The Almighty Dragon General Chapter 3571-A few even issued warnings to prevent other Macrocosm Ancestral Gods from planning to play dirty tricks.

On the other hand, Hadad remained silent throughout the conversation.

His strength was considered the weakest among them. Thus, he was not qualified to speak. Even if he were to say something, the others would not converse with him.

Hearing the Omnipotent Lord's suggestion, Hadad began to think about the powerhouses below the Ancestral God Rank in the Twelfth Universe, contemplating who to send to the new universe to compete against the other universe's powerhouses for the boons.

The Omnipotent Lord said, "It will take about thirty million years for the new universe to stabilize. After that, many treasures will keep appearing in this universe. No one is allowed to enter the universe within these thirty million years. After thirty million years, living beings below the Ancestral God Rank can freely enter the universe.

"During this period, we'll supervise and restrain each other. If any Macrocosm Ancestral God enters the universe during this period to seize the Macrocosm Core, they will become the public enemy of all twelve universes."

Hearing the Omnipotent Lord's threats, those scheming to obtain the Macrocosm Core immediately dismissed their plans.

"Alright. Let's disperse and return to our universes. Arrange for your candidates to come here for the boons thirty million years later. Also, I'd like to remind everyone. If your people die in battle while trying to obtain the boons of this universe, don't hold any grudges. Don't send them here if you're afraid of losing powerful subordinates."

One of the Macrocosm Ancestral Gods gave a warning, seemingly very confident in the powerhouses of his universe.

The Macrocosm Ancestral Gods held a very brief meeting and left after coming to a conclusion.

All of them left the universe.

Although they were physically gone, they all left a trace of their Divine Sense in the universe to surveil it and prevent each other from going after the Macrocosm Core.

A Macrocosm Core was capable of improving a Macrocosm Ancestral God's strength.

Hadad returned to the Twelfth Universe with a heavy heart.

He arrived back in Hadad Palace and sat down in the main hall. He looked into the distance, lost in thought.

There were many geniuses in the Twelfth Universe and many cultivators below the Ancestral God Rank who were also very powerful. However, the Twelfth Universe was the weakest among the others. If he were to send them over, they would definitely die.

These powerhouses were potential Caelum Ancestral Gods. If they were to die, novelebook.com the Twelfth Universe would become even weaker.

“What should I do?”

Hadad was in a tough spot.

Suddenly, he thought of someone.

“How could I have forgotten about him?”

Hadad thought of James. James had defeated Quinn, the former number one of Mount Heavenly Path’s Martial Ranking, and displayed great strength.

Initially, Hadad wanted to kill James. However, he was forced to win over James after failing to take his life.

Now was the perfect chance to solve this threat.

He could send James to the new universe to seize the great boons. If James obtained great treasures and opportunities in the universe, James would be grateful toward him and stay loyal to Mount Heavenly Path.

Meanwhile, if James were to die in battle, he would easily eliminate a future problem.

The Almighty Dragon General Chapter 3572-After careful consideration, Hadad had a suitable candidate in mind.

The other universe lords would send countless living beings into the new universe to obtain the boons to enhance the strength of their universe.

On the other hand, Hadad intended to only send one person—James.

At that moment, he was slightly conflicted.

He hoped James would acquire great boons from the new universe, grow stronger, and become a pillar of the Twelfth Universe.

At the same time, he was also wishing for James to die in the battles that would occur in the new universe so that he would have one less threat in the future.

After confirming his decision, he headed over to James' location.

He was a Macrocosm Ancestral God, Lord of the Twelfth Universe, so it was easy for him to sense everything throughout the universe.

With a thought, he located James. Then, he disappeared from the main hall.

The next moment, he appeared on the planet where James was roaming.

At that moment, James and Melinda were looking for the Ancestral Talisman Master on the small planet.

They had been searching for a while and asked many other living beings on the planet, but no one had a clue about the Ancestral Talisman Master.

The planet seemed to be one that was isolated from the rest of the universe. The living beings inhabiting it had never heard of the Ancestral Talisman Master, nor had they heard of the other famous powerhouses.

James and Melinda temporarily rested in a mountain range within the Talisman Realm.

On top of the mountain, James sat in a lotus position and looked into the distance with a solemn expression.

After searching for so long, they still had no news of the Ancestral Talisman Master. James began to doubt Thea,novelebook.com thinking she might have given him the wrong location to prevent him from meeting the Ancestral Talisman Master.

Beside him, Melinda said, "James, we've already searched for so long but haven't heard anything about the Ancestral Talisman Master. Is he even on this planet?"

James shook his head lightly and said, "I'm not sure either."

Swoosh!

Suddenly, a light ray manifested before them and slowly transformed into a figure.

Melinda immediately stood up and called out respectfully, "Father."

James also stood up and greeted the man, "Lord Hadad."

The unexpected visitor was none other than Hadad.

Hadad looked at James and performed a quick sense to check James' current state. He immediately learned that James' Sword Path had reached the peak of the Grand Emperor Rank's Ninth Heaven and was one step away from entering the Quasi Ancestral God Rank.

He was both satisfied and worried about James' quick improvement.

However, he hid his emotions very well.

He praised James, "Impressive. It's only been a while since you left Mount Heavenly Path, yet your strength has improved significantly. I can sense that you're very close to becoming a Quasi Ancestral God."

James looked at Hadad. Although unsure why Hadad showed up, he could guess that Hadad was up to something.

Melinda asked, "You seldom leave Mount Heavenly Path. What made you come here? Did something happen?"

Hadad nodded and said, "Yeah. Something did happen."

Melinda asked, "What is it?"

The Almighty Dragon General Chapter 3573-Hadad looked at James and asked, "Do you know there are twelve universes?"

James nodded lightly and replied, "Yeah."

Hadad explained, "A new universe has just been born in the Chaos. If we rank the universes merely by the time they were formed, this new universe will be called the Thirteenth Universe."

James and Melinda exclaimed simultaneously, "Huh?"

Startled, James thought, 'The Thirteenth Universe? This shouldn't be happening, right?'

James was from the future. He had fought with Heaven's Adjudicators and learned about the twelve universes from one of them. Moreover, Melinda had also briefed him about the twelve universes in detail before.

'Why would Melinda leave out this information while in the Apocalypse Age?' thought James.

James looked at Hadad.

Hadad said solemnly, "It just happened very recently. All twelve lords of the universes have sensed the fluctuations from the Chaos, and we've met up in the new universe."

He looked directly at James and asked, "Do you know what the birth of a new universe means?"

James shook his head, expressing his lack of information on the topic.

Hadad explained, "It means new opportunities and boons. Chaotic Treasures will also appear with the birth of a new universe. Your Infinity Steles and the Five Elements of Genesis are Chaotic Treasures.

"Chaotic Treasures are also graded according to strength. The Five Elements of Genesis is considered a relatively weak Chaotic Treasure. As for the Infinity Steles, I'm not really sure. Since the birth of the Twelfth Universe, no one has ever obtained the Infinity Steles before you."

James listened carefully.

Hadad sighed and said, "It's also a new opportunity for cultivators to become a Macrocosm Ancestral God.

"The birth of a universe also means that a Macrocosm Ancestral God will rise soon. novelebook.com Whoever becomes the new Macrocosm Ancestral God in this universe will become the Lord of the Universe and can seize all the new universe's luck and boons.

"We don't have many Macrocosm Ancestral Gods in the Twelfth Universe.

"None of the other universes will be willing to give up such a great opportunity."

Melinda also listened carefully. She was not expecting that a new universe had been born.

Hadad said dejectedly, "Our universe is the twelfth. Amongst the other universes, we're the weakest. Our overall strength is a lot more inferior than the others.

"The Lord of the First Universe, the Omnipotent Lord, suggested that each universe send powerhouses below the Ancestral God Rank to the new universe to search for the great boons."

Melinda was excited by the news. She clenched her fist and said, "Perfect! I'll go! Please send me to the new universe, Father. I'll definitely seize some good treasures and become a new powerhouse for our universe!"

Hadad shook his head lightly and said, "I'm going to prevent the news from spreading and issue an absolute order to the Caelum Ancestral Gods of our universe to refrain from speaking of this matter. They won't be allowed to send their disciples to the new universe either."

Puzzled, James asked, "Why?"

Hadad explained, "Because we're too weak compared to the other universes. Sending living beings below the Ancestral God Rank will mean sending them to their death. It's almost impossible to survive. The more people we send, the more casualties we'll suffer. In order to preserve our universe's strength, I'm not going to send any disciples. You're going to be the only person I'm sending, James."

Startled, James asked, "Me?"

Hadad nodded and said, "Yeah. I've never seen another cultivator with as much potential as you. If you can become a Quasi Ancestral God, you'll stand a chance against the other universes' powerhouses. If I were to send the others, I would be sending them to their graves."

"You have thirty million years before you can enter the new universe. During this period, you must practice hard to improve your cultivation rank as much as possible. However, you mustn't reach the Ancestral God Rank. Otherwise, you won't qualify to be sent to the new universe to compete for the boons."

James fell silent.

He never expected Hadad to plan to send him to the new universe.

The Almighty Dragon General Chapter 3574-James did not reply for a while. He never thought Hadad would make such a decision.

The birth of a new universe meant countless boons would appear.

Such a great opportunity could not be obtained by strength but depended on one's fate.

Some people were willing to sacrifice their lives to obtain great things.

In the Apocalypse Age, many living beings were willing to risk everything, even their lives, to seize great boons.

Hadad refused to send more people to the new universe to preserve the strength of the Twelfth Universe.

James disapproved of his approach. Although he could preserve the universe's strength, he also limited its growth.

After a long silence, James said, "Lord Hadad, I think your decision might be inappropriate."

Hadad took a meaningful look at him and asked, "What is inappropriate about it?"

James said, "There are countless opportunities and treasures in the new universe. Instead of setting restrictions, you should send all powerhouses below the Ancestral God Rank to the new universe to seize these boons. "

Hadad reprimanded, "What do you know? You don't understand how terrifying the other universes are. They've existed way before the Twelfth Universe, and their Heavenly Path is much more stable than ours. This means their people are much stronger than us. If I send cultivators below the Ancestral God Rank from our universe there, they'll just become prey. Even if they successfully obtain boons from the new universe, they won't be able to bring them back home. I'm trying to protect them. Instead of heading there to die, they should stay home."

James fell silent again. Considering Hadad's position, it was reasonable for him to make such a decision.

James used to be Sol's Dragon King, who commanded millions of soldiers. He would never want his subordinates to risk their lives.

However, how could they keep retreating in the face of a strong enemy? James could never back down in the face of enemies.

Despite knowing the risks, James would send more powerful cultivators to the new universe to seize the opportunities if he were the Twelfth Universe's Lord.

Hadad refused to discuss the topic anymore. He slightly waved his hand and said, "That's enough. We still have thirty million years left. During this period, you should strive to improve your cultivation rank and strength as much as possible. Although you stand a chance against Ancestral Gods now, you can only fight against the weakest Mystical Ancestral God.

"With your current strength, you'll be the weakest among the powerhouses sent to the new universe.novelebook.com You won't stand a chance of surviving.

“You need to maximize your Path Seal’s strength and elevate your mentality to reach the Quasi Ancestral God’s Path Integration Rank within thirty million years.”

After Hadad gave the order, he disappeared from sight.

“James.” Melinda gently tugged his sleeves.

James returned to his senses, took a deep breath, and put the thoughts behind him.

Melinda asked, “Are you alright?”

James shook his head lightly and said, “I’m fine. Why wouldn’t I be?”

Melinda asked again, “What are you going to do?”

James said helplessly, “What else can I do? I’ll have to improve myself as much as possible within these thirty million years before I’m sent to the new universe. I’m confident I can raise all my Path Seals to the peak of the Grand Emperor Rank’s Ninth Heaven. I’m sure I’ll also be able to improve my state of mind and enhance my understanding of Paths.”

Thirty million years was a very short period for powerhouses.

It was not even an Epoch.

However, it was a very long time for James.

He was confident in reaching the Quasi Ancestral God’s Path Integration Rank.

“Let’s continue searching for the Ancestral Talisman Master,” said James.

Melinda suddenly slapped her forehead and said, “How could I forget? My father is the Lord of the Universe. He must know where the Ancestral Talisman Master is. I should’ve asked him just now.”

“It’s alright. We’ll just keep searching for him,” said James.

After speaking, he turned and left. He did not want to have too much contact with Hadad.

Although his conservative tactic was reasonable, the disadvantages outweighed the advantages.

Afterward, James continued on his search for the Ancestral Talisman Master.

Meanwhile, Hadad returned to Mount Heavenly Path.

He sat within Hadad Palace and sent a telepathic message to the Caelum Ancestral Gods within the universe.

All the Caelum Ancestral Gods received his call.

Swoosh!

A few people appeared in the main hall. One after another, the Caelum Ancestral Gods of the Twelfth Universe came to see him.

However, only those that were still active in the universe came. Meanwhile, the powerhouses hiding on Mount Nothingness did not appear even after sensing Hadad's call.

According to the records of history, they were supposedly dead.

Moreover, a special formation was set up in Mount Nothingness. The formation prevented even a Macrocosm Ancestral God from sensing their existence.

Many Caelum Ancestral Gods appeared in Hadad Palace's main hall.

A few of them were acquainted with James, and some were even very close to him.

The Ancestral Sword Master, Ancestral Talisman Master, the Five Ancestral Masters, the Ancestral Formation Master, Ancestral Medicine Master, Thea, and several other Caelum Ancestral Gods that James was unfamiliar with gathered inside the main hall.

These Caelum Ancestral Gods were the strongest cultivators of the Twelfth Universe.

They gathered in the main hall, already aware of the reason Hadad had called for them.

Hadad looked at them and asked, "I'm sure you've all sensed it, right?"

Everyone nodded in response to his question.

It was hard not to sense such a big fluctuation in the Chaos. However, they did not head over to check it out.

The Ancestral Sword Master was the first to step forward and speak. He asked, "What's the situation now, novelebook.com Lord Hadad?"

Hadad explained the birth of the new universe in detail.

"All twelve universes have agreed to send powerhouses below the Ancestral God Rank to the new universe to compete over the boons. After careful consideration, I've decided not to partake in the chaotic situation. I've summoned everyone today to warn you all not to spread the news. The birth of the new universe must remain a secret. Also, I'm forbidding anyone from sending disciples to the new universe."

"What?"

"That's inappropriate, Lord Hadad."

"This is a great opportunity to seize great treasures. There's even a chance to become a Macrocosm Ancestral God. How can we just give it up?"

Many Caelum Ancestral Gods expressed their disapproval.

"Huff."

Hadad sighed and said, "Although it's a good opportunity to obtain boons, we lack the strength to fight for them. Our universe was born much later than the others, and our Heavenly Path is weaker than theirs. Naturally, their cultivators and our cultivators of the same rank will have a great disparity in strength."

Hearing this, the crowd went silent.

Hadad said, "However, we're not going to completely forsake the chance. I've already decided to send James to the new universe. Although his current cultivation rank is low, he still has time to grow. I have faith that he'll become a Path Integration Ancestral God within these thirty million years."

"That's all I have to say. Everyone's dismissed."

Hadad gently waved his hand.

He summoned them simply to warn them not to leak the news and to not secretly send disciples over to the new universe.

The Caelum Ancestral Gods present exchanged a few glances, then turned to leave.

After learning of the news, Thea had a solemn expression.

“He’s sending James to die.”

Thea began to worry for James, knowing his cultivation rank was low.

Although his combat strength was terrifying, his cultivation rank was pitiful. She doubted James could become a Path Integration Ancestral God within thirty million years. If he succeeded, then she would have nothing to worry about.

The Almighty Dragon General Chapter 3576-James learned about the new universe from Hadad.

A new universe would open the door for opportunities and great boons. There was even a chance for one to become a Macrocosm Ancestral God, which was very tempting.

Becoming a Macrocosm Ancestral God would place one at the pinnacle of strength in the twelve universes.

It was the dream of every cultivator. Only Caelum Ancestral Gods stood a chance to become Macrocosm Ancestral Gods. However, even a peak Caelum Ancestral God would have difficulties becoming a Macrocosm Ancestral God.

To become a Macrocosm Ancestral God, one had to have enough luck.

James began making plans for when he would travel to the new universe.

He wanted to fight the other universes’ prodigies even if he could not seize any boons.

James continued searching for the Ancestral Talisman Master.

At that moment, the Ancestral Talisman Master had returned from Mount Heavenly Path.

He already learned that Hadad planned to send James to the new universe.

In fact, he had been surveilling James’ every move. He knew James had left Mount Heavenly Path and visited Mount Sword God to learn from the Ancestral Sword Master. After that trip, James’ strength had grown significantly.

He was also aware James was looking for him.

However, he did not show up. The Ancestral Talisman Master wanted James to find him through his own efforts.novelebook.com If James failed to do so, it meant they were not fated to meet.

At his rank, he strongly believed in fate.

However, the situation had changed. He had to take the initiative to see James.

James and Melinda found a spiritual mountain within the Talisman Realm. The Primordial Energy there was abundant, and they assumed the Ancestral Talisman Master would stay in such a place.

However, they found no traces of the Ancestral Talisman Master after searching the entire mountain. There was only a sect that did not belong to the Ancestral Talisman Master.

The two chose to leave.

Swoosh!

As soon as they departed, a person appeared before them.

The person looked like to be an elderly man in his sixties. He had black hair and a beard. The man looked graceful, and James could not sense any evil Curse Power on him.

James was ecstatic to see the man before him. "Ancestral Talisman Master!"

He had seen the Ancestral Talisman Master in the Katun Realm before and immediately recognized him.

The Ancestral Talisman Master nodded lightly and said, "Mhm. Come with me."

"Okay!" James nodded happily.

The Ancestral Talisman Master led James away.

James followed closely behind him.

Soon, they arrived at a vast desert. The Primordial Energy in the desert was very scarce and almost non-existent.

After arriving in the desert, the Ancestral Talisman Master casually waved his hand, and a formation shrouded in white mist appeared.

With the Ancestral Talisman Master leading the way, James easily passed through the white mist and the formation.

After passing through the formation, a spectacular view appeared before his eyes.

The palace had towering mountains and clear rivers. The air was also full of Primordial Energy and mysterious inscriptions.

The inscriptions were very magical and contained the supreme Path Energy.

The Ancestral Talisman Master walked ahead and explained, “The Rune Land is a magical place that appeared when heaven and earth were formed. This place contains mysterious runes that record the various Paths throughout the universe. You can find runes related to any kind of Path here.

Surprised, James asked, “Is it really that amazing?”

The Ancestral Talisman Master nodded and said, “Of course. The Rune Land is known as one of the Twelfth Universe’s Ten Holy Lands. It’s not given the title for nothing.”

Melinda also looked around curiously. She could also sense the miraculous runes around them.

Under the Ancestral Talisman Master’s leadership, they arrived at a spiritual mountain. A temple was situated atop the mountain. It looked similar to the building James saw on Galileo the last time he traveled through time.

Back then, James had no idea if he had traveled to the Primeval Age or that the Ancestral Talisman Master had deliberately left behind messages.

Many people could be seen cultivating in a lotus position on the floor with their eyes closed.

The Ancestral Talisman Master led James to the backyard. Then, he offered James a seat in a lounge area.

After James sat down, the Ancestral Talisman Master asked, “Has Lord Hadad come to see you already?”

James nodded. “Yeah. We met very recently.”

The Ancestral Talisman Master said, "If that's the case, you should already know about the new universe that has been born and that every universe will send powerhouses there to seize the boons that will appear, right?"

James replied, "Lord Hadad has already informed me about that. He's planning to send me to the new universe."

The Ancestral Talisman Master had a solemn expression.

"You're indeed a genius that's hard to come by. Your potential is terrifying and unprecedented in the Twelfth Universe's history. You're definitely one of the best. However, our universe is the weakest out of the twelve. Other universes are absolutely horrifying. Their Heavenly Path is very stable, allowing their cultivators to be stronger than ours."

Hadad had already told James about this.

The Ancestral Talisman Master said, "You're not going to be representing yourself but our universe. novelebook.com Regardless of whether you seize anything, you must come back alive. Do you understand? You're the hope and future of the Twelfth Universe."

James nodded.

He intended to do whatever it took to survive.

Suddenly, James thought of something and asked, "By the way, you mentioned that Curse Magic originated from the Eleventh Universe. I learned that the Ancestral Sword Master originated from the Ninth Universe's Lord."

"How is this possible? Did the Macrocosm Ancestral Gods of other universes come to teach the people of the Twelfth Universe?"

James asked the question that had been in the back of his mind.

The Ancestral Talisman Master shook his head slightly and explained, "When our universe was born, powerhouses from the other universes also came to seize the boons that appeared here."

"Whenever a new universe forms, living beings will also be born on it. These living beings are the first lifeforms of the universe."

"The Ancestral Sword Master and I are the first batch of living beings to exist in the Twelfth Universe. Other powerhouses from the other universes came here to find great boons. At the same time, they also sought out a few talented living beings to train. In fact, many of our universe's Supernatural Powers originated from other universes."

James immediately understood after hearing the Ancestral Talisman Master's explanation.

The Ancestral Talisman Master sighed and said, "Our universe's foundation is incredibly weak. When it first formed, many of the Chaotic Treasures were seized by other universes. As a result, our universe's overall strength is much weaker than the others, and it's very challenging for us to improve. Even if we managed to raise our strength, our cultivators would still be much weaker than the other universes' cultivators of the same rank due to the absence of Chaotic Treasures. Our universe's cultivators don't stand a chance against them.

"Chaotic Treasures play a big part in strength. Moreover, our universe is highly influenced by other universes. Thus, it's hard for us to pave our own path and create a unique Supernatural Power of our own.

"The few of us from this universe's first batch of living beings have been working hard. The Five Ancestral Masters have been putting in the most effort to create a unique Supernatural Path and blaze a brand new path."

James nodded lightly. He already knew about these facts.

With their effort, The Five Ancestral Masters successfully created the Elemental Inversion, which he obtained in the future.

The Almighty Dragon General Chapter 3578-The Ancestral Talisman Master explained the history of the Twelfth Universe.

James knew that the other powerhouses had come from other universes to theirs and taken treasures that belonged to them.

Chaotic Treasures could significantly improve one's strength.

From the Ancestral Talisman Master's words, a Macrocosm Ancestral God with one Macrocosm Power that wielded a powerful Chaotic Treasure could fight against a Macrocosm Ancestral God with two Macrocosm Powers.

However, this was only true for powerful Chaotic Treasures.

Regular Chaotic Treasures were not as powerful. For example, the Five Elements of Genesis were relatively weaker Chaotic Treasures.

Macrocosm Power could only be obtained by fusing the five of them. In comparison, novelebook.com other powerful Chaotic Treasures contained their own respective Macrocosm Power.

The Infinity Stele was also a Chaotic Treasure, but James was unsure of its grade.

He had not been focusing on learning the runes on the Infinity Steles. Thus, he could only use them as a defensive shield or heavy weapon in battle.

In thirty million years, James would have to travel to the new universe and compete with the other universes' prodigies over boons. The Infinity Steles would play a crucial part when the time came.

James intended to practice using the Infinity Steles after raising his cultivation rank.

"James."

The Ancestral Talisman Master parted his lips and reminded, "You still have thirty million years. It may seem like a long time, but it'll pass quickly. During this period, you must improve your Path Seals and physical strength as much as possible."

James nodded slightly.

Then, the Ancestral Talisman Master said, "I know you've come to me for guidance in using Curse Magic. I won't hold back any information and will teach you everything I know about Curse Magic. As for how much you can comprehend will be up to you."

James was relieved by the Ancestral Talisman Master's words.

"Let's go. We don't have any time to waste."

The Ancestral Talisman Master got up and walked away.

James followed closely behind him.

On the other hand, Melinda also temporarily settled down in the Rune Land.

In a mountain range of the Rune Land, the Ancestral Talisman Master and James sat in a lotus position on a cliff on the highest mountain. Magical Inscriptions floated in the sky.

The Ancestral Talisman Master said, "The Rune Land is one of the Ten Holy Lands. You can find countless runes here, each containing knowledge of different Paths. Cultivating here will significantly increase your efficiency."

“Many years ago, Hadad also obtained a potent Supernatural Power here before he became the Lord of the Universe.”

The Ancestral Talisman Master’s voice resounded.

James looked around curiously.

Many runes were floating around them. Each of them was different and contained knowledge of a specific Path. The power each rune had was also different.

“After you gain a deeper knowledge of Curse Magic, you can cultivate here for a while. It’ll be beneficial in improving your understanding of other Paths,” said the Ancestral Talisman Master.

The Almighty Dragon General Chapter 3579-James nodded and said, “Alright. Thank you, Sir.”

The Ancestral Talisman Master lightly waved his hand to end the topic. Then, he carried on with the main topic.

“Before you begin cultivating Curse Magic, I’d like to know how much you know about Curse Magic.”

James shook his head lightly and said, “I actually don’t know much. I obtained Curse Inscriptions by coincidence and came into contact with Curse Power. Eventually, I acquired a Jade Seal to suppress the Curse Power into Curse Inscriptions.”

James took out the Jade Seal he obtained from the Apocalypse Age.

The Jade Seal was from Sangria. Potent Curse Power was contained in the Jade Seal, and several inscriptions were carved on it. The inscriptions were the fundamentals of Curse Inscriptions.

Although James spoke of future events, he was very careful with his words and did not bring up major events. Thus, the Ancestral Talisman Master could understand his words.

The Ancestral Talisman Master took the Jade Seal and examined it. He looked at the inscriptions carved on the Jade Seal and said softly, novelebook.com “It’s the fundamental inscriptions of Curse Magic. How did you obtain the Jade Seal?”

James replied truthfully, "You left this behind. I'm not from this age and actually came from the future."

The Ancestral Talisman Master was not surprised by his words. He was already suspicious about the possibility because he could not find any information about James after trying to divine his background.

The Ancestral Talisman Master did not ask any more questions, not even the reason James came to their age or what happened in the future. Despite not inquiring anything, the Ancestral Talisman Master was sure he would create the Jade Seal soon and pass it down. Eventually, James would obtain it.

He began to explain, "Curse Inscriptions aren't from our universe. They're mysterious inscriptions that appeared when the Eleventh Universe was born.

"When we met, you displayed your Curse Ousia and asked me a few questions. After I returned home, I went to investigate and specifically went to the Eleventh Universe to ask my teacher about it.

"Eventually, he told me some secrets. Curse Inscriptions originated from the Dark World.

"The Dark World is vast and boundless. It's assumed that the Dark World's total area is equal to that of the twelve universes. Everything that happens in the Dark World directly affects our universes.

"I don't know much about the details either. They might be too complicated for you, so I won't explain it now."

James was not surprised. He already suspected Curse Magic came from the Dark World.

"Alright. Let's get back to business."

The Ancestral Talisman Master said, "Among the twelve universes, a few were formed with the intervention of the Dark World. The Eleventh Universe is one of them. The Dark World was the reason the Eleventh Universe was formed. Back then, a powerhouse from the depths of the Dark World passed on Curse Inscriptions to the Eleventh Universe."

Hearing this, James was startled.

"Is the Dark World that strong? They can even intervene and cause a universe to form?"

The Ancestral Talisman Master shook his head lightly and said, "Actually, that's not the case. A universe is born from a Macrocosm Core, which only exists within the Chaos. It takes a very long time for Macrocosm Cores to form.

"A powerhouse from the Dark World found a Macrocosm Core that had not matured and used its power to accelerate its growth. He wanted to obtain the Chaotic Treasure that would appear when the universe was born."

Enlightened, James said, "So that's how it is."

James thought he was already a powerful cultivator that knew a lot about the universe. However, as he grew stronger, he gradually realized how little he knew.

The twelve universes, the Dark World, and the boundless Chaos.

There were so many more mysteries.

However, James believed he would become a very powerful man in the future and understand the essence of the world.

The Almighty Dragon General Chapter 3580-The Ancestral Talisman Master briefly introduced the origin of Curse Magic.

"Curse Magic is all-encompassing. After you cultivate Curse Magic, you can cultivate Curse Power. Within these Curse Inscriptions, you'll be able to find countless Supernatural Powers. However, you'll need a deep understanding of Curse Inscriptions to learn them.

"What you need to do now is not to comprehend these supernatural powers but to comprehend the fundamentals of Curse Magic and the Curse Path to enhance your Curse Path Seal's Power.

James nodded lightly and said, "Please advice me, Sir."

The Ancestral Talisman Master said, "The essence of Curse Magic is evil and terrifying. According to my teacher, Curse Magic originated from the Dark World and is a Secret Art used to control evil spirits."

"What is the essence of curses?"

"Curses are basically spells.

“If you practice Curse Magic to the highest level, you’ll be able to pass through time and space to kill your enemy. Even if you’re separated by a great distance or time spanning years, you can still use Curse Magic to kill someone.”

The Ancestral Talisman Master’s expression became solemn.

“It’s impossible to distinguish whether a Supernatural Power is bad or evil. It really comes down to the user’s character. If you’re a rightful person, an evil Supernatural Power won’t be used for wicked purposes.”

The Ancestral Talisman explained the nature of Curse Magic.

Curse Magic was terrifying.

As the Ancestral Talisman Master said, one with a high understanding of Curse Magic could easily kill an enemy regardless of whether they were separated by time or space.

Curse Magic could destroy an entire world instantly.

It was not an exaggeration.

James sat on a cliff in a lotus position on the back mountain of the Rune Land. Several mysterious inscriptions surrounded him.

The inscriptions were black and exuded a black glow.

The black inscriptions were made up of some black mist. The shape of the inscriptions was very strange. It seemed like random scribbles that were constantly changing every moment. James found it very bizarre.

“This is the fundamental Curse Inscriptions.

“There are four core inscriptions, each of which has infinite variations and can change into countless words.

“Relax and empty all your thoughts. Forget about everything you’ve learned in the past.”

The Ancestral Talisman Master began to guide James.

James followed his instructions. He slowly cleared his mind of thoughts.

At that moment, his mind was completely blank.

Suddenly, several mysterious words emerged in his mind. He could sense the changes in the words and the meaning of each word.

At that moment, the Ancestral Talisman Master's voice resounded in his mind.

"Although the four Curse Inscriptions have infinite variations, their changes follow a pattern. They change in accordance with the world's rules. Sensing Curse Inscriptions is like sensing everything throughout the world."

The Ancestral Talisman Master's voice was very soft, but James could hear every word.

At that moment, James sensed the change in the first inscription. The inscription had thousands of variations in a short moment, each with a different meaning.

Suddenly, a scene appeared in James' mind.

He saw a lively and beautiful world.

The world in his mind was full of vitality.

However, Curse Power descended, and the vibrant world was destroyed instantly. Then, it disappeared into nothingness.

"This is the nature of curses."
