The Almighty Dragon General Chapter 3531-Herschel's sneer made Thea calm down.

At this time, every powerhouse in the world was watching this battle.

Upon seeing James' defeat and Gutierre using his superpower, all powerhouses took in a deep breath.

"This is bad."

"The first-generation genius has fallen."

"James hasn't begun his era, yet he has already fallen."

"How unlucky. He met a taboo existence like Gutierre."

"Nevertheless, even if he dies, he will be famous for a long time."

Many powerhouses sighed.

Boom!

A terrifying power erupted from Heaven-Piercer Halberd, and it was swept below the deep pit.

When all living beings thought James' death would be certain, the frightening power in the deep pit disappeared.

Gutierre's attack did not cause damage to the ground. Thus, James was not harmed either.

"Uh?"

"Why did such a strong power disappear suddenly?"

All the living beings were stunned. While they were shocked, a man slowly appeared in the deep pit. His body had been pierced through, showing a bloody hole.

After his appearance, the bloody hole recovered. Gutierre was taken aback too.

"He's so tenacious," Gutierre could not help but marvel.

James wiped away the blood at the edges of his mouth and brushed off the dust on his body.

“Gutierre, I admit that you’re very strong. You even broke my Elemental Body. Your attack can kill an Ancestral God.”

James’ voice was clear.

“However, it isn’t enough to kill me.”

With a thought, one hundred and eight Infinity Steles emerged. The Infinity Steles floated around him, exuding prehistoric power.

“Haha.” Recovering from the shock, Gutierre laughed. “It seems that killing you will take some time.”

Even though James did not die, Gutierre did not care. To him, he merely needed to waste a little more time.

Then, Gutierre made his move. He took the initiative to launch an attack. Holding the Heaven-Piercer Halberd, he slashed before him, and the terrifying power moved like waves.

James had a look of indifference as his aura became strange.

Clang, clang, clang.

Gutierre’s attacks were all blocked by the Infinity Stele.

Nonetheless, Gutierre, who had entered Omniscience, was terrifying. His speed was strange as well. In an instant, he passed through the protection of the Infinity Stele and appeared before James. With the weapon in his hand, he pierced James’ body.

The power of this attack was scary. Even if it were a Mystical Ancestral God, he would be dead.

However, when the attack was on James’ body, nothing happened.

James smiled oddly.

Raising his hand, he slapped Gutierre on the face.

The main power of the slap was Karma, with the others as support.

The powerful attack of the Karma Power landed on Gutierre’s body.

Gutierre’s body was unrivaled and had already reached the Grand Emperor Rank’s Ninth Heaven. In addition, he was proficient in numerous Paths and could use the body of the countless Paths.

Nonetheless, the power of Karma was too mysterious and frightening.

At once, cracks appeared on his body. A bloody hole appeared on his chest.

His body flew.

At the same time, he sensed that he was infected with the terrifying Karma. His body began to disintegrate, and his soul showed signs of vaporizing.

“What’s going on?”

The Almighty Dragon General Chapter 3532-The Karma Power injured Gutierre.

Then, he was tainted by James’ Karma. Under the destruction of the Karma Power, cracks began to appear on his body.

His soul had also begun to dissipate. At this point, he was no longer calm as he previously was.

In a panic, he took several steps back and pulled a large distance away from James. Using his power, he forcefully got rid of the Karma Power.

Nevertheless, he only removed the Karma Power James attached to him and not the Karma he himself tainted. With his strong power, he could lose it.

Even though he had gotten rid of the Karma Power, he appeared to be in dire straits.

Far away, countless powerhouses gathered.

Upon seeing the reversal of the battle, the powerhouses were shocked.

“What power is this?”

“It’s Karma. I didn’t expect James to be able to use the Karma Power. Could it be that he has already successfully cultivated the Karma Path that no one has ever managed to cultivate before?”

A few powerhouses knew that it was Karma.

Nonetheless, there were a few powerhouses who did not know about it as their cultivation base was low.

All powerhouses were confused as no one knew if James had cultivated Karma successfully. If it were true, James would be a terrifying figure.

In Herschel Palace of Mount Heavenly Path, Thea and Sienna smiled when they saw the reversal of the battle.

On the other hand, Herschel's expression darkened.

Initially, he thought the battle would end here. Who could have thought that James had other tricks up his sleeves? James even managed to get rid of Gutierre's frightening power.

Nonetheless, as a Terra Ancestral God, Herschel could not understand how James got rid of Gutierre's power. Even Thea, a Caelum Ancestral God, did not know what tricks James used.

However, upon seeing James winning, Thea was happy.

Outside Mount Heavenly Path, in the battle, the cracks on Gutierre's body had recovered, but he was currently in dire straits. He no longer looked invincible.

After removing the Karma Power, he glanced at James with an unbelievable expression.

"James, you're too scary. You're only in the Grand Emperor Rank's Third Heaven, yet you're already so powerful. In this cultivation rank, you have the power of killing a Mystical Ancestral God. You even managed to master the most mysterious Karma."

Gutierre had been famous for numerous Epochs.

He cultivated the eight Heavenly Paths, and he believed that there were not many people in the same cultivation rank who could crush him. Only the second and first in the Martial Ranking could injure him slightly.

Thus, he had never expected to be forced into such a predicament by a human in the Grand Emperor Rank's Third Heaven.

As the third in the Martial Ranking, he knew many martial art skills. Omniscience was merely a state of support in battle; it was not all of his strength.

Nonetheless, there was no use in continuing the battle.

He had suffered from injuries, and his injuries were severe. It meant that he was defeated.

If he and James were in the same cultivation rank, he would be killed in an instant.

"I've lost this battle," Gutierre spoke up.

It was his first time saying such words. Even when facing the first in the Martial Ranking, he did not say anything like this.

At this moment, he had wholeheartedly accepted his defeat.

“You may go. I won’t stop you.”

Gutierre’s body descended from the sky and landed on the ground steadily. He removed the Omniscience and withdrew his aura. Then, he disappeared outside Mount Heavenly Path.

Phew!

Many powerhouses gathered far away.

Seeing Gutierre admitting defeat, all living beings took in a sharp breath.

“A Grand Emperor Rank’s Third Heaven powerhouse defeated Gutierre, who’s third on the Martial Ranking. How terrifying.”

“James created a legend once again, a forever-lasting legend.”

“This battle is the start of James’ era.”

“The era of James has come. With James around, any Outsiders will be too overwhelmed to keep their heads up.”

After this battle, James gained a great reputation.

The Almighty Dragon General Chapter 3533-This battle created a legend and officially began his path of invincibility in the same cultivation rank.

Many living beings seemed to have seen the arrival of James’ era, just like Thea several Epochs ago, the Outsiders were oppressed.

In Herschel Palace, Mount Heavenly Path, Thea watched Gutierre admit defeat and a smile appeared on her cold face. With pride, she glanced at Herschel before saying with a smile, “The third place in the Martial Ranking doesn’t seem very strong.”

“Darn it,” cursed Herschel.

Gutierre was more powerful than this. There were still many tricks he did not use. In fact, he had not used the Scythe of Judgment.

Herschel did not expect Gutierre to admit defeat.

If Gutierre had not admitted defeat, even if he lost to James, he could exhaust James' power. In this way, it would be easier to fight James.

"Damn it."

Herschel's expression was extremely dark.

Looking at Thea, he sneered, "Thea, don't be complacent. Gutierre is only third in the Martial Ranking. There are still the first and the second. I'm too lazy to call the second in the Martial Ranking, so I'll send out the first in the Martial Ranking right away. He will definitely kill James."

Herschel knew that it was the last chance. If the top ranker in the Martial Ranking failed to kill James, there would no longer be opportunities.

Meanwhile, Thea just smiled.

Although the champion in the Martial Ranking was strong, she believed in James.

He would defeat the champion in the Martial Ranking.

In another area of Mount Heavenly Path, Melinda screamed upon seeing Gutierre admit defeat. She could not help but stand up and clapped her hands. "Not bad. James is very strong. I like him more now."

Next to her, Winnie also let out a sigh of relief. She finally let go of the worry in her heart.

After defeating the third place in the Martial Ranking, James would have a chance to win against the second place and the champion.

'As expected of Papa,' thought Winnie.

Outside Mount Heavenly Path, James breathed out a sigh of relief after Gutierre admitted defeat.

Initially, he was wondering how long the battle would take to defeat Gutierre.

Who knew that Gutierre would admit defeat?

It seemed that James needed to use his powerful ultimate moves at the end.

This battle exhausted a lot of the Path Seals' power. He knew there would be more tough battles ahead, so he did not advance rashly. Instead, he sat on the ground and began absorbing Primordial Energy. He needed to absorb the energy to recover the power he lost.

Anyway, the time given by Herschel was five hundred years, but currently, not even a hundred years had passed.

He had more than enough time. He had to be in his best condition to face the powerhouses he would encounter next.

Far away, thousands of living beings had gathered. The living beings were waiting for James to continue advancing.

"Gutierre is out from the battle. James' next opponent should be the second in the Martial Ranking, Jackson Zalesky."

"Jackson Zalesky. His name sounds so unreachable."

"If he doesn't walk around the world, the world would seem less fun."

Everyone began talking about the powerhouse that was second in the Martial Ranking.

It seemed that he had done many harmful things. At the mention of him, many powerhouses gritted their teeth as if everyone had suffered from him at least once.

On the other hand, James did not think about his next opponent. Sitting with crossed legs, he focused on recovering the power he lost.

Minutes and seconds were passing by.

Soon, James had recovered the power he exhausted. He got up from the ground.

"James has stood up."

"The battle is going to begin soon."

"Can James continue creating legends? I'm excited."

As James got up, many living beings grew excited.

The Almighty Dragon General Chapter 3534-James stood up and loosened his muscles.

He was no longer in a state of post-battle exhaustion and was full of energy.

After stretching his body, he glanced at Mount Heavenly Path ahead. Stepping forward, he walked toward Mount Heavenly Path.

In Herschel Palace, Mount Heavenly Path, an unfamiliar man appeared in the main hall.

He wore a plain grey robe and had an average look. He appeared to be around thirty years old. On his forehead, there was a mysterious sigil. The sigil looked like a flame.

"Master," the man spoke in a dull voice.

"Quinn, I'll leave James to you. No matter what means you use, you must kill him outside of Mount Heavenly Path."

Herschel issued a death order.

"Got it," answered Quinn Zalesky before asking, "Shouldn't my brother fight against him first? Why am I fighting him first?"

With a dark expression, Herschel responded, "Gutierre has already admitted defeat. I'm afraid Jackson won't be his match, so I'm sending you directly. You can't admit defeat. If James doesn't die, you're the one who'll die. Do you understand?"

"I understand."

Then, Quinn disappeared from the main hall.

Glancing at Herschel, Thea could tell that he was panicking. Her confusion grew as she had no idea why Herschel was adamant about killing James.

What kind of unresolvable grudge was there between Herschel and James?

Outside Mount Heavenly Path, a man was advancing slowly. Each step he took left a footprint. At this moment, he had already entered Mount Heavenly Path's territory.

At the mountain range ahead, there was a thousand-meter-high stone tablet. Several vivid characters were engraved on the stone tablet.

"Mount Heavenly Path."

These few words contained the Supreme Path Rhyme.

When James arrived at the entrance of Mount Heavenly Path, he realized that a man was standing before the stone tablet.

The man wore a grey robe and looked normal with a strange flame-like sigil on his forehead. It seemed to be burning.

Halting his steps, James stared at the person from afar.

"Is he Jackson Zalesky, the second in the Martial Ranking?" James mumbled.

Then, he walked over to the person.

Meanwhile, the living beings following behind James stopped in their tracks. They were all looking at the person before the stone tablet.

"He isn't Jackson."

"He's Jackson's brother, Quinn. He's champion in the Martial Ranking."

"Why is James going against the champion in the Martial Ranking directly? Is Jackson not going to fight?"

Many people were confused.

"Stop," came an indifferent voice.

Although the voice was dull, it sounded like an order. Even James was surprised when he heard it. He wanted to move forward, but his legs did not want to obey. Involuntarily, he stopped walking.

James was startled.

'He's strong. His words sounded like an order. Even I can't resist it.'

He took in a deep breath. Stopping, he looked at the average-looking Quinn and asked, "Who are you?"

Quinn glanced at James and said, "A dead person has no right to know my name."

"Hah." James found his words amusing. The powerhouses in the Martial Ranking were crazy.

"Gutierre also said that the last time, but he still lost to me. He even admitted defeat," spoke James.

However, Quinn responded, “I watched the battle. Even though you injured Gutierre, Gutierre did not use all his strength. If he were to go all out against you, you might not be his match.”

Quinn fought with Gutierre several times before.

Thus, he knew Gutierre’s strength. Based on the power James showed, James might not be able to truly defeat Gutierre.

“Is that so?” James smiled.

The two continued to stare at each other.

On the other hand, the powerhouses in the distance went crazy.

“What a surprise.”

The Almighty Dragon General Chapter 3536-Blossoming was Emperor Jabari’s signature skill. It was a Forbidden Art created by him.

However, Emperor Jabari did not master the Five Great Paths and the Karma Path. During the battle with Heaven’s Adjudicators in the Apocalypse Age, he sacrificed his life at the cost of filling the petals representing the Five Great Paths and the Karma Path.

In that battle, the Heaven’s Adjudicators at the peak of the Quasi Ancestral God Rank suffered from severe injuries.

In the past, James watched Blossoming in the Celestial Abode. At the time, he had not mastered the Five Great Paths, so he did not cultivate it.

Now, he had long mastered the Five Great Paths and the Karma Path but was not proficient in countless Paths.

Nevertheless, there was the power of countless Paths in heaven and earth. Using his power, he forcefully gathered the Path Power in heaven and earth and formed the petals of countless Paths.

Aside from the Five Great Paths and the Karma Path, the power of other Paths could be absorbed from heaven and earth directly.

The power of the Paths in heaven and earth formed a Sacred Blossom.

“What is that?”

“A Sacred Blossom?”

“He’s quite knowledgeable. How did he use the power of Paths to create a Sacred Blossom?”

Upon seeing a Sacred Blossom floating in mid-air, many people were stunned.

Standing in the distance, Quinn stared at the Sacred Blossom formed by the power, expressionless.

At this point, the sigils in James’ body were slightly damaged. He knew how powerful Quinn was. He also knew he could not drag out the battle. Once the battle was prolonged, he would lose.

Losing the battle meant death.

Losing the battle also meant Sienna had to marry another man.

He could die, but he could not allow Sienna to get married to another person.

Then, he activated the power of the Five Great Paths.

The power of the Five Great Paths, Time, Space, Life, Death, and Reincarnation, merged into the Sacred Blossom ahead and entered the core area of the five petals.

Following the appearance of the petals representing the Five Great Paths, the Sacred Blossom dazzled, and a mysterious power emerged.

The power was frightening. Even though this place was Mount Heavenly Path, a substantial place, with numerous powerhouses guarding it, under the power of the Sacred Blossom, the surrounding space distorted as faint cracks appeared.

“Huh?”

Quinn sensed an unusual power. It even made his heart pound.

On his expressionless face, a small wave of emotions appeared.

James was not done yet.

After using the power of the Five Great Paths, he used Karma again.

While he raised his hands, the power of Karma emerged and entered the center part of the Sacred Blossom.

The petal representing Karma was gradually filled up, slowly coming to life.

It was only then that the Sacred Blossom was finished.

Once the Sacred Blossom was done, it unleashed an extremely terrifying power, and this power affected the space, causing it to distort endlessly.

“What Supernatural Power is that?”

“I’ve never heard of it nor seen it before.”

“It’s so powerful.”

“It’s beautiful, dazzling, and eye-catching. It’s just that there’s a destructive power under the dazzle.”

Many powerhouses sighed as they were surprised.

The powerhouses, who were at the peak of the Ancestral God Rank, such as the Ancestral Sword Master, the Ancestral Talisman Master, the Five Ancestral Masters, and the Ancestral Needle Master, were also watching the battle secretly. It was because they were all connected to James in some ways.

At this moment, they all sensed a strong power coming out of the Sacred Blossom.

“Macrocosm Power?” The Ancestral Talisman Master was the first to be shocked. He could not help but say, “This brat has mastered the Five Great Paths, and the power born from the fusion of the Five Great Paths is Macrocosm Power. I didn’t expect him to master other Macrocosm Powers besides the Five Great Paths.”

The Ancestral Sword Master frowned. “Isn’t this the Macrocosm Power I’ve been dreaming for? It has been countless Epochs since I wanted it, but I’ve never been able to comprehend it and enter the Macrocosm Ancestral God Rank. Who knew that this brat could use Macrocosm Power so easily?”

The Five Ancestral Masters exchanged glances in the dark.

On the battlefield, Quinn’s expression changed as he became serious.

James stood void, and the dazzling Sacred Blossom bloomed before him.

This Sacred Blossom was huge with many petals.

The petal in the center was the most dazzling, the most mysterious, and also the strongest. The power it exuded was the scariest.

Upon seeing the Sacred Blossom bloom, James smiled.

The Sacred Blossom was not all his power, aside from the Five Great Paths and Karma, the other Sacred Blossom powers were all absorbed from heaven and earth.

Such a Sacred Blossom was not perfect.

Nevertheless, this was all he could do.

Even so, the power of the Sacred Blossom was terrifying.

“Quinn, why don’t you try surviving my attack?”

James’ voice was loud and clear.

Hearing that, Quinn took precautions, and his aura reached the extreme in an instant. On his body, the power of many Paths formed an armor.

“Go.”

James waved his hand.

Under the control of his power, the dazzling Sacred Blossom flew toward Quinn with unrivaled power.

In an instant, it appeared above Quinn.

When the Sacred Blossom fell, the mysterious power engulfed Quinn.

Although Quinn had the protection of the energy of many Paths on his body, under the destruction of the power of the Sacred Blossom, the protection formed on his body was about to crack.

“Break it.”

Quinn’s body moved backward as a frightening power appeared in his palm. This power collided with the power of the Sacred Blossom.

Boom!

Two strong powers collided with each other, causing a huge explosion. Even if this place was Mount Heavenly Path, the explosion cracked the void, and an enormous black hole appeared.

After one hit, Quinn's protection broke, and his body was covered in wounds. With his messy hair, he appeared to be in dire straits.

Nonetheless, he forcefully broke the Sacred Blossom with his strong ability.

At this moment, the Sacred Blossom was no longer eye-catching as many petals had cracked.

However, the petals representing the Five Great Paths and Karma were still in perfect condition.

The Sacred Blossom continued to fall.

"What power is this?"

Quinn's expression changed. In a flash, his body appeared in the distance.

Controlling the Sacred Blossom, James went after Quinn.

Quinn raised his hand, and a scythe appeared in it.

The scythe was golden in color. It was dazzling and eye-catching. Once the scythe appeared in his hand, his aura changed. At this time, he appeared to be the main adjudicator.

"The Scythe of Judgment?"

"Is Quinn a Heaven Adjudicator too?"

"Did James do something wrong? Why does Quinn need to use the Scythe of Judgment? Doesn't this mean he's going against the law of the Heavenly Path?"

Numerous powerhouses immediately accused Quinn.

On the other hand, Quinn could not care about that much. Holding the Scythe of Judgment, which had the power of the Heavenly Path, he slashed at the broken Sacred Blossom.

Even though the Sacred Blossom was scary, James' power was still weak. The Macrocosm Power formed by the Sacred Blossom was not extremely strong. Thus, it was not a match for Quinn's Scythe of Judgment.

The Scythe of Judgment contained the power of the Heavenly Path. Under the destructive power of the Heavenly Path, the Sacred Blossom instantly disintegrated.

The Almighty Dragon General Chapter 3538-Quinn was the champion in the Martial Ranking.

His ability was frightening. With his power, he could resist the Sacred Blossom's attack. He even broke a few petals of the Sacred Blossom.

Now, using the Scythe of Judgment and the power of the Heavenly Path, he broke the Sacred Blossom.

When he used the Scythe of Judgment, several powerhouses were upset.

To have a Scythe of Judgment, one had to be a Heaven's Adjudicator, the embodiment of justice, judging all injustices in the world.

However, Quinn was currently using the Scythe of Judgment to fight his enemy. He was going against the will and the law of the Heavenly Path.

Even though he had broken the Sacred Blossom, many people were angry at him.

With the Scythe of Judgment in his hand and the power of the Heavenly Path on his body, his aura was terrifying. Like a god, he looked at James in the distance, expressionless.

On the other hand, James' expression darkened.

Blossoming was a Forbidden Art created by Jabari. With this skill and the Grand Emperor Rank's Ninth Heaven, he severely injured the Heaven's Adjudicators at the peak of the Quasi Ancestral God Rank.

He did not expect Quinn to be so strong and be able to break the Sacred Blossom.

"James, you must die."

Quinn's voice was loud.

"I know I'm wrong for using the Scythe of Judgment, but I will destroy my Scythe of Judgment after killing you because I'm not worthy of being a Heaven's Adjudicator," said Quinn.

Then, his body moved and appeared before James.

The golden scythe slashed at James.

Quinn was too quick. Even if James grasped the time and space, he could not see Quinn's advancement.

The Scythe of Judgment swung at James with the vast power of the Heavenly Path.

"It's over."

"James has fallen."

"No matter how strong he is, compared to the power of the Heavenly Path, he's nothing."

Several living beings closed their eyes, unwilling to see James die under the Scythe of Judgment.

Nevertheless, the moment the Scythe of Judgment landed, James raised his hand, and a black power emerged in his palm. This power managed to block the Scythe of Judgment.

As Quinn was too powerful, James only managed to block the Scythe of Judgment temporarily. He could not help but back up, and soon, he reached the barrier formation of Mount Heavenly Path.

The barrier formation of Mount Heavenly Path was strong. Even Quinn could not destroy it. It blocked James, trapping him.

Using the Dark Power, he resisted the power of the Heavenly Path.

The Dark Power was the power of the Heavenly Path's nemesis.

However, his Dark Path Seal had only reached the Grand Emperor Rank yesterday. It was not very strong. Meanwhile, Quinn was powerful. James' Dark Power was constantly being disintegrated.

He saw that the Scythe of Judgment was about to touch his body.

In the distance, many powerhouses gathered, and all of their gazes were fixated on the battle.

As Quinn got closer, James could see his expressionless face.

At this moment, James smiled slightly. Using the power of Karma, he showcased One for All. Then, the Scythe of Judgment began to disintegrate and disappear.

Quinn sensed the power of the Scythe of Judgment disappearing, and his expression changed. Before he could react, the Scythe of Judgment in his hand was knocked away.

On the other hand, James took the opportunity to hit Quinn.

He used Karma for this attack.

As soon as James used Karma, no matter how powerful Quinn's body was, he immediately suffered from injuries and was tainted with the power of Karma.

"Reincarnation."

James' body moved. He appeared behind Quinn and hit him once again.

This attack contained the power of Reincarnation. In an instant, Quinn had two great powers in his body, Karma and Reincarnation.

After being tainted with Karma, his body began to fall apart.

Nonetheless, Quinn was the champion in the Martial Ranking.

When he was tainted with Karma and his vitality was running out, he used an extremely strong power to force the power of Karma and Reincarnation out of his body.

His body backed away hurriedly and appeared in the distance.

At this moment, his hair was a mess.

After forcing out the power of Reincarnation, he recovered his vitality quickly.

"James." Quinn gritted his teeth.

As the champion in the Martial Ranking, it has been a long time since he fought someone. No one in the Grand Emperor Rank could compete with him, let alone get forced into such a predicament.

James was the first person in the Grand Emperor Rank who forced him into such dire straits.

After fighting for a while, James was no longer anxious.

"The champion in the Martial Ranking is not invincible after all," said James.

He admitted that Quinn was strong, but he could tell that Quinn's Cultivation Heart was already unstable. All he had to do now was to mess with it.

James would have a chance only if Quinn's Cultivation Heart became a mess.

"A Quasi Ancestral God is invincible? What a joke. It has only been three days since I entered the Grand Emperor Rank, but I managed to injure you. If I were in the same cultivation rank as you, I could kill you in an instant," ridiculed James.

Meanwhile, Quinn's face darkened. Battling until now, he would usually choose to admit defeat and retain his dignity.

However, the master had ordered him to kill James. If James did not die, he would be the one who would be dead.

He grasped the Scythe of Judgment tightly.

The Scythe of Judgment became dazzling again. With the addition of the power of the Heavenly Path, his aura became powerful again.

He raised the Scythe of Judgment in his hand, and a golden light shot up to the sky. The golden light influenced the law of the Heavenly Path. At this moment, countless sigils of the law of the Heavenly Path in heaven and earth gathered and formed a Tribulation Cloud.

In the Tribulation Cloud, the lightning tribulation exuded a terrifying power.

"He used the Scythe of Judgment to activate the power of the Heavenly Path forcefully and create a scary Heavenly Tribulation. He wants to use the Heavenly Tribulation to kill James."

"How despicable."

"How could such a person become a Heaven's Adjudicator?"

Upon seeing the appearance of the Heavenly Tribulation, many powerhouses became furious. They were all criticizing Quinn and finding it unfair to James.

Quinn did not care, though. As long as he could kill James, the process did not matter. Only the outcome was important.

Looking at the sky, James saw the Tribulation Cloud.

At this time, he could sense how scary the Heavenly Tribulation created by Quinn was. It was a Heavenly Tribulation of at least an Ancestral God Rank. With his current cultivation rank, if he were struck by the lightning tribulation, he would lose his combat power even if he were to survive it.

“No, I can’t let the Heavenly Tribulation be formed.”

James became serious. He no longer wanted to hide his strength.

Then, the Elements of Genesis Seals emerged.

Under his control, the Elements of Genesis Seals exuded Elemental Power. The Elemental Power fused and formed a wheel.

The Elemental Wheel appeared, and with terrifying power, it slashed toward the Cloud Tribulation in the sky.

The Elemental Wheel destroyed everything that it passed.

Even several black holes appeared in the void after being crushed.

“What’s this?”

In the dark, the expressions of the Five Ancestral Masters changed.

Meanwhile, the other powerhouses were taken aback.

“What Supernatural signature skill is this?”

Many powerhouses were confused.

Only a few Caelum Ancestral God Rank powerhouses knew what was going on. They could not help but sigh, “It’s a Macrocosm Power again. How many Macrocosm Powers did James cultivate?”

The Almighty Dragon General Chapter 3540-“Is James related to the Five Ancestral Masters? He even has the Five Ancestral Masters’ Five Elements of Genesis. Aside from that, he also fused them with his Elemental Path Seal, forming a Five Elements of Genesis Seal.”

There were several powerhouses present who knew what was going on right away.

The Elemental Wheel formed by the Five Elements of Genesis Seal formed a whole new power.

It was a Macrocosm Power.

The Elemental Wheel flew toward the Tribulation Cloud of the Heavenly Tribulation.

In the blink of an eye, it entered the Tribulation Cloud, and under the pressure of the power of the Elemental Wheel, the cloud which had not been formed cracked and disappeared into heaven and earth.

“Damn it.”

Quinn was furious.

With the Scythe of Judgment in his hand, he rushed toward James, wanting to use this chance to take James’ life.

He appeared before James and slashed the Scythe of Judgment toward him. Once he slashed it, the power of the Heavenly Path emerged, causing the void to tremble.

Meanwhile, James had taken precautions against Quinn.

The moment Quinn moved, James also moved and summoned the Infinity Stele.

The Scythe of Judgment slashed on the Infinity Stele.

However, nothing could break the Infinity Stele. With Quinn’s cultivation rank, he could not break the Infinity Stele at all. He could only knock away the Infinity Stele.

The Infinity Stele blocked Quinn’s fatal attack.

Nonetheless, the terrifying power swept away with the Infinity Stele, and James, who was in the distance, also suffered the impact of this power.

Quinn was too strong, and James could not resist him with his current cultivation rank. Even if he was not near the battle, he was covered in wounds after he was hit, and the sigils in his body had cracks again.

“So powerful.”

He took a deep breath. Then, he activated the power of Time.

Under Time Power's control, the time on the battlefield reversed to the moment before he got injured.

At this moment, time paused. He used this opportunity to fly into the distance and avoided the aftermath of the battle.

Everything happened in a short moment.

Quinn had no expression on his face.

Upon seeing James activate the Time Path to avoid the fatal attack, he shouted, “Break it!”

When he shouted, his aura increased to the extreme. It affected everything on the battlefield.

James had just used the Time Path to escape, but his Time Path broke immediately after, making him go back to the time after he was injured.

Suffering from injuries once again, James spit out blood, and his body flew backward.

On the other hand, Quinn went after James once more with the Scythe of Judgment in his hand.

At this time, the Elemental Wheel descended from the sky and blocked Quinn from moving forward.

Quinn slashed the Elemental Wheel.

Even though he was holding the Scythe of Judgment that let him achieve the power of the Heavenly Path temporarily, he could not harm the Elemental Wheel. In the end, he was forced backward by the Macrocosm Power that emerged from the wheel and spat out blood.

As he spat out blood, the Infinity Steles flew toward him.

One hundred and eight Infinity Steles took turns smashing him. He body dodged the Infinity Steles continuously and knocked them away.

During this time, he was hit by the power of the Elemental Wheel again. This attack almost took his life. Half his body had cracked open, and his bones could be seen.

Nevertheless, his injuries only lasted for a moment. The injuries on his body healed immediately.

After recovery, his body moved, and eight Quinns appeared on the battlefield, attacking James from every side.

“What’s going on?”

James’ expression changed.

Why were there so many Quinns?

The Infinity Steles returned and appeared around him, forming a protection formation and blocking the attacks from eight Quinns. Even though the Infinity Steles blocked most of the attacks, some attacks still reached him.

Even the power of the small attacks was tremendous. He continued to suffer from injuries and kept using the power of the Life Path to cure his injuries.

“Damn it.”
