

The Almighty Dragon General

The Almighty Dragon General Chapter 5771-“You’re right.” Softly, James said, “We are adept in the primitive inscriptions of the Human Race and various races from the Dark World. None of them can do anything to this formation. They can’t crack it.”

James and the rest stood before the tomb and looked at the living beings appearing constantly.

Zephyria World traversed among the realms, attracting the attention of the realms’ powerhouses. The powerhouses who sensed the appearance of Zephyria World rushed over.

Moreover, many powerhouses of the Ancient Genesis World also sensed it.

They sent powerhouses under their sect to check out the situation.

James and the others sat on a rock before the tomb.

Looking at the living beings appearing one after another, they discussed among themselves quietly.

“There are so many powerhouses.” Quattro could not help but sigh and say, “They’re all in the Yuraeceon Rank. The world outside the Dark World is too terrifying. I have to be careful. Otherwise, I may lose my life.”

At this moment, white light bloomed in the distance. Then, a powerful energy swept over.

Many living beings looked toward the light. In the distance, a white flower flew over. A beautiful lady in a white dress stood on the white flower.

The lady’s aura was extremely strong. Upon her arrival, her powerful aura rendered many powerhouses breathless.

“Who is she? Her aura is so strong.” Even James was shocked by the lady’s aura.

Stephen frowned and said, “Based on her aura, she must have entered the Yuraeceon Seventh Rank.”

The Meyer brothers looked serious.

Xytos took a deep breath and asked, "Why is she here?"

The second eldest brother followed suit and said, "Since she's here, many powerhouses from the Ancient Genesis World will appear in Zephyria World soon."

The youngest brother sighed and said, "There should be great fortunes here, but that's nothing to do with us."

"She looks so beautiful and pure." Quattro looked at the lady standing on the white flower. He could not help but sigh. He was also drooling.

James glanced at the Meyer brothers and asked, "Where is she from?" Xytos said, "She's the Grand Priestess of a Superorthodox from the Ancient Genesis World. She's Xitlaly Blair. Her cultivation rank is extremely high. She has reached the Yuraeceon Seventh Rank."

"She's mine." Quattro laughed and said, "I want Xitlaly."

"Don't act recklessly," reminded James timely.

"Don't worry." Quattro smiled and said, "I have a secret art."

Quattro's body flashed. He appeared in the sky before Xitlaly. Then, his appearance turned into a handsome man.

"Xitlaly, nice to meet you. I'm Quattro. I'm looking for a partner."

Xitlaly's facial features were delicate. Her eyes were soulful, but her expression was cold. She glanced at Quattro.

A single glance from her sent Quattro falling from the sky harshly to the ground.

Quattro landed deep in the dirt.

James and the rest distanced themselves in time. They kept a distance from Quattro, afraid that he would cause them trouble.

Xitlaly was in the Yuraeceon Seventh Rank. She was not a powerhouse they could offend.

In dire straits, Quattro got up from the ground and appeared in mid-air. Looking at Xitlaly, he called out, "Franciscus Yuelan."

Quattro's words were like magic. They tugged at the sigils in the deepest part of the souls of the living beings present. At once, the living beings were filled with discomfort.

"Franciscus, Franciscus, Franciscus."

Quattro continued to call out.

In the distance, several living beings fell to the ground. They kept rolling on the ground.

Xitlaly stood on the white flower. She appeared to be in pain. Then, she used her secret art. The Curse Power that originated from her soul was dissolved by her immediately.

"Are you from the Dark World?"

She could not help but look at Quattro.

The Almighty Dragon General Chapter 5772=Xitlaly originated from the Ancient Genesis World. She was the Grand Priestess of a Superorthodox. The Orthodox she belonged to developed a secret art that could resist Curse Power.

Even if a living being placed a curse in the deepest part of her body, she could resolve it. Her gaze landed on Quattro.

Franciscus Yuelan was the forbidden powerhouse.

Many things happened in the distant past. The living beings of the outside world might not know about them, but she came from a Superorthodox. Thus, she knew a bit about those matters.

“Yeah.” Smugly, Quattro said, “I’m from the Dark World. What do you think? Do you want to come to the Dark World with me and be my partner?”

Xitlaly was curious about the Dark World. After all, many strong powerhouses were born in the Dark World in the distant past.

She was interested in Quattro, especially after sensing the latter’s cultivation rank. She was puzzled. Quattro did not even enter the Yuraeceon Rank, yet he could traverse the gray space of Genesis World.

She scanned her surroundings.

Many living beings fell to the ground. All of them were in pain.

Only a few powerhouses with powerful cultivation bases managed to suppress the Curse Power that erupted in the deepest part of their souls.

A few descendants of ancient Orthodoxes could also suppress the Curse Power.

However, a few humans were unaffected.

At once, Xitlaly knew that they were from the Dark World too. Only the living beings of the Dark World could remain unaffected by Curse Power.

“Hey, Xitlaly, I’m asking you a question. Do you want to be my partner?” Quattro grew impatient.

“You’re an idiot.”

Xitlaly glanced at Quattro and snorted.

She ignored Quattro and moved forward. She appeared before Franciscus’s tomb. She looked at the huge tomb and the mysterious formation around it.

She had come to this place to find out about Zephyria World’s affairs.

She knew about the legend of Zephyria World. She also knew that Franciscus sacrificed his life to curse the Three Thousand Great Genesis Worlds and countless Micro Genesis Worlds.

In the end, he was buried in Zephyria World.

Nevertheless, his tomb had not been discovered even though so many years had passed.

Now, Xitlaly could confirm that this tomb belonged to Franciscus, the forbidden powerhouse from years ago.

James and the others appeared in the far distance of the tomb. They kept a distance from Quattro. They gathered and chatted softly.

Following the appearance of Xitlaly, more living beings came to this place. There were also a few Lords of the Three Thousand Great Genesis Worlds.

These lords were powerful. Most of them were in the Yuraeceon Seventh and Eighth Rank. There were also a few in the Yuraeceon Ninth Rank.

Upon seeing so many powerhouses show up, James and the others were stunned.

The world outside the Dark World had lived up to its reputation. There were so many powerhouses.

Previously, in the Dark World, Xayal almost wiped out the entire Dark World by himself. Now, so many powerhouses on par with Xayal when he was at his peak were here.

These powerhouses came to this place to check out Zephyria World.

Upon arriving here, they confirmed that it was Franciscus' tomb.

Nonetheless, aside from the Superorthodoxes, the other lords did not know about the details of Franciscus. They only knew that he was a forbidden existence.

"More and more living beings are showing up." Stephen looked at the living beings and powerhouses studying the formation. He frowned and said, "Will they crack the formation?"

Calmly, Xzavion said, "Don't worry. They aren't from the Dark World, so they can't master the Dark World's inscriptions in such a short time. Even if they do master it, they won't be adept at it. If even we who are adept at the Dark World's inscriptions can't open it in such a short time, there's no need to worry about them."

Xzavion was not worried about the living beings cracking the formation.

James was not worried either. He knew how profound the formation was. Even if he wanted to break the formation, he would need a lot of time.

“Franciscus’ signature skill inheritance must be in this formation,” James said.

“We need to think of a way to break the formation and enter the tomb. We’re from the Dark World. We have a higher chance of getting Franciscus’ inheritance.”

The Almighty Dragon General Chapter 5773

The Almighty Dragon General Chapter 5773-The Meyer brothers had fallen to the ground and fainted.

James and the others were discussing about Franciscus. Each time they mentioned Franciscus, they felt a sharp pain as if a sharp dagger had pierced their bodies.

“Dragon General is right.”

Quattro walked over. He had already changed into his main self. He preferred being in the appearance of a pig.

“Fellow cultivators, can you break the formation?” A pleasant voice sounded.

James and the others turned to look in the direction of the voice. A white flower appeared before them before disappearing. Xitlaly descended from the sky in a white dress and landed steadily before them.

“We can’t break it. Leave now.” Since Quattro had failed to get what he wanted moments ago, he no longer liked this beautiful lady. He ordered Xitlaly to leave once she appeared.

Xitlaly ignored Quattro.

As the Grand Priestess of a Superorthodox and ancient force, she could tell that Quattro was a side character and that the person in charge was James.

Xitlaly looked at James and said gently, “I’m Xitlaly, the Grand Priestess of the lustus Sect. If you can break the formation, my sect will give you corresponding cultivation resources. Whether it’s Supernatural Signature Skills, elixirs, weapons, or treasures. Whatever you name, my sect will give them to you.”

Xitlaly had reported the situation here to her sect.

The order she received was to find out if the tomb was real and check if Franciscus was dead.

Franciscus was an existence that rendered countless Orthodoxes of the Ancient Genesis World breathless.

Although it was said that Franciscus was dead and buried in Zephyria World, no living being had ever seen his tomb or corpse before.

Now that Franciscus’ tomb had appeared, Xitlaly needed to find out the truth.

She needed to confirm whether or not Franciscus was buried in this tomb.

“If I want a partner, will you give me one?” Quattro glanced at Xitlaly and asked.

Xitlaly said, “The lustus Sect has many disciples and beautiful ladies. Just tell me what kind of partner you’re looking for. My sect is bound to have her.”

“I want you,” said Quattro.

Xitlaly glanced at Quattro and said dully, ‘You aren’t worthy.’

‘You...’

Quattro was furious. He looked at James and said, "Dragon General, let's enter the tomb without her. She looks down on people."

'You aren't a person.' James laughed.

Quattro could not refute James' words.

"What do you think?" Xitlaly asked.

Apologetically, James answered, "I'm sorry. The formation here is too profound.

We can't break the formation either."

By now, many living beings had gotten rid of the curse in the deepest part of their souls. All of them had recovered.

Meanwhile, many living beings surrounded James and the others. These living beings looked at James and his companions as if they wanted to kill them.

James and Xzavion exchanged glances.

Xzavion waved his hand, and a powerful energy pulled Quattro and threw him out.

"We aren't with him." In a hurry, James said, 'You guys can do whatever you want with him.'

At once, Quattro's expression changed. He shouted, "Dragon General, you've gone against the code of brotherhood."

"Franciscus, Franciscus, Franciscus..." He shouted as he flew out. Upon being thrown out, Quattro was terrified. He was scared that this group of powerhouses would kill him and turn him into roasted pork.

His roar sounded loudly in the area. The sound waves swept over.

There were at least ten thousand living beings in the area.

The thousands of living beings instantly fell to the ground. Many of them spat out blood, while some sat on the ground in a lotus position and circulated their energies to resist the Curse Magic.

The Almighty Dragon General Chapter 5774-Quattro felt fearful after Xzavion threw him out. At once, he shouted Franciscus' name ten times. Among the thousands of powerhouses present, only a few living beings were unaffected.

As for the rest, the curse in their bodies erupted.

Quattro's body spun around in the sky. In the end, he landed on the ground steadily. He rushed toward James and the others before sitting on a rock beside James.

"Welcome to Zephyria World."

Just then, a voice suddenly sounded throughout the entire Zephyria World.

Following the voice, a mysterious formation appeared around Zephyria World.

After the formation appeared, Zephyria World disappeared.

In the Ancient Genesis World, many powerhouses were observing the situation of Zephyria World. However, they suddenly could not sense Zephyria World.

In Zephyria World, many powerhouses sensed that a formation had appeared around the world. They wanted to rush out of the place, but it was too late. They were trapped in the formation.

Many powerful lords attacked the formation with all their might. Unfortunately, even though several lords were in the Yuraeceon Ninth Rank, they could not move the formation of Zephyria World.

"What's happening?"

Even James and the others stood up. Instantly, they appeared at the border of Zephyria World and looked at the formation.

This formation and the formation of Franciscus' tomb came from the same source. They realized that the formation inscriptions looked familiar.

They exchanged glances.

Xzavion frowned and said, "It seems that a powerhouse is hiding in Zephyria World. He deliberately lured these powerhouses here."

Lost in thought, James nodded and said, "Yeah, I think so too. I wonder what kind of powerhouse he is."

"Could it be Franciscus?" Quattro could not resist asking.

James, Xzavion, and Stephen shook their heads.

They did not know what was happening. They could only sense that it was not something good.

When the formation at the border of Zephyria World engulfed the entire world, the formation around Franciscus' tomb disappeared. After the formation disappeared, several inscriptions gathered in the sky above Franciscus' tomb.

These inscriptions formed an illusionary body.

All living beings' gazes landed on this illusionary body.

Although the body was illusionary, one could tell that it was an elder.

"Who are you?" A powerhouse asked.

"Greetings, I'm the tombkeeper."

The elder's illusionary body gradually materialized. In the end, it turned into an elder in a black robe. The elder's face was full of wrinkles. He also had a long, white beard.

"Tombkeeper?"

Upon hearing that, many powerhouses were taken aback.

"It's a real human. He isn't a spirit." Xzavion frowned and whispered, "His aura is very strong. It surpasses all living beings present. The strongest powerhouse here is in the Yuraeceon Ninth Rank, so he must be at least in the Yuraeceon Xaelm Rank."

The tombkeeper glanced at his surroundings. With a frown, he said, "Is everyone in the Genesis World so weak now? Is there no powerhouse?"

Upon hearing his words, the lords in the Yuraeceon Ninth Rank felt awkward.

They were the Lords of the Great Genesis Worlds and powerhouses in the Yuraeceon Ninth Rank. They were extremely strong in the Three Thousand Great Genesis Worlds and countless Micro Genesis Worlds. As long as the few elders did not come out of seclusion, they were invincible.

Now, they were slapped in the face ruthlessly.

“Ahem...”

The tombkeeper coughed lightly. Then, his voice sounded throughout the area.

“I have been standing guard here for a long time. I want to leave, but before I leave, I need to find a descendant for Franciscus. I can’t let his invincible signature skill be lost.”

The Almighty Dragon General Chapter 5775-When Quattro called for Franciscos, the Curse Power in the deepest part of the living beings’ souls erupted.

They were in pain as if countless bugs were biting their flesh, but they were still excited.

The inheritance of a forbidden existence was extremely terrifying. If one could obtain it, one would stand at the top of the Genesis World’s pyramid.

The tombkeeper scanned his surroundings and said,” According to Franciscus’ last words, his descendant must be an extraordinary prodigy. Aside from that, his cultivation base must be lower than the Yuraeceon Second Rank, which means his cultivation rank must be in the Yuraeceon First Rank or lower. That way, he’ll be able to enter the Tomb World and participate in Franciscus’ assessment. After that, he can obtain Franciscus’ inheritance.”

The tombkeeper waved his hand.

A powerful energy emerged from his palm. The energy headed toward the living beings in the Yuraeceon Second Rank or above, sending them flying out of Zephyria World.

Even though they were sent out of Zephyria World, they could still hear the tombkeeper's voice.

"Go back and spread the news. A prodigy of any world can enter Zephyria World and participate in the assessment.

However, the assessment is risky. Once you enter Zephyria World, it will be difficult to make it out alive."

The tombkeeper's voice sounded loudly.

The powerhouses who were kicked out were upset. They thought they could obtain great fortunes. Who knew they could not obtain the fortunes this time because their cultivation ranks were too high?

Nonetheless, they left quickly and returned to their Genesis Worlds. Then, they hurriedly gathered the prodigies of their Genesis Worlds.

Zephyria World, which disappeared, reappeared.

Zephyria World traversed the gray space of countless Genesis Worlds. In the end, it showed up outside of the Ancient Genesis World.

The news was spread to the Ancient Genesis World.

Upon knowing that Franciscus' inheritance had appeared, many Orthodoxes sent the prodigies under their sects to enter Zephyria World.

Some powerhouses even decreased their cultivation rank to the Yuraeceon First Rank to obtain Franciscus' inheritance.

At this moment, there were not many living beings left in Zephyria World.

Stephen had been sent out of Zephyria World, but he did not leave. He showed up at the border of Zephyria World outside the formation. He needed to wait for James, his teacher, here.

In Zephyria World, James stood before the tomb, looking at Xzavion and Quattro.

“Sir.”

All of a sudden, Quattro stood up and waved his leg at the tombkeeper in the sky above the tomb. He shouted, “Sir, over here.”

The tombkeeper looked toward Quattro.

Seeing that the tombkeeper was looking at him, Quattro became excited.

“I’m from the Dark World, just like Franciscus. Why don’t you just give Franciscus’ inheritance to me? I want to learn Curse Magic. I want to be at the top of Genesis World’s pyramid like Franciscus.”

“Haha.”

The tombkeeper laughed and said, “You’re quite interesting. Since you’re from the Dark World, you are indeed worthy of obtaining some of Franciscus’ inheritance.” As he spoke, he waved his hand, and a powerful energy pulled Quattro into the tomb.

“Franciscus traveled the world and collected countless Supernatural Signature Skills. The living beings from the Dark World can obtain some of his Supernatural Signature Skills.”

While speaking, he turned to look at James and Xzavion before asking, “Do you two want some of his signature skills?”

James and Xzavion exchanged glances.

Then, James asked, “Is there any difference between this signature skill and the inheritance after completing the assessment?”

“Haha.” The tombkeeper laughed and said, “Of course, there’s a difference. The signature skills were gathered by Franciscus. Even though they’re powerful signature skills of the Three Thousand Great Genesis Worlds, they lack a bit in comparison to his inheritance.”

The Almighty Dragon General Chapter 5776-Since James and some others were from the Dark World, the tombkeeper made things easier for them. He let Quattro enter Franciscos' tomb and obtain a signature skill inheritance.

James and Xzavion exchanged glances.

Xzavion said, "I think we can give Franciscos' assessment a try first. If we don't succeed, we'll take a Supernatural Signature Skill and leave."

James looked at the tombkeeper standing in the sky and asked, "If we don't pass the assessment, can we still obtain a Supernatural Signature Skill?"

"Of course." The tombkeeper touched his beard and said,* After all, you guys and Franciscos are from the Dark World. He wanted to visit the Dark World before he died. Sadly, he did not have the chance."

The tombkeeper saw Stephen standing outside the formation of Zephyria World.

He waved his hand and let Stephen enter the formation again. Soon, Stephen was standing before James and Xzavion.

"You're from the Dark World. Although you can't participate in the assessment, you can get a Supernatural Signature Skill." As the tombkeeper spoke, he sent Stephen into the tomb.

James was curious about Franciscus.

He could not resist asking, "Sir, what's Franciscus' background? How did he become a forbidden existence? What happened in the distant past? Why did he curse the Three Thousand Great Genesis Worlds and the many Micro Genesis Worlds?"

James asked about a few things that he was confused about.

Xzavion wanted to know about these things too. He stared at the tombkeeper.

Many living beings gathered in this place.

These living beings were all in the Yuraeceon First Rank. Seeing Quattro and Stephen enter the tomb in advance, they felt envious.

They then directed their attention to James and Xzavion.

The tombkeeper descended from the sky slowly and appeared before James and Xzavion. Then, he waved his hand, and a formation appeared around him.

The formation blocked the probing of the living beings' Zen around him.

The tombkeeper glanced at James and Xzavion. He sat on a rock by the side with a heavy expression.

"It's a long story."

He seemed to be lost in his memories. After a while, he took a deep breath.

"Please explain further." James looked at the tombkeeper.

Slowly, the tombkeeper said, "Franciscus was born in the Dark World. Since he was from the Dark World, he was an outcast in the Great Genesis Worlds. To the living beings of the Great Genesis Worlds, the Dark World was ominous and uncanny.

"Countless years ago, something strange happened in the Dark World."

Upon hearing that, Xzavion asked, "What was it?"

The tombkeeper answered, "The Dark World cracked, and a dark aura swept across the Great Genesis Worlds.

Countless living beings were tainted with the dark aura.

Some went insane, while some died. To solve this matter, many Orthodoxes of the Ancient Genesis World worked together to wipe out the Dark World. They wanted the Dark World to be gone forever and removed from the Great Genesis Worlds."

"How did such a thing happen?"

James was confused. He asked, "The dark aura is only a kind of Genesis Energy. Why would the living beings of the outside world die or become insane after being tainted by it?"

"You guys are the only ones who think it's a kind of Genesis Energy." The tombkeeper continued, "The dark aura is ominous. The living beings of the outside world can't be tainted with the Dark Genesis. Once they are tainted with it, they will face calamities, and accidents will happen.

'Thus, a battle against the Dark World began.

"Franciscus was a powerhouse from the Dark World. Naturally, he did not want to see the Dark World being targeted. Thus, he activated his Supernatural and separated the Dark World into two." "Into two?"

The Almighty Dragon General Chapter 5777-James and Xzavion were stunned.

"Yeah."

The tombkeeper said softly, "Franciscus used his Supernatural to forcefully split the Dark World into two. He confined the uncanny power in the Dark World. The Genesis of the other Dark World did not affect the Great Genesis Worlds.

"He thought that the powerhouses of the Great Genesis Worlds would be rest assured after he sealed the Genesis harmful to the Great Genesis Worlds.

"However, that was what he thought. The powerhouses of the Great Genesis Worlds were still determined to wipe out the Dark World. They wanted to dismantle the Genesis harmful to the Great Genesis Worlds.

"Countless powerhouses invaded the divided Dark World. Many living beings of the Dark World were killed.

“Franciscus grew furious.

“So, a battle erupted in the Great Genesis Worlds.

‘The battle caused the world to collapse. Many powerhouses at the peak of the Yuraeceon Daelm Rank in the Great Genesis Worlds fell. Meanwhile, Franciscus paid a hefty price. He was also on the verge of dying.

“He was worried that the Dark World would be wiped out after his fall. Thus, he used all his power to curse the Great Genesis Worlds. His Curse Power entered the deepest part of the Great Genesis Worlds’ living beings’ souls. They could not get rid of the Curse Power for their entire lives, and this continued for generations.”

When James and Xzavion heard about these events, they were stunned.

They did not expect the Dark World to have such a history.

The tombkeeper continued, “Although Franciscus is dead, he used his Curse Power to prevent the living beings of the Great Genesis Worlds from stepping into the Dark World. Once they stepped into the Dark World, the Curse Power in their bodies would take effect. His Curse Power would take effect once it was tainted with Dark Power.”

Hearing that, James understood why the living beings of the Great Genesis Worlds never went to the Dark World.

Nevertheless, he became confused.

How did Xayal and his subordinates enter the Dark World?

“Sir, you mentioned that the living beings of the Great Genesis Worlds can’t enter the Dark World. From what I know, there are living beings from the outside world who have entered the Dark World safely...”

James expressed his doubts.

The tombkeeper touched his beard and said, ‘That should be a world that was differentiated by Franciscus. The world used to be one with the Dark World.

Franciscus’ Curse Power isn’t in their bodies, so the Curse Power won’t take effect when they enter the Dark World.”

‘What’s the name of the world that was differentiated?’ Xzavion could not resist asking.

The tombkeeper answered, ‘The world that was differentiated has evolved into a complete world after years of development. In the Three Thousand Great Genesis Worlds, the world is known as the Auroral Genesis World.’

After hearing all this, James and Xzavion finally understood.

Xayal came from the Auroral Genesis World.

There was a reason behind him wanting to swallow the Dark World.

Xzavion said, ‘Thank you for telling us all this. If you hadn’t, we wouldn’t have known that the Dark World had such a history.’

The tombkeeper waved his hand and said, “Since you guys are from the Dark World, you should know about the Dark World’s history. I’m telling you all this so that you guys will be more careful because the living beings of the Dark World aren’t tolerated by the Great Genesis Worlds.”

James and Xzavion nodded.

They needed to be more careful when traveling in the Great Genesis Worlds from now on. They must not let anyone know they were from the Dark World.

Even though the majority of living beings of the Great Genesis Worlds did not know about all this, the Superorthodoxes knew about it.

The Almighty Dragon General Chapter 5778-James and Xzavion learned about the Dark World’s history and Franciscus from the tombkeeper.

At the same time, they became curious.

“Since Franciscus despised the Great Genesis Worlds, why did he want to leave his inheritance for the living beings of the Great Genesis Worlds?” Xzavion asked curiously.

“Haha.” The tombkeeper laughed and said, “Franciscus despised the Great Genesis Worlds, but that’s all in the past. Even though the powerhouses of the Great Genesis Worlds subverted the Dark World and killed the living beings there, the Great Genesis Worlds had paid a hefty price. Franciscus is dead, but his inheritance must continue.”

“Sir, are you also from the Dark World?” James glanced at the tombkeeper.

The tombkeeper did not answer that question.

“I have said everything that should be said. Since you guys are from the Dark World, I hope you guys can grab this opportunity. I don’t want Franciscus’ inheritance to be taken away by another world’s prodigy. However, I have to follow Franciscus’ rules. I can’t take care of you guys.” After the tombkeeper said that, he dispersed the formation and appeared in the sky above the tomb again.

“Let’s wait,” James said. “We’ll wait for the other worlds’ prodigies to appear in Zephyria World and for the assessment to begin.”

Xzavion glanced at James and asked, “How much of Curse Magic have you mastered?”

James responded, “Not much. Although I cultivated Curse Magic in the past, I did not study it deeply.”

James cultivated Curse Magic before.

Besides him, in the Dark World, Taran also cultivated Curse Magic.

James and Xzavion stayed together and chatted about Franciscus.

As time passed, more living beings arrived in Zephyria World.

These living beings were from the Three Thousand Great Genesis Worlds and Three Thousand Micro Genesis Worlds. Most of them were in the Yuraeceon First Rank.

Many of them decreased their cultivation ranks and dispersed excess power to reach the Yuraeceon First Rank.

Their aim was to obtain Franciscus' inheritance.

Seeing that the number of living beings was increasing, James and Xzavion grew full of anticipation.

They were looking forward to fighting against the prodigies of the Great Genesis Worlds.

James and Xzavion did their best to regulate their state.

The tombkeeper had been observing the living beings who entered Zephyria World. When he sensed that there were enough living beings in Zephria World, he stood forward. Scanning his surroundings, he said, "Almost everyone has arrived. Let's start then. Everyone, please enter the Tomb World."

Following the tombkeeper's announcement, a passage appeared in the sky above Franciscus' tomb.

The living beings entered one after another.

James and Xzavion also entered the Tomb World.

Upon entering the Tomb World, they saw a coffin. The coffin floated in the sky of this world. A mysterious aura seeped out of the coffin.

"Sir, how can we get the inheritance?"

A living being raised a question.

"By fighting," answered the tombkeeper indifferently.

"By fighting?"

Many living beings were confused.

The tombkeeper touched his white beard and said, "That's right, by fighting."

Everyone in this world can attack and kill other living beings. When only ten living beings are left in this world, ten puppet warriors will appear. The ten living beings who survived will need to kill these ten puppet warriors together.

“After defeating the puppet warriors, an ultimate warrior will appear.

“When the ultimate puppet warrior is defeated, the inheritance will appear.

“Once only ten living beings are left behind, you guys will need to defeat the puppet warriors together and come up with ways to defeat each other. Only the last living being alive can obtain the inheritance.”

The Almighty Dragon General Chapter 5779-The tombkeeper’s voice sounded loudly throughout the heavens and earth.

“Aside from Franciscus’ inheritance, there are two Ancestral God Weapons.

“One is a scythe of the Dark Genesis World from the Dark World. It’s known as the Judgment Scythe.

‘The other is an adjudication of the Auroral Genesis World. It’s known as the “Haha... Everyone, please fight with all your might. Whether or not you’ll stay till the end depends on your ability and fortunes.”

The tombkeeper’s voice sounded loudly in the heavens and earth.

“For fairness, the Curse Power in everyone’s body won’t take effect in this world.” After saying that, the tombkeeper disappeared.

Once he disappeared, the living beings dispersed. They scanned their surroundings warily, afraid that other powerhouses would attack them.

James and Xzavion stayed together. They were also watching their surroundings closely.

At this moment, a few prodigies who knew each other discussed in the dark.

They planned to form an alliance.

In this world, acting alone would not let one last till the end. Only by working together and eliminating other living beings could one have the chance at obtaining Franciscus' inheritance.

"Swoosh!"

A ray of white light appeared before James and Xzavion.

At once, James and Xzavion prepared to fight with all their might.

The white light landed and formed a stunning lady in a white dress. She sensed James and Xzavion's auras and hurriedly said, "Please don't attack me."

It was only then that James and Xzavion realized she was Xitlaly whom they had met previously. She was the Grand Priestess of a Superorthodox in the Ancient Genesis World.

Her cultivation rank used to be extremely high, but she decreased her cultivation rank to the Yuraeceon First Rank to obtain Franciscus' inheritance.

Many living beings present did the same too.

A lot of living beings were famous powerhouses in the Great Genesis Worlds. To obtain Franciscus' inheritance, they decreased their cultivation ranks.

There was only one inheritance. It was a rare opportunity.

Meanwhile, they could increase their cultivation ranks again with enough time.

Xitlaly appeared and said, "I'm willing to ally with you two.

We'll get rid of other living beings first before fighting for the inheritance."

James and Xzavion exchanged glances. They understood each other right away.

Dully, James said, 'There's no need to form an alliance.'

Xzavion said, 'That's right. It's best to fight on our own.'

“Haha...”

In the distance, laughter sounded. “Xitlaly, are you embarrassing yourself?”

Then, a man in a golden robe appeared in the distant void. He walked over and stopped before Xitlaly.

Glancing at James and Xzavion, the man smiled and said, “Do you guys not know how amazing Xitlaly is? She’s from the lustus Sect. She holds the Great lustus Power of the lustus Sect. She’s invincible among the powerhouses of the same cultivation rank.”

As he spoke, he looked at Xitlaly. “Xitlaly, why don’t you ally with me?”

Xitlaly looked at the man in the golden robe. Her expression was heavy. She did not expect Slade Jett to be here too.

Slade was a powerhouse at the peak of the Yuraeceon Xaelm Rank. He was only a step away from the Yuraeceon Daelm Rank.

Xitlaly did not expect a powerhouse in the Yuraeceon Xaelm Rank to decrease his cultivation rank to obtain Franciscus’ inheritance.

“You’re a powerhouse in the Yuraeceon Xaelm Rank. I can’t believe you decreased your cultivation rank to come to Zephyria World.” Xitlaly glanced at Slade.

When Xitlaly said that, James and Xzavion were shocked.

The Yuraeceon Xaelm Rank?

Was Slade that terrifying?

Was Franciscus’ inheritance that attractive? Even a powerhouse in the Yuraeceon Xaelm Rank wanted it. He even decreased his cultivation rank to obtain it.

The Almighty Dragon General Chapter 5780-Slade was a powerhouse in the Yuraeceon Xaelm Rank. To obtain Franciscos' fortunes, he decreased his cultivation rank.

Looking at Xitlaly, Slade smiled and said, "Xitlaly, what do you think about my suggestion? Do you want to ally with me? We'll find a few other living beings who are close to invincible in the same cultivation rank. That way, we can last till the end."

Slade made a proposal to Xitlaly again.

"Alright."

Xitlaly did not reject Slade. Instead, she agreed with a smile.

She knew how strong Slade was. Slade was an existence that could crush an era. He was almost invincible among the powerhouses of the same cultivation rank.

Even though he had decreased his cultivation rank to the Yuraeceon First Rank, almost no one in this same rank could defeat him. At best, it would end in a tie.

"So, what do you think?" Xitlaly looked at James and Xzavion again.

"I'm not interested in working together." James still held on to his words.

"Alright. Let's see how things will end." Xitlaly did not push James further.

She left with Slade.

Many prodigies were trying to gather allies.

The ten puppet warriors would appear when only ten living beings were left in this world. Thus, the prodigies planned to seek allies to form a group of ten.

Only the weak considered the Three Thousand Great Genesis Worlds and countless Micro Genesis Worlds powerful.

To powerhouses, these worlds were not great.

Many of the prodigies knew one another. Some had even fought against each other before.

Since the difference in their cultivation ranks was not huge and they were from the same era, they knew each other well.

The battle had begun, but no living beings launched attacks.

Somewhere in the battle world, James and Xzavion stayed together. Xzavion scanned his surroundings and whispered, "Are we not going to look for allies?"

They are all powerhouses of the Three Thousand Great Genesis Worlds and countless Micro Genesis Worlds. None of them are weak. Besides, we don't know much about the Supernatural Signature Skills of the worlds outside the Dark World."

"I'm invincible among the powerhouses in the same cultivation rank."

James was confident.

He believed no one in his cultivation rank could defeat him as he had mastered all inscriptions of the Dark World. Moreover, he had a terrifying physical body that matched his cultivation rank.

Even though he had lost the Tressencia Completare Art and could not use the power of his past and future forms, he still had his formation. This signature skill was terrifying.

Even if he had to fight against ten living beings, he was confident he would not lose.

Xzavion felt assured upon hearing James' words.

Xzavion did not care whether he or James would get the inheritance. If he obtained it, he would share it with James.

He believed that James would also share the inheritance with him if James obtained it.

The tombkeeper had disappeared for quite some time now. Many living beings in this world had formed alliances.

They found suitable allies.

Almost no one acted alone.

The team with the least number of people was James and Xzavion.

Many living beings had formed alliances, but the battle had not begun. No one took action first. Everyone seemed to know that whoever attacked first would become everyone's target.

"How boring." A voice sounded in this world.

Then, the tombkeeper appeared in the sky. He stood on Franciscus' coffin and scanned the living beings of this world. With a smile, he said, "Since you guys aren't fighting, I will assign opponents to you guys."

Upon hearing that, all living beings looked at the tombkeeper standing in the sky above Franciscus' coffin.

The tombkeeper smiled and continued, "I will randomly create a few Arena Worlds. Each Arena World will have two teams. You guys will fight each other.

Whichever team wins will enter the next round of battle. This will continue until only ten living beings are left in this world."

"Don't even think of resting in the Arena Worlds. If the battle does not begin within the specified time, both teams will be eliminated and kicked out of the Tomb World.

"After killing an opponent, you won't have the time to recuperate. You will be sent to the next battle immediately."

The tombkeeper's voice sounded.

He seemed to have thought out how the battle would be. Previously, he was only giving the living beings time to form alliances.
