Chapter 111: Making Jade coins (1)

“The mother tree tower had become history, and the remnants of the mother tree’s stump had been through countless years of wind and rain. It was unknown if the tree spirits still had any bloodline left in this wilderness. ”

“Regardless of whether there were still descendants of the tree spirit clan, the things left behind on yuelang peak already belonged to Tang Zhen. If the other party really came to ask for them one day, Tang Zhen would not be polite and order them to leave. ”

The past was already over. Tang Zhen was not interested in the right and wrong of the story. He was only concerned about how much benefits this building foundation could bring him.

“The mother tree was very powerful. If it was built and upgraded, it would definitely bring huge returns to Tang Zhen in the long run. Whether it was in terms of daily life or military, he could borrow the mother tree’s power. The only thing he needed to consider now was that after building The Two Towers, the resources needed for upgrading would be extremely huge. ”

“In fact, in some powerful towers, there would often be several auxiliary towers with special attributes. However, the problem was that these old towers were very powerful in themselves and often had more than a thousand years of historical accumulation. It was not too difficult to develop the main tower while taking into account the auxiliary towers. ”

“However, for a new city with fewer resources or a shorter construction period, it would be difficult to develop the main city and the auxiliary city at the same time. ”

“For example, Black Rock City had a history of almost a thousand years. However, it only had a level 4 main tower and had never built a secondary tower. Tang Zhen would never believe that Black Rock City did not have such resources. However, there were only two reasons why Black Rock City did not build an auxiliary tower. The first reason was that they only wanted to strengthen the main tower and did not want the auxiliary towers to share the limited resources. The second reason was that they had not obtained a satisfactory auxiliary Tower Foundation so far. ”

“In order to determine the attributes of the foundation stone, there was no other way to determine the attributes of the foundation stone of the city building except to obtain it from the destroyed buildings or to analyze the details of the cleared wild buildings. ”

“Before Tang Zhen built the tower, he didn’t know the attributes of the foundation stone. After the construction was successful, he found out that the attributes of his tower were actually related to the ghost bank. It wasn’t good or bad, but it felt like he was trying his luck. ”

“Therefore, a top-grade foundation stone with clear attributes could be auctioned for a sky-high price on the foundation stone trading platform. This was because one did not have to bear the risk of luck. After all, no one’s brain came from the wind. When building it, one had to bear the risk of monsters attacking the city. Thus, one had to be careful before using it. ”

Whoever had the ability to appraise the foundation stone's attribute would definitely make a fortune!

"Tang Zhen put away the mother tree's foundation stone. As for whether to build it, he would decide after he returned. What he needed to do now was to head to the roots of the mother tree. According to the records in the books, the roots of the mother tree had the ability to gather precious minerals and gems. The tree spirits often collected and processed them. Now that the mother tree was dead, he did not know if there were still any gems left."

"Tang Zhen was already familiar with the passage that he was going down. Therefore, his speed was very fast. However, he paused for a moment when he reached the bottom. Finally, he chose a wider passage and walked down."

"The infrasonic wave opened up the path again. Tang Zhen walked and stopped. Finally, he walked to the depths of the ground where the mother tree's roots were located. What he saw was a scene of devastation. It was obvious that the roots of the mother tree had been severely damaged by the mutated tree maggots, and the underground space was filled with broken roots."

Tang Zhen's eyes swept around. He quickly discovered some fingernail-sized gemstones of various colors in the remnant soil. There were also some different-colored metal particles. Each of them was the size of a soybean.

"Tang Zhen put away all the gemstones and metal particles that he saw. He inadvertently discovered that a smooth wall had appeared in front of him. He moved forward and carefully observed it, only to discover that this so-called ""wall"" was actually an extremely large yellow jade."

"This piece of yellow jade was the size of a house. It was soft and warm. It was covered with fine purple hair patterns and looked very beautiful. After using the purple electric short sword to cut it, Tang Zhen discovered that its hardness was not inferior to metal. Moreover, it also had a very strong toughness."

"Perhaps this wasn't a piece of Jade at all, but something special."

"Tang Zhen didn't know much about Jade, much less the products of the loucheng world. However, the appearance of this yellow jade caused him to think of the problem of finding a coin to replace his brain. It seemed that this thing in front of him was the ideal material for making coins."

"It was beautiful and not easy to imitate. Most importantly, Tang Zhen liked it. However, although it was not bad, how to cut it and how to make it into coins was a problem."

"Fortunately, Tang Zhen was already prepared. Otherwise, he wouldn't have had the idea of using this yellow jade to make coins. This was because Tang Zhen had seen a very suitable application in the application store."

"super laser carving machine, able to cut large objects at high speed and carve nano-scale patterns. Extremely efficient, accurate, and beautiful. Download amount: 2000 gold coins."

Tang Zhen opened the application store and downloaded the application.

"The application was successfully activated, and a crisscrossing red line was immediately drawn in front of him. Tang Zhen could adjust the size by himself, and then he could start the cutting."

“As the lasers flickered up and down, the yellow jade was instantly cut into pieces and fell to the ground. Each piece was a square meter and two millimeters thick. ”

“Tang Zhen picked up a thin piece of Jade and broke it with force. The yellow jade piece broke from the middle, which also proved that yellow jade was very suitable for making coins. ”

“After the cut jade pieces were piled on the ground, Tang Zhen followed the instructions and used the provided pattern template to piece together the pattern that needed to be carved. Then, he could use the Super laser engraving machine to carve. ”

“Tang Zhen designed a picture of a coin with a Dragon on the back and the words ‘Holy Dragon City’ on the front. Then, he confirmed that the carving had started. This time, countless lasers covered these Jade slips. The constantly flashing light could almost blind people. Tang Zhen didn’t dare to look directly at the working scene of the ‘super laser carving machine’. ”

“Five minutes later, the dense laser beams finally stopped flashing. The application notified him that his work was completed. Only then did Tang Zhen dare to open his eyes to look at the scene on the ground. He saw that the ground that was originally filled with thin jade pieces was now densely covered with yellow jade coins. There were at least fifty thousand of them. ”

“Tang Zhen picked up a coin and examined it. He discovered that the carving was extremely exquisite. The pattern was also vivid and lifelike, appearing extremely exquisite. Tang Zhen nodded his head in satisfaction when he saw this. He waved his hand and kept all the money. ”

“However, the amount of coins was far from enough for Tang Zhen’s needs. Therefore, he continued to cut and carve. After repeating it five times in a row, he finally stopped. As for the huge jade stone, a small half of it had been consumed. ”

“After using the soil to cover the remaining Jade, Tang Zhen patted the dust off his body. He got up and left the underground cave. He came to the entrance of the cave on the ground. ”

“At this moment, there were still some kobolds guarding the entrance of the cave. When they saw Tang Zhen coming out, they immediately pounced over. Tang Zhen held the purple lightning short sword and killed all the kobolds in a short time. Then, he quickly ran in the direction of the Holy Dragon City. ”

?

Chapter 112: bug thief (1)

“In the endless wilderness, Tang Zhen rapidly advanced in the direction of the Holy Dragon City. During this period, there were some wandering low-level monsters that tried to attack him, but they were all killed by him with a swing of his sword. ”

“Currently, Tang Zhen’s cultivation had already advanced to rank 4. Killing some low-level monsters could be said to be as easy as blowing off dust. However, killing such monsters would not help him in increasing his cultivation. Therefore, unless those monsters were seeking death, Tang Zhen would not bother with them at all. ”

“Suddenly, the sound of weapons clashing came from the front. Tang Zhen immediately stopped and took out his binoculars to observe in the direction of the sound. After a while, Tang Zhen put down the binoculars. An inexplicable smile appeared on the corner of his mouth and he immediately headed straight to the scene of the battle. ”

“On the gravel plain, two groups of people were engaged in a fierce battle. From time to time, someone would be injured by a sword, blood splattering everywhere, and screams of pain could be heard. ”

Tang Zhen was very familiar with one of the groups. It was the cultivator battle team from Black Rock City. There were more than 30 people in total. They wore the same uniform and held swords in their hands. They formed a battle formation and appeared to be in an orderly manner when they faced the enemy.

The other group of people looked a little frightened and strange.

“There were about 50 to 60 of them, far more than the number of cultivators in Blackstone city. They were all wearing heavy black leather armor made of crocodile skin. Most of their weapons were long Knives and broadswords, while some of the cultivators in black armor used red bone Spears that were three meters long. ”

“Judging from the uniform equipment and weapons of these people, it was obvious that they belonged to an organized force. However, for some unknown reason, they had a conflict with the cultivators of Black Rock City, which resulted in them pointing their swords at each other. ”

“What made Tang Zhen interested was that the faces of these black-armored cultivators were already extremely deformed from their noses up. They looked like malevolent ghosts. However, after taking a closer look, Tang Zhen discovered that these cultivators’ faces were actually covered with a kind of strange insect. They wrapped around the upper half of their faces and more than a dozen tentacles pierced deeply into the cultivators’ acupuncture points such as sun, jade pillow, and Baihui. There were also two half-foot long tentacles in front of their foreheads that were shaking from time to time. ”

“Every time these cultivators were agitated, the tentacles of the face-applying bugs would shake violently. And every time these cultivators were in danger or at the brink of death, the face-applying bugs would turn red again. Then, the cultivator’s strength would immediately surge, and his whole person would go crazy. He would not feel a knife or sword stabbing his body, which was quite terrifying. ”

“Tang Zhen saw a cultivator whose face-covering bug had turned red. He dragged his intestines and internal organs that were all over the ground and desperately bit the lower leg of a Black Rock City cultivator. Even though his head was cut off by a sword, he continued to bite. Only when the red color of the face-covering bug faded did the cultivator die. ”

“The [monster detector] locked onto the strange face-dressing bug, but it did not get any information. This meant that the face-dressing bug was not a monster, but just a strange bug. ”

“In the face of this group of crazy cultivators with face-covering bugs, the cultivator battle team from Black Rock City was strong and had good cooperation. However, five people were still killed. As for the cultivators with face-covering bugs, more than ten of them were dead. ”

“After shifting his gaze away from the face-covering insect cultivator, Tang Zhen looked at the Black Rock City’s cultivator battle team. To be more precise, he looked at a youth in the cultivator battle team. This was because this person was the youth Xiao Rui who had a secret deal with Tang Zhen. ”

It was because of the information provided by the young man that Tang Zhen was able to clean up the treasure room in Black Rock City. He did not expect to meet him here today.

“However, Xiao Rui had already been promoted to a rank 3 cultivator. Among the cultivators from Blackstone city, he was one of the few with a higher cultivation. ”

“The young man, little Rui, had very sharp senses. When Tang Zhen was observing him, he also felt Tang Zhen’s gaze. He turned his head to look at Tang Zhen and then pretended not to know Tang Zhen. He continued to swing his sword and fight with the face-covering insect cultivators. ”

“In reality, both parties had already discovered Tang Zhen’s existence ever since he appeared near the battlefield. However, no one dared to act rashly. After all, Tang Zhen’s current strength had already reached rank 4. The aura of his cultivation that he revealed was very obvious. The two parties that were currently fighting were unable to figure out his intention for coming. Since he was merely watching from the side and did not attack, no one would invite a rebuff and provoke him. ”

“The leader of the face-covering insects and the leader of the Black Rock City cultivators were both at Level 4. At this moment, the two of them were locked in a fierce battle. Due to the strange ability of the face-covering insects, the combat power of the leader of the black-armored cultivators was obviously higher. ”

“The leader of the cultivators from Black Rock City was at a disadvantage and was worried about how to escape from this situation. When he saw Tang Zhen, he was delighted and immediately shouted, ”My friend, we are cultivators from Black Rock City. Please help us kill these insect bandits. Black Rock City will definitely reward you handsomely!” ”

“After the leader of the cultivators from Black Rock City shouted out his words, the insect cultivators that he called the insect bandits immediately looked at Tang Zhen with vigilance. Some cultivators even faintly moved closer to him in case he suddenly attacked. ”

“Tang Zhen coldly laughed when he saw this. He was extremely disdainful of the actions of the leader of Black Rock City. If he thought that he would be dragged into this with just a sentence, he was really too naive. ”

“Black Rock City was considered his enemy. How could he help them? however, that young man called Xiao Rui was still useful to him. He could not let him die Here. ”

“However, the term ‘insect bandits’ mentioned by the leader of the cultivators in Black Rock City made Tang Zhen recall the various forces in the wilderness that Qian Long had once introduced to him. One of them was the introduction of this insect Bandit. ”

“It was said that before the insect bandits became famous, they were a group of ordinary Wanderers and wild cultivators. When they explored a strange wild building, they found some strange insects. Some of these insects were like scorpions and could attach themselves to the arm. They could control it with

their thoughts and shoot out a kind of hard poisonous sting. Some insects could change their limbs, turning human arms into bone knives or growing countless tentacles. ”

“In addition, there were also many insects with strange functions. The insect thieves kept it a secret, and only their own people knew about it. Anyone who had seen it had already turned into bones. ”

“The bug thieves had the most bugs, and they were these face-applying bugs that could cover the face and greatly increase the user’s strength. However, the side effects of using these face-applying bugs were very great. In less than ten years, the user would enter a state of exhaustion. However, the bug thieves did not care. Every member would wear a face-applying bug, which made the face-applying bug the main symbol of the bug thieves. ”

“Relying on these strange insects, the insect thieves quickly rose up in the nearby area and became one of the major forces that the Wanderers were extremely afraid of, so they wouldn’t easily provoke them. ”

“However, he did not know what was wrong with the insect bandits this time. They actually dared to provoke the Overlord of this region, Black Rock City. Were they not afraid of Black Rock City’s revenge? ”

“After Tang Zhen thought of this, he took a deep look at the leader of the insect bandits. Perhaps, this group of people who were neither human nor ghost had already become the pawns of some faction. ”

“Thinking about it, the sudden outbreak of the undead race this time had caused Black Rock City to be in a terrible state, and their own strength had also suffered a great loss. At this time, some organizations that coveted Black Rock City’s territory would take the opportunity to attack and hit them when they were down. It was not impossible. ”

“If he were to rashly intervene, it would bring trouble to himself no matter which side he helped. When Tang Zhen thought of this, he decided to sit on the fence and wait for the outcome of the battle to be decided before making any other plans. ”

“The two sides of the battle saw that Tang Zhen did not move for a long time and thought that he did not want to get involved in this muddy water. After all, the two sides of the battle were two famous forces in the vicinity. No matter how high Tang Zhen’s cultivation was, he was just a Lone Ranger. No matter who he offended, it would be enough for him to suffer. ”

“After thinking up to this point, the two groups no longer bothered with Tang Zhen and continued to bury their heads in the battle. ”

“Unfortunately, Tang Zhen did not know what these people were thinking. Otherwise, he would definitely smile in disdain. If he were to take action, with his current level 4 cultivation and the weapons in his storage space, it was likely that more than half of the cultivators present would die in his hands. The remaining half would be difficult to please. ”

“Just as Tang Zhen was watching the battle with his arms crossed, a long howl could be faintly heard from far away. The leader of the cultivators from Black Rock City revealed a look of joy, but the face of the leader of the insect bandits changed! ”

?

Chapter 113: Elder mo (1)

Tang Zhen turned his gaze towards the direction where the voice had originated from. He saw a human figure pouncing toward the battle like a bolt of lightning.

“After seeing this scene, Tang Zhen’s pupils slightly shrunk. From the speed of this person’s movement, it was likely that his cultivation was not weak. At the very least, he had to reach rank 5 before he could possess such might.”

“From the looks of it, they didn’t seem to have good intentions!”

“Looking at the joyful expressions on the faces of the cultivators from Black Rock City, he was afraid that the other party was reinforcements from Black Rock City. In the face of such strong reinforcements, the situation of this group of insect bandits was not good!”

“Tang Zhen was slightly unhappy that he was unable to see the cultivators of Black Rock City suffer a loss. However, this was not the time for him to make a move. He still needed to wait for the right opportunity.”

“At this moment, the figure had already arrived in front of them. After he steadied himself, the crowd realized that it was an old man.”

“The old man was wearing a robe sewn from an unknown material. He had a strong body, his white hair was tied into a ponytail, and his expression was gloomy.”

“He stood proudly in the middle of the two sides, not worried that the insect thieves would take the opportunity to attack.”

“The old man’s aura was imposing. After his cold eyes swept across everyone present, he spoke to the leader of the insect bandits, ““ my Black Rock City and your insect bandits have never crossed each other’s path. Why are you surrounding and ambushing the cultivators of my Black Rock City today? if you don’t give me an explanation, then none of you shall leave!”

“The old man’s words were firm and decisive. Coupled with his rank 5 cultivation, he was not arrogant.”

“The leader of the insect bandits took a step forward and cupped his hands before his chest,““is that elder mo from Black Rock City?“” he asked the old man. I’m Zha Gu, the third leader of the insect Masters. Today’s incident was completely started by you, the cultivators of Black Rock City. We just want an explanation. Black Rock City is the Overlord of this region, we naturally do not wish to offend them. However, if we do not say a word even when they are riding on our necks, then we, the insect thieves, will not be able to continue living in this world.””

“After Zha Gu had finished speaking, he glanced at the cultivators from Black Rock City who were filled with killing intent and coldly snorted with an expressionless face.”

“After hearing Zha Gu, who called himself the third leader of the insect Masters, say this, elder mo of the Black Rock City cast his gaze towards his own camp with a questioning look in his eyes.”

“When the rank 4 cultivator in the lead saw this, he quickly walked over and reported the entire situation to elder mo.”

“It turned out that ever since the undead clan’s outbreak, Black Rock City had been in a state of suppression. Many things that could only be done outside the city could no longer be completed, including the work of gathering some precious materials.”

“These materials were essential for Black Rock City’s trading goods. Now that they had been completely depleted, they would have to be replenished if they wanted to continue production.”

“However, the undead clan had surrounded Black Rock City. It was not an easy task to break through their blockade.”

“However, the corpse race was only surrounding the city and not attacking. As long as the cultivators of Black Rock City did not try to break through the blockade, the corpse race would not take the initiative to enter the defensive range of Black Rock City’s buildings.”

“However, in that case, Blackstone city would be like a tiger trapped in a cave. There were hunters armed with guns outside, and they would be in a dilemma.”

“Fortunately, there was the cornerstone trading platform that allowed them to exchange for limited food. Black Rock City also had their own special food to save their lives, so the residents of Black Rock City barely had to go hungry.”

“However, as time went by, the disadvantages of being surrounded by the undead race began to show, especially one of the products that Black Rock City mainly purchased from the cornerstone trading platform. It had always been one of the main points income of Black Rock City, but now that the raw materials had been exhausted, they were completely out of stock.”

“Since there were no more goods to sell, there was naturally no point income. Without points, he could not buy the materials he needed on the cornerstone trading platform.”

“It was like living at home. One couldn’t live without firewood, rice, oil, salt, sauce, vinegar, and tea. Otherwise, one wouldn’t be able to live.”

“There were close to ten thousand people in Black Rock City. The daily consumption was also extremely large. It was not obvious on normal days, but now that they were besieged by the corpse clan, the internal affairs of Black Rock City were immediately in chaos.”

“The citizens of Black Rock City were not allowed to have points. They only had coins to replace points. Unfortunately, they could not buy what they wanted with these coins. Even the supply of food was decreasing.”

“The citizens of Black Rock City were worried, but no one dared to say anything out in the open for fear of bringing them unnecessary trouble.”

“The people in power in Black Rock City did not care about what the residents thought. To them, as long as the residents did not starve to death, there would not be any trouble. However, the problem was that after the point income channel was cut off, the cultivation resources of the cultivators in Black Rock City were also cut off. This was the most fatal thing.”

“There was no doubt that powerful martial strength was the foundation of Black Rock City’s standing in the endless wilderness. If the resources to sustain the cultivators’ daily training could not be guaranteed, and the cultivators’ combat power was damaged, then Black Rock City might really be in danger of being destroyed.”

“To make matters worse, the brains that were originally stored to tide over the crisis were all gone because of the accidental theft of the treasure room. The governor of Black Rock City was so angry that he swore to tear the thief into pieces.”

“Without the brain to exchange for points, the higher-ups of Black Rock City were at their wits’ end. After all, they did not have many points in their pockets.”

“The governor of Black Rock City still had a batch of high-level brain beads, which he had kept away. However, these were reserves that could only be used when the city was in danger of being destroyed, and could not be touched easily.”

“Looking at the current situation, it didn’t seem like they had reached the point of burning their boats.”

“Hence, Black Rock City decided to break through the zombie race’s blockade and head to the origin of the materials to collect them. However, for some unknown reason, the original origin of the materials had already been taken by someone else. All the required materials had been plundered, and even the origin had been destroyed.”

“Snatching food from a Tiger’s mouth would never have happened in the past. This was because everyone knew that this was the forbidden area of Black Rock City and would take a detour when they passed by. However, now that Black Rock City was in a crisis, all sorts of evildoers had come out to take advantage of the situation. Some of them had even destroyed the origin of raw materials and openly provoked Black Rock City.”

“Unwilling to return empty-handed, the cultivators of Black Rock City decided to head to another location to harvest after some discussion. However, that place was the area controlled by the insect bandits.”

“As a result, one of the insect bandits who had tried to stop the cultivators from Black Rock City was killed. The insect bandits who had rushed over after hearing the news were not willing to let this go. As soon as the two sides disagreed, they immediately drew their swords and started slashing at each other.”

“After elder mo heard of the incident, he glanced at the Black Rock City cultivator who had attacked and a trace of helplessness flashed across his eyes.”

It was his troublesome grandson’s doing again. Didn’t he know that Black Rock City was currently plagued with internal and external problems and that it was not wise to provoke a strong enemy?

“These people were like hungry wolves in the wilderness. Although they were usually polite to Black Rock City, that was because they did not dare to fall out with the powerful Black Rock City. However, once Black Rock City’s power declined, these people would be the first to pounce on them and bite them.”

“After thinking about this, elder mo looked at the leader of the insect bandits and said slowly, “ I already know the whole story of this matter. No matter what, Black Rock City has done something wrong in this matter. However, both sides have suffered casualties. Why don’t we let this matter go? I wonder what leader Zha Gu thinks? ” ”

“When elder mo had rushed over, Zha Gu was already prepared to die together with him. He did not expect that elder mo would actually suggest such a thing. Naturally, he was more than happy to hear it. ”

“Zha Gu cupped his hands and bowed to elder mo. since elder mo has said so, I, Zha Gu, will naturally comply. We will let this matter rest. We will meet again! ”

Zha Gu waved his hand and left with a gloomy face. The surrounding insect thieves immediately gathered and followed behind him. They quickly disappeared into the wild grass.

Elder mo looked at the bug bandits that were leaving and a cold glint flashed in his eyes before it disappeared.

“Elder mo slowly turned his head towards Tang Zhen. His voice suddenly turned cold and hard as he asked in an emotionless tone, “this passerby who did not help the cultivators of my Black Rock City. Do you have any last words before you die?” ”

?

Chapter 114: fighting the cultivators of Blackstone city

“Tang Zhen’s expression turned cold when he heard this. He sneered and replied, what a great Black Rock City, what a tyrannical elder mo. I wonder what kind of mistake I’ve committed. Please tell me so that I can die with an understanding of the situation! ”

“Mo Chang’s eyes were cold as he looked at Tang Zhen. He spoke with an emotionless tone, “Not lending a helping hand when you saw the cultivators of Black Rock City in trouble is the greatest mistake you have ever made. If you had escaped in time, it would have been fine, but you actually stayed behind to witness the entire incident. Naturally, I can’t let you live!” ”

“Tang Zhen acted as if he suddenly came to a realization when he heard this. He looked at elder mo and coldly laughed, “I see, I understand. After thinking about it, it makes sense. After all, Black Rock City has always been powerful. This time, they suffered a big loss and their image was greatly damaged. Naturally, they don’t want to publicize this matter. ”

“Elder mo, who was feeling pent up anger, wanted to find someone to vent his anger on, but I just had to dress like a wild cultivator and this is the wilderness, so I was the best choice, right?” ”

“Tang Zhen’s voice was filled with killing intent as he spoke. He glanced at the cold-faced cultivators from Black Rock City and chuckled, “Since that’s the case, Zhenzhen, let’s see who’s the real deal!” ”

Tang Zhen’s voice had just fallen when he immediately took out a mini submachine gun and rapidly fired at elder mo!

“The cultivators from Blackstone city were stunned when they saw this. The rank 4 leader of the black stone City team shouted angrily. He raised his arm and threw a dart that was made from a spearhead at Tang Zhen. The DART went straight for his chest, but Tang Zhen easily dodged it.”

“The rest of the Black Rock City’s cultivators shouted in unison and rushed towards Tang Zhen. The young man by the name of Xiao Rui took a deep look at Tang Zhen before he brandished his long sword and rushed over. However, his figure was faintly at the back of the group.”

“As the target of the attack, elder Mo’s expression changed as he faced the rapidly approaching bullets. His figure flashed at an extremely fast speed and crossed over the flying bullets. Following that, elder mo furiously roared. With a swing of his hand, he pulled out a long black whip from his waist and lashed it towards Tang Zhen.”

This long whip was over five meters in length. It brought about a sharp wind when it was swung. Tang Zhen did not doubt that this long whip made of an unknown material would be able to split an ordinary person’s body into two.

“Tang Zhen, who had sensed the danger, immediately dodged. At the same time, he also avoided the cultivators from Blackstone city who had surrounded him. He took out a grenade, pulled the safety pin, and threw it towards the dense group of Blackstone cultivators.”

“Seeing the metal lump that Tang Zhen had thrown, the surrounding Black Rock City cultivators were all stunned. They did not understand what Tang Zhen wanted to do with it. However, elder mo of Black Rock City was very knowledgeable. After seeing the grenade that Tang Zhen had thrown, a trace of doubt and contemplation flashed across his eyes. However, in the blink of an eye, his expression changed greatly and he shouted, get out of the way! That’s a bomb!”

“Elder Mo’s warning was still a step too late. The grenade had already exploded. For a moment, shrapnel flew everywhere. The shock wave was like an invisible sword, setting off a rain of blood among the cultivators of Black Rock City.”

“After the explosion, the cultivators of Black Rock City were dumbfounded by the scene in front of them. They turned their heads around and glared at Tang Zhen as if they were going to swallow him alive.”

“At the center of the explosion, seven or eight Black Rock City cultivators were lying on the ground covered in blood. Four or five of them were clearly on the verge of death and could not be saved. The rest of the injured were also covered in wounds, and some of them were groaning in pain.”

“These were their companions that they had spent a lot of time with, but in the blink of an eye, they were separated by life and death.”

“A small grenade had actually made them pay such a heavy price. This made them angry, but at the same time, it also raised fear in their hearts towards Tang Zhen.”

“After seeing this scene, the youth Xiao Rui immediately rejoiced that he had been on guard against Tang Zhen. This allowed him to avoid the killing range of the terrifying bomb. Otherwise, it would have been difficult for him to escape.”

“Seeing such a tragic situation, elder mo immediately burst into anger and roared, “” “”Little thief, I will kill you!”” ”

“After saying this, elder Mo’s figure was like lightning as he pounced towards Tang Zhen. From his speed, it was impossible for Tang Zhen to Dodge. From the strength of his attack, it seemed like he was determined to kill Tang Zhen in a single strike! ”

“Tang Zhen surprisingly did not Dodge. Instead, he faced the path of elder Mo’s attack. He raised his left arm and extended two fingers, making a gesture of pointing at elder mo. At the same time, he had a strange smile on his face. ”

“At the same time, Tang Zhen had already activated the [miniature deathlight weapon]! ”

“”Whoosh!”” ”

“A ray of light that represented death swiftly shot towards elder mo. From the angle of its shot, it seemed to have flashed from Tang Zhen’s fingertip. ”

“Elder mo suddenly felt the threat of death approaching him. Years of life and death battles had not only made his premonition of danger extremely sharp, but his escape movements were also honed to perfection. The moment he sensed the danger, elder mo had actually forcefully shifted his body halfway in an attempt to avoid the inexplicable danger! ”

“However, how could a human’s speed be faster than the speed of a death ray weapon? when he sensed the danger, it was too late to Dodge! ”

“”Bang!”” ”

“Elder mo let out a blood-curdling screech. His voice did not sound like a human’s. It was a sound that would only be produced when one was in extreme pain. It was filled with fear and grief. When the cultivators of Black Rock City heard it, they looked over and were all shocked! ”

“One of the people with the highest cultivation in Black Rock City, elder mo, who was usually extremely dignified, was now half-kneeling on the ground like a limp dead dog. Half of his right shoulder and the entire arm had disappeared without a trace and the wound was also charred black. ”

“Looking at elder Mo’s trembling body and the beads of sweat that kept rolling down his head, one could tell how much pain he was in! ”

“The cultivators from Black Rock City were in disbelief. Even though elder mo was a man of poor character, his cultivation was at level five. How could a level four rogue cultivator hurt elder mo? ”

“One of the Black Rock City cultivators suddenly recalled the scene of Tang Zhen pointing at elder mo before a ray of light struck elder mo. He could not help but shout out, it’s a divine spell. This wild cultivator must be a level four Holy master! ”

“When the cultivators from Black Rock City heard the words “”Holy master,”” they were all shocked. They looked at Tang Zhen with a hint of fear and even a hint of envy. ”

“They were naturally well-versed in the abilities of Holy Masters. They were the best of the best, and there was a Holy master in Black Rock City! ”

“Although the Holy master’s cultivation was only at Rank 2, he was an existence that could fight against a rank 3 cultivator and even kill him! ”

“Tang Zhen’s eyes and ears were sharp. When he heard that these Black Rock City cultivators had mistook his ability for a so-called divine technique, a thought appeared in his mind. However, it disappeared in the blink of an eye. ”

“Tang Zhen did not forget to stare at the map while he was fighting against elder mo. At this moment, a mocking smile suddenly surfaced on his face. ”

“The leader of the level four cultivators from Black Rock City did not care whether Tang Zhen was a Holy master or not. Instead, he took the opportunity to pounce on Tang Zhen from behind, intending to launch a sneak attack on him and kill him. ”

“Tang Zhen faintly felt a trace of uneasiness as he glanced at elder mo, whose aura was so weak that it seemed like he would fall to the ground at any moment. Therefore, he did not choose to chase after the seemingly weak elder mo. Instead, he activated [map teleportation] and appeared behind the black Rock City’s leader who tried to sneak attack him in the blink of an eye. ”

“You planned to attack me from behind, so I’ll let you have a taste of my blade! ”

“The cultivators from Black Rock City had already stopped their attacks. Instead, they chose to watch the battle. ”

“In a battle between high-level cultivators like this, if they rushed forward, they would only be an obstacle to Tang Zhen. It was no different from suicide. Moreover, Tang Zhen might also be a Holy master. This made them even more afraid to act rashly. ”

“Now that they saw Tang Zhen suddenly disappear from his original spot and then mysteriously appear behind the leader of the cultivators from Black Rock City, other than being even more certain of Tang Zhen’s identity as a Holy master, some people began to worry about the safety of the leader of the cultivators from Black Rock City. ”

“““Leader, be careful! He’s behind you!”” ”

“A cultivator from Black Rock City warned loudly. However, it was already too late. Tang Zhen’s purple lightning short sword had already been thrust out and was heading straight for the heart! ”

?

Chapter 115: The dying elder mo

The leader of the cultivators in Black Rock City was shocked when he saw Tang Zhen suddenly disappear!

“However, before the leader of the cultivators could figure out what was going on, he felt a prickling sensation on his back. The undisguised killing intent made his soul fly out of his body. He wanted to Dodge, but it was too late! ”

“““Pfft!”” ”

“The purple lightning short sword pierced through the cultivator leader’s back and came out of his chest, not stained by a single drop of blood!”

“The demonic armor on the cultivator leader was like paper in front of the sharp purple lightning short sword. From this, one could see how extraordinary the purple lightning short sword was!”

“With a twist of his wrist, the purple electric short sword stirred in the chest of the leader of the cultivators. After completely crushing his heart, Tang Zhen pulled it out.”

“The body of the leader of the cultivators went limp on the ground. His face was full of unwillingness and pain. After struggling for a while, he no longer moved.”

“When they saw how easily Tang Zhen had killed and crippled two high-level cultivators, the remaining cultivators from Black Rock City felt a chill in their bones. Their fighting spirit completely disappeared and their legs began to tremble. Some of them had even begun to slowly retreat while secretly thinking about how they could safely escape from Tang Zhen’s pursuit!”

“Tang Zhen did not care about the low level cultivators from Black Rock City who had been frightened by him. Instead, he turned his head to look at elder mo who was still half-kneeling on the ground. With a disdainful expression, he coldly snorted and said,“Elder mo, how long are you going to keep pretending? Don’t worry, even if I kill all these cultivators, I won’t get close to you and let your sneak attack succeed. You cunning old fox!””

“After Tang Zhen ridiculed him, elder mo did not have any reaction. He then ignored him and turned to look at the low-level cultivators from Black Rock City.”

The cultivators from Black Rock City who met his gaze could not help but feel a chill in their hearts and their scalps go numb.

“When Tang Zhen’s eyes made contact with the young cultivator named Xiao Rui, he saw that the other party was also looking back at him with a profound expression. His eyes seemed to contain gratitude. At the same time, his gaze slowly shifted and landed on a slightly fat cultivator from Black Rock City who had a timid expression. A killing intent suddenly appeared in his eyes!”

“Tang Zhen smiled when he saw this. He also turned his gaze towards the slightly plump Class 2 cultivator from Black Rock City. Killing intent surged in his eyes. Without waiting for the other party to react, he suddenly raised his gun and pulled the trigger!”

“Bang Bang Bang!”

Three bullet holes immediately appeared on the cultivator’s neck as he collapsed to the ground with an unreconciled expression.

“Ah Zhen was killed by him. Everyone, retreat quickly. Don’t make unnecessary sacrifices. I’ll stop him!”

“After the young man named little Rui saw Tang Zhen shoot and kill the cultivator, a trace of joy immediately flashed in his eyes. Then, his face revealed a look of panic. He stepped forward in front of the crowd and placed his sword across his chest. While blocking Tang Zhen, he nodded slightly in thanks and used a warning look to signal Tang Zhen to look behind him!”

“In fact, there was no need for Xiao Rui to remind him. Tang Zhen had already seen elder Mo’s devil-like eyes under his disheveled hair through the map. He was slowly standing up as though the pain of his broken arm did not exist. ”

“””I have no interest in killing you weaklings. Before I change my mind, get out of my sight!”” ”

“Tang Zhen coldly spoke to the young man, Xiao Rui. The other party was cooperative as he slowly retreated. After which, he led the group of cultivators from Black Rock City who were scared out of their wits and retreated far away. ”

“However, when he occasionally glanced at elder mo, his eyes would be filled with even more intense killing intent. ”

“When he recalled the conversation between Xiao Rui and his sister, how could Tang Zhen not guess that the cultivator from Blackstone city whose head he had exploded and this elder mo were the culprits who caused the death of Xiao Rui’s parents? they were irreconcilable enemies! ”

“Now that he had helped him to get rid of these two enemies, he must repay him in kind. Tang Zhen even had some faint anticipation in his heart. After all, he had relied on the information provided by Xiao Rui the last time to empty the treasure room in Black Rock City! ”

So what good things could he get this time?

“After the group of Black Rock City’s cultivators retreated, Tang Zhen turned around with a smile on his face. He looked at elder mo, who was standing among the wild grass. At this moment, his clothes were fluttering in the wind and his hair was in a mess. Coupled with his injuries, he looked like he was in his twilight years. ”

“Tang Zhen sized him up. Only then did he smile in disdain,””Elder mo, why don’t you continue with your act? is it because of what I said just now, or is it because you’ve already released the power of your final attack and can only helplessly wait for death?”” ”

“Elder mo seemed to be doing his best to suppress the pain in his heart. He used his eyes that had already become completely listless to look at Tang Zhen and asked in a hoarse voice,””I have yet to ask for your name. Even if I die in your hands, I must find out who I lost to.”” ”

“After glancing at elder mo, Tang Zhen replied,””Holy Dragon city’s city Lord, Tang Zhen!”” ”

“Elder mo was stunned for a moment before he broke into laughter. He shook his head and sighed, “”””So you’re the outsider who built the city in the small valley. No wonder you’re a high-level cultivator and have mastered a divine technique. Isn’t that the description of the Holy Dragon city’s city Lord in the intelligence report? ”

“Losing to a city Lord isn’t too embarrassing, this old man can die in peace, but I regret not making a move on you earlier, and raising a Tiger to cause trouble, hahaha!”” ”

“Elder mo actually began to laugh loudly after saying that. However, after laughing twice, he began to cough violently. At the same time, a large amount of blood spurted out of his mouth, and some of the black carbon parts mixed in the blood came from his lungs. ”

“The power of the death ray weapon was terrifying. Although elder Mo’s torso was not directly hit, the terrifying heat of the death ray still burned most of the organs in his chest below the shoulder. He was only able to live until now because of his strong willpower!”

“Even after suffering such a terrifying injury, elder mo still forcefully held on without saying a word. On the contrary, he appeared weak to the enemy and planned to ambush Tang Zhen.”

“Unfortunately, Tang Zhen had seen through his scheme. Not only did he not fall for it, but he had also killed his grandson.”

“With that, elder mo could no longer pretend.”

“As cunning as a Fox and as tough as a mountain, Tang Zhen still gave some respect to such an enemy. He did not pull out his gun and directly kill him.”

“When Tang Zhen heard elder Mo’s words, he could not help but ask,““Could it be that your Black Rock City has already received news of me? and from your tone, it seems that you intend to make a move on me?”” ”

“Elder mo was still coughing non-stop, and his body was becoming more and more hunched. After coughing for half a minute, he raised his red face, opened his blood-covered mouth, and roared, ““That’s right, I’m going to kill you and I’ll be responsible for it. It’s a pity that I’ve underestimated you and didn’t take you seriously. Now it seems that I’ve brought harm to Black Rock City.”

“If I’m not wrong, you’re the thief of the Black Rock City’s treasure vault, aren’t you? in addition, you’ve built a tower near Black Rock City, and today, you’ve killed a cultivator from Black Rock City. I’m certain that Black Rock City will regard you as a great enemy and will send out an elite cultivator team to massacre your Holy Dragon City to vent their anger!”” ”

“Tang Zhen looked at elder Mo’s tottering body and shook his head. He ridiculed with an expressionless face,““You’re wrong. To me, Black Rock City is just a place that can be destroyed with a little bit of effort. However, I still need it to attract the attention of the corpse race and the other towers.”

“What’s laughable is that in your hearts, you actually think that my Holy Dragon City is nothing but clay chickens and pottery dogs, a place that you can do as you please, or even massacre as you please. Who gave you the confidence?”

“Now that you’re about to die, I won’t hide anything from you and let you die in peace. Do you see this bomb that killed your group of cultivators? my Holy Dragon City can have as many as we want!”” ”

“Tang Zhen flipped his hand and took out a hand grenade for elder mo to take a look. After randomly shaking it a few times, he took out a submachine gun and shook it. He continued,““Holy Dragon City also has as many of these firearms that can fire continuously as we want!”

“With these two deadly weapons, what right does your Black Rock City have to fight me?”” ”

“Tang Zhen looked at the incomparably ugly expression on elder Mo’s face. He coldly snorted and continued, do you want to know how I found out the location of the treasure vault in Black Rock City and why I coincidentally shot your grandson to death? ““ ”

“Elder Mo’s body trembled. His bloodshot eyes glared at Tang Zhen as he furiously roared,” “Tell me, why?” “ ”

“Tang Zhen looked at the pained expression on elder Mo’s face and slowly shook his head,” “Don’t worry, I’ll never tell you. You can die with regret!” “ ”

“” “You, shameless Yingluo” “ ”

“Elder Mo’s body trembled violently when he heard this. His eyeballs almost popped out, but his eyes were still staring at Tang Zhen with endless hatred. Fresh blood mixed with carbonized organ fragments spurting out from his mouth. Soon after, he laid down on his back in the wild grass! ”

?

Chapter 116: Xiao Rui’s plan (1)

“Tang Zhen was only silent for a few seconds as he looked at elder mo, who had died with his eyes wide open in the wild grass. He then turned around and ran in the direction of the Holy Dragon City. ”

“When the cultivators from Black Rock City saw that Tang Zhen had finally left, they finally dared to come forward and wrap up elder mo and the leader’s corpses. Then, under Xiao Rui’s lead, they returned to Black Rock City with a dejected expression. ”

“These cultivators from Black Rock City were not very old. Ever since they were born, they had been instilled with the idea that Black Rock City was the Overlord of this region by their elders. As a result, they looked down on the wild cultivators from the bottom of their hearts and thought that they were weak. As for ordinary Wanderers, they were not even considered humans in their eyes. ”

“Even if they had the chance to come into contact with those ill-equipped and weather-beaten rogue cultivators, the cultivators of Black Rock City would still assume a high and mighty attitude. They would think that if they were to speak to these rogue cultivators, they would be giving them a great deal of face. ”

“After all, he was a cultivator from Black Rock City and the Black Rock City behind him was the Overlord of this area! ”

“However, since the appearance of the corpse race, Black Rock City had been on the losing end. In the end, they were even surrounded by the corpse race, like a beast trapped in a cage. They could only let out helpless roars, but the management of Black Rock City was helpless. ”

“As a result, rumors began to spread among the citizens of Black Rock City. They claimed that Black Rock City was an Overlord, but in reality, they were nothing more than that. They were actually blocked by monsters at their homes and did not dare to go out. This was simply a great humiliation. It was also the negligence of the city Lord and the other higher-ups, etc. ”

“No one knew where the rumors had started, but the residents were talking about it with great relish. However, they were all discussing it in private. Talking about it in public would be courting death. ”

“However, the more one heard, the more one understood. The cultivators with high status in Black Rock City were actually more concerned about the development of this matter than the ordinary residents. After all, this concerned their own interests. They could only obtain more benefits if Black Rock City was strong.”

“However, Black Rock City’s obvious disadvantage made these cultivators feel uneasy. Their previous condescending attitude was now slightly shaken and they began to doubt whether Black Rock City could win this war.”

Tang Zhen had ruthlessly killed two high-level cultivators from Black Rock City in succession. One of them was a level 5 elder. This had completely shattered the fighting spirit of the Black Rock City cultivators.

“They began to doubt what they had heard in the past. Was Black Rock City really the Overlord of this area? why were they in such a sorry state when facing the corpse clan, and why were their high-level cultivators so vulnerable?”

“Compared to the dejected cultivators from Black Rock City, there was only one person who did not feel the slightest bit of suspicion. Instead, he was extremely excited. This person was the young man, Xiao Rui.”

“Tang Zhen had helped him to kill his two great enemies. It was as though a huge mountain had been removed from his heart, and he felt refreshed.”

“Compared to the rumors that he had secretly spread and the small tricks that he had used to disturb the hearts of the people in Black Rock City, Tang Zhen’s method of killing his enemies by clashing with them head-on was what a real man would do. It was also the scene that Xiao Rui yearned for the most.”

“It was a pity that his cultivation level was not high enough. Otherwise, he would be the one to kill his enemy today.”

“Xiao Rui was thinking as he walked. Suddenly, he started to feel worried. He had received a huge favor from Tang Zhen this time. He had to repay him. Otherwise, the deal between the two of them would definitely end. This was something that Xiao Rui would never allow to happen. After all, the powerful Tang Zhen would be a great help to him in realizing the plan in his heart.”

“However, Tang Zhen was definitely not someone that could be easily dismissed. Did he have anything that could move his heart?”

“Just as Xiao Rui was secretly thinking about what benefits he could give to Tang Zhen, a young cultivator from Blackstone city came over and said to Xiao Rui in a deep voice, “Xiao Rui, we didn’t complete our mission this time, and so many people died. We’ll definitely be punished when we go back. We’re not afraid of physical pain, but we’re afraid of implicating our families. Your cultivation is the highest among us, so you can make a decision. We’ll all listen to you!””

“Xiao Rui’s eyes lit up when he heard this. He looked at the surrounding cultivators and asked, “ what are you guys thinking? are you all going to listen to my command after we go back? “”

““Of course, we’ll listen to you!””

“““I’ll definitely listen to you. Don’t worry, Rui!”” ”

“All the cultivators replied at the same time, but their meaning was the same—they would listen to Xiao Rui’s command. ”

“good. Since everyone trusts me so much, I will not disappoint you. However, the premise is that you must all listen to my command. Only then can I guarantee that everyone will be fine! ”

“Xiao Rui looked at the crowd and said with a calm and confident face. However, he was laughing wildly in his heart. ”

“The governor of Black Rock City, and those high and mighty old men, just you wait. We’ll see how it goes. ”

“Xiao Rui was secretly ruthless, and his eyes were filled with killing intent. ”

.....

“Tang Zhen’s speed was very fast. It did not take long for him to see the valley in the distance. At the same time, he could see the crowd that would occasionally flash in front of the valley. After taking a closer look, he realized that they were all Wanderers. ”

“When Tang Zhen arrived at the entrance of the valley, there were more than ten Warriors checking the Wanderers one by one. Only those who met the standards were allowed to enter the valley to work. ”

“Tang Zhen discovered that the people who were allowed to enter were young and strong men and women. As for the old, weak, sick, and disabled, they would find a place to rest on the gravel plain outside the valley. However, they were unwilling to leave this place. ”

“After seeing Tang Zhen, the soldiers immediately saluted him. This naturally attracted the attention of the Wanderers. However, when they found out that Tang Zhen was the Holy Dragon city’s city Lord, all of them revealed expressions of respect and fear, and consciously kept their distance from Tang Zhen. ”

“Tang Zhen looked at these yellow-faced and emaciated Wanderers and asked old Mike, who was standing guard at the side, Old Mike, what’s with these Wanderers? ““ ”

“Old Mike was currently smoking a cigarette that Qian Long had given him. After hearing Tang Zhen’s question, he immediately stepped forward and loudly said, ““ ““City Lord, these people came here by accident while hiding from the undead race. After they found out that we were recruiting people to work and paying them with food, they refused to leave!”” ”

“After speaking, old Mike secretly observed Tang Zhen’s expression and probed, ““ ““City Lord, do you want me to drive them away now?”” ”

“Tang Zhen shook his head when he heard this. He pointed to the dozens of children who had gathered at the side and asked, what’s wrong with these little guys? is no one taking care of them? ““ ”

“Old Mike gritted his teeth and said in a low voice, ““ the parents of these children are dead, and the others can’t even fill their stomachs. They don’t have time to care about them, so these children live together. As for whether they live or die, it depends on luck. ”

“After saying this, old Mike shook his head and said, “” but I don’t think they’ll have many days left. After all, the undead and monsters are everywhere outside, and it’s getting harder and harder to get food. I heard that many Wanderers have been bitten to death and turned into the undead. The rest either starved to death or ran to other places to take refuge. ”

“Tang Zhen glanced at the Wanderers again and took out a pack of cigarettes from his pocket. After lighting one for himself, he gave the rest to old Mike. Old Mike was extremely happy. Under the envious eyes of the other Warriors, he put the cigarette into his pocket with a smug expression. ”

“After Tang Zhen finished smoking a cigarette, he said to old Mike, these Wanderers are forced to stay here. In that case, I’ll be a kind man for once. You can let these people work in the valley later. They’ll only be provided with food and drink. You don’t have to drive them out at night. They can just stay in the valley for the night. ”

“city Lord, you’re a really good person. These Wanderers are really lucky to have met you. ”

“When old Mike heard this, he quickly flattered Tang Zhen. However, Tang Zhen gave him a kick and jokingly scolded him, “” f * ck, your flattering is really asking for a beating! ”

“Old Mike smiled awkwardly. After rubbing his butt that did not hurt, he continued to listen to Tang Zhen’s orders. ”

“as for those children who don’t have parents, Qianqian can leave them behind and let someone take charge of their training. We’ll take as many as we can. If Black Rock City can nurture cultivators from a young age, how can my Holy Dragon City be inferior to them? “” ”

“After Tang Zhen finished speaking, he swept his eyes over those yellow-faced and emaciated orphans. His eyes were indifferent, yet there was no expression on his face. ”

Chapter 117: The first believer’s reincarnation ritual _1

“When he returned to the Holy Dragon City from the entrance of the valley, Qian Long, Tai Seng, and the others had already received the news and were waiting for him. Tang Zhen had a simple chat with them before ordering them to leave. ”

“Qian Long and Tai Seng stayed behind and reported the recent training progress to Tang Zhen. Although there weren’t many official residents in Holy Dragon City, there were still three armed forces. However, this was only a prototype. In the future, when the Holy Dragon City gradually developed and grew stronger, these three armed forces would also grow stronger day by day. ”

“First of all, every Tower City would have a cultivator battle team. At present, all the cultivators in the Holy Dragon City were only nine teams, with a total of forty-five people. The one with the highest cultivation was at level two, and their weapons were mainly armor and swords. They were all working hard on their cultivation. ”

“The second group was the ordinary Army, which was responsible for the defense of the building and the daily combat. There were a total of 100 soldiers. These people did not have any talent for

cultivation. In the future, they would use firearms as their main weapon and swords as auxiliary weapons. At present, they had already begun to get used to and become familiar with the use of firearms. ”

“The third group was made up of pure operators of heavy weapons. They were in charge of operating the heavy machine guns, mortars, and other weapons that Tang Zhen had brought. Currently, there were a total of twenty people and they had already started simple training. ”

“Tai Seng and Qian Long were extremely familiar with swords and sabers, but they only had a smattering of knowledge about firearms. When they were teaching others, they would often be stumped by a simple question. They scratched their ears and cheeks for a long time, but they couldn’t recall Tang Zhen’s explanation and demonstration. ”

“Hence, the Holy Dragon city’s soldiers ‘understanding of firearms and weapons was no different from gun-blind. ”

“Tang Zhen had already anticipated such a situation and knew that this matter couldn’t be rushed. However, the foreign Kobold race had to be eliminated as soon as possible. Otherwise, there would be endless trouble in the future. ”

“If they sensed that something was wrong and fled, they would become a formidable enemy of the Holy Dragon City when they returned in a few years! Tang Zhen had thoroughly experienced the stinky and stubborn character of the dog-headed people this time. However, it was also because of this that Tang Zhen could not let them off. ”

“Therefore, the plan to exterminate the kobolds could not be delayed! ”

“After fighting with the dog-headed people once, Tang Zhen decided to kill them completely. Therefore, there wasn’t a need for too many Warriors to use swords. However, Warriors who used guns were essential. This was because he planned to use heavy machine guns to deal with the dog-headed people in the hilly area! ”

“He ordered Tai Seng to pick 50 soldiers and at the same time, he asked Qian Long to bring over 10 members of the cultivator battle team. He told everyone to get ready and wait for him to return before immediately heading to the houndhead men’s nest. ”

“After the two of them left, Tang Zhen activated the teleportation and appeared on a remote street in the ice Bear Alliance. ”

He had come back to look for Ivanov and ask him to get a few light vehicles that could carry heavy machine guns. It would be best if he could get a simple military transport vehicle that could transport a large number of soldiers.

Tang Zhen took out his phone from the space and called Ivanov.

“At this time, Ivanov was in the basement of his house, performing a rebirth ceremony for the first believer he had developed! ”

“The leonnide family was one of the most powerful families in the city. They had great power in many fields, and all this glory came from their legendary figure, an old man close to 70 years old, old Leonard!”

“Old Leonardo had been rolling around in piles of dead people since he was 15 years old. To be able to live steadily until now and build such a huge family business, he was definitely not a simple person.”

“However, no matter how cunning and courageous old Leonardo was, he could not escape the cycle of life and death. Just a few days ago, he suddenly fainted and fell to the ground. Half a day after he was admitted to the hospital, he was told by the doctor that he would not live long.”

“Although old Leonard had long seen through life and death, who would not miss life and face death calmly?”

“Old Leonard, who wanted to live, entered Ivanov’s sight. He decided that he would be the first believer and began to visit and persuade him.”

“At this time, Ivanov had already labeled himself as the gatekeeper of the gods and had given his organization a name, ‘Eternal Heaven’!”

“Ivanov had known old Leonard for a long time. Now that he had appeared, using himself as an example, and then using the foundation stone given by Tang Zhen and the strange soldier armor on paars, he finally moved old Leonard!”

“While old Leonid was shocked, he was also very eager to be reborn. He sincerely begged Ivanov to pray to the gods for him, so that he could get such a precious opportunity.”

“Ivanov thought about it for a long time before reluctantly agreeing. However, the premise was that old Leonard had to join Eternal Heaven and become a believer of God!”

“The next step was for old Leonid to ignore his family’s concerns and suppress the voices of opposition. He then knelt in front of Ivanov and swore to join Eternal Heaven, becoming the first believer of the organization.”

“Now that old leonnide had become one of his own, Ivanov began to prepare for the rebirth ceremony. At the same time, the members of the leonnide family also fully cooperated with Ivanov under the orders of the old man.”

“For a time, the entire vicinity of the Ivanov family’s house was filled with gunmen with live ammunition. Their expressions were solemn and cold, and they forbade any strangers from taking a step closer.”

“In the basement of the Ivanov family’s house, the high guard of paars, wearing the shining demonic armor, quietly guarded the altar. Natasha, who was wearing a white robe, knelt and prayed silently.”

“Ivanov held the floating cornerstone in his hand and sat firmly on the bench, looking like a quack.”

“The dozens of members of the Leonardo family knelt on the ground, staring at the body of the old man in the blood pool. Just an hour ago, the old man had undergone surgery and a brain bead had been implanted in his brain. At the same time, he had stopped breathing under the effect of the drug.”

“In the blood pool at the other corner of the altar, there was the corpse of an extremely strong young man. There was a hole in his head, and he was floating in the blood pool.”

“The body had been sent by the leonnide family, but Ivanov had no interest in knowing where it had come from.”

“Looking at Ivanov in a long robe, the family members who were against it secretly held their breath. They were waiting for Ivanov to screw up, then they would cruelly kill him to vent their anger.”

“From the beginning to the end, they all thought that Ivanov’s so-called rebirth ceremony was a lie. Only old Leonid would be fooled by Ivanov.”

“But they had forgotten one thing, and that was that old Leonard, who had read countless people and founded this family business at the same time, was not as simple and stupid as they had thought.”

“At this time, all the preparation work had been completed. Natasha finished her prayer, stood up, and walked to the side. She looked forward expressionlessly, and her speech and behavior were like that of an otherworldly Saint.”

“Ivanov took a step forward and began to chant the incantation Tang Zhen had taught him. As he chanted, the altar began to glow faintly. A layer of blood-red halo dyed the entire basement and a mysterious aura emerged.”

“The members of the leonnide family were also attracted by the scene, and they stared at Ivanov.”

“be reborn, believers of God!”

“Ivanov finished reciting the spell and suddenly shouted. At the same time, he gently patted a certain node on the altar. After the palm landed, the entire altar was surrounded by blood-red flames. After a few seconds, the blood-red flames slowly extinguished.”

“After seeing this, everyone knew that the most crucial moment had arrived.”

“In fact, not only were the members of the leonnide family nervous, but even Pargo, Natasha, and the guards had never seen a rebirth ceremony before, so they were also nervous and nervous.”

“Under everyone’s gaze, the blood pool that was soaking the young man’s body suddenly shook, and then there were slight waves. Then, the blood-colored waves grew bigger and bigger, as if they were going to overflow outside.”

“Just as everyone’s hearts were in their throats, a “crash” sound was heard. The burly young man suddenly sat up in the blood pool, then slowly opened his eyes.”

“Everyone was stunned by the scene in front of them, which was beyond common sense. Their eyes were full of doubt, fear, ecstasy, and shock!”

“The burly young man seemed to be familiarizing himself with his body. He sat in the blood pool and moved his stiff body slightly before standing up naked. He took a bath towel from a junior of the annide family and wrapped it around his body. Then, he strode to Ivanov.”

“Looking at Ivanov, who was holding the foundation stone, the reborn old leonnide slowly knelt down, put his hand on his heart, and said in a pious tone, “” Thank you, God, for giving me the chance to be reborn. I now feel that I am incomparably powerful. Please accept my most sincere thanks and swear to God that I will become his most loyal believer. I will be fearless even if I have to die! ”

?

Chapter 118: The arrival of the God’s messenger

The people in the basement were unable to calm down.

“At first, they thought that the so-called rebirth ritual was just a joke. However, after witnessing the magical scene in front of them, everyone’s world view collapsed and they began to believe in the existence of gods. ”

“The truth was right in front of their eyes, and there was no way to refute it. The young man’s body had been brought here by them personally. It was definitely a dead body. Old Leonardo had also died under their watchful eyes. This could not be faked. ”

“However, one of the two lifeless bodies really came back to life after a mysterious rebirth ceremony. ”

“Regardless of whether it was old Leonard or not, the fact that this ritual could resurrect a corpse was shocking enough. ”

“Moreover, other than his physical appearance, the young man’s voice, tone, habits, and the aura he exuded were exactly the same as the old Leonard that the younger generation was familiar with! ”

“When everyone saw this, they no longer had any doubts. ”

“Old Leonardo had really been reborn and gained a younger and stronger body. Everyone’s heart burned with passion as they thought of this. At the same time, they began to pray that one day, they would also be reborn after death. ”

“This kind of temptation was far different from wealth and power. It was something that even if you had all the material enjoyment in the world, you still couldn’t ask for it. But at this moment, in this basement, in the organization of Eternal Heaven, they saw hope! ”

How could they not be excited? how could they not yearn for it?

“Ivanov sat quietly in his chair, enjoying the respect and admiration of all the members of the leonnide family. He could see the flattery in their eyes, as well as the deep respect. ”

“The feeling was so wonderful that Ivanov had never enjoyed such treatment before, and he was intoxicated. ”

“Beside him, paars suppressed the shock in his heart and tried to maintain his dignity as the leader of the guards. But at this moment, a slight vibration came from his pocket. ”

“Pargo knew that it was Ivanov’s phone, which he usually never left. This time, it was only for the sake of hosting the rebirth ceremony, so he temporarily kept it with him. ”

“Slowly walking to Ivanov, Pargo whispered a few words and then handed the phone to Ivanov.”

Ivanov immediately stood up when he saw that it was a call from Tang Zhen.

“Ivanov did not dare to show the slightest disrespect to the Oracle, Tang Zhen. He immediately picked up the phone and after chatting for a while, both parties agreed on a place to meet.”

“After hanging up the phone, Ivanov said to Pargo, “” the divine messenger is about to arrive. Go and make preparations immediately!”

“Pargo immediately nodded and left the basement to make preparations. For someone who had come into contact with Tang Zhen before, this young man from the Asian Alliance had become more and more mysterious and unattainable.”

“After Pargo left, Ivanov looked at the old leonnide standing in front of him and smiled. you are very lucky, our Lord Oracle is coming soon. He has met God and has been appointed as the spokesperson of God. As the first believer of Eternal Heaven, I can bring you to see the Lord Oracle.”

“After old Leonardo heard this, he immediately looked excited. After experiencing such a miraculous thing as rebirth, old Leonardo had long believed in the existence of God. Now that he had the chance to meet the real Oracle, how could he not be excited?”

“Half an hour later, Tang Zhen arrived at Ivanov’s residence. After activating the quantum stealth light curtain, he did not attract the attention of any Guardsmen at all and easily entered the interior of the residence.”

“At this time, in the courtyard outside, Ivanov and Natasha stood at the front. The senior guard, paars, guarded the side. The members of the leonnide family respectfully accompanied them, quietly waiting for Tang Zhen’s arrival.”

“By a rough estimate, there were no less than 50 people!”

“Tang Zhen did not expect Ivanov to make such a big scene. He smiled helplessly and turned off the quantum stealth light screen. Then, he appeared out of thin air in front of everyone.”

“Everyone was stunned when they saw Tang Zhen suddenly appear. The leonnide family members could not figure out who Tang Zhen was and why he had suddenly appeared. However, they instantly realized that this young man with a gentle smile was probably the Oracle!”

“At the thought of this, everyone immediately began to exclaim in their hearts. This Sir Oracle was indeed powerful. He actually had such a magical method. He was truly worthy of being the spokesperson of God.”

“After seeing Tang Zhen, Ivanov immediately bowed and saluted. At the same time, he said in the most respectful voice,“”Welcome, Lord Oracle!“” ”

“Natasha and Baal also bowed to Angele. Old leonnide bowed to Angele, and so did his family members.”

“no need to be so polite. Everyone, please leave. Ivanov, I’ll wait for you upstairs!”

Tang Zhen waved his hand and smiled at the crowd before speaking to Ivanov.

“After saying this, Tang Zhen activated the [map teleportation] function and his figure once again disappeared in a strange manner. Before everyone could recover, Tang Zhen’s voice had already sounded from the second-floor balcony thirty meters behind him. ”

“”“Oh right, remember to prepare a batch of hard liquor for me. I’ll take it with me later!”” ”

“Everyone looked over in the direction of the voice, only to see Tang Zhen slowly turning around and walking toward the room on the second floor from the balcony. ”

A few people from the leonnide family quietly swallowed their saliva and looked at each other. Their eyes were filled with fanaticism. The magical means that Tang Zhen had displayed had completely convinced them because this was not an ability that humans could possess.

“At the same time, some people were roaring in their hearts, “” Oh my God, it seems that gods really exist. I don’t care anymore. No matter what price I have to pay, I want to join Eternal Heaven! ”

“Ivanov looked at Tang Zhen’s back with longing and envy. Then, he pulled old leonnide, whose face was already fanatical, and quickly walked to the second floor. ”

“Natasha glanced at the balcony on the second floor with a complicated look, but her face was still expressionless, like an ice goddess. ”

“The senior guard of paars guarded the entrance to the second floor. Ivanov brought old leonnide to Tang Zhen. After getting Tang Zhen’s permission, he slowly sat down on the sofa opposite. ”

“Ivanov first introduced old leonnide and said that old leonnide’s faith was very devout and firm, which attracted a grateful look from old leonnide. ”

Tang Zhen nodded with a smile and spoke a few words with old Leonardo. He then waved his hand and a few cards with different designs appeared on the table.

“These cards were all special prizes that Tang Zhen had accumulated from using the [fortune wheel]’s basic lottery draw in his free time. He had invested a lot of his brain into it, but did not obtain much in return. This made Tang Zhen, who had always felt that his brain was not enough, very depressed. ”

“After seeing Tang Zhen pull out a few cards out of thin air, Ivanov and the other man looked at each other, but they couldn’t understand the meaning behind Tang Zhen’s actions. ”

“Tang Zhen explained to the two of them upon seeing this, there are four cards here. They are treasures made with divine power. These two white cards can form a shield when you are in danger, and it can last for about five seconds. The other two green cards can put you in a stealth state, and it can last for ten minutes. ”

“Tang Zhen looked at the envious faces of Ivanov and old Leonard and distributed the cards to them. He then smiled and said, this is a gift for the two of you. God is never stingy with his devout believers! ”

“When the two of them heard that the card was a treasure given to them, they immediately shed tears of gratitude and thanked the God for His grace. At the same time, they kept the card close to their bodies with pious expressions. ”

“Looking at the two people who were carefully holding the cards, Tang Zhen could not help but secretly laugh in his heart. The cards he had given out were things that he could not use. Compared to the black cloak and the quantum stealth light curtain with amazing defensive power, this kind of one-time use card was of little value to him. At this time, it was just the right time to give them out to win people’s hearts.”

The things that he did not care about were treated like treasures by Ivanov and the other man. It was not a waste of the brain that he had spent.

Chapter 119: I fight for the gods

“After the card was sent out, it was time for serious business. Tang Zhen directly said that he needed a few light off-road vehicles. At the same time, he also needed a military transport vehicle that could carry a large number of people.”

“After listening to Tang Zhen’s request, old Leonnide, who was sitting on the side, immediately patted his chest and said that there was no problem. He also explained that his family had several large car repair centers. Even if he couldn’t find the finished car Tang Zhen needed on the market, he could immediately modify it according to his requirements.”

“As for the performance and operation, there would definitely be no problems.”

Tang Zhen nodded his head in satisfaction when he heard this. This was the scene that he had hoped to see the most.

“Once his forces in the original world developed, he would no longer need to do everything himself like before. Instead, with a single order, a group of rich and powerful subordinates would take care of it for him. This way, Tang Zhen could concentrate on developing the forces in the world of Loucheng.”

“If he wanted the horse to run, he had to let the horse eat its fill. Tang Zhen naturally understood this principle. Therefore, he did not intend to take the benefits of the two people for free. Even if he gave the two people a chance to be reborn and gave them magical cards, he still needed to use the benefits to firmly lock the two people on his chariot.”

“After thinking up to this point, Tang Zhen waved his hand again and a gorgeous box appeared in front of Ivanov and the other man.”

“This was the treasure chest that Tang Zhen had obtained from the tree spirit tribe. The green leaf books inside had already been properly kept by him. The remaining chest took up some space in the space, so he used it to store the various gemstones he had obtained from the roots of the mother tree.”

“Ivanov and the other man were no longer surprised when they saw another item in front of them. However, when they saw that the box was filled with gorgeous gemstones, they still felt their hearts beat faster.”

“To be able to move the hearts of these two guys who didn’t lack money, it was completely because these gemstones were too beautiful!”

“The mother tree’s magic lay in the gemstones it gathered. None of them were of ordinary quality. Almost every single one of them was flawless, of the best quality. They looked so fake, but they were real!”

“Even with Ivanov and old Leonard’s experience and knowledge, they had never seen such a beautiful top-grade gem!”

“Looking at the box of top-grade gemstones in front of them, even if the two old men were men, they still had the urge to embrace all of them and carefully examine them. If a woman saw this, she would probably go crazy!”

“““Sir Oracle, what are you doing?”” ”

Ivanov asked Tang Zhen after hesitating for a moment as he retracted his gaze from the Gem Box with great difficulty.

“sell these gemstones, and you’ll keep the money earned. You can use it for daily activities and purchases because in the future, I’ll need a lot of materials and weapons. I can’t do it without money.”

“After Tang Zhen explained, he glanced at the two of them who seemed to be deep in thought. He smiled and asked, aren’t you guys curious why I’m getting these supplies and weapons?” ”

“““Forgive me for being presumptuous, but I really want to know!”” ”

“Ivanov hesitated for a moment before deciding to tell the truth. This was because he knew that he could not hide his thoughts from Tang Zhen, who had extremely sharp five senses. Therefore, he might as well tell the truth. This way, it would appear that he had a magnanimous heart.”

“Tang Zhen nodded when he heard this. He then looked at old leonide and laughed when he saw that he had the same expression, then you guys have to be careful. Don’t get scared.”

“Tang Zhen waved his hand once again after he finished speaking. Immediately after, the corpse of an incomparably ferocious and terrifying monster that was over two meters tall appeared on the ground. It even emitted a muffled sound when it landed.”

“This was the monster corpse that Tang Zhen had deliberately left behind during the previous monster attack. He had prepared it for research. At the same time, there was also a large amount of monster muscles that he had accumulated. These things took up a lot of space in the space, so Tang Zhen planned to get Ivanov to make a cold storage to freeze them.”

“Looking at the ferocious monster that appeared out of thin air, Ivanov and the other man were shocked. They stood up at the same time and wanted to escape. However, when they saw Tang Zhen who was sitting as steady as a mountain and found that the monster’s body had been pierced by a sharp blade, they sat back in their original positions with embarrassment. At the same time, they kept sizing up the monster with curious eyes.”

“After the two of them watched for a while, Tang Zhen finally opened his mouth and explained,”“The reason why I need a large amount of resources and weapons is because the gods plan to conquer an unknown world. That world is rich in resources and countless rare treasures. I don’t know how large the area is, but from what I know, some powerful forces have castles that are as large as a continent!”

“I’m currently fighting for the gods, and this is only the beginning, so I need a lot of resources and weapons to arm my native Army in the other world. Do you understand now?”” ”

“Ivanov and the other man were dumbfounded. It turned out that in addition to the original world they were in, there was another extremely vast foreign world, and the noble Oracle was now fighting for the gods!”

This was true glory. Just thinking about it made him extremely excited!

The two of them felt their blood boiling. They wished that they could immediately head to the other world that Tang Zhen had mentioned. They wished that they could wear armor and wield swords to fight for the gods and achieve countless merits!

“Tang Zhen smiled and waved his hand as he looked at Ivanov and the other man, who were burning with battle intent. He then slowly said,””You don’t have to be so excited, because that world is too dangerous and not suitable for you to go. The monster in front of him seemed powerful, but in that world, it was just an ordinary soldier. A truly powerful monster could easily destroy a city.”

“So all you need to do is to develop believers in your original world and do the logistics for me. This is also a contribution to the gods, and the gods will not forget your hard work.”

“I believe that with your support, it won’t take long for us to conquer a large territory in the other world. At that time, I’ll think of a way to let you go to the other world once and experience the local customs.”” ”

“Tang Zhen’s explanation caused the hot blood in the hearts of the two to gradually cool down. After all, they were not suited to fight and kill each other. The two of them were more suited for those schemes behind the scenes. However, they were even more confident in the strength of a God.”

His heart was filled with anticipation for his future journey to the other world!

“After that, Tang Zhen asked Ivanov to find a cold storage room and take out the monster meat from his storage space to freeze it. He also ordered people to strictly guard it and not allow outsiders to come into contact with it.”

“After that, Tang Zhen got his men to record some videos of the operation of the weapons and copied them into a few tablets. He was going to hand them over to Tai Seng, Qian Long, and the others so that they wouldn’t be caught off guard during their training.”

“Immediately after, Tang Zhen ran to the supermarket to make some purchases. Some of the items were for Holy Dragon city’s use, while some were prepared to be placed on the cornerstone trading platform to test the waters and earn points.”

“Fortunately, he didn’t have to fight alone this time. No matter where Tang Zhen went, there would be at least five strong men from the ice Bear Alliance following behind him. They would listen to his command. If Tang Zhen wanted something, he only needed to give an order, and someone would start to purchase and pack it up.”

“After walking around the city and looking at the list of purchased materials, Tang Zhen was even a little worried that the Holy Dragon city’s warehouse area was not enough.”

“Just as Tang Zhen was planning to finish his shopping and return to the Ivanov family’s house to rest, he suddenly noticed a very familiar figure across the street. After taking a closer look, he realized that that person was actually his best friend, Xu Feng!”

“However, compared to the high-spirited Xu Feng from before, the current Xu Feng had a weather-beaten face. His clothes were in a mess, and he looked very down and out as he squatted by the roadside and smoked.”

Tang Zhen was startled in his heart. The two of them had not met for a short period of time. How did Xu Feng end up in such a miserable state?

?

Chapter 120: Xu Feng’s choice (1)

“The cold wind blew, bringing up yellow leaves on the ground. The silver bangs on Xu Feng’s forehead were messed up by the wind, revealing his slightly depressed eyes. The rising smoke filled the air, but it made him cough twice.”

Tang Zhen stopped the bodyguard behind him and slowly walked to the opposite side. He squatted beside Xu Feng and lit a cigarette.

“Xu Feng turned his head and took a glance at Tang Zhen. His eyes were filled with surprise, but he didn’t say anything. He just snatched the cigarette from Tang Zhen’s hand, lit another one, and started smoking.”

“Tang Zhen inhaled a deep breath of smoke and exhaled. He turned his head and looked at Xu Feng. what’s wrong with you, kid? did you cause someone else’s wife to be hunted down, and then you ran here? “” ”

“Xu Feng, who was smoking, choked when he heard this. After coughing twice, he looked at Tang Zhen and said with a bitter smile, “Don’t mock me, I, Xu Feng, am not that useless. I didn’t expect to meet you here!”

“Some time ago, you bought guns and made explosives, and then disappeared mysteriously. I’m very curious about you. Can you tell me what you’re doing? don’t be embarrassed. If it’s not convenient for you, it’s fine if you don’t tell me. “” ”

Xu Feng deliberately changed the topic as he looked at Tang Zhen with a gossipy expression.

what’s so hard to say? but this isn’t the place to talk. Let’s go to the restaurant opposite and talk while we eat.

“Tang Zhen stood up and patted Xu Feng. After which, the two of them stood up and crossed the street. They entered the restaurant opposite. Upon seeing this, the five bodyguards also followed.”

“After Xu Feng noticed this, he couldn’t help but feel amazed.”

“To be able to speak in the ice Bear Alliance’s language proficiently and have five bodyguards who didn’t look like good people, his brother seemed to be doing well. ”

“There was a saying that “the Wheel of Fortune turns.” The contrast between his current embarrassing situation and Tang Zhen’s glory was the most vivid interpretation of this sentence. ”

“After the two of them sat down in the dining room, they casually ordered a few dishes. Only then did Tang Zhen look at Xu Feng and asked in a solemn tone, “Now you should at least tell me what happened. Let me remind you, don’t try to change the topic. If there’s anything, just tell me. If there’s any difficulty, we’ll shoulder it together as brothers!” ”

“After Tang Zhen said this, he stared unblinkingly at Xu Feng. He stared until the originally frivolous Xu Feng turned his head away. Only then did he pick up a glass of fruit juice and take a sip. ”

“Xu Feng turned his head and let out a long breath. He softly laughed and said to Tang Zhen, brother, I’m done for. Someone wanted to mess with me and used all sorts of methods. The other party was too powerful and I couldn’t win. I had nowhere to go to the Asian Alliance, so I ran to the ice Bear Alliance. ”

“My original plan was to just eat here and wait for death. After all, I’m just a brother, it doesn’t matter where I’m buried. ”

“Do you know that the one who betrayed me was my most trusted brother? he sold me out completely. I even helped his brother build a house and get a wife, and helped his sister go to college. In the end, this is how he repays me?” ”

“Xu Feng gritted his teeth and growled. He clenched his fist tightly, making a “ka ka” sound. The glass cup in his hand suddenly shattered, and the glass shards pierced his hand, causing it to bleed. However, he still refused to let go. ”

Tang Zhen sighed in his heart. He walked forward and pried Xu Feng’s hand away. He took out an Ivy ointment from his spatial ring and applied it on Xu Feng’s wound after cleaning it.

“The cool and numbing feeling from the wound finally made Xu Feng’s mood stabilize a little. He looked at the wound on his hand that was rapidly healing and let out a surprised “yi” sound. He raised his head and looked at Tang Zhen, but did not say anything. ”

“Tang Zhen lit up a cigarette and took a puff. He looked at Xu Feng and said, I already know what happened. We can’t let that ungrateful bastard live happily. Feng Zi, let me ask you, do you want to take revenge? ” ”

“Xufeng didn’t reply, but from his struggling expression, he seemed to be hesitating about something. ”

“The restaurant waiter at the side wanted to go forward and remind Tang Zhen that smoking was not allowed here. However, after seeing the five bodyguards with killing intent, he very wisely pretended not to see it. In any case, they were the only customers in the restaurant. If he wanted to smoke, he could. ”

“If he angered the guards, he would be fired by the boss the next day. He would also be beaten up because the owner of the restaurant had a connection with the leonide family. ”

“Xu Feng struggled for a moment before he raised his head and looked at Tang Zhen. He used a somewhat hoarse voice and asked,”“Tang Zhen, give me a definite answer. How much can you help me? can you help me with money or help me with effort?”” ”

“Tang Zhen laughed softly when he heard this. He leaned forward and patted Xu Feng’s shoulder before returning to his original seat and said,”“As long as you say the word, I have money and people! ”

“But before that, I want you to come with me to see someone. Compared to revenge, which is a trivial matter, what I want you to do is enough to make you a real man!”” ”

“After saying these words, Tang Zhen began to quietly wait for Xu Feng’s choice. This was also an opportunity he was giving his brother. If they were fated, they would fight the world side by side. If they were not, wealth and peace would not meet. ”

“The path that Tang Zhen wanted to take was destined to be filled with the glints of blades and the gory killing. The life and pursuit of an ordinary person were destined to be further and further away from him. If they wanted to continue being together, they would definitely have to enter his circle. ”

“If Xu Feng had chosen another path, perhaps the entire original world would have been under Tang Zhen’s control a few years later. However, when they met again at that time, it would be a completely different mood and scene. Even if they were once Good Brothers, they would definitely not be able to return to the kind of interaction they had in the past. ”

“Tang Zhen quietly looked at Xu Feng. However, there were a myriad of thoughts in his heart. ”

“A few minutes later, Xu Feng raised his head and looked at Tang Zhen. He revealed a smile and said,”“You’re the only brother I can trust right now. If I don’t follow you, who else can I follow? but let’s make it clear in advance, I will never touch those dog skin deals.”” ”

“Tang Zhen looked at Xu Feng and nodded. He softly said,”“Don’t worry, I’ll never cheat you. Let’s eat first, then I’ll take you to see that person.”” ”

“The following matters became very simple. Tang Zhen first brought Xu Feng to see Ivanov and let Xu Feng understand the information about Eternal Heaven. After Xu Feng completely believed Ivanov’s explanation, Tang Zhen appeared again. Then, to Xu Feng’s extreme shock, Tang Zhen appointed Xu Feng as the gatekeeper of the Asian Alliance, responsible for developing the followers of the Asian Alliance. ”

“However, at this time, Xu Feng was penniless, so Ivanov provided him with 10 million for his activities. Old Leonard sent 20 strong men from the ice Bear Alliance to be Xu Feng’s initial helpers. He would only return to the ice Bear Alliance after he returned to the Asian Alliance and gained a firm foothold. ”

“The next morning, Tang Zhen personally sent Xu Feng to the car. He would be sneaking back to the Asian Alliance at the border with his twenty helpers. However, they would be going to the Asian Alliance under legal identities. ”

“After sending off Xu Feng, Tang Zhen returned to the warehouse provided by old Leonard and started moving the materials again and again. Because he had purchased too many materials this time, it took him a long time to finish moving them. ”

“The mountain cave behind the Holy Dragon City was already filled to the brim. When Tang Zhen saw this, he had no choice but to order his men to continue digging the mountain cave. Fortunately, this mountain peak was extremely huge, so he did not have to worry about digging through it.”

“The off-road vehicle that Tang Zhen needed had already been produced under old leonnide’s orders. The body was welded with steel pipes and steel plates. It was powerful, simple, and durable. It was filled with a strong wasteland style.”

“At the same time, the military transport vehicles that were used to transport the soldiers had also been produced. They were a type of multi-wheeled flat carriage that could be disassembled and assembled. They could be driven by motor vehicles, and each vehicle could carry 50 soldiers.”

“Due to Tang Zhen’s special instructions, these vehicles could be stored in the storage space. Therefore, they were transported by Tang Zhen and placed on the huge arena in front of the Holy Dragon City for Tai Seng and the others to use.”

“Looking at the light off-road vehicle with the heavy machine guns fixed, Tai Seng was the first to jump onto it and started fiddling with it excitedly. Qian Long, on the other hand, directed a group of men to assemble the military transport vehicle. The open flat carriage was filled with rows of metal seats, and there were guardrails on the sides, allowing one to climb up and jump down easily.”

“The vehicle in front that was in charge of pulling was also a modified vehicle. It looked short and unremarkable, but its power was strong. Even pulling up 20 tons of cargo was extremely easy. Not to mention that even if this military transport vehicle was filled with soldiers, its weight would not even reach 10 tons.”
