

Alternate 21

[Chapter 21](#)

Blood Battle!

The ghoul that was hit by the bullet immediately let out a scream. Its body fell halfway, and then its limbs began to twitch and struggle.

Tang Zhen was delighted when he saw this. It looked like the pistol was also very lethal to level-two monsters. This way, he was much more relieved.

At this moment, many thoughts flashed in his mind. He wondered how he could get a large number of firearms so that he could kill level-two monsters in large quantities. He was also curious as to how much a level-two brain bead was worth.

As many thoughts flashed through his mind, he shot a second time without hesitation.

Unfortunately, this shot only hit the chest of another ghoul and didn't kill it on the spot. This ghoul that was hit actually appeared extremely violent after being injured, and its charging speed suddenly increased a little.

Seeing that this monster was at the front, Qian Long shot an arrow through the ghoul's head and directly killed it.

The ghoul's charging speed was extremely fast. After only killing two monsters, the three of them finally collided with the ghoul!

"Damn it, I'll give it my all!"

Tang Zhen cursed angrily and quickly put the pistol back into the storage space. Then, he swung his saber at a ghoul that was trying to bite him, his eyes filled with madness.

As he raised his saber, he used all his strength to slash the ghoul's body. The power of this saber was extremely great, actually splitting the ghoul into two.

The ghoul's smelly blood splattered. When it touched Tang Zhen's skin, it actually felt a burning pain and itch, making him feel very uncomfortable.

There was no time to consider whether the blood was poisonous, because the situation in front of him didn't allow him to be distracted at all. He could only consider unrelated things later.

After killing this monster, before Tang Zhen could retract his saber, the front claws of a ghoul that pounced on him smashed into Tang Zhen. He felt his body tremble, and then his vision darkened again. Then, he flew out, and a bloody taste surged out of his mouth.

"Plop!"

Tang Zhen's body fell fiercely to the ground, and a mouthful of blood spat out of his mouth.

"Oh, Big Bear wants to kill you...!"

A simple and honest roar mixed with anger sounded. When Big Bear at the side saw that Tang Zhen was injured, he immediately flew into a rage.

Flames of anger seemed to have spewed out of his widened eyes. He waved his huge shield and mace fiercely and actually charged into the group of ghouls, smashing the ghouls into pieces.

This guy was indeed worthy of his terrifying meat grinder-like appearance. After entering the group of level-two ghouls, it was as if he had entered an uninhabited place, killing the monsters until they screamed continuously. In the blink of an eye, the few ghouls around him were sent flying far away. Some even shattered into pieces when they were hit.

Flesh flew everywhere, and roars sounded continuously!

During this period, even if a ghouls bit the big bear, their sharp claws and teeth still didn't cause him much damage. It was hard to tell why his fair skin was so tough.

The ghouls that attacked him were smashed into meat paste by him.

However, this guy's combat method also had a flaw, which was that he was too much like a madman. It could even be said that he couldn't differentiate between friend and foe. Even Qian Long, who was at the side, was almost swept by the spiked club after cutting down a ghouls. He couldn't help but gasp and retreat to the periphery to participate in the battle.

Although Tang Zhen, who was at the side, was dizzy from the fall, he still saw the big bear's performance. He secretly cheered in his heart. At the same time, he took out his gun hatefully and pulled the trigger at the lone ghouls.

Screams, battles, and flesh and blood flew. This scene of life and death only lasted for a moment, stunning Tang Zhen and making his blood boil.

The battle started very suddenly and ended very quickly.

When the last ghouls was killed, the three people who participated in the battle were already covered in blood. Even Big Bear with thick skin was covered in minced meat and blood. He sat among the corpses panting, looking tragic.

It could be seen that he was indeed exhausted. He didn't even smash open the monster's head excitedly to devour the brain bead like before.

Not far from Tang Zhen, Qian Long held his saber and slowly knelt on the ground. At the same time, he panted heavily. He was also covered in blood, and a ferocious wound on his chest was more than a foot long.

His flesh was rolled up and bloody. It was scratched open by the sharp claws of an ambushing ghouls.

Seeing this scene, Tang Zhen couldn't help but smile bitterly. He struggled to get up, but realized that he couldn't do it at all.

"Big Bear, dig out the brains of these ghouls and store them. Then, let's go home."

Tang Zhen said in a weak tone. When Big Bear heard that, he moved his body with his butt and waved his fist angrily, smashing it fiercely at the heads of these monsters.

Big Bear took out two level-two ghoulish brains in succession. Just as he planned to blast open the head of the third monster, Qian Long's expression suddenly changed. He swept away his dispirited state and quickly jumped up from the ground. He bent his bow and pointed at the distance.

"Who is it? Come out!"

Tang Zhen's heart tightened when he saw this. What happened now?

At the same time, he clenched the pistol tightly and straightened it with all his might. Then, he staggered up.

"Bang!"

Tang Zhen fired a test shot. The bullet penetrated the darkness and hit the marble ground, causing a series of sparks!

After the gunshot, a few cries of surprise came from the darkness before falling silent again.

Tang Zhen and the others' expressions changed. Their previous doubts were now confirmed. Someone was spying on them in the darkness.

Tang Zhen's heart turned cold. If it were any other time, he wouldn't be afraid, but at this moment, the three of them had clearly exhausted their stamina and were heavily injured. If the other party had ill intentions, their lives would be in danger!

Tang Zhen was worried, and the expression in his eyes became colder and colder.

He could leave at any time, but what about Qian Long and Big Bear? Was he supposed to leave them behind?

Tang Zhen knew that he couldn't do that, so he could only grit his teeth and wait for the situation to develop.

Clap, clap, clap...

Footsteps sounded, and each step was like a hammer hitting Tang Zhen's chest. In the direction of their gaze, a group of people slowly walked out of the darkness.

This group of people all held weapons in their hands and looked in Tang Zhen's direction with dark expressions. When he saw the person in the lead, Tang Zhen's eyes narrowed slightly, because this person was the bearded man he had just seen.

The bearded burly man glanced at the monster corpse on the ground, and a trace of greed flashed in his eyes. Then, his gaze turned to Tang Zhen and the other two.

He stared at the three of them coldly for a moment. After glancing at Tang Zhen's pistol, the bearded man pointed at the exit of the ruins. "Leave the beads behind. You can get lost!"

Tang Zhen was stunned. Then, he mocked, "What big words. You want the beads? Sure, take it with your strength!"

He could tell that the bearded man was afraid of the strength of the three of them, especially the pistol in his hand, so the other party wanted to obtain the bead without fighting. However, how could Tang Zhen be led by the nose by him? He knew that if he showed weakness at this moment, the bearded man might really attack.

"Hmph, you don't know how to appreciate favors! The three of you are heavily injured. Yet you still want to resist?"

There was a trace of killing intent in the bearded man's voice. The three archers in this team also shook the sharp arrows on the string. The threat was self-evident.

Gritting his teeth fiercely, Tang Zhen looked indignant. After hesitating for a moment, he waved at Qian Long and Big Bear to retreat. At the same time, he raised his gun and aimed at the bearded man and the others.

The bearded man was also a knowledgeable person. He knew that the thing in Tang Zhen's hand was a firearm, so he didn't dare to act rashly.

Although he really wanted to get Tang Zhen and the other two to stay behind, he didn't mind how things turned out. After all, this way, he could obtain more than ten level-two brain beads without paying any casualties.

The three of them leaned against each other and slowly retreated. Soon, they had already retreated to the entrance of the ruins.

When he walked to the square, Tang Zhen finally couldn't help but spit out a mouthful of blood.

"The external injuries aren't serious. It looks like you suffered internal injuries. How do you feel now?"

Qian Long checked Tang Zhen's injuries and asked when he saw his uncomfortable expression.

"It's alright, I probably won't die."

Tang Zhen spat on the ground and slowly took out a water bottle to take a sip, but he choked and coughed a few times. He was so angry that he threw the water bottle on the ground and cursed angrily, "Bastard, I'm really holding my breath."

After Qian Long saw the angry expression on Tang Zhen's face, he narrowed his eyes and asked softly, "This matter... Are we letting it go just like that?"

When Tang Zhen heard that, he revealed a cruel smile. He looked back at the building behind him and said in a low voice, "Since they're taking advantage of the situation, don't blame me for being unscrupulous... Just wait and see. Although these level-two brain beads are valuable, they won't be alive to spend them."

His words were quite ruthless, but the anger in his heart was very difficult to calm down. As a result, on the way back, Tang Zhen's expression was very dark.

Today's incident had taught him a lesson. He realized that some principles would never change no matter which world it was.

The strong preyed on the weak. If one was weak and was bullied and killed, they could only grit their teeth and endure it.

Tang Zhen secretly swore that such a thing would only happen once, and the other party had to pay a heavy price for this!

Because the three of them were already injured, the journey back took a long time and was very difficult. Fortunately, they didn't encounter any monsters on the way. Otherwise, with the three of them in their current situation, they might have lost their lives.

After returning to the cave where she lived, Murong Ziyang was shocked by the miserable state of the three people covered in blood. She hurriedly rushed forward to support them. After asking a few questions in concern, she immediately ran to the corner and searched. Then, she held a black thing and melted it with water. After that, she was about to apply it to the injuries on Tang Zhen's body.

Tang Zhen was shocked. He hurriedly pushed it away and asked, "Wait, Ziyang, what's this?"

Murong Ziyang looked at the black "mud" in her hand and explained to Tang Zhen, "This is an ointment made of dried ivy juice. It has a miraculous effect on the healing of wounds!"

Tang Zhen looked at the ointment carefully when he heard that. Only then did he realize that the ointment was actually faintly transparent. At the same time, it emitted a strange fragrance.

He tentatively picked a little ointment and applied it to the wound, but he was surprised to feel a cool and numb itch from the wound. On a closer look, he was shocked to discover that the wound seemed to be slowly healing.

"Am I seeing things? The effect of this ointment is too magical!"

Tang Zhen looked at the wound intently and couldn't help but click his tongue in wonder.

[Chapter 22](#)

Magical Cream!

The recovery speed of Tang Zhen's injuries was really shocking. It was difficult not to attract attention in such an abnormal situation.

Murong Ziyang, Qian Long, and the others also witnessed the abnormality of Tang Zhen's wound at the same time. The two of them looked at it for a while and also looked at each other in confusion and shock. Obviously, this was the first time the two natives had encountered such a magical scene.

Murong Ziyang looked at Tang Zhen's wound and said with a puzzled expression, "Although the ivy ointment is precious and indeed has a miraculous effect on healing, it doesn't have such an immediate effect. This is simply the same as the legendary Divine Power Potion."

Qian Long nodded in agreement. Obviously, he had never seen such a healing speed.

"Divine Power Potion?"

Tang Zhen, who was lamenting the magical effect of the ivy ointment, looked up and asked, "What's the Divine Power Potion? Does it have the same effect as this ivy ointment?"

Murong Ziyan nodded and answered for Tang Zhen, "The Divine Power Potion is a magical medicine that comes from a building and is refined by a noble pharmacist. The Divine Power Potion has many magical effects. Some can detoxify, some can increase battle power, and some can heal injuries. It's said that as long as it's not a fatal injury, after drinking the healing Divine Power Potion, it won't be long before you recover."

Seeing that Tang Zhen was in a daze, Murong Ziyan pouted slightly and said, "Although the effect of the Divine Power Potion is good, the price is really terrifyingly high. My father once bought a bottle from another building's auction. I heard from him that he spent a hundred level-five brain beads, which is a million level-one brain beads!"

When Tang Zhen heard this price, he was simply speechless. A million brain beads was equivalent to ten million gold coins!

In that case, wouldn't the building lord who sold these divine power potions be making a killing!

At the same time that Tang Zhen was feeling secretly envious, Murong Ziyan also said some rumors about the Divine Power Potion that she had heard. During this period, she even told Tang Zhen that this kind of ivy ointment could be swallowed with water and could effectively treat internal injuries.

When he heard that this ointment could still be consumed internally, Tang Zhen swallowed a small piece without hesitation.

He was extremely curious about the effect of the ivy ointment now. He couldn't wait to try and find out if the effect of the internal medicine was really that magical.

The results of the experiment satisfied him. His originally stuffy and painful chest immediately eased a lot. When he breathed, his chest didn't hurt so much.

At the same time, Tang Zhen felt a trace of air flowing in his chest. Following that was a numb and itchy feeling, making him have the urge to roar hysterically to relieve the itch.

A moment later, Tang Zhen suddenly coughed violently and spat out some black blood clots from his mouth.

The series of abnormalities on Tang Zhen's body made Murong Ziyan and the others look shocked, but he himself appeared very excited, because the magical effect of this ointment made him seem to see a golden path!

The precious ointment of this world had a very magical effect when used on Tang Zhen, a person from an alternate world. He wondered if it would have such a miraculous effect on other Earthlings.

If it was really effective, it would be a good way to get rich!

Even if it was useless in his original world, it was still a pretty good life-saving thing to store some in case of an emergency.

Tang Zhen made up his mind to pay more attention to news about this kind of ivy in the future. If he encountered it, he would pay a huge price to get it.

In an alternate world, survival was the most important thing!

He asked the two of them about the ivy again, but he was told that this plant only grew in rarely seen valleys. Most of those places were very dangerous, and ferocious monsters occupied them.

It was a huge risk to collect herbs in such a place. Because some buildings with pharmacists offered high rewards to buy them, wanderer exploration teams often went to pick them.

There was naturally a huge risk hidden behind the huge benefits. There were also times when these wanderer exploration teams were completely destroyed by monsters. It was also because of this that the price of these herbs was extremely high.

The ointment in Murong Ziyang's hand was something her father's subordinate took with him when he escaped from the building back then. The original owner was Murong Ziyang's father, the building lord.

As she spoke, Murong Ziyang also helped Qian Long and Big Bear apply medicine and carefully bandaged them.

After Qian Long and Big Bear's injuries were treated, the three of them fell onto the bed and stared at each other.

Previously, they didn't feel anything special, but once they lay on the bed, pain and fatigue attacked at the same time. Soon, they fell asleep.

They all slept soundly. When Tang Zhen woke up, it was already the afternoon of the next day.

Qian Long and Big Bear also woke up at this moment. After drinking two bowls of meat porridge cooked by Murong Ziyang, Tang Zhen stretched comfortably with a satisfied expression.

Seeing Big Bear eating porridge from a small basin, Tang Zhen smiled and turned to look at Qian Long. "I just thought about it. There's no hurry to take revenge. We'll let them be for a few days. It's not too late to attack after I recover."

When Qian Long heard that, a trace of unwillingness appeared on his face, but it quickly disappeared as he listened to Tang Zhen quietly.

Tang Zhen noticed Qian Long's expression and seemed to have guessed that he couldn't suppress the anger in his heart. However, he didn't say anything. Instead, he paused and continued, "I plan to get a batch of goods to sell. I'm not familiar with this, so you'll be in charge of this matter."

"While selling the goods, it's best if you recruit a batch of reliable subordinates. I'll be in charge of the equipment."

Tang Zhen took a deep breath and slowly breathed out. He said, "Hu, we have too few people. It's too disadvantageous to fight like this. In the future, if we build a building, we will have to recruit more people, so this matter should be done sooner rather than later."

Qian Long was wrapped in bandages. He leaned against the bed at the side and nodded silently.

Although his expression looked very calm, Tang Zhen felt that he was suppressing a wave of anger in his heart. If it weren't for the fact that Tang Zhen had decided to take revenge later, he might have gone to take revenge on the bearded man now.

Big Bear, on the other hand, didn't care at all. Although he was also injured, he was happily playing with the toy Tang Zhen had brought with him. Seeing his rough but careful appearance, it was quite a joke.

After the discussion, Tang Zhen lay on the bed, seemingly in a daze as he looked at the cave. In fact, he had absorbed the two level-two brain beads that Big Bear had brought back. Just as he had guessed, these two level-two monster brain beads had been exchanged for 200 gold coins, and the exchange ratio was 1 to 100.

Seeing this exchange ratio, Tang Zhen immediately felt his heart ache incomparably, and his hatred for the bearded man increased a little. For the current Tang Zhen, gold coins represented an increase in safety and battle power. Every loss made his heart ache.

Coupled with the humiliation and threat he had received previously, his hatred for the bearded man was not much less than Qian Long's.

The days of recuperation represented boredom. Fortunately, Murong Ziyang's ivy ointment had a miraculous effect. Tang Zhen only took three days to walk freely.

Early this morning, he came outside the cave to breathe fresh air for a while. Then, he instructed Murong Ziyang to take good care of the injured. He tidied up his equipment and slowly left the camp.

Half an hour later, Tang Zhen teleported back to his home.

After shaking off the feeling in his mind that it all seemed like a lifetime ago, Tang Zhen washed up and cleaned up the house before slowly leaving.

He took the car to a place near the suburbs. He remembered that when he passed by here in the past, he saw several blacksmiths here.

After getting out of the car and walking around, Tang Zhen chose a blacksmith shop and walked in.

At this moment, there were no customers in the blacksmith shop. A strong middle-aged man with a big beard was wearing a singlet and sitting at the table drinking beer and eating pig trotters. When he saw Tang Zhen enter, he reached out to wipe his mouth and spoke with a strong voice.

"Brother, what are you doing?"

"I want to use car pieces to make a hundred sabers. Can you do it?"

Tang Zhen glanced at the decorations of the blacksmith shop and turned to ask.

"Why do you want so many sabers?"

The man sized up Tang Zhen carefully and asked.

"I want to open a Taobao store that specializes in selling swords. Do you know anything about online shopping?"

Tang Zhen didn't feel that the other party was long-winded. Instead, he explained casually.

The man stood up and took a last sip of beer. He walked over and nodded. "Other people might not necessarily take your job. I can take it, but the price isn't cheap. Are you willing?"

"I have to do this. Tell me the price first!"

After both parties agreed on the price, Tang Zhen raised his request and hoped to get the goods as soon as possible.

At the same time, Tang Zhen promised the other party that if the quality was good, he would hand his work to him in the future.

After paying a portion of the deposit and arranging the approximate time to collect the goods, Tang Zhen left the blacksmith shop.

After busying himself for most of the day, Tang Zhen, who felt a little hungry, casually found a small shop selling Malatang. After entering and choosing a portion, he sat at the table and waited.

The restaurant was busy at noon. More than ten tables in the restaurant were quickly filled with customers, most of whom were young.

There were also three girls who looked like students at the table where Tang Zhen sat. They were chattering about the topics they were interested in.

Tang Zhen's hearing had become extremely sharp, so his ears were filled with various chatting voices. Listening to the fashion topic they were discussing, Tang Zhen felt that he seemed to be a little old, but in fact, he was only in his early twenties!

He sighed in his heart. Just as the Malatang was ready, Tang Zhen brought the number plate over and started eating.

Because he was hungry, Tang Zhen quickly finished his food and wiped his mouth before leaving.

At the same time that he left, the three girls at the same table also paid the bill and left, following behind Tang Zhen.

Tang Zhen thought about something as he walked. He took small steps and planned to cross the street, but at this moment, he suddenly heard a muffled sound, followed by a piercing brake and scream.

He turned around and saw an off-road vehicle suddenly starting up in the middle of the road. It drove crookedly and was charging at him crazily.

[Chapter 23](#)

Rescue!

Looking at the SUV that had lost control and was running towards him, Tang Zhen immediately felt his scalp explode. A huge sense of danger surged in his heart, and he reflexively wanted to jump to the side to dodge.

With his current reaction speed and explosive power, it shouldn't be a problem for him to dodge this SUV.

At the same time, he had already noticed that behind the SUV, two passers-by were lying on the ground, their faces covered in blood. He didn't know if they were dead or alive.

Just as he was about to dodge, the scream in his ears made him give up on dodging in a flash.

In front of him were the three girls. At such a short distance, they couldn't avoid this out-of-control car at all.

Tang Zhen had even seen the blood-red eyes of the SUV driver and the frightened expression of the girls in front of him.

From the looks of it, if Tang Zhen dodged, the car would send the three girls flying in the next second.

At such a young age, they were about to suffer a disaster and even die.

However, he could save them and help them escape this danger!

There seemed to be no need to consider what to do.

Most importantly, Tang Zhen felt that he really had this ability.

In a moment of life and death, Tang Zhen shouted and rushed in front of the three girls like lightning. He stepped on the ground and pushed his palms forward.

The cell phone on his body flashed, and a mysterious power appeared, but Tang Zhen didn't notice at all.

“Bang!”

After a muffled sound, the scene of the girls being sent flying didn't happen. Instead, a miraculous turn of events occurred.

Under the shocked gazes of the three shocked girls and passers-by, Tang Zhen's body leaned forward in a bow, and his palms were pressed firmly against the front of the out-of-control SUV.

It actually forced this out-of-control car to stop!

Only at this moment did the three girls realize what was happening in front of them.

Looking at the off-road vehicle less than half a meter away from the three of them, and then at the young man in front of him who had snatched the three of them from the hands of Death, one of the girls couldn't help but exclaim out loud.

“Wow, you're so cool!”

The tallest of the three girls, the girl in the beige trench coat, was the first to react. She screamed in excitement and looked at Tang Zhen with admiration.

Upon hearing the trench coat girl's words, the other two girls also returned to their senses. While still in shock, they looked at him with gratitude and shock.

Even the passers-by at the side recovered from their petrified state and whispered in shock and amazement, wondering how Tang Zhen forced the SUV to stop.

If the off-road vehicle had braked at the critical moment, it would make sense. Unfortunately, judging from the state of the off-road vehicle driver, he probably didn't step on the brakes.

But if Tang Zhen relied on his own strength to do this, it would be a little terrifying.

The off-road vehicle stopped for a moment after hitting the person. Although its speed was only about 60 after starting again, the impact of the collision was three to four tons. It was strong enough to collapse a wall.

It required a lot of strength to force this to stop with one's own strength. It was simply not something humans could accomplish.

Logically speaking, such a thing would only appear in novels and movies, but now, it was displayed in front of them.

"Could this guy be Superman?"

Someone couldn't help but blurt out, but he received the nod of agreement from the onlookers beside him.

The spectators discussed, but as the party involved, Tang Zhen's situation was a little bad.

He had already lost feeling in his arms, and his body was so shocked that he almost vomited blood. The blood in his chest surged.

The old injuries that had just healed also showed signs of relapse at this moment.

Gritting his teeth, he slowly moved his unconscious arm away. Only then did Tang Zhen discover in shock that there were two deep palm prints on the car's shell!

Then, he turned around and lowered his head, fleeing like lightning.

Seeing Tang Zhen retreat as if he was running for his life, the others were a little confused. They guessed why this brave young man would do such a thing.

The three girls saw the palm print in the car and looked at each other in shock, their faces filled with disbelief.

Tang Zhen ran for a while. Seeing that no one was paying attention to him, he casually called a taxi.

After closing the car door, he took a taxi home.

Tang Zhen, who was lying on the bed, felt extreme pain in his arms and chest, as if his bones had already broken inch by inch. A piercing pain made him break out in cold sweat.

However, he also felt very glad. If it weren't for the fact that he had absorbed the bead to advance to the next level and his body had mutated, he might have been sent flying by a car today. The outcome could be said to be either death or disability.

Moreover, he had also saved three precious lives at the same time. Even if he was injured because of this, Tang Zhen didn't regret it at all.

However, he didn't know that if not for the help of his cell phone, he might be lying in the hospital now.

After swallowing a piece of ivy ointment, the bitter and fragrant taste made Tang Zhen feel much better.

As time passed, the pain in his body gradually decreased. The tired Tang Zhen actually slowly fell asleep.

When he woke up the next morning, he was surprised to discover that his normal movements were no longer affected.

After checking carefully and confirming that there was nothing wrong with his body, Tang Zhen was relieved.

At the same time, he sighed secretly. This ivy ointment was indeed magical. His serious injuries actually recovered overnight!

Putting down the worry in his heart, Tang Zhen calculated the time and suddenly realized that it was time to repay the 'debt' every month.

He took out his cell phone and flipped through it. Tang Zhen wanted to find the name of a contact. Only then did he realize that his cell phone couldn't be used.

Only then did Tang Zhen suddenly remember that his cell phone had already mutated. It would be strange if he could make a call.

"I've been so busy recently. How could I have forgotten about this?"

Tang Zhen was a little annoyed. No wonder no one called and sent him a message every time he returned. It was actually because of this.

Unable to make a call, Tang Zhen could only go out and buy another cell phone. Then, he dialed a number he had memorized before.

"Eh, Uncle Sun, I'm Little Yi! What are you busy with... Where are you... Alright, I'll go over immediately."

After hanging up, Tang Zhen got into a taxi and headed to a local mall that was being renovated.

After getting out of the car and sizing it up, Tang Zhen found the entrance. He avoided the renovation materials everywhere and walked to the third floor, which was under renovation.

After searching for a few minutes according to the location the other party told him, he finally saw Uncle Sun covered in dust.

After greeting loudly, Uncle Sun also saw Tang Zhen. He wiped the sweat on his head and walked over.

"Little Tang, you're here!"

Uncle Sun, who was wearing tattered work clothes, smiled at Tang Zhen, but it made the wrinkles on his face even more obvious.

Tang Zhen sighed in his heart. His foster father was really a piece of trash. He actually deceived Uncle Sun, this honest person, for his hard work!

Uncle Sun was a good person, Tang Zhen's neighbor.

When he and his sister were hungry when they were young, Uncle Sun often called them home to eat. He treated the siblings as if they were his own children.

Later on, his adoptive father used sweet words to cheat Uncle Sun of the savings he had accumulated from working everywhere, causing his daughter to almost go crazy when she went to university because she couldn't gather the school fees.

Every time Tang Zhen gave his salary, he would always leave a portion for Uncle Sun. The amount of money he returned each time was not that important. What was important was that he wanted to make up for the guilt in his heart.

This time, he brought all the money his adoptive father owed and planned to return it all to Uncle Sun.

The mall was being renovated and was quite noisy, so it was hard to be heard if one spoke too softly. Seeing this, Uncle Sun brought Tang Zhen to the fire escape staircase outside. Only then did Tang Zhen feel that the entire world had fallen silent.

He took out money from his pocket and handed it to Uncle Sun, letting him count it.

Uncle Sun was stunned at first, but then he pushed the money back and insisted that there was no hurry.

He naturally knew how tiring it was for Tang Zhen to work so many jobs, provide for his sister's schooling, and help his adoptive father repay his debts.

If it weren't for the fact that his family was also living in poverty, Uncle Sun wouldn't have accepted the money Tang Zhen returned every month.

"Uncle Sun, this money is yours in the first place. I'm just returning it for my father. Don't worry, I can earn a lot of money every month now that I'm doing business."

Tang Zhen tried his best to persuade him, and only then did Uncle Sun accept the money. However, he refused to accept Tang Zhen's additional gratitude fee which was considered as "interest".

Uncle Sun sighed and cursed Tang Zhen's foster father for being a jerk. He had made things hard on Tang Zhen and his sister, these two sensible children.

Tang Zhen was silent. What else could he say?

[Chapter 24](#)

Daily Life and Purchasing

"Here, want one?"

As Uncle Sun spoke, he handed over a cigarette. Tang Zhen took it and took a deep breath.

"Eh, Uncle Sun, who was that woman just now?"

Tang Zhen had a cigarette in his mouth as he asked Uncle Sun casually.

“Oh, you mean her? I heard that this is her family’s business. They own several malls of the same size in other provinces and cities.”

Uncle Sun thought for a moment and said to Tang Zhen.

“In that case, her family should be pretty rich, but this woman is indeed pretty impressive. Wherever she goes, there’s a group of men following behind. I bet these men don’t like that at all!”

Before Tang Zhen could finish gossiping, he saw Uncle Sun holding a cigarette in a daze. He looked straight behind him with an awkward expression.

With a cigarette in his mouth, Tang Zhen turned around and cursed. “Damn!”

It turned out that on the steps leading from the fourth floor to the third floor, nearly 20 people were just standing there. A few of them were looking at him and covering their mouths to laugh.

The woman he mentioned was frowning slightly at this moment. She stood behind him with her arms crossed, her beautiful eyes filled with anger. When she saw Tang Zhen turn around and look at her, she rolled her eyes slightly.

“A good dog doesn’t block the way!”

Perhaps it was an illusion, but Tang Zhen seemed to have heard the woman mutter this.

However, seeing that he was indeed blocking the other party’s path, Tang Zhen hurriedly moved away. Then, more than 20 people walked down one after another.

Many men among them smiled ambiguously at him. A young man in a suit secretly gave Tang Zhen a thumbs up. “Bro, you’re so awesome!”

Yeah right!

It was impossible not to feel awkward after being caught talking about others behind their backs.

Tang Zhen rolled his eyes and turned to chat with Uncle Sun for a while more before slowly walking down the stairs.

Before he could walk out of the stairs, he saw a fat man who looked like a contractor shouting at the workers, “The orders just came down from above. From now on, you’re not allowed to smoke on the stairs. Otherwise, you’ll be fined two thousand yuan!”

As soon as these words were spoken, the old smokers wailed!

Tang Zhen couldn’t help but shrink his neck. He thought to himself that it must be that woman’s revenge just now. Unfortunately, everyone was implicated!

After coming out of the mall, Tang Zhen strolled along. Coincidentally, he saw an all-terrain car parked by the roadside. At that time, his heart skipped a beat and he leaned over to take a closer look.

The more he looked at it, the more he felt that this vehicle was very suitable to be used in the hard wilderness of an alternate world. Compared to the expensive and large off-road vehicles, this cheap and small vehicle was clearly better.

After estimating the volume of the storage space and confirming that it could completely store such a car after dismantling it, Tang Zhen immediately walked into the store and called the boss out.

He asked for the price and bargained. In the end, he asked to buy two cars and spent nearly 60,000 yuan!

The boss suggested that the oil bucket be filled with gas. After starting the car, he got Tang Zhen to get out and confirm the situation of the car.

Then, the boss called out to another young man and they each drove a car to Tang Zhen's house along with Tang Zhen.

Just as he obtained the all-terrain car, Tang Zhen was in high spirits. After locking one of the cars in the courtyard, he drove the other car straight to the park in the suburbs.

After passing through the traffic on the road and experiencing driving the car in different ways, Tang Zhen felt especially good.

An SUV drove alongside him. The window slowly rolled down, revealing Xu Feng's annoying face.

Seeing Tang Zhen driving an all-terrain car, Xu Feng smiled in surprise. Then, he stuck his head out and shouted, "Kid, can you be a little more serious? Hurry up and move bricks to earn money to repay the debt for your damn father?"

Xu Feng had a cigarette in his mouth and held the steering wheel with one hand.

"Get lost and play. I don't have time for you!"

Xu Feng threw the cigarette butt at Tang Zhen, but it didn't hit him.

Rolling his eyes, Xu Feng pouted at Tang Zhen and said with a sly smile, "Why don't I introduce you to a girl? You can bring her to the park... Hehehe!"

When Tang Zhen heard that, he glanced at the front passenger seat in Xu Feng's car. A beautiful woman was sitting there, focused on playing with her cell phone. Driving to the suburban park at this time with a coquettish and beautiful woman, even a fool knew what he was going to do.

Tang Zhen was in no mood to care about this guy who was lusting all day. He cheered and rushed out.

"Tsk, morals!"

Seeing this, Xu Feng spat. The SUV he was sitting in also started to accelerate, making Tang Zhen eat a mouthful of dust.

"Damn!"

After Tang Zhen cursed, he no longer paid attention to the distant off-road vehicle. Instead, he specially picked rough terrain to travel on, wanting to test the performance of the car.

It had to be known that although the wilderness of the alternate world was hard, most of the ground was still rugged and filled with weeds. It was still uncertain if this car could adapt.

Tang Zhen rode the car everywhere. He went on the hill, in the ditch, in the sand, and in the grass. He had a good time and was quite satisfied with the performance of the car.

Seeing that it was nine in the evening and the park was a distance away from the city, Tang Zhen boarded the all-terrain car and drove straight down the mountain.

After returning home, he first washed up and had a simple meal before washing up and sleeping.

After another two days, the boss of the blacksmith store called and informed Tang Zhen that the sabers were ready.

Tang Zhen arrived at the blacksmith store and saw the boss of the blacksmith store drinking beer.

After greeting and chatting for a while, Tang Zhen saw his goods in the corner.

All the sabers were neatly tied together. Tang Zhen pulled out one of them and checked. After confirming that this saber was forged by a blacksmith using a car part that was split into two, he was satisfied. The blade was long but not thin. Its weight was moderate and comfortable to the touch, and the edge was very sharp and tough.

“Your skills are pretty good!”

Tang Zhen praised. After paying the remaining goods, he got the blacksmith to forge 500 more according to the same appearance.

The blacksmith who received another deal was very happy. Recently, he had very few clients, and his business was even about to close. Tang Zhen’s order could be said to have revived his business, and it even allowed him to showcase the skills that were passed down from his ancestors.

If Tang Zhen could continue ordering, then at this time next year, he wouldn’t have to worry about the house and betrothal gifts needed for his son’s wedding.

Tang Zhen didn’t know what the blacksmith was thinking. He only carried two stacks of tied steel sabers in each hand and easily placed it in the taxi.

When the blacksmith, who had always prided himself on being strong, saw this scene, he couldn’t help but secretly click his tongue in wonder. He thought to himself that this kid was so strong.

After another half a day, Tang Zhen had already prepared all the items. Then, he began to move them. This time, he had prepared too many things. Even if his space had a cubic meter of volume, it still took him a lot of time.

He hid these weapons in the pit and carefully concealed them to ensure that they wouldn’t be discovered by wanderers who might pass by.

When he returned next time, he would lead Qian Long to transport these steel blades back to the Wanderer Market.

After finishing these things, Tang Zhen teleported back home.

[Chapter 25](#)

Strange!

Tang Zhen flipped the notebook in his hand and scratched out the items he had already bought with his pen.

This time, he wanted to buy too many things. It was inevitable that there would be mistakes if he wanted to buy them with his memories alone, so he recorded the items he was prepared to buy one by one.

A good memory was inferior to a lousy pen and notebook.

After glancing at the remaining few items to be bought, Tang Zhen tore off the records on the notebook and burned them to ashes.

After throwing the paper dust into the toilet to wash it away, he planned to go to the market to buy more.

In fact, there was no pattern to the items Tang Zhen bought. He just tried to buy some of each kind so that he could see which goods sold better when he sold them in the future.

He was choosing the goods to purchase in the market. He had been busy for the entire afternoon, but his mood was still a little depressed.

There was more than one reason for his depression. The most important reason was that the secret he was carrying kept his mind in a nervous state. The pressure was too great, but it couldn't be effectively relieved.

When Tang Zhen walked on the street, he was especially sensitive to the gaze looking at him. There was always a hidden fear in his heart, afraid that the other party knew his secret.

In fact, Tang Zhen himself knew this very well, but there was nothing he could do about it.

After dinner at a small restaurant, Tang Zhen slowly walked on the street and just so happened to come across a newly-opened casino.

The renovation was luxurious and colorful. Handsome men and beautiful women shuttled in and out, and from time to time, happy and impudent laughter could be heard.

The joy in this laughter stunned Tang Zhen. After a moment of hesitation, Tang Zhen walked in.

The casino was simply worlds apart from the outside environment.

Under the dazzling light, the deafening rhythm filled his ears. Only at this moment and place could people release emotions that they couldn't usually release. The music made it easy for people to blindly follow the rhythm here and show the wild side of human nature to their heart's content.

After standing at the door for a while, Tang Zhen still walked in.

Tang Zhen asked for a few bottles of wine and sat down at a table in the corner.

As he slowly drank the wine in his cup, Tang Zhen looked at the various men and women on the dance floor, but he felt that this world was very different from his own.

The travel between the two worlds, the struggle between life and death, and the experience during this period were enough to completely transform a person.

Tang Zhen felt this way now.

Perhaps because he was in a bad mood, Tang Zhen drank very quickly. Soon, the table was filled with wine bottles, and he was a little drunk.

However, he didn't leave. Instead, he called for someone to continue serving wine.

Getting drunk could relieve a thousand worries. Perhaps he needed to get drunk.

Then, he would wake up the next morning and abandon everything in the past to fight for the life he wanted!

Unfortunately, things never go as planned. Tang Zhen only wanted to get drunk, but trouble came knocking on his door.

At a table not far away, more than ten men and women were gathered together, playing unscrupulously.

Among them, a woman with heavy makeup accidentally saw Tang Zhen, who was drinking alone. A trace of hatred flashed in her drunk eyes.

She was Tang Zhen's sister's classmate. She had once chased after a tall, rich, and handsome man, but he didn't want to talk to her. Instead, he had a special liking for Tang Zhen's sister and expressed his feelings to her time and time again.

At that time, his sister was focused on studying and ignored the pursuit of this classmate. In the end, this woman found out and brought a few people to "teach" Tang Yajie a lesson.

In the end, Tang Zhen happened to encounter this. Both parties almost fought, but in the end, it was left unsettled.

Perhaps out of jealousy, she thought that Tang Zhen and his sister had ruined her chances, so this grudge was formed.

Later on, the woman was in no mood to study and had a big fight with her father. Then, she ran away from home and lived with a hooligan she knew.

After accidentally meeting Tang Zhen, the hatred in her heart erupted with the help of alcohol and she especially wanted to vent.

A ferocious glint flashed in her blurry eyes. When the woman looked at Tang Zhen, her flushed cheeks twitched.

She turned around and muttered to the man and woman beside her. Then, these people looked in Tang Zhen's direction.

Soon, three men and two women stood up and swayed towards Tang Zhen.

A muscular man in a tight singlet and a bald head sat in front of Tang Zhen and stared at him.

The other men and women surrounded him with a smile and stared at Tang Zhen, looking like they were watching a show.

Tang Zhen raised his eyelids and glanced at the other party. He leaned back and picked up another bottle of beer to slowly drink.

Seeing that Tang Zhen ignored him, the tattooed man's expression changed. He snorted and said, "I say, you're pretty good at pretending!"

"Heh! And who the hell are you?"

Tang Zhen placed the bottle on the table and stared at the tattooed man as he asked with a hint of disdain.

His tone seemed to have stimulated the tattooed man. The other party suddenly stood up and reached out to grab Tang Zhen.

With a slight flash, Tang Zhen dodged the other party. After a cold smile, he grabbed the other party's back collar.

Many things that were suppressed in his heart suddenly erupted at this moment, making his expression become ferocious.

Seeing this, the tattooed man's companions were about to step forward, but they were pushed far away by Tang Zhen. Then, he pulled the tattooed man outside.

No matter how the tattooed man struggled and cursed, he couldn't escape from Tang Zhen's grip. Tang Zhen's arm was like iron, making the struggling tattooed man feel a trace of fear.

The tattooed man's companions rushed over at the same time and tried to stop Tang Zhen, but they were also pushed to the ground by him.

In just a few minutes, Tang Zhen dragged the tattooed man outside. Under the tattooed man's fearful cursing, Tang Zhen turned into a nearby alley.

Following closely behind were more than ten men and women, as well as many spectators watching the commotion.

Tang Zhen threw the tattooed man away and looked at the dozen or so men and women who were cursing non-stop, as if he was looking at a group of clowns.

"Damn!"

A short-haired man cursed and swung the wine bottle in his hand at Tang Zhen.

There were also a few people behind him who surrounded Tang Zhen at the same time. Unfortunately, before they could approach him, the man at the front grunted and was kicked back.

Although Tang Zhen's injuries had yet to recover, he was still not something these hooligans could resist. After all, he could instantly erupt with all the power in his body, and the lethality of his attacks was very terrifying.

As soon as they fought, the other party was released and soon fell on the ground, unable to get up.

Then, Tang Zhen seemed to be venting. He punched and kicked left and right. No one could withstand his attacks. They were all knocked to the ground. In less than a minute, all the men were knocked to the ground, groaning in pain.

This was even after Tang Zhen had suppressed his strength. They were only in pain for a moment and would probably recover quickly. After all, if Tang Zhen had gone all out, they would definitely all be corpses at this moment.

Tang Zhen sighed and looked at the figures rolling on the ground. He felt much more relaxed.

Ignoring the shocked onlookers, Tang Zhen slowly walked in front of one of the women and looked at her with a teasing gaze.

After the other party avoided his gaze, Tang Zhen suddenly reached out and pinched the other party's face. He said in a mocking tone, "Your name is... Little Fei, right? Don't do such a thing again next time, or I won't be polite!"

A cold smile appeared on the corners of his mouth. Tang Zhen's mouth was filled with the smell of alcohol as he pushed through the crowd and strode away.

The next morning, Tang Zhen, who woke up from his sleep, recalled what happened last night and couldn't help but curse bitterly.

Previously, he had been focused on keeping a low profile, but in the end, drinking made things worse. Now, he couldn't keep a low profile even if he wanted to.

However, since it had already happened, he would let nature take its course. Tang Zhen had already made up his mind. Once someone in the original world discovered his secret, he could only choose to make them shut up forever.

Rubbing his numb head, Tang Zhen washed his face with cold water. After hesitating for a moment, he took out his phone.

The contact was Xu Feng. It couldn't be helped. This kid was on good terms with both sides of the law. Many things about him really couldn't be done without his help.

At the same time that Tang Zhen made the call, Xu Feng was testing the effect of the car's shock absorber with a beautiful young woman. When the phone rang, the two of them were deep in "conversation".

Seeing that it was Tang Zhen, Xu Feng casually picked up. "Hello, what's the matter? I'm busy!"

Tang Zhen curled his lips and continued, "I fought at the entrance of that new casino last night. Help me ask around. If there's anything, try your best to settle it for me. Just let me know if you need me to pay!"

“Damn, so it was you! You’re really fierce. You defeated eight alone. Did you eat a basin of tiger whips?”

On the other end of the phone, Xu Feng’s roguish voice sounded, his tone carrying a trace of surprise and ridicule.

Tang Zhen sighed when he heard that. Damn, news of this spread quickly.

Xu Feng paused and continued.

“Among those few rotten garlics, one of them is my underling. He usually acts cool with ordinary people, but when he meets a tough guy, he’ll be obedient. I’ll call him later and it’ll be fine. However, there’s a guy whose bones have been broken by you. He’s the son of the deputy director of our Federal City’s police station. His family has some power, so I’m afraid that will be quite troubling.”

[Chapter 26](#)

Monster Descending from the Sky!

As expected, Xu Feng’s next words confirmed Tang Zhen’s guess.

Xu Feng said, “I heard that that guy’s father is very angry now and has already started to use his connections to involve us. The city has even started an investigation. I’m afraid it won’t be long before they find you.”

Tang Zhen’s heart sank again. He still had an impression of what happened last night. Although he held back when he attacked, his strength was still very powerful. From the looks of it, the matter had blown up a little.

After a moment of silence, Tang Zhen asked, “What do you think will happen if I’m found?”

“It’ll be bad. You probably can’t get away with it and will have to pay and go to jail for a few years, so you should run away as soon as possible!”

Xu Feng’s words made Tang Zhen’s heart sink. He didn’t expect that his momentary loss of control would cause such a result. This immediately disrupted his original plan.

However, his experience during this period of time had made him grow a lot, so he quickly stabilized his emotions. Many thoughts quickly flashed through his mind.

If he could avoid it, he would avoid it. If he couldn’t, he would just run away and focus everything on the development of the alternate world!

Thinking of this, Tang Zhen immediately made a decision.

Just as Xu Feng finished speaking, Tang Zhen’s reply was simple and direct. “Feng, I still want to get a few more guns. It’s best if it’s a rifle, and a few kilograms of explosive detonators!”

Xu Feng was stunned when he heard that. He subconsciously straightened his back, but his head hit the roof of the car heavily.

Rubbing his head, Xu Feng shouted into the phone, “Tang Zhen, did you freaking get kicked in the head by a wild donkey? You want a gun and a detonator? What exactly are you trying to do?”

Xu Feng didn't continue, but Tang Zhen knew very well what he was thinking.

Tang Zhen smiled and said, "You think too highly of me. I'm just someone who's trying to survive. So far, I haven't encountered anyone worth me risking my life. Stop talking nonsense. Are you going to help or not? If not, I'll see if I can get someone else to help."

Xu Feng sneered when he heard that. "Aren't you afraid of going to jail? Getting the things you want is a small matter to me. After all, there aren't many things in this world that I, Young Master Feng, can't get. I think you plan to go all the way. I won't freaking persuade you anymore. Life and death will be up to fate!"

"Stop asking around. These things are too sensitive. If someone with ill intentions targets you, you won't be able to bear the consequences."

Tang Zhen agreed with this very much. This was also the reason why he directly looked for Xu Feng. They were good brothers, so it was much safer no matter what.

Just as he was about to ask Xu Feng when he could get it, he didn't expect the other party to already give an answer.

"Wait for my call. Remember to prepare enough cash. We might have to go to the border."

After hanging up, Tang Zhen was silent for a while before carrying his backpack and activating the teleportation.

Just as he opened his eyes, Tang Zhen felt that the air in Building World was filled with an indescribable oppressive aura. There seemed to be a faint sulfur aura floating in the air.

At this moment, the light in the wilderness in front of him started to dim. An incomparably heavy dark cloud seemed to be floating in the air, like a dark lead block, as if it could fall at any time.

The monster roars that could be heard from time to time in the wilderness had already disappeared.

At this moment, Tang Zhen felt as if he was at the edge of hell.

"What exactly happened?"

Tang Zhen was puzzled. He looked around warily and checked the map at the same time, but he found nothing.

Just as he was about to get up and head to the wanderer town, Tang Zhen's figure suddenly stopped. Then, he quickly crawled on the ground and held his breath, his eyes filled with shock.

The seemingly calm wilderness in front of him had already become distorted in his map, as if a pair of invisible hands were distorting the entire space.

Then, in the distorted ripples, traces of black cracks appeared, revealing a terrifying aura.

At the same time, the smell of sulfur in the air became stronger.

Tang Zhen stared at the map intently. He watched as the black cracks grew larger and larger. Faintly, something seemed to be struggling to be squeezed out of the cracks.

It was the outline of a building. Its appearance was strange and sinister, revealing an ominous and ferocious aura. At the same time, miserable and angry roars came from the cracks. The sound made one's scalp tingle.

As the size of the building became larger and larger, Tang Zhen finally saw the appearance of the building clearly.

This was a strange building with an area of nearly ten thousand square meters. It was about dozens of meters tall and was divided into nine floors. On the outside of each floor were countless sculptures of strange creatures, looking lifelike and incomparably ferocious.

Tang Zhen actually didn't know the creatures represented by these sculptures!

The only thing that made Tang Zhen feel strange was that this building actually gave off a dilapidated feeling, as if it was a ruin.

"Could it be..."

A thought flashed across Tang Zhen's mind as he continued to observe calmly.

As the building completely broke free from the black gap, small black gaps appeared near it, and then gradually enlarged...

Figures that were either ferocious, tall, or sinister squeezed out of these gaps with an ominous black mist.

Tang Zhen looked at the figures walking out of the black crack. His breathing became more and more rapid, and his expression became more and more serious.

A light seemed to flash in the world, and then all the black cracks instantly disappeared. Those buildings and figures were like photos soaked in the projection liquid, appearing bit by bit in the wilderness.

When Tang Zhen could see these buildings and figures that appeared out of thin air in the wilderness, he had already fallen into a stunned state.

Just like when it first appeared, the building emitted a terrifying aura, as if one could steal a person's soul after just one glance of it.

The figures that appeared around the building were countless corpses in broken armor, holding swords, spears, and halberds, as if they had crawled out of the Purgatory Battlefield. The skin exposed all over their bodies was pale green and purple. Their armor and weapons were covered in blood and smoke, and their blood-red eyes flickered with a ferocious light.

As Tang Zhen observed one of the soldiers with a saber and shield, a set of words suddenly appeared in front of his eyes.

[Saber Shield Ghost Soldier, level-two monster. It's not afraid of pain and has extraordinary strength. The flaw is fear burning.]

Looking at the sword-wielding monster beside him, it was displayed as [Ghost Soldier Commander, level-three monster. Not afraid of pain, extremely strong, relatively fast, flaw is fear of fire.]

Looking at these monsters that appeared out of thin air, Tang Zhen immediately understood. So the monsters and wild buildings of this world actually appeared in such a strange way.

Then, did all the other monsters appear in this way? Where did these monsters come from and did they belong to this world?

The more Tang Zhen thought about it, the more questions he had.

“Ning, Ning...”

Heavy footsteps sounded, and then a huge figure nearly three meters tall walked out of the building.

It was wearing strange black armor, most of which had already shattered. In its hand was a huge saber that was even taller than its body. The saber was wrapped in black mist.

Half of the monster’s helmet had already caved in. The areas without armor were filled with black arrows, most of them broken.

Huge noises would be made whenever its combat boots stepped on the ground, showing the weight of its body.

When Tang Zhen looked at the huge monster, he actually couldn’t see any information. This result made his heart tremble.

As long as it was a monster not more than three levels above him, its information could be displayed in front of him, but the level of this huge monster actually couldn’t be displayed. This meant that this monster’s level exceeded five levels, which meant that it was a lord-level monster with special abilities above level six!

If such a monster appeared in the wanderer town, it was enough to kill until rivers of blood flowed. After all, the person with the highest cultivation in the wanderer town was only at level four.

As Tang Zhen secretly observed this lord-level monster, the monster seemed to have sensed something. Its huge head slowly turned in the direction of Tang Zhen. Tang Zhen’s heart trembled, and he hurriedly turned his gaze to the side.

This terrifying monster actually had such sharp senses. It looked like he had to be more careful when exploring in the future.

Unfortunately, the lord-level monster didn’t seem to give up on tracking down the source of the spying. Instead, it stretched out its hand and pointed, emitting strange syllables. Then, several Saber Shield Ghost Soldiers lined up and walked in the direction of Tang Zhen.

At the same time, several monsters using bows and arrows began to scatter at the place where he was hiding.

Tang Zhen’s heart trembled. He turned and ran without hesitation. His target was in the direction of the wanderer town.

It wasn't that he hadn't thought of teleporting away immediately, but the problem was that he would teleport back to the place he teleported from. Now that this place had already become the den of wild monsters, who knew if he would come across more monsters when he teleported back?

Therefore, he could only quickly escape this place, the further the better. Only then could he obtain a greater safety guarantee.

Tang Zhen's escape immediately attracted the attention of the Saber Shield Ghost Soldier. At the same time, almost all the monsters were alarmed. Those archer monsters all bent their bows and nocked arrows. Then, a wave of black arrow rain tore through the air.

This wave of arrows enveloped an area of ten meters around him. It was impossible to dodge.

"Damn it!"

Tang Zhen cursed in his heart. Just as the rain of arrows was about to hit him, he instantly activated the teleportation.

After returning home in the blink of an eye, Tang Zhen picked up a big iron pot used for cooking in the countryside that he had thrown in the corner and secured it to his back.

This iron pot was originally bought by him to cook for Murong Ziyang, but now it had become the best defense tool to block arrows.

In another blur, Tang Zhen appeared in Building World. However, at this moment, he was carrying an extremely funny big pot on his back, looking extremely ridiculous.

As expected, the Saber Shield Ghost Soldiers were still at the place where he disappeared. When they saw him appear, they immediately roared and chased after him with broken sabers.

How could Tang Zhen dare to hesitate? He immediately carried the pot and ran. The rain of arrows behind him attacked, causing the iron pot to ring non-stop. Some of the arrows passed through the iron pot and stabbed him, but because the arrows had been weakened by the defense and strength on his body, they didn't cause him much damage.

Tang Zhen ran out of the effective range of the bow in one go, but the iron pot on his body was already useless. The Saber Shield Ghost Soldiers behind him were still chasing after him persistently.

Tang Zhen turned around and looked at the monster pursuers behind him. He threw away the tattered iron pot and revealed a smug smile.

"Next, it's my turn to show off!"

[Chapter 27](#)

Wild Building Zombie Monster and Advanced Battle!

It was too aggrieved to be chased by a monster like this. If he didn't counterattack, he wouldn't feel like himself.

However, even if he wanted to attack, he had to leave the other party's base camp first. Otherwise, if a bunch of them came out, Tang Zhen probably wouldn't even have time to cry.

After making up his mind, Tang Zhen began to deliberately control his speed and maintain a suitable distance from the Saber Shield Ghost Soldiers. He didn't let them catch up to him, but he maintained enough distance to attract the monsters.

Fortunately, these monsters didn't have the ability to attack from afar. Otherwise, Tang Zhen would have long been attacked.

However, compared to the monster's seemingly endless physical strength, Tang Zhen, who had run for a long time, seemed to be unable to hold on anymore.

If he continued running like this, even if Tang Zhen wasn't killed by the Saber Shield Ghost Soldier, he might collapse from exhaustion.

As he took a deep breath, Tang Zhen took out a pistol from his storage space at lightning speed and fired three consecutive shots at the Saber Shield Ghost Soldier closest to him!

Bang! Bang! Bang!

These three shots were incomparably fast, directly causing the body of the Shield Blade Ghost Soldier to tremble non-stop. Even its breastplate shattered. However, the scene of the monster falling to the ground didn't happen. Tang Zhen's three shots actually only left three small holes on the Shield Blade Ghost Soldier's body!

"Holy shit, what's going on?"

Tang Zhen was stunned. The weapon in his hand actually didn't have the expected effect.

That shield ghost soldier's body gave Tang Zhen the feeling that it was soft rubber!

While Tang Zhen was in a daze, the few Saber Shield Ghost Soldiers also took the opportunity to close the distance between them and Tang Zhen. Their ferocious faces were just inches away. One of the Saber Shield Ghost Soldiers had already raised the huge saber in its hand and was prepared to hack at him in close combat.

How could Tang Zhen dare to hesitate? He sprinted forward with all his might again. After running for a full minute, he pulled away from the shield ghost soldiers a little.

The panting Tang Zhen took out his saber from the storage space this time. When the shield ghost soldier closest to him leaned forward, he immediately used all his strength to slash.

This saber aura was strong and heavy. The huge saber made of the car part ruthlessly cut open the shoulder of the shield ghost soldier. It didn't stop moving and actually cut off the shoulder and arm of the shield ghost soldier.

In the end, as Tang Zhen expected, the Saber Shield Ghost Soldier that had its arm cut off didn't feel any pain at all. Its body only trembled slightly before it staggered and continued to pounce on Tang Zhen.

"Aiyo, damn, how am I supposed to deal with this!"

Tang Zhen cursed and roared before turning to escape again.

The two experiments had proven that unless Tang Zhen could directly tear this monster apart and kill it, even if he cut it at the waist, this monster could still get up and bite the enemy to death.

As expected, as the detector showed, it wasn't afraid of pain!

Direct physical combat was useless. This way, Tang Zhen could only use its flaws to kill it!

At this thought, Tang Zhen activated the teleportation again.

When the pursuing Shield Ghost Soldier saw Tang Zhen disappear without a trace again, it couldn't help but roar loudly. Then, it kept circling the area where he disappeared, but it refused to leave.

When Tang Zhen appeared again, he was already holding a large basin of fuel.

This was the fuel he had stored at home for the all-terrain car. He didn't expect it to be useful at this moment.

!!

He waved his hand at the Saber Shield Ghost Soldiers that had pounced over again since he appeared. He drenched these monsters with a whole basin of fuel .

At the same time that he threw away the basin in his hand, Tang Zhen quickly lit up a ball of hand paper covered in fuel and threw it at the shield ghosts.

The burning fireball drew a black smoke in the air and hit the shield ghost soldier.

"Hu..."

With a small muffled sound, flames shot into the sky. The pursuing Saber Shield Ghost Soldiers immediately turned into human-shaped torches, emitting black smoke as they burned violently.

During this period, there was even a strange sizzling sound. It was the sound of flesh and fat burning.

What shocked Tang Zhen was that although this shield ghost soldiers were covered in fire, they still waved the big sabers in their hand crazily and chased Tang Zhen everywhere in the wilderness.

The shock in Tang Zhen's heart was obvious. As he tried his best to dodge the Saber Shield Ghost Soldiers whose movements were getting slower and slower, he still had to take the time to observe their reaction after being burned.

After dodging for a few minutes, these Saber Shield Ghost Soldiers with abnormally strong vitality finally collapsed to the ground and turned into a pile of charcoal.

On the nearby grass, their burned limbs were everywhere. As they ran and chased after Tang Zhen, these fragments scattered everywhere.

"Hu..."

Tang Zhen sat on the ground and breathed hard. He was really tired from the entire process.

Looking at the corpses of the Saber Shield Ghost Soldiers on the ground, a glint flashed in his eyes, but he was deep in thought. Although the process of killing these Saber Shield Ghost Soldiers was very dangerous and troublesome, it provided him with an idea.

In the future, he could use more flexible methods to kill monsters. There was no need to be restricted to close combat and shooting battle patterns. For example, the fire that he used just now was a very good way to kill monsters.

He took the time to look at the personal information on his cell phone. The upgrade progress had increased a lot. This method was indeed feasible!

At this rate, as long as he did it again, he could advance to level two.

The power at level one was already so strong, so level two must be even more powerful.

Tang Zhen's heart warmed. In an instant, the strange and terrifying wild building seemed to have become a shining pile of brains. It was as if all these monsters were waiting to be burned and plundered wantonly!

However, the luring process just now was filled with danger. Tang Zhen didn't plan to take any more risks.

Such a wild building appearing near Black Rock City had probably already attracted the attention of many factions. It probably wouldn't be long before a large number of wanderers and large and small factions swarmed over.

There wasn't much time left for him. He had to race against time!

Suppressing the fatigue in his body, Tang Zhen quickly took out the brains of the few Saber Shield Ghost Soldiers and threw them into the storage space. Then, he quickly activated the teleportation.

After returning home, Tang Zhen immediately changed and ran to the nearby supermarket to buy a pile of balloons. After running home, he took out the remaining fuel.

After Tang Zhen took out the container, he added rubber particles and white sugar to the fuel, making the fuel unrecognizable.

After filling more than 20 balloons with fuel with a funnel, Tang Zhen made another pile of Molotov cocktails.

This simple weapon with fuel and cloth stuffed in it had a high lethality and low cost!

After finishing these things, Tang Zhen dismantled the all-terrain car and transported it all to Building World after traveling between the two worlds a couple of times.

Right on the heels of that, Tang Zhen swung his arm and waved the pickaxe with all his might. He dug a trench more than ten meters long, leaving only a path for the all-terrain car to pass in the middle.

After throwing a pile of hay inside and pouring a bucket of fuel, Tang Zhen carefully covered it up.

Tang Zhen, who had been busy for a long time, didn't rest. He squatted in the grass and started to assemble the scattered parts of the all-terrain car.

Half an hour later, the roar of a motor sounded. This was perhaps the first all-terrain car in Building World. It let out its own roar, crushing the weeds and carried Tang Zhen to the location of the new wild building.

Before long, Tang Zhen had already seen the gloomy and terrifying wild building in the distance, as well as the zombie monsters wandering outside. At the same time, these monsters also discovered Tang Zhen.

It was impossible not to notice. After all, the roar of this all-terrain car was too obvious. As long as one wasn't deaf, they could hear it.

Tang Zhen didn't know if these zombie monsters were deaf, but they had already pounced over in exasperation.

This time, he didn't see that terrifying lord-level monster, but the sharp-eyed Tang Zhen had already discovered that there seemed to be dozens of zombie monsters wearing leather armor and masks, with light crossbows and short swords at their waists.

Compared to the other zombie monsters, these leather-armored zombies seemed to be much more agile. At this moment, they were quickly gathering in the darkness of the wild building from all directions and hiding very quietly.

If one didn't look carefully, they would probably ignore these zombie monsters hidden in the darkness.

Tang Zhen stared for a few seconds before their information appeared in front of his eyes. [Shadow Ghost Scout, agile movements, weapon with Corpse Poison, night battle power increased by 30%, afraid of strong light and flames.]

Tang Zhen frowned. Where did these monsters come from?

It would be fine if they had come from the wild building, but if they had come out from the black gap, then things would probably be a little bad.

God knew how many monsters were behind those terrifying black cracks. Once an endless stream of them started appearing, it would be a terrifying disaster for the nearby wanderers and Black Rock City.

However, the current Tang Zhen didn't have the time to care about the lives of the others, because there were already seven or eight Saber Shield Ghost Soldiers and two level-two Bow Ghost Soldiers chasing after him. Among these ghost soldiers, there was actually a level-three Ghost Soldier Captain!

After Tang Zhen cursed at his miscalculation, he immediately turned the car around and attracted a group of zombie monsters to run towards the place where he had set up an ambush.

The speed of the all-terrain car was far higher than the movement speed of these monsters, so Tang Zhen could calmly take out fuel balloons from the storage space and turn around to smash one from time to time.

From time to time, monsters would be hit by balloons and stained with sticky fuel oil, but they still chased after Tang Zhen persistently.

The cold arrows flying from behind from time to time made Tang Zhen not dare to be careless. If not for the steel plate on his back and the helmet on his head, he would probably have already been killed five or six times.

Fortunately, these zombie monsters didn't know how to shoot tires. Otherwise, Tang Zhen's plan would have been wasted.

After a chaotic chase, Tang Zhen finally arrived at the location where he had set the trap.

[Chapter 28](#)

Trap Monster and Quantum Invisibility Screen

He aimed the all-terrain car at the aisle sandwiched between the traps and suddenly accelerated.

At this moment, the zombie monsters were already not far from Tang Zhen. He leaped out of the car agilely. When his feet landed, a Molotov cocktail was already in his hand.

He quickly took out a lighter and lit the cloth. After the monster was about ten meters away from the trap, Tang Zhen waved his hand and the bottle with flames smashed fiercely on the passage between the traps.

"Hu..."

A ball of flames quickly rose, and the dancing flames burned the surrounding wild grass, causing the zombie monsters' pursuit to stop slightly.

However, they quickly avoided the fire area and continued to pounce on Tang Zhen.

However, what they didn't know was that they had happened to enter Tang Zhen's trap area.

The monster at the front stepped on the pit made by the hidden weeds and immediately fell in. Then, a second, a third...

Even the Ghost Soldier Captain that Tang Zhen was most afraid of fell in.

Tang Zhen was immediately overjoyed. He was just in the middle of worrying about how to deal with this level-three Ghost Soldier Captain. He didn't expect that it was also a brainless thing and actually fell for his trap too.

Compared to other monsters, although these zombie monsters had thick skin and flesh, they were much less intelligent.

Without any hesitation, after all these monsters fell into the pit, Tang Zhen swung his arm. The Molotov cocktails were smashed into the pit one after another.

Accompanied by the roars of zombie monsters, black smoke rolled in the pit, and flames rose into the sky.

The fuel prepared by Tang Zhen could be considered a simplified version of the incendiary bomb. Once the oil got on one's body, it was very difficult to extinguish. It could even burn to the bones without stopping.

When Tang Zhen tossed all the remaining fuel he had in the storage space, the heat wave emitted by the pit was already impossible to approach.

Tang Zhen took more than ten steps back and took out a pistol from the storage space. He looked at the pit intently and was very worried that the flames couldn't completely burn the level-three Ghost Soldier.

As expected, not long after, Tang Zhen saw a carbonized arm struggling out of the edge of the pit in the sea of fire. Then, he saw a black carbon-like figure jump up from the flames and land heavily on the grass in front of Tang Zhen.

Looking closely, it was that Ghost Soldier Captain.

Tang Zhen's heart trembled. Without hesitation, he raised his gun and shot. However, the Ghost Soldier Captain was not affected by the bullet at all. Its carbonized body, which only had one broken arm, quickly pounced at Tang Zhen.

Tang Zhen couldn't dodge. He could only brace himself and take out his saber to slash at it.

"Pfft."

As if it had been cut into rotten wood, the saber actually completely sank into Ghost Soldier Captain's body. At the same time, the Ghost Soldier Captain's body also hit Tang Zhen heavily and sent him flying.

Tang Zhen's heart turned cold. The collision of a level-three monster might kill him.

After falling heavily to the ground, Tang Zhen first grunted in pain, but then his face lit up. He, who originally thought that he would either die or be injured after being hit, now looked like he was fine.

The last time it was hit by a level-two monster, he needed to rely on the ivy ointment to heal. Why was the impact of a level-three Ghost Soldier Captain so insignificant?

Could it be that after this Ghost Soldier Captain was burned by the flames, its strength had already been greatly reduced?

Tang Zhen's mind raced as he quickly jumped up. Just as he was about to try to attack again, he suddenly felt heat surging in his body. An intoxicating huge power instantly surged through his entire body!

He was... advancing!

Tang Zhen was overjoyed. There was no need to think too much to determine that this was a sign that he had advanced to level two.

The extreme power of two adults could now be erupted in an instant. He was excited just thinking about it!

Looking at the Ghost Soldier Captain charging at him again, Tang Zhen roared and took out another saber from the storage space. He poured all his strength into it and slashed fiercely.

The saber passed, and the head flew!

The charred headless corpse swayed a few times before finally falling to the ground!

With a long sigh, Tang Zhen staggered to the Ghost Soldier Captain and took out the bead inside.

The brain bead was a magical thing. Even though the monster's body had been burned, it was not affected at all. It was still dazzling.

After killing this wave of zombie monsters, Tang Zhen successfully advanced to level two. At the same time, he obtained a lot of high-value brain beads.

Thinking about it, a level-two brain bead could be exchanged for 100 gold coins, and a level-three one could be exchanged for 1,000 gold coins. He had been working hard for a while, and the number of gold coins he had quickly exceeded 10,000.

After waiting for a while, when the flames in the pit were extinguished, Tang Zhen covered his nose and cleaned up the incomplete monster remains inside, obtaining ten level-two brain beads.

Turning around and looking in the direction of the wild building, Tang Zhen's heart skipped a beat. He was very curious about what was inside.

It was said that the more powerful the guardian monster was, the higher the value of the treasures inside. From the looks of it, there were probably impressive treasures hidden inside.

If he could sneak in and take a look, he might have some unexpected gains!

However, when he thought of the large number of monsters outside the wild building and that terrifying lord-level monster, Tang Zhen felt a headache.

How could he go over in broad daylight?

Was he supposed to fight his way there? He clearly couldn't defeat the large number of monsters!

Was he supposed to fly over? Their archers weren't for show. They could fill his entire body with arrows in minutes!

Should he try sneaking in? The problem was that he couldn't turn himself invisible...

Actually, wait, there was probably a way to turn himself invisible!

Tang Zhen thought of something and his eyes immediately lit up. Then, he eagerly opened the application store on his cell phone.

He entered the word "invisibility" in the search bar of the application store, and more than ten options popped up.

[Invisibility Barrier. After activation, the user will be in the barrier and won't be discovered by anyone. It will last for an hour. The disadvantage is that once it moves, the barrier will lose its effect. The download price is 1,000 gold coins.]

[Invisible phone, after activation, the cell phone will automatically become invisible. The download price is 500 gold coins.]

[Invisibility Projection. After activation, illuminate an item and the item will be hidden and invisible to the naked eye. The download price is 800 gold coins.]

...

Among the dozens of messages, Tang Zhen quickly found the application he wanted.

[Quantum Invisibility Screen. After activation, it can perfectly simulate the surrounding environment and achieve the goal of invisibility. It can block infrared, laser, and microwave detection. The download price is 10,000 gold coins.]

Seeing the introduction of the Quantum Invisibility Screen, Tang Zhen nodded in satisfaction and thought to himself that this was it!

He reached out and clicked on the download button. The balance of the account was exhausted again. At the same time, the app had been downloaded and installed.

The icon of this application looked like a stream of water. After Tang Zhen clicked to activate it, he felt the light around his body distort.

He looked down at the raised arm and saw the ground under his feet.

Then, he looked at his legs. They had also perfectly integrated into the surrounding environment without any abnormalities.

If this invisibility ability was used in reconnaissance battles, coupled with his teleportation function, it was simply a super combination!

After experimenting for a while, Tang Zhen was very satisfied. It was really worth the 10,000 gold coins he spent.

With the ability to dodge the monsters outside, Tang Zhen naturally wouldn't hesitate at all. He immediately hid the all-terrain vehicle and ran non-stop to the area where the wild building was.

However, compared to the previously empty situation, the area near the wild building had already become lively. Along the way, Tang Zhen discovered many exploration teams formed by wanderers. They looked like they were all heading for the wild building.

During this period, Tang Zhen also saw a team of five which included three men and two women. The armor and weapons on their bodies were very good, and even their complexion was much better than ordinary wanderers.

Tang Zhen estimated that the strength of these five people should be above level two. The burly man in the lead was at least level three!

This kind of perception of strength was an ability that every cultivator in Building World had.

In fact, Tang Zhen had only learned recently that ordinary cultivators below level six could be further categorized.

Most cultivators in Building World relied on killing monsters to level up. This kind of common grassroots cultivator was called a wild cultivator.

Only cultivators who came from a building or were cultivated by various powerful factions and had precious cultivation techniques and good equipment could be called true cultivators.

They didn't have to worry about food and clothing. With systematic training and no lack of cultivation techniques and equipment, their battle power at the same level was almost three times that of wild cultivators. This was the strength of those so-called true cultivators.

It was also because of this that when they looked at the ragged wanderers, a trace of pride always flashed in their eyes.

Logically speaking, Tang Zhen was also a wild cultivator, but for some special reasons, his battle power was not inferior to these true cultivators at all. He might even be better than them!

Tang Zhen didn't know about this. He only took a few more looks with interest after hearing that the five of them came from Black Rock City.

From the looks of it, Black Rock City was also a place that couldn't be underestimated.

As Tang Zhen didn't show any special actions and was still wearing a hood cloak used to hide himself, the five of them didn't pay attention to him.

They didn't mind Tang Zhen's frequent scrutinizing gaze as they only considered him as a curious country bumpkin.

After walking and stopping, two hours had passed when Tang Zhen arrived near the strange black wild building again.

At this moment, the roars of monsters and the shouts of wild cultivators could be vaguely heard as large and small factions were busy evaluating the battle power of those zombie monsters.

Only after confirming the battle power of these zombie monsters could they formulate the corresponding plan.

At the moment, there were about seven or eight teams fighting the zombie monsters. They were all standing at the edge of the zombie monster's protective range, attracting a monster far away and attacking together.

If they were to go deep into the range protected by these zombie monsters, they definitely wouldn't. After all, they didn't dare to take the risk.

When the five-man team from Black Rock City, who had been followed by Tang Zhen, saw this, they couldn't help but reveal mocking smiles. Then, the five of them took out their weapons and actually rushed directly towards the wild building protected by the zombie monsters.

Tang Zhen was first stunned when he saw this. Then, the corners of his mouth revealed a smile. While no one was paying attention, he quickly activated the Quantum Invisibility Screen and sneaked over silently.

[Chapter 29](#)

Zombie Base Treasure Snatching!

With this five-man team from Black Rock City in front, they could attract the attention of a large number of zombie monsters. Tang Zhen naturally couldn't ask for more.

Taking advantage of the chaotic scene, he carefully stepped into the area protected by the zombie monsters. It was more than 20 meters away, but he actually didn't attract the attention of any monsters.

Seeing his body become one with the surrounding scenery, Tang Zhen couldn't help but feel emotional secretly. This Quantum Invisibility Screen was really awesome!

But no matter how powerful this Quantum Invisibility Screen was, Tang Zhen didn't dare to let his guard down. The route he took was also as far away from those zombie monsters as possible, even if he had to walk further.

While he was sneaking around, the five-man team from Black Rock City was fighting extremely excitingly not far away.

The strongest man in the five-man team was waving a huge broadsword that glowed with light. His movements were wide, and the aura when he attacked was very shocking.

From time to time, he would even erupt with a roar, like a furious lion.

Compared to the battle method of ordinary wanderers, his attacks had a pattern and rhythm that were complete in sync with his breathing technique.

It was obvious that he had cultivated hard and had rich battle experience.

The Saber Shield Ghost Soldier that had made Tang Zhen look miserable previously would not be able to last more than two rounds in this man's hands before its head or waist was cut off!

The remaining two men and two women were divided into two teams. Each team had one man and one woman and they also killed to their heart's content.

The men in the two teams used red metal weapons that looked like sickle spears. They were usually placed in their backpacks with threads connecting the head and tail. They could be used separately or combined as a long weapon.

At this moment, they were using the combined Hook Spear. In the encirclement of the zombie monsters, the two Hook Spear made whistling sounds as they shuttled around like poisonous snakes.

When hit by the sickle spear, the monster's flesh would be pierced. If it pulled back, a piece of flesh would be hooked off, or it would fall to the ground.

The woman beside them used two strange hand axes that could slash and stab. The blades glowed with a blue light, looking extremely sharp.

Any zombie monster that was missed by the two men would be taken down by the two women. The two sharp axes flew up and down, cutting the zombie monster into pieces like cutting tofu.

They were only a team of five people, but they had the aura of an army charging forward!

Tang Zhen stopped and watched. He was shocked by their battle power and envious of their weapons. It was obvious that the weapons the five of them used were not ordinary.

Perhaps the weapons they used were the expensive demon weapons Qian Long mentioned!

However, now was not the time to investigate the value of these weapons. Tang Zhen had to take advantage of the opportunity brought by the five of them to infiltrate the wild building.

Tang Zhen continued forward carefully again. After walking for about ten minutes, he had already arrived at the entrance of the building.

The door of the pitch-black building opened wide. It was pitch-black inside, as if it was the mouth of a huge beast that was about to devour someone.

The eyes of the monster relief upstairs seemed to have come alive. It stared at him sinisterly, as if it was revealing a ferocious smile.

Sensing that oppressive aura, Tang Zhen felt a trace of coldness seep into his bones.

After calming down, he glanced at the Shadow Ghost Scout in the shadows who seemed to have sensed something and entered the building with even more careful steps.

The whole environment was dark, cold, and oppressive!

This was Tang Zhen's first feeling after entering the building. It was as if a pair of invisible huge eyes were spying on his every move without any emotions.

Tang Zhen warned himself in his heart that once there was any movement, he would immediately activate the teleportation and dodge. Otherwise, the consequences would be unimaginable.

After slowly adapting in the darkness for a while, Tang Zhen could finally barely see the scenery in the wild building. However, it was precisely because of this that the shock in his heart was even stronger.

At this moment, he was in a hall decorated with black materials. It was extremely vast, and he couldn't even see the end.

Tang Zhen was secretly puzzled. From the outside, the depth of this building didn't seem this long at all.

Ignoring the size of the hall, Tang Zhen noticed that on both sides of the hall, there was actually a row of black statues more than three meters tall. They were of different shapes, but they were all armored warriors with ferocious expressions.

Looking at their appearance, Tang Zhen couldn't help but think of the lord-level monster he had seen previously. It seemed to be very similar to the appearance of these statues.

Looking at these lifelike statues and sensing the faint killing intent they emitted, Tang Zhen felt very uncomfortable.

It was as if they were a group of living monsters, sleeping at this moment.

He carefully walked along the black building materials and tried his best not to make any sound. After Tang Zhen walked for more than ten minutes, he saw another incomparably huge black statue.

This statue could be described as indomitable. When Tang Zhen raised his head, he couldn't even see its head that had disappeared into the darkness. However, he could tell that this statue had six arms, and its two thighs were even thicker than usual.

It was also wearing strange black armor. It looked extremely heavy, and the patterns were rather strange.

The entire statue seemed to emit a trace of blood-red aura that slowly lingered around and floated slowly.

Tang Zhen watched for a while. Just as he was about to see if there were any other strange places in the hall, his cell phone suddenly seemed to tremble.

His heart trembled, and cold sweat broke out on Tang Zhen's forehead. At the same time, he cursed silently.

Ever since he came to the Building World, this cell phone had never made any sound, but this time, it strangely vibrated.

Damn, he was currently deep inside the zombie monster's nest, alright!

If this lousy cell phone had the ringtone of a crazy dance song, wouldn't he be torn into pieces by that lord-level monster that he had yet to see?

He reached out to stop the cell phone and even turned it off, but Tang Zhen sadly realized that he couldn't.

However, just as he tried to stop the cell phone from vibrating, he realized that the cell phone's vibration would only appear when it was aimed in a certain direction. When it was pointed in other directions, it would become faint.

Tang Zhen was surprised. After thinking about it, he slowly walked in the direction that was causing his cell phone to vibrate.

After walking dozens of steps, Tang Zhen discovered a door. It seemed to be a small room inside.

Tang Zhen stood at the door and took a few looks, only to discover that on a heavy table inside, there was actually a metal box nearly half a meter square.

The style of this box was extremely similar to the entire building. It was similarly sinister and strange, emitting an ominous aura.

But when Tang Zhen saw the box, he immediately grinned.

Haha, a box that could be placed in such a wild building definitely contained good things. Was this a treasure chest that was going to make him rich?

After looking around the room again and confirming that there was no danger, Tang Zhen rushed forward and put the treasure chest into his storage space.

The moment the metal box was put into the storage space, Tang Zhen seemed to hear a faint angry snort in the endless void!

At the same time, an extremely angry roar erupted from the depths of the hall of the wild building. Then, there was a rumbling sound of running. At the same time, a huge figure charged towards the room with killing intent.

Judging from its size and aura, it was the terrifying Zombie Lord!

Tang Zhen's heart was beating crazily. At this moment, no matter how slow his reaction was, it was impossible for him to not know what was going on. He knew that he had taken something very impressive. After all, that lord-level monster had already pounced over crazily!

He needed to get out of here right away!

[Chapter 30](#)

The Enraged Zombie Lord

Tang Zhen almost used all his strength to try to rush out of the room crazily.

Once in the hall, his chances of escaping would increase greatly. Moreover, the various items inside could be used to help him dodge and hide.

Tang Zhen's plan was very good. Unfortunately, he had far underestimated the importance of this metal box to the Zombie Lord and the strength the Zombie Lord had.

In the blink of an eye, the Zombie Lord had already rushed in front of him.

His speed was far inferior to that of a lord-level monster, so before he could reach the door, he was blocked by the huge body of the Zombie Lord.

Tang Zhen, who had nowhere to run, could only carefully retreat into the room. Under the cover of the Quantum Invisibility Screen, he stole a glance at the Zombie Lord, but he didn't even dare to breathe loudly.

The Zombie Lord was already furious. It didn't expect that someone would actually dare to enter here. Not only did the other party sneak past the hidden guards, but the other party even stole an extremely important item.

That item had a special connection with it, so it had already sensed it the moment the connection was broken.

It didn't matter if it lost other things. They were all things it had accidentally collected. It didn't mind throwing those things away.

However, if this particular item was lost, the consequences would be a little unbearable, even for the Zombie Lord.

"Damn it, I should have kept it with me at all times!"

As the Zombie Lord thought about it, the anger in its heart grew.

Although the Zombie Lord couldn't see the thief in the room, it could sense a weak aura that didn't belong here stopping in the middle of the room. Without a doubt, it belonged to the thief!

"Damn thief, get out here!"

The Zombie Lord roared and attacked without hesitation.

A palm the size of a basin smashed fiercely at the aura in its perception. It wanted to smash the thief into meat paste!

“Boom!”

The ground shattered, and rocks flew everywhere. This room was smashed beyond recognition by the huge palm, and all the decorations turned into powder.

An ordinary slap actually had such a shocking power. This must be the special ability of a lord-level monster above level six.

However, after the Zombie Lord slapped out, it actually became even angrier.

Because in its perception, that weak aura actually disappeared instantly!

The other party wasn't killed by it. Instead, he had suddenly disappeared!

Damn it, he actually disappeared. He actually disappeared mysteriously with the key item used for the sacrifice!

This way, how could the Zombie King descend? Now that the Zombie Lord has affected the Zombie Race's big plan, wouldn't it be sliced into pieces?

The more the Zombie Lord monster thought about it, the more afraid it became. The more fear it felt, the angrier it became. It couldn't help but roar!

It was all because of this damn little thief. If it caught him, it would definitely torture him alive for a hundred years before turning him into a zombie slave and continue torturing him.

After the Zombie Lord's anger subsided a little, it began to think hard.

It was still able to save the situation. Although the key item that would be used for the sacrifice had been stolen by the detestable little thief, the Zombie King's plan couldn't be delayed. The only way was to gather enough substitutes as soon as possible.

Initially, the zombie lord-level monster planned to complete the mission in a low profile manner, not wanting to alarm the native experts of this world. But since such a thing had happened, it could only use its trump card!

When the Zombie Lord thought of this, its blood-red eyes suffused a cruel light. It turned around and walked to the huge statue. Then, it knelt down and kowtowed extremely devoutly.

On the ground in front of the Zombie Lord was surprisingly a strange black altar!

Eight strange sculptures stood around the altar. Looking carefully, they were actually carved from huge black bones, emitting a faint blood-colored mist.

After the Zombie Lord finished kowtowing, it slowly raised its hand and stretched out a finger.

The sharp nail on this finger was about three inches long. It was crystalline, like a sharp military knife.

It stabbed its heart with its sharp nails. Then, black blood spewed out of its wound. The Zombie Lord let out a suppressed cry of pain.

The black blood landed on the altar and squirmed gently, as if it was alive.

Then, the Zombie Lord chanted something in a strange tone. A moment later, the blood suddenly disappeared. At the same time, countless black smoke shot out from the altar and flew into the eyebrows of the statues in the hall.

“Wake up, my sleeping subordinates!”

The Zombie Lord stood up and roared. The eyes of the statues actually glowed red at the same time, and then they moved one by one.

They let out terrifying low roars and slowly gathered together with heavy footsteps. Then, they followed the Zombie Lord to the door of the wild building.

Standing at the door of the wild building, it pointed in all directions and shouted, “Clean up all the surrounding areas and bring all the monsters and wanderers we encounter. Then, kill tens of thousands of creatures to create a blood pool altar to welcome the descent of the Zombie King!”

“Roar...!”

At this moment, all the zombie monsters roared in unison, their eyes filled with the desire to kill.

The Zombie Lord chanted again in a low voice. Its body emitted a black and red mist that spread near the wild building.

After the mist on the Zombie Lord stopped overflowing, its tall and huge body seemed to tremble a few times.

At the same time, around the building, the air seemed to have been distorted again. Then, a black gap invisible to the human eye slowly appeared.

At the same time, more black shadows appeared, densely filling the empty space in front of the building!

After that magical light flashed, the black crack disappeared. However, this empty space was already filled with groups of Saber Shield Ghost Soldiers and zombie monster archers. They were led by Ghost Soldier Captains, and their ferocious faces looked at the Zombie Lord.

The smell of corpses was suffocating, and the killing intent was soaring.

Beside these zombie soldiers, there was also a group of cavalry riding monsters that looked like warhorses. They were wearing heavy armor, like mobile fortresses covered in blood and flesh.

“Let go of me, please let go of me!”

A voice sounded. The zombie soldiers made way and more than ten Shadow Ghost Explorers escorting several wanderers walked over. Then, they kicked them down and made them kneel side by side in front of the Zombie Lord.

Looking at the airtight terrifying monsters around them looking at them with bloodthirsty and terrifying eyes, these wanderers were scared out of their wits and kept begging.

The Zombie Lord looked at its subordinates in satisfaction and opened its bloody mouth to laugh loudly, filled with madness.

Then, it pulled out its Horse Slaying Saber and casually waved it in front of them. Immediately, several terrified wanderers' heads shot into the sky.

It reached out and grabbed a human head and gently clenched its fist to crush him. After that, the Zombie Lord waved in the direction of Black Rock City!

“Warriors, let’s go!”

“Plop!”

Tang Zhen lay on the ground at home with his face covered in dust. Blood flowed from the corners of his mouth, but a pleasantly surprised and shocked expression flashed on his face.

After crawling up from the ground with difficulty, Tang Zhen wiped the blood from the corners of his mouth. After walking to the bed, he collapsed on it.

The experience in the wild building just now could be said to be soul-stirring. If he hadn’t teleported in time, he would probably have been slapped into meat paste by the Zombie Lord.

But even so, his internal organs were still affected by the mysterious power carried by the Zombie Lord’s palm. The blood flowing out of the corners of his mouth was the best proof.

However, the angrier the Zombie Lord was, the more it proved that the thing Tang Zhen took was very precious!

However, the obvious intelligence revealed by the Zombie Lord’s words and actions, as well as the angry snort that sounded like an illusion when he put away the box, made him feel that these zombie monsters were not ordinary monsters.

If the truth was really as he guessed, it probably wouldn’t be long before a big event happened!

After throwing away the wild thoughts in his mind, Tang Zhen swallowed an Ivy ointment and felt that the chaotic aura had calmed down a lot. Only then did he stand up with difficulty.

With a casual wave, a strange metal box appeared in front of him.

Because this box almost cost him his life, and the Zombie Lord valued it so much, Tang Zhen couldn’t wait to see what was inside.

Although the best place to open the box should be in Building World, Tang Zhen could guarantee that as long as he teleported back, he would definitely be caught by the Zombie Lord.

This was also the reason why he ran away after obtaining the box. Until now, he was still worried about how he could leave that damn room safely the next time he teleported back to Building World.

Tang Zhen went around the back of the box and stretched out his hand to open the box. The box was actually opened easily by him.

It was too easy. There were actually no mechanisms or hidden locks. This didn’t make sense!

Tang Zhen muttered and thought to himself that the safety measures were so inadequate, but the Zombie Lord was so nervous. Could it be that the Zombie Lord's private diary was hidden inside?

He carefully stuck his head out to look at the box. With just a glance, Tang Zhen's body froze.

At this moment, in the metal box, there was a box full of items. There was a short sword, a black robe, a few rolls of special-colored paper, a glass bottle the size of an index finger, and some junk.

However, none of these things attracted Tang Zhen's attention. His gaze was completely attracted by the bright crystals in the box.

"This is... This is...?"

Tang Zhen trembled as he picked up one of the crystals. After looking at it in front of his eyes, he smiled foolishly like a fool. Then, his laughter became louder and louder. In the end, he laughed until tears flowed out.

"Damn, they're all brain beads. They're all monster brain beads above level three!"
