The Almighty Dragon General Chapter 4774- Saachi and the others, who were watching James from the airship, had the same concerns too.

Back when James had fought Wynona in that epic battle at the Verde Academy, he had suffered severe injuries after receiving a series of Wynona's powerful attacks.

However, it only took the first round of those lightning bolts to shake James up pretty badly.

All of them were afraid that James might not be able to make it through the Heavenly Tribulation of this level.

James grimaced in pain.

He was aware of how serious his condition was.

The man quickly activated the Life Path to heal his injuries since he knew that he had no time to waste before the second wave of attack came.

The open wounds scattered on James' skin and his internal injuries were slowly healing with James' powers.

Unfortunately, injuries caused by the Heavenly Tribulation were awfully difficult to heal.

Although James seemed quite fine on the outside, he was actually suffering from critical internal injuries.

Furthermore, the residual powers of the Heavenly Tribulation were still circulating in James' body.

As James levitated in mid-air in a seated position, he focused his concentration on converting and absorbing the powers of the Heavenly Tribulation in his body.

Just then, crackling sounds could be heard again as the tribulation clouds produced countless lightning bolts.

Before those lightning bolts had reached him, James immediately activated the Thousand Paths Holy Body.

The powers of the Greater Paths radiated from his body, forming a firm layer of protective barrier in an instant.

Despite having the protection of the Greater Paths' powers, the lightning bolts were so destructive that they penetrated and destroyed the barrier almost instantly.

James was struck by the second hit once more.

Fortunately, the powers of the Thousand Paths Holy Body and the Greater Paths were enough to wear off some energies of the lightning bolts.

James noticed he suffered less damage to his body this time.

'I can use this way to lessen the effects of the lightning bolts and protect my body,' James thought.

As James seemed to have found the solution to withstand the lightning bolts and stabilize his condition, Waleria and the others finally felt slightly relieved.

Meanwhile, James continued to absorb the energies of those powerful lightning bolts that were coursing through his veins.

At the same time, he was studying the mysterious pattern produced by the tribulation clouds.

He could sense a terrifyingly immense power from that intricate pattern.

"What's the meaning of this? Why am I seeing this pattern in the tribulation clouds? I can find motifs of the Greater Paths and the Primal Mantra in it," James muttered under his breath.

'There are too many inscriptions contained here, overlapping each other within this pattern.' James pondered.

As he stared at the pattern, James started memorizing a few of its inscriptions.

Then, he tried to develop those inscriptions in his head.

It only took him a few seconds to form a new pattern that gave off the highest form of energies of the Primal Mantra and Greater Paths.

After that, James tried to search for the corresponding pattern that he had produced himself from the unique pattern formed by the tribulation clouds.

Once he had found the pattern, he extracted that specific pattern from the clouds and tried to emulate the same overall pattern of the tribulation clouds by doing further combinations and arrangements on his own.

Eventually, James was able to obtain a new, interesting pattern.

He could sense a tremendous power that was way more potent than his Caelum Acme Rank powers contained within the pattern.

However, the pattern produced by James was rigid and fixed.

It was merely one of the many variations of the pattern from the tribulation clouds.

The pattern from the tribulation clouds, on the other hand, was always evolving and displaying the possibilities of countless forms.

James could find inscriptions of ancient origins and paths of the purest form from the pattern.

Moreover, he could observe a superior power in the pattern that transcended above everything else.

The lightning bolts continued to rain on James in waves.

When those attacks destroyed his protection barrier, James would put up a new barrier again in anticipation of the next round of attack.

This cycle repeated for ten years.

At long last, the lightning bolts stopped.

"It's finally over!" Waleria let out a soft sigh as she could no longer hear any sounds of thunder.

The Almighty Dragon General Chapter 4775-Just as everyone thought that the Heavenly Tribulation was over, the tribulation clouds appeared to gather somewhere in the distance again.

They swiftly formed an intricate pattern.

A dark, human-like form stepped out of the pattern the next instant.

An immense energy emanated from the dark figure, and it instantly destroyed the area of the Endlos Void within a thousand- meter radius.

“What?!” Waleria was in a state of shock.

Wynona and Zula were staring at the dark figure in astonishment as well.

“what is that thing?” Wynton knitted his brows.

“Is that a manifestation of the Heavenly Path?” “Tt doesn’t seem like it.

I can sense a trace of James’ aura from that dark figure, though.” At the same time, James was immersed in a state of spiritual enlightenment.

Suddenly, he detected a wave of powerful energy.

As James opened his eyes to check his surroundings, he spotted the pattern in the sky.

Numerous inscriptions of complex designs formed the mysterious pattern shown amid the tribulation clouds.

Each of those inscriptions represented a form of path that carried exceptional, superior powers.

James stared at the pattern in awe.

Just then, the black, shadow- like figure materialized before James and entered his field of vision.

“The Blithe Omniscience?!” Wynton and the others were caught off-guard as they witnessed the dark figure unleash a Blithe Omniscience technique.

Even Quasi Chaos Rank cultivators like Waleria and Zula did not detect any spatial shifts as the figure teleported toward James.

The dark figure threw a punch at James' chest the instant it had reemerged before its target.

The immense force sent James flying in the air.

The dark figure even managed to drill a bloody hole through James' chest with its attack.

In a flash, James' shirt was drenched in blood.

"What's this? Is this also a part of the Heavenly Tribulation?" James asked in a puzzled voice.

At that very moment, the dark figure appeared a few steps away from James.

James immediately adjusted his breathing and conjured the Chaos Sword.

He raised the sword and unleashed the Nine Voices of Chaos at once.

The Sonic Sword Energies were blasted in the direction of his target.

To everyone's surprise, the dark figure conjured a sword that looked just like the Chaos Sword.

Then, it unleashed the exact same attack of the Chaos' Nine Voices that James had just demonstrated.

As those two Sonic Sword Energies clashed with each other, the force generated crushed all of the space in close proximity.

It even caused a slight disturbance in the flow of time within that area.

James was momentarily stunned.

However, he quickly generated the Chaos Power and the Verde Power.

Then, he channeled both of those powers through the Chaos Sword.

An impressive sword energy was formed within the Chaos Sword.

Unfortunately, James noticed that the dark figure had swiftly copied his moves.

Both of them started attacking each other at an unbelievably quick pace, with the dark figure mirroring James' every move.

After several exchanges, James had sustained quite a few severe injuries.

On the contrary, that mysterious figure did not seem affected in the slightest.

"Gosh! It is as if I'm facing a new version of myself as an opponent now.

What's more, that version of me is way stronger and faster than me." James tried to catch his breath during a break.

He knew that he had to give his all in the face of that dangerous, shadow-like figure.

James initiated the Omniscience Path and started generating the Eternal Power.

His body glowed with a faint white light instantly.

As he continued to fight the dark figure, James used every technique and signature skill that he had learned so far.

That included the Blossoming, the Blithe Omniscience, and the Nine Voices of Chaos.

Still, nothing seemed to cause any substantial damage to the dark figure.

As James' powers were slowly diminishing, the figure remained consistently fast and accurate.

It was supplied with an endless source of energy by the tribulation clouds.

As time went on, James' expression darkened.

The Almighty Dragon General Chapter 4776-The shadow-like figure was unbelievably strong.

It knew every signature skill that James had mastered.

Furthermore, it had much more power than James.

Soon enough, James was slowed down by the various injuries inflicted on his body.

He was almost at his limits as he had used up most of his powers.

Just then, the dark figure materialized before James and swung the sword in its hand toward James' chest heavily.

James hurriedly held the Chaos Sword up to block its attack.

Unfortunately, the little strength he had left was not enough to deflect the figure's powerful blow.

James lost his grip on the sword, and it landed several meters away from its master.

An overpowering amount of sword energy swept toward James and sliced across his chest the next instant.

The wound was so deep that even parts of James' bones were revealed.

Before James could react, the dark figure continued to swing its sword at James, landing vicious blow after blow on his body.

Gasps of horror and shock could be heard among the ladies as they watched James take those deadly attacks from the figure.

All this while, Waleria had been trying her best to hold back from stepping forward to help James.

Since they were dealing with the Heavenly Tribulation, any onlookers who tried to interfere with the process would face serious repercussions for their actions.

However, Waleria's mind went blank as she saw James getting brutally attacked over and over again.

Her body moved the next instant.

She teleported toward the tribulation clouds and reappeared in between James and the dark figure.

Waleria raised her palm and blasted a powerful attack at the figure, sending it flying several hundred meters away.

Then, she placed her other palm against James' chest and channeled her powers into his body to heal his injuries.

At the same time, the shadow-like figure appeared to have gained more powers as its cultivation rank was swiftly raised to the Quasi Chaos Rank.

It teleported back to Waleria's side and launched an attack at her with its sword.

Waleria immediately put up a shield to block the attack.

However, the sword energy penetrated Waleria's shield and struck her almost instantly, slicing the lady's body into half.

Waleria's separated bodies vanished and reemerged somewhere a few steps away.

Her bodies reconnected, and Waleria appeared to be whole again.

Then, the lady started generating her powers to prepare for her next attack.

As her body glowed brightly with a purple light, the image of a purple flower could be seen surrounding her form.

Suddenly, James' voice rang across the space.

"Have you lost your mind?!" James teleported toward Waleria and shoved her outward with all his might.

"Do you have a death wish?! This is the Heavenly Tribulation! Get out of here now!" Waleria stopped somewhere just outside the area sealed off by the Heavenly Tribulation.

As she let down her guard, Waleria started coughing up some blood.

She returned to the airship to treat her injuries at once.

Waleria had also realized how quickly James was growing stronger.

'I could hardly take one attack from that mysterious figure just now.

That would mean that if James and I were both in the Quasi Chaos Rank, James would be able to take me down with just one blow,' thought Waleria.

On the other hand, the dark figure's powers seemed to have dropped to the original level the instant Waleria had gotten out of its attack range.

Meanwhile, James was badly injured and feeling slightly light-headed.

Still, he knew he couldn't back down now.

He summoned the Chaos Sword and tightened his grip on the handle.

Then, he resumed the battle with the dark figure.

The fierce and bloody battle between James and the powerful figure lasted for almost a thousand years.

The Almighty Dragon General Chapter 4775-Just as everyone thought that the Heavenly Tribulation was over, the tribulation clouds appeared to gather somewhere in the distance again.
