The Almighty Dragon General Chapter 3801-Without James' help, she would have still been under the corruption's influence. Without James' Curse Magic, she would not have perfected her cultivation method nor accomplished her achievements today. So, James' demise had a huge effect on her. She had to avenge him, and the First Universe must be destroyed.

"Make preparations. Once I give the order, we will attack the First Universe."

Sienna's voice boomed. Then, she turned to leave and arrived at a manor in the mountain. The moment she reached the manor, there were a few living beings outside the gates. They were all powerful Lords who held a high status in the depths of the Dark World. However, as they were defeated by Sienna, not to mention that their subordinates were almost completely wiped out, they had no choice but to follow Sienna's orders.

"Come in and speak."

Sensing the presence of these individuals, Sienna said. Then, four Lords entered the manor. They were all above the Five-Power Macrocosm Ancestral God Rank and were once the sovereign of a territory. Now, however, their territory belonged to Sienna.

"Sienna... Uhm..." one of them stammered.

"What is it?" Sienna said coldly, "Cut to the chase."

The Lord said, "Attacking the Illuminated World is no child's play. The Heavenly Path of the Illuminated World has some sort of suppression on our rank. Besides, we will be attacking the First Universe, the strongest of all twelve universes. Please reconsider your decision."

"Yes, please think twice about this."

"Attacking the First Universe is a serious matter. There is an abundance of evil spirits in the Dark World right now, so there's no need to create trouble."

"Besides, the Macrocosm Ancestral Gods of all twelve universes will be together to discuss the consolidation of the universes. Attacking the First Universe could mean that we are declaring war on all twelve universes. Our

forces have yet to become strong enough yet. Even if we must attack, we should discuss with the other Lords.”

The four Lords were here to warn Sienna against acting recklessly because every Dark Strife came to being after a long discussion with the powerful figures of the Dark World. Not once had any minor Lords launched one on his own. Even if a minor Lord created strife on his own, there would only be small-scale conflicts and not an all-out assault.

Sienna said coldly, “My decision is final. I am determined to destroy the First Universe. If the other Lords disagree with my decision, tell them they are free to request an audience with me. I have nothing to be afraid of.”

Sienna could not care less about the other Lords. She was not afraid of even some of the more powerful Lords in the Dark World.

“I...”

The other Lords looked at one another. It appeared that they had failed in their endeavor. Seeing that there was no point in lingering here, they sighed and turned to leave. After they left, their expressions were full of consternation.

“As Sienna emerges as a force to be reckoned with, she has absorbed too much Dark Matter in the Dark World. This has caused the Dark Matter in the Dark World to deplete at a rapid pace. If we attack the First Universe and create chaos, more evil spirits will appear here. Our current supply of Dark Matter is unable to feed that many evil spirits. I’m worried there might be internal strife inside the Dark World.”

“Indeed.”

“I don’t know what’s going on inside Sienna’s mind.”

“Doesn’t she understand such a simple thing?”

“What should we do now?”

“There aren’t many who can suppress Sienna in the Dark World. Do we have to seek help from those old fossils?”

Read The Almighty Dragon General Chapter 3802

The Almighty Dragon General Chapter 3802-They did not wish to create a Dark Strife for they had a clear understanding of the Dark World. The Dark World had a constant stream of Dark Matter, which was the fundamental ingredient for the survival of the living beings there. If there was insufficient Dark Matter, the Dark World would not be able to keep up with the demand. Dark Matter was similar to Primordial Energy in the Illuminated World. Created by Heaven and Earth, they had limited supply. Once the number of evil spirits exceeded a certain threshold, the balance would be broken. By then, some Dark Lords in the Dark World would begin fighting each other for Dark Matter, causing internal strife. Even so, they could not stop Sienna.

At the same time, in the Illuminated World's First Universe...

Quanesha personally came to the location where James was in closed-door meditation and informed him about the commencement of the conference. James stopped cultivating and followed Quanesha's lead. Quanesha was dressed rather casually today. She was wearing a white dress, and her long black hair was flowing in the air. Without any ornaments on her, she looked neat and tidy.

"Let's move out," James said.

Quanesha nodded.

The two descended the mountain and left the Mount Snow Sect before heading to the Ancestral Holy Site. By taking a step forward, they left the Cassa Realm and arrived in space. A fissure appeared in the void before them, and they stepped into the fissure before disappearing without a trace. When they reappeared, they were already at the Ancestral Holy Site.

The Ancestral Holy Site was the core of the First Universe. This was a spiritual mountain, beneath which were countless Primordial Pulses. The Heaven and Earth Power here was abundant, and the Heaven and Earth Sigil here was complete.

As they arrived outside the Ancestral Holy Site, they chose to complete the rest of their journey by foot.

"What do you think about the consolidation?" Quanesha asked.

James was walking at the front. As he crossed into the Ancestral Holy Site, he could sense the abundance of Heaven and Earth Power there. This was a perfect spot for cultivation. Upon hearing Quanesha's question, he smiled faintly and said, "Consolidation is a good thing. Once the twelve universes merge into one, the surface area and Heavenly Path of all twelve universes will become one, thus creating a more powerful Heavenly Path. By then, we will be able to break through the limitations of Heaven and Earth."

Quanesha, however, furrowed her eyebrows and said, "To my understanding, the Omnipotent Lord proposed to merge all universes into one many times in the past. However, his proposal was rebuffed multiple times. This time, he must have resorted to some underhanded tactics to get the others on board."

James shrugged and said nonchalantly, "That's not important anymore."

Quanesha continued, "Once the universes merge into one, the Omnipotent Lord will truly become the sole ruler. Those who disobey him might suffer tremendously."

James had thought about this before. There were pros and cons to this. However, the pros outweigh the cost in his opinion.

"We'll talk about this some other time."

James did not dwell on the matter.

The Ancestral Holy Site was the core of the First Universe. There, more than eighty percent of the powerful figures of the First Universe were gathered, and most of them pledged their allegiances to the Omnipotent Lord.

The moment James and Quanesha arrived, they attracted the attention of the powerful figures there. The Omnipotent Lord had given strict orders not to offend Forty-nine. Otherwise, he or she would be punished severely. Though they had no idea why the Omnipotent Lord was so respectful toward Forty-nine, they did not question it.

As James entered the Ancestral Holy Site, many powerful figures appeared and welcomed him. Many of them were Macrocosm Ancestral Gods.

"Mr. Forty-nine, since there will be some time left till the conference, please stay here for some time and wait for the conference's commencement."

Read The Almighty Dragon General Chapter 3803

The Almighty Dragon General Chapter 3803-Under the guidance of the powerful figures at the Ancestral Holy Site, James entered a spiritual mountain. There were many buildings on the peak that were specifically built to accommodate Macrocosm Ancestral Gods and other powerful figures from all over the twelve universes.

James and Quanesha were assigned an independent manor. So, James stayed in the manor for the time being.

“I wonder if Kallinikos Yoav, the Lord of the Ninth Universe, is here,” James murmured.

Kallinikos Yoav, the Lord of the Ninth Universe, cultivated the Sword Path. The Ancestral Sword Master once said that Kallinikos cultivated many Macrocosm Powers through the Sword Path alone.

James was full of gratitude toward Kallinikos for he was the one who guided him into the Omniscience Path’s Third Stage when the Thirteenth Universe was created.

As James used his Divine Sense, he sensed that there were many manors in the surroundings, and each of them hosted a powerful individual. Sensing a familiar aura, James went straight ahead and looked for the source.

Soon, he arrived at a manor. Outside the gates stood eight armor-clad guards who wielded sharp swords. They exuded a powerful aura since they were at the peak of the Caelum Ancestral God Rank and were only a step away from becoming a Macrocosm Ancestral God. The moment James appeared, they blocked his path.

James looked at them and said with a composed expression on his face, “I’m looking for Kallinikos Yoav. Go report to your superior.”

With James’ strength, he could easily defeat these guards who were at the peak of the Caelum Ancestral God Rank. However, he did not do so but asked politely instead.

At that moment, seemingly receiving the approval of the manor’s owner, they immediately allowed passage to James.

James strode forward.

Many living beings were gathered in the foyer of the manor. As James entered the manor, everyone's gaze was upon him. James glanced at them. There were a total of four individuals, among which James could only recognize Kallinikos. However, since they were together with Kallinikos, they can only be Macrocosm Ancestral Gods. Perhaps they were even Lords of other universes.

Kallinikos pointed to an empty chair beside him and gestured for James to speak. James took a seat.

Then, Kallinikos asked, "Who are you? What business do you have with me?"

James smiled and said, "I'm Forty-nine. I come from the Twelfth Universe and am acquainted with someone called the Ancestral Sword Master. He mentioned you in our conversation and said that his Sword Path originated from you."

"Forty-nine?"

Hearing this, everyone was stunned. Apparently, they had heard of him.

"So you were the one who killed Santino Hiram of the Sixth Universe! I never thought that the Twelfth Universe would have an ace up its sleeves. To think that someone like you is hiding in the shadows!" Even Kallinikos was stunned.

James smiled and said nothing.

Kallinikos asked, "Is something the matter?"

James said calmly, "Oh, nothing much. I was just passing by and figured I should make some friends. Also, I wanted to discuss with you about the consolidation of the universe. What are your opinions on the matter? By the way, could you please introduce me to your fellow guests?"

[Read The Almighty Dragon General Chapter 3804](#)

The Almighty Dragon General Chapter 3804-There were four individuals in the foyer—three men and one woman. Apart from Kallinikos, James knew no one else. Kallinikos had no idea why Forty-nine came. Besides, he knew nothing about the guy. To his understanding, the Twelfth Universe did not have any

powerful figures. Now, someone like Forty-nine had appeared out of nowhere. Faced with Forty-nine's request, he introduced his other guests to him.

He pointed at a woman who was dressed in a blue dress and sitting by his side. The woman was stunningly beautiful and exuded a charismatic aura. "She's Yekaterina Larkspur, the Lord of the Tenth Universe and a Four-Power Macrocosm Ancestral God. She also happens to be my wife."

Hearing this, James was stunned.

To think that the Lord of the Tenth Universe was Kallinikos' wife! So, it seemed that the Ninth and Tenth Universes were a family.

Kallinikos pointed at another man who was wearing a red robe. The man was about forty years of age and had a sturdy build. Under his strong muscles was incredible explosive power. He had a round face and bushy eyebrows. He exuded an aggressiveness that demanded reverence.

"He's Tomislav Santana, the Lord of the Eleventh Universe and a Four-Power Macrocosm Ancestral God."

James glanced at Tomislav.

He had heard of the Lord of the Eleventh Universe. The Curse Magic of the Ancestral Talisman Master originated from the Lord of the Eleventh Universe, who in turn obtained Curse Magic from the Dark World. No wonder he exuded an air of aggressiveness that demanded respect and fear.

"So you're Mr. Tomislav."

James clasped his fists and said, "Your reputation precedes you. There's a man called the Ancestral Talisman Master in the Twelfth Universe, with whom I once discussed Curse Magic. I learned that his Curse Magic originated from the Eleventh Universe, which in turn originated from the Dark World. I have researched a fair degree of Curse Magic. Perhaps we can discuss the matter in the future."

Tomislav clasped his fists and said, "I never thought that a powerful figure like you would be born silently in the Twelfth Universe. You have concealed your presence from everyone. No one foresaw your rise."

James smiled and said nothing.

Kallinikos pointed to another man who was about twenty-five years of age. Dressed in a white robe, he was somewhat handsome-looking and scrawny.

“He’s Salvatore Xanto, the Lord of the Eighth Universe and also a Four-Power Macrocosm Ancestral God,” Kallinikos introduced him.

Hearing this, James nodded slightly. Just as he thought, those who were in Kallinikos’ company must be Macrocosm Ancestral Gods. Not only that, but they were also the Lords of the Eighth, Tenth, and Eleventh Universes.

James looked at them and asked smilingly, “Are you discussing the universe’s consolidation?”

Kallinikos did not keep this a secret from James. He knew that James had annihilated Santino Hiram of the Sixth Universe, which was subordinate to the First Universe. Based on this fact alone, he could deduce that James was not one of the Omnipotent Lord’s accomplices.

[Read The Almighty Dragon General Chapter 3805](#)

The Almighty Dragon General Chapter 3805-“That’s right, we are in the middle of the discussion.”

Hearing this, James was intrigued. He asked, “What are you discussing about? I’m all ears.”

Wearing a grim expression, Kallinikos said, “The Omnipotent Lord has proposed merging the universes into one many times in the past. However, he failed each time. This time, he sent many powerful figures to the other universes and wreaked havoc, forcing the Lords to agree to his demands.”

James said, “Consolidation brings many benefits. Why are you guys in disagreement? Once the twelve universes merge into one, a Super Heavenly Path will be born. By then, the limitations of Heaven and Earth could be broken. This is extremely beneficial to everyone.”

Yekaterina nodded and said, “We know that, of course. What we are worried about is the Omnipotent Lord. As a Nine-Power Macrocosm Ancestral God, he’s the most powerful of us all in all twelve universes. Once the universes merge into one, he will surely be the Lord of the new universe. By then, he would be able to get rid of us easily if we stood in his way.”

Tomislav chimed in, "Indeed, he will surely resort to some underhanded tactics after the consolidation of the new universe. Perhaps he will consolidate the new universe's power to launch an all-out assault on the Dark World. By then, the world will be ruined once more."

James, however, said nonchalantly, "It's only a matter of time before we fight a war against the Dark World, no? Every now and then, the Dark World will launch a Dark Strife and cause innumerable losses and massive casualties on our side. The twelve universes and the Dark World have bad blood between us. So isn't war only a matter of time?"

James' question made the others fall silent. After some time, Kallinikos said, "You are right. The twelve universes and the Dark World are two fundamentally opposing sides. However, even if we consolidate the strength of the new universe, we won't stand a chance against the Dark World. Launching a war haphazardly will only diminish the overall strength of the twelve universes."

James nodded slightly and said, "Your worries are not without reason. However, whoever becomes the Lord of the new universe will surely not launch an all-out war haphazardly. Once the universes merged into one, I predict that we will enter a golden age. Many providences will appear, and the overall strength of the twelve universes will rise."

The others looked at James, unable to guess what was going through his mind. However, what James said was similar to what the Omnipotent Lord said in the past.

Kallinikos asked, "What do you think about the consolidation then?"

James said smilingly, "Consolidation is an eventuality. The matter we ought to be discussing now would be the position of the new Lord. What candidates do you have in mind, may I ask?"

The four individuals looked at each other.

Kallinikos said, "The Omnipotent Lord is determined to seize the position. After all, he's the one who spearheaded the consolidation."

James said smilingly, "Not necessarily. We elect the new Lord of the new universe. You can elect me, for example."

“You?”

They looked at James.

James said with a smile, “Why? Am I not eligible?”

The four of them fell silent.

At that moment, they understood why James came looking for them. He was here to garner their support so that he could become the new Lord of the universe. What sets him apart from the Omnipotent Lord, then? Nothing, for they were ambitious men. However, if they had to choose between the Omnipotent Lord and Forty-nine, he would opt for the latter.

[Read The Almighty Dragon General Chapter 3806](#)

The Almighty Dragon General Chapter 3806-A new Super Universe would be born as the twelve universes merged into one, bringing about more providences. James wanted to become the Lord of the new universe so that he could acquire more providence. Only then he could venture further on the path of cultivation. However, at his rank, it would be extremely difficult to become the next Lord. Regardless, he wanted to give it a try. If he failed, so be it.

Seeing that the others were deep in contemplation, James stood up and said, “Please reflect on what I just said. I’m sure I will be a better Lord than the Omnipotent Lord.”

Then, he stood up and turned to leave.

After he left, Kallinikos and the others were wearing grim expressions.

He looked at Yekaterina and asked, “What do you think?”

Yekaterina contemplated and said, “Forty-nine has a mysterious background, and we don’t know what he’s up to. But, we can know for sure that he’s a powerful guy. In fact, I couldn’t even see through his rank. We can’t hand the position of the Lord of the new universe to someone we don’t know about.”

Kallinikos looked at Tomislav.

After some contemplation, Tomislav said, "I think it's a good thing we now have Forty-nine balancing against the Omnipotent Lord. Between them, I will opt for Forty-nine."

"What about Salvatore? What do you think?" Kallinikos looked at the Lord of the Eighth Universe.

Salvatore, however, shook his head and remained silent.

After James left, he returned to his accommodation. Immediately, Quanesha appeared.

"Where did you go?"

James sat down and said, "I went for a stroll and encountered the Lord of the Ninth Universe."

Quanesha sat beside him.

James glanced at her and asked, "What do you think my chances are if I compete for the position of the Lord of the new universe?"

Quanesha froze. She never expected Forty-nine to be interested in becoming the new Lord. After some contemplation, she shook her head and said, "Negligible, perhaps. The Omnipotent Lord has prepared for a very long time, and he is determined to seize the position. Besides, the Macrocosm Ancestral Gods of the First Universe support him in his endeavor. Putting his strength aside for now, his supporter, Mirabelle Joandra possesses terrifying strength. She's an Eight-Power Macrocosm Ancestral God. She alone can overwhelm all other Macrocosm Ancestral Gods of the other universes."

James rubbed his temples and asked, "What do you think I need to do to compete?"

Quanesha contemplated briefly before saying, "The universes after the Eighth Universe are insignificant in general. Even the Lords are Four to Five-Power Macrocosm Ancestral Gods. The Second Universe is second only to the First Universe. If you wish to become the new Lord, you just need to gain the support of the Second, Third, Fourth, and Fifth Universes. Their combined power will give the First Universe some serious headaches."

Quanesha provided her opinion.

She continued, "But that's not possible. Longinus Klopas, the Lord of the Second Universe, is a ruthless man. Nicknamed the Ancestral Void Master, he possesses terrifying strength and is comparable to Mirabelle. He should have his position on the matter. It would be impossible to gain his support."

Hearing this, James fell into deep contemplation. It appeared that becoming the Lord of the new universe was nigh impossible. Even so, he had to acquire enough benefits and providence. Only then could he carve a new path from his dead-end road.

"Will you support me?" James suddenly asked.

Quanesha froze before saying smilingly, "Of course I will. But I'm just a One-Power Macrocosm Ancestral God. I won't even have the right to speak at the coming conference. I don't think I can be of any use to you."

James smiled and said nothing. At that moment, he was beginning to miss Thea. If Thea had not reincarnated, she would surely have become a powerful figure. With her by his side, he could overcome all odds.

[Read The Almighty Dragon General Chapter 3807](#)

The Almighty Dragon General Chapter 3807-"Where are you, Thea? When will you appear?"

James gazed into the distance. His gaze pierced through the universe and reached into the void.

At that moment, a man walked into James' manor. He was a bald man who was dressed in a monk's cassock. The monk stuck his head into James' manor.

James immediately reacted and said, "Since you're already here, please come in."

The monk scratched his bald head and walked in with a smile. James pointed to the chair next to him.

The monk took a seat and said, "Thank you."

James asked, "Who are you?"

Quanesha, however, was alarmed. Apparently, she knew who this man was.

The monk smiled and said, "Longinus Klopas."

Hearing this, James was stunned. He had only just mentioned Longinus to Quanesha, and he did not expect him to appear out of nowhere just like that.

Though he was secretly stunned, his expression was composed as he said smilingly, "Ah, the Lord of the Second Universe. Your reputation precedes you."

"The title means nothing to me. It is only thanks to the living beings of the Second Universe that I'm the man I am today."

Longinus waved his hand slightly. He acted casually, seemingly uninterested in the position of the Lord of the Second Universe.

"I wonder what business you have with me today," James asked.

Hearing this, Longinus' expression turned grim.

"I heard that you annihilated a Macrocosm Ancestral God of the Sixth Universe. Since the Sixth Universe has a close relationship with the First Universe, I'm worried that you will be in danger, considering that you are now in the Ancestral Holy Site of the First Universe." Longinus said.

James looked at him.

He continued, "Though I admit I'm weaker than the Omnipotent Lord, I'm not that much weaker than him. Thus, I should be able to guarantee your safety. As long as you support me in becoming the Lord of the new universe, I promise you that not even the Omnipotent Lord can do anything to you. Besides, I will provide you with enormous benefits once I become the new Lord."

Hearing this, James immediately understood everything. Longinus was here to win him over to his side.

An Eight-Power Macrocosm Ancestral God was certainly terrifying. He definitely had the right to compete for the position of the Lord.

"What do you think?"

Longinus looked at James. His grim expression was now replaced by a mischievous grin.

“Forty-nine, we will now share the same fate from today onwards. Together, we will create a bright future for the new universe.”

...

He began speaking non-stop, promising many benefits and speaking of the future, so much so that even James was almost convinced.

James looked at him with a smile and said, “I also want to become the Lord of the new universe. Why don’t you support me? Once I become the new Lord, I will make you my deputy. You will be in charge of the new universe’s Heavenly Path. What do you think?”

Hearing this, Longinus froze.

He stood up and said, “Sorry for interrupting. I must have come at the wrong time.”

[Read The Almighty Dragon General Chapter 3808](#)

The Almighty Dragon General Chapter 3808-Longinus came looking for James because he knew that he annihilated a Macrocosm Ancestral God of the Sixth Universe in the Chaos outside the Twelfth Universe. The Sixth Universe had always had a close relationship with the First. Since James, also known as Forty-Nine, annihilated Santino Hiram, this made him an enemy of Longinus’ enemy. That was why he wanted to win him over to his side. A guy like James who could easily annihilate a Three-Power Macrocosm Ancestral God with a Chaotic Treasure was not to be trifled with. However, he did not expect James to try and win him over instead.

He immediately froze.

James looked at him and smiled, asking, “What do you think? You will be a deputy, you know? As long as you help me ascend the throne, there will be no problem at all.”

Longinus immediately burst into a peal of laughter.

“Interesting, I’m beginning to like you more now. However, becoming the Lord of the new universe requires strength.”

Longinus could not see through James’ rank. So, he tried asking, “Since you dare compete against the Omnipotent Lord, what do you think your chances are against him?”

“This, huh...” James pretended to ruminate before saying, “I’m not sure. Why don’t you personally ask the Omnipotent Lord? I think he has a clearer understanding.”

This was James’ trick. He did not know whether Mirabelle had relayed the information to the Omnipotent Lord or the Omnipotent Lord had looked into the matter. If they both did, the Omnipotent Lord should be fearful of him now. Now, he was trying to mislead Longinus.

Hearing this, Longinus’ expression was grim. He did not know who Forty-nine was at that point. So, he said nothing and simply stood up before turning to leave.

After leaving James’ accommodation, he headed toward the place of residence of the Omnipotent Lord, who was his arch-rival. All this while, under the suppression of the Omnipotent Lord, the Second Universe had it rough.

There were some buildings on the peak of a spiritual mountain in the Ancestral Holy Site. In a main hall, the Omnipotent Lord had summoned the Macrocosm Ancestral Gods of the First Universe and other universes. They were in the midst of discussing the conference.

Sitting on the throne, the Omnipotent Lord looked at them and promised, “Once I become the Lord of the new universe, I promise I will not mistreat you.”

However, at that moment, Longinus walked in casually with a nonchalant expression on his face. As he entered the main hall, he was immediately the center of attention.

The Omnipotent Lord’s expression darkened as he questioned coldly, “What are you doing here?”

“Hahaha...” Longinus scanned his surroundings and said smilingly, “You are now in a meeting with your subordinates before the conference has even

begun. It seems that you are quite determined to become the Lord of the new universe.”

There were about twenty Macrocosm Ancestral Gods present. Most of them were Macrocosm Ancestral Gods of the First Universe who had been won over by the Omnipotent Lord. Among them was Lishai Baishan, the Lord of the Sixth Universe. Everyone stared at Longinus in alarm, fearful that he would resort to violence here.

Longinus walked into the main hall and took a seat. As he chewed on the divine fruits on the table, he said, “You should know what kind of man the Omnipotent Lord is. He’s a devious schemer who’ll backstab anyone whenever the opportunity arises. Not once have his promises been fulfilled. So why support him?”

He continued, “Why don’t you lend me your support? I promise I will grant you enormous benefits once I’m the Lord of the new universe.”

Longinus began to court them even though he knew he would fail.

[Read The Almighty Dragon General Chapter 3809](#)

The Almighty Dragon General Chapter 3809-Most of the Macrocosm Ancestral Gods here were from the First Universe and would obey the Omnipotent Lord’s every command. The same goes for the Lords of other universes. As such, he was only trying to rub this in the Omnipotent Lord’s face.

The Omnipotent Lord’s expression darkened.

“Cut to the chase, Longinus. Please leave if there’s nothing else you need. We still have a meeting going on here.”

As if suddenly reminded of something, Longinus said, “Indeed, I have something I wish to ask you.”

The Omnipotent Lord looked at him and asked, “What is it?”

Longinus said, “Surely you have heard of Forty-nine?”

“What about him?” The Omnipotent Lord was puzzled. Why would Longinus suddenly bring up Forty-nine?

“Oh, nothing much. Just that he came looking for me and sought to win me over. He wants me to support him as the Lord of the new universe. He even promised he would make me his deputy,” Longinus said nonchalantly.

At the same time, he observed the Omnipotent Lord’s expressions intently.

As expected, the moment he mentioned Forty-nine, the Omnipotent Lord’s expression changed. Longinus glanced at him and smiled faintly, asking, “Say... If I support Forty-nine, do you think you can still be the Lord of the new universe after the consolidation?”

Hearing this, the Omnipotent Lord’s expression darkened once more.

Below, a Macrocosm Ancestral God could no longer suppress his rage as he said, “Who does Forty-nine think he is? What makes him think he can be the Lord of the new universe?”

Longinus said, “Indeed, I have no idea who he is or what he is capable of. Perhaps the Omnipotent Lord would care to enlighten us?”

Then, he glanced at the Omnipotent Lord and asked, “Would you do me the honor?”

The Omnipotent Lord did not wish to waste his breath on Longinus. All this while, Longinus had always been his arch-rival. Now that he was here making trouble for him, he was indeed affected by his words.

He remained silent.

Seeing this, Longinus immediately understood.

“I thought you fear no one in the twelve universes. So there’s someone you are afraid of... Looks like James is not to be trifled with.”

After getting the answer he needed, Longinus simply stood up and turned to leave the main hall. After he left, the smile on his face froze. Judging by the Omnipotent Lord’s reaction, Forty-nine must truly be a terrifying opponent.

He rubbed his temples.

A single Omnipotent Lord on his plate was already troublesome enough. Now, Forty-nine had expressed his wish to become the Lord of the new universe. Longinus’ chances of becoming the Lord were diminishing. However, not all

was bleak. That was because Forty-nine could not act as a balancer against the Omnipotent Lord. As such, the pressure on his shoulders would also be lifted.

In the main hall, a Macrocosm Ancestral God asked, “Omnipotent Lord, is Forty-nine of the Twelfth Universe truly a formidable foe?”

The others looked at the Omnipotent Lord, who nodded slightly and said, “Indeed... His master is a powerful individual. Meanwhile, he also possesses great strength and should be at the Nine-Power Macrocosm Ancestral God Rank. His master, on the other hand, has surpassed the Nine-Power Macrocosm Ancestral God Rank.”

Hearing this, everyone was stunned.

“Surpassed the Nine-Power Macrocosm Ancestral God Rank?”

“How can this be? How can there be anyone surpassing the Nine-Power Macrocosm Ancestral God Rank?”

“Isn’t the Nine-Power Macrocosm Ancestral God Rank the peak of cultivation?”

Everyone was shocked.

[Read The Almighty Dragon General Chapter 3810](#)

The Almighty Dragon General Chapter 3810-Longinus went looking for the Omnipotent Lord. Though the Omnipotent Lord remained silent, Longinus had gotten the answer he wanted. Upon leaving, he contemplated just how a powerful figure like Forty-Nine appeared out of nowhere from a universe as weak and insignificant as the Twelfth Universe. James only managed to annihilate a Three-Power Macrocosm Ancestral God with a Chaotic Treasure in the Chaos outside the Twelfth Universe, and it was only through this battle that his name spread far and wide.

Longinus had heard of this battle as well. In fact, he had even sent men to the Twelfth Universe to investigate the matter but found nothing.

“What a headache...”

Longinus rubbed his temples.

Meanwhile, in James' accommodation...

Quanesha looked at James while wearing a grim expression and said, "Do not be fooled by Longinus' appearance. As a powerful figure who could survive under the constant suppression of the Omnipotent Lord, he's no pushover."

James knew this, of course. He nodded slightly and said, "I know. But the situation is getting more and more complicated. I wonder what other powerful figures have their eyes on the position of the Lord of the new universe."

He looked at Quanesha and asked, "Who else in the twelve universes has the strength to become the Lord of the new universe?"

Hearing this, Quanesha contemplated.

"If we are basing this on strength alone, the Omnipotent Lord is the most likely victor. He has reached the Nine-Power Macrocosm Ancestral God Rank and is the most powerful in the twelve universes. He's the one most likely to become the Lord of the new universe. Following him is Mirabelle Joandra of the First Universe, Longinus Klapos of the Second Universe, and Yuval Yonaguska of the Third Universe. They are the only Eight-Power Macrocosm Ancestral God in all of the twelve universes. No others have the right to compete," Quanesha briefly summarized.

"Strictly speaking, they are the only ones who have the strength to compete. However, Mirabelle has always been supportive of the Omnipotent Lord. Longinus has always been the Omnipotent Lord's arch-rival, and their two universes have always been at odds with each other. Yuval, on the other hand, keeps a low profile. So too does the Third Universe, which is seldom at odds with other universes. As Yuval has never proclaimed which side he's on, he must be neutral in this."

Quanesha gave her analysis.

James listened intently. Hearing this, he gently knocked on the table.

"That means I can be the Lord of the new universe once I obtain the support of Mirabell, Longinus, and Yuval."

"Mhm." Quanesha nodded and said, "Theoretically speaking, yes. But it's impossible to gain their support."

"I'll give it a try before giving up," James said.

Since this was his only way to become the Lord of the new universe, he had to try. First, he would meet with these people and talk to them.

He planned to pay Mirabelle a visit.

James asked, "Do you know much about Mirabelle?"

Quanesha shook her head slightly and said, "Not really. I only know she's a powerful figure in the First Universe and is only beneath the Omnipotent Lord."

"Where is she staying?" James asked.

Quanesha said, "She lives in Mount Nine-Saints, a mysterious place in the First Universe, It's also one of the Ten Great Cultivation Sites in the First Universe."

"Got it."

James nodded slightly and asked, "By the way, how long more do we have till the conference?"

"Less than a month."

Hearing this, James' expression turned grim.
