

## Read The Almighty Dragon General Chapter 5231-5234

The Almighty Dragon General Chapter 5231-“Tressencia refers to the past, present, and future.

“It’s the combination of powers of the past, future, and present.

“Combining the three isn’t as simple as one plus one. Sadly, my cultivation achievements and comprehension are limited. I can’t comprehend the true Tressencia Completare Art. I also can’t exert the true might of the Tressencia Completare Art.”

While James was speaking, he stared at Ladon.

He saw a trace of greed on Ladon’s face.

It was clear that Ladon was greedy for the Feimsurge Art and Tressencia Completare Art.

James continued, “What do you think? Do you want to take on the challenge? If you defeat me and destroy my physical body, eliminating me, I’ll take it that I’ve lost. Not only will I give you the Feimsurge Art, but I will also guide you in cultivating it. I will even guide you on Thaddeus’ signature skill, the Tressencia Completare Art. However, if you lose, you will give me your Supremusse Sword.

“You should think it through. There are many powerhouses in the outside world.

Many big shots are watching. If you lose and don’t hand over the Supremusse Sword, you will look bad.”

After that, James stopped speaking.

Ladon fell into deep thought.

Putting aside the Tressencia Completare Art, the Feimsurge Art was still worth the challenge.

Besides, the Tressencia Completare Art, the signature skill of the legendary powerhouse, Thaddeus, was also included in the reward. If he won the challenge, he would gain a lot.

He was weighing his and James' abilities.

He saw James showcase the Tressencia Completare Art in person before.

James could kill a powerhouse of the Petit Celestial Rank instantly.

It was terrifying.

Nevertheless, Ladon had the Supremusse Sword. The sword was a great help to him. With the Supremusse Sword, he could fight against a powerhouse of the Great Celestial Rank even though he was in the Petit Celestial Rank. He could even kill a powerhouse of the Great Celestial Rank.

Aside from that, he came from Supremusseum. He mastered countless signature skills of Supremusseum.

After thinking about all this, he became confident.

"Forty-nine, I accept your challenge. If you lose, don't regret it. Otherwise, you will have no place in this Central Plane and other planes."

Ladon's voice sounded throughout the area.

Upon hearing Ladon agree to his deal, James let out a sigh of relief.

In this way, he could get back the Supremusse Sword that used to openly belong to him. Only he could exert the sword's true might, as the sword was created by him and he was the only one who mastered the Genesis of the thousands of planes.

"With so many powerhouses watching in the outside world, I hope you don't go back on your words," said James.

Then, with one arm behind his back, he used his other hand to make a gesture.

He said, "Make a move. Let me see how much of the Supernatural Signature Skill of the Supremusseum's inheritance you've cultivated."

"Since you're seeking death, I'll fulfill your wish," Ladon scoffed. Then, he pulled out the Supremusse Sword and slashed.

The slash shook the world.

A trace of Sword Energy emerged. The Sword Energy split into two, then into four, eight, and sixteen.

In an instant, countless Sword Energies appeared in the area.

Each Sword Energy contained a different power and the Genesis of a plane.

There were both powerful and weak Genesis.

The powerful ones were the Genesis of ninth-level planes, while the weak ones were the Genesis of first or second level planes.

‘This Sword Path is called Thousand Thoughts. It’s a Sword Path exclusive to the Supremusse Sword.’

Ladon’s voice rang in the area.

As his voice sounded, the countless Sword Energies had already engulfed James.

“Huff!”

James took in a deep breath.

He was extremely familiar with the power of the Genesis Path, but he had to act as if he was unfamiliar with it.

The Almighty Dragon General Chapter 5232-There were countless Sword Energies.

Each Sword Energy was a Genesis Sword Energy.

A Genesis Sword Energy formed by an average sword was already extremely strong. Thus, the Genesis Sword Energy formed by the Supremusse Sword was even more terrifying.

Any one of its Sword Energy could kill a powerhouse of the Petit Celestial Rank.

Ladon’s attack was a terrifying killer move.

The living beings from the other cities were sure they would not be able to handle it. They would choose to avoid the attack if they were facing it.

James was not an exception. He believed that his physical body could not resist the attack of these Genesis Sword Energies. He also believed that the Supernatural Signature Skills he cultivated could not resist these Genesis Sword Energies.

The Tressencia Completare Art was his ultimate move.

Even if he used the Feimsurge Art and obtained the power that surpassed his current cultivation rank, once he used the Tressencia Completare Art, it would consume a lot of his strength.

When there was no absolute certainty that Ladon could be killed with one move, James would not use the Tressencia Completare Art.

If he used the Tressencia Completare Art and failed to kill Ladon, he would lose the battle.

If he lost the battle, it would be hard to get the Supremusse Sword back.

At this critical moment, James used the Blithe Omniscience and avoided the attack.

However, when his body appeared in the distance, he was surrounded by Sword Energies again.

These Genesis Sword Energies were strange. They could sense James' aura and follow him automatically. They launched fatal attacks on him.

James dared not act recklessly.

He used all the Supernatural Signature Skills he could showcase.

Firstly, he entered the state of the Marciais Path. With the Heart Power of the Marciais Path, his power increased a bit. The Heart Power greatly enhanced his strength.

Then, he used the Defying Heavens Art.

The energies of small worlds in his body were released at once. Right after that, the power of heaven and earth gathered in his body quickly.

With the power of heaven and earth, he reshaped his spine.

At this moment, he was heaven and earth.

He took thirty-three steps.

Even though the space here was stable and had the power of the Martial Celestial Rank, the void here still collapsed at his steps. The Genesis Sword Energies in the surrounding area were also shattered.

Now, James was in his strongest state.

Aside from the Supernatural Signature Skills he mastered in his previous life, he also used the Supernatural Signature Skills he cultivated in this life.

Swoosh!

At this time, an invisible Sword Light appeared.

The Sword Light was dazzling.

James avoided the Sword Light in time.

Nonetheless, his speed was a bit too slow. His arm was pierced by the Supremusse Sword. A startling wound appeared.

Even though his physical body was invincible and had Gaius' Petrification, his body still could not resist the Supremusse Sword's attack although it was being strengthened again and again.

Before he could react, Ladon attacked again using the Supremusse Sword.

Ladon used a unique motion of Supremusseum.

His speed was uncanny.

He constantly materialized around James. James could not fight back at all.

In a short span, James was slashed thousands of times. His body was covered in wounds and blood. He was bloody.

"Haha."

In the distance, Ladon's disdainful laughter sounded.

“It’s such a waste that Dieux Academy’s signature skill, Feimsurge Art, is in your hands. If I master the Feimsurge Art, with the Supremusse Sword in my hands, I can fight against a powerhouse in the initial stage of the Martial Celestial Rank.” Ladon pitied James.

He pitied that James’ cultivation rank was too low. Even though James had mastered the Feimsurge Art, he was destined to fail.

At this instant, countless Sword Energies aimed for James.

The Almighty Dragon General Chapter 5233-The Sword Energies intertwined and formed a Sword Net and Sword Formation.

As the Sword Energies crossed over one another, they tore the void, causing many cracks to appear.

However, at this moment, James’ body dissolved. Following the dissolving of his body, his body turned into numerous inscriptions. The inscriptions gathered and formed a mysterious formation.

James was sitting with his legs crossed above and below the formation.

At this time, his past and future forms took action simultaneously.

The formation constantly rotated, exuding a powerful power.

With the power of the formation and his past and future forms, he broke the Sword Formation.

In the blink of an eye, his past and future forms appeared behind Ladon.

Both forms attacked Ladon.

“Get lost,” shouted Ladon. Waving the longsword in his hand, he shattered James’ past form.

Instantly, James’ past form disappeared.

Although Ladon had shattered James’ past form, he was attacked by James’ future form from behind.

The force knocked Ladon’s body forward and made him spit blood. Startling wounds appeared on his back.

Even though the Supremusse Sword was strong, his physical body was too weak. If James could find a chance to get close to him, he would have a chance of killing him.

Ladon realized this. He raised the Supremusse Sword in his hand.

An extremely strong power emerged from the Supremusse Sword. The power rose from the sky like a dragon before landing. It landed around him, forming a protective cover.

It was a protective cover formed by the Genesis of many planes.

This was the might of the Supremusse Sword. Not only could it form the Genesis of many planes to attack enemies, but it could also be used as a defense.

Although Ladon could not exert the true might of the Supremusse Sword, with his cultivation rank, no living being in the same cultivation rank could break the Genesis Protective Barrier formed by the Supremusse Sword.

In fact, even powerhouses at the initial stage of the Great Celestial Rank might not be able to break the Genesis Protective Barrier.

“Ladon truly is terrifying.”

When Wubbe saw this scene from the Elysium Hall, he could not help but be frightened. He muttered, “With the Supremusse Sword, he can be invincible. Even though Forty- nine has the Feimsurge Art and Tressencia Completare Art, his cultivation rank is too low.

The outcome of the battle is pretty obvious.”

If Wubbe of the Elysium Hall could decipher this, the Petit Celestial Rank powerhouses of the other cities would also be able to. All of them knew that James would lose this battle.

On the battlefield, James’ past form, which was wiped out, returned to the formation.

After his future form attacked Ladon, it quickly returned.

In the world where the arena was, a mysterious formation appeared in the sky.

The formation was formed by James. It contained James' Zen.

"Darn."

Upon sensing the Genesis Protective Barrier, James could not help but curse.

Breaking the Genesis Protective Barrier was a difficult task.

"What should I do?"

James was anxious.

"Do I need to integrate the Genesis Inscriptions of the complete plane into the formation?"

"Even though I can defeat Ladon this way, my identity will be revealed. By then, countless powerhouses will search for me."

James was getting restless.

He knew the defense of the Genesis Protective Barrier.

There were only two ways to break the barrier.

One, he could use the Tressencia Completare Art, the combination of the past, present, and future.

Second, he could integrate the Genesis Path into the formation.

Now, James was in a desperate situation.

The Almighty Dragon General Chapter 5234-Ladon was invincible.

He held the Supremusse Sword. The Genesis contained in the sword formed a protective barrier. With James' current strength, it was hard for him to break the protective barrier.

He fell into a dilemma. He did not know what to do.

In the distant void, Ladon held the Supremusse Sword, and a protective barrier formed by the Genesis surrounded him. There was a smile on his handsome face.

“Forty-nine, how are you going to fight against me?” James’ expression was heavy.

He had not thought of what to do, but Ladon had already launched an attack.

Ladon’s body flashed. In the next second, he appeared before the formation that was formed by James.

Dazzling Sword Energies emerged from the Supremusse Sword. The Sword Energies with invincible power, attacked the center of the formation.

Just then, the formation of the void disappeared.

When it reshaped, it engulfed Ladon.

The moment Ladon was engulfed, James’ past and future forms attacked him simultaneously.

James’ past and future forms were powerful and uncanny.

Nonetheless, Ladon had the protection of the Genesis. No matter how strong James’ past and future forms were, James could not break the Genesis Protective Barrier.

James could not harm Ladon.

As the formation rotated continuously and exuded strong power, the power sealed Ladon in the area.

Ladon could not move.

“Not bad.” Ladon smiled.

Although he could not move, he could use his power. Forcefully, he waved the Supremusse Sword. Several Sword Energies emerged from the sword.

The powerful Genesis Sword Energies pierced through James’ mysterious formation.

As the formation shattered, it turned into countless mysterious inscriptions. The inscriptions gathered in the distance and formed James’ present form.

James' hair was messy. He was covered in wounds. He appeared to be in dire straits.

On the other hand, his past and future forms were unharmed.

His past and future forms constantly appeared around Ladon and attacked him.

However, their attacks were blocked by the Genesis Protective Barrier. No matter how strong and terrifying his past and future forms were, they could not cause substantial harm to Ladon.

In the outside world, in the apex main hall of Dieux Academy, many powerhouses gathered.

Upon witnessing this scene, the powerhouses knew the outcome of the battle.

Even though James cultivated Dieux Academy's signature skill, the Feimsurge Art, his cultivation rank was too low. He could barely win by relying on the Feimsurge Art.

The possibility of James winning this battle was small. It was so small that it could be ignored.

In the world where the arena was, the powerhouses of the Petit Celestial Rank from other cities had heavy expressions.

With the Supremusse Sword, Ladon was invincible. No living being in his cultivation rank was his match.

Thankfully, Ladon was not their opponent. Otherwise, they would have been eliminated.

On the battlefield, James' injuries were severe.

He could only rely on the Blithe Omniscience to avoid Ladon's attacks.

Ladon's attacks were becoming more aggressive. Although James had the Blithe Omniscience, he could not avoid all of Ladon's attacks.

Swoosh!

A Sword Energy pierced through the void and appeared silently.

James was injured. He was careless.

He failed to dodge this Sword Energy in time.

His body was pierced by the Sword Energy.

A bloody hole appeared on his chest as blood flowed out.

This was the terrifying part of the Supremusse Sword.

Without the Supremusse Sword, Ladon could not destroy James' defense.

However, with the Supremusse Sword, he could injure James easily.
