The Almighty Dragon General Chapter 5285-The Bone Sword was on par with the Supremusse Sword.

Yuin gripped tightly onto the Bone Sword, and a black Sword Light emerged from it. The sword forcibly absorbed the Dark World's energy and became stronger.

"Break!" Yuin roared and slashed the sword.

A potent black Sword Energy darted out and caused a crack in the formation's central region. The damage continued to permeate and destroy the space.

Eventually, the formation's ten layers were also shattered.

Ten figures instantly emerged after the formation was broken and plummeted to the ground, destroying a few spiritual mountains.

Yuin floated in the sky. His body was covered with wounds, but he gripped his Bone Sword and emitted a powerful aura.

Quirijn and the Supremusse's Ten Elders were badly injured. Although they did not completely lose their combat effectiveness, their formation had been destroyed, and they had no other means to fight Yuin.

"That's some potent Dark Power."

"The sword must be from the depths of the Dark World."

"Could it be the infiltrator is also from the Dark World?"

Many spectators were startled by the Bone Sword's strength. The Dark Power it emitted was potent enough to make them shudder.

"So that's the strength of a powerhouse at the Holy Celestial Rank?"

"The Supremusse's Ten Elders had cast a powerful formation, yet they couldn't take down an opponent at the Holy Celestial Rank."

"He's too powerful."

The powerhouses marveled.

James' brows furrowed. He looked at Lemuel and asked, "Do you have a chance of defeating him?"

Lemuel shook his head lightly and said, "I don't know. I can't judge his real strength just with that one blow."

He was aware of the Eradication Formation's exceptional strength. It could only be broken by brute force. Despite that, Lemuel was confident he could also break the formation.

Yuvn slowly approached the Supremusse Lotus. He stopped before it, waved his hand, and uprooted the Supremusse Lotus.

Quirijn and the other powerhouses from the Supremusseum did not stop him. If they were to intervene, they would be killed.

Quirijn's face was terrifyingly grim, and he clenched his fists. He would have stood a chance against his opponent if he had not lost the Supremusse Sword.

Now that the formation had been broken, and he was without the Supremusse Sword, there was nothing he could do against a powerhouse at the Holy Celestial Rank.

The Supremusseum's powerhouses watched powerlessly as Yuvn uprooted the Supremusse Lotus.

"Who are you? Tell me your name!"

"You seized the Supremusseum's greatest treasure. I'll have my revenge in the future."

Quirijn's voice echoed throughout the area.

However, Yuvn refused to answer him. After he obtained the Supremusse Lotus, he quickly left the place, leaving no traces behind.

Outside the universe, James looked at Lemuel and said, "You should take action now. Even though he is at the Holy Celestial Rank, Quirijn has already injured him. You'll be able to snatch the Supremusse Lotus from him."

Lemuel shook his head and said, "Although he is injured and is indeed no match against me, his weapon is bizarre. He is most likely a Primeval and possibly a member of the Four Ancient Races. If I take action, I might make an enemy out of the Dark World's Four Ancient Races. It'll cause both of us a great deal of trouble."

James' brows furrowed.

The Almighty Dragon General Chapter 5286-After carefully considering it, Lemuel decided not to take action against Yuvin.

James was rather helpless and could only watch as the Supremusse Lotus was taken by someone else.

Yuvin quickly escaped, worried the other powerhouses would chase after him. In his current state, he would not be able to fight a top powerhouse. He hid his aura and entered the Dark World.

As soon as he entered the Dark World, he fell to the ground and spat out a mouthful of blood. Suddenly, his body also began to disintegrate.

Thea quickly approached him and asked worriedly, "Are you okay, Mr. Yuvin?"

Yuvin sat up with difficulty and began to treat his wounds. His face was pale as a sheet. He looked at Thea and said, "The Supremusseum's formation was incredibly potent. I underestimated them and almost perished in their hands. If we can get our hands on the formation, our race will become even stronger."

After being trapped inside the formation, Yuvin realized how powerful it was.

Fortunately, the Supremusseum's Ten Elders were not particularly powerful.

Only a few were at the peak of the Martial Celestial Rank, and the rest were at the Martial Celestial Rank's early stage.

It would have been tough for him to escape the formation if the Supremusseum's Ten Elders were all at the Martial Celestial Rank's peak.

"I'm sorry. You got hurt because of me," Thea said apologetically.

Yuvin waved his hand and said, "I'm fine. I'll recover soon."

After the brief conversation, Yuvin focused on treating his wounds.

The Supremusseum's event was interrupted by Yuvin's sudden intrusion. After the battle, their strongest powerhouses were injured.

Although the Supremusse Lotus had been stolen, nobody dared to make fun of the Supremusseum. The intruder that stole the Supremusse Lotus was powerful, and nobody in all the planes had the confidence to stand against him.

Not even Elysium Hall could fight him.

James and Lemuel returned to the Supremusseum.

Quirijn looked at the powerhouses that returned to the Supremusseum, clasped his fists, and said, "My guests, I apologize. I'm afraid I won't be able to let you guys see the Supremusse Lotus anymore. The Supremusseum has a really important matter to discuss and won't have time to entertain guests."

The powerhouses understood the Supremusseum was asking them to leave.

They were sensible and quickly left the area.

James and Lemuel also followed suit.

The news about the battle had spread throughout the Central Plane and to other planes almost immediately.

Countless living beings learned about the battle during the Supremusseum's grand event. Everyone was shocked to learn that powerhouses at the Holy Celestial Rank were not just myths. There really were mighty beings that had reached the rank.

"It was a great battle!"

"I was outside the Supreme Universe when the battle took place. The intruder summoned a Bone Sword and used potent Dark Power to shatter the Supremusseum's Eradication Formation.

"The countless powerhouses in the Supremusseum could only watch helplessly as the Supremusse Lotus was taken away. Nobody dared to intervene and stand in his way."

Many people were discussing the battle.

Meanwhile, James headed to the eighth-level plane he won from the bet with Hadran.

James planned to refine the Genesis Path of the plane and become the Plane Lord of it first. Then, he would harvest its resources.

Previously, he had already obtained the resources of an eighth-level plane to use at his disposal for an entrapoch. Now that he acquired an eighth-level plane of his own, he had more than enough resources. He could spend a lot less effort to improve his cultivation rank. After some time, he could also merge the eighth-level plane with the Endlos Plane and upgrade it to an eighth-level plane.

An eighth-level plane was advanced, and a fifth-level plane simply could not compare. As of now, James was still unable to merge them.

The eighth-level plane was called the Moonshine Plane. The Plane Lord was an elder of the Valiant Alliance.

□

The Almighty Dragon General Chapter 5287-Hadran arrived at the Moonshine's central region and entered a hall on one of the spiritual mountains.

Yechiel Marblemaw, the Moonshine Plane's Lord, greeted him respectfully, "Mr.

Hadran."

Although he was an elder of the Valiant Alliance, Hadran was the son of the Valiant Alliance's Leader. Hadran was only at the early stage of the Great Celestial Rank, but he held a very high status in the Valiant Alliance.

Hadran greeted him with respect, "Sir Yechiel. I came to you because something big happened..." He explained how he lost the bet while at the Supremusmuseum.

"I lost the Genesis Token to Forty-nine. After he refines the Genesis Path of the plane, he'll become the Moonshine Plane's Lord. However, he'll need your

permission before he can refine it. I can't interfere. I need you to step forward and prevent him from becoming the Moonshine Plane's Lord.

Hadran looked at Yechiel and asked, "You should know what to do, right?"

Yechiel replied, "I understand. Don't worry, leave it to me."

"Alright." Hadran nodded lightly in response. Then, he turned and left without saying another word.

James and Lemuel slowly traveled to the Moonshine Plane. Just when they were about to enter the Moonshine Plane, a powerhouse suddenly blocked their path.

James and Lemuel stared warily at the man in the black robe.

The person blocking their path was none other than the mysterious powerhouse that stole the Supremusse Lotus.

"Haha." Yuvin laughed while looking at James and Lemuel.

"What's so funny?" Lemuel asked calmly. As a powerhouse at the Holy Celestial Rank, he was not afraid of Yuvin.

Yuvin looked at James and said, "You're amazing. The formation you created almost got me killed."

James' expression darkened.

Yuvin said, "Don't worry. I'm here to make a deal with you."

"What kind of deal?" James frowned.

Yuvin answered, "I want to trade the Supremusse Lotus for the Eradication Formation." Yuvin seized the Supremusse Lotus because of Thea's request. Naturally, Thea wanted to give it to James. However, Yuvin wished to use the opportunity to acquire the Eradication Formation. With the formation, the Mevryees could trap potent members of the other Ancient Races. It could become a trump card of the Mevryees.

James was stunned by the request. "You went to such great lengths to obtain the Supremusse Lotus just to exchange it for the Eradication Formation?"

Yuin shook his head lightly and said, “No. I snatched the Supremusse Lotus for some other purpose. However, I experienced how strong your Eradication Formation was, so I came to make a deal with you.”

“Who are you? How do you know my identity?” asked James.

“Haha.” Yuin chuckled and said, “My race knows everything about you. As for my origin, it’s best you don’t know. The Supremusse Lotus will greatly benefit you, whereas the Eradication Formation isn’t useful to you right now. If you agree to the deal, I’ll let you in on a secret.”

“What kind of secret?” asked James.

“It has something to do with Thea.”

James asked anxiously, ‘What happened to Thea?’

The Almighty Dragon General Chapter 5288-James panicked upon hearing Thea’s name.

However, Yuin refused to go into details. He looked at James and said, ‘I’ll tell you about it if you agree to the deal.’

“Alright, deal,” James agreed without even thinking about it.

First of all, the formation was useless to him right now. Secondly, he needed the Supremusse Lotus. Lastly, the so- called secret was related to Thea.

James waved his hand. A few inscriptions emerged and formed into a very profound inscription.

“Here’s the Eradication Formation.” Yuin put the inscription away without even verifying it. Then, he took out a storage treasure and said, “The Supremusse Lotus is inside.”

James’ main concern was not the Supremusse Lotus. Instead, he was more worried about Thea.

“What happened to Thea?”

Yuin replied, ‘Thea is the Princess of the Mevryees, one of the Dark World’s Ancient Races. Soon, she will marry into the Yefteros. The Yefteros is the

strongest of the Four Ancient Races.” ‘What?’ James was furious by the news.

Yuvin noticed James’ anger and advised him, “You shouldn’t act rashly. I’m not telling you this for you to prevent it from happening. You don’t even have the strength to stop it. Even in your past life, you wouldn’t be able to fight against one of the Four Ancient Races.

James clenched his fists, and veins bulged on his arms.

Yuvin elaborated, “The Yefteros are terrifyingly strong. Fortunately, they don’t know Thea grew up in the Endlos Plane. They know nothing about her life there.

If you were to act recklessly, and they somehow find out about your children in the Endlos Plane, all of them will die.”

After speaking, Yuvin disappeared.

Lemuel promptly reminded James, “You shouldn’t be impulsive. It’s the Four Ancient Races we’re talking about. We just discovered their existence and have no idea how strong they are.”

“I don’t care how strong they are. I must go. I can’t let Thea marry into the Yefteros,” James said firmly.

Lemuel did not have prior knowledge about Thea and James ‘ relationship.

However, judging James’ reaction, he assumed they were most likely a couple.

James stood in the void with furrowed brows.

Meanwhile, Yuvin went to reunite with Thea.

Thea had been waiting a long time for Yuvin. As soon as he appeared, she asked anxiously, “How did it go, Mr. Yuvin?”

Yuvin nodded lightly and said, “Everything went smoothly. I’ve already handed him the Supremusse Lotus and got the Eradication Formation. Also…”

After briefly hesitating, Yuvin said, “I told him about your origin and marriage.”

‘What?’ Thea was stunned. After a while, she recomposed and said, “How could you tell him about it? With his character, he would march into the Yefteros to try and stop the marriage. You’ve practically sent him to his death. I must stop him.”

Thea knew James well. Now that James had learned about these things, he would surely try to intervene.

Yuvín did not try to stop Thea. He snapped his fingers and unleashed a magical inscription. The inscription submerged into her body while she walked away.

The inscription could isolate her aura, preventing the Yefteros, who were following them in the dark, from being able to track her. It would prevent them from finding out who she had met with. If he did not do so, they might investigate her out of suspicion and find out about her life in the Endlos Plane.

The Almighty Dragon General Chapter 5289-The outside of the Moonshine Plane was shrouded in complete darkness.

James floated in the dark for a very long time.

Lemuel called out for him, “James.”

James recollected himself and relaxed his clenched fists. He turned to Lemuel and said, “I’m fine.”

Lemuel asked, ‘You’re not really thinking about going to the Yefteros, are you?’

‘That’s a given. How could I not go?’

“You mustn’t!” Suddenly, a voice came from the darkness.

A beautiful woman in a black dress approached. She had exquisite features, long black hair, and an excellent figure. Her eyes were immediately glued to James.

‘Thea!’ James rushed over to her and tightly embraced her, afraid she would leave him.

After feeling her warmth for a while, he eased his grip on her.

Thea looked at him and said solemnly, "You can't go to the Yefteros, James. The Four Ancient Race's strength is beyond your imagination. Even if you had the strength of your previous life, you wouldn't stand a chance."

"But you're about to get married into the Yefteros. How can I just let it happen? I can't just watch as you become someone else's wife. I would rather die than let that happen."

"In this life, I endured everything to give you and our children a peaceful home."

"If I lose you, then I lose my reason for fighting."

James spoke with absolute resolution.

Thea knew convincing James was not going to be easy. She felt at a loss.

James wrapped his arms around her and said earnestly, "Thea, please give me some time. Buy as much time as possible to improve my strength to face the Four Ancient Races."

Thea's face paled at his words. She had stayed with the Mevryees for some time, and she knew how terrifying the Dark World's Four Ancient Races were.

Although James had great potential and could become a powerhouse that could stand against the Four Ancient Races, the Mevryees would not give them the time.

As of now, Thea had no choice but to agree. She looked at James affectionately and said, "Alright. After I return to the Mevryees, I'll try my best to delay the wedding. If I really can't stall it any longer, I'll send someone to notify you. But, you must promise me not to go to the Dark World before you have the strength to fight the Four Ancient Races. I'll also promise you to never marry another man. On the wedding day, I'll take my own life."

James vowed, "I won't let that happen. I'll destroy the Yefteros before the wedding ever happens."

"Please take care of yourself." Thea cast a final glance at James and left.

She could not stay any longer, knowing many eyes were secretly watching her.

She did not want to cause James any trouble, so she quickly left after briefly meeting with him.

After she left, James' expression became solemn.

Lemuel sighed and said, "It's going to be almost impossible for you to become strong enough to stand against the Four Ancient Races in a short period."

Although Lemuel did not know the true strength of the Dark World's Ancient Races, he knew Yuvin was from the Mevryees. If an ordinary member of the Mevryees were already at the Holy Celestial Rank, that would mean the rank was not uncommon in the Dark World's Ancient Races.

Even if James were to enter the Holy Celestial Rank, he would not be able to fight an Ancient Race.

The Almighty Dragon General Chapter 5290-Thea left with a troubled heart. Soon, she met up with Yuvin.

Yuvin sighed after seeing Thea's absent-minded expression and said, "This is your fate as the Mevryees's Princess."

Thea looked at him and asked, "When is the wedding date, Mr. Yuvin? Has it already been decided?"

Yuvin shook his head and said, "Not yet."

Thea felt relieved by his answer. Since the date had not been decided, she could find different reasons to try to delay it as much as possible.

Yuvin heard Thea's conversation with James. He said, "Don't waste your effort thinking about useless things. Even if you can delay it for some time, you won't be able to keep postponing it. It's impossible for James to grow strong enough to stand against the Yefteros."

Thea asked pleadingly, "Is there any other way I can buy some time?"

Yuvin replied, "You'll need to reach the Petit Celestial Rank for your Dark Body to awaken. It's what the Yefteros want."

"Then I just won't cultivate." Thea sighed in relief.

Yuvin shook his head and said, 'That won't work. The Four Ancient Races are powerful. Even if you don't want to cultivate, there are other ways to make you enter the Petit Celestial Rank quickly. However...'

Suddenly, Yuvin paused.

"What is it?" Thea looked at him.

Yuvin continued, saying, "You should be able to postpone the wedding for a while."

"How much time?" asked Thea.

Thea wanted to know how much time James had to grow his strength.

Yuvin explained, 'The Yefteros' prodigy, Yui, is in seclusion trying to enter the Holy Celestial Rank. There are two possibilities.'

"Yeah?" Thea stared at him.

Yuvin explained, "The first possibility is he gains insight in his cultivation and remains in seclusion until he reaches the Holy Celestial Rank. Then, he will leave seclusion and marry you. I can't say for sure how long it'll take. Perhaps it'll happen soon or take a very long time.

'The second possibility is that he leaves seclusion after he fails to make a breakthrough. Then, he'll marry you and use your Tenebrous Body to reach the Holy Celestial Rank.

"In short, you won't have to marry into the Yefteros anytime soon."

Thea was relieved. Now, she could only count on James to become strong enough to face the Four Ancient Races in the shortest time possible. Although the chances were slim, at least there was a glimpse of hope.

Outside the Moonshine Plane, James put away his thoughts. He took a deep breath, looked at Lemuel, and said, "Let's go and check out this eighth-level plane. I must become the Plane Lord first, then harvest its resources."

James advanced with great strides, whereas Lemuel followed closely behind.

They passed through the darkness and soon entered the Moonshine Plane.

The residence of the Plane Lord, Yechiel, was located in the central universe of the Moonshine Plane.

At that moment, a guard reported, "Sir Yechiel, Forty-nine is approaching."

James was noticed as soon as he entered the Moonshine Plane.
