The Almighty Dragon General Chapter 5595-Xayvion reacted quickly. He grabbed James' fist.

James wanted to break free from Xayvion's grasp, but Xayvion was too strong.

James could not break free from him.

Xayvion grabbed James' fist with one hand. With an uncanny smile, he launched an attack with his other hand.

In his palm, countless inscriptions gathered and formed a dazzling Sword Energy. The Sword Energy exploded and headed toward James.

It came toward James too suddenly. James could not dodge it in time.

The Sword Energy made up of inscriptions pierced his body. At once, a bloody wound appeared on his body.

James' expression darkened. He raised his other hand and punched Xayvion with all his might.

Both of them were close to each other. Xayvion could not dodge James' attack.

He chose to take it directly.

Both fists collided again.

Xayvion stumbled backward from the force.

James was injured, but he had the Ulus in his body. The power of the Ulus circulated in his body, and his injuries were healed instantly.

At this moment, Xayvion glanced at his arm.

He took James' hit directly. The powerful energy flowed from his fist. It was so strong that wounds appeared on his arm. There was blood.

Xayvion's expression was dark. He found it hard to believe that James could injure him when his Obsidian Body was completed. With his successful Obsidian Body, he could ignore all Supernatural Signature Skills and inscriptions. Only the purest form of physical power could injure him.

James' physical power was too strong.

If his cultivation rank were higher, he would be unstoppable.

The murderous intent in Xayvion's heart grew stronger.

'You aren't invincible.'

Seeing that Xayvion was injured, James laughed.

Although James was also injured, he had the Ulus. As long as he had the Ulus, he would not die. If the fight continued, he could exhaust Xayvion to death.

"James, you have to die this time. No one can save you. I mean what I say," said Xayvion.

Then, a black longsword appeared in his hand. His body changed again. His meridians and veins seemed to have become transparent.

In an instant, countless meridians emerged in his body. The meridians seemed to have rooted themselves in the dark void. They seemed to be absorbing the Dark Power.

"The Tethralis Art?"

Upon seeing this scene, James frowned and mumbled, "It seems to be more brilliant and magical than the Tethralis Art showed by Yui."

"I will enter the darkness with my body."

Xayvion's expression slowly faded to nothing, and he became serious. It was as if he had no emotions.

At this time, nothing could affect his mental fortitude.

The energy from the Dark World constantly entered his body.

Xayvion's aura continued to increase.

Even James felt pressure. He felt uncomfortable.

On the flying battleship in the distance, the powerhouses of the Primevals from the Dark World were bewildered. They were stunned by Xayvion's aura.

"Did he enter the Transcendental Bliss Rank?"

"No way. According to the rumors, I thought one couldn't enter the Transcendental Bliss Rank if one didn't enter the Halcyon Road. If one forcefully enters the Transcendental Bliss Rank, there will be accidents."

Many powerhouses of the Primevals from the Dark World were confused.

Nevertheless, if Xayvion did not enter the Transcendental Bliss Rank, how could he be so terrifying?

In their opinion, Xayvion could only have such terrifying power and aura if he had entered the Transcendental Bliss Rank.

At this moment, James sensed a dangerous aura.

He turned around and looked at the powerhouses in the city of the New Endlos Plane and roared, "This battle is harder than I expected. Please attack together.

If we don't kill the powerhouses of the Dark World this time, the races from the Dark World will flatten the New Endlos Plane."

James' voice was loud.

He sounded anxious and panicky.

The Almighty Dragon General Chapter 5596-James panicked.

The strength Xayvion showed was too powerful and terrifying.

Not only did he have a successful Obsidian Body, but his cultivation rank was frightening. He was the only living being in the Dark World close to the Transcendental Bliss Rank.

Now, he had entered the darkness with his body.

His aura and strength should be on par with the Transcendental Bliss Rank.

James issued an order.

Following his voice, the powerhouses in the city made a move.

The Shadowers' Great Commander, Jurryt, Saeylla, and the powerhouses of the Shadowers took action.

Yered, Quattro, Lemuel, and other powerhouses also did the same.

“Charge.”

Countless figures rushed out of the city and the protective formation of the New Endlos Plane. They showed up in the Dark World.

On the flying battleship in the distance, Halbrinn, the Suunteli Race's Grand Patriarch, saw this scene, and his expression darkened. He ordered, “Deploy the army. Kill the powerhouses of the Central Plane and flatten it.”

Talvelai, the Mevryee Race's Leader, was among them too. Besides him, there was also a Grand Patriarch of the Mevryee Race.

The Grand Patriarch of the Mevryee Race had the same bloodline as Talvelai.

Because of the presence of the Grand Patriarch, Talvelai could calm the conflict.

The Mevryee Race's Grand Patriarch existed for a long time. During the previous Dark Strife, he had already reached the Consummation Holy Celestial Rank. He was only a step away from the Quasi Bliss Rank.

Now, he had long entered the Quasi Bliss Rank.

The Mevryee Race's Grand Patriarch was Nolan Malone.

He used to be a famous powerhouse. Since he had not traveled in the Dark World for a long time, many powerhouses forgot that such a powerhouse existed in the Mevryee Race.

Aside from the Mevryee Race's Grand Patriarch and Talvelai, the Mevryee Race deployed many powerhouses. It could be said that the Mevryee Race went all out this time.

Before coming, Talvelai already discussed the plan with Nolan, the Mevryee Race's Grand Patriarch. At the critical moment, they would work with James.

They would control the situation from the outside and inside.

After Halbrinn issued the order, the battle was initiated.

"Sir Nolan, you will launch a sneak attack on Halbrinn. I will attack the Yeftero Race's Grand Patriarch. Even if we can't kill them, we need to cause severe injuries to them. Let's reduce the power of the races from the Dark World before the battle starts."

Immediately, Talvelai used the inscription to contact Nolan, the Mevryee Race's Grand Patriarch.

At this time, Yered also contacted the Flamma Race's Leader. He asked the latter to launch a sneak attack now.

On the flying battleship, following Halbrinn's order, countless powerhouses exuded their potent auras.

Boom!

At this moment, a terrifying fluctuation of power came from the flying battleship.

'Talvelai, you...'

The Yeftero Race's Grand Patriarch, Naveen, was injured.

The powerful energy shattered his internal organs. It impacted his Cultivation Foundation.

Once Naveen was injured, the Mevryee Race's Grand Patriarch, Nolan, attacked the commander-in-chief of this battle, Halbrinn. Halbrinn was careless.

He did not expect the Mevryee Race's Grand Patriarch to attack him.

He was injured right away.

At the same time, many powerhouses of the Mevryee Race attacked. They launched sneak attacks on the powerhouses of the Dark World.

In addition, the powerhouses of the Flamma Race also launched attacks.

Before the battle even began, many powerhouses of the Dark World were already injured.

“Talvelai, are you seeking death? Why are you leading the Mevryee Race to death?”

Angry roars filled the flying battleship.

After the successful sneak attack, the powerhouses of the Mevryee and Flamma Races retreated.

Once they retreated, the powerhouses of the New Endlos Plane arrived.

Qairo and Xeraiah arrived first.

Upon appearing, they attacked the powerhouses in the Quasi Bliss Rank.

Qairo and Xeraiah were powerful. They were as strong as Xayvion before he went to meditate in seclusion. Their strengths were terrifying. Each of them could go up against four powerhouses in the Quasi Bliss Rank and suppress them.

In an instant, the two held back eight powerhouses in the Quasi Bliss Rank.

As for the other living beings, they were attacked by the powerhouses of the Dark World.

The battle was ignited.

The aftermath of the battle was terrifying. The area continued to collapse.

The overall strength of the New Endlos Plane was a lot weaker than the races from the Dark World.

The Almighty Dragon General Chapter 5597—However, at the critical moment, the Mevryee and Flamma Races betrayed the Dark World. Thus, many powerhouses of the Dark World were injured, making the Dark World lose a part of its combat power.

In addition, the Mevryee and Flamma Races allied with the Central Plane.

Hence, the battle was evenly matched.

There was an area that no one dared to approach.

Xayvion was in that area.

Xayvion used the Yeftero Race's Forbidden Art, Tethralis Art. He entered the darkness with his body and constantly absorbed the power of the Dark World.

At this time, his aura was terrifying.

Even James felt uncomfortable.

James looked into the distance.

In the distance, a fierce battle erupted.

James was not worried about the battle happening in the distance because Qairo and Xeraiah were there.

Now, the only variable was Xayvion.

Currently, Xayvion was too frightening.

"James, I will take your life."

Xayvion's aura was powerful. He held a longsword beaming with black light and walked toward James. Each step he took affected the Dark Power. It was as if all the power of the Dark World had assimilated into his body.

Xayvion was terrifying and invincible.

Even if Qairo and Xeraiah attacked Xayvion, they would not be his match. Now, James had to come forward and go up against Xayvion.

If he let Xayvion pass through because he failed to block the latter, all powerhouses of the New Endlos Plane would die. The New Endlos Plane that had recently been merged would be wiped out.

When Xayvion walked over to James, a mysterious formation appeared.

Gradually, a shadow appeared on the formation.

James' past form appeared and slowly materialized.

Following the appearance of his past form, his future form also showed up.

Previously, he gained a lot of benefits from merging the planes. Not only did his physical power improve, but he also managed to gain full control of his physical power. He could also enter the magical state of comprehending paths.

He comprehended the powers of the past and future again.

Even though his current form was only in the Martial Celestial Rank, his past and future forms had reached the same rank as his physical body.

His past and future forms were on par with the Quasi Bliss Rank.

They were one of James' trump cards.

When the formation emerged, his past and future forms occupied the space below and above the formation. The entire formation contained an unfathomable power.

Xayvion appeared.

He raised the sword in his hand.

The endless Dark Power was maneuvered by him. The rich Dark Power gathered in his longsword. At once, he slashed using the sword.

Swoosh!

James' past form on the formation took action. It wanted to block Xayvion's invincible attack.

The invincible Sword Energy headed toward James' past form. His past form wanted to resist the Sword Energy, but it was slashed into halves instantly. It turned into inscriptions and dispersed.

Then, the inscriptions disappeared and formed the past form again in the distance.

The formation moved.

James' past form returned to the formation.

The formation switched from horizontal to vertical. It rotated at a high speed.

The powers of the past and future assimilated into the formation.

The power in the formation formed a solid protective barrier.

Boom!

The black Sword Energy landed on the formation.

The formation cracked instantly and turned into countless inscriptions. James' past and future forms also turned into inscriptions.

James had cast the formation to block Xayvion's terrifying attacks.

Once the formation shattered, he suffered from the backlash. He stumbled backward uncontrollably.

Simultaneously, many wounds appeared on his body. Blood could be seen all over his body.

"He's indeed terrifying."

James' expression was heavy.

Currently, Xayvion was too strong. Although James fought with all his might, he could only resist one of Xayvion's moves.

The Almighty Dragon General Chapter 5598-Xayvion activated the Yeftero Race's signature skill, Tethralis Art, and entered the darkness with his body. He absorbed endless Dark Power.

Even though he had not entered the Transcendental Bliss Rank, he had the power of a powerhouse in the Transcendental Bliss Rank.

James' past and future forms had reached the level of the Quasi Bliss Rank. In addition to the formation, he could take one move of Xayvion.

Xayvion was too powerful.

Swoosh!

Just as James' formation shattered and he was injured by the backlash, a black Sword Light headed toward him.

The speed of the Sword Light was fast. It surpassed the restriction of time and space. In an instant, it appeared before James.

The black Sword Light pierced through James' body. Once again, a bloody wound appeared on his body.

Xayvion was too strong. Even though James' physical body was on par with the Quasi Bliss Rank, he could not resist Xayvion's attacks.

James was injured. The power of the Ulus in his body healed his injuries again.

Nonetheless, Xayvion was too powerful. It was useless, although James had the Ulus. Once the power of the Ulus was exhausted, James would die.

James tried to come up with countermeasures.

At this moment, countless Sword Lights appeared around him.

These Sword Lights formed a Sword Formation.

At once, James was engulfed in the Sword Formation.

One Sword Energy could severely injure and kill a powerhouse in the Quasi Bliss Rank. Now that James was trapped in the Sword Formation, he felt great pressure.

Under the destruction of the Sword Formation's power, his physical body continued to crack.

At this time, a sword appeared in James' hand. It was the Supremusse Sword.

The Supremusse Sword contained thousands of Genesis.

Thousands of Genesis emerged and formed a protective barrier. They resisted the power of the Sword Formation.

"Boom!" However, even the protective barrier formed by the Genesis of thousands of planes could not resist the damage of the Sword Formation.

The protective barrier shattered instantly.

At this time, the formation emerged and surrounded James.

It protected him. It was only then that James felt the pressure decrease.

The past and future forms in the formation fused with James.

The Tressencia Completare Art was claimed by the Heavenly Secrets Pavilion to be the number one Supernatural Signature Skill of the Dark World.

James' past, future, and present forms fused. Even though his present form had only reached the Martial Celestial Rank, his past and future forms were in the Quasi Bliss Rank. When the powers of his past, future, and present forms merged, his aura increased rapidly.

Now, his aura reached the peak of Quasi Bliss Rank. His aura already surpassed that of the previous Xayvion.

Nevertheless, he was still weaker than the current Xayvion, who had entered the darkness with his body.

At this instant, James activated the Genesis Path of the New Endlos Plane. His Zen assimilated into the New Endlos Plane.

Right now, he seemed to be the New Endlos Plane, and the New Endlos Plane seemed to be him.

In the New Central Plane, potent primitive powers surged in countless spiritual mountains and lands. These primitive powers entered James' body instantly.

With the power of the New Endlos Plane, James' aura increased quickly.

Currently, he could resist the attacks of Xayvion's Sword Formation.

"Break!"

A low voice rang throughout the area.

Following the voice, James looked glorious in the formation. He waved the Supremusse Sword around. At once, the Sword Formation cast by Xayvion broke.

When the Sword Formation broke, the powerful energy caused countless Spatial Black Holes to appear in the area. James walked out of a Spatial Black Hole.

Holding the Supremusse Sword, he pointed the sword at Xayvion from a distance.

Xayvion glared at James.

‘The power of the New Endlos Plane?’

His cold voice sounded. He sounded heartless. It was as if he were a puppet without emotions.

At this moment, Xayvion not only had the power of the Transcendental Bliss Rank, but he also reached the true Bliss Rank. He was like the heartless Heavenly Path.

The Almighty Dragon General Chapter 5599-James activated the Tressencia Completare Art and entered his strongest state.

He also used the power of the New Endlos Plane.

He was the merger and the Lord of the New Endlos Plane. He could assimilate all energies of the New Endlos Plane into his body.

At this moment, even though there was a gap between his aura and Xayvion’s, it was not huge.

Nevertheless, he could not remain in this state for a long time. The power of his past and future forms would be exhausted. It would not be restored.

Once the power of his past and future forms was exhausted, he would not be able to fight against Xayvion.

In the distant area, an intense battle was being fought.

Qairo and Xeraiah were fighting against several powerhouses of the Dark World.

Because of them, the Central Plane was not on the losing side for now. If it were not for them, the Central Plane would not have been the Dark World’s match.

The outcome of the battle in the distance could not be decided in a short time.

Now, it depended on who could take action first, James or Xayvion. Whoever took action first would win this battle.

In the dark void, Xayvion walked forward. He held a black longsword that beamed with Sword Light.

The Sword Light was formed by the inscriptions of countless races. It contained an unfathomable power. The Sword Energy absorbed the magnificent power of the Dark World.

Once Xayvion pulled out the sword, the dark void trembled.

Meanwhile, James held the Supremusse Sword and activated the Universal Sword Art. This Sword Art was formed by the inscriptions of countless races.

It was formed by the Genesis Inscription of the New Endlos Plane, Primitive Elemental Inscription of the Dark World, and Primal Mantra Inscription.

Sword Energies emerged from the Supremusse Sword in his hand.

The two Sword Energies pierced through the void and collided against each other in the dark space.

The two Sword Energies represented the most powerful energies in the Dark World today.

One was a Sword Energy formed by absorbing the endless Dark Power, while the other was formed by absorbing the power of the New Endlos Plane and the Tressencia Completare Art.

When the two Sword Energies collided, there were no ripples or movements.

Time seemed to have frozen.

The scene appeared to have lasted for years. At the same time, it seemed to have only lasted for a moment.

Cracks appeared in the dark space where the two Sword Energies collided. The cracks spread rapidly.

The power all living beings feared seeped out.

Even the powerhouses in the intense battle far away sensed the frightening power.

At this time, all of them stopped fighting. They activated the Boundarybreaker Rune and disappeared from the area.

The moment they disappeared, the power of the aftermath brought by the collision of Sword Energies spread throughout the area. The area collapsed once again at a visible speed.

At the same time, all living beings of the New Endlos Plane sensed the terrifying power. Thankfully, they had the protection formed by the Genesis Path of the New Endlos Plane. Hence, they were not hit by the power. Otherwise, the entire New Endlos Plane would break apart.

The Dark World continued to collapse.

In the territories of the races from the Dark World, the living beings who did not participate in battle also felt the frightening power.

“Wh-What happened?”

“What a strong fluctuation of power. Will the Dark World be overthrown?”

All living beings were worried.

James used his most powerful move to take Xayvion’s attack.

The power of their attacks was equal.

Both suffered from the power birthed by the collision of Sword Energies. Their bodies flew backward from the power fluctuation.

In an instant, James’ body was covered in wounds. He managed to regain stability only when he was close to the formation of the plane.

On the other hand, Xayvion was unscathed.

Since he had a successful Obsidian Body, no Supernatural Power could injure him. Only the purest form of physical power could.

“You surprise me.”

In the Dark World, Xayvion's cold voice sounded.

"You're only in the Martial Celestial Rank, yet you've showcased such strength.

Unfortunately, you're dead meat this time. You can't save yourself."

The Almighty Dragon General Chapter 5600-Somewhere in the New Endlos Plane was a fluctuation of power. It could be felt throughout the New Endlos Plane.

There was a city. On a spiritual mountain in the city was a couple. The two stood at the top of the spiritual mountain with heavy expressions.

"What is James and the New Endlos Plane's fate following this battle?" The man glanced at the intellectual woman beside him.

The man was Wynton.

Meanwhile, the woman was Zella. She had prophetic ability and could see the future.

At this moment, Zella's expression was grave. She frowned and said, "He only has a ten percent chance of survival."

"Ten percent chance of survival?"

Wynton glanced at Zella and asked, "Is it that severe?"

What's the ten percent chance? Can you use your special ability to see the future and the outcome of this battle?"

"Sure." Zella nodded.

Then, she sat on the ground in a lotus position.

She used her prophetic ability to see the outcome of this battle and the New Endlos Plane.

However, when she used her prophetic ability, she suffered from backlash. She fell to the ground and spat out blood.

Blood stained her white dress.

“Are you alright?”

Wynton helped her up timely.

Zella sat on the ground with her legs crossed and waved her hand. She said, “I’m fine. Too many things are involved in this battle. My cultivation rank is too low. I can’t see the outcome, but I can vaguely sense it. James will be in a dangerous situation. He will likely die in battle, but I can sense a chance of survival.”

“What’s the chance of survival?”

Zella shook her head and said, “I can sense a chance of survival. However, this chance of survival won’t depend on James. Instead, it will depend on another living being of the New Endlos Plane. To be exact, it will be a weapon.”

As she spoke, she used her prophetic ability to sense the future again.

Her Zen seemed to have assimilated into the New Endlos Plane. All of a sudden, a sword appeared in her mind.

At once, she shouted, “I sense it.”

Immediately, Wynton asked, “Wh-What is it?”

Zella said, “It’s a sword. The sword can damage Xayvion’s Obsidian Body. Once his Obsidian Body breaks, his ability will decline. In this way, James can defeat and kill him.”

“Where’s the sword?” In a hurry, Wynton said, “Let’s search for the sword. We need to be quick. We have to give James the sword before he loses the battle.”

Zella shook her head and said, “The sword is in a dangerous place. With our cultivation rank, we can’t enter the area. To enter the area, we need to at least be in the Holy Celestial Rank.”

Upon hearing that, Wynton felt sad.

Now, the powerhouses of the New Endlos Plane were participating in the battle.

He sensed a terrifying aura coming from outside the plane. He was anxious. He wanted to participate in the battle and lessen the burden of others.

Unfortunately, his cultivation rank was too low.

Zella continued to sense the future.

Soon, she stood up and said, "Currently, there's a powerhouse in the New Endlos Plane. The powerhouse used to be James' disciple. He has reached the Holy Celestial Rank. Now, he's meditating in seclusion. Let's look for him. We'll ask him to search for the sword and bring the sword to the battle."

"Alright."

Wynton nodded.

They left the spiritual mountain quickly and searched for James' disciple, Stephen.

In the dark space outside the plane, James used his strongest signature skill and released the most powerful move to go up against Xayvion again. The gap between their powers was not big.

Nonetheless, the Obsidian Body was too powerful and terrifying. Even if James attacked with all his might, he could not cause any real harm to Xayvion.

On the other hand, James was injured. His body was covered in wounds. The power of Ulus flowed in his body, and a potent energy emerged. His injuries were healing at a visible speed.

In the distance, Xayvion walked over to James with a black longsword.

Every move of his was affected by the Dark Power
