

The Almighty Dragon General Chapter 966

Another reporter stepped forward and stood in front of Thea.

"Ms.Thea, what evidence do you have to support your claims? You could face legal charges for slandering them."

"I don't have any evidence.I simply explained what Centennial tried to do to the Callahans this morning.I know that they're likely going to take revenge, but we're not scared."

After she finished speaking, Thea turned around and entered the hospital.It was getting really hard to suppress the poison at this point.

The simple act of standing was already taking its toll on her.

Thea had no choice but to forcefully expel the poison from her body as soon as possible.She quickly rushed into the hospital, went up to the office on the second floor, and locked the door.

Then, she began to circulate her energy to get rid of the poison.

In her panicked state, Thea made a mistake as soon as she began.She almost lost control of her True Energy.

This in turn allowed the toxin to spread rapidly throughout her bloodstream.Her expression darkened as she started perspiring all over.

Gritting her teeth, Thea knew she had to act quickly and attempted to use her True Energy to force out the poison.

However, because she was so rattled, she continuously made mistake after mistake.
