suppressed the injuries, the pain subsided significantly.

James sat within the planet's core fire.

Core fires would form within planets that were about to perish. The flames were scorching hot and contained very violent energy.

James summoned the Elemental Ousias above his head to form the Elemental Inversion Formation. Then, he began to absorb the energy from the planet.

Meanwhile, the Demonic Lotus also hovered in the sky and rapidly absorbed the energy. The power of James' Ousias improved tremendously.

It had been a long time since James had focused so wholeheartedly on his cultivation.

In the past, he never deliberately focused on improving his cultivation rank but simply left it up to fate.

Now, he was seizing every minute and second to cultivate. Thus, his strength was constantly improving.

At the rate he was cultivating, he would have entered the Grand Emperor Rank by now if he only had one Ousia.

However, James had many Ousias and needed to absorb a lot of energy.

Creak!

A crack formed on the planet's ground, and James stopped cultivating.

He had absorbed all the remaining power of this world and refined them into his energy.

Therefore, the planet's life had come to an end.

James immediately left the planet in a flash.

Boom!

After he disappeared, the entire planet disintegrated. Shortly after, there was an explosion, causing meteorites to burst out into the dark space.

James did not stay in the area for long but searched for a new, suitable place to cultivate.

He traveled through dim space and sensed the energy of the planets around him. Soon, he found a planet with abundant energy.

It was another abandoned planet. The environment was harsh and not suitable for human habitation.
