

## Read The Almighty Dragon General

The Almighty Dragon General Chapter 5276-James was confident. As long as nobody prevented him from entering the forbidden area, he could easily bypass and take away the treasures he had stored in his previous life.

With James' persistence, Lemuel finally agreed to help lure away the guards outside the formation.

Lemuel asked, "So when do we act?"

After James thought for a while and said, "We shouldn't rush it. Let's wait until more than more people enter the Supremusseum. If there's only a few people, there's a higher chance of us getting exposed."

Lemuel nodded gently.

Afterward, they waited patiently in the Supremusseum.

Thirty thousand years passed in the blink of an eye.

During these 30,000 years, James had not been idle.

Instead, he had been cultivating in the time formation. He still had a few Emphyrean herbs on hand and raised his cultivation rank to the Sovereign Third Rank's middle stage. Although it had only improved a little, his progress was considered impressive.

The Supremusse Lotus was about to bloom soon, and the Supremusseum was crowded with powerhouses from different planes.

At night, James and Lemuel gathered together.

James said hushedly, "The Supremusseum is already full of people. It's a pretty good time to take action."

Lemuel nodded lightly and replied, "After I take action, I'll set up a barrier to prevent anyone from detecting what is happening inside the forbidden area, nor can they extrapolate it. However, it will only last for about one minute."

Remember, you only have one minute and must evacuate before time is up.” James clasped his hands and said, “Thank you, Lemuel. One minute is more than enough.”

“Alright. Let’s go,” said Lemuel.

The two quietly left the residence. Soon, they arrived near the forbidden area.

James hid in the dark. Meanwhile, Lemuel changed his aura. Then, he disguised himself as a middle-aged man in a black robe and mask, making it impossible to see his appearance.

“Who’s there?!!” The guard at the Martial Celestial Rank’s early stage immediately spotted Lemuel and stood up.

Lemuel immediately dashed off.

“Where can you escape to?!!” The guard chased after him. Suddenly, a few mysterious inscriptions fell from the sky, trapping him and the other guards.

James quickly seized the opportunity and rushed toward the formation without any hesitation.

The formation did not repel him, and he easily entered the forbidden area. Then, he quickly stored everything into a storage treasure and left.

Everything happened in a few seconds.

A minute later, the guard who had chased after Lemuel returned to the forbidden area. He quickly notified Quirijn about the incident.

Soon, Quirijn and some other powerhouses of the Supremuseum arrived.

The guard explained everything that happened.

Quirijn’s face darkened. He waved his hand and unleashed his powers, wanting to recreate the scene. However, his extraordinary powers could not replay the scene that had happened in the area.

“Damn it.” Quirijn’s expression was terrifyingly grim. “What a mysterious power.”

The Almighty Dragon General Chapter 5277-“Even Sir Quirijn can’t recreate the scene here? Who the hell broke into our forbidden area?”

‘The intruder didn’t cause any fluctuations in the formation, so I doubt he made it into the forbidden area.”

‘The Supremusmuseum’s founder set up this formation. Ordinary cultivators aren’t capable of breaking through it.”

The Supremusmuseum’s powerhouses began to discuss.

“Who was it? Did you see the intruder’s face?” Quirijn asked with a grim expression.

The guard at the Martial Celestial Rank’s early stage replied truthfully, ‘The intruder was wearing a mask. I couldn’t see his face. He was incredibly fast.

After I noticed him, I immediately chased after him but still lost track of his aura almost instantly.

Quirijn frowned, thinking about the possible identity of the intruder.

Unfortunately, he could not break the formation and enter the forbidden area to verify whether someone had intruded. Moreover, he had no idea what was hidden within the forbidden area.

He ordered sternly, “Keep this incident a secret. I want the Ten Elders to pay close attention to everyone who had entered the Supremusmuseum. I’d like to see who the bold intruder is.”

“Understood,” the Ten Elders replied simultaneously.

Meanwhile, James returned to his residence. 1 Lemuel had already come back in advance and had restored his previous appearance and aura. He sat on a chair in the yard with a leisurely expression.

When he noticed James, he asked smilingly, “How did it go?”

“Perfect.” James walked over and sat down beside Lemuel.

Lemuel was incredibly curious about the Ulus, the legendary treasure. He said anxiously, “Quickly check if there’s anything about Ulus.”

James summoned a few ancient books that contained various Supernatural Powers. However, in his past life, James was only interested in the Genesis Path, and he completely neglected all these other books.

After casually sensing the content of the pile of books, James noticed one that stood out. The book was thick, and its cover had already turned yellow. A few ancient words were engraved on the cover, reading-Dark Secrets.

James searched his memories and remembered finding the book when he and a group of powerhouses entered a strange space in the Dark World.

Inside the unusual space, there were no other living beings. However, it was full of graves.

James dug up the book from one of the graves.

The graveyard was full of traps, and most of the group that entered with him died except him and another woman.

The woman was none other than Xezal's past self, Lady Wikolia.

After remembering these past events, James opened the book and reviewed it.

Lemuel walked over curiously.

In the book, a few secrets about the things in the Dark World's depths were recorded.

James and Lemuel learned about the Primevals that existed before planes. On the last pages of the book, information about Ulus was recorded.

'There truly is something about the Ulus.'

James was excited after reading about the Ulus.

The Almighty Dragon General Chapter 5278-Many things about the Dark World were recorded in the Dark Secret. Even Lemuel, who had reached the Holy Celestial Rank, was unaware of these things. Although he had great strength, he had never ventured into the Dark World. Thus, he never had the chance to come in contact with the Primevals.

James never expected the Dark World to have so many secrets. He read the entire book and learned the Ulu was a treasure left behind by a powerful Primeval called the Glacem Race.

The Ulu was a magical item formed inside the Dark World. The Four Ancient Races wanted to seize it for themselves. Eventually, they joined forces and wiped out the Glacem Race. However, they failed to obtain the Ulu, and it disappeared along with the destruction of the Glacem.

The ancient book did not have detailed information about the Ulu, but it mentioned clues about it were scattered in the Glacem's ruins.

Lemuel asked, "Who else has read this book, James?"

James thought about it and replied, "Back then, I entered the Dark World with a group of powerhouses. We stumbled upon an abandoned space by chance.

After we entered a graveyard, most of the group died except for me and Lady Wikolia. After obtaining this book, I never read it, but Lady Wikolia has already gone through it."

Lemuel said, "Then, Lady Wikolia was most likely the mastermind of your demise."

James was slightly flabbergasted by the possibility. After some time, he shook his head and said, "I don't think so. Lady Wikolia had been pursuing me in our past lives. She is from an influential background, yet she followed me around without asking for much. I doubt she would conspire with others to kill me."

Lemuel said, "She's the only person that has read the book. Although there aren't any useful clues to the Ulu's whereabouts, you both are the only ones that had made it out of the graveyard alive. She probably thought you had already obtained crucial clues about it and spread false news to get other powerhouses to kill you."

James nodded lightly, agreeing that Lemuel's suspicion was reasonable.

"Lady Wikolia...Xezal..."

James' face darkened, and he said coldly, "Sooner or later, the truth will come to light. You better not let me find out you were involved. Otherwise, I'll shred you into pieces."

Lemuel did not continue on the topic. He looked at James and asked, "What are you planning to do next?"

James replied, "In my past life, we most probably stumbled upon one of the Glaciem Race's ruins. I'm guessing the Glacies' territory split apart into several ruins after it was destroyed. To obtain the Ulus, we'll have to search for other parts of its ruins and find clues."

Outside the universe, Yuvin muttered, "Interesting. Back then, none of the Ancient Races managed to find the Ulus. Now, we finally have some clues. I must report this back to Sir Talvelai as soon as possible."

Thea looked at him pleadingly and said, "Please, don't tell my father about this."

James will definitely go searching for the Ulus. Father will also send people to look for it if you report this to him. If that happens, James will have to fight my father's men. I don't want that to happen."

Yuvin replied, "You don't understand how powerful the Ulus is, Princess. It's an extraordinary treasure. Whoever obtains it will be able to obtain an indestructible body. If we can obtain the Ulus, our race will rise above the other three Ancient Races. We'll become the strongest in the Dark World."

Suddenly, his face became solemn. Then, he murmured, "Something doesn't seem right. Back then, the Four Ancient Races joined forces to destroy the Glaciem Race."

Afterward, they searched the entire Glaciem territory. However, they couldn't find it. Who left behind the Dark Secret? Why is it recorded that there are clues about the Ulus inside the Glacies' ruins?"

Yuvin was a bit confused, but he put his thoughts away. He wanted to report the matter to Talevelai. After all, the Mevryees could rise and become the leaders of the Four Ancient Races if they obtained the Ulus, and they would not have to compromise with the other races anymore.

The Almighty Dragon General Chapter 5279-Yuvin did not agree to Thea's request. To him and the Mevryees, James was insignificant. More still, Thea was also just a disposable asset to the Mevryees.

Thus, he couldn't agree to her request.

Thea felt helpless. She frowned, thinking about what to do. She had to prevent James from looking for Ulus. Otherwise, he would have to confront the Mevryees' powerhouses and would die.

James and Lemuel finished reading the ancient book.

Although the book mentioned the Four Ancient Races, it did not mention their strength. Therefore, neither James nor Lemuel were aware of how strong they were. Despite that, they could tell the Ancient Four Races were powerful. They had existed way before planes had even formed and had lived for so long. It was only natural for them to overpower the planes' powerhouses.

James looked at Lemuel and asked smilingly, "What do you think? Do you want to venture into the Dark World's depths and meet the Primevals and the Four Ancient Races?"

Lemuel replied with a smile, "I'm quite intrigued. However, you should wait until the Supremusseum's event is over."

"Alright." James nodded.

The two waited patiently in the Supremusseum for the Supremusse Lotus to bloom.

Meanwhile, Thea and Yuvin also waited outside the universe.

Thea looked at Yuvin and asked, "When will you take action?"

Yuvin said smilingly, "We'll have to wait for the Supremusse Lotus to bloom.

Although its energy is already abundant before it fully matures, it's not as good as when it blooms. The Supremusse Lotus' quality is outstanding. If I can obtain it, I'll probably reach the Holy Celestial Rank's middle stage after cultivating for a while."

Thea looked at Yuvin pleadingly. "Please, Mr. Yuvin..."

Yuvin waved his hand and said, "I know. You want to give the Supremusse Lotus to James. I didn't mean to take it for myself. Plus, at my cultivation rank, Emyrean herbs can't help me improve. I'll still need to rely on my comprehension abilities. I'll give the Supremusse Lotus to James. Take it as the Mevryee's way of making it up to you."

Thea sighed in relief.

Ten years passed in the blink of an eye, and the Supremusse Lotus was about to bloom.

In the past years, the Supremusseum's powerhouses have been carefully surveying their territory, as well as watching the powerhouses that have entered the Supremusseum.

However, nothing seemed out of the ordinary, and they could not find out who had infiltrated the forbidden area.

Soon, the Supremusse Lotus was about to bloom.

The Supremusseum invited the powerhouses to head over to where the Supremusse Lotus was being kept and wait for it to bloom.

In the void ahead, there was a rooted lotus.

The Supremusse Lotus had stunning and colorful cloudshaped petals. Even though it had not fully bloomed, it was already a fantastic view.

The Almighty Dragon General Chapter 5280-“Amazing.” “The Supremusse Lotus is a rare treasure. I heard the Supremusseum's founder acquired the Supremusse Lotus from a forbidden area in the Dark World. When he brought it back, only its roots were left. He used the Genesis Power of countless planes to nourish and revitalize it.”

“Yeap, that's right.”

“The air here contains the Genesis Powers of countless planes. The Supremusseum's founder personally set up the formation here, which continuously provides the Supremusse Lotus with energy.”

“Whenever the Supremusse Lotus blooms, the Supremusseum would only harvest the flower and won't damage its roots.”

Many discussions about the Supremusse Lotus broke out. Even the Supremusse Lotus' origin was shared.

James also stood amongst the crowd. He looked at the Supremusse Lotus with furrowed brows. His initial plan was to uproot the Supremusse Lotus since it was the Supremusseum's core.

It would benefit him greatly to uproot the Supremusse Lotus. However, Lemuel had refused to help him. With James' current strength, it was impossible for him to stand against the Supremusseum.

A few magical clouds gathered together and formed into the Supremusse Lotus' petals.

Suddenly, a multicolored ray permeated the sky and illuminated the area. It was a beautiful sight, as if straight out of a fairytale.

"The Supremusse Lotus has bloomed!"

"What a breathtaking sight." i "Quick! We should cultivate now."

"It's rumored all of the plane's Genesis Paths would merge when the Supremusse Lotus blooms. It's the perfect time to cultivate the other planes' Genesis Paths."

Many powerhouses sat in lotus positions on the ground and began to cultivate.

Although it was an excellent opportunity for the others, it meant nothing to James.

James had cast a formation in the area and nourished the Supremusse Lotus in the past so the Supremusseum's members could improve.

Quirijn smiled after seeing the powerhouses sitting on the ground. His ego had been greatly satisfied.

Thea and Yuvn watched from outside the Supreme Universe.

Thea looked at Yuvn and asked, "Can you take action now?"

Yuvn nodded and said, "Yeah. It's time. You should leave first. I'll go grab the Supremusse Lotus and come look for you."

Thea nodded lightly and left the area.

Yuvn stepped forward and entered the Supreme Universe. In a short moment, he arrived at the spiritual mountain where the Supremusseum was located.

The Supremusseum usually had a protective formation set up around the area.

However, they had deactivated it to hold the grand event. They were not afraid of other forces invading them.

Yuvín strode forward and soon arrived where the Supremusse Lotus was.

“Haha. The Supremusse Lotus is wonderful. Its energy is so abundant, and the sight of it in full bloom is wonderful.”

While the countless powerhouses tried to cultivate, a burst of laughter resounded in the area. Everyone raised their heads and looked toward the source of the voice.

An ordinary-looking man in a black robe floated ahead, looking at them calmly with his hand behind his back.

“Presumptuous!” After seeing the unfamiliar intruder before them, an elder from the Supremusseum scolded him. Then, he raised a hand, and a spectral palm dashed toward the intruder. The spectral palm enlarged to the size of a mountain and charged at Yuvín.
