

Read The Almighty Dragon General

The Almighty Dragon General Chapter 5456-The Progenitor Star originated from a core piece of the Ancestral Site. Thus, James was curious why the Endlos Plane's inscription sigils lacked magical primitive inscriptions sigils when the Ancestral Site clearly was abundant in them.

"How would I know?" Zeno shrugged, then proceeded to scan the surroundings.

The group had arrived at one end of the mountain range, and behind them was the formation they had just passed through.

"We're at the formation's border, and this area is most likely not inhabited. The Prison World is vast, and countless races are imprisoned here. After such a long time, I'm sure many of them have already given birth to descendants. This place should be pretty lively right now," said Zeno.

"Let's walk around and check out the so-called Prison World. We should learn about the place first," James suggested, then stepped forward.

Although the mountain range was rather extensive, it was easy for them to pass through. Soon, they walked out of the mountain range, and a large city entered their view. Several spiritual mountains rose from the ground and towered into the sky. A few of them looked rather grand and seemed like empires.

On the tall city wall, ancient texts were carved out— Grimstead.

The people flowed like rivers, in and out of the city gate. James could sense that their cultivation ranks were relatively weak. They had yet to enter the Sovereign Rank, and most were only at the Caelum Acme Rank.

After casually scanning the crowd's cultivation ranks, James frowned and said, "They're quite weak. I thought the people imprisoned in the Prison World were very strong, and we'd only encounter powerhouses."

Zeno thought awhile and said, "It's probably because we're not in the Prison World's central region yet. This must be just a border city. Let's go to the central region."

James nodded and said, "Alright. Let's bypass this city and head toward the central region."

Suddenly, Zeno was intrigued by a conversation he had overheard and halted in his tracks.

"I heard an ancient beast appeared in the Dunhamvale World."

"Oh, really? Where did the news come from?"

"I have a distant relative who is a disciple in the Avenir Academy. It's news directly from the Avenir Academy."

James looked at Zeno, who had come to a stop, and asked, "What's wrong?"

"We can't leave yet," Zeno replied.

"Why not?" Thea was also curious.

"Let's head inside the city first." Zeno did not explain himself but strode directly into the city.

James and Thea exchanged confused glances for a while, then followed him into the city.

First, they found themselves a residence atop a spiritual mountain to stay in. At the spiritual mountain's peak, countless independent buildings were available for rent.

After settling in an independent manor, James asked, "Why can't we leave yet?"

Zeno smiled and answered, "Have you heard of ancient beasts before?"

James shook his head, turned to Thea, and asked, "Have you?"

Thea also shook her head, expressing that she was clueless

The Almighty Dragon General Chapter 5457-Zeno explained, "I read about ancient beasts in some old books of the Heavenly Secrets Pavilion. It's rumored the Dark World's various races were born from the Ancestral Site. It's also said our various primitive inscriptions also originated from the Ancestral Site."

“Everything of the Dark World originates from the Ancestral Site. Of course, the outside planes included.

“The outside planes were separated from the Dark World because the Ancestral Site was shattered. The Ancestral Site’s energy and Law of Heaven were broken apart, eventually forming into countless planes. It’s the reason why each plane has a different Genesis Path. These Genesis Paths are shards of the Ancient Site’s Law of Heaven.”

“Alright, cut to the chase,” James said impatiently.

Zeno continued, saying, “When the Ancestral Site was still intact, every once in a while, it would create a new race. To be more precise, it would produce Primogenitors. After some time, these Primogenitors would reproduce and eventually form a race of its own.

“Just now, I overheard some people outside the city saying that an ancient beast has appeared in the Dunhamvale World.

“Ancient beasts are the Primogenitors of a new race.

However, a long time ago, powerful races of the Dark World would target these ancient beasts and capture them. If the ancient beast were strong, they would train them into their guardian beasts.”

James finally understood why Zeno made such a sudden change of plans. He asked curiously, “I thought the Ancestral Site had already been destroyed and had no value. How is it possible for an ancestral beast to be born?”

Zeno replied, “How am I supposed to know? You two wait here. I’ll go out to gather more information.”

After speaking, Zeno stood up and left the manor.

James and Thea were left dumbfounded in the living room. They looked at each other silently. Suddenly, Thea felt slightly embarrassed, and her face flushed.

She lowered her head and murmured, “Why are you looking at me like that?”

James chuckled and said, “I’d like to see how magical your Tenebrous Body is. I heard your body is like a vessel and can accommodate all kinds of

energy. If I spend time with you, then I'll be able to absorb the energy in your body and improve my cultivation rank."

After speaking, James reached out and pulled Thea into his arms. He leaned close to her, and their faces were almost touching.

"Let's go inside the room. Don't forget to set up a formation." Thea wrapped her arms around James' neck and snuggled close to him.

James lifted her and entered the room. Then, he quickly set up an isolation formation for some privacy.

The two entangled with each other for a long time on their bed. While being intimate, James' power kept growing stronger. His improvement speed was much more rapid than when he cultivated by himself.

After satisfying their desires, James entered the Holy Celestial Rank.

Thea clung to the bed, exhaustedly. She willingly offered her years of hard work to James so that he could improve. Meanwhile, she was completely drained of energy.

"How come I never realized you were so great?" James asked while embracing Thea's limp body.

Thea replied weakly, 'Tenebrous Bodies are unique. It can absorb all kinds of energy to improve one's cultivation rank and strength. Of all the different physiques throughout the Dark World's history, a Tenebrous Body is the most effective in improving one's cultivation. However, its effects can't be fully unleashed if one's cultivation rank is too weak. At my cultivation rank, the effects are very minimal. However, once my cultivation rank improves, you'll benefit greatly every time we make love.'

The two cuddled tightly in bed, enjoying each other's company.

James had sapped Thea of her energy. Fortunately, her magical physique would automatically absorb the energy from her surroundings and replenish her strength. She did not even have to cultivate to recover. Soon, Thea regained some strength.

"It seems I won't have to cultivate anymore in the future. I'll keep improving as long as I'm with you," James fondled Thea's breasts and chuckled.

The Almighty Dragon General Chapter 5458-Thea had an outstanding figure. At her cultivation rank, it was possible for her to adjust her appearance, including her body curves. James was perfectly satisfied with her current figure.

After spending enough time together, James rolled out of bed and left the room.

He stretched his body and was refreshed by the potent power he gained after improving his cultivation rank.

Thea walked out of the room after recovering her strength to join him and said, "Although my Tenebrous Body is handy, I don't think you should rely on it to improve your cultivation rank too often. You should cultivate and improve the old- school way.

"I know" James chuckled.

At that moment, Zeno returned to the manor.

"Huh?" Zeno immediately noticed James' cultivation rank had improved and exclaimed surprisedly, "I've only been gone for a few days, but you've already made a breakthrough?"

However, he immediately came to a realization after sensing that Thea's energy was nearly depleted. He chuckled and said, "Having a partner with a Tenebrous Body sure is great. It sure is worthy of being called the best physique. I also want to try..."

"Get lost." James swung his leg at Zeno.

Zeno was knocked away and crashed into the ground. Immediately afterward, he spat out a mouthful of blood.

"Seriously? I was just joking. You have such a bad temper. You can't even take a joke," Zeno walked over with a dissatisfied expression.

"Joke all you want, but Thea shouldn't be part of it." James glared at him. After a while, he changed the subject and asked, "So, have you gotten any useful information?"

Zeno's demeanor shifted, and he replied seriously, "Yeah. An ancient beast is indeed in the Dunhamvale World. However, the place has already been surrounded by powerhouses from the Avenir Academy. It's not going to be easy for us to get close."

"What's the origin of the Avenir Academy?" asked Thea.

Zeno sat down, wiped the blood from his lips, and replied, "I've asked around and heard the Avenir Academy is a major force created by a few powerhouses.

It's one of the strongest forces in the Prison World. The Avenir Academy is pretty strong, but I think we still have a chance to obtain the ancient beast."

"The birth of an ancient beast means that new primitive inscriptions have formed. It's a great opportunity we shouldn't miss."

Zeno's eyes filled with desire as he spoke.

James frowned and said, "Didn't you say powerhouses from the Avenir Academy have already surrounded the Dunhamvale World? How will we get in?"

"Hehe," Zeno chuckled and said, "I heard a grand event of the Prison World is being held right now."

"What kind of event is it?"

Zeno explained, "It's the Prison World's Grand Tournament. Most of the Avenir Academy's powerhouses should be participating in the tournament. Thus, I assume the guards the Avenir Academy sent to watch the Dunhamvale World aren't that strong. At most, they'll probably only be at the Holy Celestial Rank's early stage."

James said dejectedly, "Even if they are only at the Holy Celestial Rank's early stage, we don't have a chance. I'm only at the Great Celestial Rank's early stage. Although powerhouses at the Holy Celestial Rank can't kill me, I won't be able to overpower them either."

"We'll just have to devise a plan." Zeno was unwilling to give up. It was unlikely they would ever stumble upon an ancient beast and brand-new

primitive inscriptions again. Therefore, he refused to let the opportunity just pass them by.

James began to analyze his strength and chances of winning. He was only at the Great Celestial Rank's early stage. However, he had the Supremusse Sword and the Tempestencia Completare Art. It was still possible for him to defeat an ordinary opponent at the Holy Celestial Rank's early stage unless he encountered an exceptional powerhouse like Yui. Even if he had ten times the strength he did now, winning against such a formidable powerhouse like Yui would be impossible.

After thinking about it for a while, James said, "Alright. Let's give it a shot."

James was also quite intrigued by the ancient beast and primitive inscriptions

The Almighty Dragon General Chapter 5459-Thea suddenly interjected, saying, "Honey. My cultivation rank is really low, and I won't be much help if I go with you. I'll just wait here. If things don't work out, just come back. I'm sure there will be a better opportunity in the future."

James nodded lightly, combed his fingers through her, and said, "Mhm, I know."

Don't worry. Wait for me here. I promise I'll come back in one piece."

"Sheesh, cut it out. Have you ever thought about this poor monk's feelings while being so open with your public display of affection? Anyway, let's head to the Dunhamvale World to check out the situation," Zeno said impatiently.

James ignored Zeno's complaints and took his time bidding farewell to Thea.

After a long drag, he finally parted with her and left.

Thea immediately went to the manor's backyard, sat in a lotus position, and began cultivating. The surrounding Empyrean Spiritual Energy was immediately attracted to her. Several fragmented sigils containing powerful energy also quickly gathered.

After leaving the Endlos Plane, Thea had not cultivated seriously. Now that she was finally focusing on cultivating, she realized how powerful her Tenebrous Body was.

Countless inscription sigils gathered from nearby places and hovered above the spiritual mountain where Thea was cultivating. The inscription sigils merged and formed a brand -new inscription.

The sight caught a lot of attention from nearby living beings.

“What’s that?”

“It looks amazing.”

“It’s already impressive enough for one to sense the primitive inscriptions in the environment. Yet, someone is actually fusing them into a new inscription.

Whoever it is, he or she must be a terrifying powerhouse.”

The sight above the spiritual mountain attracted a lot of attention.

At that moment, an elderly man passed through the area and was instantly fascinated by the magical scene. He subconsciously halted in his tracks and stared in the spiritual mountain’s direction. He was shocked that although Thea’s cultivation rank was relatively low, she had a rare Tenebrous Body. He laughed and rejoiced, “If I can have her, I’ll rise to become the best of the Prison World.

Even the Avenir Academy, Divine Palace, and Eminence Academy would have to bow before me!”

The Blademaster of Mount Grinch stared at the spiritual mountain where Thea was with greedy eyes. He was a powerhouse at the Holy Celestial Rank’s middle stage. The Prison World’s powerhouses were participating in their Grand Tournament. However, he felt unconfident and refrained from participating in the tournament.

After learning that an ancient beast had appeared in the Dunhamvale World, he planned to capture it before the powerhouses participating in the tournament came after the event.

By coincidence, he stumbled upon someone with a Tenebrous Body while passing by the area. Although she was only at the Sovereign Rank, she would be useful once she improved.

The man’s body flashed and appeared on the spiritual mountain.

“Who’s there?!” Thea immediately stopped cultivating after sensing someone nearby. Before she could react, a powerful force enveloped her, immobilizing and preventing her from using any power.

“What a beauty. I’ve had countless women, but it’s the first time I’ve seen someone as gorgeous as you. The heavens must be looking after me. Come with me to Mount Grinch.”

The Blademaster of Mount Grinch casually waved his hand, and another powerful force wrapped around Thea, teleporting her away from the spiritual mountain.

The Almighty Dragon General Chapter 5460-Meanwhile, James and Zeno were heading to the Dunhamvale World, unaware that Thea had been kidnapped by a powerhouse at the Holy Celestial Rank’s middle stage.

At that moment, James and Zeno had already gotten close to the Dunhamvale World.

The Dunhamvale World was located at the border of the Prison World. The mountain range was vast, and there was no end in sight.

The Avenir Academy had already sealed off the area, and nobody was allowed to get close.

As soon as James and Zeno arrived in the Dunhamvale World, they sensed the presence of a powerhouse at the Holy Celestial Rank.

James frowned and said, ‘This is troublesome. I can sense a powerhouse at the Holy Celestial Rank in the mountain range ahead of us. Moreover, there are several more at the Holy Celestial Rank wandering around the area. Even though the Prison World’s Grand Tournament is happening right now, there are still so many powerful cultivators here. I’m sure more powerhouses that didn’t participate in the tournament will show up soon after the news reaches them.”

Zeno also fell into thought. The situation was more complicated than he expected. Even though the Prison World was vast, it was still smaller than an outside plane.

Although the Avenir Academy had deliberately stopped the news from spreading, it would eventually get out sooner or later. Since they had already

heard about it, the news was already circulating. Other powerhouses must have already gotten hold of the news as well.

Deep within the mountain range, there was a palace situated atop one of the spiritual mountains. A middle-aged man sat inside the palace's main hall and said worriedly, "More and more powerhouses are gathering nearby. I'm afraid the formation won't be able to keep them away. If a powerhouse breaks the formation, then we'll lose our advantage. By the way, has our call for reinforcements reached the Avenir Academy yet? When will they be sending more powerhouses?"

"Yes, they've received our call. However, all our powerhouses at the Holy Celestial Rank had left with the headmaster to the Eminence Academy. It's impossible for them to leave right now. The available members are currently on their way to support us. However, they are only at the Martial Celestial Rank. The headmaster ordered us to hold on until the tournament ends, no matter what it takes."

The name of the middle-aged man in charge of guarding the Dunhamvale World was Qued Yagod. He was an elder of the Avenir Academy and a powerhouse at the peak of the Holy Celestial Rank's early stage, very close to reaching the middle stage.

The first person to discover the ancient beast was Qued's disciple. After Qued was informed, he immediately rushed over. Once he confirmed that an ancient beast was inside the Dunhamvale World, he reported it to the Avenir Academy.

In the distance, James and Zeno sat down, leaning on a boulder together.

James said, 'You used to be the Heavenly Secrets Pavilion's Rune Arts Grandmaster, right? You should be very profound in Rune Art and formations.

Even though you don't have your past life's strength, you still have your memories. Can't you set up a formation to trap them? Then, we can go find the ancient beast, capture it, and escape."

"Sure I have the memories, but there are many profound formation inscriptions that I can't use right now. What's the use of having the knowledge if I don't have the strength to put it to use?" Zeno said helplessly.

James looked at him and asked, 'Then what should we do?"

Zeno turned to James and replied, "How would I know? Didn't you establish the Supremuseum? You're a pretty impressive person yourself. You should be able to do something, right?"

James shook his head and said, "If I could, I wouldn't have asked you."

The two of them slumped against the boulder frustratedly.

Suddenly, James looked into the distance and said frowningly, "Another powerhouse has arrived. This one is at the Holy Celestial Rank's middle stage.

More and more powerhouses are appearing." Zeno said dejectedly, "If there's really nothing we can do, we should retreat first.

We must not be fated to have the ancient beast and the primitive inscriptions."

Zeno began to lose hope after sensing the increasing number of powerhouses in the area.

Boom!!!

A powerful shockwave rippled through the air
