

Read The Almighty Dragon General Chapter 5281

The Almighty Dragon General Chapter 5281-“Haha.” Yuvin chuckled, and then he instantly shattered the spectral palm with a snap of his fingers.

“I came here for the Supremusse Lotus and didn’t want to kill anybody.

Irrelevant people should leave immediately to avoid losing their lives. I’ve already given a warning, so don’t blame me if you die.”

Yuvin’s voice echoed throughout the area.

“He’s quite strong.”

“The person who attacked him was one of the Supremusseum elders, who is at the late stage of the Martial Celestial Rank. He had struck with full force, but his attack was neutralized so easily.”

Many powerhouses were startled by the sight.

James was also flabbergasted. He was about to try to persuade Lemuel once again, but another powerhouse suddenly showed up to snatch the Supremusse Lotus.

Lemuel had a solemn expression. He had seen almost all the powerhouses throughout all the planes. Even if he had never met them before, he knew about their existence.

However, the intruder before him was an unfamiliar face.

All Lemuel knew about the intruder was he was a powerhouse at the Holy Celestial Rank. He frowned and murmured, ‘The Holy Celestial Rank? When did a powerhouse like him exist?’

Swoosh!

Quirijn leaped into the sky, and the Supremusseum’s Ten Elders followed suit.

A few of the Supremusseum’s Ten Elders were at the peak of the Martial Celestial Rank.

Quirijn shouted, "How dare you cause trouble in the Supremusseum! You must have a death wish. I don't care who you are or where you're from. Today, you will die in the Supremusseum."

After Quirijn became the ruler of the Supremusseum, nobody dared to cause trouble for them or act recklessly in their territory.

"Haha," Yuvin laughed, and his aura immediately grew stronger.

Yuvin's aura suppressed the Supremusse Lotus' energy and caused cracks in the void around him. Suddenly, a few mysterious law inscriptions.

'This..."

"He's at the Holy Celestial Rank!"

"Quick, get to safety."

A few powerhouses who came to see the Supremusse Lotus were startled by Yuvin's powerful aura. They immediately knew he was a powerhouse at the Holy Celestial Rank. Afraid to get caught up in the fight, they quickly evacuated.

"Let's go, James." Lemuel turned the startled James and quickly pulled him away from the Supremusseum. The next moment, they appeared outside the Supreme Universe.

"Wait, Lemuel," James said with desire, "While there is a powerhouse causing a commotion and the entire Supremusseum's focus on him, it's the perfect chance for you to seize the Supremusse Lotus."

Lemuel frowned and said, 'The intruder is at the same rank as me. However, I don't know anything about him. It's really strange. I suspect he is someone from the Dark World's Ancient Races."

"The Dark World's Ancient Races?" James frowned. They had just learned about the Primevals and Ancient Races. Unexpectedly, they encountered one right after learning about their existence.

Lemuel said, "We shouldn't act recklessly. Let's watch how things unfold. If it becomes chaotic, and a chance to seize the Supremusse Lotus arises, I'll take it." Initially, Lemuel had no intention of stealing the Supremusse Lotus if

he had to rely on himself alone. However, things were different with the intruder's appearance.

The Almighty Dragon General Chapter 5282-Lemuel had changed his mind and planned to seize the Supremusse Lotus if the right opportunity arose. He stood outside the Supreme Universe and watched the events unfold at the Supremusseum.

Yuvin floated into the void with his hands behind his back. He calmly looked at Quirijn and Supremusseum's Ten Elders.

Quirijn's face was solemn, knowing his opponent was at the Holy Celestial Rank. Although he was at the peak of the Martial Celestial Rank, there was still a considerable gap between his strength and that of a powerhouse at the Holy Celestial Rank. Moreover, he had lost the Supremusse Sword, and his combat strength had been weakened significantly.

"Who the hell are you?" Quirijn said coldly, "The Supremusseum has no grievances with you, so why did you infiltrate us?"

Yuvin replied calmly, "I want the Supremusse Lotus. Hand it over, and we can avoid a battle."

"I'd like to see how strong someone at the Holy Celestial Rank is!" Quirijn's face darkened.

In the past, Quirijn had only heard about the Holy Celestial Rank. He had never come face to face with one, so he was unaware of the strength of a powerhouse at the Holy Celestial Rank.

Quirijn's aura instantly skyrocketed. Suddenly, multicolored rays emitted from his body, each representing the Genesis Power of a plane.

"The Genesis Path Scripture?" Many of the powerhouses spectating were surprised.

James smiled faintly while watching from outside the Supreme Universe. He knew Quirijn could only perform the first part of the Genesis Path Scripture.

The Genesis Path Scripture was divided into two parts. The first part was about cultivating the Genesis Paths of different planes. It was relatively

straightforward. One would just need to travel to a different plane, acquire their Genesis Path, and cultivate it.

James murmured, "It seems Quirijn hasn't been idle these few years and had been collecting the Genesis Paths of the other planes. However, it's only an imitation of the Genesis Path Scripture and not the real deal." At the Supremusmuseum, Quirijn summoned the Genesis Powers of several planes. A few of the Genesis Powers were relatively weak and came from, at most, second-level planes, and there were also several of them that originated from ninth-level planes.

Suddenly, Quirijn took action. He appeared in front of Yuvin instantly and thrust his palm forward. Countless Genesis Powers gathered in his palm and shot out.

"You're unnecessarily flashy." Yuvin smiled lightly. Then, he raised his hand and blocked Quirijn's attack.

Boom!

Their palms clashed, and their powerful forces intertwined.

Quirijn was instantly blown away, and blood dripped from the corner of his lips.

Even though he was at the peak of the Martial Celestial Rank and had been working hard to collect the Genesis Paths of the other planes, the disparity in his strength with Yuvin was wide.

Yuvin felt his arm go numb. A powerful force snaked up his arm and caused discomfort all over his body. He quickly urged his strength to expel the foreign force in his body.

After their first confrontation, Yuvin stood motionless in the void. It was evident that he had the upper hand. At the same time, he had a rough gauge of Quirijn's strength. He was confident in killing Quirijn, but he had to use Supernatural Powers or other combat means. Besides Quirijn, he also had to deal with the Supremusmuseum's Ten Elders.

Even though he was faced with countless opponents, Yuvin was confident in killing them. However, it was not a life-and-death battle. His goal was to take

the Supremusse Lotus and leave, wanting to avoid getting too involved with the Supremusseum.

In the distance, Quirijn's face was terrifyingly grim.

"Set up the formation!"

Following his order, the Ten Elders quickly scattered.

The Almighty Dragon General Chapter 5283-The Supremusseum's Ten Elders spread out in the void and flickered throughout the area, causing the area to look distorted.

"What is that?"

"It's the Supremusseum's Eradication Formation!" "The Supremusseum's founder created the Eradication Formation. It requires the Supremusseum's Ten Elders to cast. Everyone knows about the formation, but nobody has seen it before."

The powerhouses that have left the Supremusseum began to discuss after seeing the Ten Elders casting the Eradication Formation."

Outside the Supreme Universe, Lemuel looked at James and said admiringly, "You're a genius. How did you create such a powerful formation? Does it have any weakness? How can it be broken?"

James shook his head lightly and said, "It has no weakness. Unless you can overpower its strength, there's almost no way to break it, and you'll be slowly exhausted to your death."

Lemuel did not take action and watched patiently from outside the universe.

The Supremusseum's Ten Elders flickered up and down in the void. At that moment, their auras merged and instantly caused the overlapping of a few spaces.

Yukon was trapped within the overlapping spaces.

"Break!" He shouted and used all his strength to try to break the formation.

Boom!

The space around his body cracked, and he broke three layers of the formation.

Even though Yuvin was powerful, he could only shatter three spaces at once.

Now, there were seven more layers.

However, the broken layers instantly repaired themselves.

At that moment, the formation unleashed a powerful force and put significant pressure on Yuvin.

Under the crushing pressure, Yuvin's speed was affected.

Outside the formation, the Ten Elders summoned their swords and slashed out.

Countless Sword Energies pierced through the air and passed through the formation's layers. With each layer the Sword Energies passed, they would grow stronger.

When the Sword Energies passed through all the overlapping spaces, their strength had improved significantly.

Yuvin put away his confident demeanor and became serious.

Swoosh!

The Sword Energies inched closer to him. Yuvin dodged and clenched his fists, causing veins to bulge. He took a big step forward and swung his fists.

Countless spectral fists spread out and blocked the Sword Energies.

Quirijn hid in the formation and quietly appeared when he had the chance.

Then, he immediately jabbed his sword at Yuvin.

Yuvin was unable to react in time and was stabbed. Even though he had a strong physical body, the sword still penetrated his flesh. The different Genesis Powers spread in his body and caused him severe injuries.

"Get lost!" Yuvin was furious. He swung his palm and knocked Quirijn away.

Yuvín's terrifying force shattered a few of the formation's layers.

The Almighty Dragon General Chapter 5284-Yuvín's powerful attack knocked Quirijn through a few of the formation's layers.

Although Quirijn had injured Yuvín after the successful ambush, Yuvín counterattacked and severely wounded him.

Quirijn quickly withdrew from the formation. Immediately afterward, the Supremusseum's Ten Elders sprung into action. They reinforced the formation and repaired the shattered layers.

Powerful Sword Energies emerged around Yuvín and slashed at him, causing him injuries.

Yuvín kept dodging and deflecting the Sword Energies. At the same time, he unleashed his Zen to decipher the formation. He wanted to break the formation as soon as possible, knowing he would be exhausted to death if he could not escape.

However, he could not decipher the formation. While he was distracted, several Sword Energies slashed at him. He was careless, and his flesh was sliced open.

"Break!" Yuvín had no choice but to use brute force to break the formation. He urged all his strength and struck the formation.

Boom! Boom! Boom!

He broke through the formation's layers one after another.

However, he could not break them fast enough, and the previous layers would be repaired.

The formation was bizarre and put significant pressure on his body. A portion of his power was suppressed, and he could not exert all his strength.

The powerhouses watched from the outside.

"Tsk, ts. The Supremusseum's Eradication Formation is too strong."

"He's at the Holy Celestial Rank. Yet, he's being suppressed."

“As expected from the Supremusseum’s Eradication Formation.”

“The Supremusseum lives up to its reputation of being one of the most potent forces in the Central Plane. With such a great formation, it is almost impossible for them to be defeated. Even if the Elysium Hall attacks them with full force, they might be unable to take down the Supremusseum.”

Many powerhouses commented after gaining a newer perception of the Supremusseum’s strength.

At that moment, James and Lemuel were also watching the battle.

Lemuel praised, “Your formation is impressive. After getting trapped inside, it’s almost impossible to break free if you can’t find the people who cast it. If you can’t kill the casters, then you’ll slowly be drained of energy and will die. The formation is invincible against powerhouses at the Holy Celestial Rank and below.”

He looked at James and asked, “When you created the formation, have you never thought about being trapped inside it? Do you have any backup plan?”

James shook his head lightly and said, “No. My original intention in creating the formation was to protect the Supremusseum. I never thought about being trapped inside it myself.”

Lemuel said, “He’s a powerhouse at the Holy Celestial Rank, so he should have more up his sleeves.”

Lemuel had also created a Supernatural Power, the Feimsurge Art. Since Yuvn was also a Holy Celestial Rank, Lemuel suspected he must also have a Supernatural Power and was curious to see what it was.

Inside the formation, Yuvn was being tortured, and he looked to be in a terrible state. Since his powers were being suppressed, he could not exert all his strength to break the formation. At the same time, he could not sense the Supremusseum’s Ten Elders’ whereabouts and could not kill them to deactivate the formation.

His hair was messy, and blood was dripped from his lips.

Swoosh!

At that moment, a black light ray emerged and formed into a black Bone Sword.

The sword exuded a terrifying power and looked to be made with the spine of a creature.
