

Read The Almighty Dragon General Chapter 4671

The Almighty Dragon General Chapter 4671-“I’ve never been to the battle in the Endlos Void. All I know is that it’s very intense right now. Our universe’s top powerhouses have been dispatched there to resist the terrifying Extraterrestrial Demon.

“Even though they resist the monster right now, the Endlos Void is simply too vast. These monsters are incredibly pervasive and will seize every chance to attack whatever universe they find. Once they invade a universe, they’ll kill every living being, leaving no survivors.”

James pondered, ‘What had happened before the Endlos’ Nine Districts were established?’

“Mr. Xrival, what do you think about the current situation?” James asked the Ancestral Blood Master.

Although he entered the Supreme Illusion, the Ancestral Blood Master followed him since he was residing within a space in James’ body.

The Ancestral Blood Master replied, “I’m not sure. Endlos has too many unraveled mysteries. I can’t be certain whether this is an illusion or a real event that has happened in the past. However, if it’s a real event forgotten in time, it will soon be unraveled since you’re experiencing it now.”

Since even a powerhouse like the Ancestral Blood Master could not tell, James stopped asking questions.

The entire Taerl City army was preparing for battle.

The Nine Heavens God-Annihilating Formation was easy for the soldiers to cultivate. After mastering it, they continued with a few simple training.

Three months passed in the blink of an eye.

The troops had a comprehensive understanding of the Nine Heavens God-Annihilating Formation.

James stood on the city walls. He was dressed in white. Beside him was Yue, who donned battle armor, as well as a few generals.

Outside the city was a large group of monsters on land and in the sky.

Many of these monsters had the strength equivalent to powerhouses at the Caelum Acme Rank.

James murmured, "After preparing for such a long time and being on defense for so long, we can finally take the initiative to attack."

He suddenly shouted, "Attention!"

The Taerl City was also full of troops.

They had one hundred thousand troops, each composed of a million soldiers. Each army had cultivated the Nine Heavens God-Annihilating Formation.

"Yes, sir!"

The army's loud chant resounded.

"Attack!!!" James ordered.

"Charge!!!"

"Let's go!!!"

The entire city was motivated.

A few cracks appeared in the formation, and the troops rushed out. A few held giant swords, and a few wielded long spears.

They confronted the monsters as soon as they rushed out of the city.

A massive battle against the monsters immediately broke out.

James had already prepared ahead of time. The troops quickly wiped out the monsters surrounding the city. However, there was a massive wave of monsters pouring toward them.

The monsters charged at them like a violent wave. The monsters' auras superimposed and caused the void to shatter.

However, the soldiers' morale was high, and they continued slaughtering their enemies.

James was also affected by their fighting spirit. He murmured, "I want to join them so badly."

The Almighty Dragon General Chapter 4672-The 100,000 troops were aggressive with their attacks, and their morale was constantly on the rise. Seeing their high spirits, James also boiled with enthusiasm. He wanted to participate in the battle but held back his urge. His goal was to wait for the mastermind controlling the monsters to appear. The battle would only end if the mastermind was eliminated. Then, he would be able to complete his mission.

James stood on the city walls and closely observed the surroundings, paying close attention to the battlefield's every move. With the help of the Nine Heavens God- Annihilating Formation, the army was bold and kept charging at their enemies. A large number of monsters were slaughtered. However, there seemed to be no end to the wave of monsters. More would pour in at them as soon as they eliminated a batch of monsters.

James released his Divine Sense, trying to see the end of the monsters, but instead discovered a few black holes tens of thousands of light-years away from Taerl City. Monsters continuously emerged from the black holes and gathered into densely packed groups.

James was startled after the discovery.

How would they kill so many of these monsters? Moreover, the monsters were continuously appearing from the black hole.

Unfortunately, James could not see what was on the other side of the black hole.

"How long did the last battle last?" James turned to Yue.

Yue replied, "Three epochs. Many powerhouses from our city died in that battle. It's why Jarvis isn't confident in defeating the monsters this time. We're glad you appeared to take charge."

Her eyes were filled with gratitude. If not for James, Taerl City's previous strength would never be enough to fight these monsters. James taught them the Nine Heavens God- Annihilating Formation, significantly increasing their

army's strength to fight the monsters. However, Yue still had worries. She had experienced the previous battle and knew how terrifying the monsters were. Their struggle was not going to end anytime soon.

"Three epochs?" James frowned.

It was longer than he had expected.

"You preside over the battle. I'm going into seclusion to cultivate for some time," said James.

The battle would take a long time, and he could not just stand on the city wall to watch over them for a few epochs.

"If our army's formation becomes disorganized, order them to withdraw instantly. Regroup, then charge at the enemies again. When our army's casualties are too high, withdraw as well. Reorganize the troops and send them out again.

"Also, if we end up at a disadvantage, get the whole army to retreat into the city's formation. When the city is in danger, come get me."

James gave her some instructions.

"Alright." Yue nodded.

As the army commander, he could not charge outside to fight the monsters. Moreover, there were too many monsters, and it was impossible to kill them all. Despite being a powerhouse, he could not completely wipe them out.

James planned to cultivate to improve his cultivation base to fight the real mastermind. He had a strong feeling that his next battle would be tough.

After James left a few orders, he left the battle to the Taerl City's troops. His trial was not considered a failure as long as the city was not destroyed.

James returned to Mount Taerl's back mountain. He sat on a rock, laid out a time formation, and began cultivating.

Read The Almighty Dragon General Chapter 4673

The Almighty Dragon General Chapter 4673-Mount Taerl had countless Empyrean Spiritual Herbs. James picked a few with his powers, making them float before him. Then, he began to absorb their Empyrean Spiritual Energy to enhance his strength.

James had entered the Boundless Rank, so it was tough to improve his strength. His strength improved very slowly. However, he did not give up and continued cultivating. At the same time, he pondered on whether the Omniscience Path had a Tenth Stage.

From James' understanding, Yardos had to be the one with the highest attainments in the Omniscience Path. After Yardos entered the Caelum Acme Rank, he created the Blithe Omniscience. James wondered whether he could enter the Tenth Stage.

He also began to improve his physical strength and bloodline power.

Time passed imperceptibly, and five epochs passed in the blink of an eye.

Meanwhile, James had spent tens of thousands of epochs in the time formation.

Although his strength improvement was gradual, he could improve significantly with so much time.

His physical strength, bloodline power, and Spiritual Energy were enhanced by leaps and bounds.

"Mr. Xrival, how does my current bloodline power compare to yours?"

James was unsure about how much time passed outside. He temporarily stopped cultivating and asked the Ancestral Blood Master.

The Ancestral Blood Master replied, "It's pretty strong, but you're still much weaker than me. Do you know how long I've stayed in the Caelum Boundless Rank?"

James immediately felt defeated.

"However, I can sense that my physical strength, Spiritual energy, and bloodline power have reached their limit. I thought I'd already reached the Caelum Acme Rank's peak."

The Ancestral Blood Master replied, "That's because your cultivation base isn't high enough. The strength of your bloodline power at the Permanence Acme Rank is already terrifying. When you enter the Terra Acme Rank, you'll naturally be able to improve your bloodline power. When you enter the Caelum Boundless Rank, you'll surpass me."

The Ancestral Blood Master had been watching James' growth. Even though he had been in the Caelum Acme Rank for a long time and was known as the number-one powerhouse in the Chaos District, he felt James would naturally surpass him after reaching the Caelum Boundless Rank.

"Is that so?" James was glad to be praised by him. "Does your main self have a chance against a powerhouse at the Quasi Chaos Rank?" asked James.

"Haha." The Ancestral Blood Master chuckled.

"During the first Sky Burial, the Chaos Master killed a powerhouse at the Quasi Chaos Rank from a different District while at the Caelum Boundless Rank. I believe my main self's strength isn't inferior to the Chaos Master back then."

James immediately understood that the Ancestral Blood Master's main self could kill a powerhouse at the Quasi Acme Rank. He may even be able to fight a powerhouse at the Chaos Rank. After all, cultivation rank was not the only measurement of strength."

"Mr. James!" A frantic voice came from outside his time formation.

James dispersed the formation and saw a woman immediately rushing toward him. Her armor was broken, and her body was covered in blood. Her hair was scattered, and she looked to have suffered bad injuries.

"The monsters have become stronger, and their numbers have increased. Our troops have suffered heavy losses.

We've withdrawn into Taerl City, but they're almost about to breach into the city!"

The Almighty Dragon General Chapter 4674-Yue's armor had been shattered, and she looked to be in a terrible state.

The Taerl City's battle against the monsters had continued for five epochs. During this period, the soldiers bravely fought off the enemies with the Nine Heavens God- Annihilating Formation. However, many soldiers sacrificed, and their troops had decreased to less than 10,000.

James had specifically mentioned not to disturb him until the city was in danger of destruction. Now that Yue had shown up, James immediately knew how critical the situation was.

James nodded lightly and said, "Alright. Let's go."

He immediately appeared outside the south city wall.

Many powerhouses were gathered together on the wall as well but were wounded.

Even Jarvis had left seclusion. Although he had not completely recovered from his injuries, he participated in the battle. His wounds had worsened, and his aura was fragile, seemingly on the verge of death.

"Mr. James."

The wounded generals' hope was restored after seeing James appear. James was why Taerl City could persist for five epochs against the monsters with minimal casualties. If not for him, their city would have been breached long ago.

James nodded lightly in response to the generals and looked outside of the city.

The monsters were densely packed outside the city. The overall strength of the monsters had improved significantly compared to five epochs ago. Now, most of the monsters were at the Quasi Acme Rank.

Among them, there were quite a few monsters at the Acme Rank.

James' formation passively defended against the monsters' continuous attacks.

Although the formation was powerful, the number of monsters was overwhelming. The formation slowly cracked under the constant attacks.

Fortunately, the formation had the ability to repair itself automatically. Once a crack formed, it would quickly merge. Despite that, the formation would only last a few more years if James did not make a move.

James let out his Divine Sense and scanned the city. Taerl City's troops were wounded and focused on treatment. At the same time, many cultivators were slightly weaker.

Unfortunately, they were unable to deal with the monsters outside. The entire city would be destroyed once the monster breached the city.

After assessing the situation, James ordered, "Activate the Universal Sword Formation.

"Yes, sir!"

After receiving the order, Jarvis appeared above the city instantly, and his voice resounded throughout the area. "Burn the Genesis Stones! Activate the Universal Sword Formation!"

A large amount of Genesis Stones were buried inside a few spiritual mountains throughout Taerl City. These Genesis Stones were prepared five Epochs ago, and a Caelum Acmean guarded each location.

As soon as the order was issued, the Caelum Acmeans mobilized their strength and burned the Genesis Stones to activate the formation.

As soon as the Genesis Stones were burned, a huge amount of energy was released, and the formation was activated.

Above the sky of Taerl City, powerful Sword Energies containing the strength to kill Caelum Acmeans gathered.

"Amazing!" After sensing the Sword Energies, Jarvis, Yue, and a few elders of Mount Taerl were astonished.

They knew James had set up a powerful formation five epochs ago. However, they were unaware of its strength since it had never been activated.

Read The Almighty Dragon General Chapter 4675

The Almighty Dragon General Chapter 4675-After the Universal Sword Path was activated, countless Sword Energies emerged.

Everyone could sense the powerful force gathering above the city. A blow from the Sword Energy would be enough to obliterate them.

Everyone turned to James with admiration.

Swoosh!!!

The Sword Energies shot outside the city, and a powerful force permeated the area. The monsters in the area were wiped out and instantly evaporated into nothingness.

One Sword Energy could kill the monsters within a thousand light years radius.

Countless Sword Energies swept the area, continuously killing the monsters outside the city.

However, monsters continuously emerged from the black holes. They seemed to be aggravated and kept rushing toward the city rapidly.

More monsters appeared outside the empty field and flooded the area. After they filled the space, the Sword Energies struck and wiped them out.

Cheers burst out from inside the city walls.

The cultivators could sense the battle outside the city and were full of hope. Everyone was immersed in joy, thinking the Universal Sword Formation would save their city.

However, James had a frown on his face.

The Universal Sword Formation was powerful but had a limit.

Taerl City had limited Genesis Stones. Once the Genesis Stones' powers were consumed, they would not have sufficient energy to activate the formation.

It was impossible to maintain the formation with the powerhouses' strength for very long.

James asked, "How many Genesis Stones do we have in reserve?"

Jarvis replied, "We've been continuously mining for them in the past few Epochs and have quite a lot. However, according to the consumption rate of the Universal Sword Formation, our reserves will not last long. I estimate they'll only last us three years."

'Three years?' James frowned.

He estimated the formation could only be maintained for about five years with the powerhouses of the Taerl City.

The cultivators could recuperate and continue pouring strength into the formation. The city would barely hold on for seven to eight years.

He concluded the battle would have to be ended within ten years.

If he could not end the battle, Taerl City would be destroyed.

Once the city was breached, the city's living beings would die, and his trial would be considered a failure.

James released his Divine Sense and inspected the black holes in the distance.

He could not sense what was beyond the black holes, but he knew it was necessary to enter them to resolve the battle. Perhaps the mastermind was hiding within it.

After a brief thought, James said, "Continue protecting the city's formation. I'll head outside the city to try to break them down. Before I come back, protect the city with all your strength. Don't let them breach the city. Do you hear me?"

James solemnly issued an order.

Jarvis said resolutely, "Yes, Sir! We'll fight to protect the city with our lives!"

'They'll have to step over my dead body to destroy the city!!!'

The soldiers' determined vows resounded.

“Quickly treat your wounds. We need to regroup and head outside to kill the monsters! While we’re out there, deactivate the Universal Sword Formation. Only activate it during critical moments,” Jarvis immediately gave an order.

Hearing that, James felt relieved. He quickly left the formation without hesitation and appeared outside the city.
