

Alternate 201

Chapter 201: The great battle against the four-legged flying dragon

As the four-legged flying dragon approached, the alarm above Holy Dragon City sounded again. All the city guards entered battle mode!

Looking at the Black Mass of four-legged flying dragons in the sky, Tai Seng's expression was solemn.

After putting down the binoculars in his hand, he turned to look at the various combat teams behind him and shouted, "once these monsters enter shooting range, open fire immediately. There is no reason between us humans and monsters!

As soon as it finished speaking, a four-legged flying dragon let out a low roar and swooped down towards the Holy Dragon City, its thin and sharp claws aiming to grab Tai Seng.

Tai Seng was right, there was no reason between humans and monsters, especially for a Savage monster like the four-legged flying dragon.

The only thing the four-legged Wyverns wanted to do when they smelled the Dragon eggs breaking was to tear up all the weak creatures on the ground and swallow them!

As for the explanation, hehe, the noble and conceited four-legged flying dragon didn't need an explanation!

The black-feathered Birdman's scheme had succeeded. From the very beginning, the battle between Holy Dragon City and the four-legged flying dragon was destined to be inevitable.

When the four-legged flying dragons entered their attack range, all the weapons on the city wall opened fire at the same time. Countless metal bullets flew into the sky, dealing an unexpected blow to the four-legged flying dragons.

Blood splattered all over the four-legged flying Dragon's body, and the excruciating pain struck, causing the four-legged flying Dragon's formation to be in chaos.

A few unlucky four-legged flying dragons were hit in the eye sockets and other vital parts by the anti-aircraft machine gun bullets. After wailing, their huge bodies fell down with the wind. They crashed into the ground of the city wall, leaving long trails of blood. They even knocked down a few Holy Dragon City soldiers who could not Dodge in time!

After struggling for a while, the four-legged flying dragons collapsed on the city wall and never moved again.

A rocket missile flew up from the city wall, leaving a trail of green smoke behind it. It hit the chest of a four-legged flying dragon, blasting a terrifying bloody hole more than a meter wide in its chest.

The four-legged flying dragon didn't even let out a wail before it fell to the bottom of the city wall and became a pile of rotten meat.

The rest of the Wyverns were not in a good state either. Because of the dense barrage of bullets, all of the Wyverns were covered in blood. Many large-caliber bullets had bitten into their bodies, leaving bowl-sized wounds. Blood was constantly spurting out of these wounds.

A few four-legged flying dragons broke through the blockade of bullets and landed on the Holy Dragon City with their bloody bodies.

They roared in anger, waving their wings and sharp claws. Their huge mouths full of sharp teeth were biting everywhere, trying to bite the Holy Dragon City soldiers who were shooting at them into pieces.

However, before they could show their brutal nature, a group of cultivators from the Holy Dragon City surrounded them and shot a dozen Scorpion stingers at the four-legged flying dragons.

The sharp poisonous thorns almost pierced through their skulls, and the rapidly spreading venom made them feel dizzy.

A few energy bombs from the Scorpions' mouths blasted the Wyvern's neck. With a miserable howl, the Wyvern's neck was blown into a bloody mess. Its white neck bones were exposed to the air, and blood spurted out like a fountain.

In the blink of an eye, the four-legged flying dragons were completely killed by the cultivator team. Their huge corpses were scattered on the wide passage on the city wall.

On the city wall not far away, Tyson threw away his rifle and was holding an alloy sword, fighting a huge male four-legged flying dragon.

&Nbsp; after using the techniques of a cultivator, Tai Seng became extremely fierce. He waved his dark alloy sword like a matchstick, leaving terrifying wounds on the four-legged flying Dragon's body. Its skin and flesh rolled up and its bones were exposed.

The four-legged Wyvern roared in pain and kept jumping and biting, trying to kill the lowly creature that brought great pain to it. But no matter how hard it tried, it couldn't hurt the damn lowly creature. Instead, it was slashed by it one after another.

There was more and more sticky blood on the ground, and the four-legged flying dragon knew that it was all its own blood. It felt weak, and if it did not kill the other party quickly or escape from this place, it was likely to die.

With their noble bloodlines, they had intelligence that ordinary monsters rarely had in the sky, so the unfavorable situation in front of them made it a little afraid.

Rolling its huge eyes, the four-legged flying dragon charged forward. It looked as if it was pouncing toward Tai Seng, but in reality, it was using the force of its pounce to flap its wings and fly up from the ground.

"Bastard, don't even think about running!"

die! Tai Seng let out a furious roar and jumped up into the air. He slashed out with his alloy sword, but it just so happened to cut into the vital part of the four-legged flying Dragon's abdomen that it had been carefully defending!

“Pfft!”

More than half of the alloy sword had cut into the four-legged flying Dragon’s abdomen. With a “ crash “, the four-legged flying dragon wailed in pain. A large mass of intestines and dirty blood fell out of the huge wound and drooped to the ground.

The four-legged flying dragon dragged tens of meters of intestines and flew for less than a hundred meters before it fell head first under the Holy Dragon city’s walls!

Tai Seng wiped off the dirty blood on his face and laughed out loud.

“The leader is mighty!”

The Holy Dragon city’s soldiers cheered in unison, causing Tai Seng to feel extremely proud.

As soon as Tai Seng killed a four-legged flying dragon, the battle between the thousand Dragons was also in full swing!

A huge four-legged flying dragon was pinned down by the thousand Dragons. His body was like a ghost, constantly moving around the four-legged flying dragon at a dazzling speed. His speed was getting faster and faster, but the four-legged flying Dragon’s movements were getting slower and slower.

A minute later, the thousand Dragons suddenly left the four-legged flying Dragon’s body and crossed its arms in a relaxed manner.

Just as the spectators were confused, the four-legged flying dragon that was attacked by the thousand Dragons suddenly let out a miserable howl. Countless pieces of flesh and blood began to fall from its body, and the crackling sound of flesh falling could be heard.

In the blink of an eye, the four-legged Wyvern had turned into a huge skeleton from the head down. Piles of flesh and blood were piled up under its feet, looking extremely miserable.

“Si si si ...”

Gasps rang out from the crowd as everyone looked at Qian Long with trembling eyes.

“F * ck, this is a little perverted!”

The rich Captain glanced at it and couldn’t help but grumble. However, he was just watching the show. A four-legged flying dragon that he had locked onto with his machine gun was now covered in wounds. In less than half a minute, this four-legged flying dragon would die without a doubt!

This group of four-legged flying dragons, who had come with an aggressive momentum and planned to bathe the Holy Dragon City in blood, were now all dead and injured. Their corpses and flesh were scattered both inside and outside the city walls, dyeing the entire city wall with a layer of bright red.

perhaps it was a special characteristic of dragon blood. since this battle, the walls of holy dragon city had maintained this color. no matter how the wind and rain hit, the color had not faded at all!

In front of the Holy Dragon City, a female four-legged flying dragon covered in blood and bullet marks fell to the ground, already in a state of death.

Tang Zhen stood in the Plaza and silently looked at the female four-legged flying dragon in front of him. After thinking for a moment, he placed two complete dragon eggs in front of it.

After seeing the dragon egg in front of her, the female four-legged flying Dragon's huge eyes moved and let out a sorrowful cry. It stared at the dragon egg for a moment before looking at Tang Zhen. From its eyes, Tang Zhen seemed to have seen a trace of pleading.

"Don't worry, I'll take good care of these two dragon eggs and hatch them.

Also, I didn't take your dragon egg. Someone stole it and framed you, leading you to attack the Holy Dragon City. I already know who it is, so I will help you take revenge!"

Tang Zhen growled in a strange voice. It was the dragon clan's language that he had translated after using the [universal language translator].

The four-legged female Wyvern seemed to understand Tang Zhen's words. It opened its mouth twice as if it wanted to say something, but in the end, it didn't utter a single word. After struggling for a while, it completely stopped moving.

From the beginning to the end, the female four-legged flying dragon's gaze never left the two dragon eggs placed together!

?

Chapter 202: -chariot strike, target: Blackfeather tower

After the great battle, the Holy Dragon City walls were filled with wolves everywhere.

The residents came to the city wall to help clean up the battlefield. They used mud and water to dispose of the fishy dragon's blood, and then loaded it into a truck and piled it up in an open space in the back Valley.

According to a resident, the soil that contained dragon blood was very rare. Many precious medicinal herbs grew on this soil, so it must not be wasted.

The four-legged flying Dragon's body was transported under the mother tree, and then its skin and bones were peeled off, and the minced meat and internal organs were thrown to the mother tree as 'snacks'!

The injured Holy Dragon City soldiers had all been properly treated. Fortunately, they were only lightly injured and would recover after a period of rest. However, the injured soldiers felt a little embarrassed about their injuries, as they had been injured by the four-legged flying Dragon's corpse.

Compared to the wounds they had gotten from fighting, this kind of injury seemed a little ridiculous, so the injured soldiers felt that their self-esteem had been hurt.

As it turned out, these guys were overthinking things. After being lectured by Tai Seng, they also started to smile.

Tang Zhen kept the two dragon eggs properly and checked the cleaning progress of the battlefield. He then said to Tai Seng and Qian Long who were behind him, " "The four-legged flying Dragon's attack this time was completely framed by the black-feathered Birdman!

They brought the four-legged flying dragon's eggs to the Holy Dragon City, then broke two of the eggs, which caused the four-legged flying dragon to go crazy and attack the Holy Dragon City. That's why the black-feathered birds are the main culprits."

When Qian Long and Tai Seng heard this, they immediately cursed in unison before raising their heads to look at Tang Zhen, " "City Lord, this black-feathered Birdman is really hateful. He actually dared to plot against Holy Dragon City. Are we just going to let this matter go?"

The two of them were very familiar with Tang Zhen's character. He had always been someone who would return the favor ten feet back to the person who showed him an inch of respect. It would be strange if he could swallow this anger after being plotted against by the black-feathered Birdman this time!

Since he had called the two of them and explained the cause and effect of the battle, he must have made a decision in his heart.

Tang Zhen pointed at a four-legged flying dragon that didn't die but was tied up and dragged away. since the black-feathered Birdmen dared to do such a thing, they should be prepared to be attacked by me. They thought that they did it without anyone knowing, but they didn't expect me to see the scene of the black-feathered Birdmen fleeing in panic.

After speaking up to this point, Tang Zhen's face was filled with ridicule as he coldly said,"Although my Holy Dragon City doesn't have many people, in terms of combat power, I dare say that Holy Dragon City is definitely not inferior to any of the nearby cities.

This black-feathered Birdman dared to mess with the taisui's head, which is no different from digging their own grave. Since they are seeking death, I don't mind burying them with my own hands."

After he said this, Tang Zhen's expression turned serious as he ordered the two people in front of him, I've decided to set off tomorrow morning. We're going to attack Blackfeather tower. All the war chariots will be deployed. Except for the necessary city guards, all the other combat personnel will join the battle. Do you understand? "

Hearing this, Qian Long and Tai Seng were extremely excited as they lightly punched their chests and half knelt on the ground, " "This subordinate will do as you command!"

city Lord is going to war, and it's a city of a foreign race!

This was the first time the Holy Dragon City was attacking a foreign city. As his orders were passed down, all of the Holy Dragon city's soldiers entered a state of readiness. They excitedly adjusted their war chariots, carried their ammunition, and maintained all their equipment.

The hatred and humiliation they felt towards the foreign races made the Holy Dragon City soldiers hold their breath. They looked forward to the early arrival of the next day so that they could have a good battle with the black-feathered Birdmen!

In Holy Dragon City, participating in battles was the best way to obtain wealth and merit points. He believed that it would not take long for these Holy Dragon City soldiers to have the opportunity to be promoted to high-level residents!

The night quietly passed as everyone waited in anticipation. The warm sun shone on the increasingly beautiful sacred Dragon Valley, and the air was filled with a 'peaceful' atmosphere.

In the square of the sacred Dragon Valley, the fully armed soldiers were in high spirits. They stood beside the war chariots of their respective groups and waited for Tang Zhen's orders.

Tang Zhen was wearing a set of demonic soldier armor and a black cloak. He stood firmly on a military jeep while Tai Seng stood beside the Jeep.

He glanced at the Holy Dragon city's Warriors, who were filled with anticipation. After smiling, he loudly said, "Ever since the Holy Dragon City was established, we have never shown weakness to any enemy. This is because we have the ability to look down on all heroes and not lose to any force.

The monsters in the wilderness, the Kobold Army, the undead army, the black-feathered Birdmen, and the four-legged flying dragon were all once hostile to the Holy Dragon City. Now, they were buried in the ground in front of the Holy Dragon City forever. This was the proof of the Holy Dragon city's martial power!

A hundred thousand enemies were annihilated in the snap of a finger. With this, my Holy Dragon City dares to dominate a region. Who would dare to be unconvinced?"

now, the black-feathered Birdmen are using the tactic of killing with a borrowed knife to lure the four-legged flying dragon to Holy Dragon City. They are trying to slaughter the residents of Holy Dragon City so that they can reap the benefits.

It's a pity that they underestimated the strength of my Holy Dragon City and the bravery of my Holy Dragon city's soldiers. Therefore, their scheme is doomed to fail!

This time, we're going to attack the black-feathered Birdmen and wash black feather Tower City with blood. We'll let those foreign tribes know the consequences of offending our Holy Dragon City.

Those who offend the Holy Dragon City will have to suffer the blood-red butcher's knife of the Holy Dragon City!

I order the combat troops to attack Blackfeather Tower City to set off immediately!"

As soon as Tang Zhen's voice fell, all the soldiers raised their right fists and knocked on their chest armors, producing a light "PA" sound. Tang Zhen and Tai Seng returned the greeting at the same time!

All the chariots started in unison, and in a series of rumbling sounds, the Warriors quickly stepped off the chariots and closed the rear doors.

On each tank, a machine gunner poked his head out. They were wearing helmets and goggles, with their hands on the machine guns, looking forward with a cold expression.

With two military jeeps in the lead, more than twenty wasteland war chariots lined up in a row. Under the gazes of the Holy Dragon City residents, they slowly drove out of the gate under the city wall!

may the Holy Dragon City be prosperous and invincible!

A loud and clear roar came from the city walls. With tears in their eyes, the Warriors in charge of defending the city pounded their chest armors and shouted the blessing out of their throats. They watched as the chariots whizzed forward, kicking up billowing smoke and dust on the gravel plain!

An Assault Helicopter slowly rose from the city wall. Under the gaze of all the soldiers, Tang Zhen caught up with the armored vehicles that had already gone further and further away!

A strange sound came faintly from the desolate gravel plain, and the gravel on the ground began to shake slightly.

A few low-level monsters raised their heads and looked in the direction of the sound. They growled uneasily, as if a terrifying giant beast was slowly approaching from the distance.

Not long after, a long line of wasteland war chariots appeared on the horizon. They made a loud roar and smoke billowed along the way. On top of these Steel Beasts, an Assault Helicopter was circling in the sky, leading the way.

The monsters stared blankly at the convoy that was getting closer and closer. They seemed to be puzzled. These strange-looking big guys were clearly not monsters, so why did they make them so frightened?

“Pa pa pa!”

A row of machine gun bullets rained down, and the monsters were turned into a pile of minced meat in the blink of an eye, embellishing the pale gravel plain with a bright red color. It was so glaring!

“Hahaha, I’m very accurate, right?”

A burst of unbridled laughter rang out. Other than the amusing nouveau riche Captain, the other Holy Dragon City soldiers would never let out this kind of laughter that was more unpleasant than crying!

The car rumbled as rows of wheels passed by, crushing the monster’s remains into dust. Then, it sped towards the mountain peak that reached the clouds.

?

Chapter 203: Let’s cut the crap and talk after the fight

As the Holy Dragon city’s convoy gradually approached, the sentries of the black-feathered Birdmen had already noticed something unusual.

A group of Blackfeather Birdmen who were in charge of guarding the city flew into the sky and slowly approached the convoy. However, they had only flown less than half the distance when they stopped their investigation in shock. They turned around and returned to Blackfeather Tower City in a hurry.

The reason why the Blackwing Birdmen had such a huge reaction was because they saw the nightmarish thing, the assault Helicopter flying at a low altitude like a messenger of death!

The painful memory left behind by the last time was something that the black-feathered Birdmen did not dare to forget for a long time. Even the old Birdmen sighed when they talked about this matter. They sighed that the prestige of black feather Tower City was no longer there, which was why they had suffered such a great humiliation that they had not suffered for nearly a hundred years!

Lowly human beings came to their door, destroyed their buildings, and took away a million of their brains. Wasn't this a great humiliation?

The younger generation of the black-feathered Birdmen were all indignant. They all shouted that they wanted to wash the Holy Dragon City with blood, kill all the humans inside, and hang them on the cliff of black feather Tower City to dry.

However, every time they thought about the terrifying power of the assault helicopters, they couldn't help but feel a sense of guilt. After all, the power of those things was truly terrifying!

As the saying goes, "what you're afraid of comes." The black-feathered Birdmen were just expressing their opinions and thinking about how to destroy the armed helicopter. They did not expect that in the blink of an eye, this terrifying metal lump would attack again, and even bring more strange metal vehicles!

hurry back and report! We must let the city Lord know about the enemy's situation as soon as possible!

With this thought in mind, the few black-feathered Birdmen quickly returned to Blackfeather Tower City.

"Tycoon Captain, shoot them down!"

As soon as Tyson gave the order through the walkie-talkie, the captain of the team immediately raised his machine gun, aimed, and pulled the trigger. After a series of rapid gunshots, several black-feathered Birdmen in the sky immediately screamed and fell to the ground in a pool of blood and feathers.

"Pa!"

The consequences of falling from the sky were obvious. None of the three black-feathered Birdmen were spared. They were all smashed into pieces of meat mixed with feathers!

No warrior paid any attention to the three unlucky black-feathered Birdmen. The chariot ran over their remains, leaving a trail of blood.

Compared to the other black-feathered Birdmen, these three guys had only left one step earlier. If they harbored any resentment, they could go to their city Lord. It was because of his obstinacy that led to today's situation.

Less than one kilometer away from Blackfeather tower, all the chariots were arranged in a line. Warriors jumped off the chariots with shields in their hands and put them on the ground, forming a metal barrier.

The soldiers had their backs against the chariots as cover, their weapons loaded and waiting for the order to open fire.

The machine gunners and mortar Gunners were also ready, staring at the tower of black feathers with hostility.

In addition, a super light howitzer was also carried down from the vehicle by several Holy Dragon City cultivators. Several Holy Dragon City Warriors who had just received training were carrying cannonballs and aiming the muzzle at the entrance of Blackfeather tower.

When everything was ready, Tang Zhen issued an order. The Super light howitzer immediately roared and a large-caliber grenade was launched!

“BOOM!”

More than a dozen Blackfeather Birdmen who were hiding at the entrance of the cave were blown away by the cannonballs. The collapsed gravel buried the entrance. At the same time, nearly a thousand Blackfeather Birdmen flew out from countless entrances, forming a dark cloud above Blackfeather tower.

They hovered in the air for a moment before swarming toward the Holy Dragon city’s convoy.

Tang Zhen’s eyes narrowed as he looked at the black-feathered Birdmen in the sky who were holding javelins and rocks. He then gave the order to attack!

All the weapons fired at the same time. The different firing sounds mixed together to form the most terrifying war drum of death. The hot metal bullets sealed the entire sky in an instant and enveloped countless black-feathered Birdmen.

The sky above their heads immediately turned blood red. Countless black-feathered Birdmen screamed in pain. After their bodies were hit by the bullets, their black feathers flew in all directions, filling the entire sky.

In the process of falling, these black feathers were soaked by the blood that fell like a rain, turning into a strange color, and fell on the ground full of gravel.

“Pi Li pa la!”

Like a swarm of bees being roasted by poisonous smoke, these black-feathered Birdmen kept falling to the ground. Soon, the ground was covered with them. Then, the falling black-feathered Birdmen smashed into the bodies of their clansmen. Although they did not die from the fall, the gunshot wounds on their bodies were enough to kill them.

The black-feathered Birdmen had only charged out for a few dozen meters, but they had already lost a third of their men. It was a heavy loss!

The master of Blackfeather city, who was hiding at the back, felt his heart bleeding. He shouted with all his might, “ damn you, human. You have gone back on your word. After taking away all our savings, you have come to attack our city and kill our people. Are all you humans so despicable? ”

The master of Blackfeather city’s roar was like a cry, causing the panicking Blackfeather Birdmen to feel the same way. As they dodged, they all glared at the ground, cursing the lowly humans for their shameless behavior.

The black-feathered Birdman’s hatred towards the human race grew even stronger. He swore in his heart that he would kill any human he saw in the future.

Therefore, the hatred between the human race and the alien race could never be reconciled. Once they fought, it would be a life and death battle!

Tang Zhen did not even care about the governor's roar. As soon as he finished speaking, Tang Zhen activated the cannon on the military helicopter and began to chase after the governor of Blackfeather city.

The power of the terrifying cannon was far beyond that of ordinary firearms. A single bullet would often penetrate through all the black-feathered Birdmen in its path, and then fall in a string.

The master of Blackfeather city was extremely shocked. He quickly flew up and down in the air to avoid Tang Zhen's attack.

However, the way it dodged was very sneaky. It used the bodies of its residents as cover. Therefore, its chance of survival was completely exchanged by the huge sacrifices of the residents.

Seeing the actions of the Lord of Blackfeather city, Tang Zhen laughed loudly through the loudspeaker, "You look so righteous and you keep saying that you're protecting your own residents. Is this how you protect them? Using the residents' bodies as a cover while hiding in the back to escape, how shameless!"

The master of Blackfeather city was unmoved by Tang Zhen's mockery. He continued to Dodge the bullets from the cannon. At the same time, he shouted at Tang Zhen, "you know who is the shameless one!"

Seeing the shameless look on the Blackfeather City master's face, Tang Zhen sneered. He no longer paid any attention to this shameless fellow. Instead, he controlled the cannon and continued to chase after him.

The dark clouds that had covered the sky had already dissipated, and the black-feathered Birdmen in the air were getting fewer and fewer.

There were still some brave warriors among the Blackfeather Birdmen. After they rushed through the rain of bullets, they were covered in blood. They threw the javelins and gravel in their hands at the Holy Dragon city's troops, but they were soon shot down by the whistling bullets.

The Holy Dragon City had already prepared countermeasures against the black-feathered Birdmen's attack. The Warriors only needed to raise their metal shields to block the attack from the sky.

These metal shields were able to block the head-sized rocks and the javelins, so the attacks of the black-feathered Birdmen were not effective.

Moreover, under the interception of the dense barrage, only a few black-feathered Birdmen could rush over. They could not pose a threat to the Holy Dragon city's Army at all.

From the beginning of the battle, it was a one-sided slaughter!

?

Chapter 204: Doomsday of black feathers, the elegy of humanity

The number of black-feathered Birdmen in the sky was getting smaller and smaller, but the corpses on the ground were getting more and more. The outcome of this battle was self-evident at this point.

The empty land in front of Blackfeather tower had completely become the eternal burial ground of the Blackfeather Birdmen. Their dead souls would be bystanders, watching Blackfeather tower, which had a history of hundreds of years, walk towards destruction.

Tang Zhen turned off the cannon and stopped his pursuit of the Blackfeather City Master. He looked at the sky in front of him silently. He looked at the battered and exhausted Blackfeather City Master as if he was looking at a stray dog.

With Tang Zhen's current level of cultivation, killing the governor of Blackfeather city was a matter of a single thought. When this boring game of chasing and killing ended, it would mean that the death of the governor of Blackfeather city had arrived.

Thousand Dragons looked coldly at the Lord of Blackfeather city, who was trying to escape. He grabbed a bow and shot an arrow at the Lord of Blackfeather city, who was dodging the bullets.

The arrow was like a gust of wind, brushing past the master of Blackfeather city's cheek, causing him to break out in a cold sweat.

There were only a few Blackfeather Birdmen left in the sky. At that moment, almost half of the muzzles were aimed at the Lord of Blackfeather city. Even with his level four cultivation, he was still unable to Dodge.

The demonic soldier armor on his body had been shattered. A few bullets had hit his unprotected wings, causing the Lord of Blackfeather city's flying posture to become unstable. However, he still flapped his wings desperately, trying to escape to a further place.

As for the black feather tower behind it, it had no time to care about it.

The only thing it wanted to do now was to run as far away as possible. As long as it could keep its life, there was still hope.

The master of Blackfeather city was well aware of why the Holy Dragon City had come to attack them. He cursed his two incompetent subordinates in his heart, while he was secretly shocked by the Holy Dragon city's terrifying combat power.

Yesterday, when the four-legged flying dragons attacked Holy Dragon City, he had hidden in the distance and witnessed a large group of four-legged flying dragons flying across the sky. Such a terrifying lineup made the Lord of Blackfeather city, who was a Sky Race, secretly shocked.

If black feather Tower City encountered these four-legged flying dragons, it would probably suffer heavy casualties, and the tower might even be destroyed!

Originally, they thought that the Holy Dragon City would suffer a heavy blow, or even be razed to the ground by the four-legged flying dragon. However, they did not expect that after only one day, the Holy Dragon city's Army would come over aggressively and kill almost all the residents of the city!

The master of Blackfeather city had thought that Holy Dragon City was a Porcupine, and that he could do whatever he wanted to it after peeling off its skin.

Unfortunately, the master of Blackfeather city had made a mistake. The Holy Dragon City was not a Porcupine, but an evil spirit with a Painted Skin. Anyone who dared to lift its skin and provoke it would be swallowed whole!

It seemed that he had been wrong this time. Because of his vanity, he had destroyed the city of black feather tower that had been passed down for hundreds of years. Those dark feather people who had died in the battle would never forgive him.

The governor of Blackfeather city flew as his thoughts ran wild. He did not notice that in front of the Holy Dragon city's convoy, Tang Zhen had jumped down from the military helicopter and walked to the light howitzer.

Tang Zhen, who had an abundant amount of money, had already raised his [super shooting assistant] to the top level and merged it with the map. He now had the ability to shoot at a distance beyond sight!

Through the view of the map, coupled with the assistance of the Super light howitzer in front of him, Tang Zhen could hit any target he locked onto within a ten-kilometer radius of the map!

After switching to the map, Tang Zhen saw the Lord of Blackfeather city in the sky. He hesitated for a second before locking onto him.

As long as he fired this Cannonball, it would mean that the Blackfeather Tower City with hundreds of years of history would be completely destroyed!

Tang Zhen was very clear that in the future, the Holy Dragon City would be the only ruler of this land. It was time for old forces like Blackfeather Tower City to leave.

A new era was about to begin!

“BOOM!”

A large-caliber grenade whizzed out of the muzzle, drawing an arc in the sky. It landed directly on the Lord of Blackfeather city, who was wearing the demon soldier's armor and had become a small black dot.

The master of Blackfeather city, who was in mid-flight, suddenly felt a huge force coming at him. The fear of death filled his entire body, but before he could let out a cry of despair, he heard a loud noise.

The sky bloomed like a beautiful firework. It was the last radiance of the Lord of Blackfeather city's life. The last Lord of Blackfeather city did not live or die with his city. Instead, he died a humiliating death under a howitzer, not even his bones left!

all right, now you can start to clean up the city. Pay attention to your safety. If you encounter the remaining residents of the city, just clean them up!

Tang Zhen slowly withdrew his gaze from the sky, turned his head, looked at Tai Seng, and ordered.

“Yes, sir!”

After Tai Seng knocked on his chest plate, he called out to his Warriors, and all of them immediately rushed towards Blackfeather tower. Qian Long led the cultivator battle team and followed closely behind, each of their faces filled with killing intent!

Tang Zhen took out a cigarette from his pocket and extended his finger to the end of the cigarette. A yellow and white flame rose from his fingertip and directly lit the cigarette.

After taking a deep breath, Tang Zhen walked through the tunnel that was filled with the remains of the black-feathered Birdmen with heavy steps and slowly walked towards Blackfeather Tower City.

Due to the black-feathered Birdmen's natural advantage in flying, they had built towers similar to lone peaks. It was extremely difficult for the races on the ground to reach the top of the towers.

However, this matter was not difficult for Tang Zhen. With the activation of the [terrain transformation plug-in], a long and wide sloping passage appeared under Blackfeather tower, which was nearly 300 meters high. The Holy Dragon City soldiers who had just arrived directly stepped on the ramp and rushed up.

As they ran along this godly slope, the confidence of the Holy Dragon city's soldiers exploded once again. Their respect for Tang Zhen increased day by day!

With Tang Zhen's attack, Blackfeather Tower City no longer had any natural barriers to rely on. Destruction was only a matter of time!

A few minutes after the Holy Dragon city's soldiers charged into Blackfeather tower, Tang Zhen slowly walked up the ramp. He looked at the Blackfeather Birdmen who flew out of the caves in a panic and were shot down one by one by the machine gunners who rushed over. His face remained expressionless.

This was the outcome of being conquered. Because there was no value in keeping them alive, there was no need to live. It was better to be in vain than to let them go, or there would be endless trouble in the future!

In the endless wilderness, the human race's fate might have been even more tragic. Without a strong backer, the human race's lives were worse than grass, and they were constantly struggling to survive in the fear of hunger, slavery, and death.

Every time he thought of this, Tang Zhen's heart would harden. His attitude towards these hostile foreign races would also become colder.

Those who are not of our race will definitely have a different heart. In the endless wilderness, this is indeed the case!

There were two Holy Dragon City soldiers standing guard at the entrance of Blackfeather tower. When they saw Tang Zhen walking over, they immediately pounded their chests and saluted respectfully. Their waists were as straight as a pine tree, and their eyes were filled with reverence.

Meeting such a city Lord in this life, he should serve with his life to show his loyalty!

It was Tang Zhen who led them out of the sea of suffering. From then on, they could eat and wear warm clothes. They became the most envied residents of Lou city by countless Wanderers. They no longer had

to worry about their wives and children starving or freezing, their corpses lying in the wilderness, and no one to take care of their young!

Most importantly, after becoming Warriors of the Holy Dragon City, they felt incomparable glory. Those foreign races who used to run amok and insult humans without restraint had now become skeletons in front of the Holy Dragon City. Those who dared to provoke the Holy Dragon city's enemies would not have a good end!

As a warrior of Loucheng city, he could protect his home and defend his city, defend against foreign enemies, and kill the alien races. What more could he ask for in his life?

?

Chapter 205: The despairing old Birdman (1)

The inside of Blackfeather Tower City was filled with traces of battle, and the air was filled with a faint bloody smell.

Tang Zhen walked for a long time in the tunnel, all the way to the city Hall of Blackfeather tower. Other than the splattering blood, he did not encounter a single Blackfeather Birdman. It was as if all of them had disappeared from this world.

However, if one followed the trail of blood, they would find a large house filled with the residents of black feather tower. They would be sleeping here forever!

To live and die with Lou Cheng was their best ending.

The sound of fighting was heard. Tang Zhen looked towards the source of the sound and discovered that it came from a cave not far away.

More than a dozen Holy Dragon City soldiers raised their guns and aimed at an old black-feathered Birdman. A little Birdman was curled up beside it, shivering and sobbing.

The old Birdman held a magic dagger in his hand and was currently holding it to the neck of a Holy Dragon City soldier.

The old Birdman seemed to know the power of firearms. It was now holding the little Birdman tightly behind it. It held the Holy Dragon City soldier in its arms and slowly retreated to the entrance of the cave.

Tang Zhen walked over. The soldiers quickly opened up a path and let him walk to the front.

After sizing up the soldier, Tang Zhen turned to the old Birdman and coldly said, "Let go of my Warriors, or you will die!"

The old Birdman laughed bitterly when he heard this. After sizing up Tang Zhen, he asked in a hoarse voice, "Are you the Holy Dragon city's city Lord? You're indeed extraordinary to be able to speak the dark wing tribe's language!"

Seeing that Tang Zhen didn't reply to his question, the old Birdman continued, now that you've massacred all of the dark wing tribe, the hundreds of years of inheritance of dark wing Tower City has ended. Are you still not going to stop and let the dark wing tribe continue to have some of our bloodline? "

the dark wing tribe only has themselves to blame for what they have today. You can't blame anyone else!

Tang Zhen coldly snorted. He glanced at the old Birdman whose face was filled with sorrow and said, you and I belong to different races, and you foreign races have always been too much of a bully. The enmity between the two sides has reached the point of no rest. Do you think I will give the enemy a chance to rise again? "

"Hehe, this is simply the biggest joke in the world!"

Tang Zhen's reply caused the old Birdman's expression to change once again. In an instant, his face was ashen. He squirmed his mouth a few times, but did not make any sound. He only looked at the little Birdman who was hugging his legs with a tender gaze before raising his head to look at Tang Zhen.

"It's just as you said. It's our own fault that tower of black feathers was destroyed. I have nothing to say. I just want to make a deal with you.

the treasure vault in Blackfeather city is extremely well-hidden, and without any clues, you won't be able to find anything even if you tear down this mountain.

I'll use the location of Blackfeather city's treasure vault in exchange for my grandson's and my life. What do you think?"

Tang Zhen swept his eyes over the little Birdman who was filled with tears. He said to the old Birdman,"I can let your grandson go, but you have to stay!"

The old Birdman was so furious that his hair was standing on end. The hand that was holding the knife was also trembling as he roared at Tang Zhen,"City Lord, you're so cruel. How could my grandson survive alone in the endless wilderness at such a young age? what's the difference between this and killing him?

Don't force me, or I'll kill your warrior and drag him down to be buried with me and my grandson!"

Tang Zhen shook his head as he looked at the old Birdman who was clearly in a state of mental breakdown. He once again spoke in a decisive manner, I'll say the same thing. You can only let your grandson go. Whether he's Dead or Alive, he's still a descendant of Blackfeather city. I've done my best. Don't push your luck, or neither of you will leave!

The old Birdman was stunned for a moment, then laughed bitterly a few times. He turned around and looked at his little grandson with a dotting gaze, saying softly, "Little treasure, go on your own. The further you go, the better. In the future, when grandfather isn't by your side, you have to be stronger.

Remember to live a good life in the future. Don't ever think about scheming against others, understand?"

The little bird Man cried and refused to leave. After the old bird Man advised him, he angrily slapped the little bird Man and knocked him to the ground. He turned his head and roared, "Get lost, don't let me see you again!"

The little Birdman sobbed as he stood up and knelt down in front of the old Birdman. Then, he stood up and took a deep look at Tang Zhen before spreading his wings and flying away.

Because of Tang Zhen's order, the Holy Dragon city's soldiers did not open fire to intercept the little Birdman. They only allowed it to fly further and further away.

After seeing his grandson fly away, the old Birdman turned around and let go of the Holy Dragon City soldier in his arms. He then took out a roll of parchment and threw it to Tang Zhen before slowly walking to the edge of the cliff at the entrance of the cave.

"I was born here, but I yearned for the outside world. When I grew up, I went to a place thousands of miles away. After wandering for decades, I suddenly found that my hometown was the best. Thus, I went through many hardships and rushed back."

After saying this, the old Birdman slowly swept his gaze over the surrounding scenery and said loudly in grief and indignation, "From today on, black feather Tower City will become history. It is my soul and my life. Since my soul and life are gone, what's the use of keeping a stinky body?"

Holy Dragon City Master, when you know about the world thousands of miles away, you will know how small and insignificant your human race is, and how powerful and terrifying those hundred clan cities that have been passed down for thousands of years are!"

As soon as the old Birdman finished speaking, it fell down the cliff. The pair of wings that had once helped it fly for ten thousand miles never opened!

countless vengeful souls of Blackfeather city and I will be waiting for you in hell, waiting for the day Holy Dragon City is destroyed. Hahahaha!

The old Birdman's voice faintly reached his ears from the bottom of the cliff, and soon, another muffled sound was heard. The old Birdman crashed into a protruding stone cliff, and his brain burst open, causing him to die!

After Qian Long saw the old Birdman's corpse fall to the ground, he turned to Tang Zhen and said, "City Lord, do you want to chase after that little Birdman for a walk?"

As he spoke, Qian Long placed his hand on his neck and pulled it gently, his eyes filled with killing intent.

Tang Zhen shook his head. He looked at the distant sky and said, there's no need. Do you think a young Birdman can pose a threat to us? "

Qian Long chuckled upon hearing this. that little Birdman looks like a pampered child. I'm sure he doesn't have any experience in surviving in the wild at all. Even an experienced cultivator wouldn't dare to say that he'd be able to survive in the endless wilderness without any injuries, let alone a weak little Birdman!

Qian Long glanced in the direction the little Birdman had flown off to and said softly, "If I'm not mistaken, the direction that the little Birdman flew in is the white bone cliff, which is the territory of the four-legged flying dragon.

How dare you fly over the white bone cliff in broad daylight? you're simply courting death!"

Tang Zhen nodded and opened the parchment left behind by the old bird Man. After carefully looking at it for a while, he raised his head and said to the surrounding soldiers, "Come with me, let's go see what good things are in the black-feathered Birdman's treasure vault!"

All the Warriors cheered in unison as they followed behind Tang Zhen and walked towards an extremely well-hidden cave.

On the white bone cliff dozens of miles away, a few four-legged flying dragons slowly descended from the sky. One of the four-legged flying dragons released its sharp claws and threw a small black-feathered Birdman on the ground.

The two dragon whelps pounced on the little black-feathered Birdman and tore him in half, swallowing him in one gulp.

?

Chapter 206: Dwarves and gnomes, gay partners

The location of Blackfeather tower's treasure room was indeed very well hidden. If he had not obtained the map from the old Birdman, Tang Zhen would have really dug three feet into the ground to search for it.

After the completion of every tower, there would be a strange place. The strange thing about tower of black feather city was this maze-like underground passage. If one did not follow the correct route, they would fall into a closed dead end. They would not be able to find the exit and would be trapped to death.

The Blackfeather Birdman had actually used this passageway to build a treasure vault in the tower. It was quite original!

Tang Zhen fulfilled his promise and let the little Birdman go. The old Birdman didn't play any useless tricks and told Tang Zhen the true location of the treasure room.

It was a matter of life and death. These treasures were meaningless to the old Birdman. There was no need for him to risk his grandson's life.

Unfortunately, there were many things in this world where luck did not exist. The old Birdman was only betting on that extremely slim chance of winning, hoping that his grandson could survive in the endless wilderness, but in the end, he lost completely!

Tai Seng and a few other Warriors pushed the door of the treasure room open slowly. After confirming that there was no danger inside, Tang Zhen walked in.

Blackfeather tower had been passed down for hundreds of years, so they still had some wealth. Although the number of brains was a little small, it was because Tang Zhen had extorted them. Other than that, all kinds of things almost filled the entire treasure room.

Other than a few items that he could identify, Tang Zhen was completely at a loss as to what the other items were and what they were used for.

In the Holy Dragon city's warehouse, there were too many items of unknown origin. They were all being kept safe until the day they found an erudite person to identify them one by one. They would then become the future auction items of the Holy Dragon city's auction house.

Tang Zhen would definitely gain enough reputation and wealth by relying on the treasures from Lou Cheng's treasure room!

With a wave of his hand, he kept some of the seemingly more precious items into his storage space. He ordered the soldiers to box the rest and seal them. When they returned to the Holy Dragon City, he would hand them over to Murong Ziyan to manage and record them.

After walking out of the treasure room, Tang Zhen took away the foundation stone of Blackfeather tower.

The moment the foundation stone was taken away, Tang Zhen seemed to hear a sorrowful cry from Blackfeather tower. It seemed that the vitality of the tower had also disappeared with the removal of the foundation stone. The originally lively Blackfeather tower seemed to have become mottled in an instant.

After the treasure room was cleared, the rest of the Holy Dragon city's soldiers also finished their cleaning work. They put the spoils of war on the carriage and left Blackfeather tower.

With a loud bang, the cave in black feather tower was completely blown up. Black smoke rose into the sky, announcing the end of a non-human tower!

go back! Tai Seng roared and ordered all the soldiers to return to their chariots. After blowing the horn three times at tower of black feathers, the chariots started to turn back.

On the way back, Tang Zhen didn't pilot the military helicopter. Instead, he kept it in his storage space and sat in the back seat of the military jeep, staring blankly at the gravel plain outside.

Before the old Birdman died, he had said that there were countless foreign clans 'buildings ten thousand li away. They had a history of ten thousand years, so one could imagine how deep their heritage was.

Tang Zhen wasn't afraid of these terrifying foreign tribe buildings. Instead, he really hoped to personally witness what these foreign tribe buildings looked like.

As the Holy Dragon City gradually grew stronger, there would be a day when they would cross swords with a city of this level. However, he did not know what Holy Dragon City would become at that time.

Tang Zhen's thoughts drifted away as he thought about it. His entire person had also become quiet.

A burst of noise woke Tang Zhen from his thoughts. When he came back to his senses, Tang Zhen discovered that there were two strange creatures in tattered clothes standing not far in front of him.

The one in front was short and strong, like a large oak barrel. The beard that hung to the chest was tied up with a rope so that it wouldn't be messed up by the wind.

The other Goblin looked like a bloodthirsty Goblin, but compared to the dirty and crazy monsters, this Goblin was much weaker. There was even a Monocle on its nose!

This weird pair was standing in front of the convoy, each holding a hammer in their hands, looking around vigilantly.

With a pistol in his hand, Tai Seng led a dozen Holy Dragon City soldiers to surround the two of them and ordered them to throw their weapons on the ground.

Tang Zhen silently watched for a while before jumping down from the military jeep and walking to the front of this strange pair.

Judging from their appearances, they should be the dwarves and gnomes of the foreign race.

Tang Zhen had long heard of these two famous foreign races. It was just that he had no fate to meet them. Today, he had coincidentally met them all at once!

After seeing Tang Zhen walk over, Tyson pointed at the Goblin with the small hammer and said, "when they saw our convoy, they immediately pounced on us like crazy. I don't know what they were planning to do. Some soldiers fired their guns as a warning. Who knew that after these two guys heard the gunshots, they actually stopped the convoy and mumbled something?"

As soon as Tai Seng's words fell, the dwarf shouted in a rough voice, "My friend just wants to see your car and your flintlock. Why won't you let us see?"

Tang Zhen glanced at the bearded dwarf and replied in the dwarf's mother tongue, this is our personal property. Why should we let you see it as you wish?"

After the dwarf and Goblin heard Tang Zhen's answer, their eyes lit up. The Goblin quickly took a few steps forward and spoke to Tang Zhen in the dwarf language, I'm a mechanic from Qin Zhuan, and I'm very interested in your car and flintlock. As long as you, Qin Zhuan, allow me to look at it, I'll let you name any conditions you want.

The Goblin stuttered when he spoke, as if he was not good at conversing with people. However, the desire to explore in his eyes made the originally wretched-looking Goblin look taller.

The dwarf at the side also looked at Tang Zhen and helped the Goblin explain, my friend is a very talented mechanic, but his ideas are too unique and not accepted by his race. He's even ridiculed all day long, so he was forced to leave his hometown and wander around in the wilderness.

Please grant its wish, or it will be so sad that it won't be able to eat for a few days!

As compensation for watching, I can help you forge some weapons for free. As long as you have the materials, I can even forge mo weapons!"

Tang Zhen's eyes flickered and a smile appeared on his face when he heard the dwarf say that he could forge magic weapons.

Looking at the Goblin who was staring at the war chariot and the dwarf who had a pleading expression, Tang Zhen smiled and replied, the car and flintlock that you want to see are the Holy Dragon city's top secrets. If you really want to see them, you have to agree to one condition of mine!

"Just say it, I'll agree to any condition!"

The Goblin immediately replied loudly with an impatient expression.

The dwarf beside him also nodded slightly. He had no objection to the Goblin's attitude, showing that the two of them were very close.

Tang Zhen looked at this strange pair and softly said, after seeing the secret of my Holy Dragon City, you will have to work for my Holy Dragon City for ten years. During this period, you are not allowed to leave even half a step. Otherwise, you can forget about your wishful thinking!

After stating his conditions, Tang Zhen was already prepared to tie them up. Who knew that after these two guys looked at each other, they actually nodded gently at Tang Zhen and agreed to Tang Zhen's conditions!

?

Chapter 207: Victorious return to the city, missing girl

Tang Zhen could not help but feel a little suspicious in his heart as he watched the two fellows gobbling down the food in the car like hungry ghosts.

Could it be that these two guys really had no place to eat, so they found an excuse to get close to the convoy, and then ran to Holy Dragon City to eat and wait for death?

The facts proved that Tang Zhen's worries were somewhat unnecessary. This was because that Goblin did have some ability.

After sitting in the military jeep for less than half an hour, it had come up with a lot of conjectures and conjectures about the car, and they were actually close to the truth!

The world of loucheng had cars from the original world that appeared occasionally, but they were basically in a state of scrap. Many natives couldn't come into contact with them. It was already an amazing thing for the Goblin to be able to do this!

During this period, the Goblin also told Tang Zhen about its wonderful ideas, such as machines that could dive into the deep sea, machines that could mine underground, machines that could fly in the sky, and so on.

Tang Zhen listened attentively. He had also become more and more serious about this ragged Goblin.

Although the things that the Goblin had mentioned had already appeared in the original world, the working principle and operating principle were very different from what the Goblin had imagined.

The gnomes had created their own design concept based on the technology and products in the world of loucheng.

Through the Goblin's explanation, Tang Zhen discovered that it had already started the experiment of extracting and converting the energy from its brain. Although there were no obvious results, there should be no problem with the general direction.

Tang Zhen had read the explanation of the use of brain energy by the flashing gold race, and some of it was actually in line with the Goblin's thoughts.

This also proved that the Goblin was not lying. This guy was indeed a technical talent.

He didn't expect that after attacking Blackfeather tower, he would be able to pick up such an outstanding talent that he was in urgent need of on his way back. This made Tang Zhen extremely happy.

There was no need to say anything else. Since these two gay friends had already boarded his chariot, then they should obediently stay in Holy Dragon City for the rest of their lives!

After rambling on for a while, they soon arrived at Holy Dragon City. Looking at the towering city walls and the unerasable dark red bloodstains on the walls, the two outsiders were shocked!

With the return of the chariots, the entire Holy Dragon City was in a festive mood. The residents surrounded the warrior and listened to him talk about the battle. From time to time, they would exclaim in surprise.

The dwarves and gnomes only knew a little about the human language. From the words and the expressions of the people, they could barely guess the reason for the celebration.

However, this answer surprised the two of them. They had been wandering in the wilderness for many years and had never heard of a foreign race's city being destroyed by the human race. It was simply a fantasy!

However, judging from the behavior of the residents of the city, this matter was very likely to be true!

The two of them could not help but become cautious when they thought of Tang Zhen having the ability to destroy a foreign clan's city.

Now, they knew that this was not a place where the alien races could do whatever they wanted. Otherwise, they might be beaten up by the residents of Loucheng who didn't like them!

After the welcoming ceremony ended, Tang Zhen found a few residents who knew a little goblin and dwarven language and asked them to follow the two guys to study cars and rifles.

After the two's research was over, the Goblin named Lu Da would enter the laboratory that Tang Zhen had prepared for him and begin the research on the use of energy in the brain.

The dwarves called "hearthhammer" began to develop new battle armors for the Holy Dragon city's Warriors, eliminating the simple armors produced in small workshops.

After everything was arranged properly, Tang Zhen prepared to purchase some equipment and equipment to assist the Goblin Lu DA's test according to her requirements.

With the help of these artifacts, Lu DA's research speed would be much faster.

Although he didn't know if his rental house had been discovered by the United States 'Secret Service agents, Tang Zhen still chose to use it as a teleportation point. This was also a way for him to test the attitude of the United States.

He believed that with the American Alliance's ability, they would definitely be able to find this place. If they still chose to surround and capture him, Tang Zhen wouldn't mind going to their hometown and causing a scene.

After the teleportation ended, Tang Zhen appeared in the living room of his rented apartment. He activated the [all-rounded digital battle interface] and scanned the surroundings to see if there was any listening or monitoring equipment.

The results of the scan made Tang Zhen very satisfied. There was nothing in the surroundings that he didn't want to see. This meant that the Secret Service personnel either didn't discover this place or they wanted to use another method to contact Tang Zhen.

Either the two guesses were wrong, or the American Secret Service agents were setting up an even more secure trap, waiting to give Tang Zhen a fatal blow!

No matter what methods the other party wanted to use, Tang Zhen would just take it. Let's see who would win in the end!

Slowly walking out of the house, Tang Zhen opened his car door and was about to drive away when Jin mingzhen and Lin Huiyan suddenly appeared at the door. They seemed to have been waiting outside for a long time, waiting for Tang Zhen to come out.

After seeing Tang Zhen, Jin mingzhen walked up and complained to Tang Zhen, " uncle, where did you run off to this time? I've been waiting at your door for a few days and finally found you!

As she spoke, Jin mingzhen pouted her lips and looked angry.

Tang Zhen glanced at the two of them and curiously asked, I went out for a while and only came home last night. Also, why are you waiting for me at my door? "

of course, I want you to be my master. I want to learn martial arts that can make people cry. Why? are you not going to teach me? "

Jin mingzhen put on a clingy expression as she moved closer to Tang Zhen and hugged his arm, shaking it.

At the same time, she raised her head and looked at Tang Zhen, revealing two shallow dimples at the corner of her mouth.

Lin Huiyan cupped her hands in front of her chest and looked like she was begging as she stared at Tang Zhen.

Tang Zhen felt that his arm had touched something soft. A fragrance assaulted him, and that soft feeling caused his mouth to be a little dry.

He looked at the two girls in front of him carefully. They were tall and sexy, and their eyebrows were like a painting. They were so beautiful and lively!

As Tang Zhen watched, he felt that his thoughts were a little out of control. He quickly turned his gaze, opened the car door, and sat in it.

“I’m very busy these two days, how about we talk in a few days?”

Tang Zhen said to Jin mingzhen and Lin Huiyan as he started the car.

“Alright, give me your phone number so I can contact you!”

Jin mingzhen took out her phone and asked for Tang Zhen’s phone number before letting him go and leaving with Lin Huiyan.

Tang Zhen looked at the figures of the two girls as they left. He smiled slightly before driving to the market.

After running around the various shops, Tang Zhen had gathered all the items and equipment he needed. Just as he was about to return to his rental house and teleport back to the Holy Dragon City, his phone suddenly rang.

He picked up the phone and saw that it was Jin mingzhen’s number.

“This little girl, what’s the matter?”

Tang Zhen pressed the answer button, but it wasn’t Jin mingzhen’s voice that came from the phone. Instead, it was the pig-headed young man who deserved a beating. He asked in an anxious tone, “Are you Mr. Tang? Are mingzhen and Huiyan with you? The two of them are gone, and only this phone was left in Ming Zhen’s house. I couldn’t find them even after looking for a long time, Yingluo.”

Tang Zhen’s heart was startled when he heard this. An extremely bad feeling welled up in his heart!

?

Chapter 208: rapid drifting, storming the abandoned building

“Where are you? I’ll rush over immediately!”

After asking for the address, Tang Zhen immediately ran towards the pig-headed youth’s location at his fastest speed.

The car’s accelerator had been stepped on by him. The exhaust pipe gave out a harsh roar and the car continued to move forward in the rolling traffic. As Tang Zhen passed by, the frightened drivers kept honking and sticking their heads out at the same time, cursing at the pickup truck that was passing by.

A police car had its eyes on Tang Zhen and immediately chased after him, trying to stop him.

Unfortunately, Tang Zhen’s car was like an extremely slippery mudfish in the shuttling traffic. It passed through the gaps of countless cars without any danger. Its speed had already reached the limit of this car.

Looking at Tang Zhen's seemingly skilled driving route and the police cars behind him being left far behind, many passers-by whistled in excitement. Then, they told this scene to their friends or posted it on their own social circles.

Tang Zhen's face was dark. As he operated the car, he used the [universal electronic kit] to search for the two girls' location. A large amount of data was quickly filtered out, and Lin Huiyan's personal information appeared, including her communication number.

After calling Lin Huiyan's number and realizing that her phone was turned off, Tang Zhen forcefully turned it on and locked onto the phone's location.

After sweeping a glance at the red dot on the map, Tang Zhen once again increased his speed and headed straight for the pig-headed young man's location.

Creak!

The sound of a car horn alarmed the pig-headed young man. He looked up and saw a pickup truck speeding over. When it was near him, the car drifted and stopped beside the young man.

"Get in the car!"

Tang Zhen shouted at the young man. The pig-headed young man immediately jumped onto the front passenger seat. Before he could sit down firmly, Tang Zhen had already whizzed away.

The pig-headed young man, Lin huixun, who was Lin Huiyan's brother, leaned his body against the back seat. Before Lin huixun could recover from his shock, Tang Zhen once again rushed into the path of the few cars in front of him, causing Lin huixun's head to hit the car window.

"Ah, damn it, do you not want to live anymore?"

Lin huixun thought that his driving skills were pretty good, and he would usually gather a group of friends to race late at night. But after seeing Tang Zhen's driving scene today, he suddenly realized that his driving skills were actually very average, very average.

Taking a deep breath, Lin huixun steadied his mind and looked at Tang Zhen. Why are you in such a hurry? don't tell me you already know where Huiyan is? "

Tang Zhen didn't look at Lin huixun, only lightly nodding his head.

Lin huixun's face turned anxious when he saw this and immediately shouted at Tang Zhen, "Tell me, where are they? how are they now?"

After dodging a police car that was trying to stop him, Tang Zhen controlled the [universal electronic tool kit] and completely controlled the entire city's traffic system. He blocked the video of him passing by the intersection and headed straight to the suburbs with a green light all the way.

After he got rid of all the police cars chasing after him, Tang Zhen slowed down the car slightly and looked at Lin huixun, "They should be in an abandoned factory in the suburbs. The preliminary judgment is that they were kidnapped. I'm going to rescue them. You can choose to go or not?"

Lin huixun was like a mad bull, his eyes red as he roared, " of course I'm going. Also, tell me, why was Huiyan kidnapped? "

Tang Zhen shook his head slightly. He looked at the road in front of him. A slightly dilapidated factory was right in front.

the factory might be very dangerous. It's best if you don't go in. If you have to go in, tell me first, do you know how to use a gun? "

Lin huixun nodded and said in a deep voice, " "I'm a senior member of a shooting club. I've been in contact with all the famous gun brands."

alright then. Go to the back and pick a weapon that you're comfortable with!

With a thought from Tang Zhen, a pile of standard firearms and ammunition appeared in the back seat.

Lin huixun turned around and was immediately shocked. The back seat of the pickup truck was filled with military firearms of different lengths, and they were all brand new.

Jumping through the gap in the driver's seat, Lin huixun picked out a standard American military gun, a pistol at his waist, and seven or eight magazines in his pocket.

After the weapon selection, Lin huixun looked at Tang Zhen and asked, " "Mr. Tang, Who are you? why do you have so many prohibited weapons?"

Tang Zhen didn't care about Lin huixun's doubts. Instead, he drove the pickup truck and slammed it into the factory's Gate. After the emergency brakes stopped, Tang Zhen jumped out of the car, casually pulled out a rifle, and loaded it. He then headed straight for the tallest abandoned building in the factory.

Seeing this, Lin huixun hurriedly followed, looking around vigilantly at the same time.

On the parapet on the roof, a man with a headscarf suddenly stood up, aimed at Tang Zhen, and pulled the trigger.

The sudden gunshot made Lin huixun turn pale with fright. He was just about to find cover to hide and determine the shooter's position when he suddenly saw Tang Zhen's gun pointing upwards without even lifting his head and firing a short burst of fire.

The man on the roof didn't even make a sound before his head was blown off by the bullet, and he fell from the roof.

Lin huixun looked at Tang Zhen in surprise. He was in awe of Tang Zhen's marksmanship and quickly followed him closely.

At the same time that Tang Zhen killed the gunman, a man in charge of observing from a distance whispered into his communicator, " one of our members has been shot dead. The target's marksmanship is extremely accurate. All personnel, please take note!

Just as the observer's voice fell, he saw Tang Zhen, who had walked to the door, suddenly turn around and pull the trigger while aiming at his position.

The Scout was shocked. Just as he was about to Dodge, a rifle bullet drilled into his forehead and went through!

At the same time, a three-dimensional building map appeared in front of Tang Zhen's eyes. Dozens of red dots appeared in every corner of the building. They were the enemies who were wearing the same communication equipment as the observer.

The [universal electronic kit] had locked onto their location through the communication signal.

Through the content displayed on the map, Tang Zhen discovered that there were nearly twenty people gathered on the top floor. They seemed to be guarding something.

If the two girls had not been moved, they should be on the top floor!

After confirming the basic situation in the abandoned building, Tang Zhen quickly rushed to the top floor. The sound of gunfire continued to ring out. The enemies who were responsible for blocking the attack were shot down by him one after another, and they fell to the ground in a mess.

Lin huixun, who was following closely behind, felt his heart beating wildly. Although this fellow was usually extremely irascible and would fight with others from time to time, it was not worth mentioning when compared to the scene before him!

The intense gunshots and the scene of blood spurting out made his heart beat wildly, and his adrenaline shot up. However, he also felt abnormally excited!

As they drove straight in, the two of them got closer and closer to the top floor.

Looking at the god-like Tang Zhen in front of him, Lin huixun couldn't help but feel even more curious. What exactly was the background of this man with superb skills and godly spear skills?

?

Chapter 209: The mysterious organization saves the two girls

Three gunmen in black with submachine guns peeked out from the room in the corridor, aimed at Tang Zhen, and pulled the trigger.

The metal bullets flew in all directions in the corridor, and the ricocheting bullets whizzed past Lin huixun's ears. He was so scared that he didn't even dare to raise his head. Such an intense and bloody battle scene was not something a rookie like him could deal with.

The most correct method was to obediently hide behind Tang Zhen to avoid being accidentally injured by stray bullets.

"Pa pa pa!"

Faced with such a dense barrage of bullets, Tang Zhen held a gun in one hand and accurately killed the three gunmen blocking his way. After which, he strode into the corridor.

With the map's prompt, Tang Zhen was able to clearly see every enemy's hidden position. The instant those gunmen extended their heads to shoot, he directly pulled the trigger and knocked them to the ground.

After taking another flight of stairs, he would reach the top floor.

A few human figures flashed past the stairway. Tang Zhen took out a hand grenade and threw it at the position where the enemy was hiding.

"BOOM!"

After a loud noise, several red dots on the map disappeared at the same time, indicating that the enemy had been killed!

After Tang Zhen rushed into the top floor of the abandoned building, a rain of bullets immediately came flying at him. However, they were blocked by the divine Art barrier that Tang Zhen had activated, causing ripples to appear.

At the same time, the rifle in Tang Zhen's hand continued to spit fire and knocked down more than ten enemies on the opposite side.

"Stop immediately, or I'll kill the two of them!"

A threatening voice sounded, causing Tang Zhen to stop shooting. He looked at the position in front of him.

The two girls were tied up with tears on their faces. Each of them was hung up by a rope and hung on an iron pipe pulley that extended from the roof to the wall. Currently, the bodies of the two women were hovering in the sky outside the top floor. They were looking at Tang Zhen with helpless expressions.

A strong Man in Black grabbed the other end of the rope with both hands. As long as he let go of his hands, the two girls would fall from the sky. They were tens of meters above the ground, and ordinary people would definitely die if they fell!

Tang Zhen looked at the ten plus enemies in front of him. He slightly lowered the rifle in his hand and coldly said, "Who are you? what do you want?"

A man wearing a black mask took a step forward and said to Tang Zhen, "Hello, Mr. Tang Zhen. Our organization admires you very much and would like to invite you to our headquarters as a guest. However, we're afraid that you'll refuse us, so we've come up with this plan.

Please forgive us for our rudeness and accept our invitation. Otherwise, these two beautiful girls will die because of you!"

After the black-masked man finished speaking, he quietly waited for Tang Zhen's reply.

Tang Zhen coldly snorted and said to the masked man, "Are you threatening me? or is this how your organization always invites its guests?"

The masked man bowed slightly and said to Tang Zhen, "It's only because Sir's methods are far too powerful that we have to act in such a way. There's nothing we can do about it.

But don't worry, as long as you promise to visit our organization, I'll release the two girls immediately!"

Tang Zhen ignored the masked man. He sized up the two girls and suddenly laughed coldly, if you guys could talk things over, there might be a chance for us to work together. But you really shouldn't have acted smart and made the two of them swallow miniature bombs. Is this your so-called sincerity? "

The expressions of the ten plus people opposite immediately changed after Tang Zhen's words sounded. They were just about to defend themselves when they saw Tang Zhen's figure suddenly disappear.

Before they could react, Tang Zhen once again appeared beside the brawny man who was holding the rope.

He stretched out his hand and gently pulled the rope. Tang Zhen used an extremely fast speed to tie the rope around the brawny man's neck. After knocking him out, he threw him out of the window like he was holding a chick.

The brawny man's weight was similar to the two girls', so the three of them were immediately suspended in the air, forming a temporary balance.

The [universal electronic kit] was activated, blocking and cracking the miniature bombs in the girls 'bodies, making it impossible for them to detonate remotely.

All of these actions were completed in a flash. By the time the masked man recovered his senses, Tang Zhen had already aimed the automatic rifle at them.

"Pa pa pa!"

A series of rapid gunshots rang out, and more than a dozen enemies fell to the ground one after another. While the masked man was shot, he was still trying to detonate the miniature bombs in the two girls 'bodies.

After pressing the remote control four or five times, the bomb still didn't go off. The masked man slowly stopped breathing, his heart full of unwillingness.

After seeing that all the enemies had been dealt with, Tang Zhen gently heaved a sigh of relief. He lifted the brawny man who had already stopped breathing from the window and then carefully pulled the two girls to his side.

Lin huixun hurriedly rushed over and helped Tang Zhen untie the ropes on the girl. At the same time, he carefully examined the two people's bodies, afraid that they had suffered any damage.

After seeing the two people standing in front of them, the two frightened girls immediately burst into tears. They each hugged one person, holding their necks tightly, and did not let go no matter what.

Tang Zhen patted the sobbing Jin mingzhen and comforted her in a soft voice, don't be afraid. I've defeated the bad guys. They're no longer in danger.

Jin mingzhen sobbed, as if she had not recovered from the shock. She was crying while saying some inexplicable nonsense to Tang Zhen,"Big brother, where did you go in the past three years? why did you only come back now? I miss you so much, but I can't find you no matter what, Yingluo."

When Tang Zhen heard Jin mingzhen's words, he could not help but frown. This girl seemed to treat him as another person, the older brother that she had not seen for three years.

Wait, they hadn't seen each other for three years, and he still treated her as his place?

With Tang Zhen's thought, the [all-purpose electronic kit] immediately pulled up Jin mingzhen's family information. Other than her parents, it turned out that Jin mingzhen also had an older brother named 'Jin Mingzhe'. He was diagnosed with mental illness and disappeared three years ago!

Tang Zhen softly sighed after seeing this. He did not expect that there would be such a coincidental thing in this world.

In front of han yiyuan, he had once forged an identity card, using the information of Jin Mingzhe, who looked very similar to him. In the end, when he rented the house, it happened to be next to Jin mingzhen's house.

It was because he looked so similar to Jin mingzhen's brother that this girl was so eager to get close to him. He was afraid that she had already subconsciously treated him as her missing brother!

After understanding the cause and effect of the matter, Tang Zhen gently patted the girl's back and consoled her again.

After Jin mingzhen and Lin Huiyuan gradually stabilized their minds, Tang Zhen stood up and used the [universal electronic kit] to scan the masked man's appearance. He then motioned for the three of them to leave with him.

The two girls didn't want to stay in this abandoned building that was covered in corpses for too long. They quickly followed behind Tang Zhen and Lin huixun and quickly walked out of the abandoned building.

The pickup started up and sped out of the abandoned factory. Then, a loud noise was heard.

Under several load-bearing walls of the abandoned building, the bombs thrown by Tang Zhen were activated at the same time, completely destroying the building!

With the collapse of the building, the traces of the previous battle were no longer there!

Lin huixun turned his head and stared at the dust-filled abandoned factory for a long time, then turned to the two girls behind him and said, "What happened today was too dangerous, but it's good that you're all safe. That's the most important thing!

When we get home, you two take a shower first, then we'll have a big meal and a good sleep!

You don't have to worry about the other things. Mr. Tang and I will be responsible for the aftermath, and at the same time, we must find out who caught you Yingluo."

Lin huixun's mouth suddenly dropped open as he stared at the two girls in the back seat.

When Tang Zhen saw Lin huixun's strange expression, he turned his head and looked back. He suddenly felt as if he was struck by lightning!

?

Chapter 210: Withered girl, perfect rebirth

In the wilderness of the suburbs, the speeding pickup truck slowly came to a stop.

Tang Zhen shut the car door and took out a cigarette from his pocket. After slowly lighting it up, he took a deep puff.

The two girls in the back seat of the pickup truck were leaning against the seat peacefully. They looked like they were asleep, and there was a smile on their faces.

However, at the corners of their mouths, a trace of Scarlet blood was flowing down, forming a sharp contrast with their white skin. It was a shocking sight!

Lin huixun pounced onto the back seat like a mad man. He hugged his sister and began to call out to her non-stop. As he shouted, tears rolled down his face uncontrollably. He opened his mouth wide and let out a silent cry.

Tang Zhen got out of the car and opened the door of the back seat. He gently held Jin mingzhen in his arms and carefully wiped the blood from the corner of her mouth.

Tang Zhen's brows were tightly knitted together as he looked at the girl's pretty face and her body that was gradually turning cold.

He had been too careless. He didn't expect those guys to be so sinister and actually set up a double safety in the miniature bomb.

Tang Zhen originally thought that the two girls would be out of danger after the shield destroyed the detonation device of the miniature bomb. However, he never expected that other than the explosion, this miniature bomb had a second killing move!

After the miniature bomb was swallowed for a certain period of time, its outer shell would dissolve and release the poisonous compound smeared on the surface of the miniature bomb.

This was a highly toxic substance that only required a few milligrams of it to cause lightning fainting and sudden death. It only took a few seconds to take effect, and there was no time to save it!

In the abandoned factory, Tang Zhen did not have the means to remove the capsule. He also did not expect that these people would be so vicious, which led to the tragedy!

Tang Zhen could not help but feel a little suffocated in his heart when he saw the two beautiful girls, who were like flowers, suddenly wither in front of him. At the same time, he also felt an intense killing intent toward the mysterious organization that had plotted against him!

Tang Zhen swore in his heart that he would definitely make this mysterious organization pay a heavy price. Otherwise, it would be difficult to dispel the anger in his heart.

Sweeping a glance at Lin huixun, who was in so much pain that he wished he was dead, Tang Zhen said in a cold and indifferent voice, " the two of them are already dead, but I have a way to resurrect them. However, the two of them will look different after they are resurrected!

After Lin huixun heard Tang Zhen's words, he slowly raised his head. His eyes were red and swollen as he stared at him with hatred. Suddenly, he roared, " damn it, it's all your fault, you bastard! You killed Huiyan and mingzhen! I'm going to kill you!

After shouting this sentence, Lin huixun jumped up and picked up the rifle beside him, ready to fire at Tang Zhen.

Tang Zhen coldly snorted, snatching the rifle away and putting it into his storage space. At the same time, he slapped Lin huixun to the ground.

Lin huixun didn't seem to feel any pain as she struggled to get up again. However, Tang Zhen stepped on her chest and no matter how she struggled, she couldn't move an inch.

"Now shut up and don't interrupt me. Otherwise, not only will I not save your sister, but I will also kill you!"

As Tang Zhen spoke, he had already pulled out the gun from Lin huixun's waist and pointed it at his head.

Lin huixun slowly calmed down when he felt the pain from the gun pointed at his forehead. He glared at Tang Zhen and said in a hoarse voice, " "Speak!"

Tang Zhen nodded and let go of Lin huixun. He threw him a cigarette and stretched out his finger to light it for him.

Lin huixun's eyes narrowed when he saw the flame rising from Tang Zhen's finger. After hesitating for a moment, he slowly leaned forward and lit the cigarette, taking a deep puff.

Seeing Lin huixun's expression ease up slightly, Tang Zhen finally opened his mouth and said, " "I can resurrect your sister and Ming Zhen. Their souls will still be the original, but they will have to be replaced with a new body.

After the two of them resurrect, how you explain it to your parents is your own business.

The method I'm using is called soul possession. It can help anyone with a soul to be reborn. This secret technique requires an altar to perform. After I give you the method, you can also rely on this altar to resurrect anyone you want.

I have a subordinate in the ice Bear Alliance. He used the method I taught him to set up an organization called 'Eternal Heaven', and now he has gradually gained great power.

You have two choices now. One is that I help resurrect your sister and mingzhen, but for safety reasons, I have to kill you as an insider. The second is for you to become the gatekeeper of the kimchi Kingdom, and use the secret techniques and financial support I gave you to build a powerful force and serve me wholeheartedly!"

After Tang Zhen finished speaking, he glanced at Lin huixun's expression and found that he was a little tempted. He then continued to reveal his identity as the 'Oracle' and displayed the magical abilities he had.

It was only at this moment that the dumbfounded Lin huixun was completely convinced and agreed to become the gatekeeper of the kimchi Kingdom!

According to Lin huixun's idea, he would set up a company and use the support given by Tang Zhen to continue to grow the company.

At the same time, he would also contact Xu Feng and Ivanov. The three gatekeepers would help each other and borrow each other's power to fight for more control of money and power in the secular world!

Next, Tang Zhen used the brain Pearl to extract the souls of the two girls and put their bodies into the storage space. He then pulled Lin huixun to his rental house to make preparations for resurrection.

Due to Tang Zhen's improvements, the rebirth altar was set up very quickly. While Tang Zhen was piecing the modules together, he also had to explain the principles and how to operate the altar to Lin huixun.

After the rebirth altar was set up, Tang Zhen teleported back to the Holy Dragon City. He took out two perfect female bodies from the fruit of the mother tree and brought them back to the rental house.

Seeing Tang Zhen appear out of thin air, Lin huixun's expression was slightly surprised, but he quickly regained his calm.

However, when he saw Tang Zhen conjuring two perfect female bodies with a wave of his hand, he could no longer suppress the curiosity in his heart and asked Tang Zhen about the origin of these bodies.

Lin huixun's mouth was wide open when he heard that the bodies came from the fruit of a giant tree. He was also filled with yearning for the 'divine realm' that Tang Zhen had mentioned!

After placing the two bodies into the blood pool, Tang Zhen used the purple lightning short sword to cut open the glabella of the bodies and implanted the brains that contained the souls of the two girls into their heads.

Due to the special cultivation method, the bodies had a super strong healing ability. In just a few minutes, the cuts on the two bodies were completely healed, and there were no scars.

The soul lodging secret technique that Tang Zhen had used on the two girls was an even higher level version. It could ensure that the two girls could be reborn an infinite number of times without their brains being destroyed.

After Tang Zhen's experiment was successful, even if their brains were shattered, the two women would be able to complete the soul transmission at the instant of their death and revive from another spare body!

This was the terrifying aspect of the soul lodging secret technique. With its existence, it was equivalent to Tang Zhen having an undead army. Who in the world would dare to challenge its edge?
