

## Alternate 1481

### [Chapter 1481 Lofei 1](#)

Tang Zhen quickly moved through the city area according to the mission's instructions.

Perhaps it was purely a coincidence. The location of that participant was near the black market where Tang Zhen had been. Because of his injuries, he was hiding from the enemy's pursuit.

Although the mission did not provide much information, it was clear how difficult the situation was for a trial-taker to issue a rescue mission. Perhaps, they were already at the end of their rope!

Tang Zhen also felt a little uneasy in his heart. He did not know if he would bring unnecessary danger if he interfered in this matter, leading to the failure of this trial mission.

!!

Do everything within your means and absolutely do not act rashly!

While he made up his mind, Tang Zhen had already approached the meeting place mentioned in the mission.

This was a hotel located on a remote street. It seemed that business was not very good. Tang Zhen avoided the staff sitting at the door and quietly came to the door of a room on the third floor.

There were no abnormalities nearby, so the enemy probably had not discovered this hidden location.

After three light knocks, followed by a few more rhythmical knocks, the door was opened.

A pale-faced woman stood behind the door. She used a tired and cautious gaze to size up Tang Zhen and indicated for him to enter the room to talk.

The light in the room was very dim and the curtains were tightly covered. A faint smell of blood permeated the air. When he thought about this woman's Haggard appearance, Tang Zhen knew that the other party was already seriously injured.

thank you for your help. If we can get out of this crisis, I'll definitely repay you in the future!

The woman made a hand gesture to Tang Zhen, which was one of the common etiquette of cultivators in Lou city to show their identity.

"You're too polite. I came here because we're both in the same city. If you have any difficulties, this Tang will do his best to help you!"

Tang Zhen didn't finish his words. Instead, he observed the Lou Cheng cultivator named Luo Fei and said in a faint tone, looking at your energy fluctuations, I think you're about to advance to Spirit Master. But what's with this injury? "

Hearing this, a bitter smile appeared on Murphy's face. He sat on the bed and shook his head. this matter was also due to my carelessness. As a result, I was plotted against. When I recover from my injuries, I will definitely take revenge!

Looking at the way Luo Fei gritted her teeth, one could tell how much hatred she had.

Tang Zhen was not interested in Luo Fei's grudge. One must know that his current identity was extremely sensitive. Naturally, it was better to avoid trouble. In fact, he even avoided her like the plague.

then why did you issue a mission to request for help?"

Tang Zhen had already made up his mind. If this Luo Fei asked him to help kill the enemy, he would choose to refuse without a second word. After all, he was only an advanced-level spiritual disciple. He was one of the lower-class people in the spiritual master world. Once they provoked a powerful spirit Master, although they wouldn't lose their lives, their previous efforts would all be in vain!

Hearing Tang Zhen's question, Luo Fei's expression was a little strange. However, she was also a spiritual Emperor and had always been straightforward in her actions. Therefore, she only hesitated for a few seconds before softly saying, "Actually, I would like to borrow some money from you, Sir!"

Tang Zhen was stunned when he heard this. He finally understood why Luo Fei had such a strange expression when she spoke earlier.

For a spiritual Emperor, who had at least one tower under his name, this was indeed not a good thing to say.

Even Tang Zhen had not experienced such a thing for a long time. Ever since he became the Holy Dragon City Lord, he had never cared about money and the like.

Therefore, after hearing Luo Fei's request, Tang Zhen lost his self-control and even thought that he had misheard.

After Luo Fei saw Tang Zhen's expression, she could not help but laugh at herself and explained, "I was heavily injured by the enemy. I've been hiding here to recuperate for several months, but I still haven't recovered. In fact, my injuries have become more and more serious.

If he didn't receive treatment as soon as possible, he would probably lose his life in a short time!

I've been preparing for this trial for a long time, and I can't fail easily. However, because I've been injured for too long, the spirit coins that I've saved up have long been used up, and I'm unable to buy any healing items from the cornerstone platform."

When Tang Zhen heard this, he understood that Luo Fei's situation was very awkward. Because of her serious injuries, she no longer had any fighting ability. She wanted to heal her injuries but could not get spirit coins to exchange for points.

If she did not get out of this predicament, her situation would only get worse and worse, and she might end up dying in this hotel room!

A single cent was a problem for a hero, and this applied to Luo Fei as well.

"I know. How much do you want to borrow?"

Although Tang Zhen didn't have a lot of spirit coins, he was still able to spare some.

I want to borrow 2000 RMB, no? at least 10 million. Otherwise, it won't solve my current problem!

Luo Fei's tone was a little hesitant. She clearly knew that these spirit coins were definitely not a small sum to Tang Zhen.

Tang Zhen shook his head when he heard this. He used a helpless tone and said, it's not that I don't want to help, but I really don't have that many spirit coins on hand. If it's one or two million, I can help you!

No. Sophie shook her head and smiled bitterly. the healing item I want to buy requires a lot of points. I can't buy it if I don't have enough spirit coins!

Tang Zhen was also in a difficult position. If he could help with this matter, he definitely wouldn't decline. Not only could he make friends with the powerhouses of the loucheng world, but he could also help each other in the spirit Master world. Why not?

However, it was impossible for him to take out ten million spirit coins.

After musing for a moment, Tang Zhen said to Luo Fei, "I have thought of a safe way, but it will take at least a month. Can you wait?"

Luo Fei's eyes lit up when she heard this. She said to Tang Zhen, "We can naturally wait for a month. If I may be so presumptuous as to ask, what do you intend to do?"

I plan to use a month's time to nurture the spiritual seedlings. As long as I can nurture a three-star spiritual weapon embryo, you will have the spirit coins you need!

Sophie frowned and thought for a moment. She felt that this method was not particularly safe. After all, a three-star spiritual weapon embryo was extremely rare. It was not something that could be obtained just because one wanted it.

Of course, the cultivators in loucheng all had their own unique skills. Since Tang Zhen dared to use this method, it meant that he had a high chance of success.

The other party's intention was to help her. It was not good for Luo Fei to ask more so as to not cause Tang Zhen to be unhappy.

However, Luo Fei quickly thought of something. She muttered to herself for a while and said to Tang Zhen, I've stayed here for too long, and it's easy to attract the enemy's attention. Since you want to cultivate the spiritual seedlings, you must find a secluded place in the wilderness. Can you take me with you? "

Tang Zhen hesitated for a moment when he heard this. This was because doing so would undoubtedly increase unnecessary risks for himself. If Luo Fei's enemies came looking for him, it would be inevitable that there would be another fierce battle.

If the enemy's strength was too strong, Tang Zhen would definitely have to flee again!

Loofei also knew that her request was too much, but at this time, she was too weak to even truss a chicken. It was already a miracle that she could hold on until now. If she was found by the enemy during this time, she would definitely be killed!

The fifth battle area's trial was of great significance to Luo Fei, and she could not give up easily.

When she thought of this, Luo Fei gritted her teeth and said to Tang Zhen, "Sir, if you agree to help, after this trial mission is over, I will give you a huge gift that will greatly increase your chances of advancing to the sector Lord realm!"

Tang Zhen's eyes narrowed. A smile was revealed on the corner of his mouth after a few breaths.

"Deal!"

...

Chapter1482 The trial-taker's reward \_

After discussing with Luo Fei, Tang Zhen left the hotel quietly. He couldn't bring Luo Fei around to avoid attracting the attention of the hidden enemy.

He went straight to the spiritual disciple trading hall and bought the technique to cultivate spiritual seedlings. He also bought some spiritual seeds. Following that, Tang Zhen went to the market and bought a lot of miscellaneous items.

These were all prepared to nurture spirit seedlings. The prices were not cheap, and Tang Zhen had spent quite a lot of spirit coins on them.

After finishing all of this, Tang Zhen bought a second-hand spirit array car. After circling the road a few times, he drove to the hotel to pick up Luo Fei.

!!

After getting into the car, Luo Fei did not say anything. She just looked ahead quietly, as if she was enjoying the long-lost sunlight.

While she was recuperating and hiding from the enemies, she had not gone out for a long time, which made her face extremely pale. With her long black hair, she looked like a ghost.

Tang Zhen was unconcerned. In any case, this was merely a temporary shell for the two of them. They would throw it away once the mission was over.

Just as this thought came to his mind, he heard Luo Fei say softly, " don't you find it strange why I need so many spirit coins to repair my body? "

Tang Zhen nodded. He was indeed puzzled by Luo Fei's actions.

It was obvious that she was going to repair her body and soul. Otherwise, a quarter of the cost would be enough to maintain her body for several years, but it would leave behind many hidden dangers.

After hearing Tang Zhen's answer, Luo Fei gently smiled. She sized Tang Zhen up with a very strange gaze and said indifferently, "If I'm not wrong, Sir Tang Zhen should be from a low level Battlefield, right?"

Tang Zhen, who was driving, froze for a moment. However, he quickly recovered and said with a smile, "what's going on? was my behavior very obvious? "

"It's actually very simple, because you have no idea what this temporary body means to the trial-taker!"

To the top-tier towers in the high-level Warzone, the contents of this trial were not top secret information. One of them was the secret of the host body.

Since you don't understand this information, it means that you're most likely from a low-level battle zone and have no access to this information."

Tang Zhen's eyes turned when he heard this. He faintly guessed a possibility. At the same time, his heart also pounded wildly as he continued to ask, could it be that the cultivation obtained by the host body can be taken away after the mission is over? "

Tang Zhen was very excited. If this was the case, then as long as he worked hard to increase his strength in the spirit Master world, there was a high possibility that his clone would advance to the spirit Emperor level after this trial mission!

To Tang Zhen, this was definitely something he could not ask for more. One must know that his current cultivation level was a law King, and he was still two levels away from being a sector Lord.

However, in a hundred years 'time, to leap to this level was undoubtedly an extremely urgent matter, even somewhat unreasonable.

However, this was the Super Battle zone's trial rules. If you don't have the strength and confidence, then don't come and participate in this competition that has a 90% chance of survival!

Luo Fei did not know Tang Zhen's current mood, but she knew how important this news was to Tang Zhen. She looked at Tang Zhen, who was pretending to be calm, and chuckled,"Indeed, after the trial is over, the strength of the host body will merge with the main body. This is also a reward for the trial-taker.

This is also the reason why I want to completely heal my injuries. If there are any hidden dangers, I won't be able to advance to an advanced spiritual master, which will undoubtedly miss out on a huge reward!"

Tang Zhen nodded his head. He wasn't in a hurry to advance to Spirit Master, but his heart was filled with endless fighting spirit.

If it was possible, he would definitely become a spirit Master in the shortest amount of time, and then continue to advance towards a higher level!

While the two of them were chatting, Tang Zhen's spirit array car had already left the city. It followed along the lush road and headed towards the valley in the distance.

Compared to the outside world, the mountain peaks in the spirit realm were undoubtedly more beautiful and steep. There were also many spiritual beasts in the mountains, standing on the side of the road and staring at the driving car.

From time to time, one could see a fork in the road that led to the deep forest. There were also a large number of spiritual disciples and ordinary people living there. The only difference compared to the outside world was that there were spiritual disciples everywhere.

The place that Tang Zhen was heading to was a place that was specially used to cultivate spiritual seedlings for spiritual disciples. There was a huge area there and the spring that was used to water the spiritual seedlings had turned into a small river!

Just like the cultivation bases in the outside world, there were also protective spiritual arrays here to block out the ghosts and monsters that tried to devour the Ling seedlings.

In fact, the ghosts and monsters that appeared on the night of every full moon in the outside world all came from the spirit realm. They used the instability of space to slip out, but after each attack, these ghosts and monsters would return through the cracks in space.

The low-energy environment in the outside world was not suitable for these ghosts and monsters to live in. If they were to stay in the outside world, they would not be able to last long!

The mist around the cultivation base was actually the energy leaking from the spirit realm, and the spatial Rift was hidden within.

As for the cultivation sites in the spirit realm, they were specially rented out to spiritual disciples. Furthermore, they were only in the peripheral areas. The core areas were never rented out to outsiders.

Actually, in the spirit realm, the spiritual disciples who made a living by nurturing spiritual seedlings would build their own sites. This would undoubtedly be more convenient and would also greatly reduce the cost.

Tang Zhen didn't need to build an exclusive venue. In any case, he didn't plan to be in this business for a long time.

In the end, when he arrived at his destination and said that he wanted to rent a place to cultivate Ling seedlings, he was told by the staff here that the cultivation base would not be open to outsiders for a while due to special reasons!

Tang Zhen was not the only one who came here. They all had disappointed expressions on their faces. Clearly, they had already received the notice.

Man proposes but God disposes. Tang Zhen helplessly smiled and could only think of another method.

Seeing that Tang Zhen was planning to leave, a high-rank spiritual disciple took the initiative to step forward and said, "Friend, do you have any other suitable training sites?"

Tang Zhen shook his head. He was indeed a little lost at the moment. If he couldn't rent a place to cultivate the spiritual seedlings, could it be that he had to build his own?

It wasn't impossible, but there would be a lot of things to prepare. It wouldn't be completed within a month.

He could afford to wait, but Luo Fei might not.

"It's like this, a friend of mine has built a cultivation base. Although the scale is small, it has all the things it should have, and the fees are very cheap.

We're planning to go there. If you're willing, you can join us!"

Tang Zhen looked around and nodded his head in agreement when he saw that six to seven spiritual disciples had already agreed.

The other party was also very happy. He turned around and called out to the others, then drove in front to lead the way.

Tang Zhen drove behind them and followed the convoy into the depths of the mountain. After walking for nearly two hours, they finally saw a four-story building beside a lake in the valley.

The exterior of the building was slightly dilapidated. Even when looking at it during the day, it gave off a gloomy feeling.

Sophie looked at the building and said in a slightly hesitant tone, "Sir Tang Zhen, this place doesn't seem to be simple?"

Tang Zhen laughed. He said to Luo Fei, who was frowning, in fact, I think this place is not bad. There are few people here, and the environment is quiet. Even if you live here for a year or so, you probably won't be discovered by your enemies!

Luo Fei glanced at Tang Zhen with a smile that was not a smile when she heard this and gently nodded.

Chapter 1483 Trying to stir up trouble again?

Although this building had been taken care of, it still couldn't hide its original dilapidation. The mottled walls were full of peeling marks, and cold and slippery moss grew wantonly in the corners.

In particular, the ivy-like plants covered most of the building. If you looked at it from a distance, you might think that the building was a Hill.

Tang Zhen and the rest parked their cars on the empty ground. Following that, they walked towards the building under the lead of the advanced-stage spiritual disciple.

Perhaps he had heard the sound of the car, but a man wearing a dirty robe walked out and sized up Tang Zhen and the others with a scrutinizing gaze.

!!

His face was pale, and his eyes were cold.

Mo Yi, we're going to cultivate spiritual seedlings here. The price must be fair!

The leading high-rank spiritual disciple greeted the long-robed man and pointed at Tang Zhen and the rest behind him. When their eyes met, they seemed to be communicating silently.

The long-robed man did not say anything. He merely nodded his head gently. After sizing up Tang Zhen's group once again, he took the lead and returned to the building.

"Alright, everyone, follow me."

The leading high-rank spiritual disciple called out to everyone and walked into the dark passage.

The crowd did not doubt him and followed him in one after another.

Tang Zhen and Luo Fei walked at the back. Before this, his gaze had been resting on the nearby dense forest. After which, he continued to move forward as if nothing had happened.

There seemed to be many figures coldly watching Tang Zhen's group from the shadows of the dense forest.

After walking along the long and narrow passage for a while, everyone reached the top floor and found that it was a huge field. Looking at the layout of the surroundings, it was clear that this was a special field for cultivating spiritual seedlings.

Although it wasn't as big as those large-scale cultivation sites, the facilities here could still meet everyone's needs.

The man in the dirty robe from before came over and handed a stack of papers to everyone. They were the necessary contracts for renting the cultivation site.

He did not seem to be a talkative person. After passing the contract to the spiritual disciple who had led the group here, he stood to the side in silence.

everyone, please take a look at the contents of the contract. If you think it's okay, please sign your names.

Tang Zhen received the contract. After he glanced at it, he signed his name according to the instructions.

After everyone had signed the contract, the long-robed man examined it in his hand and left without a word.

"Alright, everyone. For the time to come, you'll be busy with your own work. Also, the third floor is the laboratory, and the second floor is the resting area. You can choose any room you want."

Everyone had been waiting for this sentence. They immediately went to the second floor and put their personal belongings in their rooms. Then, they got busy.

No one would waste time to bond. After all, everyone's time was precious, and they had to spend money every day.

Nurturing the spiritual seedlings was a meticulous job and they had to make preparations in advance. Furthermore, these spiritual disciples were personally doing it, so they would definitely not be satisfied with ordinary spiritual weapon embryos. One-star quality was the most basic requirement!

Tang Zhen was the same as the other spiritual disciples. He used the tools here to process and stimulate the growth of the spiritual seed. He placed it in a special cultivation environment and waited for the moment it would germinate.

After dealing with the spirit Seeds, Tang Zhen went to the cultivation site on the top floor and began to use the items he bought to mix the soil. He carved a simple spirit array to increase the energy concentration in the soil and ensure that the survival rate of the spirit seedlings when transplanted was higher!

While he was busy, Sophie stayed quietly in the room, looking around. No one knew what she was thinking.

Unknowingly, the sky turned dark, especially in this lush valley, where it seemed to have turned dark earlier.

After a busy day, the spiritual disciples returned to their rooms after dinner.

When night fell completely, the valley was slowly covered by a thick fog. The trees and buildings became faintly visible, which looked gloomy and terrifying.

The building with only a few lights seemed to be invaded by the fog, like a faint wave, spreading in the dark corridor.

At the end of the corridor, a figure was standing in the fog. He looked at the tightly shut doors and a cold smile appeared on his face.

.....

In a room along the corridor, Tang Zhen was currently controlling a gourd-shaped spirit weapon, causing it to continuously dance around him.

This was the daily practice of a Spirit Master to increase their proficiency, so that they could use it more easily.

Luo Fei was sitting on a chair next to him. Her complexion was much better than when they first met, but she was still pale compared to a normal person. She looked a little creepy under the dim light.

“Sir Tang Zhen, you clearly know that there’s a problem here but you still came. What exactly do you plan to do?”

of course it’s to nurture spiritual seedlings. I can earn money to help you!

Tang Zhen revealed a very strange expression, as if he was very suspicious that Luo Fei would ask such a question.

“Sir Tang Zhen, I’m not in the mood to joke right now!”

Seeing Luo Fei’s angry expression, Tang Zhen laughed and said, “I have my own plans. You just need to wait patiently!”

“So far, have you received any more information regarding the mission?” Tang Zhen asked after hesitating for a moment.

Murphy shook his head, indicating that he didn’t.

“Me too. Is this normal?”

Sophie nodded and said in a confused tone, “ of course it’s normal. Is this mission not enough? ”

Tang Zhen nodded, “ that’s why our only mission is to obtain the plane coordinates of the spirit Master world. Everything else isn’t important!

Everything we’re doing now is to lay the foundation for the realization of this goal, right?”

luo fei nodded. she did not know what tang zhen meant.

“Then, under normal circumstances, only with a higher status and strength can the success rate of the mission be higher. And to do that, it will take a long time, right?”

Luo Fei’s brows furrowed slightly, but she still nodded. you’re right. This is also the reason why the trial missions take decades to complete. It’s not easy to obtain the coordinates of a high-energy world like the cleric world.

After hesitating for a moment, lorfay said, ” “As far as I know, it’s not rare to not be able to obtain the coordinates of the trial world for hundreds of years. During this period, who knows how many trial-takers have been eliminated!

In addition to the high difficulty of the mission, we also have to face the pursuit of the natives. Many trial-takers lost their lives because of a moment of carelessness.

Therefore, only after obtaining sufficient strength can we consider completing the mission. Therefore, when your strength is low, you should try to keep a low profile!”

Luo Fei’s words clearly had a hint of warning. This was because she had a faint feeling that Tang Zhen was preparing to stir up trouble.

...

At this moment, not only did she need Tang Zhen’s help to earn money, but she also needed Tang Zhen’s protection. Therefore, during this period of time, she absolutely could not let Tang Zhen do anything dangerous, in case she was implicated.

In fact, when Tang Zhen came to this obviously problematic cultivation base, Luo Fei had already given him a warning. She did not believe that Tang Zhen could not see the abnormality here.

In the end, Tang Zhen insisted on choosing this place and completely ignored her warning. This made Luo Fei curious, but at the same time, she also felt that something was wrong.

This trial-taker from an unknown battlefield was obviously up to something big!

“Sir Tang Zhen, aren’t you going to consider it a little more? after all, you’re not even a Spirit Master right now?”

Although Luo Fei was curious, she did not dare to take the risk with Tang Zhen. She had no choice but to open her mouth to dissuade him.

Tang Zhen glanced at Luo Fei and knew what she was worried about. He smiled and said, don’t worry, I’ll start after you’re gone. I promise you won’t be involved.

Hearing this, Luo Fei’s anxious heart finally calmed down.

Although she was very curious about what Tang Zhen was planning to do, this kind of thing was a personal secret. If she was not prepared to participate in it, there was absolutely no need for Tang Zhen to tell her.

However, Luo Fei was prepared to pay attention to Tang Zhen, a Lou Cheng cultivator from a low-level battle zone. She wanted to see what kind of amazing things he could do.

Compared to Tang Zhen who was participating for the first time, Luo Fei was already participating for the third time. In the past few decades, she had come into contact with quite a number of outstanding cultivators. Some of them had already become sector Lord level experts, while others had been eliminated and fallen in the process of the trial.

...

But until now, this was the first time she had seen someone who wanted to cause trouble as soon as he entered the trial world.

Was he arrogant and ignorant, or did he have another trump card?

#### [Chapter 1484 A trapped beast in a cage \(1\)](#)

In the following days, the spiritual disciples were cultivating their own spiritual seedlings step by step, including Tang Zhen. This spiritual seedling was very important to Luo Fei. Since he had already promised her, he would naturally do his best to fulfill it.

After everyone's careful care, the growth of the Ling seedlings in the cultivation garden on the top floor was extremely gratifying.

On this point, ordinary gardeners could not be compared to these spiritual disciples at all. Whether it was in terms of technology or the initial investment, there was a huge difference. The spiritual weapon embryos cultivated naturally could not be compared.

The spiritual disciples were too engrossed in their work and did not realize that the atmosphere here seemed to have become gloomier than when they first arrived. Especially when night fell, the entire building would be shrouded in fog.

!!

In the darkness, there seemed to be pairs of greedy eyes that were secretly watching these spiritual disciples and the spiritual seedlings that they were cultivating.

Only Tang Zhen, who was busy, would turn his gaze towards the end of the corridor. He looked at the figure that flashed past as the corner of his mouth revealed a mocking smile.

She had become completely invisible and stayed in her room every day, never going out easily.

Ever since she expressed that she would not participate in Tang Zhen's actions, there was only one deal left between the two of them. After she got what she wanted, Luo Fei would leave this place.

As for the agreement between the two of them, under the notarization of the cornerstone platform, they had no choice but to fulfill it!

Unknowingly, the spiritual seedlings had already started to bear fruits. As every one of them was a variant spiritual seedling, these fruits were at least 1-star embryos.

When they were fully ripe, they could be sold for at least ten million spirit coins.

The cultivation of the spiritual seedlings had already reached a critical moment. The spiritual disciples did not dare to relax at all. They were afraid that a moment of negligence would cause their previous hard work to go to waste.

Compared to the outside world, there was no need to worry about monsters attacking on a full moon's night in the spirit realm. This was because there would be patrols formed by spiritual disciples regularly cleaning up the vicinity of the city. Ghosts and demons would not dare to approach.

However, it was also because of this that the spiritual disciples' vigilance was greatly reduced. They had no idea that danger was quietly approaching.

It was midnight again. The exhausted spiritual disciples had already started to rest, and the fog in the valley descended as usual.

But this time, within the fog, there were more and more swaying shadows. In the past, because of the obstruction of the protective spiritual array, they could only wander far away, but tonight, they were approaching the building.

It didn't take long for a ghost covered in blood and half of its head to approach the open door and rush into the building excitedly.

This was like a signal, causing the ghosts and demons that were following closely behind to immediately become restless. They rushed into the passage one after another, as if a bloody feast was about to begin!

If a spiritual disciple were to see this scene, they would definitely be shocked. This was because the protective spiritual array used to defend against ghosts and demons had been shut down by someone!

At the top of the building, the long-robed man who had only appeared on the first day was watching this scene with a cold gaze, as if he was used to it.

When the last monster entered the building, the long-robed man pressed a button, and all the exits of the building were closed.

From that moment on, the building became a huge cage.

After leaving the window, the long-robed man walked to a bed and looked at the unconscious woman lying on the bed. A touch of tenderness flashed across his cold and numb face.

Yuro, it won't take long for me to save up enough spirit coins to treat your illness. When that time comes, I'll bring you to find those powerful spirit Masters and ask them to wake you up. Then, we can be together again!

The long-robed man slowly sat down by the bed and grabbed the woman's hand. His gentle and pained eyes kept intertwining.

"I know you'll blame me, be angry at me, and blame me for hurting so many people.

'But if I don't do this, when will I be able to gather enough spirit coins to heal you? I'm not afraid of hard work, but how long can you last?

If you want to blame someone, then blame us for being born in the spirit realm, for walking the path of spirit Master. But now that things have come to this, what's the use of regret?"

The long-robed man's eyes gradually turned cold as he said this. He then spoke with a tone that carried a hint of hatred,"If I wasn't ridiculed and rejected time and time again when I brought you to seek help, would I have chosen this path?

If you want to blame someone, blame them for not giving us a way out. That's why I didn't give them a way out. I'm not wrong, I'm never wrong!"

At this point, the long-robed man's eyes were bloodshot, and his voice became hysterical.

He didn't see that there was a crystal-clear tear at the corner of the woman's eye, gently sliding down her cheek.

The corridor on the second floor was covered with thick fog. There were many sinister figures standing at the door of every room that had a spiritual disciple. They were greedily sucking the blood of living people that floated out from the cracks of the door and could not wait to enter.

The sturdy door was nothing to these ghosts.

A middle-stage spiritual disciple was lying on the bed. Although he was in a dream, he was still frowning as if he was haunted by a nightmare.

As he fell asleep, he felt a little cold and subconsciously pulled the blanket.

However, at this moment, he suddenly felt a sense of danger and could not help but open his eyes.

Less than 20 centimeters away from him, a ghost was parallel to his body, greedily absorbing his blood and Qi, and its blood-red eyes were staring at him.

"Damn it!"

The middle-stage spiritual disciple was shocked. Just as he was about to attack, he realized that his body seemed to be bound by invisible shackles. He could not move at all.

The ghost did not move. Its blood-red eyes flashed with a trace of mockery. Its terrifying face was getting closer to the middle-stage spiritual disciple.

Once the ghost's mouth touched the middle-stage spiritual disciple's mouth, his blood essence would be continuously sucked away. In less than a minute, he would become a dried corpse!

The ghost was getting closer and closer to him, but he still could not escape from its control. The middle-stage spiritual disciple's forehead was covered in cold sweat, and he felt more and more desperate.

At this moment, a " bang! was heard. With a muffled sound, the door was kicked open. Immediately after, a red light flashed, and the ghost floating above him screamed and disappeared without a trace!

As if a bubble had burst, a loud noise came into the room. From time to time, there were sounds of fighting, and it was already a mess.

what are you waiting for? hurry up and go help. A monster is coming in!

After shouting, the spiritual disciple who was trying to save the girl rushed out of the door. He waved the weapon in his hand and started fighting with the other ghost outside the door.

The middle-stage spiritual disciple calmed himself down. He took out his spiritual weapon from his pocket and rushed out with a roar.

At this moment, the second floor had already turned into a battlefield. The fog was filled with the shadows of ghosts and monsters. The spiritual disciples were controlling their own spiritual weapons and were constantly fighting the monsters that surrounded them.

“Damn it, why are there so many monsters?”

The middle-stage spiritual disciple was both shocked and angry. He controlled his spiritual weapon to attack the monster and at the same time, he took out a dagger that was engraved with a spiritual array and waved it around his body.

However, there were simply too many of these monsters. Even though the spiritual disciples tried their best to defend against them, they were still not a match for these monsters.

this isn't the way. We must quickly break out of this encirclement!

A spiritual disciple shouted. His body was already covered in blood and his aura was in a mess.

...

there's no place for us to hide in this Valley. The doors and windows are all sealed, there's no way to escape!

The middle-stage spiritual disciple was shocked. How could he not understand that he had been tricked? he was filled with grief and anger.

besides, there's no point in running. We'll be caught by the monsters no matter where we go!

Another spiritual disciple replied loudly after repelling the monster.

did you send a distress signal to let the cleaning team deal with these monsters? ”

“I've already tried, but the distress signal can't be sent out!”

“Damn it, are we going to die Here today?”

A spiritual disciple let out a cry of despair, followed by his miserable scream. A monster that had fallen from the roof landed on his shoulder. Its sharp claws opened his skull, and it held his skull and licked the White brain juice!

With the death of the first spiritual disciple, the situation was getting worse!

Chapter 1485 Death base

As they were in the fog and the interior of the building was dark, the spiritual disciples could not see the surrounding terrain clearly. Their defense was very tight.

The spiritual disciples were struggling to hold on under the crazy siege of the monsters. They wanted to ask for help, but they realized that they could not even take care of themselves.

As they listened to the monsters' roars and the spiritual disciples' screams, everyone's hearts were filled with despair. Their communication voices gradually disappeared.

At this moment, how could they not have guessed that they had been tricked into entering a black shop?

!!

The owner of this black shop used the excuse of renting a cultivation site to trick him to come here. When the Ling seedlings were about to mature, he would make a move and use ghosts and monsters to kill him.

As long as all the people here died, the other party would be able to obtain all the spiritual weapon embryos without having to invest any money!

It was a vicious plan. From the very beginning, they had already fallen into the enemy's trap. The high-ranked spiritual disciple who had contacted them and the owner of this place were all the masterminds!

Even the gatekeeper of the cultivation base might have been involved in this matter. Otherwise, how could the business be suspended so coincidentally?

He had rented a place here because it was not far from the city and there was a guarantee of safety. In the end, he had really fallen into a trap.

In the end, it was all because the spiritual disciples were too careless and did not have much awareness of defense.

The question was, who gave them the courage to do such a thing in the suburbs?

The spiritual disciples' hearts were filled with bitterness and despair. The other party had dared to do such a thing for the sake of profit. It was obvious that he had no more scruples. They were afraid that they would not be able to escape death today!

.....

In the area where the top floor was located, two figures were standing in front of the spiritual seedlings.

hahaha, the quality of the spiritual seedlings this time is really not bad. There's even a deeply mutated spiritual seedling. When it matures, it will at least be a 2-star embryo!

The advanced-stage spiritual disciple who had led Tang Zhen and the rest here was overjoyed. He looked at the growing spiritual seedlings greedily and kept letting out a "tsk tsk" sound of praise.

After looking at the spiritual seedlings once, the advanced-stage spiritual disciple chose the highly mutated spiritual seedling. He said to the long-robed man Mo Yi, "This time, I only want this spiritual seedling. The rest is all yours!"

Mo Yi's face was still cold. He remembered that the owner of the spiritual seedling was also an advanced spiritual disciple. He even brought along a sick woman.

As mentioned earlier, once this highly mutated spiritual seedling bore fruit, it would at least be a 2-star embryo. As the probability of it appearing was very low, its price might be higher than all the other spiritual seedlings combined!

The high-rank spiritual disciple was obviously greedy and wanted to get the most benefits!

Mo Yi was silent for a moment, as if he was hesitating in his heart. However, he finally nodded and said in a hoarse voice, "Sure, but you have to bring a few more people next time!"

The advanced-stage spiritual disciple laughed out loud, "don't worry, I would have done it even if you didn't tell me to. I'll do it a few more times before anyone finds out, and then we'll change places and continue to make money!"

His tone was filled with madness and pride, as if he was intoxicated in the beautiful money scene.

Mo Yi's expression was still cold and silent. He glanced at the other person quietly, like a statue without flesh and blood.

"It's almost time, why don't we go down and take a look?"

As the sound from downstairs gradually disappeared, the advanced-stage spiritual disciple could not wait any longer. He was ready to open the protective spiritual array on the door.

Mo Yi, let's make this clear first. I've been a little tight on cash recently, so I must take a big share of the spoils!

Mo Yi glanced at him and said coldly, "Last time, you also took two-thirds of the spoils. This time, it should be my turn, right?"

The advanced-stage spiritual disciple looked at him with disdain, but he still smiled, "Mo Yi, that's not right. You should know that I'm in charge of bringing people here and handling the spoils of war. You're only in charge of looking after the house.

So I'm getting paid according to my work, so don't be so stingy, okay?"

Seeing that Mo Yi was still silent, the advanced-stage spiritual disciple was also afraid that Mo Yi would throw a tantrum. It should be known that everything here was set up by Mo Yi. What he was doing was nothing more than running errands and deceiving people.

If the other party decided to quit, where would he find such a partner who was stupid and easy to bully?

When he thought of this, the advanced-stage spiritual disciple panicked and tried to stop him, "How about this, next time, you can take the bigger share. Consider it as me taking care of you, okay?"

Mo Yi nodded, indicating the same.

"Alright, it's a deal!"

The advanced-stage spiritual disciple revealed a smile at the sight of this. However, he was scolding the fool in his heart. So what if I let you take the bigger share? in the end, I will still be the one to deal with the spoils of war. Will I tell you every time I take away a third of the spoils?

After the two of them finished their discussion, the advanced-stage spiritual disciple could not wait to open the protective spiritual array and went straight downstairs!

.....

Due to the effect of the spiritual array, the monsters that entered the building were sealed on the second floor. When Mo Yi confirmed that there were no more sounds from the spiritual disciples, he activated the spiritual array to expel the monsters.

When the spiritual array was activated, the monsters immediately became flustered and were driven out according to the predetermined route!

These monsters still retained a trace of beastly nature. Under the effect of the spiritual array designed by Mo Yi, they were like a school of fish that was chased away, being played around in the palm of his hand.

From this, it could be seen that Mo Yi was definitely a genius. If he did not design and build this building, how could he have killed so many spiritual disciples?

After waiting for about 10 minutes, the advanced-stage spiritual disciple rushed in impatiently when he saw Mo Yi nodding his head.

At this moment, the second floor was filled with the smell of blood. The ground was covered with blood and minced meat. The corpses of monsters and spiritual disciples were strewn all over the ground. It looked like hell!

However, the two of them turned a blind eye to it. It was obvious that they were used to such scenes. They looked at each other and took out their own weapons to search for any spiritual disciples that might have survived.

Once they discovered that someone was still alive, they would kill them without any hesitation, never leaving anyone alive!

The area of the second floor was not small. Although it was extremely messy at the moment, it did not delay Mo Yi and his companion's search. After walking around the second floor, the two of them met in the center of the second floor.

"How is it? is the quantity correct?"

the bodies are scattered everywhere, but the number is correct. They should all be dead!

then what are you waiting for? hurry up and collect the spoils. I'll deal with it after that. You clean this place up!

The advanced-stage spiritual disciple was excited. He went straight to a mutilated corpse not far away. When he first came in, he had already set his eyes on an item beside the corpse.

If he were to sell it, it would be worth at least 200000 spirit coins!

This was going to be his funds for playing around with women in the future. He definitely couldn't let it fall into Mo Yi's hands.

The advanced-stage spiritual disciple picked up the item that looked like a pair of metal gloves and laughed, " Mo Yi, Let's Make a Deal. This is mine. You should know that I've spent a lot of spirit coins to please the black market's boss!

...

Mo Yi nodded, his tone still cold. "I know, if you're really short on money, I can actually give you all these spoils!"

The advanced-stage spiritual disciple was stunned for a moment, then he was overjoyed. He patted Mo Yi's shoulder and said, " Good brother, you're really loyal. Then I won't be polite!"

Mo Yi's originally emotionless face suddenly revealed a strange smile. He said with a tinge of regret, " But I'm worried about one thing, Yingluo."

"What is it?"

The advanced-stage spiritual disciple's expression changed slightly. He could feel that something was not right.

"I'm worried that you're so greedy. Do you want to kill me as well and take everything here for yourself?"

The environment that was already filled with blood and coldness became even gloomier because of this sentence.

Chapter 1486 Scheming against each other

The senior spiritual disciple was stunned for a moment. His heart started to tremble. He suddenly realized that Mo Yi was very unfamiliar.

"Haha, what are you thinking? why would I do such a thing?"

The advanced-stage spiritual disciple laughed awkwardly as if he wanted to hide the fact that he had been exposed. He controlled his spiritual weapon silently and was ready to attack Mo Yi.

He had a premonition that if he did not kill Mo Yi immediately, he would definitely encounter great danger.

!!

However, when he circulated his spiritual power, he discovered that his meridians seemed to be blocked. His spiritual power did not have any reaction at all.

An indescribable fear rose from the heart of the advanced-stage spiritual disciple. He looked at Mo Yi who was smiling eerily and seemed to have realized something. His teeth started to chatter.

brother, you can't do this. We are the best partners. If you leave me, you can't do this at all!

Mo Yi continued to maintain that strange smile as he stared at the trembling advanced-stage spiritual disciple. His voice was as cold as ice, so you always ask for more than half of the spoils of war, and then greedily deduct the spirit coins, so that I can only get a quarter of the share every time? "

The advanced-stage spiritual disciple's smile was uglier than a bitter one. He had been trying to use his spiritual power when he was talking to Mo Yi, but he realized that it had no effect.

His body also became more and more stiff. In just a dozen seconds, his hands and feet were numb and he couldn't feel anything.

This was obviously a type of poison, and he had unknowingly fallen for it!

'This damn Mo Yi, why didn't I realize how ruthless he was before? he actually attacked me as he pleased!'

If he had not been too greedy and wanted to kill Mo Yi again, he would not have encountered such a desperate situation.

The survival instinct triumphed over everything. The advanced-stage spiritual disciple immediately started to cry and beg. However, Mo Yi kept sneering as if he was looking at a wild dog wagging its tail.

The advanced-stage spiritual disciple finally broke down. He cursed and swore, but he realized that his mouth and tongue were already stiff. Not only could he not speak clearly, but he could not stop his saliva from flowing down.

Like rotten meat with its bones removed, he collapsed on the ground, unable to move. His eyes were full of endless hatred and panic.

Squatting in front of the advanced-stage spiritual disciple, Mo Yi patted his face and took out a knife to slowly slit his throat.

we're working together this time. Don't worry, I'll leave your corpse intact!

"Ge Ge Ge"

The advanced-stage spiritual disciple could no longer speak. His eyes gradually lost focus and his breath gradually disappeared.

After wiping the dagger on the corpse's clothes, Mo Yi stood up and started to clean up the place.

Three hours later, just as dawn was about to break, Mo Yi had finished cleaning up and disposed of all the corpses.

He was already very familiar with this kind of thing, but who would have known that during the first cleaning, Mo Yi vomited for an entire day!

At this moment, all traces of the spiritual disciples had been wiped away. No one knew how many vengeful spirits were wandering around in this gloomy building.

Opening the hidden door, Mo Yi walked to the bed and sat beside the woman who was still unconscious.

yurou, I've already settled everything. Wait a few more days and I'll take you out of here. We'll go to the biggest city in spirit realm and get the best Spirit Master to treat your illness!

If you don't have enough spirit coins, I'll continue to think of a way. Wulian, no matter what, I'll make sure you recover!"

Mo Yi mumbled to himself, not caring if the woman heard him or not. Ever since his wife had failed to become a spirit Master, he had been doing this.

According to the cleric, doing so could help the unconscious wake up their consciousness and prevent their soul from collapsing due to being unconscious for a long time.

Mo Yi did not know if this would be effective, but as long as there was the slightest possibility, Mo Yi would not try.

“Tsk, tsk, tsk, what a touching scene!”

The sound of palms patting against each other was extremely abrupt in the secret chamber. Mo Yi, who was sitting by the bed, stiffened and slowly turned around.

A man and a woman were standing in the corner of the secret room, looking at him coldly with a hint of ridicule on their lips.

Mo Yi’s pupils contracted slightly. He had already recognized the two people. They were the man and woman who had come in the same car.

Mo Yi calmly stood up from the bed. He looked at Tang Zhen who was less than ten meters away from him and asked with a slightly puzzled tone, why aren’t you guys dead? is there something wrong with those corpses? ”

Tang Zhen nodded and said in a faint tone, “It’s such a coincidence. I happened to have a few bodies of my pursuers that haven’t been disposed of yet, so I processed them a little. In fact, if you look closely, you should be able to find some flaws!”

Mo Yi’s eyes showed a hint of understanding. No wonder he felt that something was wrong with the gnawed bones when he was dealing with the corpse.

Glancing at his wife who was lying on the bed, Mo Yi’s face contorted and twitched. Then, he suddenly knelt on the ground and pressed his face against the ground.

This was a sign of submission. Mo Yi knew that while he was fighting with Tang Zhen, he was unable to protect his wife. Moreover, the other party was able to sneak into the secret room without a sound. This meant that he was stronger than Mo Yi.

Mo Yi did not dare to risk his wife, so he could only choose to surrender, which was the safest way.

I want to save my wife, which is why I’m doing this. I know I’ve sinned, but I still hope that you can let me and my wife go. I’m willing to pay all my spirit coins for this!

Tang Zhen was silent, but Luo Fei said, tell me, how many spirit coins do you have? ”

“Five million!”

Sophie laughed coldly and looked at Mo Yi. “Do you think I’m an idiot, or do you think that your and your wife’s lives are worth this price?”

“Ten million!” Mo Yi hesitated.

There was a flash of joy in Sophie's eyes, and she said coldly, "Just this?"

Mo Yi glanced at his wife on the bed and nodded.

Looking at Luo Fei's face, he knew that this was definitely all he could offer, even if he threatened her with his life.

If he was released, he could still use the remaining spirit coins to treat his wife's injuries. However, if he was deceived, he would definitely not let Tang Zhen and his wife off so easily.

"Sir Tang Zhen, what do you think?" Luo Fei turned to look at Tang Zhen and asked.

At this moment, Luo Fei was powerless. Even if she was extremely tempted by Mo Yi's price, she had to get Tang Zhen to agree first.

Tang Zhen ignored Luo Fei. Instead, he stared at Mo Yi for a while before his gaze landed on the woman on the bed.

your wife failed to become a spirit Master and fell into a coma due to the huge energy impact. Now her soul is extremely unstable and could collapse at any time!

"Am I right?" Tang Zhen looked at Mo Yi.

...

Mo Yi nodded. It was for this reason that he had no choice but to think of ways to gather spirit coins in order to cure his wife.

Lightly shaking his head, Tang Zhen sneered, if you want to completely cure your wife, the healer must have extremely strong strength. Even a level nine spiritual master can't do it. Do you know this? "

Mo Yi continued to nod with a complicated look in his eyes.

"Do you have enough spirit coins to hire a Spirit Master that's beyond the ninth rank? with your current status as a spiritual disciple, is it possible for you to come into contact with a powerhouse of this rank?"

Mo Yi was silent for a moment before he muttered, "If we don't try, who knows if it'll work?"

Tang Zhen sneered as he looked at Mo Yi as though he was looking at an idiot."After experiencing so many things, you're still holding onto such a fantasy. You're really deceiving yourself!"

The corner of Mo Yi's eyes twitched as his entire face contorted. He stared at Tang Zhen and growled with a beast-like voice,"As I said, as long as we think of a way, there will always be hope!

Yurou won't die. I'll definitely cure her, no matter how high the price is!"

is that so? you said it yourself. Remember, don't regret it!

Tang Zhen raised his hand and gently snapped his fingers when he spoke up to this point. Just as Mo Yi was feeling a little baffled, he suddenly felt as though something was approaching him.

He turned around and saw his wife, who had been in a coma for many years, lying at the end of the bed, staring at him without blinking!

...

#### Chapter 1487 Cooperation and departure

Even though he had caused the deaths of many people over the years and his heart had long been as firm as Iron, Mo Yi was still shocked.

However, he soon came back to his senses and hugged his wife with a face full of surprise, tears filling his eyes.

yurou, you're finally awake. Hahaha, you're finally awake!

Mo Yi hugged his wife and laughed out loud, but tears could not stop rolling down his cheeks. He held his wife with one arm and stroked her hair with the other, his eyes filled with happiness.

!!

yurou, do you know how much I've missed you? every time I see you lying on the hospital bed, I wish I could share your pain.

But it's fine now. Since you're awake, we'll leave the spirit realm together and find a quiet place in the outside world, then live our lives like ordinary people.

So what if we can't become Spirit Masters, as long as you and I can be together, it's better than anything else!"

Mo Yi's voice was hoarse and choked with sobs. He pulled his body back and wanted to kiss his wife. Then, he saw a pair of eyes that were still looking forward without a trace of life.

Mo Yi was stunned. He held his wife's face with both hands and called out to her loudly, the joy in his eyes gradually turning into despair.

"Bastard, what did you do?"

Mo Yi supported his wife with both hands as he turned his head and roared at Tang Zhen fiercely. His eyes were bloodshot.

Only now did he realize that his wife was like a puppet, unable to react at all.

"I just noticed that. Your reaction is really slow."

Tang Zhen shook his head. His tone contained a trace of ridicule. However, he also knew that Mo Yi's concern had caused him to be flustered. Due to the huge surprise that had shocked his thoughts, he had not noticed this detail.

Ignoring Mo Yi's gaze that seemed as though he wanted to eat someone, Tang Zhen leaned against the wall and said with a cold and indifferent voice, "I've said just now that your wife has suffered great harm. If it wasn't for your years of recuperation at all costs, perhaps she would have died long ago.

Even so, your wife's body is still in a state of ruin. Even if she wakes up, she won't be able to control this body.

In fact, although your wife is weak, she still has a trace of consciousness. After my treatment, her consciousness has begun to gradually recover. However, because of her body, she still can't communicate with you normally."

Mo Yi silently sized up his wife and saw tears flowing out of her eyes. Although there was still no light in her eyes, Mo Yi could feel that his wife was actually looking at him.

Your Excellency, thank you for everything you've done!

After placing his wife on the bed, Mo Yi stood up and gave a deep bow to Tang Zhen. When he stood up again, his expression had already recovered its calmness.

Tang Zhen secretly nodded his head. Mo Yi was able to use a trap to kill a spiritual disciple. He must have a strong mind. After experiencing such a huge tragedy, he had quickly recovered.

Although Mo Yi had recovered his previous cold expression, there was a trace of fervour in his eyes as he stared unwaveringly at Tang Zhen and said, I've been thinking of ways to treat you all these years. I've used countless methods and begged countless people, but no one has been able to do what you've done.

I believe that you have a way to treat my wife. No matter what conditions you have, as long as it is within my power, I will do my best!"

After saying this, Mo Yi looked at Tang Zhen in anticipation. His heart was extremely uneasy.

"I can do it, but it will take a lot of time. And I have to tell you that if you want to truly cure your wife, the best way is to change her body. Otherwise, even if she wakes up, she won't be able to live for many years!"

When Mo Yi heard this, he did not hesitate at all. He immediately swore an oath to Tang Zhen to express his attitude.

No matter what Mo Yi was planning in his heart, at least Tang Zhen's goal had been achieved. In the following period of time, he had many things that he needed Mo Yi's help with.

Putting everything else aside, just the spirit coins that Mo Yi had saved up to treat his wife would be a great help to Tang Zhen.

As long as this fellow helped him wholeheartedly, Tang Zhen would not go back on his words. He would definitely help his wife recover.

Of course, before this, Tang Zhen had to send Luo Fei away first to prevent her from being a hindrance here.

Since she did not intend to participate in his plan, Tang Zhen would naturally not force her. The two of them could part ways after completing the transaction.

To be safe, Tang Zhen exchanged a contract from the cornerstone platform and let Mo Yi leave his own spiritual imprint on it.

Mo Yi was very curious about the contract. After completing it according to Tang Zhen's request, he even fiddled with it in his hand for a while. The way he looked at Tang Zhen also became a little strange.

Tang Zhen knew that this fellow was very knowledgeable about spirit arrays. He had probably already seen a trace of abnormality from the contract. One must know that this was an item from the tower world, which was very different from the items from the spirit Master world.

Tang Zhen didn't care about this. So what if Mo Yi knew? if Mo Yi dared to ruin his plan, Tang Zhen had plenty of ways to make him regret it for life!

He got Mo Yi to take out ten million spirit coins and hand them to Luo Fei. With that, the contract between the two parties was completed.

After hearing Tang Zhen's request, Mo Yi didn't hesitate at all. This was because he was very clear that even if he used ten times the amount of spirit coins, he might not be able to cure his wife.

Now, he had placed all his hopes on Tang Zhen. He had completely fulfilled Tang Zhen's request.

It didn't take long for Mo Yi to return with a metal box. It was filled with ten thousand spirit coins.

"Sir Murphy, our deal ends here. Please don't forget your promise!"

Luo Fei received the box from Tang Zhen and put it away on the cornerstone platform. She smiled at Tang Zhen.

"Don't worry, I'll tell you now!"

After whispering a few words into Tang Zhen's ear, Luo Fei bowed to Tang Zhen before turning around and leaving.

When they were about to leave, Luo Fei turned to look at Tang Zhen, chuckled, and said, "Sir Tang Zhen, if we are fated to meet again, let's have a drink and chat. I hope you will take care of yourself!"

"Take care!"

After watching Luo Fei disappear in the morning light, Tang Zhen turned to Mo Yi. let's not delay any further. Let's start working now!

In the following days, Tang Zhen and Mo Yi began to get busy.

Because of Mo Yi's spirit coins, Tang Zhen was no longer restricted in his actions. He exchanged a large number of items from the cornerstone platform in order to help Mo Yi's wife heal her soul.

Seeing that his wife's injuries were gradually getting better, Mo Yi's suspended heart also gradually relaxed. He began to discuss with Tang Zhen about cultivating a host body for his wife.

This method actually existed in the spirit Master world as well. It was very similar to reincarnating in another's body, but those who could do this were, without exception, the true powerhouses of the spirit Master world. Ordinary Spirit Masters couldn't do this at all.

As for cultivating a specialized host body, it was simply a fantasy to Mo Yi. At least, he had never heard of such a thing before.

However, Tang Zhen didn't immediately start cultivating the host body as he had expected. Instead, he spent a large number of points to buy a bunch of items and then got busy in the basement alone.

Mo Yi was in charge of taking care of those spiritual seedlings. These spiritual weapon embryos were of great value and must not be wasted easily.

Although Mo Yi was anxious in his heart, he knew that he could not be too hasty. He also understood that Tang Zhen's condition for helping him was to complete his plan.

...

As for what Tang Zhen's plan was, Mo Yi didn't know. Tang Zhen had never told him.

However, Mo Yi could feel that Tang Zhen was definitely doing something earth-shattering. Compared to his secret plan, Mo Yi's actions of killing tens of spiritual disciples were nothing!

Chapter 1488 Piercing through the sky

The entrance to the basement slowly opened. Tang Zhen walked up with a frown as if he was thinking about something.

This building had been specially designed. The entrance to the basement was set behind the wall of the top floor. Unless one dug three feet deep, it would be impossible to find its existence.

When Mo Yi, who was taking care of the Ling seedlings, saw Tang Zhen walk out, he stepped forward and bowed. After that, he continued to do his work, appearing extremely serious.

Tang Zhen sat on a chair and looked at the flowing clouds above his head in a daze. After which, he said to Mo Yi, "Calculating the time, these spiritual seedlings should be about to mature, right?"

!!

Mo Yi, who was preparing the nutrient solution, nodded slightly. If he could keep his mouth shut, he would always respond with simple actions.

"I've spent quite a bit during this period of time. You shouldn't have much spirit coins left, right?"

Mo Yi turned his head and glanced at Tang Zhen. His voice was still ice-cold, there's probably a few million left. Do you want me to get it for you?"

To Mo Yi, as long as he could cure his wife, these worldly possessions were nothing.

If it was someone else, seeing the spirit coins that they had painstakingly saved up being used up like water, they would probably be so distressed that they would not be able to sleep all night!

Tang Zhen smiled and shook his head, get ready, we'll go cultivate a host body in a while. If nothing goes wrong, when the spiritual seedlings mature, you can be with your wife.

Mo Yi's hand trembled slightly. Then, he took a deep breath and turned to look at Tang Zhen. "Thank you!"

"You're welcome. We're just taking what we need.

In addition, you have to make early preparations. Although your previous actions were still considered secretive, sooner or later, they will be exposed. Do not underestimate the ability of a Spirit Master.

So when your wife is fully recovered, take her away from here, the further the better!”

Mo Yi was silent. He looked at Tang Zhen and said, ” actually, from the very beginning, I was already prepared to die Here. As long as I can be with yurou, what difference does heaven and hell make? ”

“Now that your wife has recovered, do you still think so?”

Tang Zhen stared at Mo Yi. His eyes seemed to be able to see through Mo Yi’s heart.

Shaking his head with a bitter smile, Mo Yi sighed, ” it’s strange. I have hundreds of lives in my hands, but now I’m suddenly afraid.

Tang Zhen nodded his head. This was actually not strange. Mo Yi was afraid that he would be on the run for his life after just reuniting with his wife. There was even the possibility of being separated by life and death again.

Some things would only be cherished if they were lost. His most precious wife had returned to his side, so it was only natural for him to be worried.

I will take responsibility for the matters here. Even if someone investigates this place, they will treat me as the owner of this place, not you.

Mo Yi’s body trembled violently when he heard Tang Zhen’s words. He looked at Tang Zhen in disbelief as his lips trembled a few times. In the end, he did not open his mouth to speak.

He bowed deeply and only stood up after a long time.

After a short conversation, Tang Zhen got up and went back to rest. Mo Yi continued to take care of the Ling Miao, but his mood was like waves.

.....

The monotonous and boring days always passed by very quickly. In the blink of an eye, the spirit seedlings had matured. In the end, he harvested several one-star embryos and a three-star Spirit weapon embryo that Tang Zhen had cultivated.

Mo Yi was extremely curious about Tang Zhen’s methods. He could not understand why the quality of Tang Zhen’s spiritual seedlings would exceed others by such a huge margin under the same conditions.

Tang Zhen did not deliberately hold back in the face of Mo Yi’s request for advice. This was nothing to him.

Listening to Tang Zhen’s teachings, Mo Yi was shocked. He, who had always prided himself on having a deep understanding of spiritual arrays, only realized how shallow his knowledge was at this moment.

At the same time that he was sighing in shock, he was also extremely curious about Tang Zhen’s background. How could a person with such great abilities be an ordinary spiritual disciple?

However, Mo Yi knew that the more he knew, the more dangerous it would be. Some things had to be buried deep in his heart and must not be known to outsiders.

In order to protect Tang Zhen and even more so to protect his wife.

Many years later, the world of the spirit realm underwent a tremendous change. Mo Yi's hair had already turned white from all the success and fame. However, he once again heard of Tang Zhen's name by chance. However, at that time, Tang Zhen had already become a legendary existence!

Every time Mo Yi recalled this short period of time together, he would always be filled with emotions. He finally understood why Tang Zhen would have such an amazing performance.

.....

Looking at his wife standing in front of him again, with her usual voice and smile, Mo Yi choked with sobs and could not make a sound. He could only hold his lover tightly, his shoulders trembling.

It was the same for his wife. In the years that she was in a coma, she could hear her husband's voice every day, reminiscing the good times of the past by her bedside.

It was because of Mo Yi's persistence and encouragement that the two of them had the chance to meet again!

After gently patting her husband's shoulder, the husband and wife looked at Tang Zhen and knelt on the ground.

Yurou will never forget your great kindness. Please accept our bow!

Tang Zhen indicated for the two of them to stand up. After which, he said to Mo Yi, "Now, you can take your wife and leave, as well as those spirit weapon embryos. Go as far as you can.

I will erase all traces of you. Remember that this place has nothing to do with you, and we have never met!"

Tang Zhen waved his hand and sent Mo Yi and his wife off with his eyes. His expression was as calm as water.

The couple thanked him again and left the valley hand in hand. They never came to the city again.

After Mo Yi left, only Tang Zhen was left in the building. He activated the modified spiritual array and completely sealed the place before entering the basement.

He had finished modifying the basement. A cross-plane soul teleportation array had been built and could be activated at any time.

However, Tang Zhen was not in a hurry to activate it. This was because his current strength was limited. He was unable to guarantee that his mental energy threads would be able to penetrate the barrier between the planes. In fact, there was a possibility that they would instantly turn into ashes the moment they touched the barrier!

Increasing his own strength was already an urgent matter. What he needed to do now was to be promoted to an official Spirit Master!

In the world of Spirit Masters, the difference between the ranks of Spirit Masters lay in the size of their sea of spirit. Tang Zhen's cultivation base was already infinitely close to that of a spirit Emperor, but the spirit power of this body was pitifully weak.

Tang Zhen's plan was very simple. It was to use the spiritual power cultivated by this body as a cover to deceive the spirit internet's detection and absorb the heaven and earth energy. Then, he would use the stolen energy to feed this body, allowing it to directly cross the level of a level one spiritual master and advance to a higher level!

This kind of deception would definitely not last long. He would be discovered by the spiritual Nexus soon after and might even expose his identity and location, attracting the pursuit of a spiritual master!

However, this was only the first step. Tang Zhen would still use the vast energy of the spirit internet to attack the plane's barrier and let his mental energy threads Enter the Void to connect to the cross-plane Soul transmission array that the Holy Dragon City had once built.

Each thread of spiritual energy contained simple information, and with this, one could analyze the plane coordinates of the spirit Master world.

In the past few years, the Holy Dragon City had built more than one soul transfer array. Other than to ensure the lives of the city's cultivators, it was also to provide coordinates for the Holy Dragon city's cultivators!

...

They were like lighthouses, allowing the cultivators of loucheng who were fighting alone in the other world to find their way home smoothly!

This plan of Tang Zhen's was rather bold. When other trial-takers infiltrated into the other world, all of them would hide themselves in a low-profile manner. Only Tang Zhen did the exact opposite. He wanted to pierce through the sky the moment he made a move!

If Luo Fei knew what Tang Zhen was going to do, she would definitely feel lucky that she did not participate in it because of her impulsiveness.

This was a gamble with his life. Not only was it extremely dangerous, but the chances of success were also extremely low.

Tang Zhen also understood this point. However, he didn't have much time. Compared to those who were at the peak of the spirit Emperor realm and were only one step away from the sector Lord realm, Tang Zhen, who knew nothing about the world, was far behind.

Tang Zhen, who had a congenital deficiency, could only take risks to have a chance to complete the trial within a hundred years and successfully advance to the sector Lord realm!

Chapter 1489 The spiritual Nexus's wrath

When everything was ready, Tang Zhen took a deep breath and began to mobilize his condensed spiritual power to communicate with the spirit net of the spirit Master world.

The fact that the spirit Master world could attract the attention of the cultivators in loucheng and even allow them to seal their cultivation and sneak in was enough to prove its uniqueness.

According to Lefay, their target this time was not the origin of this world, because for the Super Battle zone, a plane's origin was nothing at all, and it was not worth mobilizing so many powerhouses.

The most valuable thing in the spirit Master world was the spirit net that covered the entire spirit realm. It controlled the world's heaven and earth energy and operated on its own according to the set rules.

!!

To put it bluntly, the cultivators in the cleric world were able to control the world completely. Due to the existence of the spirit internet, every cleric had a powerful support behind them, allowing them to do many things that the cornerstone platform couldn't do.

It was also because of the existence of the spirit internet that Lou Cheng was unable to locate the plane coordinates of the spirit Master world and had no choice but to send trial-takers to sneak in.

Once the accurate plane coordinates were obtained, the powerful cultivators of loucheng would rely on the cornerstone platform to break through the barrier and officially invade this world. They would then snatch the method of building the spirit internet from the spirit Master world.

At this moment, Tang Zhen's spiritual power had already discovered the existence of the spirit internet and was constantly trying to make contact with it so that he could establish a connection with it.

This was not an easy task. If a spiritual disciple wanted to be promoted to a spiritual master, they would have to go through its test. Only when they met the requirements to enter the spiritual Nexus would they be recognized.

This was what Tang Zhen wanted to do. By relying on his mental energy that far exceeded that of an ordinary spiritual disciple, he quickly completed the connection.

The instant the connection was completed, Tang Zhen's body trembled. An indescribable pain spread within his soul, causing his sweat to roll down.

At this moment, Tang Zhen was just like someone who had been skinned and thrown into thick salt water. The burning pain that came from his soul almost caused him to collapse. Once he was unable to endure it, he would immediately fall into a coma.

Only by persevering to the last moment and adapting to this kind of painful torture would one have the qualifications to officially advance to Spirit Master.

It was not that the spiritual Nexus was deliberately making things difficult for them. It was just that the pure energy of heaven and earth was explosive. Ordinary people would die if they touched it. Only advanced spiritual disciples had the right to touch it.

Tang Zhen was naturally aware of this. Hence, he had clenched his teeth and persevered from the beginning until the end, allowing his soul to gradually adapt to this kind of pain.

After an unknown amount of time, the bone-deep pain gradually disappeared and was replaced by a numb, itchy, and painful feeling. It made people subconsciously scratch their ears and cheeks, as if there was no part of their body that wasn't itchy.

Compared to the pain just now, the itch was even more torturous. One moment of carelessness would distract a person and cut off their connection to the spiritual Nexus.

However, Tang Zhen clearly knew in his heart that this was actually the gradual recovery of his damaged soul. His mental energy had adapted to the appearance of the world Energy. As long as he continued to persevere, he would definitely be able to succeed.

This kind of persistence soon paid off. As the numb and itchy feeling gradually disappeared, a feeling that made one's soul feel as if it was placed in a vast ocean came over, causing Tang Zhen's mind to become increasingly clear and his body to become more relaxed.

Tang Zhen was overjoyed. This was a sign that he had passed the test of the spirit internet. In that case, there would be an endless stream of heaven and earth energy that would follow to expand his sea of spirit!

As expected, as soon as he thought of this, a powerful energy attacked him and directly poured into his soul.

Tang Zhen had been waiting for this moment. He immediately released his soul and increased the speed at which the world Energy was pouring into his body. At the same time, he silently opened a trace of the seal on his soul and greedily absorbed the world Energy pouring into his body.

The process was so secretive that even the spiritual Nexus could not detect it. The energy was still being fed continuously.

The spirit Master world had no lack of geniuses. When they advanced to Spirit Master, they weren't satisfied with the realm of one level, but worked hard to try to reach higher levels.

It was said that there was once a monster who had crossed the limit of Grade 9 and directly reached the transcendent level, becoming a powerful man whose name shook the world!

Such existences were extremely rare. However, it was common for one to advance two or three ranks at a time. This also caused Tang Zhen to be unable to attract the attention of the spirit internet even if he absorbed Too Much Heaven and earth energy.

Unknowingly, Tang Zhen was absorbing more and more heaven and earth energy. His original cultivation of a law King also faintly showed signs of a breakthrough.

"Soon, soon!"

Tang Zhen muttered in his heart. He became more and more nervous, praying that the spirit internet would discover his abnormality later.

However, the amount of energy he had absorbed was too much. Under normal circumstances, it would be enough for a spiritual disciple to surpass the ninth grade and become an extraordinary existence.

How could such a rare situation not attract the attention of the spirit internet? therefore, just as Tang Zhen was praying in secret, a vast will suddenly approached rapidly and headed straight for Tang Zhen.

Tang Zhen felt his hair stand on end. He did not hesitate to conceal the mental energy Information that belonged to this body. Soon after, the seal on his soul was forcefully broken. He began to devour the world Energy like a huge whale sucking in water.

Under the impact of the vast heaven and earth energy of the spirit internet, he had directly completed his advancement, becoming a true spirit Emperor powerhouse!

The will that belonged to the spirit internet seemed to have sensed the abnormality. It furiously crushed toward Tang Zhen, trying to completely shatter his soul.

Even if he had become a spirit Emperor, Tang Zhen was still unable to contend against the spirit internet that controlled the entire world. Therefore, he quickly dodged and activated the interplanar Soul transmission array at the same time.

The moment the soul transfer array was activated, his soul turned into billions of mental threads. After the power of the spiritual net followed, it suddenly burst out.

“BOOM!”

The soul transmission array could not bear the burden and directly exploded into dust. Tang Zhen’s mental energy threads also borrowed the terrifying power of the Spirit net and shot out in all directions.

After spitting out a mouthful of blood, Tang Zhen quickly sealed his soul, which had been severely injured after he had just advanced to the spirit Emperor realm. He staggered out of the basement and quickly tore a random teleportation scroll!

Just as the teleportation light lit up, the sky above the valley seemed to be burned by flames, shooting down beams of strong light. Inside were all extraordinary Spirit Masters with terrifying auras!

With the teleportation ability of the spiritual Nexus, they arrived at the valley in a very short time and surrounded the area from all directions.

it’s very likely that the other party is an intruder from another world. Everyone, seal off all routes. We can’t let him escape!

An old man in a long red robe had a face full of anger. He stared at the building in front of him fiercely, as if the enemy who killed his father was hiding inside.

But before he could give a new order, his expression suddenly changed and he shouted to the surrounding supernatural spiritual masters, “That guy has already escaped. Everyone, hurry up and get ready to teleport again!”

When the transcendent clerics who had rushed into the buildings heard this, they quickly gathered in the same place and waited for the spiritual Nexus to teleport them.

The red-robed old man who had given the order suddenly frowned. For some reason, he felt a great sense of danger right under his nose.

something's wrong. Everyone, leave this place immediately!

The red-robed old man roared in anger. He rose into the sky without any hesitation and flew out of the valley.

When the other transcendent Spirit Masters saw this, they also flew out of the valley without asking anything.

However, at this moment, a dazzling light suddenly came from the building that looked like a crouching beast. An indescribable and terrifying impact burst out in the valley, instantly razing the place to the ground!

The transcendent spiritualists who fell behind were swept up one after another. They had no way to escape and fell to the ground in despair, turning into charred corpses!

An explosion that caught them off guard not only wiped out all the traces that Tang Zhen had left behind, but even the transcendent spiritualists who were chasing after him also suffered extremely heavy casualties!

When the smoke dissipated, the entire Valley no longer existed. All life within a radius of twenty miles had been exterminated!

The red-robed old man, who was covered in blood, trembled with anger when he saw this scene. After a long time, he let out an indignant roar.

...

"Bastards of the world of Lou Cheng, I won't rest until I'm dead!"

Chapter 1490 A pleasant surprise

Tang Zhen did not hear the red-robed old man's furious roar. He did not know that the other party had already confirmed his identity as a participant.

In fact, this was also a reasonable matter. According to Tang Zhen's analysis, the trial-takers in the Soul Master world were definitely not just him and Luo Fei. Perhaps some careless guy would accidentally let the Soul Master check his background and expose the information that he came from the Lou Cheng world.

Of course, it didn't matter even if he was exposed. The other party only knew that he might be a cultivator from Lou Cheng, but he didn't obtain the soul aura of this body. In other words, Tang Zhen was still safe for a short period of time.

As long as he kept a low profile and tried his best not to let anyone discover his abnormality, it would be fine.

!!

He used the fastest time to set up a runic magic circle to cover up the fluctuations of the spatial teleportation. Tang Zhen took out a teleportation scroll and activated it again.

These two scrolls from the cornerstone platform had already used up all of Tang Zhen's spirit coins. In the future, he would be penniless again.

The teleportation process was very smooth. A minute later, Tang Zhen arrived at an unfamiliar area.

This was an old forest deep in the mountains. The rotten leaves made the ground soft and muddy. The air was filled with a faint smell of grass and trees. A few small animals fled in panic because of Tang Zhen's appearance. After running for a distance, they stopped and sized him up again. Their eyes seemed to be filled with curiosity.

After confirming that there was no danger in the surroundings, Tang Zhen leaned against a large tree and sat down. His pale face revealed a trace of exhaustion.

This time, not only had he deceived the spirit internet and allowed his cultivation to break through to the spirit Emperor realm, but his body had also been directly promoted to the transcendent realm due to the impact of the massive energy.

However, due to the heavy impact, both the sealed soul and the body had suffered great damage, and they needed to slowly recuperate to recover.

During this period of time, Tang Zhen wasn't much different from an ordinary person. He wasn't even as good as when he first arrived.

Tang Zhen had long expected such a situation and did not care about it at all. The thing he was most concerned about now was whether his mental energy threads had charged out of the plane's barrier.

One had to know that the reason why he was willing to take this risk was to achieve this goal.

According to Tang Zhen's estimation, even if a portion of the spiritual threads were intercepted and obliterated, the majority of the spiritual threads would still be able to penetrate the plane's barrier and Enter the Void with the help of the spirit internet.

As the connection was cut off, Tang Zhen did not know where these spiritual threads would drift to, or whether they would be discovered by the Holy Dragon city's cross-plane Soul transmission array search. Everything depended on luck.

For example, it was like Tang Zhen had lost tens of millions of drifting bottles in the vast ocean. Only when the person he designated picked up the bottle could this plan be considered a success.

Although this method didn't seem reliable, it was the best method Tang Zhen could think of at the moment. Moreover, other than sending the plane coordinates, his other goal was to use the spirit internet to advance to a spirit Emperor. This step had been successfully completed.

In the following days, Tang Zhen would try his best to keep a low profile. Firstly, he would cover his tracks to avoid being chased by transcendent Spirit Masters. Secondly, he would also think of ways to recuperate and heal his injuries as soon as possible.

Tang Zhen took out a healing medicine from the ball of light and consumed it. He then broke a small tree and used it as a walking stick to support his body as he slowly moved forward.

As he walked, he sized up his surroundings.

There was basically no trace of human activity here. It was obviously deep in the mountains and forests, so the possibility of him being discovered by the pursuers was extremely low.

However, the harsh natural environment was also dangerous. He was now as weak as loofy. If he encountered any poisonous insects or beasts, he would really be in trouble.

With this thought in mind, Tang Zhen tried his best to avoid the places where monsters might be active. He walked for a few kilometers and did not encounter any danger.

After finding a relatively safe place, Tang Zhen sat cross-legged on the ground and began to use his meditation technique to repair his mental trauma.

At this moment, his sea of spirit was like a dry desert. The world Energy that he guided through meditation was like a drop of rain, completely useless.

Although the speed of restoration was extremely slow, it was the only method Tang Zhen had at the moment. He did not dare to communicate with the spirit internet, in case he raised the vigilance of the will of the spirit internet.

Time slowly passed by and Tang Zhen ended his training. After taking out some dry food to fill his stomach, he began to look for medicinal ingredients that could be used in the surroundings to see if he could concoct a medicine that could treat his injuries.

Although the plants in the two worlds were very different, Tang Zhen could still analyze them based on his experience to determine if they could be used.

However, this kind of medicinal ingredient could not be found anywhere. Tang Zhen dragged his tired body around the mountain forest, but did not have any harvest.

Medicinal ingredients that could heal spiritual injuries were extremely precious. How could they be obtained just by casually walking around? Tang Zhen also understood this point in his heart. His previous search was only to try his luck.

At this moment, Tang Zhen missed his phone. If he could bring it with him, his situation wouldn't be so difficult.

Although the phone couldn't repair his injuries, the application inside could help Tang Zhen search for medicinal herbs and treasures. He wouldn't be like a headless fly now.

It was a pity that the Super Battle zone had used some unknown method to seal his soul power and even the power of his mobile phone.

Although Tang Zhen had already anticipated this possibility, he still could not help but feel unwilling in his heart when the thing he was worried about really appeared.

Just as Tang Zhen was sighing in his heart, he felt the ball of light in his mind tremble slightly. It seemed as though something strange had occurred.

After his consciousness entered the space, Tang Zhen was surprised to discover that a notification had appeared on the foundation stone platform.

The current cornerstone platform was a combination of the Holy Dragon City and the Super war zone, so the interface was more complicated. However, Tang Zhen could still be sure that this message belonged to the Holy Dragon city's cornerstone platform.

One had to admit the strength of the cornerstone platform. Even if the trial-taker was in a different world without plane coordinates, it did not affect the operation of the cornerstone platform. This was also the greatest support for the trial-taker when they were in the enemy camp.

After clicking on this prompt, Tang Zhen was stunned for a moment as his face revealed a complicated expression.

It turned out that this information prompt had an additional item on the Holy Dragon city's foundation stone platform, and only the city Lord was qualified to buy it!

There had always been a level restriction when trading on the cornerstone platform. If Lou Cheng's level was not high enough, he would not be able to buy the goods on the platform even if he had more points.

In the entire Holy Dragon City, only Tang Zhen's trading platform had the highest level. Therefore, there was no doubt that this product was specially prepared for him.

Tang Zhen could not help but smile when he discovered that the transaction price was only one point. He casually clicked on the trade button.

The Super Battle zone was naturally aware of this method of exploiting loopholes. Therefore, this opportunity could only be given once. Furthermore, there was a limit to the number and type of items available. Although it was helpful to the trial-takers, it was extremely limited.

Even if you were given a divine weapon, you had to have the strength to use it. Otherwise, it would only bring you more trouble.

Only after hearing Luo Fei's explanation did Tang Zhen know that there was such a benefit for the trial-takers. It was a pity that he did not know about this before. Otherwise, he would definitely not waste such an opportunity.

So the question was, who was it that informed the main body and then made timely remedies?

It shouldn't be the city Lord of Morning Star City, because all the information he knew had already been known by Tang Zhen. Although the old man was cunning, he didn't dare to hide anything regarding such matters.

Who else would know about this other than him?

When he thought of this, Tang Zhen suddenly thought of a person. It was the dream city Master who had always maintained a low profile!

His tower came from a powerful Warzone, and his main body was a special race that could swim in the river of time. It was natural for him to know about the Super Warzone trials.

After making a judgment in his heart, Tang Zhen looked at the item in his hand.

This was a black ring. There were dense runes on its surface. If Tang Zhen did not know of its uniqueness, it was likely that he would have only treated it as an ordinary item.

...

However, after Tang Zhen understood its use, his face revealed a trace of unexpected joy.
