The Almighty Dragon General Chapter 5655-“Wh-Why do you have the Obsidian Body?”

Xayvion stared at James dead in the eye.

He was shocked.

The Obsidian Body was exclusive to him. It was his innate Supernatural Signature Skill. It was his exclusive body.

He did not expect James to showcase it.

“Hehe.”

Smugly, James laughed. “This is all thanks to you. You showed me the Obsidian Body at the entrance. After entering the holy site, I took some time to meditate in seclusion and master your Obsidian Body. I deduced the Obsidian Body Inscriptions. What do you think about my comprehension?”

“You...”

Xayvion was furious.

“It seems that you’ve obtained a lot of fortunes in the Human Race’s holy site.

You got a breakthrough and entered the Transcendental Bliss Rank. You’ve even reached the peak of the second stage, bordering the third stage. But, so what? I’ve mastered the Obsidian Body too. You can’t kill me in this life. Once I crack the code of the Obsidian Body, you will die.”

James knew he could not kill Xayvion right now.

Since he could not kill Xayvion, he tried to anger him and ruin his Cultivation Heart. That way, Xayvion’s cultivation speed would decrease.

Xayvion was so angry that he spat out blood.

Looking at the sight, James felt good.

‘You’ll regret this.’

Then, Xayvion's body disappeared from the holy site.

Now that his state of comprehending paths was interrupted, he could no longer get back into it. With James around, he also could not focus on comprehending paths.

He had gained a lot of benefits during this trip to the holy site. It was time for him to leave.

After Xayvion left, James scanned the surrounding area.

"Is this the birthplace of the Human Race? Is this where the Human Race's primitive inscriptions appear?"

James sensed his surroundings closely.

The Human Race's primitive inscriptions were the core of all the inscriptions in the world. They were the general outline of all inscriptions. The biggest secret of Anceralos and the Dark World should be hidden in this place.

Nevertheless, after scanning his surroundings, James could not find anything odd about the place.

The only thing he noticed was that countless Human Race inscription sigils were contained in this world. By comprehending the Human Race's inscription sigils, one could comprehend the Human Race's inscriptions.

However, James did not regard all this as fortunes.

After searching the place for some time, he did not find any fortunes. Hence, he decided to leave.

James left the ninth-level holy site.

Meanwhile, the living beings who entered the other holy sites had come out.

These living beings were waiting outside. They wanted to know if Xayvion and James, who entered the ninth-level holy site, could come out safely.

Swoosh!

A figure flashed by.

Xayvion appeared first.

“He’s out. He came out of the ninth-level holy site safely.”

“His aura grew stronger. He has already broken through and entered the peak second stage of the Transcendental Bliss Rank.”

When Xayvion showed up, the living beings started discussing.

Xezal approached Xayvion. With a smile, she said, “Not bad. You entered the Transcendental Bliss Rank. Now, your cultivation rank is only one step away from mine.”

Although Xayvion had become stronger after breaking through, he was not happy.

He remained silent with a heavy expression.

“What’s wrong?” Sensing that something was off about Xayvion, Xezal asked.

Swoosh!

At this moment, another figure appeared.

James also showed up.

“He also came back.”

“His aura did not change. He must not have obtained any fortunes.”

The Almighty Dragon General Chapter 5656-ames did not obtain any fortunes in the ninth-rank holy site. He only used the spatial pressure of the ninth-rank holy site to hone his physical body. He also took the opportunity to comprehend the Obsidian Body.

His aura did not improve, but his physical body grew stronger.

Many living beings present were surprised that James, who was in the Holy Celestial Rank could walk out of the ninthlevel holy site safely.

They thought that with his cultivation level, James would die upon entering the ninth-level holy site.

Many living beings turned their attention to James when he appeared.

However, they talked about Xayvion instead.

“He’s amazing.”

“It has only been three hundred epochs, yet he reached the peak second stage of the Transcendental Bliss Rank from the Quasi Bliss Rank.”

“Another powerhouse has been added to the Dark World.”

Many living beings talked about Xayvion. Several of them even went up to him, hoping to get acquainted.

However, Xayvion was not in a good mood. His expression was heavy.

Xezal knew that something must have happened in the ninthrank holy site.

Since Xayvion did not want to talk about it, Xezal did not ask.

“How was it?”

Wytot walked over to James and asked, “Did you gain anything?”

“Yeah.” James nodded. Looking at Wytot, he sensed that Wytot’s aura had improved. It reached the peak of the Quasi Bliss Rank. It was only one step away from the Transcendental Bliss Rank.

“Let’s go.”

James left with Wytot behind him.

The living beings that gathered left one after another. All the rest who had come to the Hagios Sect also left the place.

James walked out of the holy site, unchanging. He was still responsible for watching over the Outer Disciples in charge of guarding the entrance and sweeping the fallen leaves at the entrance.

At the back of the main apex of the Hagios Sect, Landry was sitting on a chair.

“Have you found details about Forty-nine’s identity?” Before him stood an elder of the Hagios Sect.

The elder was in charge of the Hagios Sect's intelligence.

"I found some."

The elder said, "His real name is Forty-nine. Each of his words and actions contain Karma Power. Although the Karma Power is weak, it can be sensed. He doesn't belong to this era. He comes from an unknown era.

"He has grudges against Xayvion of the Seraphic Sect. From my investigation, Xayvion isn't a living being from this era either. He's from the same era as James. As for which era they're from and why they've come to this era, I could not find anything."

The Hagios Sect was currently the biggest sect of the Human Race.

The Hagios Sect's intelligence department was powerful. It was easy for them to look for James' information.

They knew that James was not a living being from this era, but they did not know which era he was from.

Upon hearing that, Landry frowned. "Not from this era? He used the River of Time to come here, but why did he come to this era? Isn't he worried he will be tainted with the terrifying Karma Power?"

At this moment, even Landry's expression became grave.

He could easily traverse the River of Time and go to any era, but there would be Karma Power.

He would die because the Karma Power would devour him. Even if he could resist being devoured by Karma Power, it was likely the Heavenly Tribulation would appear once he broke through to another cultivation rank.

Besides, the more terrifying the Karma Power, the more powerful the power of the Heavenly Tribulation.

"I can confirm that James is a part of the Human Race," said the elder before Landry.

"Alright. You may step down." Landry waved his hand.

His initial plan was to give the rest of the Human Race's primitive inscriptions to James after learning about his information.

However, James was not a living being from this era. Landry did not know what kind of Karma Power James would be tainted with if he gave the rest of the Human Race's primitive inscriptions to him

The Almighty Dragon General Chapter 5657-Moreover, Landry did not know why James came to this era. Thus, he did not want to give the rest of the Human Race's primitive inscriptions to James.

"Call James "

Landry's voice was loud.

On the stairs at the entrance, James was staring into the distance blankly.

At this moment, a disciple walked over and said respectfully, "J-James, Mr. Landry wants to see you."

"Alright."

James stood up and walked toward the back of the main apex.

Soon, he arrived at Landry's residence. He called out, "Mr. Landry."

Landry pointed at a chair to the side and said, "Take a seat."

James sat down.

"Which era are you from?" Straightforwardly, Landry asked, "Why did you come to this era?"

James was not surprised that he had been exposed. The Hagios Sect was filled with powerhouses. In this world, every step he took would attract the fluctuations of Karma Power. Hence, it was only natural that they could guess he was not a living being of this era.

"After Endlos."

James did not hide the truth. Truthfully, he said, “I was forced to come to this era. Xayvion was my enemy in that era. During our fight, he entered the River of Time and went upstream, so I followed him.”

James did not hide these matters from Landry because he did not think it was a secret.

Upon hearing that, Landry became curious. He asked, “What’s that era like?

How was the Hagios Sect in that era? Where was I?” “The Hagios Sect no longer existed in that era. Anceralos had collapsed by then. There was no powerhouse in the Transcendental Bliss Rank.”

James was speaking, but Landry could only see James’ mouth moving. He could not hear what James was saying.

He could not even read James’ lips.

After speaking, James noticed Landry’s astonished expression. He knew that whatever he said involved Karma Power. He could not say these things or express them in words.

Only those who were proficient in the Karma Path and understood Karma Characters would understand these things.

“It seems that the things you said involve Karma Power.” Landry sighed.

Anyway, he did not want to be involved in matters related to Karma Power.

“You may leave. You can continue to watch the entrance and sweep the ground.” Landry waved his hand.

“Alright.”

Without saying anything else, James stood up and left the place.

After James left, the Great Elder of the Hagios Sect appeared.

“What’s your opinion on this?” Landry looked at the Great Elder and asked.

The Great Elder appeared serious as he said, “He isn’t from this era, but since he has come to our sect, our sect has been tainted with Karma Power. Just let everything take its course. We don’t need to go out of our way to deal with it.”

‘You’re right.’ Landry nodded.

James did not know that Landry wanted to give the rest of the primitive inscriptions to him. However, Landry was still worried.

They decided to watch James’ performance before deciding anything.

James stayed in the Hagios Sect. His days were peaceful, and he had nothing to do. He was also not in a hurry to kill Xayvion.

He spent his days leisurely. He swept the ground and comprehended paths. At times, he would chat with Wyot.

However, days like this only lasted for a short time.

A terrifying power flowed to the end of the Halcyon Road from the deepest part of the Dark World. Under the storm of energy, the powerhouses of the Dark World panicked.

The Almighty Dragon General Chapter 5658-In the deepest part of the Dark World and at the end of the Halcyon Road, explosions erupted.

The explosions passed through the restriction of space and surpassed the limit of time. They spread throughout the entire Dark World.

Along with the explosions, powerful energy swept the place.

Under the suppression of the power, the sects of Anceralos and the races of the Dark World panicked.

“Emergency...”

The elder of the Hagios Sect, who was in charge of collecting information, showed up in the Main Apex Hall.

When the elder appeared, many elders of the Hagios Sect also showed themselves. In the main seat, Landry asked in a hurry, “What happened?”

“Mr. Landry, something happened at the end of the Halcyon Road. The formation at the border of the end of the Halcyon Road has been broken. The border has been wiped out. A large number of unknown living beings are coming to the Halcyon Road to kill,” said the elder in a hurry. He quickly shared the information with Landry.

“Issue an order. All sects of Anceralos and races of the Dark World, please form a team of powerhouses and head to the Halcyon Road. We have to stop the unknown living beings from passing through the Halcyon Road.”

Landry immediately issued an order.

The order was spread to the sects of Anceralos and races of the Dark World.

In this era, although everyone was fighting for dominance, they were still united.

Facing an unexpected situation, no one dared to waste time. Quickly, they gathered powerhouses under their sects and races.

The flying battleships of sects and races headed to the deepest part of the Dark World and the Halcyon Road.

At the entrance of the Hagios Sect, a huge flying battleship appeared.

In the Hagios Sect, many powerhouses flew out and appeared on the flying battleship.

When James, who was sitting on the stone tablet at the entrance, saw what was going on, he was stunned. He mumbled, “What’s happening?”

Even though he also heard strong explosions and sensed the terrifying energy aftermath, he did not know what happened.

At this moment, James flew to the flying battleship and appeared before Landry.

He could not help but ask, “Mr. Landry, what’s going on?”

Landry glanced at James and answered, “Something happened at the Halcyon Road. The formation of the border at the end of the Halcyon Road has been broken. The border has been wiped out. A large number of unknown living beings are coming to the Dark World from the Halcyon Road.”

“Holy crap...”

Upon hearing that, James could not help but curse.

“James, you don’t belong to this era. What happens in this era doesn’t concern you. You should go back down and guard the Hagios Sect,” instructed Landry.

“I’ll go and have a look,” said James.

He was curious about what happened in this era. He wanted to know what was at the end of the Halcyon Road. Was there another world there? What were the living beings of that world like?

Since James wanted to come along, Landry did not stop him.

Soon, the powerhouses of the Hagios Sect had gathered.

The flying battleship took off.

When it took off, a spatial rift appeared ahead of it. The flying battleship entered the spatial rift and disappeared from the entrance of the Hagios Sect.

In the flash, the flying battleship of the Hagios Sect appeared in the Dark World and rushed to the deepest part of the Dark World.

At the same time, the flying battleships of the sects and races had also taken off. The entire space of the Dark World was filled with flying battleships.

Several powerhouses gathered on the flying battleship of the Hagios Sect.

Xezal of the Seraphic Sect and Xayvion were present.

James was around too.

When Xayvion saw James, his expression darkened. James, on the other hand, greeted Xayvion magnanimously, “Hello, Your Highness. Do you have other Supernatural Signature Skills? Can you show them to me?”

James’ words angered Xayvion.

“Don’t be arrogant.”

Xayvion glared at James and said, “Don’t think I can’t kill you after you’ve mastered the Obsidian Body.”

“With your current cultivation rank, you can’t kill me,” said James calmly.

The Almighty Dragon General Chapter 5659-Xayvion did not bother chatting with James. He followed Xezal and entered the main hall on the Hagios Sect's flying battleship.

James laughed and followed suit.

In the main hall, powerhouses from Anceralos and races from the Dark World gathered. Many powerhouses who were known in the Dark World had shown up.

Only the powerhouses who never showed themselves and were meditating in seclusion did not show up.

In the main seat of the main hall, Landry's expression was grave. He said, "Fellow cultivators, a crisis has hit the Dark World. We all need to work together to resolve it. The enemies at the end of the Halcyon Road are powerful. We don't even know what they are. We can't afford to be reckless this time."

Landry's voice was loud.

He called everyone over to prepare them. They needed to be ready to die in battle.

The flying battleship moved forward quickly.

It traversed the Dark World, moving forward rapidly in the dark space. Soon, it appeared at the entrance of the Halcyon Road.

Many flying battleships entered the Halcyon Road from its entrance and arrived at a violent space.

When it appeared in the violent space, many powerhouses sensed a star moving forward at a fast pace in the passage ahead of them.

The star carried a terrifying power. Anywhere it passed would be entirely crushed.

The flying battleship of the Hagios Sect was in the lead.

"Prepare for battle," shouted Landry.

Following the sound of his voice, the auras of the powerhouses around him grew increasingly terrifying.

The star in the distance continued to float toward them. The star was like the eye of the devil. The aura it carried made the powerhouses of the Dark World in the flying battleship uneasy. However, they only needed to circulate their energy and these negativities would disappear.

Just as the star and the flying battleship were about to collide, both parties came to a halt.

On the flying battleship, Landry stood at the front. Looking at the star ahead of him, he said, "This is the Dark World. I don't care where you're from. Please leave immediately. Otherwise, don't blame me for being rude."

Landry's voice sounded loud and clear.

"Haha..."

In the star ahead, laughter sounded.

Swoosh!

At this moment, a shadow flashed by.

The shadow appeared before Landry suddenly. Landry could not even react before he was hit. His body flew backward.

At the same time, he spat out blood.

"Uh..."

Upon seeing this scene, all the powerhouses on the flying battleship were stunned.

He was Landry, the Hagios Sect's Leader. He was a powerhouse in the sixth stage of the Transcendental Bliss Rank. He was known as the strongest powerhouse in the world.

However, he was injured in one move.

Just what was this star? How powerful were the living beings on the star?

Fear arose in their hearts.

Landry was injured and spat out blood. He stood in the void above the flying battleship as a terrifying aura exuded from him. He raised both hands, and a magical energy emerged from his palms.

“Please show me your move again.”

The moment Landry spoke, he flew out. In an instant, he appeared before the uncanny star.

A shadow appeared before the star.

The shadow continued to change forms. It seemed that it did not have a fixed shape. It was constantly changing.

Landry stared at the shadow that was changing endlessly and frowned. His expression also turned serious. He sensed that the aura of this shadow was more powerful than his.

The Almighty Dragon General Chapter 5660-The aura of the mysterious shadow was powerful. Based on what Landry could sense, the shadow was at least in the ninth stage of the Transcendental Bliss Rank. It was close to the Yuraeceon Rank.

Landry felt pressured upon facing such a powerhouse.

Nonetheless, he could not back out.

He was the strongest living being. If he backed out, the Halcyon Road would fall.

Once the star entered the Dark World, many races and living beings would be implicated.

“Get lost...”

A cold voice sounded from the black and ever-changing shadow. Then, thousands of black auras separated from the shadow and headed toward Landry rapidly.

Instantly, Landry launched attacks.

These black auras were fragile. Once the attacks landed on them, they disappeared immediately. However, they would immediately reappear before Landry.

Landry's body was surrounded by the black auras.

Landry did his best to fight back, but he could not break free. At this moment, he felt his energy dissipating. It was being absorbed.

His expression changed.

In the distance, many powerhouses gathered on the flying battleship. When these powerhouses saw Landry being trapped, they grew afraid.

Not only did these powerhouses not launch attacks, but they even distanced themselves from the battle.

The powerhouses of the Dark World were stunned. They dared not fight at all.

When James saw what was going on, he frowned. He wanted to help, but Landry, a powerhouse in the sixth stage of the Transcendental Bliss Rank, was instantly subdued. If he joined in, wouldn't he die?

"Ah."

In the dark void ahead, Landry's cries sounded.

He sounded miserable.

Upon hearing that, the powerhouses on the flying battleship were frightened.

Despair arose in their hearts.

Who could go against such a powerhouse?

Even if all the living beings of the Dark World went up against him, they would not have a chance of winning.

On the flying battleship, Xayvion looked around him. He scanned the powerhouses around him. His expression was inconsistent. It was impossible to tell what was on his mind.

James was focusing on the battle ahead. He did not pay attention to Xayvion.

At this moment, Xayvion made a move.

However, he attacked the powerhouses around him instead of the shadow in the distance. In an instant, he activated the Obsidian Body and attacked a few living beings beside him.

He was at the peak second stage of the Transcendental Bliss Rank. He was powerful. As he attacked with all his might, the few living beings died immediately.

“Xayvion, what are you doing?” Xezal reprimanded.

“What am I doing?”

Xayvion’s expression was dark. At once, he appeared before Xezal and raised his hand, wanting to attack her.

Xezal dodged in time.

Xayvion did not manage to hit Xezal.

James also turned around. When he turned around, Xayvion flew out. Xayvion appeared in the distant dark void.

Under the gazes of many living beings, he knelt in the void. Sincerely, he said, “Lord, I’m willing to join your sect. I’ll help you fight and flatten the Dark World.”

“Bastard,” cursed James angrily upon seeing this scene.

He did not expect Xayvion to rebel and join the sect of an unknown living being.

“You?”

An eye seemed to have appeared in the shadow. The eye was watching Xayvion.

“You’re only in the second stage of the Transcendental Bliss Rank. What do I need you for?” A heartless voice sounded.

Xayvion stood up and turned around to see the flying battleship behind him.

Looking at the furious powerhouses on the flying battleship, he licked his lips and said, "What's wrong with the second stage of the Transcendental Bliss Rank? The second stage of the Transcendental Bliss Rank is an invincible existence in the Dark World."

Xayvion was confident in his strength.

Now, he was at the peak second stage of the Transcendental Bliss Rank. In addition, he had the Obsidian Body. He could fight against powerhouses ranked higher than him. He was not afraid of powerhouses in the fourth or fifth stage of the Transcendental Bliss Rank.

"Alright."
