

Read The Almighty Dragon General Chapter 3771

The Almighty Dragon General Chapter 3771-James was completely unaware the First Universe had already sprung into action.

The Omnipotent Lord had also made a plan to conquer the Twelfth Universe. However, the Twelfth Universe was relatively weak. Therefore, he did not take them too seriously and sent the Sixth Universe's Macrocosm Ancestral God.

He planned to kill Radomir and replace the Twelfth Universe's Lord with someone else.

Meanwhile, James had settled down in a remote spiritual mountain in the Human Realm's Divine Dimension while waiting for the Sixth Universe's Macrocosm Ancestral God to appear.

James used a fake name, Forty-nine, to kill a Caelum Ancestral God from the Sixth Universe. He knew that the Sixth Universe would not let the matter go.

Moreover, he also severely injured Yermolai, who was from the First Universe.

Yermolai must have already returned to the First Universe and reported the incident to the Omnipotent Lord.

The Omnipotent Lord would not look past the matter and would definitely intervene. Even if he did not personally take action, he would send a subordinate to the Twelfth Universe to investigate the situation.

James waited on the spiritual mountain for the other universe's Macrocosm Ancestral God to appear. He planned to kill whoever showed up in exchange for short-term peace in the Twelfth Universe. As long as the Twelfth Universe had some time in peace, a group of powerhouses would surely rise.

By then, the Twelfth Universe's overall strength would have improved, and they would not have to fear the other universes.

Meanwhile, a middle-aged man silently appeared in the Chaos outside of the Twelfth Universe. He wore a gray robe and had an average-looking appearance.

Many people were following behind him.

The middle-aged man was Santino Hiram, a Macrocosm Ancestral God from the Sixth Universe.

Santino was a Three-Power Macrocosm Ancestral God and was very powerful.

"Grand Patriarch, that's the Twelfth Universe, where Tauren died.

“According to reliable sources, the person that killed him is called Forty-nine. However, his origins are a mystery. It’s unknown whether he’s from the Twelfth Universe or if he’s another universe’s living being that meddled in the Twelfth Universe’s affairs.”

A man behind Santino spoke and briefly explained the details of Tauren’s death in the Fiend Realm.

“Also, I’ve received information from our spies that a Caelum Ancestral God from our universe has escaped from the Heavenly Court of the Twelfth Universe’s Human Realm. It seems there’s a peerless powerhouse among them.”

Santino was unaware of the Twelfth Universe’s situation.

However, many of the Sixth Universe’s living beings had entered the Twelfth Universe. Thus, it was easy for them to collect information inside the Twelfth Universe.

“The Twelfth Universe’s Lord is called Radomir. He lives in seclusion in a place called Mount Heavenly Path. He carried out a series of plans and led the Twelfth Universe into a bright era. According to reliable sources, he’s a Macrocosm Ancestral God with only one Macrocosm Power.”

Santino silently listened to the reports.

The powerhouse in the Human Realm’s Heavenly Court was not a big deal to him. Not even Radomir posed a threat against him.

His main concern was Forty-nine.

“You guys stay here for now. I’ll enter the Twelfth Universe and talk to Radomir about merging the twelve universes. If he refuses, I’ll kill him and overtake him.

“As for the living beings in the Twelfth Universe, I’ll announce the news to them after I’ve settled things with Radomir. If anyone opposes the idea, you guys can enter the Twelfth Universe and kill them.”

“Understood.”

A loud and organized reply resounded from behind him.

Santino stayed no longer and disappeared from the Chaos in a flash. The next moment, he was already inside the Twelfth Universe.

He appeared in the Twelfth Universe’s starry space and sensed the universe’s stability. He could not help but marvel and murmured, “I never expected the Twelfth Universe’s Heavenly Path to have become so stable after being suppressed for so long. Their Heavenly Path is almost comparable to the First Universe’s now.”

Read The Almighty Dragon General Chapter 3772

The Almighty Dragon General Chapter 3772-Santino was surprised by the Twelfth Universe's stability, which was comparable to that of the First Universe.

He suddenly realized why the First Universe was worried about them. With such a stable Heavenly Path and their abundant luck, many great powerhouses would surely rise in the Twelfth Universe sooner or later.

Santino quickly moved through the space.

Soon, he arrived outside the Human Realm.

Mount Heavenly Path was very well known in the Primeval Age. However, it was slowly forgotten over time. Only a handful of people in the Twelfth Universe remembered it.

Radomir had isolated Mount Heavenly Path, preventing others from finding the place.

However, Santino was a Three-Power Macrocosm Ancestral God and could sense Mount Heavenly Path's location.

After appearing in the Human Realm's Divine Dimension, he quickly made his way to Mount Heavenly Path. Outside Mount Heavenly Path was a powerful formation, isolating its aura and making it seem like an ordinary place.

Although there were humans around the area, they were not very strong.

Meanwhile, Radomir sat in a lotus position on a certain spiritual mountain within Mount Heavenly Path. He suddenly opened his eyes and looked outside Mount Heavenly Path.

Santino walked toward Mount Heavenly Path, stood before the formation, and inspected it. Then, he stretched out his hand and lightly tapped on it. A powerful force emerged from his fingertip and spread out like water ripples.

His force submerged into the formation and began to disintegrate it.

He easily broke through Radomir's formation.

After the formation was dissolved, he appeared where Radomir was cultivating in a flash.

Radomir stood up and stared at the unexpected visitor in Mount Heavenly Path.

For the person to break his formation effortlessly, he had to be someone of a higher cultivation rank. Radomir knew there was no one stronger than him in the Twelfth Universe. That meant the intruder was from another universe.

“Who are you?”

Radomir stared at Santino and asked warily, “What brings you to the Twelfth Universe’s Mount Heavenly Path?”

“Haha,” Santino chuckled lightly and said, “You don’t have to be nervous. I don’t have any malicious intentions. Otherwise, I would’ve razed this place to the ground upon arriving. I wouldn’t be standing here trying to communicate peacefully with you.”

Despite his reassuring words, Radomir did not feel relieved.

Santino said, “I’m from the Sixth Universe, and my name is Santino. I came to the Twelfth Universe mainly to convey a message from the Omnipotent Lord.”

Radomir asked, “What message does he have for me?”

Santino replied smilingly, “It’s about the twelve universes. The Omnipotent Lord wants to merge the twelve universes into a Supreme Universe.”

“He wants to merge the twelve universes?”

Radomir was startled.

Santino said, “That’s right. Our universes have a common enemy—the Dark World. We can only form a more potent Heavenly Path by merging the twelve universes. By doing so, we can break the Heavenly Path’s current restrictions and create powerhouses that can rise beyond the Macrocosm Ancestral God Rank.”

Santino relayed the Omnipotent Lord’s message.

Radomir fell into thought. ‘He wants to merge the twelve universes?’

He had never thought of such a thing before, nor could he have expected the First Universe to make such a proposal.

Santino noticed Radomir’s hesitation and attempted to persuade him. “Merging the twelve universes will bring about many benefits. Not only will it be advantageous for you, but it’ll also benefit all the Twelfth Universe’s living beings.

“The Omnipotent Lord has promised to leave you in control of the Twelfth Universe’s territories after the fusion. He won’t interfere with the areas under your jurisdiction, giving you complete control.”

Radomir said calmly, “This is a very serious matter. I need some time to think about it.”

Santino said smilingly, "There's no rush. I'll give you some time to consider. By the way, is there a person called Forty-nine in the Twelfth Universe?"

Read The Almighty Dragon General Chapter 3773

The Almighty Dragon General Chapter 3773-"Forty-nine?" Radomir was puzzled.

"Who's Forty-nine? I've never heard of him before."

Radomir shook his head.

He was indeed clueless about Forty-nine.

Although he was the Twelfth Universe's Lord and was supposed to know everything about their universe, he knew nothing about Forty-nine.

"You don't know him?" Santino frowned.

He obtained reliable information that Forty-nine had killed his disciple in the Twelfth Universe's Fiend Realm.

Radomir, the Twelfth Universe's Lord, should have known about Forty-nine since he appeared in the Twelfth Universe. However, Radomir claimed to know nothing about this person. Santino felt that Radomir was deceiving him.

"Since you know nothing, I'll look into him myself. I ask for your forgiveness in advance for causing a commotion in the Twelfth Universe."

Santino expressed his intention to stir up some trouble in the Twelfth Universe.

Radomir remained silent.

Santino's cultivation rank was higher, and he was stronger. Thus, Radomir did not dare to oppose him.

After the brief conversation, Santino left.

Radomir's expression immediately became solemn after Santino left. He murmured, "What is the First Universe trying to achieve by merging the twelve universes?"

Radomir knew he could do nothing to prevent the merging of the twelve universes with his current strength. Any other Macrocosm Ancestral God from the other universes would be much stronger than him.

He could only leave the matter to the other Universe Lords. If they agreed to the proposal, it would be pointless for him to oppose.

Santino left Mount Heavenly Path and headed to the Fiend Realm.

He quickly traveled through the void of the Fiend Realm's Divine Dimension. Then, he appeared at the Supreme Fiend Palace's gate in the blink of an eye.

Many powerful fiends were alerted when they sensed him and quickly gathered at the Supreme Fiend Palace's gate.

These fiends were fully armed and stared at the unexpected visitor warily.

One of the Fiend Race's powerhouse asked, "Who might you be, Sir? What's the purpose of your visit to the Supreme Fiend Palace?"

Santino looked at him calmly, smiled, and asked, "Is the Fiend Realm's Lord here? Ask him to come speak to me."

Santino was relatively polite, wanting to use peaceful means before resorting to force.

At that moment, a middle-aged man appeared.

It was the Supreme Fiend Lord.

The Supreme Fiend Lord looked at the middle-aged man at the palace gate. He clasped his hands and said, "I'm the Fiend Race's Lord. May I ask for your name?"

Santino looked at the Supreme Fiend Lord and replied lightly, "It doesn't matter who I am. I came here today to inquire about someone."

Santino was a Three-Power Macrocosm Ancestral God. In his eyes, the fiends around him were like ants. If he wanted, he could destroy the entire Fiend Realm with the snap of a finger.

However, his goal was not to destroy the Fiend Realm.

His main priority was to take control of the Twelfth Universe.

His greatest enemy was not the Twelfth Universe's Lord but the mysterious man called Forty-nine.

According to information from the First Universe, Forty-nine was a powerful cultivator that easily defeated Yermolai, who had a Chaotic Treasure.

Therefore, Santino did not want to act rashly until he learned more about Forty-nine.

The Supreme Fiend Lord asked, "Who are you looking for?"

Santino went straight to the point and said, "Forty-nine."

Read The Almighty Dragon General Chapter 3774

The Almighty Dragon General Chapter 3774-As soon as the Supreme Fiend Lord heard Forty-nine being mentioned, he immediately understood the person before him was related to Tauren and had come to seek avenge.

Tauren was already an existence way above him, so the person in front of him now was definitely a formidable powerhouse.

The Supreme Fiend Lord did not know anything about Forty-nine. In fact, he was also curious about him.

"I don't know him."

"You don't know him?"

Santino's expression changed, and a terrifying force erupted from his body. The force caused a tremor throughout the Fiend Realm.

The Fiend Realm seemed as if it could perish any moment.

The Supreme Fiend Lord and the other powerful fiends did not dare to move under the oppressive force, fearing that their bodies would be ripped apart.

Meanwhile, James was cultivating somewhere on a spiritual mountain of the Human Realm's Divine Dimension.

He sat in a lotus position, and a magical force formed by the fusion of his various powers emerged from his body.

James wholeheartedly immersed himself in understanding the nature of his new power. Only after learning more about it could he determine if it had the potential to evolve further.

He focused on studying the force inside a Time Formation.

During this period, he discovered the wonders of the power inside his body.

The power consisted of all the previous powers he had cultivated.

Additionally, a few Macrocosm Powers could be sensed in his new power.

He fell into thought and murmured, "If I continue to cultivate more Macrocosm Powers and integrate them into this new power, would it eventually become Chaos Power?"

James was still unable to understand the true nature of the power in his body.

He gave up studying it and began to comprehend the Omniscience Path.

The Omniscience Path was said to be capped at the Third Stage. Once one reached the Omniscience Path's Third Stage, the potential of one's body would be released, and it would be impossible to progress further in the Omniscience Path.

However, James consumed countless Macrocosm Herbs during the fight in the new universe in the Primeval Age. As a result, the power of these herbs combined into a potent force and integrated into his body. His Path Seals were also shattered, causing his powers to scatter throughout his body. His body was stimulated, and more of his potential was unlocked.

After the series of events, he stepped into the Omniscience Path's Fourth Stage.

"Theoretically speaking, I can keep making breakthroughs in the Omniscience Path if there is power in my body, flesh, and bones. However, I consumed countless Macrocosm Herbs, and their powers integrated into my body. Their powers nourished my body and unlocked the potential in my body.

"There aren't any stronger herbs than Macrocosm Herbs in the universe. Even if I were to find Macrocosm Herbs now, they wouldn't be strong enough to stimulate my body to unlock more potential.

"Huff." James sighed.

James was clueless about the new power in his body and was unsure of how he could enhance it.

Meanwhile, the Omniscience Path was rumored to be a dead end at the Third Stage. He only advanced into the Fourth Stage by coincidence.

He was really at a loss. No one could guide him further, and he was left to figure things out himself.

James stopped cultivating, looked in a certain direction, and immediately sensed the situation of the Fiend Realm. He quickly stood up, stretched his body, and murmured, "He's finally here. I'll get to fight today. I hope my opponent is powerful so I can test out the limits of my strength."

James did not know how strong he was. During his fight against Radomir, he speculated he was only slightly stronger than Radomir.

After fighting Yermolai, he felt like he underestimated himself and was much stronger than Radomir.

He did not exert his full strength when fighting against Yermolai.

This time, he wanted to go all out in battle.

James' body disappeared in a flash. The next moment, he appeared in the Fiend Realm.

At his current strength, he could easily travel anywhere in the universe with just a single thought.

Read The Almighty Dragon General Chapter 3775

The Almighty Dragon General Chapter 3775-"I'm Forty-nine."

Just as the Supreme Fiend Lord and other powerful fiends were being oppressed by the terrifying pressure in the Fiend Realms' Supreme Fiend Palace, a sudden voice resounded throughout the area.

Shortly after, a figure appeared out of thin air and stood before Santino at the palace gate.

Santino immediately fixed his eyes on James and tried to see through James.

However, Santino could not seem to detect anything from James. His body was empty, and it looked like he did not exist.

Santino was puzzled and could not understand why he could not detect anything. He could not even sense James' exact cultivation rank.

His brows immediately furrowed.

However, he immediately remembered he was in the Twelfth Universe, the weakest of all the universes. Even if James was powerful, he could not be stronger than him.

Moreover, his main purpose was simply to find out the identity of Forty-nine and how strong this person was.

Santino's face darkened, and he asked coldly, "Were you the one that killed my disciple?"

James replied calmly, "That's right. I killed him."

Santino said furiously, "Didn't you know he's from the Sixth Universe? I'll have you pay for killing him."

James had intentions of fighting Santino from the start.

He said smilingly, "Sure. Let's take this fight to the Chaos. If you can defeat me, I'll accept whatever punishment you have for me."

James did not want to fight in the Twelfth Universe.

After all, Santino was a Macrocosm Ancestral God. Although James did not have a cultivation rank, he was also powerful. If they were to engage in a fierce battle, they could destroy the Twelfth Universe.

Santino was aware peerless powerhouses generally fought in the Chaos.

Macrocosm Ancestral Gods were too strong, and no universe would be able to withstand their attacks.

"Sure." Santino's face was grim.

After accepting the challenge, he disappeared in a flash.

James also left the Supreme Fiend Palace.

After the two left, the Supreme Fiend Lord and the other fiends were relieved of the powerful pressure.

The Supreme Fiend Lord wiped the beads of sweat rolling down his forehead and said, "He's so powerful."

The Chaos outside the Twelfth Universe was a dark gray void.

No Paths existed in the Chaos, but a mysterious force formed a terrifying pressure. It was also known as Chaos Pressure.

At that moment, Santino no longer seemed like an ordinary person but a powerhouse with potent energy.

"Who exactly are you? Since when have a powerhouse like you existed in the Twelfth Universe?"

Santino stared at James.

He was probing, trying to figure out James' origin.

"Hehe." James chuckled.

"You don't have the right to know. Go ahead and strike. I'm curious how strong a Macrocosm Ancestral God from the Sixth Universe is."

“As you wish.”

Santino also wanted to test James’ strength.

He did not hold back and mobilized all his strength. His aura skyrocketed, and it began to affect the surrounding space of the Chaos, causing it to look illusory and unstable.

At that moment, a magical power emerged from the Chaos and stabilized the space.

Read The Almighty Dragon General Chapter 3776

The Almighty Dragon General Chapter 3776-The Chaos was a magical place, and no force could destroy it.

Similar to the universes, the Chaos also had a Heavenly Path that secretly protected it.

The Chaos’ Heavenly Path was definitely a terrifying existence.

The Chaos was vast and boundless. Even a Macrocosm Ancestral God would not be able to find the boundaries of the Chaos. Although universes were huge, they had boundaries.

Santino emitted powerful energy. His face was grim and terrifying, making him seem like an unrivaled demon.

He did not give James any chances. He appeared in front of James in a flash and raised his hand to unleash a powerful power. Then, he thrust his hand at James.

James did not block it.

He floated in the Chaos and allowed Santino to attack him.

Boom!

Santino slammed his palm into James.

His attack contained three Macrocosm Powers. Upon impact, a loud sound resounded like rumbling thunder.

James remained in place, and some cracks formed in the Chaos’ space behind him.

However, the cracks did not spread out.

Previously, when he entered the Omniscience Path’s Third Stage, his physical body was comparable to that of an Ancestral God.

Now that he was at the Omniscience Path's Fourth Stage, his physical body was even more potent. Moreover, he had been in a tomb for over ten Epochs after he was severely injured, and the power in his body had been nourishing his physical body.

James knew his physical strength was potent but was unsure of its full capacity.

He wanted to test the limits of his physical strength.

James felt a terrifying force sweeping toward him when Santino attacked. The force permeated his body from his chest, and it felt like he was being electrocuted.

In the beginning, James was motionless after the attack. However, his body began to tremble as the force pervaded his body, and injuries began to form on the surface of his body.

These injuries spread all over his body, and he began to bleed.

His body was blasted away, and he spat a mouthful of blood. His blood dripped into the Chaos' space.

James' blood contained potent force and caused the space to shake.

He quickly backed into the distance, wiped the blood from his lips, and thought, 'I sense three Macrocosm Powers. This man is a Three-Power Macrocosm Ancestral God. Although I was injured by his attack, I could still withstand it without exerting any of my strength.'

After one move, James had an understanding of his physical strength.

With his current physical strength, a Two-Power Macrocosm Ancestral God would not be able to hurt him. Only a Three-Power Macrocosm Ancestral God could inflict damage on him.

James urged his power, and the injuries on his body healed. He looked at the grim Santino and said smilingly, "Is that all a Three-Power Macrocosm Ancestral God has? If that's all you've got, the Chaos here will be your grave."

After speaking, James slowly walked toward Santino.

"That's insane. How does he have such a strong physical body? That's impossible. It's almost unbelievable."

Santino's expression changed.

The highest one's physical strength could reach was the Ancestral God Rank.

Even after practicing the Omniscience Path, one would still only be able to reach the Ancestral God Rank. After that, it was impossible to improve one's physical strength further, no matter what kind of Supernatural Power or Secret Art one mastered.

That was a known fact.

Santino was not expecting Forty-nine's physical strength to be so terrifying that he could even resist an attack from him and not die.

James walked toward Santino step by step, and Santino slowly backed away.

At that moment, he had the idea of fleeing. However, he remembered his purpose of coming to the Twelfth Universe and stopped in his tracks. A dazzling glow appeared before him and turned into a sword.

The sword was two meters long and had a sharp blade. Its blade glowed and exuded terrifying power. At a glance, James could tell it was a Chaotic Treasure.

Santino held the long sword, and his aura grew stronger. He charged at James with a ferocious expression.

He appeared in front of James in a flash and slashed his sword.

Read The Almighty Dragon General Chapter 3777

The Almighty Dragon General Chapter 3777-Everything happened in the blink of an eye.

Before the sword struck James, a terrifying Sword Energy emerged and slashed at him.

James stood in place motionless. Faced with the terrifying Sword Energy, a mysterious power erupted from his body and formed a faint halo around him to block the Sword Energy.

Santino's sword was also about to slash him.

James raised his hand, and a powerful force appeared from his palm to block the move.

Santino immediately increased his force.

The sudden increase in strength surprised James, and he could not react in time. The force crushed him. He fell downward, and after descending a certain distance, he increased his strength. With a wave of his hand, a terrifying power formed into a beam of light and shot at Santino.

Santino was blasted by the light beam.

James took the opportunity to attack. He flashed behind Santino and thrust his hand forward. His attack looked gentle but contained mighty strength.

Santino made a sharp turn and slashed his sword.

Swoosh!

A burst of Sword Energy shot out.

James raised his hand, and a powerful force emerged from his palm to block the Sword Energy. His destructive force caused the Sword Energy to shatter and disappear into the Chaos.

James fought very calmly.

On the other hand, Santino was fighting with all his strength.

He wielded a Chaotic Treasure and unleashed his three Macrocosm Powers. Unexpectedly, he was not dealing any substantial damage to James. After fighting for a while, he quickly recognized how strong James was.

Throughout the fight, James was trying to gauge Santino's strength.

After a few confrontations, he had a rough idea of his current strength.

Santino was a Three-Power Macrocosm Ancestral Gods with a Chaotic Treasure. Thus, his strength was equivalent to that of a Four-Power Macrocosm Ancestral God.

Faced with Santino's attacks, James was relatively calm and did not have to use full strength. Thus, James guessed his full power would probably be on par with a Five-Power Macrocosm Ancestral God.

Even if he were not a match against a Five-Power Macrocosm Ancestral God, he would only be slightly inferior to them.

If he entered the Omniscience Path's Fourth Stage, his strength would improve again. He might even be able to take on a Six-Power Macrocosm Ancestral God.

After understanding his own strength, James felt there was no need to continue the battle. He wanted to end the battle as soon as possible.

Santino shouted furiously, "Damn it."

With a flash, countless shadows appeared across the Chaos.

Each of them held a long sword and charged at James from different directions.

James calmly unleashed the mysterious power in his body to block the attacks. His destructive power caused the surrounding Sword Energies to shatter, and the shadows also plummeted.

Soon, Santino was left alone.

James appeared before Santino in a flash.

Santino did not dodge. He raised his Chaotic Treasure to block James' attack. He planned to use the Chaotic Treasure to severely injure James.

James attacked with his palm, and Santino attacked with a sword.

Their forces clashed.

Boom!

An explosion burst out in the Chaos' space.

Santino was shocked by the force, and a mouthful of blood spewed out of his mouth. James' body disappeared from sight. The next moment, he appeared above Santino. A miraculous force appeared from his palm and slashed down at Santino's head.

Read The Almighty Dragon General Chapter 3778

The Almighty Dragon General Chapter 3778-James wanted to end the battle, so he used all his strength in this attack.

His attack contained the fusion of all his previous Powers.

Santino wanted to escape but felt a horrifying pressure on his body. He was slowed down and could not dodge James' speedy attack.

Left with no choice, Santino raised his Chaotic Treasure to block the attack.

He held up the long sword and poured all his strength into the sword.

His sword immediately became brighter, and powerful Sword Energy emerged, spreading out like water ripples.

James used his strength. The Sword Energy could not resist his attack and was shattered instantly.

James' palm attack struck Santino's head.

Santino's body was crushed instantly.

The Chaos was boundless, and it was impossible to distinguish directions.

Santino's body kept descending into the Chaos.

He used all his strength to resist, but even his three Macrocosm Powers could not resist James' attack. James' force permeated his body and began destroying his cells. Soon, his soul also began to disperse under James' destructive power.

"Argh! No..."

Santino shouted in fear.

Shortly after, he vanished into the Chaos.

A Three-Power Macrocosm Ancestral God was killed so easily in the Chaos.

Santino's disciples were on standby in the distance. They knew Santino had come to fight in the Chaos and were secretly watching the battle. After witnessing Santino's tragic death, they were terrified and fled from the scene.

The Twelfth Universe's Lord, Radomir, also came to the Chaos and watched the battle at the border of the Twelfth Universe.

James had changed his appearance, so even Radomir could not recognize him.

After watching Santino's death, Radomir took a deep breath.

"Who is this guy? When did a powerhouse like him exist in the Twelfth Universe?"

Even though Radomir was the Twelfth Universe's Lord, he had no idea who Forty-nine was.

After James killed Santino, he looked in the direction Santino disappeared and murmured with a smile, "He was so weak."

He floated over and looked at the sword in the Chaos.

The sword left by Santino was a Chaotic Treasure.

James looked at the sword in his hand. It had a white blade with mysterious inscriptions engraved on it. The sword emitted very potent power.

"It's a great Chaotic Treasure. However, it's useless to me."

He looked toward the direction of the Twelfth Universe and murmured, "I'll leave the Twelfth Universe's living beings a chance to obtain it. It'll be up to their fate and luck."

James casually waved his hand, and the Chaotic Treasure flew out and fell into the Twelfth Universe.

When James was about to leave, a person approached him.

It was Radomir.

Radomir looked at James' unfamiliar appearance. He clasped his hands and asked, "I'm Radomir, the Twelfth Universe's Lord. May I ask for your name?"

Read The Almighty Dragon General Chapter 3779

The Almighty Dragon General Chapter 3779-James smiled faintly and said, "My name is Forty-nine."

Radomir frowned and asked, "Forty-nine? Are you from the Twelfth Universe?"

James did not answer him. Instead, he asked, "Has this person from the Sixth Universe come to see you?"

Radomir nodded and said, "Yeah."

Intrigued, James asked, "Oh? What did he say to you?"

Radomir replied truthfully, "He conveyed a message from the First Universe's Lord. The Omnipotent Lord wants to merge the twelve universes into a Supreme Universe."

Hearing this, James looked solemn.

James already knew the First Universe wanted to merge the other universes into one.

However, he felt it would be hard for them to accomplish their plan as the other universes would never allow it. He never expected the First Universe to have already started implementing their plan.

They had already sent a Macrocosm Ancestral God from the Sixth Universe to the Twelfth Universe to relay the message. That meant the other Universe Lords were also informed about this matter.

'What should I do about this?' James fell into thought.

He already had an understanding of his own strength.

James was powerful, and ordinary Macrocosm Ancestral Gods were no match for him. However, his opponent would be the First Universe. The First Universe was the oldest universe in existence, and it had countless powerhouses.

If he were to stand against them, he would not be able to fight all of the Macrocosm Ancestral Gods of the First Universe.

“What should we do now, Sir?” asked Radomir.

Even though he was the Twelfth Universe’s Lord, James was a powerful cultivator. Thus, he wanted to seek James’ opinion on the matter.

James snapped out of his thoughts, looked at Radomir, and asked, “What do you plan to do?”

After a brief thought, Radomir said, “The living being you killed told me that merging the twelve universes would form a complete and even more powerful Heavenly Path. As a result, the current restrictions of our Heavenly Paths would be broken, and our powerhouses might be able to reach an unprecedented cultivation rank, which would give us the strength to fight against the Dark World.

“He also said we could create an entirely new universe, opening up even more opportunities and boons, which would benefit the Twelfth Universe.

“However, I think the current situation of the Twelfth Universe is pretty good. We’re currently in a prosperous era. Even if we were to merge, I want to buy more time for our powerhouses to rise before doing so. If we can increase our overall strength, we can negotiate more benefits from the fusion.

“Since I can’t stop it from happening, I’ve no choice but to agree. However, I’ll strive to obtain more benefits for us.”

Radomir expressed his thoughts.

After hearing his opinion, James fell into thought.

He had already reached the limit of his cultivation rank and would need to explore his future paths alone.

If the twelve universes were to merge, new opportunities and boons might appear, allowing him to walk an unprecedented path. Perhaps, he could even comprehend Chaos Power and even step into a higher stage in the Omniscience Path.

After briefly thinking about it, James felt there was no harm in merging their universes.

James nodded lightly and said, “Mhm. You don’t have to worry about it for now. We’ll think about it after the First Universe sends another person to the Twelfth Universe to discuss this matter.

“After this fight, the other universes’ powerhouses who’ve come to the Twelfth Universe would not dare to cause trouble. The Twelfth Universe will be peaceful for a while.”

James left a few words behind before disappearing and returning to the Twelfth Universe.

Radomir watched as James disappeared and murmured puzzledly, “He sure is terrifying. He easily killed a Three-Power Macrocosm Ancestral God with a Chaotic Treasure. Who exactly is he? What’s his cultivation rank? When did someone like him appear in the Twelfth Universe?”

Radomir racked his brains but could not figure out who Forty-nine was.

Read The Almighty Dragon General Chapter 3780

The Almighty Dragon General Chapter 3780-James killed a Three-Power Macrocosm Ancestral God from the Sixth Universe.

After the battle with Santino, James gained a general understanding of his own strength.

He was satisfied with his current strength. In the Twelfth Universe, very few people could defeat him.

As for the merging of the twelve universes, James felt it was not really a bad thing if it did not have any bad effect on the Twelfth Universe’s living beings.

James returned to the Twelfth Universe, headed to an unnamed spiritual mountain in the Human Realm’s Divine Dimension, and began cultivating.

This time, he mainly focused on his future path.

Meanwhile, a few commotions erupted in the different universes.

The First Universe had sent many envoys to persuade the other universes’ Macrocosm Ancestral Gods of the various benefits of merging their universes.

More than half of the Macrocosm Ancestral Gods agreed to the proposal. However, there were a few opposing voices. The universes that disapproved were thrown into turmoil. A few Caelum Ancestral Gods died out of the blue, and a few Macrocosm Ancestral Gods were injured.

All these universes knew it was the First Universe’s doing, but they had no proof.

They had no choice but to agree to the proposal after seeing the chaos their universes were thrown into.

In the First Universe, the Omnipotent Lord sat in the main hall of a palace in the Ancestral Holy Site. A man who looked about thirty years old stood below him. The man wore a golden robe and radiated a very extraordinary aura.

The man was the Sixth Universe's Lord, Lishai Baishan.

"Omnipotent Lord."

Lishai personally came to the First Universe to see the Omnipotent Lord. With a solemn expression, he said, "I sent Santino to the Twelfth Universe, but he was killed."

The Omnipotent Lord's face darkened, and he asked, "Killed? What happened?"

Lishai replied, "After receiving your order, I tasked Santino to the Twelfth Universe to overtake their Universe Lord. The Twelfth Universe's Lord was not the biggest threat. Instead, it was Forty-nine. He's incredibly powerful and a huge problem. According to Santino's subordinates, their battle only lasted a short while. Santino even wielded his Chaotic Treasure but did not stand a chance against Forty-nine."

The Omnipotent Lord's expression darkened.

He knew of Santino's strength. Santino was a Three-Power Macrocosm Ancestral God and had a Chaotic Treasure. His strength was equivalent to a Four-Power Macrocosm Ancestral God.

However, he was killed so easily. It was unimaginable how strong Forty-nine was.

"What should we do now, Omnipotent Lord?" asked Lishai.

The Omnipotent Lord thought for a while and said, "You head back first. I'll handle this matter."

"Alright." Lishai turned around and left.

The Omnipotent Lord also left the hall and went to see Mirabelle.

Mirabelle was also a Macrocosm Ancestral God and a core figure of the First Universe. Even though she was not the Universe Lord, her strength was not inferior to the Omnipotent Lord's.

Mirabelle and the Omnipotent Lord met up in a gazebo. Their surrounding environment was rather elegant.

Mirabelle wore a white and sheer dress, which vaguely exposed her perfect body. She looked very alluring. She smiled beautifully and said, "Things are going pretty smoothly."

As for those that didn't agree, they quickly changed their mind after we caused a bit of turmoil in their universe."

The Omnipotent Lord was aware of their plan's progress.

"I didn't come to discuss the merging progress with you. It's about something else."
