### Chapter 151: transportation and the pickle nation

“It was late at night, and in a remote corner of the city, there was a faint flash of light. ”

“Two brawny men of the ice Bear Alliance sat in the room. On the table in front of them, there were several bottles of hard liquor and some food to go with the liquor. ”

The brawny man was covered in tattoos and scars. He had a pistol on his waist and two automatic rifles beside the table.

“From time to time, different sounds could be heard from a walkie-talkie, allowing one to be sure that there were many people hiding in the dark corners. And this inconspicuous courtyard was not as simple as it looked. ”

“Tang Zhen quietly observed the layout of the courtyard. A moment later, he walked to the front of the house and gently opened the door. ”

“The two drunk people didn’t realize that the door had opened immediately. By the time they realized it, Tang Zhen, who had activated the [ quantum stealth light screen ], had already entered the house. ”

“””Why did the door open by itself?”” ”

“A brawny man muttered, but he pulled out his pistol and looked at the door. He found that it was quiet outside and there was no movement. It seemed that he was a little oversensitive. ”

“The burly man slowly turned around and found that his companion had already fallen asleep on the chair with his head lowered. Just as he was about to wake him up, the burly man felt a sharp pain at the back of his head, and then his vision went black and he fainted. ”

“Tang Zhen lifted a hand and placed the strong man, who weighed over two hundred Jin, on a chair. From the outside, he looked as if he was drunk. ”

“After dealing with these two fellows, Tang Zhen walked to the wall and stretched out his hand to open an iron door on the wall. ”

“Walking down the stairs, there was an extremely spacious basement. The space was huge, but it was full of all kinds of weapons and ammunition. It was not as complicated as Ivanov’s weapons, but there were more than him. ”

“Now that he had found what he wanted, it was time to start moving! ”

Tang Zhen robotically repeated these actions. He was busy for half an hour before he finally emptied the entire warehouse. Not even a single bullet was left.

Tang Zhen clapped his hands in satisfaction before walking out from the basement.

“The two guys who had been knocked out by Tang Zhen had yet to wake up. Tang Zhen also ignored them. When they found out that the firearms in the basement had disappeared, who knew if these unlucky people would go crazy?”

“The other party was unjust, and he was unjust. Let’s not talk about each other, it was just based on their own abilities!”

“After leaving the arms dealer’s Secret warehouse, Tang Zhen came to a bridge. After standing for a moment, he suddenly jumped down. At the same time, a truck sped under the bridge and Tang Zhen steadily landed in the back of the truck.”

“After choosing a comfortable position, Tang Zhen lay on the truck and looked at the scenery that was rapidly moving past him on both sides of the road. A strange thought suddenly appeared in Tang Zhen’s mind. What was the point of reference for the round-trip transmission?”

Was it the immovable ground or the object under his feet?

“After Tang Zhen thought for a moment, he felt that the former was the most likely. Otherwise, if he set the teleportation point on the plane, wouldn’t he be able to travel for free?”

“If the plane were to explode, wouldn’t he be able to teleport?”

“In that case, a teleportation point could be set up for a target that couldn’t move. Moving objects like cars and planes shouldn’t be able to set teleportation points. Otherwise, if the plane flew away, he would still be in the same place. Wouldn’t he fall from the sky?”

“When Tang Zhen thought of this, he tried to activate the teleportation. As expected, the teleportation did not activate!”

“This was the first time that the teleportation function had failed. Tang Zhen secretly rejoiced in his heart. It was fortunate that he had discovered this restriction. Otherwise, Tang Zhen would want to cry but had no tears if he only discovered that the teleportation function could not be used at the critical moment.”

“Tang Zhen tried to use the truck as a teleportation point and successfully completed the teleportation. After a few minutes, Tang Zhen returned and found that he was still in the truck. He then nodded in satisfaction.”

“From the looks of it, to teleport on a moving object, one had to lock onto the moving teleportation point. Otherwise, the teleportation would not be able to proceed.”

The truck drove along the road at high speed. Tang Zhen cleared his mind and looked at the stars in the sky. His mood also became calm.

“After a sleepless night, Tang Zhen discovered that he had already arrived in an unfamiliar city when the next morning arrived. This place was still under the jurisdiction of the ice Bear Alliance, but it was a coastal city.”

“The truck stopped at a dock. After Tang Zhen looked around, he jumped off the truck and went straight to a ten thousand ton cargo ship that was about to leave the port.”

“After stealthily jumping onto the freighter, Tang Zhen found a secluded corner and began to wait for the ship to set sail. He didn’t know where the ship was heading to, but it was fine as long as it could leave the ice Bear Alliance because this place was not suitable for him to stay for long.”

“Last night, through the [ all-purpose electronic kit ], Tang Zhen hacked into the ice Bear Alliance’s intelligence network and found information about him and Ivanov.”

“As expected, Ivanov was fine, but he was nowhere to be found. As expected of an old fox, he was clean and efficient.”

“The ice Bear Alliance had a lot of information on him, but it was only on the surface.”

It could be seen that the ice Bear Alliance was very interested in the demonic armament and the shield. They were ready to find out the truth at all costs.

This was why the ice Bear Alliance was in danger and he should avoid them.

But I’ll be back!

Tang Zhen could vaguely feel the body of the ship moving. He turned his head and saw that the cargo ship was slowly sailing into the sea from the port. Groups of seagulls were continuously circling above his head.

The next thing to do was to wait slowly!

“Sailing on the sea was an extremely boring matter. Tang Zhen would read a book and daydream when he was bored. After that, he would stroll around and kill some of the boring time.”

“The [ quantum invisibility light screen ] had not been turned off. Therefore, the crew did not know that there was an invisible fellow wandering around on the freighter. They had walked past Tang Zhen several times, but they did not discover anything unusual.”

“The sun rose and the moon set. Unknowingly, three days had passed. On this day’s noon, Tang Zhen finally saw the long stretch of coastline. This also meant that the large ship had finally arrived at the port!”

“Tang Zhen felt as though he was a bird that had been confined in a cage. The moment when he was finally free to fly had finally arrived, and his mood had also become incomparably carefree. When the port entered the range of Tang Zhen’s map, he immediately began to check where he was.”

All he could see were modern buildings of different heights. The words on the advertisements were so obvious that it allowed Tang Zhen to immediately determine his location.

“This was the pickle nation, a small country on the edge of the Asian Alliance. For various reasons, it did not join the Asian Alliance.”

“The large ship slowly entered the port. Tang Zhen slowly headed towards land. After sizing up the surrounding environment, he flashed into the middle of a pile of containers and was transported back to Holy Dragon City.”

“Everything was normal in Holy Dragon City. The residents were busy with the construction of Holy Dragon City every day, and the training of the soldiers was not slacked at all. ”

“Another thing that made Tang Zhen happy was that yesterday evening, another Holy Dragon City resident had successfully communicated with the mother tree and mastered an ability that could speed up the recovery of injuries. ”

“Tang Zhen was overjoyed when he heard this. He originally thought that after using the flesh to cultivate the mother tree, the mother tree’s ability that was recorded in the tree spirit clan’s books would not appear. He was secretly regretful about this, but he did not expect to be given a big surprise!  
”

“The strength of this ability was in the later stages. When they were within the range of the mother tree’s power, any member of the mother tree’s side could receive the healing of the mother tree’s power. It could be used on a single person or cast on many people at the same time. ”

“The mother tree’s power was actually a very pure source of energy that could only be transformed into various magical abilities through the communication of different physiques, but the mother tree could not do it on its own. ”

“This was another kind of parasitic relationship. The communicator would take care of the mother tree, and the mother tree would pass its power to the communicator. Everyone would rely on each other to ensure that each would benefit from the other! ”

?

Chapter 152: The hierarchy and the trading platform (1)

“In his own room, Tang Zhen saw the lucky person who had obtained the mother tree’s ability. She was a girl who was only fourteen or fifteen years old. Her hair was withered and yellow, and she looked very thin. In front of Tang Zhen, she appeared to be uneasy and nervous. ”

“She was wearing the new clothes that she had just been given, but because she was too thin, the denim clothes seemed empty on her body, as if a gust of wind could blow her away. ”

“Who would have thought that this thin and weak girl had mastered an extremely important ability of the mother tree, and this ability formed a strong contrast with her physical condition. ”

“Fortunately, after mastering the mother tree’s ability, he would be unknowingly nourished by the mother tree’s power, and his body would gradually become stronger. ”

“““Don’t be nervous. Tell me, what’s your name?”” ”

Tang Zhen looked at the girl who had a perturbed expression and tried his best to use a gentle tone to ask.

“““I am Nan Cao, city Lord!”” ”

“The girl’s voice was very small and trembling, making her seem shy and timid. ”

“yes! Tang Zhen nodded and smiled, “” since you can communicate with the mother tree and master its ability, your resident rank can be raised by one. When you make another contribution, your rank can be raised again! ”

“Nan Cao nodded, a hint of joy appearing on her face. ”

“With contributions, one could level up. After leveling up, one could receive more welfare benefits, and appropriate welfare rewards were the motivation to stimulate people to compete and improve. ”

Social classes would always exist. Tang Zhen had never thought of eliminating it because it would make people lose their fighting spirit. Tang Zhen didn’t want to see a group of loucheng residents who were content with the status quo.

“According to the normal resident ranking system, most of the residents in the Holy Dragon City were Level 1. If there were no unexpected situations, they could only wait until the level of the building was upgraded to Level 2 before they would automatically become Level 2 residents. ”

“The new residents who joined the Holy Dragon City at this time were considered level one residents. When the building was upgraded to level three, the first batch of residents would be level three residents. The residents who joined later would be upgraded to level two. The new residents who joined the Holy Dragon City would still be level one residents, and so on! ”

“Currently, in the Holy Dragon City, only Tai Seng, Qian Long, Murong Zi Yan, Da Xiong, and a few others had become Class 2 residents and enjoyed more basic welfare benefits. ”

“A few days ago, Lisa and the little boy called mo Luo had also been promoted to second-level residents. Now, there was also this girl called nancao. To the ordinary residents of the Holy Dragon City, this was undoubtedly a form of motivation. ”

“More and more residents chose to pray under the mother tree during their breaks to see if they could communicate with the mother tree. If they were lucky, they might become Level 2 residents and enjoy more benefits, which would be good for themselves and their families. ”

“Tang Zhen had always been happy to see this kind of thing. After all, the more people with the mother tree’s ability, the more benefits the Holy Dragon City would receive. Why not? ”

“After letting Nan Cao leave, Tang Zhen went to the valley and found Qian Long leading people to move things out of the second underground floor of the shelter. After taking a closer look, he realized that these guys had disassembled the scrapped puppet and then brought up some parts suitable for making armor and weapons. ”

“The Golden alloy used to make the bladed puppets was of excellent quality, with excellent tenacity and hardness, far superior to the crude armor and weapons produced by the small workshop. It was within expectations that thousand Dragon and the others would think of using this to make weapons and armor. ”

“Tang Zhen didn’t disturb Qian Long and the others. Instead, he headed to the lake in the valley that he called ‘Pearl’ to check on the progress of the clearing of the aquatic plants in the lake. ”

“Because of its special growing habits, this kind of water grass only existed near the lakeshore, so it was not difficult to clean it up. A group of Holy Dragon City residents surrounded the lakeshore, dragging the water grass out of the lake with leaves and branches, and then piling them together. ”

“After the water grass was dried, it would be used as fuel and burned. ”

“Tang Zhen noticed that the seaweed was covered with disgusting worms. They were the main food for the strange fish in the lake. Without these seaweed and worms, the strange fish would die sooner or later. ”

“After returning to Loucheng from the sacred Dragon Valley, Tang Zhen went to the cornerstone trading platform to check on the sales of his goods. As he had expected, all the goods in his room had been sold out, bringing him a generous amount of points income. ”

“Tang Zhen, who had nothing to do, planned to browse the cornerstone trading platform to see if there were any goods that caught his eye and any information that was useful to him. ”

“The operation of the cornerstone trading platform was very convenient. Tang Zhen could search for information that was useful to him according to the categories on it. After looking at it for a while, a piece of information caught his interest. ”

“[ selling large amounts of crystal carbon, 1 point per piece. ] ”

“Tang Zhen knew what carbon was, but he had never heard of crystal carbon. It should be a specialty of the Loucheng world. That damn seller didn’t explain in detail. Who knew what this crystal carbon was? ”

“Fortunately, the cornerstone trading platform had an inquiry function that was similar to an Encyclopedia. As long as you paid the points, you could get the answers you wanted. ”

“After Tang Zhen paid the ten points, he quickly obtained the answer he wanted. ”

“[ crystal carbon is a very good fuel. After burning, it has an extremely high temperature and can burn for a long time. It is suitable for forging mo weapons. ] ”

Tang Zhen came to a sudden realization. So this kind of crystalline carbon was a type of fuel with an extremely high temperature!

“After clearing up the doubts in his heart, Tang Zhen felt that these ten points were not worth it. However, it was not a big loss. Tang Zhen no longer pondered over such a small matter and continued to read. ”

“When Tang Zhen saw a group of information about selling the Ivy ointment, he immediately paid the points and bought it all. ”

This kind of life-saving thing could never be too much.

Tang Zhen gently picked up the Ivy ointment that appeared in front of him after the light disappeared. He carefully examined it before keeping it.

“When he inadvertently flipped through the cultivator skills sold on the platform, Tang Zhen’s mind was moved. It seemed that he had never understood any information about the cultivator skills. He still

couldn't figure out what exactly these cultivator skills were. Was it similar to the existence of a martial arts secret book?"

He clicked on a cultivator skill called [ burst ]. It said that it could instantly gather more than 70% of the body's strength to complete a powerful attack with a burst effect.

"When a cultivator used 70% of their strength to attack, the damage was terrifying. Furthermore, it had a burst effect. This [ burst ] was a pretty good skill."

"However, its price wasn't very flattering. This was because this common cultivator skill that everyone could buy on the cornerstone trading platform actually cost 5000 points!"

"Tang Zhen's mouth twitched when he saw the price. He finally understood why Tai Seng had been clamoring to exchange for cultivation techniques but had never done anything. It turned out that the prices of these techniques were too high, and Tai Seng couldn't afford them!"

"After calculating the price of this cultivator skill and comparing it to his own black technology application, Tang Zhen, who previously felt that the mobile application store was black-hearted, instantly realized that the cornerstone trading platform was far more black-hearted than his mobile application store."

The only thing that made Tang Zhen feel regretful was that there were no applications similar to cultivator skills in the mobile application store.

Tang Zhen casually flipped through a few more cultivator skills and discovered that the price of each skill was not lower than 5000 points. It seemed that this cornerstone trading platform was planning to be black-hearted to the end!

"Holy Masters were known as the cultivators among cultivators, so they also had exclusive skills for sale on the cornerstone trading platform. Tang Zhen saw the protective barrier skill used by the dog-headed man Holy master he had sniped before, and it was actually sold for eight thousand points!"

"Tang Zhen was very envious of this kind of protective skill. This was because it was an excellent life-saving method. If there was an application with the same function in the application store, he would have downloaded and installed it long ago."

"Although the skills on the cornerstone trading platform were not bad, Tang Zhen could not take out so many points. He could only look at it for now. However, this also reminded Tang Zhen that it was time for him to earn more points!"

?

Chapter 153: The envoy from Black Rock City

Tang Zhen shifted his gaze away from the cultivator skill option and casually looked through it for a while. He accidentally discovered another option called map.

"After he curiously opened it, Tang Zhen was surprised to find that there was a map near loucheng for sale!"

“Tang Zhen’s spirit jolted. This was a good thing. It would be of great help to him in understanding the surrounding terrain and forces. After carefully reading the instructions on it, Tang Zhen understood the rules for selling this map. ”

“This was also something with a level limit. For example, the Holy Dragon City was currently a level 1 city, so the maps that could be purchased were also only Level 1 maps. It could only show the actual area controlled by the Holy Dragon City, the location of the surrounding hundred kilometers of cities and the area controlled by them. Other than that, there was no other information. ”

“To put it bluntly, it was an almost blank map with the locations of a few buildings marked on it. ”

“If one wanted a more accurate map, such as the distribution of monsters, the strongholds of various forces in the area, the origin of known precious materials, and other information, one would have to pay a high amount of points to complete all the information. ”

“In other words, this map was only a simplified version. If you want to upgrade it to the complete or perfect version, you’d better pay your points! ”

“Looking at the introduction on the platform, Tang Zhen felt that it was so familiar. This fraudulent money-making mode was exactly the same as the application store. Could they have come from the same behind-the-scenes boss? ”

“After cursing in his heart, Tang Zhen still obediently paid the points and bought a nearly blank level one map. However, after buying the map, his points had already been exhausted. ”

“A yellow map that looked like it was made of sheepskin appeared. The first thing that entered Tang Zhen’s line of sight was the Holy Dragon City. However, when he saw the area controlled by the Holy Dragon City, he felt a pain in the ass. ”

“According to the markings on the map, the Holy Dragon City only controlled a small area around the Holy Dragon Valley. Even the large gravel plain in front of the valley was a land without an owner! ”

“Looking at the Black Rock City on the map, the area it controlled was more than ten times his own. The contrast was so obvious! ”

“On this map, apart from the Holy Dragon City and Black Rock City, Tang Zhen also discovered seven to eight other cities. Other than a second-level city, the rest were all first-level cities like the Holy Dragon City. ”

“As the only Level 4 city within a 100-kilometer radius, Black Rock City’s position as the Overlord was unquestionable. ”

Tang Zhen felt suspicious in his heart. Were these buildings all built by humans? were there buildings built by the foreign races among them?

“Tang Zhen slowly shifted his gaze to a nearby Level 1 city. After staring at it for a moment, some words suddenly popped up on the map. ”

“[ corpse clan’s Lou Cheng, Level 1. ] ”

Tang Zhen’s heart jumped. It was actually the corpse clan’s Lou Cheng!

“This damned spirit brain corpse King, it had used some unknown method to successfully build a city Tower, this was truly bad news!”

“Because of the appearance of the corpse race, the people in this area had no means of living. Now, this guy had actually built another city Tower. He was simply going to make it bigger and stronger, and claim to be the Overlord!”

“Tang Zhen had a deep understanding of the terror of the corpse race. They had the characteristic of not fearing death and a body that was not afraid of pain. There were also all sorts of strange corpse race creatures that had the ability to transform humans into the corpse race. When facing such monsters, the other races would not have any advantage in a battle.”

“Black Rock City, which had been beaten to the point where it could not even retaliate, was the best proof!”

“With so many advantages, the corpse race could plunder resources without restraint. If the corpse race’s Tower wanted to advance, it would be an extremely easy matter!”

“Since the corpse race would attack the Holy Dragon City sooner or later, they had to take action first.”

“After he left the cornerstone trading platform, Tang Zhen’s mood was a little heavy.”

“It seemed that he was still a little presumptuous. He had originally thought that the Holy Dragon City could obtain a short-term development opportunity by developing behind closed doors and not actively touching those outside forces. However, now it seemed that this was actually an ostrich mentality.”

“You don’t find trouble with others, but others will take the initiative to find you. Since trouble is inevitable, then it’s better to take the initiative and clean up this trouble completely!”

“Tang Zhen was thinking about how to cause some trouble for the spiritbrain corpse King, but he didn’t expect that the Holy Dragon city’s soldiers would find him just as he walked to the door.”

“““City Lord, Black Rock City has sent a cultivator battle squad. They have requested an audience with you. They said that they have something important to discuss with you.”””

The soldier’s words caused Tang Zhen to be stunned. Black Rock City actually took the initiative to send someone to look for him. They even said that they had something important to discuss with him. What were they planning?

“Many thoughts flashed through Tang Zhen’s mind, but his actions were not affected in the slightest. He walked to the square, rode a motorcycle, and quickly headed to the city wall.”

“After stepping on the city wall, Tang Zhen glanced down and saw a five-man cultivator battle team waiting below. Tang Zhen recognized the person in the lead. He was the young man named Xiao Rui.”

“After seeing Tang Zhen’s appearance, Xiao Rui, who was wearing a black cultivator’s uniform, cupped his hands together and greeted him. He then opened his mouth and said to Tang Zhen, city Lord, I’m an emissary from Black Rock City. I would like to send my regards to you on behalf of the city Lord. At the same time, I would like to invite you to join the alliance Army to fight against the corpse race!”

“Tang Zhen laughed hideously when he heard this. He looked down at little Rui and said, it seems like Black Rock City can’t hold on any longer. Now, he’s targeting our small cities. He didn’t even think about it. If Black Rock City can’t do anything to this group of undead, do we, small families, have the ability to fight against the undead? ” ”

“Xiao Rui’s expression turned serious when he heard this, and he replied in a neither humble nor overbearing manner, ” ”Governor Tang, you’re wrong. Black Rock City is only temporarily on the defensive. This is just a tactical strategy. ”

“I don’t know if you’ve ever thought that once my Black Rock City is destroyed, the next target of the corpse race will definitely be your Holy Dragon City. I’ve heard an old man say that ‘the teeth grow cold when the lips are gone’. I believe that with city Lord Tang’s talent and ability, he would have thought of this, right? ” ”

” ”Knowing or not is one thing, and doing it is another. Do you really think that we have no other way other than fighting the corpse clan? ” ”

“running away is not a solution. Once the entire world is occupied by the corpse race, where will we run to? ” ”

“I admit that the corpse race is very strong, but the endless wilderness is so vast that there must be more than one race stronger than the corpse race. You said that the corpse race will control the entire world, but I think you think too highly of that group of rotten meat that is neither human nor ghost! ”

“After Tang Zhen said this, he glanced at Xiao Rui and put on an expression that said, ” ”I won’t fall for your trap. Let’s see what you can do to me. ” ”

“How could there be such a good thing in the world? even if the undead race was his enemy, Black Rock City would still have to provide him with sufficient benefits if he wanted to send out his troops! ”

“Seeing Tang Zhen’s impervious attitude, Xiao Rui and the cultivators behind him felt very helpless. ”

“This time, they had followed the orders of the city Lord to contact the nearby towers. Almost none of the teams had completed the mission easily. The people who were usually respectful when they saw Black Rock City were now all acting arrogantly, as if they were certain that Black Rock City would not survive this disaster. ”

“As for whether their own city would follow in the footsteps of Black Rock City, these guys did not seem to care at all. After all, that was a story for another time. The current situation was that Black Rock City was the one begging them. ”

“Black Rock City was a big city. If they did not take this opportunity to reap some benefits and bite off a piece of meat from it, who knew if they would have another chance like this in the future! ”

?

Chapter 154: A failed negotiation and the enemy’s situation (1)

“Xiao Rui understood the meaning behind Tang Zhen’s words. He was telling his Black Rock City not to think about taking advantage of him. He could help him, but he had to give him some benefits! ”

“Although he had a bit of a friendship with Tang Zhen, that was only a matter between the two of them. It had nothing to do with the current situation. Moreover, from Xiao Rui’s point of view, he couldn’t wait for Black Rock City to be in trouble! ”

“Regarding the murder of his parents, he had already hated all the management of Black Rock City. If they had not colluded with each other, his parents would not have died, and he and his sister would not have to suffer so much, be bullied, and be looked down on. ”

“He had to avenge his parents ‘death. However, he was currently representing Black Rock City. He was discussing with Tang Zhen about how to send troops to resist the corpse clan. Therefore, he had to correct his attitude and not let the cultivators from Black Rock City behind him see through his plan. ”

“After thinking up to this point, Xiao Rui took a deep breath and said to Tang Zhen, ”“Let’s not beat around the bush. As long as Castellan Tang agrees to send troops, please let us know if you have any requests. We, Black Rock City, will consider them and do our best to fulfill them.”” ”

“When a cultivator from Black Rock City heard this, he was about to say something but was stopped by his companion. However, his eyes were filled with a trace of contempt and disdain as he looked at Tang Zhen. ”

“Tang Zhen was happy when he heard that. He looked at Xiao Rui and said with a smile, ”“Good, you’re indeed a person who does things efficiently. If you continue to waste time on nonsense like if the lips die, the teeth will be cold, then I’ll turn around and leave. ”

“Let’s just state our conditions. If it works, we’ll cooperate. If it doesn’t work, we’ll just drop it. It’s such a simple thing!”” ”

“As soon as Tang Zhen’s voice fell, a cultivator from Black Rock City jumped out from the city wall and pointed at Tang Zhen as he cursed, Who Do You Think You Are? I’ve given you face, but you don’t want it. I’m giving you face by asking you to send out your troops. How dare you raise conditions? do you believe that after Black Rock City has eliminated the undead race, your City Tower will be the first to be destroyed! ”

“As soon as he said that, the scene suddenly fell silent! ”

Xiao Rui was so angry that his teeth itched. He wished he could kill this bastard who claimed to be helping him but was actually monitoring him.

“Among all the cultivators in charge of the negotiations, there was one such person. Just because they were the juniors of the higher-ups in Black Rock City, they were all arrogant and would jump out from time to time to point their fingers. They were all useless trash who could not accomplish anything. ”

Who knew what the higher-ups of Black Rock City were thinking to make such a stupid decision? or could it be that they did not trust these emissaries and were afraid that they would betray the interests of Black Rock City?

“No matter how he looked at it, this was a bad move. It also meant that Black Rock City’s decline was not far away!”

“Xiao Rui’s face was as dark as water, and he stood in place without saying a word.”

“The other three cultivators from Black Rock City had looks of agreement on their faces. It was as if it was only right and proper for the Holy Dragon City to send out their troops, and it was outrageous for them to ask for benefits. The cultivator from Black Rock City, on the other hand, had a smug look on his face. He would look at Xiao Rui with disdain from time to time.”

Tang Zhen simply disdained to care about the mood of the few people below the city. He was already laughing crazily in his heart.

“F \* ck, there was actually such a fellow who could not see the situation clearly in this world. Tang Zhen was originally worried about finding an excuse to extort a sum of money. In the end, this fellow took the initiative to jump out. If he did not take the opportunity to raise the price, he would simply be letting down this weirdo.”

“Oh, I didn’t expect your Black Rock City to be so powerful. Fine, my Holy Dragon City shouldn’t overestimate its capabilities. Since you have the ability to destroy my Holy Dragon City, you can naturally exterminate the corpse race as well. Take care, everyone!”

Tang Zhen turned around to leave after he said these words with an expressionless face.

“““City Lord Tang, you haven’t told us your conditions yet,”” Xiao Rui quickly said.”

“Seeing this, the cultivator who had jumped out shouted again, ““ you’re actually so submissive to the castellan of a mere Level 1 city. You’ve completely disgraced our Black Rock City. Just you wait, I’ll report this to the castellan when we get back. You’ll be punished!”

“After he finished speaking, he turned his head and gave Tang Zhen a contemptuous smile.”

“Xiao Rui was overjoyed. He looked at the cultivator coldly and laughed coldly. Then, he turned around and left without hesitation. Seeing that the leader had left, the other cultivators from Black Rock City quickly chased after him.”

“Looking at the cultivators from Black Rock City who were gradually disappearing into the distance, Qian Long crossed his arms and sneered, “““This bunch of people really think they’re something. They’re really stupid. Anyone with a discerning eye can see that Black Rock City is in a life and death crisis this time.”

“Under such circumstances, there’s still a guy who can’t see the situation clearly. Such big words, I really don’t know if he has a brain or not?””

“As soon as Qian Long finished speaking, Tai Seng lit up a cigarette and took a deep puff, ““ just look at that guy’s appearance. He must be a junior of the higher-ups in Black Rock City. He’s in charge of monitoring the leader of the team. He’s a brainless idiot.”

“After a short pause, Tai Seng continued, ““ Black Rock City is becoming more and more dejected. They’re no longer popular with the people. Now, they’re even spying on their own people. Who else can they trust?””

“The young man who led the team was an understanding person and could see the situation clearly. Unfortunately, he was from Black Rock City. That place was not a place where you could rise to power just because you had the ability.”

“Don’t think that this matter has been messed up by the junior of the higher-ups, when we return to Black Rock City, that fellow will definitely be fine. On the other hand, the young man who led the team will inevitably be punished. Tsk tsk tsk, what a world this is!”

“Tang Zhen did not interrupt when he saw the mocking expressions on the faces of the two. He only waited for the two of them to finish speaking before he spoke with a somewhat serious tone,” “Even if the emissaries from Black Rock City didn’t come, I still planned to go to the nest of the undead race to take a look. You may not know this, but the undead race is actually monsters from another world. There were eight powerful corpse Kings in that world, and this corpse tide was triggered by a guy called the spirit brain corpse King.”

“This lingbrain Zombie King’s cultivation is at least at the Overlord tier and above, and the most powerful thing about this guy isn’t his cultivation, but his arrogance!”

“Tang Zhen pointed at his own head and looked at Qian Long and Tai Seng, who had shocked expressions, before continuing, although the intelligence of the corpse race is extremely simple, the corpse King is different. It is the king of the corpse race, so you must never underestimate those guys who look stupid, or you might suffer a big loss!”

“Tang Zhen slowly turned around and looked in the direction of the strange building of the corpse race. He softly said, not to mention that The Spiritual Brain corpse King has already successfully built a city with some unknown method. We can’t let our guard down against such a powerful enemy!”

“““The corpse race actually constructed a city!”””

“Tai Seng and his partner were shocked by Tang Zhen’s words. The two of them weren’t fools, so they naturally knew what this meant.”

“The corpse race was originally that kind of abnormal existence. Now that they had a base, it would be difficult for them not to grow. As the corpse race grew stronger, the living space of the human race would also become smaller and smaller.”

“When they thought of the severity of this matter, the two of them immediately fell silent, and their brows could not help but furrow.”

“Tang Zhen laughed softly as he looked at the worried expressions of the two people,” “You don’t have to worry too much. Everything in the world is bound to counter each other. The seemingly powerful corpse clan must have an irresistible natural enemy. Since we can’t beat them head-on, we’ll try to take a roundabout route. Who knows, we might get unexpected results!”

“After he finished speaking, Tang Zhen gave a mysterious smile. He ignored the two of them and slowly walked down the city wall.”

“that’s right, if the emissaries from Black Rock City come again, tell them that without twenty thousand Level 2 brains, don’t expect Holy Dragon City to send troops!”

Tang Zhen's voice faintly sounded. Thousand Dragon Tai Seng looked at each other and laughed in unison.

"If the Holy Dragon City wanted to advance to Rank 2, they would need to sacrifice 20000 Rank 2 brains. It seemed that the Lord Castellan really wanted to slaughter the Black Rock City!"

?

"Chapter 155: The mother tree runs out of food, and the policewoman in black!"

"After Tang Zhen came down from the city wall, he walked around the sacred Dragon Valley one by one. Only then did he slowly walk back to his room and sit on a chair as he looked around."

"Looking at the room that was less than forty square meters, Tang Zhen felt a little sullen as the city Lord. As the city Lord, he could only get such a small room. This also showed that the Holy Dragon city's building area was still too small."

"When Blackstone sends the brain Pearl over, I'll upgrade the tower to Level 2. First, I'll be able to solve the problem of accommodation. Second, I'll be able to gather the nearby monsters and clear them all. This will not only increase the safety of the tower, but also provide more food for the mother tree, which is running out of food. Two birds with one stone."

Tang Zhen had only just found out that the mother tree's absorption ability was so strong. The remains of the houndhead men were completely absorbed in just a few days.

"At this moment, among the piles of white bones, there were already colorful flowers growing all over, looking very beautiful."

"However, that would mean that the mother tree would be out of food."

"Although the mother tree could absorb nutrients from the soil, sunlight, and air, its production speed would also be severely affected."

"Previously, under the nourishment of sufficient flesh and blood, the diameter of the mother tree's trunk had increased by more than a meter. However, without the nourishment of flesh and blood, it would take at least a hundred years to increase the same size!"

"The contrast was so obvious that Tang Zhen had no choice but to think of ways to find food for this big eater. As for whether the mother tree was willing or not, Tang Zhen did not have the mood to care."

"If he had that 'moon spring water', Tang Zhen wouldn't mind watering the mother tree and pacifying that tsundere 'guy. But the problem was that he didn't have it at all. He didn't even know what it looked like!"

"There might be a large number of monsters on the third underground floor of the sanctuary, which could be used as nourishment for the mother tree, but that was only a guess. Before the door was opened, no one knew what the hell was hidden below!"

“Tang Zhen was prepared to clean up the third underground floor in the next two days. The earlier he finished cleaning, the earlier he would be able to obtain the building foundation of the underground shelter and build an underground city that truly belonged to him. ”

“When he thought about the huge area of the underground shelter, Tang Zhen felt that it was worth it no matter what he did. Once it was successfully built, the Holy Dragon City would no longer have to worry about the lack of housing. ”

“After deciding on what to do in the next few days, Tang Zhen got up and changed his clothes. He was ready to go to the original world to purchase some things to fill the gap in the cornerstone trading platform. ”

It was time for the stores in the Holy Dragon City to restock. Murong Zi Yan had already told him about this a few days ago.

“The teleportation was activated, and Tang Zhen’s figure appeared on the dock. After he saw that there was no one around, he removed the [ quantum invisibility light screen ] and walked out. ”

“Who knew that he had only taken a few steps when Tang Zhen saw a young man running over from the corner with a flustered expression. If it wasn’t for Tang Zhen’s agility, he would have collided with him. ”

“”Hey, friend, watch where you’re going!”” ”

Tang Zhen spat in the Asian Alliance language and no longer paid attention to the other party.

“When that person heard Tang Zhen speaking in the language of the Asian Alliance, his eyes immediately lit up. He also spoke to Tang Zhen in the language of the Asian Alliance, brother, we’re all from the Asian Alliance. Help me stop that group of people behind me. They’re trying to harm me! ”

“Tang Zhen was startled when he heard this. He turned his head and looked in the direction that the man had pointed. Indeed, he discovered a group of people pouncing over. All of them had unkind expressions. ”

“”Explain yourself. Why should I help you?”” ”

“Tang Zhen was not a good person. Even if he wanted to help someone, he had to make things clear. ”

The man revealed an anxious expression when he heard this. He no longer paid any attention to Tang Zhen. He turned around and began to run with all his might. His figure quickly disappeared in the middle of those shipping containers.

Tang Zhen looked at the back of the man. His eyes moved slightly before he turned around and continued to walk forward.

“The panting group of people who rushed over were divided into two groups. One group continued to chase while the other group stopped Tang Zhen. A young man in a black suit in the crowd pulled Tang Zhen and asked in a stiff tone, “”Who are you? what did that person say to you?”” ”

“Tang Zhen turned on the [ universal language translator ] and naturally could understand the other party’s question. However, the other party’s attitude made him very unhappy. He squinted at The Man

in the Black Suit who was asking him a question and smacked his hand away. He coldly said, "Mind your attitude. Why should I answer your question?"

Tang Zhen used kimchi language. His pronunciation was clear and there were no flaws.

"The expression of The Man in the Black Suit who was pushed away by Tang Zhen changed. He was about to step forward to say something when he was pulled back by someone. At the same time, a woman walked out of the group and walked in front of Tang Zhen with small steps."

"The woman was about 1.68 meters tall. She had short, dark blue hair and a fair and delicate face. She wore flat leather shoes and a black suit. Her figure was very impressive. She was a beauty in every way."

"Sir, we're chasing after a dangerous man, the man who stopped you just now. Please tell me what he said. It's very important to us, so please cooperate!"

"After all that, it turned out to be a police officer from the pickle nation. No wonder he was so arrogant!"

"Hearing the policewoman's words, Tang Zhen was much more satisfied. He said that the person asked him to help stop the police, but he didn't agree."

"That was indeed the case, but Tang Zhen didn't mention that they were both from the Asian Alliance."

"Tang Zhen's words obviously didn't satisfy these kimchi country's police officers. They instinctively felt that Tang Zhen must be hiding something, so the policewoman asked again, "Then, Sir, may I ask if that person gave you anything?"

"Tang Zhen spread his hands and shrugged, indicating that he did not."

"The few of them had a disappointed expression and a trace of unwillingness on their faces. Tang Zhen saw it in his eyes and did not say anything. He was about to turn around and leave, but he did not expect that the female police officer would stop him."

"I've already said what I need to say. Why are you still stopping me? are you crazy?"

Tang Zhen frowned slightly and asked in a cold voice.

"The policewoman wasn't angry and only extended her hand to Tang Zhen, please show us your identification so that we can contact you in the future. This is just a routine."

"Tang Zhen touched his pocket and revealed a regretful expression. "I'm sorry, I didn't bring it today!"

"The female police officer smiled slightly when she heard this. Her nose wrinkled slightly as she said to Tang Zhen, it's okay. Just tell us your name. We'll find out after a quick check."

"Hehe, my name is Qianqian, Zhao Ritian!"

Tang Zhen cursed in his heart. This group of damn kimchi country's police officers are going to be exposed this time!

“A man holding a mobile device entered a search on the screen. A moment later, he showed a strange expression and lowered his head to say something to the female police officer. ”

“Tang Zhen’s hearing was abnormal. He heard the contents of the whisper without missing a single word.”“Don’t believe him, he’s talking nonsense!”“ ”

The corner of Tang Zhen’s mouth twitched. He made preparations to retreat. Just these few people in front of him did not have the qualifications to make him stay.

“After the female police officer heard her colleague’s whisper, she still looked at Tang Zhen without changing her expression. At the same time, she extended her hand and said,”“Sorry to disturb you, but thank you for your cooperation.”“ ”

“Under normal circumstances, any normal man would be embarrassed to reject such a beautiful female police officer’s handshake. Tang Zhen naturally reached out and grabbed the other party’s soft and boneless hand. ”

No one noticed the sneer that flashed past Tang Zhen’s eyes.

“The moment the two of them shook hands, the female police officer’s expression changed. Her slender palm suddenly exerted force and tightly clasped Zhen Tang’s wrist. At the same time, she twisted the joint in an attempt to subdue Zhen Tang. ”

“At this moment, the policewoman felt like she was holding a bronze statue. No matter how hard she tried, she couldn’t make the other party’s palm move. ”

He raised his head in shock and found the man who called himself ‘Zhao Ritian’ looking at him with a mocking expression.

“Damn it, he already knew that I was going to subdue him, but he didn’t Dodge. So he wanted to see me make a fool of myself! ”

“The female police officer was furious and shouted at her colleagues, “” what are you waiting for? quickly catch him. There’s definitely something wrong with this person! ”

“Upon hearing the policewoman’s angry order, these police officers realized that the situation was not good. They rushed to Tang Zhen, who was close at hand, in an attempt to subdue him. ”

“Unfortunately, they didn’t know that even if ten times more people came, it would still be impossible to capture Tang Zhen. ”

?

Chapter 156: New application and super thief

“The Man in the Black Suit who had pulled Tang Zhen earlier was the first to pounce over. At the same time, he threw a hook punch at Tang Zhen’s lower ribs with great force. It could be seen that he harbored a grudge against Tang Zhen and wanted to take the opportunity to use underhanded means. ”

“Unfortunately, in front of Tang Zhen, his little plan did not have the possibility of succeeding. ”

“Tang Zhen did not move. He raised his hand and slapped the face of The Man in the Black Suit, causing him to stagger. Blood immediately flowed out from the corner of his mouth and half of his face immediately swelled up.”

“This was still the result of Tang Zhen showing mercy. Otherwise, if he used all his strength to slap out, the head of The Man in the Black Suit might fly up!”

“The rest of the people didn’t get any advantage either. Tang Zhen used one hand to control the female police officer. After a round of punches and kicks, the police officers who came forward were all knocked to the ground as they cried out in pain.”

“When the female police officer, who was restrained by Tang Zhen, saw that Tang Zhen had unleashed his divine might and put all her colleagues down, she could not help but feel anxious in her heart. Her other hand reached for her waist.”

“Seeing this, Tang Zhen gently pulled her and the female police officer fell into his arms. Before she could struggle, Tang Zhen locked her neck and she could no longer move.”

“At the same time, she felt a big hand reach for her waist, and her gun fell into the man’s hand.”

“The policewoman was shocked. Once a gun fell into the hands of such a skilled person, the power would increase a lot. When she thought of the possible serious consequences, the policewoman prayed in her heart that this person did not know how to use a gun!”

“Unfortunately, the female police officer’s prayer was destined to fall through, because not only did Tang Zhen know how to use a gun, but he also used it very well!”

“When the police officers who were knocked down by Zhen Tang saw that Zhen Tang had subdued the policewoman and pulled out her gun at the same time, their expressions changed greatly as they took out their guns and aimed at Zhen Tang one after another.”

“Tang Zhen did not show the slightest fear despite being aimed at by five or six black muzzles. Instead, he smiled softly and pointed the muzzles at the female police officer’s head. He had a relaxed expression as he pushed the safety off. Only then did he tilt his head and look at the police officers who were acting as if they were facing a great enemy.”

“““Let go of officer han, or we’ll shoot!”””

“A middle-aged man shouted at Zhen Tang. The hand holding the gun was very steady. It could be seen that he was a wily old man. He could still remain calm in the face of an unexpected situation, unlike the other young police officers whose hands were already shaking.”

“In fact, Tang Zhen was also very helpless in his heart. He had been dragged into this matter for no reason, causing him to be targeted by the police as soon as he landed in the kimchi country. This was very unfavorable to his future actions.”

“Forget it, I’d better not go too far, or I’ll have to run!”

“After thinking up to this point, Tang Zhen immediately activated the [ all-purpose electronic kit ] and began to hack into the kimchi nation’s network to retrieve the household registration information.”

“Tang Zhen quickly searched for a man who looked very similar to him through his thoughts and downloaded all of his information. At the same time, Tang Zhen unexpectedly discovered that this guy was actually a mental patient and had disappeared three years ago.”

Tang Zhen was happy. The heavens were really helping him!

“After obtaining all the information on this guy, Tang Zhen ignored the police officers who were still holding their guns and confronting each other. He quickly opened the application store with his mind and downloaded an application called [ virtual reality simulator ]. ”

“[ virtual reality simulator: it can project an item through a projection. Through special sound, light, and touch, it can stimulate and mislead the person who comes into contact with it to achieve the effect of passing off a fake as the real thing. Download cost: 2000 gold coins. (Friendly reminder: the five senses of the person in contact with it exceed the standard of ordinary people. This application is invalid, and it can not block the scanning of professional equipment.) ”

“This was an application of black technology in the life and entertainment options. It could be used to deceive ordinary people in the original world, but if it was used to deceive cultivators, it would be seen through with one look! ”

“No matter what, it was enough to fool people! ”

Tang Zhen selected that person’s id and activated the application at the same time.

“Under the gaze of those armed police officers, Tang Zhen put down the pistol and slowly took out an id from his pocket. Then, he waved it in front of the female police officer and the police officers. ”

“No one could tell that it was an id that did not exist at all, because even if you touched it with your hand, you would be mistaken for something real due to the special interference of the application. ”

“officer, this is my id. Do you think there’s any problem? ” ”

Tang Zhen stuffed the ID into the female police officer’s hand and slowly released the arm that was holding her neck.

“In a flash, the female police officer escaped from Tang Zhen’s embrace. At the same time, she glanced at her identification card. With her professional eyes, she confirmed that this was a genuine identification card that was not forged. ”

“““There’s no problem with the ID, but why didn’t you take it out just now?” ” ”

The female police officer asked Tang Zhen with a cold face.

“““I was afraid that you would bring me back to that place, so I didn’t dare to take it out!” ” ”

“Tang Zhen explained with an innocent face. After he finished speaking, he feigned vigilance as he glanced at the police officers who were still holding their guns. His body began to slowly retreat. He had already achieved his goal and successfully hid his identity. He would just let these police officers investigate that fellow using his identification. ”

“Facing a patient who had been missing for three years, he believed that they wouldn’t be able to find out anything. When the police officers focused their attention on this guy, he could get away safely.”

“””Oh right, give me back my id!”” ”

“Tang Zhen shouted at the female police officer. After the other party handed over his id, he pretended to take it and put it in his pocket. Then, he slowly took a few steps back and threw the gun in his hand at the female police officer.”

“At the same time when the female police officer received the gun, Tang Zhen flashed toward the gap in the container beside him and activated the [ quantum stealth light screen ] at the same time. His entire person disappeared without a trace.”

“After catching the gun that was thrown over, the female police officer’s heart relaxed. However, her actions did not stop in the slightest. She immediately pounced toward the gap that Tang Zhen had entered through, only to discover that the other party had already disappeared without a trace.”

“””Damn it!”” ”

“The female police officer kicked the container angrily, then said to the police officers who had surrounded her, “””surround this area immediately. He shouldn’t have gone far. Also, send a message to the headquarters and ask them to investigate a man named ‘Jin Mingzhe’. He’s born in the year XXX and his household registration is in Xuanji, XX city, XX road.”

“Not to mention the flustered and exasperated female police officer and her subordinates, after Tang Zhen activated the [ quantum stealth light screen ], he began to wander around the container area, wanting to dispel the trace of depression in his heart.”

“It was just because of a sentence that caused a lot of trouble. It made Tang Zhen remember the guy who framed him in his heart. If they met in the future, he must beat him up.”

It was also because of this incident that the kimchi country’s police officers left a very bad impression on Tang Zhen. He was eager to find more trouble for them and make them work overtime every night without rest.

Tang Zhen’s heart stirred as he looked at the countless containers piled up beside him. He chuckled softly and walked to a container that was located in a hidden location.

“After putting on a pair of gloves, he removed the lock and unlocked the container. Then, he got in.”

“Without even looking at what was inside the box, Tang Zhen waved his hand and kept it. Then, he activated the teleportation and returned to the Holy Dragon City.”

“He quickly walked to the empty space in front of the building and placed his things there. After instructing Tyson and the others not to move around, Tang Zhen teleported back to his original world and quietly walked out of the empty container.”

“When he saw that no one was paying attention to him, Tang Zhen swaggered to the next container and repeated his previous action, emptying the container again.”

“As he moved, Tang Zhen became addicted to it. The things in these boxes were too rich. The volume of dozens of cubic meters led to a sufficient number of goods. Among them, there were many things that Tang Zhen wanted to buy but didn’t. This time, he actually gathered all of them, and he was rich!”

“Tang Zhen, who had been busy for a long time and successfully played the role of a shocking thief, patted the dust off his hands and returned to the Holy Dragon City to check his harvest with satisfaction.”

“By the time they found out that the containers had been cleaned up and there were no traces left, the kimchi police officers would probably go crazy with work!”

?

Chapter 157: Taking inventory of the harvest and opening the third underground floor

“In the Holy Dragon City square, all kinds of goods were piled up like mountains!”

“A large group of residents were pointing at the goods that were randomly piled up, their eyes full of curiosity and excitement. They had long known about the magical ability of the city Lord, but it was the first time they had seen such a large-scale transportation of goods.”

“Everyone immediately stopped their conversation after seeing Tang Zhen walk over. After which, they looked at him without blinking. There was a trace of anticipation in their eyes.”

How could Tang Zhen not understand their thoughts? it was nothing more than there being something that moved their hearts. They wanted to see if the city Lord could give one or two to everyone.

“Ziyan, take some people and check these things, then put them all into the warehouse. If anyone who doesn’t know what they’re used for comes to ask me, Tai Seng, don’t just stand there and do nothing. Ask your people to go up and help. After the checking is done, every resident can pick an item that they like from the inside.”

Tang Zhen’s voice had just sounded when everyone cheered. They quickly surrounded him and opened the boxes one by one to count.

Tang Zhen chuckled as he looked at the happy faces of the residents who were busy working. He then called Tai Seng and Qian Long to the side and started discussing how to clean up the third floor of the shelter.

“The three of them walked for a distance and sat down on a large rock. Tang Zhen took out two packs of cigarettes and threw them to the two of them. He then said, the last time we cleared the second floor, our actions were a little too rash. This could easily cause unnecessary casualties. The Holy Dragon city’s Foundation is weak now, and I’ll feel heartache for a long time if one of them dies. So, this time, we have to be more careful when clearing the third underground floor.”

“The two of them deeply agreed when they heard this. If it wasn’t for Tang Zhen’s display of godly might, the Holy Dragon city’s soldiers who entered the second underground floor would probably be reduced to a few. The two of them had a deep understanding of the power of the bladed puppets.”

“After seeing the expressions of the two, Tang Zhen continued, that’s why I’m planning to go down by myself. After I’m sure there’s no danger, I’ll inform you to bring your men down. That’s the safest way. ”

“Upon hearing Tang Zhen’s words, the two of them fell silent. Qian Long hesitated for a moment before asking, ”City Lord, we all know that you are very strong. However, you can’t always be the one to take on all the dangers, right? if that’s the case, what’s the point of having us? ” ”

“Tai Seng who was standing at the side nodded his head, clearly agreeing with Qian Long’s words. ”

“Before the two of them joined the Holy Dragon City, they were not ordinary people. At least, in Tang Zhen’s opinion, as long as there were suitable conditions, the two of them could do great things. It was only after joining the Holy Dragon City that Tang Zhen’s radiance was too dazzling that it overshadowed the radiance of the other two. ”

How many of those who could survive in the endless wilderness were simple?

“Now, under the leadership of the two of them, the Holy Dragon City was operating very well. Tang Zhen, the head shopkeeper, also had less to worry about. He only needed to focus on providing logistics and commanding during the war. ”

“It was a pity that such people would not be willing to be ordinary. Hiding behind danger and watching was not their style. Even though this would be very safe, if the two of them were given a choice, they would definitely choose to shed their blood in the shadows of the blade without hesitation. ”

“Patting the shoulders of the two, Tang Zhen pointed at the sky above his head. He then pointed at the smiling faces of the Holy Dragon city’s residents and said, ”Don’t you think the sky is very blue and the Holy Dragon Valley is very beautiful? ” ”

“Tang Zhen continued as he looked at the two people who did not understand the situation, ”No matter what the two of you think, I’m sure that the residents of Holy Dragon City will think the same way, because this place can provide them with shelter and a life without worry. ”

“However, it was easy to wake up from a beautiful dream. If he wanted to finish this dream without being disturbed, he must have a stable sleeping environment. ”

“It’s the same for the Holy Dragon City. It’s still very weak and can’t withstand too many storms. That’s why I’m protecting it with all my might, blocking any wind and rain that can hurt it, just so that it can grow steadily. ”

“It’s the same for Holy Dragon City and you all. When you have enough strength to face the storms of the endless wilderness one day, I’ll naturally hide behind the scenes. ”

You’re my blade and shield. I look forward to the day when I can see you lead millions of soldiers and sweep across the world. I’ll use the blood of the non-humankind to mark the glory of our human race!

“So before that, what you need to do is to raise your cultivation and take care of your subordinates. Don’t die so easily. I don’t want to wait until Holy Dragon city’s name is known throughout the world, without the two of you by my side! ” ”

“After Tang Zhen finished speaking with a smile, he turned around and walked towards the mother tree. He did not even turn his head as he continued, remember to go back and pack your equipment. We’ll start clearing the third underground floor tomorrow morning!”

.....

“Early the next morning, Tai Seng and Qian Long brought along their fully armed men and followed Tang Zhen into the depths of the second underground floor. Following Tang Zhen’s instructions, they were to guard the entrance of the third underground floor and wait for his orders.”

“Tang Zhen, who was wearing a black cloak and light armor, stretched out his hand and opened the door to the third underground floor. He then strode in.”

“Tang Zhen, who had activated the [ all-rounded digital battle interface ], quietly walked through the passage of the third underground floor and officially entered the interior of the third underground floor.”

“Following the scanning of the application, all kinds of data rapidly flowed in front of his eyes. At the same time, a three-dimensional building image appeared on the right side of his field of vision. With the map view, Tang Zhen had a preliminary understanding of the third underground floor.”

“It was not a residential area, but a complex of buildings that looked like a shopping mall. There were five main streets, and on both sides of each Main Street were connected shops, occupying the entire space of the three underground floors.”

“For the time being, Tang Zhen was unable to find the lighting control system of the entire third underground floor. He could only fumble his way forward. With the assistance of the [ omnipotent digitized combat interface ], Tang Zhen did not need to worry about not being able to see the scenery in the dark.”

“However, up until now, Tang Zhen had yet to see the shadow of a monster. This caused him to feel a little suspicious in his heart. There must be a demon behind this abnormal situation. Tang Zhen did not dare to lower his guard.”

“With the machine gun in his hand, Tang Zhen carefully took a few steps forward. He still did not discover any abnormalities. The uneasiness in his heart became increasingly dense. He could not help but stop his footsteps and once again carefully looked around.”

“There was still no abnormality in the surroundings. There was also nothing wrong with the application. However, Tang Zhen’s extremely sensitive senses reminded him that something was spying on him. That kind of feeling that made one’s scalp numb could not be faked.”

“””Damn it, what the hell is that?”” ”

“Tang Zhen secretly cursed in his heart. He inhaled a deep breath of air and finally calmed his mind. He once again searched for the source of the uneasiness. When his gaze inadvertently swept past a shop, a blurry figure suddenly flashed past.”

“Tang Zhen only felt his hair stand on end. At the same time, he turned his gun, aimed at the Shadow’s position, and pulled the trigger.”

“In the dark underground third floor, the unique sound of guns firing immediately rang out. Streams of light flashed and went straight to the moving shadow. At the same time, a painful scream suddenly sounded.”

?

Chapter 158: ! strange monster

“Tang Zhen’s shot had clearly hit the target. However, other than an ear-piercing scream, there was no other movement.”

“Tang Zhen, who had a deep understanding of the might of a machine gun, could not help but feel a little nervous. It was obvious that the thing that was spying on him had not suffered too much damage. It was most likely hiding in some dark corner and preparing to launch a sneak attack on him.”

This thought had just appeared when Tang Zhen felt a Gale coming from behind him. The target seemed to be heading straight for his back.

“Tang Zhen, who sensed the danger, quickly dodged. Soon after, he heard a “Swish Swish” sound as a few golden blades brushed past his body and deeply embedded themselves into the wall not far away.”

“Looking at the hilt that was still trembling, Tang Zhen angrily shouted. Several grenades were thrown out by him continuously, and the explosion sounded one after another.”

“Tang Zhen could only see a slender figure swiftly flash past amidst the flashing light and shadow of the explosion. Due to the speed being too fast, Tang Zhen could only vaguely see that it was a human-shaped object. It was wearing clothes that were sparkling with golden light.”

“At the same time, it was wearing a strange Golden Mask!”

“Although he had only taken a glance, Tang Zhen was already able to confirm that this was a monster with a cultivation that was not the slightest bit weaker than his own. The wariness in his heart multiplied.”

The only thing that made Tang Zhen feel abnormal was that his map was unable to show the figure of this monster. What method did it use to achieve this?

“No matter what, he had to deal with this monster first!”

“When Tang Zhen thought of this, he simply put away the machine gun in his hand. With a shake of his hand, he took out the purple electric short sword and pounced straight at the spot where the monster had disappeared.”

“This was a shop that sold clothes. The walls and floor were scattered with clothes. Perhaps the glittergold race’s aesthetic concept was more inclined to gold, the clothes in this shop were mainly golden, occasionally mixed with dark gold fabric.”

“The fabric and metal matched perfectly, giving people a different kind of visual stimulation, looking very beautiful.”

“Similar to the original world, there were mannequins in the shops here. However, when Tang Zhen’s gaze swept across the rows of mannequins, the feeling that made his scalp numb appeared once again.”

“These models were made with the women of the flashing gold tribe as samples. They looked very tall and slender, wearing golden clothes and strange golden masks on their faces.”

It was as if the monster he had just seen was dressed in this way!

Tang Zhen quietly swallowed a mouthful of saliva. He was now certain that the monster was hiding among the pile of mannequins and was observing him through the ice-cold mask.

“After realizing this, Tang Zhen didn’t dare to move. Instead, he carefully looked at these models and tried to distinguish them.”

“However, these mannequins looked almost exactly the same except for the slightly different styles of clothes. Tang Zhen looked around and didn’t see which one was the hidden monster.”

What should he do?

Tang Zhen tightly held the purple lightning short sword. The muscles of his entire body tensed up as he guarded against the monster’s sneak attack while thinking of a countermeasure.

“Suddenly, a flash of inspiration appeared in Tang Zhen’s mind as he hurriedly switched to the map’s perspective.”

“Since the monster couldn’t appear on the map, it was currently hiding among a bunch of mannequins, which directly exposed it. Tang Zhen only needed to compare his normal vision with the map’s perspective to find the monster.”

“Sure enough, as he had expected, through the map view, Tang Zhen found that there was an obvious gap in the row of models to his left. In his normal field of vision, there was a graceful human model standing there!”

“It’s this, it can’t be wrong!”

“Tang Zhen’s expression did not change as his gaze swept past its body. It was as if he did not discover anything unusual. However, a green light flashed on his finger. A slender chain was like a poisonous flood Dragon that had come out of its hole as it headed straight for the model.”

“At the same time, with a thought, Tang Zhen opened the [ argon magnesium explosion flash ] application that he had rarely used since he downloaded it!”

“An incomparably dazzling light burst out from the darkness. The [ all-around digital battle interface ] immediately filtered the glaring light. Tang Zhen clearly saw that the monster tried to move to avoid the chain when it was halfway through its flight. However, the sudden burst of bright light caused it to be flustered.”

“After living in a dark environment for a long time, the sudden exposure to sunlight would cause great harm, not to mention the light emitted by the [ Argent magnesium flash ]. Its brightness far exceeded the sun’s light, and could instantly burn the retina, causing permanent blindness!”

It was unknown how long the monster had stayed in the dark Third-floor basement. Its eyes had already completely adapted to the dark environment. Tang Zhen's method was extremely effective and the monster had already fallen for it!

"Another ear-piercing screech rang out, causing Tang Zhen's eardrums to hurt. The monster covered its eyes with both hands as its body was firmly bound by the green chains. It was continuously writhing on the ground. The chains that were binding it would occasionally stretch out, but it was unable to break them!"

"Tang Zhen did not dare to let his guard down as he watched the monster struggling desperately after being tied up. He held the purple lightning short sword in his hand and carefully approached it, preparing to find an opportunity to finish off this monster."

"The monster that was struggling did not seem to notice Tang Zhen's approach as it continued to struggle. Tang Zhen seized the opportunity and raised the purple lightning short sword, ruthlessly stabbing it into the back of the monster."

""A few meters!"" "

"The purple lightning short sword had just touched the monster's back when a clear and painful sound suddenly sounded. This caused Tang Zhen to fiercely pull back the purple lightning short sword that was about to pierce into the monster's body. With a soft ""Yi"" sound, he took two steps back and silently looked at the monster."

"From the size of the monster, it was obviously a female transformation of the flashing gold tribe. Its strength was slightly higher than Tang Zhen's. Other than that, there were no other abnormalities. However, the sound that came from the monster's mouth just now made Tang Zhen confirm that this monster was not simple!"

"According to Tang Zhen's knowledge, monsters would only have the ability to talk after their strength reached the Lord tier. This was because their intelligence had already begun to slowly recover. The higher the level of the monster, the higher the intelligence it possessed."

"The monster under his feet only had a level four cultivation base, but it was able to talk to people. This was very abnormal. It was also because of this reason that Tang Zhen did not kill it."

"After activating the [ universal language translator ], Tang Zhen kicked the monster and said in a deep voice, ""What do you want to say?"" "

"After the monster that had been kicked heard Tang Zhen's question, it opened its mouth and spoke in that strange language. However, Tang Zhen, who had turned on the [ universal language translator ], understood the content of its words."

""Why did you break into my home and even hurt my eyes?"" "

"When Tang Zhen heard this, he thought in his heart that this was indeed the case. This was a monster that possessed intelligence. Fortunately, he did not kill it. Otherwise, he would have suffered a great loss."

“The moment he thought that it came from the flashing gold race, Tang Zhen was secretly happy. Perhaps he could get all the information about the sanctuary from it!”

“your sanctuary appeared under my building. I haven’t held you responsible yet, but you’re blaming me. What kind of logic is that?”

“Tang Zhen acted like a scoundrel, bullying the other party for not understanding the outside world’s information as he retorted with conviction.”

“Tang Zhen had used the translated language of the flashing gold race, so the monster understood his question. After it stopped struggling, it turned its body around with difficulty and faced Tang Zhen.”

“Although he was certain that this monster was blind, Tang Zhen still felt a burning gaze coming from behind the mask. It was as though it wanted to see through him. This kind of feeling made Tang Zhen feel very uncomfortable.”

“you’re not a member of the flashing gold tribe, but you can speak our language. This is really amazing. Can you tell me where your tower is? is this still the Golden Rock world?”

“After saying this, the monster faced Tang Zhen without moving and waited for his reply.”

Chapter 159: The Queen of the flashing gold race (1)

It spoke clearly and its tone was as calm as water. It seemed to not care that Tang Zhen had blinded its eyes. This was not a monster that was easy to deal with!

“After this thought flashed through Tang Zhen’s heart, he gently squatted down and said to the flashing gold clan monster, “My tower is right above this shelter, and this is definitely not the Golden Rock world you’re talking about!”

“The monster nodded and said in a slightly low voice, “Ever since I’ve regained my consciousness, I’ve had a vague feeling that this is no longer the world I’m familiar with. I wanted to go out and take a look, but I discovered that there seemed to be an invisible force restraining me, making it impossible for me to leave the shelter.”

“Tang Zhen replied, “you naturally can’t leave because your current identity is a monster from the wild building. You are bound by the laws of this world. When the foundation of this sanctuary is taken away, this sanctuary and the monsters inside will completely disappear, including you.”

“Tang Zhen’s words caused the monster’s body to tremble slightly. It twisted its body and barely managed to sit up. It continued to ask, “I can also vaguely sense the rules you mentioned, but I’m not willing to accept it.”

“In order to avoid the calamity, our flashing gold race exhausted all our resources to build this underground shelter, but who would have thought that the calamity’s power was far more than we thought? even the sturdy shelter couldn’t withstand it.”

“it’s an invisible demon. We can’t see it, but it’s everywhere. My clansmen died one after another in front of me, but I was helpless.”

“Later on, I couldn’t withstand the attack of that strange power and the power in my body slowly flowed out. When I was about to die, perhaps it was the blessing of the ancestors of the flashing gold tribe that I actually retained a trace of consciousness and finally became this half-human, half-ghost appearance.”

“I didn’t want the flashing gold tribe to disappear from the world, so I tried everything I could to restore my tribesmen from their monster state. However, after nearly a hundred years, I still couldn’t do it.”

“In the end, I had to give up on this idea and could only drive them all to the top of the sanctuary, hoping that one day I would find a way to save them and then release them.”” ”

“Tang Zhen nodded from time to time as he listened to the monster’s description. After which, he suddenly asked, I still don’t know. What’s your identity in the flashing gold tribe? ”” ”

“The monster smiled bitterly and shook his head. I’m the only survivor of the Golden glittergold race’s royal family. If the catastrophe didn’t come, I would have become the Queen of the Golden glittergold race!”

it’s the Queen of the flashing gold race. I’ve been disrespectful!

“Tang Zhen nodded in satisfaction. He looked at the Queen of the flashing gold race and said, as you said, you can control the glittergold race to turn into monsters? ”” ”

”””I can control some of the lower level monsters, but I can only control some of the more powerful ones for a short period of time.”” ”

”””If I have a way to let you see the light of day again and change into a normal body, what benefits can I get?”” ”

“The Queen of the flashing gold race was stunned. After a moment of hesitation, she said, ”” if you can help me return to my normal life, I can give you all the treasures of the flashing gold race. What do you think? ”” ”

“Tang Zhen’s face was filled with disdain as he pointed at the chains on the Queen of the flashing gold race. now that the entire shelter is in my hands, the treasures you mentioned will be mine sooner or later. Don’t you think it’s ridiculous to use my things to do me a favor? ”” ”

“you’re shameless. This is the territory of the flashing gold race. Since when did it belong to you? ”” ”

The Queen of the flashing gold race asked indignantly.

“don’t forget, the flashing gold tribe no longer exists, and the sanctuary has become an ownerless object. Since it’s an ownerless object, and it appeared under my tower, it naturally belongs to me.”

“As for your existence, I can completely ignore it, right?”” ”

“When Tang Zhen said this, he smiled and glanced at the Queen of the flashing gold race, waiting for her answer.”

“The Queen of the flashing gold race was silent for a long time before she raised her head and said, “““It seems that I’m overthinking it. I really don’t have the right to talk about conditions now, but looking at your attitude, I think you have something to ask of me. I can agree to it, but I can also refuse it. ”

“Since it’s a deal, you have to at least ensure fairness, so tell me your conditions.”” ”

“Tang Zhen dusted his hands and stood up from the ground. He said to the Queen of the flashing gold race, ““ I can help you return to normal, and I can also help the glittergold race people who have intelligence like you to see the light of day again. However, the glittergold race people who have turned into monsters must be killed, and the rest of them must become the residents of my city. At the same time, I will teach you all the technology of your glittergold race without any reservation! ”

“The Queen of the flashing gold race chuckled. Her voice was pleasant and she said in a mocking tone, “““You have a big appetite, but the conditions are not unacceptable. After all, after they become monsters, they are no longer considered glittergold people, and the possibility of them returning to normal is almost zero. ”

“I’m just curious, where did you get your confidence from? aren’t you afraid that we’ll hide some important things and then wait for an opportunity to betray you?”” ”

“Tang Zhen shook his head with a disdainful expression. to tell you the truth, I’m only interested in your technology. It’s not that I have to have it. It doesn’t matter even if I can’t get it. However, once your flashing gold clan leaves me, it’s absolutely impossible for you to survive in the endless wilderness. ”

“You’ll know whether I’m exaggerating or not after you get out.”” ”

“A trace of a smile appeared on the corner of Tang Zhen’s mouth when he said this,““Moreover, in my Holy Dragon City, I can give you a long life. Living for a few hundred years is not a problem. After leaving the Holy Dragon City, your new bodies will age rapidly in less than ten years. Only if I replace your bodies can you continue to live!”” ”

“After talking about the stakes, Tang Zhen no longer said anything and quietly waited for the Queen of the flashing gold race to make a decision. ”

“The reality was right in front of them. If the Queen of the flashing gold race didn’t want the entire race to be exterminated, she had no choice but to accept Tang Zhen’s conditions. ”

“Sure enough, as Tang Zhen had expected, although the Queen of the flashing gold clan was a little unwilling, she finally agreed to Tang Zhen’s request and told him that there were more than thirty people who still retained their consciousness. ”

“There were almost a million people in the flashing gold tribe, but only 30 of them had retained their intelligence. This was a terrifyingly low ratio, but it also meant that the Queen’s Wish to revive the flashing gold tribe would be extremely difficult to achieve. ”

“After dealing with the Queen of the flashing gold race, a big stone in Tang Zhen’s heart fell to the ground. ”

“Now that he had the cooperation of the Queen of the flashing gold race, the entire sanctuary no longer had any secrets to speak of in front of Tang Zhen. The speed at which he cleared the sanctuary would also greatly increase. ”

“Once the sanctuary was cleaned up and the useful materials were moved out, Tang Zhen could then build an underground auxiliary city that belonged to the Holy Dragon City. ”

“The appearance of the Queen of the flashing gold race not only saved Tang Zhen a lot of time and resources, but also prevented casualties in the battle. It also helped the Holy Dragon City to gain a lot of benefits. It was definitely a big deal! ”

He hoped that everything would go smoothly and that there would be no more mishaps!

Tang Zhen didn't completely believe the promise of the Queen of the flashing gold race because the location where she appeared was too coincidental and she surrendered too easily.

Tang Zhen still didn't know anything about the core of the flashing gold race's sanctuary. Did the appearance of the Queen of the flashing gold race also have the intention to stop him from continuing his exploration?

“If that was the case, Tang Zhen's interest in the sanctuary would be even stronger. ”

“If the Queen of the flashing gold race was sincere, Tang Zhen didn't mind helping them. If she had unfathomable intentions, Tang Zhen wouldn't mind. ”

Tang Zhen coldly snorted in his heart. He casually broke the knife that the Queen of the flashing gold race had used to sneak attack him into two.

“However, before that, Tang Zhen had to change the body of the Queen of the flashing gold race and her people first before he could talk about the follow-up matters. ”

“There were two sources for a new body. One was to use a ready-made corpse, and the other was to cultivate it himself. Tang Zhen thought about it for a while and still chose to cultivate it himself. Although it was a little complicated, he could accumulate experience through the cultivation process and make some preparations for his future plans. ”

“As for the raw materials to cultivate the new body, there were plenty in the sanctuary. He could just grab as many as he wanted! ”

?

Chapter 160: cultivating! body

“When Tang Zhen told Qian Long and the other man about this matter, the two of them had an expression of disbelief. ”

They were already prepared to suffer heavy casualties in the process of clearing the sanctuary. They did not expect the unexpected appearance of the Queen of the glittergold race to lead to such a change in the situation. This was simply beneficial to the Holy Dragon City.

“With the cooperation of the Queen of the flashing gold race, there was almost no need for Tang Zhen to make a move. They could completely clean up the flashing gold race’s sanctuary. Those killing machines of the flashing gold race could also become the Holy Dragon city’s combat auxiliary force.”

“During this period of time, Tang Zhen would not be too idle. He still needed to cultivate a body for his soul to reside in. This was an extremely important task.”

“In the book that recorded the soul lodging secret technique, there was a detailed record of how to cultivate a soul lodging body. Tang Zhen had studied it for a long time and now had some insights.”

“This kind of body, which was cultivated with the flesh and blood of monsters, had very strong physical strength and could provide a healthy and strong body for the host. However, this kind of body also had a flaw, which was that it could not give birth normally.”

“From Tang Zhen’s point of view, this was a huge problem. He had to think of a way to resolve it. Otherwise, this flaw would turn into a disaster as time passed.”

“Just think about it, when countless people from the original world came to the loucheng world and used hundreds of years to manage a business, only to find that there was no one to inherit it, how depressing would that be?”

Tang Zhen had a few solutions to deal with such a situation.

“First, Tang Zhen would bring the original world’s human body that had completed the soul transmission into the loucheng world. Then, these original world’s residents would use their original bodies to give birth to the younger generation. The second was to raise the offspring in their original world and send them to the loucheng world when they grew up. The third was to build a large enough sperm and egg Bank to cultivate offspring.”

“In fact, there was still a trace of worry in Tang Zhen’s heart. Since the other worlds could be destroyed, the original world also had the possibility of being destroyed. If that day really appeared, the world of loucheng would be the eternal home of the humans in the original world.”

“Therefore, this problem of not being able to reproduce had to be solved as soon as possible, or else there would be endless trouble!”

Tang Zhen threw away the messy thoughts in his mind and turned his thoughts back to body cultivation.

“Before he obtained the mother tree, Tang Zhen could only create a soul host body according to the records in the secret technique or the cloning technology of the original world. However, after obtaining the mother tree and the secret books of the tree spirit clan, Tang Zhen had another method to cultivate a soul host body.”

“The mother tree had the ability to bloom and bear fruit, which was used to spread its own seeds. However, this depended on the mother tree’s mood, and if it felt that it was not necessary, it would turn off this ability.”

“After many years of research and experiments, the tree spirit tribe had discovered a special method that could breed life through the fruits of the mother tree. These special life forms were called the

children of nature. They were born with the ability to communicate with the mother tree, and they were extremely close to it. ”

“With the power of the nature child, the tree spirit tribe had maintained a thousand years of peace, but it had also led to the corruption of the tree spirit tribe. ”

“The materials used to nurture the nature child were extremely rare and precious. It could be said that the number of times it could be used was limited. Before the tree spirit tribe was destroyed, they no longer had any materials to nurture the nature child. ”

“If the nature child had existed at that time, they would have been able to communicate with the mother tree in time, and the tree spirit tribe would not have been exterminated without any preparation! ”

“Tang Zhen had taken a fancy to the tree spirit tribe’s method of cultivating the nature child. He wanted to use it to cultivate a body for the soul to reside in. Since he was cultivating an ordinary body, he did not need those rare and precious materials. He only needed the flesh and blood of ordinary monsters. ”

“With the mother tree’s current level, it could cultivate 100 bodies at once, which was definitely enough for Tang Zhen to use! ”

“Of course, the cultivation method of the tree spirit tribe could not be completely copied. Some things recorded in the original secret technique could also be used as reference. It was fine as long as the body where the soul resided was cultivated. ”

“Tang Zhen pondered as he took out a pen and paper to write and draw. After being busy for half a day, he finally dropped the pencil in his hand in satisfaction and walked out of the room to the mother tree. ”

“Lisa and the others were cultivating under the mother tree. When they saw Tang Zhen coming over, they were about to stand up and bow, but were stopped by Tang Zhen with a wave of his hand. He then walked straight to the mother tree and sized it up. ”

“After watching for a while, Tang Zhen turned to Lisa and said, tell the mother tree that I hope it can produce 100 fruits. I plan to use them to cultivate a human body. ”

“Lisa’s mouth was slightly agape as she nodded in shock. Following Tang Zhen’s instructions, she closed her eyes and began to communicate with the mother tree. ”

“In less than a minute, Li Sha opened her eyes. She looked at Tang Zhen and said with a bitter smile, the mother tree said that it won’t agree. It also said that doing that kind of thing is much more disgusting than devouring flesh and blood. It wants you to give up! ”

“Tang Zhen expressionlessly shook his head and said to Li Sha, tell the mother tree that it has to do this, or I’ll use my authority as the city Lord to force it to do it, but it won’t do either of us any good. ”

“Lisa nodded and continued to communicate with the mother tree, and she got the answer after a moment. ”

“””The mother tree agreed, but it also made a request. That is, you must find moon spring water for it as compensation. Otherwise, it would rather be cut down and burned than continue to be the Holy Dragon city’s auxiliary city!”” ”

“This was the trouble of the tower of wisdom, once dissatisfaction was born, there was even the possibility of a strike or self-destruction! ”

“Tang Zhen couldn’t force him too much. Since the mother tree had agreed to help him cultivate the body and had also put forward the corresponding conditions, he would just agree to it. As for whether he could get moon spring water, Tang Zhen was actually not confident in his heart. ”

“He would just take it one step at a time. At most, he would use a secret technique to grow his body in the future. That way, he would not have to bargain with the mother tree. ”

“After the conditions between Tang Zhen and the mother tree were settled, the residents of Holy Dragon City saw a wonderful scene that they would never forget. ”

“The mother tree, which had been quiet and peaceful, suddenly trembled. Then, huge white petals sprouted at a speed visible to the naked eye between the green leaves of the mother tree. With a gentle breeze, they emitted an alluring fragrance. ”

“After nearly a hundred petals bloomed, the trunk of the mother tree began to shake gently. Yellow-yellow pollen began to dance and scatter on the crown of the tree, like a light-yellow cloud covering the sky above the mother tree. ”

“After a short while, these white petals began to wither and fall, followed by small fruits emerging from the petals one after another. ”

“These fruits grew at an extremely fast rate. It didn’t take long for them to grow to the size of millstones. At the same time, the handles of the fruits began to extend and drooped to the ground. ”

“In less than five minutes, nearly a hundred millstone-sized fruits fell from the mother tree, stopping about two meters above the ground like countless hanging pendulum. ”

“If one were to observe the fruits carefully, they would find that they were gently dancing in the wind, and there seemed to be nothing inside the fruits. ”

“Blooming, pollinating, bearing fruit, and maturing. The entire process of reproduction was accelerated by countless times. This was the magical thing about the mother tree! ”

“Tang Zhen carefully observed the fruits hanging from the mother tree. After studying them for a while, he turned around and returned to the Holy Dragon city’s warehouse. Since he already had the fruits of the mother tree, he should prepare the raw materials for cultivating his body! ”
