

## Chapter 53

"Alpha, as you had ordered, we used those 43 devices on the deeds, and your idea indeed worked. We have caught three more groups, and this time, we were able to get almost all of them," Timothy reported, and Simon came out of the place where they were setting lodging camps for the warriors. "Any information so far?" Simon asked, and Timothy shook his head with a sigh.

"Fine. I will see it," Simon was about to walk when Fabian stood in front of him.

"Let's leave that task to our trainers. They should learn to extract

knowledge. You can't go every time. You have other things to handle too. How many things do you think you can handle alone?" Fabian asked, and Simon stared at him.

"You are just afraid that the mess will be too bloody for you to clean up,"

Timothy scoffed at Fabian, and the latter looked at Simon sheepishly.

"Please don't go. I will handle it," Fabian said, and Simon rolled his eyes

before nodding.

"I will be in the office replying to all the emails and faxing. Also, one of you keep a lookout for Athena. Her wolf almost lost control and killed Cole

today. She might relapse because of the presence of rogues around the area, and if that happens, call me asap," Simon ordered Fabian before he walked to his office.

'Something is wrong with mate,' Onyx sniffed the air inside Simon's head, and Simon paused mid-step as he was about to turn the knob of his office door.

"What's wrong?" Simon sniffed the air, his brows knitting together.

'Her smell is strong. Am I getting used to her presence that I am smelling her everywhere? Or is this her scent on my clothes?' Simon smiled at his thoughts before shaking his head and entering the office.

"Aaron, can you come to the office? I need some insight on the borders

before I plan out the new security system," Simon ordered through the mind link before leaning in his chair as he looked at the structure of the forest and the hideouts the rogues have used so far.

"You didn't answer me, Onyx. What is wrong with Athena? Are you sure this isn't one of your tactics to be close to her? I understand that you are in love with Celine and want to stay with her, but we are in a situation of

emergency. We can't just ignore things to be with our -" Simon paused when he saw a similar hiding spot the rogues have been using for the past few days.

"Fabian, send a spy team to the coordinates I am sending immediately. It's midnight, and I suspect a spot where the rogues might be present. They

won't be able to run far if we attack them using the element of surprise,"

Simon ordered Fabian before preparing a team of spies and fighters to go

there.

Meanwhile, Athena roamed her room, not knowing what to do.

She walked back inside the bathroom and lay in the icy cold water.

'Celine, answer me honestly. Is there nothing I can do to postpone this?'

Athena held her head as she fought back the heat, which was taking a toll on her.

'It's a natural process, Athena. What do you think can be done to stop this?' Celine asked, and Athena gritted her teeth as her body shivered from the

cold.

"You seriously messed up, Celine. We are in the middle of an emergency. Do you think Simon will have enough time to come and lie down with me? The last time already took a toll on all of us. I would need a separate team of

security to protect me from the unmated wolves. How will he keep me

away from the wolves when the fighters from all over the states are

coming?" Athena massaged her head in pain.

'Athena, I agree that it's because of my losing control that this thing

occurred earlier than expected, but isn't this good? The fighters will come in four days. By that time, your heat would be over. Besides, Simon must've

kept this in mind because of what the base is being built out of the pack,

Celine said, and as much as Athena knew her wolf was right, it did nothing to ease her worries.

Right now, she needs to focus on training herself to become strong enough to control Celine and not lay on the bed hiding from unmated wolves.

"Athena?" Athena heard Simon's voice, and she bit her lips. Did Simon smell her arousal already? But technically, the heat hasn't even started, then how? Or was there something else?

It was his home and not the office. Maybe he came to sleep. It's good as long as he can't smell it, right? He won't worry about it till then. Athena

nodded at herself before she wrapped the towel around her body and

walked out of the bathroom.

"Athena, I might -" Simon paused mid-sentence when he looked at his

beautiful mate, whose body was dripping water, and it wasn't hard to guess she was naked behind that towel.

And the Moon goddess forbids him, does she smell so divine.

"Is this some kind of seduction to keep me at home longer? Because if

that's the case, it's working," Simon stepped closer to Athena, making her step back.

She didn't want him to be near her and smell her arousal, which was

increasing with each passing second.

"Why do you smell like this?" Simon knitted his brows.

"Like what?" Athena asked, looking away.

"Like walking s\*x," Simon said before he pressed her between the wall and himself.

"Simon, don't you need to go?" Athena asked, trying her best to calm her raging heart reacting to his proximity.

"I have to go, but I can spare some time for my to-be Luna. I think I am

needed here more," Simon said, his hands traveling down to Athena's bare thighs, making her gasp when he raised his hand under her towel, cupping her already wet p\*ssy.

"Simon, this isn't the right time -

"There is never a right time to express your love, my love. I don't care what time it is," Simon bent and pressed his lips to Athena's, capturing her in a heated kiss, and Athena's grip on the towel loosened, making it fall and

collect on her toes as Simon pressed her further into the wall.

"Simon, mmm," Athena gasped when Simon opened her folds with his

fingers, parting her legs with his knee.

"Do you think I am a fool to miss this opportunity?" Simon mumbled against her lips before he traveled down to her jaws, nibbling them softly.

His fingers pressed Athena's clitoris, making her grab Simon's shoulder as her body started to react to his touches.

She could see that all the hard work she had done by bathing in the cold water, again and again, was going down the drain, but she didn't regret it right now as her heart and body wanted Simon.

Simon was probably right. There was no right time to love each other.

"Do you still not want it?" Simon asked, obviously seducing Athena into it, not stopping his assault as he nuzzled his face in the crook of her neck. Smelling her intoxicating scent, he sucked her mark, making her toes curl. He captured one of her nipples in her mouth, sucking on them like a baby while rubbing her clitoris, her wetness lapping on her folds.

"I want it," Athena said, and it was all the signal Simon needed as he went on his knees and parted Athena's legs further.

"Then just enjoy this feeling," Simon whispered before he captured her

p\*ssy in his mouth, sucking and kissing it like he kissed her mouth.

"Simon, Ahhh! Mmmh," Athena let out a scream when he put pressure on her sensitive spot, making her arch her back and touch her breasts. She loved what Simon was making her feel.

Athena pinched her nipples in pure lust and desire.

"Yes, this is the spot. Oh, Simon," Athena threw her head back when Simon twirled his tongue at her entrance.

Rubbing her spot with his thumb, he f\*cked her with his tongue, making Athena grab a fistful of his hair to keep her balance as she didn't trust her body anymore.

"F\*ck! Simon, please," Athena growled in pleasure, and Simon smirked

against her p\*ssy, his hot breath making her mad.

He was enjoying the feeling of pleasuring his woman. After a rough day, tasting Athena's juices and making her scream his name were all the

things he needed to relax. The more she was screaming, the happier his wolf was becoming.

"Cum for me, Athena. Cum all over my face. Let me taste your juices that make me go mad with their scent. Give it all to me, my love," Simon encouraged Athena as she dug her nails into his shoulders.

"Simon, it's-" Athena gasped when the pool of pleasure inside her started

becoming unbearable.

"Yes, baby. Come for me. Come like the little b\*tch you are. I want you to

dirty my mouth with your sweet orgasm and let me have it all as I rub and

f\*ck you deeply with my tongue," Simon dirty talked, and Athena's legs

trembled.

"Simon, I am about to-aaaaaaahhh, aah, Aaahh," Athena threw her head back as her orgasm rushed out of her body like a wave of heat exiting

through her vag\*na, and Simon licked every drop of what her body was

offering, rubbing her already sore spot, making her moan even more.

After what felt like an eternity but were only a few seconds, Simon stood up and wiped the corner of his lip, looking straight into Athena's eyes, whose

chest was still heaving up and down.

"Let's continue this session later too, yeah?" Simon pressed his body

her, grabbing her breasts before kissing her passionately.

He left shortly after tucking her in the bed, and Athena didn't know if she

should be feeling lucky that she got such a caring mate or cry that the

timing was so wrong.

'He calmed some of our heat. Maybe the real heat won't relapse until

morning, Celine said, and Athena hummed before closing her eyes to let

her body recuperate after this mind-blowing session.
