

## **Alternate 1581**

### Chapter 1581 brutal beating

After getting rid of the culprit who killed sister Qing in his previous life, Tang Zhen completed the mission as expected and received a gold coin of destiny as a reward.

When he turned to leave, the coin of destiny had already appeared, floating in the air a foot away from him, exuding a mysterious aura.

Looking at the gold coin of destiny in his hand, Tang Zhen revealed a thoughtful expression. This item was related to removing the seal on his mobile phone, so Tang Zhen had to pay attention to it.

It seemed that after this trial, he would really find an opportunity to find out more about the coin of destiny, so that he would not be as confused as he was now.

Luo Fei was a good candidate. Her origin was very mysterious and she knew a lot of things. Tang Zhen had learned a lot of information about the trial from her.

He had just entered the circle of the real strong in the world of loucheng, and there were still many things he needed to learn.

After putting away the destiny gold coin, Tang Zhen was thinking about how to find the next mission when the scenery around him began to change rapidly. An unknown force wrapped his body.

Tang Zhen was startled at first. Soon after, he relaxed.

This was the power of the Law of Time affecting him. It was like clicking the fast forward button on a video. Perhaps in the next second, the world would have changed.

Time was changing, but perhaps he was the only one who remained the same.

He did not resist this power and allowed it to bring him through the long river of time. After a few seconds, Tang Zhen was already in a quiet Valley.

It seemed like this was a new point in time, and the mission would start from here.

Looking at the surrounding buildings, all of them had hundreds of years of history and looked antique. However, due to the proper maintenance, it was not a problem for people to live in them.

Releasing his mental energy to probe, Tang Zhen discovered that there was actually an illusory formation outside the valley, causing outsiders to be unable to discover the secret of this place. It was a world of its own.

It wasn't a paradise, but the energy it contained was much stronger than the outside world.

There were still some cultivators in the valley. The strongest cultivator was equivalent to a level 5 cultivator. In this world, he was considered a strong master.

The illusionary reality realm Lord must have started his cultivation journey from then on. The problem was that this place had nothing to do with the loucheng world. How did he become a cultivator of the loucheng world?

Tang Zhen frowned and decided to wait and see.

Just as he was about to walk around and gather information, a middle-aged man suddenly walked out of a building beside him. He looked at Tang Zhen who was standing at the door and immediately rebuked, su huanzhen, what's wrong with you? how dare you come back? "

"The failure of this mission is because of you, and your companion is also implicated by you. What a waste!"

Tang Zhen's heart ached slightly when he heard the middle-aged man's reprimand. However, the corner of his mouth revealed a smile.

He had been thinking about how to find a mission, but he did not expect the mission to come to him on its own accord, which saved him a lot of time.

Tang Zhen sized up the middle-aged man in front of him and found that his strength was only at Level 2. However, he had an overbearing expression and looked at su huanzhen with a trace of pride and coldness in his eyes.

Since the illusionary reality world Overlord was extremely disgusted with this person, Tang Zhen naturally wouldn't be polite. He smiled as he approached the middle-aged man and raised his hand to slap him.

"Pa!"

The slap was crisp and loud. The man's cheek was visibly deformed, and a tooth flew out.

Tang Zhen was secretly pleased. It seemed that the illusionary reality realm Lord was also very happy subconsciously.

The middle-aged man revealed a shocked expression. He covered his swollen cheek with one hand and pointed at Tang Zhen with the other. He jumped up and shouted in an exasperated tone, "Need (su) han (illusionary) Zhen, Li Qi Xi mieju (you deceived your master and destroyed your ancestor)!"

Who would have thought that just as his words left his mouth, Tang Zhen would once again give him a slap, causing another tooth to fly out.

Tang Zhen nodded his head in satisfaction when he saw the two middle-aged men with swollen cheeks.

"Yes, he's much more pleasing to the eye now!"

The Furious roar earlier had already attracted the attention of the passers-by. When they saw Tang Zhen slapping the middle-aged man twice in a row, they were already dumbstruck. At the same time, there was a trace of gloating.

su Huan is really bold. He actually dared to hit the elder of the Foreign Affairs division!

"He's dead, he's definitely dead!"

just a few days ago, he offended the son of the elder of the Foreign Affairs division. Now, he's slapping his father. Is su huanzhen trying to defy the heavens? "

hehe, this father and son have long wanted to find trouble with su huanzhen. Now, they've directly fallen out with each other!

this su Huan is really courting death. It wasn't easy for her to join the sect, but now she's being bullied. I think she's going to be kicked out again!

"Chase him out? It's not that simple. With the means of the Foreign Affairs division's elder, killing him is a piece of cake!"

Everyone's whispers were unable to escape Tang Zhen's ears. He immediately understood the general situation after sorting out the information.

The illusionary real world Overlord had a grudge with the elder of the Foreign Affairs division and his son, but the exact reason was unknown. However, looking at his pathetic behavior just now, there must be some secret inside story.

Tang Zhen wasn't interested in investigating the inside story. Since the fantasy world realm Lord felt aggrieved, he would vent his anger first.

As for the subsequent troubles, hehe, Tang Zhen was the ancestor in this world!

When he thought of this, Tang Zhen raised his leg and once again kicked at the Foreign Affairs Hall's elder, who was now unrecognizable. The other party wanted to Dodge, but he realized that he was unable to do so.

Under the dumbfounded gazes of the surrounding spectators, Tang Zhen kicked the Foreign Affairs Hall elder down. After which, he kicked the Foreign Affairs Hall elder like he was kicking a football, causing him to roll around.

In the beginning, the elder of the Foreign Affairs division was still cursing in anger, but it soon turned into wailing and begging for mercy from Tang Zhen.

His heart was filled with depression. Why couldn't he even defeat an inner disciple?

Just as Tang Zhen was having a good time kicking, a tall young man who looked to be about the same age as su huanzhen pushed through the crowd. When he saw the wailing elder of the Foreign Affairs Hall on the ground, he immediately rushed over in anger.

"Su huanzhen, you're looking for death!"

The tall young man pounced over and smashed a fist towards Tang Zhen's head with a murderous aura.

"Get lost!"

Tang Zhen didn't even turn his head as his leg swept out and directly kicked the stomach of this tall youth.

"CAW CAW CAW"

The tall young man's expression froze, his eyes bulging out, his mouth wide open, and he squirmed a few times before slowly falling to the ground.

d \* mn, we'll beat her up. Where did this su huanzhen come from? ”

...

An onlooker exclaimed, causing the bystanders to nod their heads repeatedly.

hurry up and help! Otherwise, the elder of the Foreign Affairs division will be kicked to death!

Finally, someone regained his senses and rushed out of the crowd to where Tang Zhen was. He wanted to stop him and at the same time, show off in front of the Foreign Affairs Hall's elder.

The other onlookers also came to a sudden realization and rushed forward one after another, not wanting to miss this rare opportunity to perform.

However, just as they took a step forward, they saw that the guy who had rushed over first had already been sent flying back. He was lying on the ground, twitching and screaming.

“Whoever dares to come over, I'll beat them up together!”

Upon hearing Tang Zhen's warning and seeing the pained expression of the fellow on the ground, the onlookers who originally wanted to step forward to help hesitated for a moment. In the end, they did not dare to continue approaching.

Whether it was the father and son of the Foreign Affairs Hall elders or the guy who wanted to help just now, they were all not weak. But even so, they were not able to withstand a single move.

In the face of such a fierce su huanzhen, the onlookers all felt fear. They didn't know what kind of opportunity he had encountered that made him act so abnormal.

Just as everyone was hesitating, a dozen more cultivators rushed over from the distance. They rushed through the crowd and came to su huanzhen. When they saw the Foreign Affairs Hall elder father and son, who had been beaten up like pigs, their faces were full of shock.

su huanzhen, stop! Do you want to die? ”

...

An angry voice that was filled with concern was transmitted over, causing Tang Zhen's heart to feel a slight pain as he slowly turned around.

He was also a middle-aged man, with a dignified appearance, but a sickly face. His hair was white as snow, like a candle in the wind, as if it could be extinguished at any time.

The illusionary reality world Lord's subconsciousness transmitted a feeling of adoration, which made Tang Zhen feel strange. At the same time, he also had a judgment of the identity of the man in front of him.

If there were no accidents, he should be the master of the fantasy world Overlord, one of the old friends who also felt the same way!

Chapter 1582 So what if I hit you?

When they saw that Tang Zhen had stopped beating him, the Foreign Affairs Hall's elder father and son immediately ran to the side, afraid that they would suffer such torture again.

Under the cover of the crowd, the father and son heaved a sigh of relief. However, after feeling the pain from their bodies, the eyes that they looked at Tang Zhen with became extremely vicious.

They had made such a big fool of themselves in public today, so they had to take revenge no matter what. Otherwise, the father and son pair would really be unable to gain a foothold in the sect!

However, they couldn't figure out how su huanzhen, who had always been low-key and silent, had become so powerful that even the father and son combined were not her match.

su huanzhen, what are you trying to do? how dare you beat up an inner elder in public? "

The one who spoke was a strong man with a resolute face. He was also the elder in charge of punishment in the sect. He would never forgive those who violated the sect rules.

He glanced at the father and son of the Foreign Affairs Hall elder who had been beaten into a pig head. A trace of disdain flashed in his eyes, and there was even a faint sense of satisfaction.

Everyone already knew what kind of character this father and son had, but it was not easy to comment.

Seeing the law enforcement Hall's elder speak, su huanzhen's master also quickly said, " that's right, huanzhen. What happened? did you get bullied? tell me, master will help you!

Even if su Huan was really the murderer, his master still asked this question. It was obvious that he was protecting her.

When the elder of the Foreign Affairs division heard this, he immediately jumped out and pointed at su huanzhen's master and roared, " what do you mean? are you trying to exonerate your own disciple? "

"You can ask them. From the beginning to the end, it was your disciple who committed the crime, so you can't deny it!"

When su huanzhen's master heard this, he glanced at the Foreign Affairs Hall elder with a cold gaze and said softly, " Huan Zhen may be a loner, but he's never one to cause trouble. You must have done something to anger him!

Hearing this, the elder of the Foreign Affairs division was so angry that he almost vomited blood. The heavens were his witness. He had only reprimanded su huanzhen with a few words. He didn't expect to be beaten up so badly!

Even if he had wanted to scheme against su huanzhen, his plan had not been implemented yet. It was not an exaggeration to say that he had been wronged.

What the elder of the Foreign Affairs Hall didn't know was that in his previous life, the fantasy realm Lord had been framed by him and suffered from injustice. If it wasn't for his master's pleading, he would have been expelled from the sect.

Therefore, even if he didn't kill this father and son for the time being, he had to punish them severely and make them lose face!

The law enforcement Hall's elder who was the first to speak indicated for everyone to not speak. He spoke to the indifferent-looking Tang Zhen, no matter what the cause of this matter is, it's a fact that you've beaten up an elder of the Foreign Affairs division. You must accept punishment!

tang zhen looked at the other party and softly laughed,"What punishment?"

"Fifty lashes, cripple your cultivation, and expel you from the sect!"

The burly man stared at Tang Zhen as he spoke word by word.

"Whipping won't do, crippling my cultivation won't do, expelling me from the sect is a waste of time, hehe, you can try expelling me!"

Hearing Tang Zhen's reply, a trace of anger flashed across the law enforcement Hall's elder's face. Tang Zhen's reply was truly too arrogant. He didn't even put him in his eyes.

su huanzhen, I don't care what kind of opportunity you've gotten, but in this sect, the sect rules are the most important. You can't be so presumptuous!

As soon as he finished speaking, the law enforcement Hall Master rushed toward Tang Zhen, preparing to arrest him and punish him.

Who would have thought that before his body could even approach Tang Zhen, he would feel an invisible force wrapping around him, forcefully pushing him back to his original spot.

"This is a warning, don't humiliate yourself!"

Tang Zhen's voice sounded out and only resonated in the ears of the law enforcement Hall Master. It was obvious that he did not take him seriously.

The law enforcement Hall Master staggered back a few steps. His face was filled with shock. The way he looked at Tang Zhen became more and more solemn.

In the short exchange just now, he knew that he was not a match. If he acted rashly again, he would only be asking for humiliation.

However, the words had already been spoken, and this matter was within the scope of his responsibility, so how could he just ignore it?

Just as the hall Master of the law enforcement Hall was in a dilemma and feeling worried, su huanzhen's master suddenly opened his mouth and bowed to him, "Senior brother, why don't we ask the sect leader to make a decision?"

Based on su huanzhen's display of strength just now, this matter could no longer be dealt with the way ordinary disciples were dealt with. Therefore, the best way was to inform the sect leader!

"Junior Brother is right, I didn't think it through."

The law enforcement Hall Master nodded. It was indeed inappropriate for him to interfere in this matter. Otherwise, he might be on the list of people who would be beaten up.

He turned around and instructed the people beside him to inform the sect master. The law enforcement Hall Master said to Tang Zhen, "No matter what injustice you've suffered, you can explain it in front of the sect leader and someone will help you!"

The meaning between the lines was already somewhat biased towards Tang Zhen.

When the elder of the Foreign Affairs division heard this, his face turned gloomy. He snorted angrily and went straight to the tallest building in the valley.

"Huanzhen, don't be afraid. The sect leader has always been fair. He won't make things difficult for you!"

The master of the illusionary reality world Lord walked over and patted Tang Zhen's shoulder. His eyes were filled with encouragement.

Tang Zhen nodded his head and followed everyone to the large hall.

By the time he entered the hall, the elder of the Foreign Affairs Hall was already sitting on a chair. There were some cultivators sitting beside him, and they all looked over with judgmental eyes.

An old man sat on the chair at the very front. He wore a moon-white long robe and had a dignified expression.

After seeing Tang Zhen walk in, the Foreign Affairs Hall's elder immediately jumped up and loudly said to the sect master, it's this su huanzhen. He beat me and my son for no reason. He's brutal and has no respect for his elders. He treats the sect rules like child's play!

At this moment, the elder of the Foreign Affairs Hall still looked like a pig's head. When he spoke, he waved his hands and feet, which looked very funny.

Some cultivators couldn't hold back their laughter, but they didn't want others to see it. They could only lower their heads and shake their shoulders.

The sect leader didn't pay any attention to the Foreign Affairs Hall elder. Instead, he kept looking at Tang Zhen. A trace of doubt and experience flashed in his eyes.

He realized that he couldn't see through this inner disciple's strength at all. This situation could only mean two things. Either the other party had an item to hide his cultivation, or his strength was far higher than his.

No matter what the reason was, he had to pay great attention to it.

"Su huanzhen, is what the elder of the Foreign Affairs division said true?"

Hearing the sect leader's question, everyone at the side looked at Tang Zhen, waiting for his answer.

Tang Zhen pointed at the Foreign Affairs Hall's elder in the face of a large number of gazes and said in a mocking tone, "This old dog deserves to be beaten, and so does this little dog!"

Hearing Tang Zhen scold him, the Foreign Affairs Hall elder was so angry that he jumped up and cursed, "you still dare to speak arrogantly? do you really think no one can stop you?"

“Hehe,” Tang Zhen laughed, “old dog, come and hit me if you have the guts!”

...

“You bastard!”

This time, the elder of the Foreign Affairs division was so angry that he vomited blood. His body trembled and he fell to the ground.

“Father, are you alright?”

Upon seeing this, his son immediately stepped forward to support him. At the same time, he furiously roared at Tang Zhen, “Su huanzhen, you’ve gone too far!”

This sudden scene caused the entire Hall to immediately become chaotic. Many cultivators looked at Tang Zhen with an increasingly unfriendly gaze.

In their eyes, this was a provocation to themselves. They simply didn’t put anyone in their eyes!

“Huanzhen, don’t be rude!”

The master at the side rebuked, but his tone was neither warm nor angry, as if he was just putting on an act.

The entire Hall was filled with a strange atmosphere. Tang Zhen’s performance was unscrupulous. However, no one directly attacked him. Even the sect leader’s behavior was somewhat abnormal.

The cultivators present had deep thoughts. How could they not see that there was something wrong with Tang Zhen? therefore, they would definitely not express their opinions easily until the last moment.

Seeing this, Tang Zhen sneered in his heart. Since he wanted to erase the regrets of the fantasy world Overlord, he naturally wouldn’t keep a low profile anymore. On the contrary, the more he flaunted, the more carefree he became.

...

The sect leader pondered for a moment and whispered a few words to a cultivator beside him. Then, he kept quiet.

Seeing that the sect leader didn’t speak, the other cultivators also closed their mouths as if nothing had happened. Even though the father and son of the Foreign Affairs Hall elders looked bitter and hateful, they pretended to turn a blind eye.

Chapter 1583 The dumbfounded elder of the Foreign Affairs division

After a moment of silence, the sect leader suddenly spoke.

“Su huanzhen, it’s been almost three years since you joined the sect, right?”

Tang Zhen nodded. He didn’t know when the illusionary realm Lord had joined the sect. Since he said three years, then three years would do.

“I just want to ask you one thing. In these three years, other than this father and son, has the sect treated you badly?”

Tang Zhen shook his head. The illusionary reality realm Lord had a good impression of the sect subconsciously. Other than the father and son who were beaten into pig heads, everything seemed to be fine.

His master, in particular, made the illusionary real world Overlord feel a rare trace of warmth, so much so that he still missed him after so many years.

“The sect has never mistreated me, and I, su huanzhen, have never let the sect down!”

No matter what, the image of the illusionary reality world Overlord had to be established. He seemed to care a lot about these things and was afraid that his master would misunderstand.

The sect leader revealed a smile when he saw Tang Zhen’s reply. He did not say anything more.

As long as the young man in front of him didn’t have any ill feelings towards the sect, everything would be fine. As for the father and son from the Foreign Affairs Hall, they had only been beaten up. Compared to su huanzhen, who he couldn’t see through, it was nothing.

Don’t think that it’s reasonable for the father and son of the Foreign Affairs Hall to be beaten up. If the situation required it, even if Tang Zhen were to beat up the father and son again, the sect leader would deliberately turn a blind eye.

What he considered was the interests of the entire sect. If there was a conflict with him, he would also put the interests of the sect first, even if it meant sacrificing some personal interests.

It didn’t take long for the cultivator who had left earlier to return to the main hall. When he passed by the father and son from the Foreign Affairs division, he gave them a meaningful look.

“Have you investigated the matter?”

Upon hearing the sect leader’s question, the cultivator bowed and replied, “ we’ve already investigated clearly. The elder of the Foreign Affairs Hall was indeed at fault in this matter. He deliberately bent the law for his personal gains and played with the sect’s rules.

however, su huanzhen was a little impulsive. He didn’t report his encounter at all. He attacked as soon as he returned to the sect!

The sect leader frowned when he heard this. The elder of the Foreign Affairs Hall’s expression changed greatly. He opened his mouth to explain, but when he saw the sect leader’s dignified eyes, he could only unwillingly close his mouth.

“Continue, what happened?”

Hearing the sect leader’s order, the cultivator continued to explain, “ some time ago, su huanzhen and a few new disciples went down the mountain to carry out a mission. As a result, the mission failed because the son of the elder of the Foreign Affairs Hall was greedy and rushed forward. This caused a great loss to the sect.

but the son of the elder of the Foreign Affairs Hall didn't want to take responsibility, so he colluded with several other inner disciples and pushed all the blame to su huanzhen.

when the Foreign Affairs division investigated this matter, they had already discovered the truth. However, due to the manipulation of the elders of the Foreign Affairs division, they simply made the mistake and made su huanzhen a scapegoat.

before he even returned to the sect, he was already severely punished. Not only was su huanzhen crippled of his cultivation, but he was also expelled from the sect!

After hearing the cultivator's words, the sect leader's brows furrowed even more. He glanced at the pale-faced father and son of the Foreign Affairs Hall and snorted coldly.

If he hadn't heard, he wouldn't have known that the actions of this father and son were so shameless. God knew how many other shameless things they had done besides this?

She only knew that his character was bad, but she didn't expect him to be so bold. Did he really think the sect's rules were just for show?

Tang Zhen's eyes also revealed a trace of anger. No wonder the illusionary realm Lord wanted to deal with these two fellows. Not only did he have to take the blame for others, but he also had to cripple his cultivation and expel him from the sect!

If this really happened, su Huan's life would be ruined!

After the cultivator left, the sect leader looked at Tang Zhen and said, the matter has been investigated clearly. The sect will naturally give you an explanation, especially the elder of the Foreign Affairs Hall. He has such an important position, but he has done such a thing. It is not enough to appease the public anger without punishment!

"If you have any thoughts, you can tell me and I will consider it."

Tang Zhen nodded and pointed at the Foreign Affairs Hall's elder father and son as he coldly said, "Cripple their cultivation and expel them from the sect, then I'll forget about this!"

When the elder of the Foreign Affairs Hall heard this, his expression immediately changed drastically. He used his resentful eyes to sweep a glance at Tang Zhen before he knelt in front of the sect leader and cried, sect leader, you can't listen to his nonsense. I've contributed to the sect for many years. Even if I don't have any merits, I've worked hard. Please don't kick me and my father out of the sect!

Seeing the sect leader's cold expression, the elder of the Foreign Affairs Hall looked at the other cultivators in the hall. No one expected that wherever his eyes looked, they would turn around and lower their heads, never meeting his eyes.

The elder of the Foreign Affairs Hall was seething with anger, but he was helpless.

Those with discerning eyes had already seen through the sect leader's attitude. Who would find trouble at this time? in particular, they were unable to see through Tang Zhen's depth. Before they understood the specific situation, it was really not appropriate to make more enemies.

When the Foreign Affairs Hall's elder saw this, he simply threw the pot aside and pointed at Tang Zhen as he roared, this su Huan is really just an inner disciple, but even the elder of the legal Division and I are no match for him. This is definitely abnormal for him to have such a strong cultivation!

he's either an enemy impersonator or possessed by a demon. He must be eliminated as soon as possible!

Looking at the flustered and exasperated elder of the Foreign Affairs Hall, all the cultivators in the hall shook their heads secretly, thinking that this guy was an idiot.

Do you think the sect leader can't see the abnormality? do you think everyone is blind? right now, the situation is unclear, so you're only using a delaying tactic. Why do you have to shed all pretenses of cordiality in public?

Moreover, you were the one who started this matter. Now that the situation is not good, you want to push the blame to everyone. You are really shameless!

In such a situation, he still wanted others to help him. In his dreams!

"Don't be impudent!"

The sect leader angrily rebuked and casually waved his hand. The elder of the Foreign Affairs division took two steps back and fell to the ground, his face ashen.

To force the sect leader to punish him, there was no way to salvage this matter.

At this time, the elder of the Foreign Affairs division was full of regret. He thought to himself that he shouldn't have listened to the words of his little bastard and caused a not-so-serious matter to be turned into such a mess that could not be cleaned up!

The son of the elder of the Foreign Affairs division was already dumbfounded. He stood there at a loss and didn't know what to do.

I now announce that the elder of the Foreign Affairs division knowingly broke the law, and his son made a mistake and framed a fellow disciple. All of them are unpardonable. They are sentenced to have their cultivation crippled and be immediately expelled from the sect!

After he finished speaking, he didn't even look at the Foreign Affairs Hall elder who was lying on the ground and asked Tang Zhen, "Are you satisfied with my punishment?"

Tang Zhen nodded. Being expelled from the sect was only the sect leader's punishment. He wanted the lives of this father and son!

Of course, he wouldn't do it himself. He only needed to ask the guards to send an evil spirit cultivator to deal with the shameless father and son.

the elder of the Foreign Affairs Hall was at fault and has been severely punished. However, you have also violated the sect rules by beating up a sect elder in public. I punish you to clean the ancient cave in the back mountain for three years. Do you deny the punishment? "

"I accept my punishment!"

Tang Zhen nodded his head as he looked at the destiny gold coin that had already appeared in front of him. Since the mission had already been completed, he naturally would not cause any more trouble.

However, the disgusting father and son would die for sure. It could be considered a gift to the illusionary realm Lord.

If he let them go, they might harm others again, so he might as well kill them directly!

...

“The matter has been resolved. Everyone can leave now!”

The sect leader waved his hand, indicating that everyone could leave. However, before he turned around, he still looked at Tang Zhen with a meaningful gaze.

“Huanzhen, come with me!”

The master of the illusionary realm Lord walked to him and said in a calm tone. There was no wariness in his eyes, only a faint concern.

No matter what other people thought, su huanzhen was still his disciple. As long as he was fine, nothing else mattered.

Tang Zhen secretly sighed in his heart as he silently followed.

Chapter 1584 The past of su huanzhen’s master

The master of the illusionary reality world Lord lived in a bamboo forest. He had no children and was all alone.

The reason why he valued su huanzhen so much was also because he regarded su huanzhen as his son. After all, their relationship had long surpassed the boundary of an ordinary master and disciple.

In his previous life, when su huanzhen was framed, it was his master who ran around and saved su huanzhen from being expelled from the sect. In the end, he was punished to clean up the ancient cave in the back mountain.

In fact, as long as he completed the mission, Tang Zhen did not care about how the subsequent events would develop.

The trajectory of his previous life and his current life were different, but the results were exactly the same. People could not help but sigh at the power of the trajectory of fate. It was simply impossible to change it easily.

Tang Zhen once again sized up the man in front of him. He discovered that there was a trace of death aura lingering around his body. It seemed that his old injuries had yet to recover, causing his body’s functions to be damaged.

Even though he was a cultivator, he couldn’t resist the torture of this illness.

If there were no accidents, su huanzhen’s master would definitely die in three to five years. Even the gods would not be able to save her.

Even if Tang Zhen personally acted, he might not be able to save the other party. This was because the other party's body was not the only thing that was damaged. Even his soul was being continuously worn down. The day his body died would also be the day his soul would dissipate!

Just as he was thinking about how to help the other party recuperate, the master of the fantasy world realm Lord suddenly spoke to Tang Zhen, " "You were a bit impulsive today. That elder of the Foreign Affairs Hall has been in the sect for many years. Even I, your master, can't do anything to him. Under normal circumstances, he would only be given a light punishment for this matter, not to mention crippling his cultivation and expelling him from the sect!"

Tang Zhen was speechless. There was no need to explain this kind of thing. The reason why the sect leader would enforce the law impartially and even severely punish the elder of the Foreign Affairs Hall was because he was afraid of Tang Zhen's strength.

The other party's actions were also wise. Otherwise, once they angered Tang Zhen, this sect would probably become history after today.

It was impossible for the master of the illusionary realm Lord to not see through this. However, he did not say anything. Or perhaps, he was waiting for Tang Zhen to tell him what had happened.

Tang Zhen couldn't explain. He couldn't possibly tell him that his disciple became a sector Lord in the tower world in the future, but fell into a coma due to the regret in his heart and that he was just a participant who replaced his disciple to make up for his regret?

Regardless of whether the other party believed him or not, the information he revealed was enough to cause an earthquake!

So the best way was to choose to remain silent and do what needed to be done.

Whoever was curious about his secret could come and ask him. If he was in a good mood, he might be able to explain it to them before they died.

don't worry, master. I know what I'm doing. But your condition isn't good. I wonder if there's any way to treat it? "

Tang Zhen didn't want to continue this topic and asked su huanzhen's master.

When su huanzhen's master heard this, how could he not know what his disciple was thinking? he sighed and shook his head, " "You don't have to worry about my injuries. I'm already very satisfied to be able to live until now!"

"I was only worried about you. I didn't know how you would survive in the sect after I left, but now I can rest assured!"

Huan Zhen, I don't know what happened to you, but I still have to give you a piece of advice. The hostility in your body is too strong, and it will affect your future.

master can't accompany you for long. You still have to walk your own path in the future. You must pay more attention!

Su huanzhen's master could be said to be trying to persuade her. Every word he said revealed his true feelings. It was obvious that he was worried about his own disciple. He thought that he would not live long, so he took this opportunity to give her some advice.

It was a pity that the young man in front of him did not seem to listen to him. In addition, he had encountered some unknown unforeseen event and possessed a cultivation level that even he could not see through. This made him even more worried.

Powerful strength could indeed protect one, but if one was bewildered by powerful strength and acted without scruples, it was very likely to attract trouble.

master, I got some good stuff this time. I believe it will be good for your injury. I hope you won't refuse!

Tang Zhen thought for a moment and decided to help the other party. If he was in the position of the fantasy world Overlord, he would definitely spare no effort to save his master.

No matter what the price was, he believed that the illusionary realm Lord would appreciate it and give him something in return.

To be able to use a small price to gain the good impression of a world Overlord, this was a good deal no matter how one looked at it. Tang Zhen naturally wouldn't miss it.

Su huanzhen's master was stunned for a moment when she saw the item Tang Zhen handed over. Her eyes were filled with shock.

Although he could not recognize what his disciple was handing to him, he could feel an indescribable surging vitality from it. If he could absorb it, not only would his old injuries be healed, but even his cultivation would rise to a higher level!

Where did his disciple get such a valuable item, and why did he give it to him?

After taking a deep look at Tang Zhen, su huanzhen's master shook her head.

it's better for you to keep this thing. My heart has died long ago. Even if I'm resurrected, I'll just be a walking corpse. There's no meaning at all!

Tang Zhen didn't expect the other party to reject him. After seeing that su huanzhen's master didn't seem to be faking his expression, he softly asked, "Don't you have any enemies in this world? you'd rather die in pain while your enemies are free?"

There was actually a reason for him to say this. First of all, su huanzhen's master was seriously injured, but it was not impossible to cure her. However, su huanzhen did not care at all.

After thinking about how he did not have a wife or children, Tang Zhen guessed that this handsome man with long white hair might have some unknown painful past.

Upon hearing Tang Zhen's words, su huanzhen's master's expression changed for a moment, as if revealing a trace of pain.

"Huanzhen, have you heard of something?"

After a moment of silence, su huanzhen's master suddenly asked.

Tang Zhen did not say anything. He merely quietly looked at the other party. His eyes gave one the feeling that he had seen through everything.

“Ah, you really know, Yingluo.”

Su huanzhen’s master sighed, and his face seemed to have aged even more.

He slowly stood up and used a hoarse voice to slowly speak to Tang Zhen, “Actually, I originally planned to bury this secret in the ground. This was not only for the sect’s sake, but also for your sake.”

master’s enemies are too strong. Not only am I not their match, but even if the entire sect goes into battle, I’m afraid it’s useless!

Mistakenly thinking that Tang Zhen knew the inside story, su huanzhen’s master didn’t hide anything and told him everything.

This was actually a melodramatic story. Back then, su huanzhen’s master fell in love with a female cultivator, but the son of the sect leader deliberately obstructed them. The two couldn’t fight against each other, so they could only choose to live under a different name.

Who would have thought that there was no such thing as an impervious wall in the world? when their child was 15 years old, the enemy finally found them. The son of the sect leader had become the sect leader and ordered the entire family to be killed!

After a bloody battle, su huanzhen’s master’s wife and son were all killed. He was the only one who fell into the river at the brink of death and survived.

After he recovered from his injuries, he tried to take revenge several times, but he failed each time and even ended up with a body full of injuries.

It was also at this time that his master met su huanzhen.

Seeing that su huanzhen looked 70% similar to his son and that su huanzhen’s fate was also very rough, su huanzhen’s master let out a long sigh and let go of the obsession in his heart. He took su huanzhen back to the sect.

He wanted to treat su huanzhen as his own son, make up for his regrets, and raise her. Then, he could leave with a smile and reunite with his wife and son.

...

This was the cause and effect of the whole thing. If it wasn’t a coincidence, su huanzhen’s master wouldn’t have said it until he died.

Tang Zhen, who was standing at the side, frowned slightly. He wasn’t feeling sad because of the story. Instead, his heart suddenly ached after hearing su huanzhen’s Master’s story.

This was obviously the doing of the fantasy world Overlord’s subconscious. After hearing about his teacher’s bitter experience, he didn’t hesitate to take revenge for his teacher!

The two of them were like father and son. It was really shameful that he didn’t know that his master was in such pain!

Actually, the illusory reality world Overlord didn't need to blame himself at all. Thinking back, in his previous life, when his teacher passed away, he didn't even mention this matter. How would he know?

It was just that he didn't expect that Tang Zhen would be able to trick him out of it.

Chapter 1585 Don't let a single one go

He had unintentionally obtained another mission, which caused Tang Zhen to feel a trace of surprise.

If things were to develop according to normal circumstances, there would be nothing left to do in the sect after Tang Zhen dealt with the Foreign Affairs Hall elder father and son. He could only wait for the arrival of the next mission.

It was also possible that under the influence of the power of time, the scene was fast-forwarded to the next scene.

Perhaps he could even help su huanzhen's master heal and let him recover, but even Tang Zhen wasn't sure if he could get the coin of destiny as a reward.

However, as su huanzhen's master told him about their past grudges, the huanzhen world Overlord, who was his disciple, was furious. The relationship between the master and the disciple was very close, so he naturally couldn't ignore such a deep hatred. Thus, this mission naturally appeared.

Tang Zhen hoped that there would be more of such changes. However, this did not seem to be possible.

In any case, it was a good thing to be able to get one more coin of destiny. As for the contents of the mission, it couldn't be any simpler.

The enemy that su huanzhen's master thought was undefeatable was nothing to Tang Zhen. As long as he wanted to, he could make su huanzhen disappear from this world at any time!

The problem was whether it was worth it or not. If his interference seriously disrupted the trajectory of fate, leading to an irreversible change in the future, that would definitely not be the result that Tang Zhen wanted.

Although he had reincarnated for the illusory reality world Overlord, he didn't have any memories of his previous life. He could only wait for the missions to appear.

The regrets of the real illusion realm Lord were all built on his past life experiences. If these things that were about to happen in the future were not to repeat themselves, it would be really lively.

Although the trajectory of fate could not be easily changed, there were always accidents. After all, if a world could be destroyed, what was the fate of a small living being?

Ordinary people might not be able to do anything about the illusory fate, but it was not impossible for the cultivators in loucheng who could plunder the origin of a world and destroy it.

He wasn't an ordinary butterfly. After gently flapping his wings, only God knew how big of a storm he would set off!

Therefore, even though Tang Zhen seemed to be unscrupulous in his actions, he still had a certain procedure in mind. He would definitely not mess around and cause the final situation to be so chaotic that it was beyond his control.

He only affected a very small area, and it would soon be repaired by the big hand of fate.

In fact, from the very beginning, Tang Zhen had already grasped the key point, which was to use the opportunity of substitute rebirth to wipe away the guilt and regret in the heart of the real illusion realm Lord.

First, he analyzed the character of the illusionary reality world Overlord. Then, Tang Zhen used an arrogant method that did not match his original character to solve all the regrets in his life.

It could be said that the complex personality of the illusionary realm Lord had caused him to have so many regrets in his heart. The cause of these regrets had a lot to do with him. In fact, they were even influenced by him.

Since this was the case, Tang Zhen wanted to avoid repeating the same mistakes. Therefore, in the eyes of outsiders, the current su huanzhen was a completely different person from the past!

“Leave master’s matter to me. You’d better recuperate first!”

Tang Zhen didn’t allow any explanation as he stuffed the item in his hand into su huanzhen’s master’s hand. The expression on his face was extremely determined.

“If you don’t accept him, then just pretend you don’t have me as your disciple!”

Seeing Tang Zhen’s determined expression, su huanzhen’s master let out a soft sigh. However, her face revealed a complicated expression of relief and helplessness.

He didn’t know how powerful this disciple of his was now, but he could see the thick fear in the sect leader’s eyes. He had no choice but to severely punish the Foreign Affairs Hall’s elder to express his goodwill to Tang Zhen.

Now that he could heal his old injuries with the help of his disciple and even have the opportunity to kill his enemy, su huanzhen’s master could only be happy.

“Master, rest well and recuperate. I’ll go back and pack up. Then, I’ll go to the ancient cave in the back mountain to accept the punishment of the sect rules.”

The sect rules were useless to Tang Zhen, but they could express his attitude and prove that he was still a member of the sect.

As long as they had this attitude, everything would be fine, and everyone would have face.

He asked su huanzhen’s master to keep the spirit Jade that contained a trace of Origin Energy. Then, Tang Zhen returned to his room, a simple bamboo house that was only a dozen square meters.

Just like the house he had seen when he first arrived in this world, there were not many items in this bamboo house, and it looked extremely simple.

Be it Tang Zhen or the illusionary realm Lord, they did not care about these worldly possessions. What they yearned for was the ethereal great Dao and not the secular prosperity that covered their eyes.

Perhaps it was this kind of persistence and pursuit that gave them the right to step onto the top of the loucheng world and become an influential upper-class figure!

Tang Zhen sized up the interior of the house. After confirming that there were no abnormalities, he summoned the overseer.

“Send someone to deal with that father and son. Don’t let them live past tonight!” He ordered.

Tang Zhen instructed in a faint tone. His eyes contained a trace of iciness.

In fact, Tang Zhen didn’t care about the life and death of the Foreign Affairs Hall’s elder father and son. However, when they were related to the mission, Tang Zhen had to pay attention to it.

From the moment he received the mission, he had no intention of letting the father and son live. Even if the fantasy world realm Lord’s subconscious had already confirmed that the mission was completed and given the reward, Tang Zhen still had to carry out the original plan.

From Tang Zhen’s point of view, the illusionary reality realm Lord’s subconscious mind was the same as his own. They both had an indecisive character. They originally hated someone to death, but when they were about to get rid of the enemy, they suddenly changed their minds and wanted to let the enemy live.

With such a contradictory and complicated personality, it was no wonder that after he became a sector Lord, he would fall into a deep sleep because of all kinds of distracting thoughts and desires.

Since Tang Zhen had helped him to make up for his regrets, he naturally wouldn’t repeat the same mistakes. Instead, he would use his own methods to help the illusionary realm Lord start a new life!

Subconsciously, the illusionary reality world Overlord didn’t seem to object to Tang Zhen’s actions. In fact, there was even a hint of admiration in his eyes. It was as if Tang Zhen had done something that he couldn’t.

The overseer smiled and nodded. He said with a hint of disdain, “ the father and son are really shameless. They made someone else take the blame for their own mistakes, and they even want to beat the person to death!

“I’ve seen shameless people before, but I’ve never seen someone as shameless as you!”

After following Tang Zhen’s words, the overseer’s eyes rotated before he continued, should we deal with those disciples who colluded and tried to push the blame to the illusionary realm Lord? ”

Although the actions of these disciples weren’t as direct as that of the father and son of the Foreign Affairs division, they still did something to harm the huanzhen realm Lord. In his previous life, su huanzhen almost died because of their testimony!

There was no big or small difference between good and evil. If one did it, one had to bear the responsibility. Since the father and son of the Foreign Affairs Hall elders could not escape death, those disciples naturally could not be let off.

then, will the enemies of the master of the fantasy world Overlord be dealt with as well? ”

The overseer used a probing tone as he asked. It should be known that this might be related to Tang Zhen’s trial mission. He wanted to help share the burden, but he was also afraid that he would mess things up.

“I’ll leave it all to you. You can do as you see fit.”

Tang Zhen nodded, got up and headed to the ancient cave in the back mountain of the sect.

After receiving his punishment, he would have to serve in the cave behind the mountain for three years. During this period, he had to eat and live there, and was not allowed to leave.

In his previous life, the illusionary reality world Overlord had also received such a punishment. According to Tang Zhen’s speculation, it was because of this punishment that the other party had officially stepped on the path of becoming a cultivator in loucheng.

Therefore, Tang Zhen had to go to this ancient cave at the back mountain once and figure out what secret was hidden there!

...

He slowly walked along the path within the sect. Along the way, there would be disciples from the sect appearing from time to time. However, when they saw Tang Zhen, they would all reveal a complicated expression.

What had happened in the hall had long spread throughout the entire sect. At this time, he was an influential figure, and almost everyone knew him!

Chapter 1586 The secret of the ancient cave in the back mountain

The area of the back mountain was very large, but it was desolate and uninhabited, so very few sect disciples would appear.

Due to the scarcity of cultivation resources, there were not many cultivators in this world. All of them guarded the territory left behind by their ancestors, which was more important than their lives.

Compared to the places where ordinary people lived, the energy concentration of the sect’s location was more than a level higher. However, the area behind the mountain was pitifully barren, even worse than the outside world.

The reason was that although the energy in the valley was rich, it couldn’t support the use of the entire sect’s cultivators. The situation of too many monks and too little gruel was getting worse.

Therefore, after some transformation, the sect concentrated all the energy in the valley in one place. This could ensure a higher cultivation efficiency, but it also brought more competition.

The strong preyed on the weak. In the world of cultivators, this situation was very common. Only the strong could obtain more cultivation resources. In a sect, strength did not only mean strength, but also background and opportunities.

This method of cultivation seemed to be a good choice for ordinary sects, but in fact, they were forced to do so because the world Energy available for cultivation was becoming thinner and thinner. If they continued to develop, sooner or later, the inheritance of cultivators would be cut off from this world.

For the same reason, the strength of the cultivators in this world was generally not high. Those who had the strength of a Lord were enough to be called overlords.

Comparing the two, the advantage of the cultivators in the tower was revealed. As long as they were in the tower, the energy they absorbed was exactly the same, and there was no difference between more and less. It was also easier to cultivate more powerhouses.

As for energy replenishment, it was not a problem at all for the tower world, which plundered the origin power of various plane worlds. As long as the level was enough, he could have as much as he wanted!

Therefore, not every world was as abnormal as the world of Lou Cheng. Otherwise, the greater world would have been in chaos and cultivators would not have been invading everywhere!

In this dark plane forest, Lou Cheng's cultivators were like a group of fierce and hungry wolves, constantly searching for prey who were unaware of the situation outside and had no idea that danger was lurking around them.

.....

After arriving at the back of the mountain, Tang Zhen sized up the surrounding environment before walking towards an isolated cliff that was carved with various words and patterns.

There was a stone ladder on the cliff. After the stone wall was chiseled out, hard strips of stone were inserted into it, and it followed the stone wall all the way up to a platform at the top.

The distance between each stone stick was three meters, and ordinary people could not climb it at all. Just a glance was enough to make one's heart jump.

Tang Zhen swept his gaze over the platform that was about a hundred meters from the ground. His body gently shook and he easily flew onto it.

A disciple who was cultivating in the distance saw this scene and was so scared that he almost lost his mind. He rubbed his eyes hard, thinking that he was hallucinating.

A trace of envy flashed across the disciple's eyes as he looked at Tang Zhen, who was still at the bottom of the cliff a second ago, and appeared on the platform in the sky in the next instant. He had already heard about what happened in the hall and knew that Su Huanzhen was no longer the same as before.

It was said that after his return, his strength was so great that even the sect leader was afraid of him. Who knew how strong he was?

Tang Zhen had long discovered the disciple in the quiet corner. However, he did not have any thoughts of hiding. An appropriate display of strength would also dispel the doubts of those fellows who did not have good intentions.

He didn't know how long he had to stay here. An appropriate amount of power could prevent a lot of unnecessary trouble.

Tang Zhen's brows were slightly furrowed as he sized up the dark cave entrance that was deliberately sculpted into the head of a ferocious beast and revealed a fierce glint in its eyes. He slowly walked in.

At the entrance of the cave, there were hammers, shovels, carts, pickaxes, and other tools. They were all made of Special Metals and were extremely hard.

After entering the cave, they were met with a large area of collapsed rocks after walking for about ten meters, blocking the cave.

His task was to clean out the hard stones and repair the damaged places. It seemed like a simple task, but it was not.

This stone was extremely hard. When an ordinary pick hit it, only a white spot would appear. Even if explosives were used, it could only crack open a volume the size of a casserole.

Such a hard stone actually had a special effect. It was a very precious ore. After being refined many times, the metal could be used to cast weapons for cultivators.

Fang Rui walked to the collapsed rock and knocked on it with his fingers. The rock actually made a "ding ding" sound.

this kind of dense ore doesn't seem to exist in such a world. Could it be that it came from another world?"

After sensing the texture of this stone, Tang Zhen found that it was somewhat out of tune with this world. It was like a hardwood was mixed into the world made of Bon board.

any area with such dense energy will more or less intersect with the crack between the planes. Is it the same here?"

This thought appeared in Tang Zhen's heart and he felt that it was more reliable.

If that was the case, then this barren cliff might not have belonged to this place, but an intruder from another world.

With a wave of his hand, a ball of flame appeared in his hand and floated towards the stone in front of him.

The rock that was originally extremely hard actually melted rapidly when it came into contact with the flames. At the same time, the special metal contained within was also extracted and automatically gathered into a ball in the air.

However, the content of this special metal was very low. From the stone that was the size of a table, only a ball the size of a quail egg was extracted.

Tang Zhen was not very interested in this kind of metal. He only wanted to know what kind of secret was hidden in this cave that was covered by rocks.

Under Tang Zhen's control, the entire cave was covered in flames. The rocks that filled the cave also turned into lava and automatically flew to the open space outside the cave, turning it into a Flaming Mountain with an astonishing temperature!

The disciple, who was stretching his neck to observe the situation, opened his mouth so wide that it could almost fit a fist!

He really could not understand what Tang Zhen was doing in the cave. How could there be so much lava flying out? could it be that he had dug a hole in the ground under his feet?

The commotion grew bigger and bigger and soon attracted more people's attention. The cultivators appeared nearby one after another and looked at the scene in shock.

"Oh my God, what's going on?"

"I don't know. Could it be a volcanic eruption?"

I heard that su huanzhen went in just now, and then something strange happened. Could it be related to him?"

"Su huanzhen? He is the one who beat up the elder of the Foreign Affairs division and confronted the sect master in the main hall. What is his background?"

I don't know, but I heard from master that this man has probably gotten a great opportunity. His strength is unfathomable now. I'm afraid the scene in front of us is really related to him!

As the crowd whispered to each other, the sect leader and the others arrived one after another. They looked at the lava flying out of the cave, their eyes full of uncontrollable fear.

What kind of terrifying strength could turn this ore, which was comparable to diamond, into lava?

This su huanzhen was indeed not simple. Back then, he chose to compromise in the Great Hall. Now, it seemed to be a wise choice. Otherwise, a moment of impulse might have cost the entire sect!

"Sect leader, should we go over and take a look?"

A cultivator beside him asked. His expression was very serious, but at the same time, there was a trace of greed and curiosity.

" don't act rashly. just stay here and observe quietly! "

The sect leader replied expressionlessly, but in his heart, he was scolding the fool. The situation was still unclear. Who would dare to rush over rashly? if they were touched by the lava, they might turn into ashes in an instant!

...

no matter how precious a special metal was, it was far from being as important as one's life!

Hearing the sect leader's words, the cultivators who had been eager to give it a try became obedient. Even the sect leader, who was the most powerful, was extremely afraid. If they went over now, what was the difference between that and seeking death?

If it was the SU huanzhen of the past, they might have been able to use their status and strength to intimidate her. But now, with just a glance at her, they felt their souls tremble.

Facing su huanzhen in this state, who would dare to provoke her? was he tired of living?

## Chapter 1587 Wasteland worm's corpse

After everyone realized this, they could only forcefully suppress the curiosity in their hearts and obediently guard the surroundings of the cliff. They wanted to see what exactly Tang Zhen was up to.

At this moment, a cultivator hurried over and said to the sect leader in a low voice, "I've just received news that after the Foreign Affairs division elder and his son left the mountain Gate, they were suddenly attacked by an unknown powerhouse. They died at the same time in the blink of an eye, and there was no time to rescue them!

The sect leader's brows twitched. After a few seconds of silence, he said in a light tone, "Since he has already been expelled from the sect, it has nothing to do with us. You don't have to care!"

The cultivator quickly nodded in agreement, but he secretly sighed in his heart. This father and son of the Foreign Affairs Hall were really courting death. They wanted to scheme against su huanzhen for no reason, but in the end, they had to pay with their own lives.

The most important thing was that they would have died in vain. Who would stand up for them when they were in the wrong and su huanzhen was extremely strong?

Even if he was unwilling, he had to wait for a good opportunity!

Inside the cave, Tang Zhen had already noticed the large group of onlookers gathered outside. He also knew that they were all staring at the entrance of the cave, wanting to know what he was doing.

He didn't have the mood to care about these guys, because as the rocks in the cave continued to melt, he could already faintly feel a trace of aura from the void.

Sure enough, as he had guessed, this giant rock actually came from outside the plane. What was displayed in front of everyone was just the tip of the iceberg!

The collapse of the cave may have been related to the crack between the planes. Under that terrible power, no matter how strong the rock was, it could not resist the erosion at all!

However, it was also because of these collapsed rocks that the already unstable crack between the planes was once again sealed and suppressed. Otherwise, who knew what kind of chaos would happen?

The void was not a forbidden zone for life. It existed between different planes, and there were also terrifying and powerful creatures. If they invaded through the cracks between the planes, this world would probably become a purgatory!

"Perhaps the collapse of this ancient cave was deliberately done by someone. However, it has been a long time, and no one knows the exact situation."

Tang Zhen thought of another possibility. However, he did not put it in his heart. Right now, he only wanted to see where this crack between the planes led to.

As the last huge rock melted, a pitch-black crack appeared before Tang Zhen's eyes. A dense void aura also began to spread in all directions.

However, under Tang Zhen's suppression, the void aura was unable to spread far. The cultivators outside the cave were completely unaware.

He quickly arranged a simple runic magic circle to ensure that the crack between the planes would not continue to expand. Tang Zhen's figure flashed and directly entered the pitch-black crack.

For ordinary people, the void was an absolute death zone, and even cultivators were afraid of it. However, for spiritual emperors, crossing the void was as easy as drinking cold water.

In the next instant, Tang Zhen passed through the void and appeared on the peak of a tall mountain.

The mountain peak was probably more than 20000 meters high, and it was surrounded by thick clouds that flowed around the mountain.

The cliff behind the mountain was just a small hill on the peak, but it was accidentally covered by a crack between the planes, so it looked like it had disappeared from the surface. Only careful observation would reveal any clues.

He released his mental energy to scan the area within a thousand miles. Unfortunately, other than the broken walls, there was no sign of any living beings.

It was another abandoned world.

Tang Zhen had seen similar worlds many times and was already used to it. However, he still wanted to figure out what this place had to do with the future life of the illusionary realm Lord.

Could it be that this was also a world invaded by cultivators from Lou Cheng? could it be that the illusionary realm Lord had accidentally discovered this place while he was receiving his punishment in the ancient cave at the back mountain, and then had some interactions with cultivators from Lou Cheng?

Tang Zhen's figure flashed when he thought of this. In the next second, he had already appeared near a stretch of ruins.

The area of the ruins was extremely large. It was built on a flat area at the peak of the mountain. Even though it had been severely damaged, one could still see its former glory.

Among the scattered giant stone bricks, there were some broken and decayed weapons, but there were no traces of bones.

It was as if someone had deliberately cleaned this place and collected all the bones, not missing a single piece!

Tang Zhen was extremely puzzled in his heart when he saw this strange scene. It seemed that this abandoned world was not as simple as he had imagined.

Picking up a hammer, Tang Zhen realized that the material used to cast it was the metal extracted from the ore. If the fantasy world realm Lord could use it properly, it wouldn't be a problem for him to make a name for himself.

The truth was similar to what Tang Zhen had guessed. Otherwise, with the strength of his sect, it was impossible for him to cultivate to the Overlord level!

After walking around the ruins, Tang Zhen did not find many useful clues. He got up and headed to the next location.

The area of this world was very large. Tang Zhen didn't believe that he couldn't find any specific clues about it!

However, when he arrived at a larger ruin hundreds of miles away from the mountain, he suddenly stopped and looked up at the sky.

Within the thick layers of clouds, a huge object that could only be described as terrifying was quietly floating high in the sky. If it was not for Tang Zhen's astonishing perception, he would not have been able to discover its existence.

At first glance, it looked like a huge space warship, but when one's mind power covered it and gradually scanned its surface, one would find that its outer shell was actually pure organic, somewhat similar to the bone armor of living creatures.

When the image of the entire object appeared in Tang Zhen's mind, he, who usually would not change his expression even if a mountain collapsed in front of him, could not help but feel shocked.

It was a giant creature that had never been seen before. It looked like a beetle, but its head was full of tentacles, each of which was as wide as a mountain.

In addition to these tentacles, the giant worm's hundreds of legs were also full of tentacles, emitting a strange force field that held the giant worm's body in the air.

However, such a terrifying creature had now become a corpse. It was only because of the special characteristics of its body that it was suspended in the air and could not fall.

Tang Zhen observed for a long time before he leaped up and flew high into the sky. He continuously approached the corpse of the giant worm.

Even though he had been to many planes and seen many creatures, he had never seen something with such a terrifying size. Even a Super Dragon that was nearly a hundred meters in size could only be considered a flea on a giant insect.

He slowly landed on one of the giant worm's floating tentacles, but it felt like he was walking on a strange land. From time to time, he could feel the slight swaying under his feet.

At this moment, Tang Zhen felt that his body was incomparably tiny. This feeling originated from the difference in their body sizes and also from the terrifying strength of the enormous insect.

The might of a dead Tiger was still present. Even though the huge worm under his feet was just a corpse, Tang Zhen was still able to sense a desolate and distant wild aura when he came into close contact with this huge worm.

Only the heavens knew what level it was when it was alive. At least, with Tang Zhen's strength as a spiritual Emperor cultivator, he was not its opponent at all!

And how did such a terrifying existence die, and why did it appear in this world?

Just like how the cliff behind the mountain didn't belong to the world where the illusionary reality world Lord was, such a terrifying creature couldn't be born in this world either. It was clearly an outsider!

As he slowly advanced along the huge tentacle, Tang Zhen discovered some traces of damage. It seemed to be the remains of some kind of powerful weapon. Even the extremely flexible tentacle was unable to resist.

After carefully observing it for a while, Tang Zhen continued to move forward. This time, from an extremely far distance, he could see that the head of the giant worm's corpse seemed to have a huge damage.

It was a terrifying wound that was dozens of kilometers long. God knew what kind of weapon had made it, but it was so deep that one couldn't see the bottom!

The cultivator who killed the worm must have used this wound to enter the worm's body and then attacked it from the inside, killing this powerful and terrifying creature.

After silently watching for a while, Tang Zhen suddenly had a thought. If he could transform this giant worm's corpse into a super warship, it would definitely become the trump card of the Holy Dragon battle zone, causing countless enemies to tremble in fear!

...

Chapter 1588 Bring the giant worm's corpse home

After thinking for a while, Tang Zhen felt a little troubled.

Transforming the giant insect's body into a super warship sounded like a good idea, but it was not easy to achieve. It was not comparable to the construction of a sky warship.

Not to mention how much manpower and resources were needed to transform this giant, just bringing it back would be a huge project.

Although the giant worm's corpse was suspended in the air, it was caused by its own characteristics. If one mistook it for being light, they would be making a huge mistake.

Tang Zhen had already carefully observed the giant insect's corpse and discovered that its body density was extremely high. Even if it was indeed very light due to the material, its volume was still a terrifying weight when added together.

However, Tang Zhen felt a little reluctant to give up on such an excellent warship frame. Once he missed such an opportunity, he did not know when he would be able to see it again!

There was no reason to miss out on good things. Even if it meant wasting more time or even delaying the progress of the trial mission, it would be worth it!

After thinking up to this point, Tang Zhen began to observe the giant insect's corpse, trying to figure out how to bring it to the sacred dragon battle zone.

He definitely couldn't do this alone, so he had to find more helpers. Even if he had enough people, it would take a long time to prepare.

Fortunately, as the Lord of a battle zone, he had no lack of manpower, so the biggest problem might not be a problem at all.

After circling around the giant insect, Tang Zhen had a General Plan in his heart and began to log onto the cornerstone platform.

To the cultivators of loucheng, the cornerstone platform was their strong backing. At this moment, Tang Zhen wanted to borrow its powerful strength to bring this behemoth back to his territory.

Since he was currently participating in the trial of the fifth battle area, the plane coordinates of this world must also be in the hands of the main control platform of the fifth battle area.

In the world of loucheng, the value of plane coordinates could be big or small. Even if some battlefields had control of some plane coordinates, they would not choose to invade, but would keep them for other uses.

This was not a strange thing. When the reserve of the world's origin reached a certain level, enough to support the consumption for a long time, the cultivators in loucheng would also cultivate and think of ways to obtain greater benefits from other planes.

Compared to destruction, a plane that could produce the required resources over a long period of time was clearly more valuable. It was like raising chickens. If you killed all the chickens that were shot, where would you get the eggs?

Another example was the world where the illusionary realm Lord was. Even though the fifth battle area knew about this place, they did not lay their hands on it. This might be related to the illusionary realm Lord.

Since it was the home of their own members, they naturally had to be lenient. It was impossible to invade.

Therefore, it wasn't an easy task for Tang Zhen to obtain the plane coordinates here. He must pay a certain price.

Not long after, the fifth battle district's platform had completed its reception. After that, Tang Zhen felt an incomparably vast consciousness descend. It was as if a pair of eyes were paying attention to him.

"Participant Tang Zhen, why have you summoned me?"

The main control platform of the fifth battle area asked emotionlessly. This was a common problem of intelligent life. After a long time, they were used to life and death, and their emotions seemed to have been worn away by time.

"I would like to transport this giant worm's corpse back to the sacred Dragon Warzone. Do you agree to that?"

Tang Zhen expressed his thoughts. For a special life form that controlled the main control platform, being direct was the best way to communicate.

the coordinates of this plane are the private property of the fantasy world Overlord. However, he's in a deep sleep now and I can't make the decision for him. Hence, I can't fulfill your request.

Upon hearing the main control platform's answer, Tang Zhen frowned slightly and asked again, is it possible to open a plane channel to the Holy Dragon Warzone while concealing the plane coordinates, or to set up a plane channel in this abandoned world? "

The main control platform pondered for a moment before giving Tang Zhen a reply.

that's possible, but you'll have to pay a price. At the same time, you'll have to sign a contract to guarantee that you won't leak any information about this place, and you're not allowed to touch this place in the future!

Tang Zhen nodded. If it was only these requests, he could accept it.

"In that case, sign this contract, and I will connect to the Holy Dragon Warzone's platform to help you build a plane channel!"

A piece of leather paper shimmering with a faint fluorescent light appeared before his eyes. This was the external form of the contract. The real contract was far more mysterious and complicated than this.

Tang Zhen glanced at the world's origin that he had to pay. He felt that it was still acceptable. Only then did he imprint a trace of his spiritual energy on it.

Following the disappearance of the contract, the consciousness of the main control platform of the 5th battle region began to dissipate. However, Tang Zhen suddenly recalled something and suddenly spoke, "I have a question, could you please enlighten me?"

After about a minute, the consciousness replied, "Clear what?"

"What is the coin of destiny, and how do I get it?"

After hearing Tang Zhen's question, the consciousness slowly said, "The coin of destiny is the currency used by sector Lord level cultivators. It contains a trace of the power of destiny. You must note that it is not the power of destiny of the ordinary plane itself, but a reward from the Wheel of Destiny."

then what can the coin of destiny do, and what is the Wheel of Destiny? "

the coin of destiny can be used as a currency, but it is also the only way to enter the Wheel of Destiny. As for what the Wheel of Destiny is and where it is, you will naturally know when you become a sector Lord!

After saying this, the consciousness completely disappeared without a trace.

Tang Zhen finally knew the origin of the coin of destiny. He was extremely curious about the Wheel of Destiny.

Since the cornerstone platform said that it would know after he became a sector Lord, Tang Zhen didn't need to spend too much effort on this. He turned to the cornerstone platform of the sacred dragon battle area and informed it to prepare to accept the connection to the fifth battle area.

This was his own backyard, so there was naturally not much trouble. He could just inform them directly.

In addition, Tang Zhen also issued this matter in the form of a war zone mission to the entire sacred Dragon War zone, so that the skyscrapers in the war zone could transfer more manpower, the more the better.

After he gave the order, the entire war zone was notified. The towers that were not on an invasion mission had enough manpower, so naturally, they came as many as they could.

Any invasion missions were also arranged as much as possible. It should be known that this was the first time the Lord of a battle zone had issued a battle zone mission, so no one dared to take it lightly.

Especially in Holy Dragon City, there were even more powerhouses gathered. Countless means of transportation had been mobilized, ready to be used to move the giant bug corpse.

As time passed, plane channels appeared near the towers in the Holy Dragon battle zone. When the plane channels stabilized, the cultivators in the towers who had been waiting for a long time immediately stepped into them.

In Tang Zhen's world, a huge plane channel slowly appeared. Compared to the slow opening speed of the Holy Dragon Warzone, the speed at which the plane channel was being built in the fifth Warzone was several times faster.

This was the difference in strength. Compared to this, there was still a long way to go in the Holy Dragon battle zone.

This plane channel was tens of thousands of meters high and almost occupied the entire sky. It was as if a terrifying crack had been cut open by a sharp blade.

Countless cultivators swarmed out of the crack like a Black Tide, heading towards the ruins where the giant bug corpse was.

The ground was covered with cultivators and vehicles. There were also some huge fierce beasts that were slowly driven forward by the cultivators of Lou Cheng. Their function was to drag the giant insect corpses.

In the air, there were all kinds of aircraft, countless cultivators, and strange-looking but handsome flying mounts.

The cultivators in the Holy Dragon battle zone were all shocked when they saw the terrifying giant insect carcass in the air. They never thought that there would be a creature of such a size in the world!

...

Chapter 1589 How to modify the giant bug warship?

"The city Lord of the fog tower pays his respects to Sir Tang Zhen!"

"Mang beast Lou Cheng pays his respects to Sir Tang Zhen!"

"Morning Star Tower's cultivator commander greets His Excellency Tang Zhen!"

"....."

Cultivators from Loucheng city with astonishing auras came in front of Tang Zhen. As they bowed and greeted him, they also indicated that they had brought people over.

Tang Zhen glanced at the cultivators who came to the city and found that many of them were the Lords of the city he was meeting for the first time. Many of them were his subordinates and brothers who had fought with him in the past.

Qian Long, Tai Seng, Yue Qianhua, and many other familiar faces appeared in front of Tang Zhen. After their routine reports, they started to talk to each other.

Now that they were all in high positions, the time they had to meet each other was getting less and less. Now that they had the opportunity to meet, they naturally had to have a good exchange.

Tang Zhen was similarly happy. These were his comrades who had gone through thick and thin with him. After seeing them, no matter how much pressure he felt, it immediately disappeared like smoke!

If it wasn't for the inappropriate time and place, he would definitely have drunk and chatted with these new and old friends.

"City Lord, are you really going to transform this thing into a warship?"

Qian Long's figure appeared. He had just made a circle in the air, and his face was still filled with shock.

He had seen many things, but he had never come into contact with such a huge creature. It was like a floating continent!

"That's right. What do you think?"

Tang Zhen smiled as he asked Qian Long.

"That's great, there's definitely no problem!"

Let's not talk about how much manpower and resources it would take to modify this thing! Qian Long said excitedly. It'll definitely be impressive once it's successfully modified!

I can't wait to drive it into the invasion after it's completed. I think the enemies will wet their pants when they see it!

Qian Long's face was filled with anticipation, and he couldn't help but let out a hearty laugh.

Since you like this giant insect warship so much, how about I give you the task of modification?"

Qian Long was so frightened that he shrank his neck. He hurriedly revealed an ingratiating expression as he spoke to Tang Zhen, "Don't, brother Tang. This kind of thing is really not suitable for a reckless man like me. Why don't you ask Tai Seng to do it? He's definitely more suitable than me!"

When Tai Seng, who was conversing with someone else, heard this, he immediately shook his head like a rattle and glared at Qian Long while repeatedly saying that he wasn't suitable.

This was not because they were trying to avoid the task. This project was too huge and of great significance to the Holy Dragon War zone. They needed someone reliable to take charge.

When it came to leading troops to war and commanding the cultivators in Loucheng to launch a plane invasion, both of them had an attitude of unyielding responsibility. However, in the face of this kind of work that required meticulous and patient work, they only felt restless.

Don't worry, I already have a candidate in mind. You should do what you're supposed to do. The most important thing is to get more world origins. You know, I've spent a lot of money to open the plane channel this time!

The two of them nodded. Even if Tang Zhen did not say anything, they would also be able to guess it. After all, the actions this time around were really not small.

It's worth it no matter how great the price is. This material suitable for modifying warships is priceless in itself, and it's hard to come by!

A few young people walked over slowly, their bodies full of vitality, but their tone carried a hint of seniority.

They were all top researchers from their original world and other worlds. There was a huge team behind them, which was also the source of Tang Zhen's confidence in daring to say that he would modify the giant worm.

As for their bodies, they were all host bodies that had been modified. For people like them, an abundance of energy was no different from adding wings to a Tiger.

"Greetings to the city Lord!"

A few of the young people in charge bowed to Tang Zhen. Soon after, they continued with a trace of excitement on their faces, my Lord, what form are you going to transform it into? Is it a base for plane invasion, or a search and attack type that can cross the void?"

After Tang Zhen thought for a moment, he said with an uncertain tone, my idea is to gradually upgrade it. After all, our Holy Dragon Warzone has just been established, and we can't compare with the old warzones in terms of resources. We can use it while collecting available resources until it's finally in perfect form!

After hearing Tang Zhen's suggestion, the few people in charge studied it and felt that this method was indeed feasible. It could also reduce the pressure on their shoulders.

I've studied the metal construction bugs before and found that their performance is amazing. You can say that they are an enlarged version of nanomachines. If they are reproduced on the giant bug's corpse, they can repair and reinforce the giant bug according to the blueprint that was designed in advance, and at the same time, build a new functional area.

At the same time, we can also build a zero-gravity absorption device on the giant bug warship to absorb the required materials directly from the ground. After sorting and smelting, the materials will be absorbed by the metal building bugs.

Tang Zhen imagined the scene of the giant insect battleship launching an invasion. Its incomparably huge size would cover the entire sky. While the enemy trembled, countless items would be sucked into

the giant insect battleship's stomach. This was simply the most classic scene of an invasion from another world!

With the addition of a group of fighter jets flying out of the giant worm battleships, they would destroy everything in their path, and the original plane invasion would become much easier.

However, wouldn't this kind of complete and utter suppression seem a little too much of a bully?

"In fact, in addition to moving the metal construction bugs onto the giant bug warship, we can also find a way to combine the loucheng with the giant bug warship. After all, in most cases, loucheng was the type that couldn't be moved and had poor mobility. If we can move together with the giant bug warship, it will undoubtedly speed up the progress of the war!"

In the current Holy Dragon War zone, other than the Holy Dragon City, which was built on a super warship and had the ability to float and move in the air, the other buildings were basically all buildings on the ground.

There were also some towers that could move for a short period of time, but they could not be as agile as Holy Dragon City.

However, the current Holy Dragon City represented great significance and would not easily participate in the invasion of the plane. Therefore, they could not expect it to help the other towers launch an invasion.

As for the completed sky warship, compared to the two behemoths, the Holy Dragon City and the giant insect warship, it was not even a shrimp!

The other cultivators were listening to the conversation between Tang Zhen and the others. While they nodded, they also expressed their thoughts.

I think we can also install a mobile teleportation base on the giant insect warship so that the Lou Cheng cultivators can return from the ground at any time. In this way, they don't have to carry a lot of supplies and can find a safe place to rest.

One of the city Lords suggested to Tang Zhen and the other people in charge after thinking for a while. it's definitely doable. You probably don't know the space inside this giant insect's body. It's absolutely astonishingly large. Not to mention modifying a teleportation base and a rest area, it can even fit an entire city!

One of the people in charge said with a smile. At the same time, he pointed at the hundreds of pairs of feet on the giant insect's corpse and continued to explain to everyone, "For a super warship, the most difficult problem is how to float. This requires extremely advanced technology and also consumes a lot of energy. Even if we have mastered some of the dark energy collection and usage techniques, we are still far from large-scale use."

however, the corpse of this giant worm has the ability to float. After modification, we can also control the special force field on its body to achieve free Ascension and descent. We can even use this force field to push the giant worm warship forward and backward!

but this kind of modification is very complicated, and it needs to be done through careful research and experiments. If this step is completed, the biggest problem of modifying the giant insect warship will no longer exist!

Looking at the excited face of the person in charge, the city Lords were all excited. When they looked at the giant worm's corpse in the air, they all had a glimmer of longing.

When the giant worm warship was completed, the strength of the Holy Dragon Battlefield would increase greatly. It would not be long before it became famous in the 3000 battlefields!

...

Chapter 1590 The ancient cave

Outside the ancient cave in the back mountain, a trace of anxiety appeared on the faces of the cultivators, and they seemed to be out of their minds.

The lava Dragon that had spewed out earlier had long disappeared. Instead, a Black Mountain peak that was filled with lava appeared near the cliff.

This was perhaps the description of cultivators moving mountains and filling the seas!

Anyone could tell that there must have been some kind of change in the ancient cave. Otherwise, there would not be such a scene of magma spewing out like a spring.

Despite their curiosity, they did not dare to act rashly and could only stomp their feet in anxiety.

This ancient cave in the back mountain was actually a mine in the sect. It produced Special Metals used to make weapons.

If the people in the sect wanted to forge weapons, they would slowly mine here. Once they had gathered enough for themselves, they would immediately give up mining.

The reason for this was that the mining and smelting process was too strenuous, which was simply a torture for the cultivators of the sect.

Therefore, cleaning up the ancient cave in the back mountain had also become one of the means used by the sect to punish disciples who had made mistakes. Anyone who worked here for a period of time would feel that there was no point in living.

The rarer something was, the more valuable it would be. It was precisely because this kind of ore was not easy to mine that its value was also extremely high. Usually, the sect would accumulate some and use it to exchange for urgently needed materials with other sects.

This was a Treasure Mountain that was not easy to gnaw on, but its value was there, and no one could deny it.

But now that the treasure Mountain was constantly decreasing, no one could guarantee that after today's incident, the ancient cave would still produce that kind of precious ore.

sect leader, we can't just wait like this. If something happens to the ancient cave, our sect will lose a large amount of income!

An old man next to the sect leader was so anxious that he was scratching his ears and cheeks. He looked at the small mountain of lava, his eyes full of regret.

Only God knew how many Special Metals su huanzhen had obtained. This time, he was probably going to make a lot of money.

An experienced person could tell at a glance that the color of the lava was not right. Only slag that had been tempered and extracted would have such a form.

Such a large-scale smelting and extraction was like snatching their wallets. This feeling was even more uncomfortable than cutting off the flesh of their hearts!

The most frustrating thing was that they couldn't afford to offend the people in the cave. They could only watch as the other party destroyed things without restraint.

senior brother MA is right. We really can't just watch like this. We should at least go in and take a look to find out what's going on.

this is the wealth left behind by our ancestor. We have an obligation to protect it. No matter how strong su huanzhen is, he has to be reasonable. Otherwise, no matter how big the world is, it will be difficult for him to move forward!

"Sect leader, why don't you call su huanzhen's master immediately and let him go in to take a look?"

Hearing the discussion of the cultivators around him, the sect leader was also annoyed.

He was afraid of Tang Zhen's strength, but he was also anxious to know what had happened in the ancient cave. The degree of anxiety he felt far exceeded anyone present.

After hesitating for a while, the sect leader gritted his teeth and said to the cultivators around him, "The ancient cave in the back mountain is an inheritance of my sect. Now that something has happened, it is reasonable to investigate it."

"Now that we all have this idea, let's go in and have a look. If there are any changes, we can deal with it together!"

hearing the sect leader's righteous words, the cultivators of the sect secretly rolled their eyes. they thought,"if you want to see it, then go ahead. why do you have to drag us along? we just want you to go up, but we don't want to go!"

However, since the sect leader's order had already been given, no one present dared to disobey. They could only brace themselves and follow behind, jumping down from the stone steps to the platform on the cliff top one after another.

They arrived at the entrance of the ancient cave with their hearts in their mouths. The cultivators then realized that the originally blocked interior was now unobstructed, and a dark passage appeared in front of them.

As for su huanzhen, who had entered this place earlier, she had long disappeared without a trace!

Since they had already come up, there was no reason for them to retreat. Furthermore, everyone was extremely curious about the depths of the ancient cave.

According to the sect's Secret History records, when the sect's base was first discovered, the back mountain cliff was already there. After the founding master discovered the secret of the cliff, he pondered how to mine it.

As a result, the outer shell of the cliff was extremely hard. After half a year of probing, they finally found a weak spot near the top of the mountain.

This was the current position of the cave entrance. Only those who knew this part of history would know why the cave entrance was chosen to be at such a high position.

This weak point was actually a soft and loose crack, which was cut and shattered by an unknown force, making it much easier to mine.

In fact, the crack had appeared because of the power of the void. It was only because the crack was small that the area of effect was limited. Otherwise, the cliff would have been split open!

The sect was able to grow by relying on mining those relatively soft ores. However, the area near the mine vein was still extremely strong, and no one cared about it even if it contained Special Metals.

However, the ancient cave suddenly collapsed, covering up the mine vein. If the cultivators of the sect wanted to get more Special Metals, they could only compete with those hard stones.

As for how su huanzhen found the crack at the bottom of the ancient cave, he must have accidentally found a crack in the collapsed rock and entered it without fear of death. That was how he got the chance and finally became a sector Lord of the tower world!

No one knew the cause and effect of all this, including the current sect leader.

Carefully advancing along the cave, it didn't take long for the sect's cultivators to arrive at the bottom of the ancient cave. When they saw the crack between the planes that was emitting the aura of another world, everyone present was dumbfounded.

"What the hell is this?"

A cultivator couldn't help but ask. When he turned to look at the crowd, he found that most of them were dumbfounded.

For ordinary cultivators, such a high-end thing as a crack between planes was something they had no chance to come into contact with. They had never even heard of it.

On the other hand, the sect leader's face was full of excitement. Among the crowd, his cultivation was the highest and his knowledge was the most extensive. While the others were still confused, he had already guessed the origin of the plane crack.

A burst of ecstasy rose from his heart. He did not expect that there would be such an opportunity hidden in the ancient cave in the back mountain!

could it be that su huanzhen's sudden increase in strength was due to the crack between the planes? "

The more the sect leader thought about it, the more likely he felt this was the case. Otherwise, there was no way to explain the huge change in his body!

If a small disciple like him could rise to the top in a single step, it meant that there must be unimaginable benefits behind the crack. My strength was far superior to his, so I might be able to reap even greater benefits!

Thinking of this, the sect leader could no longer suppress the excitement in his heart. He turned to the cultivators and ordered, "It's very dangerous here. Su Huanzhen might be dead. Get out of here. No one is allowed to come in without my permission!"

Who would have thought that after he gave the order, those cultivators from the sects didn't move. This made his face immediately turn gloomy.

"What's going on? Don't tell me you're not even listening to my orders?"

As he spoke, a hint of killing intent flashed through the sect leader's eyes. He would kill anyone who wanted to snatch this opportunity from him!

"Sect leader, we also want to go in and take a look. Please allow us to do so!"

A cultivator from a sect looked at the crack and couldn't help but swallow his saliva. His eyes flashed with greed.

...

He wasn't the only one who had this expression. The other cultivators had the same expression. This made the sect leader a little suspicious. Could it be that they had all seen through the origin of the crack?

The sect leader's eyes twitched, and he almost cursed out loud.

It turned out that when he turned around, the crack between the planes suddenly expanded for some reason. A strange scene of another world appeared in the crack that was previously covered by clouds.

At this moment, if the sect's cultivators still didn't know what this meant, then they had really cultivated in vain!
