

Alternate 2151

Chapter 2151 Who is the evil guest? _1

Tang Zhen did not rashly touch these energy crystals in case he alarmed the owner of this place, which was the old ancestor of the fiery Rock City.

His previous speculations had already been confirmed. The martial artists of Firerock city had long known about the situation inside and had been providing assistance.

Over the years, in order to nurture the things in the Firerock, who knew how many energy crystals had been consumed.

This kind of thing was not easy to obtain, especially for the warrior continent that was lacking in energy. It was extremely difficult to obtain.

Perhaps the only way for volcanic city was to exchange their battle credits in the Grand temple through the powerful believers.

As long as they had enough battle merits, no matter how many energy crystals they could exchange for, the Grand temple would not refuse.

After the powerful believers obtained the energy crystals, they would secretly send them to the warrior's continent and Exchange them for the things they wanted.

If that was the case, it could only mean that the believer's continent had long been riddled with holes and was filled with ambushes from the warrior's continent.

Once the war started, the future would be bleak.

Defense zone 153 might become a target for all. Not only would they have to face the martial Army and sea monsters, but they would also have to face the traitors from the divine Kingdom.

Tang Zhen quietly shook his head. If the war were to start, these believers would not be trusted. In the end, they would still have to rely on themselves.

Tang Zhen shifted his gaze away from the ground and once again looked at the center of the liquefied energy. He wanted to know what exactly was hidden inside.

It was just that an unknown force had isolated Tang Zhen's prying. It was like this outside the Firerock, and it was still the same after entering the inside.

"If we want to figure out what it is, we have to get close and observe it, but there will be a certain risk."

Even so, Tang Zhen still immediately searched for a gap in the runic magic circle. Without any effort, he had already passed through the alarm area.

"The governor of flamerock city's attainments in runes are simply too crude and terrifying."

Tang Zhen shook his head. He did not have the slightest sense of achievement in his heart for breaking the enemy's defensive technique.

After entering the liquid energy, he immediately felt a sticky and slimy feeling. Fortunately, it didn't affect his normal movements.

The thing in the middle of the volcanic rock finally revealed its true appearance.

It looked like a cloud of smoke, but it was constantly changing, like a light veil floating in the flame of neon, as if it could go with the wind at any time.

The runes on its surface flickered as if it was breathing, and the flames on the surface of the flamestones were also constantly swallowing and spitting.

From the first time he saw this thing, Tang Zhen was certain that it was unusual. He faintly trembled as if he was facing an ultimate expert.

It wasn't very strong, and could even be said to be very weak, but it had a majestic aura that couldn't be ignored.

Tang Zhen muttered to himself. At this moment, he did not know how to destroy this thing.

If he didn't have a good grasp of the situation when he attacked, he would hurt himself. Who knew if this small thing was a barrel of explosives?

Tang Zhen did not have much time to hesitate. In the end, he still decided to take action. He raised his hand and prepared to release the energy that was the opposite of the fire attribute and firmly wrapped it.

When the two kinds of repulsive energy met, there would inevitably be a violent reaction, and it might even raze the fire Rock and nearby buildings to the ground.

The thing that Tang Zhen had created at this moment was a detonator. The surrounding liquefied energy was a natural super explosive.

After he left, he would remotely detonate it, blowing the Firerock and this thing into ashes.

Who knew that at this moment, an unforeseen event would suddenly occur.

That light muslin-like object suddenly trembled. After which, it turned toward Tang Zhen's position.

At this moment, Tang Zhen suddenly felt as though he was being stared at by a ferocious beast.

Although that thing didn't have eyes, Tang Zhen could be sure that it was looking at him.

He was slightly shocked. He had thought that this thing was in a dormant state, but he did not expect it to be so sensitive to danger.

Clearly, it had already realized that it was about to encounter danger. From there, it had locked onto Tang Zhen, the creator of the danger, a step ahead.

Tang Zhen felt a little awkward for a moment. He did not know if he would be successful in continuing his operation after being discovered by the other party.

However, the arrow was already on the bow, and there was no time to think too much. Otherwise, there would definitely be an even bigger change.

Tang Zhen did not hesitate any longer after he realized this point. He continued to increase the energy input.

In the next instant, Tang Zhen threw out the energy ball before turning around and fleeing without the slightest hesitation.

He never thought that the moment he turned around, that light muslin-like object would actually be as fast as lightning and directly chase after Tang Zhen.

In the blink of an eye, he had appeared behind Tang Zhen.

Tang Zhen's heart jolted as he suddenly threw a punch. At this moment, he no longer had the time to worry about whether he would expose his whereabouts.

However, after he swung his fist, it was as if he had hit the air. The light muslin-like object did not move at all, as if it was a ball of light.

After his attack missed, the light muslin-like object was like a maggot that attached itself to a bone as it wrapped around Tang Zhen's arm and continued to drill into his body.

Tang Zhen was shocked. This was the first time he had encountered such a situation. He immediately checked his body.

As it was not a body of flesh and blood, even if a foreign object entered his body, it would not cause too much harm to Tang Zhen.

However, Tang Zhen had a premonition that this matter wasn't that simple.

Sure enough, when he examined his body, he didn't find anything unusual. It seemed that the light muslin-like object had disappeared.

"It's broken!"

A thread of bad premonition flashed within Tang Zhen's heart. That thing was not in his body. Was there any other place he could go to?

The answer was yes!

There was a place within Tang Zhen's body that existed between reality and illusion. It was the mental world.

After becoming a creator, the cultivators of Lou city and the native cultivators would create their own independent world. However, the way they built it was different.

The mental world of Lou Cheng's cultivators was a completely different concept from the world created by the Masters of creation from the other world.

The mental world was connected to the Lou Cheng cultivators and could freely switch between real and virtual. It could be said that the Lou Cheng cultivators could bring their mental world to wherever they went.

Worlds like God's kingdom didn't have such a function. Once a location was chosen, it couldn't be moved.

Just based on this point, Lou Cheng's cultivators were enough to crush the cultivators of the myriad world.

The thing that Tang Zhen was most worried about right now was that the light muslin-like thing would enter the world of his mind.

With a thought, Tang Zhen began to search the world in his mind, not letting go of any corner.

The world in his mind was expanding at an extremely fast speed. It was now thousands of miles wide and a scene of chaos.

Not long after, Tang Zhen's expression changed slightly as it became solemn.

Sure enough, as he had expected, in the world of his mind's world's world Energy source, the light muslin-like thing was like a fish, happily swimming around.

When Tang Zhen tried to use his authority as the owner to expel him out of the country, that light muslin-like object actually emitted a sense of resistance. It seemed to refuse to leave the world in his mind.

Tang Zhen was both shocked and furious in his heart. How could he allow this fellow of unknown origin to exist in his mental world?

He immediately used all his strength to try to throw that thing out.

However, at this moment, the muslin-like object suddenly unfolded, and runes began to swim on the surface of the muslin, flashing with a dangerous light.

The world in his mind also became restless, as if it had become a barrel of gunpowder.

It was actually threatening Tang Zhen. At most, it would just perish together with him.

Tang Zhen hesitated for a moment. In the end, he did not dare to continue driving her away. Instead, he quietly sighed in his heart.

This guy seems to be planning to stay here and not leave.

Chapter 2152 The secret of the kingdom of God (1)

Sensing that Tang Zhen seemed to have given up on expelling it, that thing shook a little before continuing to swim within the energy source.

A trace of jubilant emotion spread soon after, and was clearly sensed by Tang Zhen.

Tang Zhen's expression was gloomy as he stared intently at that thing. Both of his eyes narrowed.

This thing refused to leave and was actually absorbing energy non-stop. It could be said to be impolite.

Compared to the energy-deficient martial artist continent, the world in Tang Zhen's mind was simply a paradise.

This was also the reason why he felt so excited and happy.

The energy of heaven and earth produced in the world of one's mind was completely different from that of the outside world. It was closer to the origin of the world.

Reviving the dead and regrowing flesh from bones was just the most basic function. The key was that it could materialize all things, which was extremely precious.

At the same time, it was related to the construction of the world in his mind. If it was not necessary, Tang Zhen would not use it easily.

However, this evil guest that could not be driven away was actually devouring it in large mouthfuls, almost at the same speed as the energy source's production.

If this continued, let alone expanding Tang Zhen's mental world, it would already be difficult for him to maintain the stability of his mental world.

"You bastard!"

Tang Zhen rarely got angry. However, he couldn't tolerate this fellow's actions. This matter was related to his cultivation and advancement. Which cultivator wouldn't care about it?

Just as Tang Zhen was thinking of a solution to this problem, he suddenly felt a wave of mental energy sweep past his location. After which, it stopped as though it had received a shock.

What followed was endless anger, as if the treasure that he had been protecting with all his might had been stolen by a thief who had appeared out of nowhere.

"The patriarch of Firerock city!"

Tang Zhen's heart pounded wildly. He knew that he had already been exposed and the other party would probably rush over very quickly.

Without the slightest hesitation, Tang Zhen was like a wild wind as he directly flew out of the tunnel.

He had destroyed the lifeline of Firerock city and taken away that strange thing. It would be strange if the patriarch of Firerock city did not fight him to the death!

Fortunately, Tang Zhen had already made up his mind. Even if he was discovered, he did not panic.

At worst, they could just have a fight and understand the true strength of the giant city patriarch.

In the blink of an eye, Tang Zhen was already in the sky above weapon forging city.

The moment he rushed out, he directly detonated the energy ball he had placed in advance in an attempt to create more chaos.

Tang Zhen coldly laughed as he sped into the distance.

At the same time, a figure rushed out from the direction of the governor's mansion and headed straight for weapon forging city.

In the blink of an eye, it had already reached the top of the sea of fire.

Looking at the ruined weapon forging city, the white-haired and white-bearded old ancestor of Firerock city almost went crazy. Like a furious Lion, he let out a furious roar.

“I don’t care who you are, I’ll cut you into a thousand pieces!”

After the patriarch of Firerock city roared, he soared into the sky once again and went straight in the direction that Tang Zhen had escaped in.

More figures rose into the sky, seething with killing intent, and followed behind the patriarch of Firerock city.

Like a long Dragon, it flew across the sky, and everyone who saw it trembled in fear.

At this moment, volcanic city was in complete chaos. Not only were martial artists all mobilized, but the divine soldiers who would not reveal themselves had also come out in full force.

In the nearby giant city, many spirit energies extended over, and when they found that weapon forging city had been reduced to ruins, their jaws almost dropped.

Weapon forging city was the lifeblood of Firerock city, and now that it had been destroyed, the patriarch of Firerock city would probably go mad with anger.

As expected, as this thought rose, countless martial artists rushed out of the city and chased into the distance.

“Something big has happened!”

When those spiritual energies crossed paths, they conveyed the same thoughts at the same time. While they were gloating over his misfortune, they also felt a faint trace of worry.

Volcanic city was powerful and could faintly suppress the other large cities. Now that their lifeline had been destroyed, it was naturally for the best.

However, since the murderer dared to attack volcanic city, it proved that he was extremely daring. Who knew if he would use the same method against them?

At the thought of this, the patriarchs of the various megacities immediately gave the order to put the city under martial law and not let off any suspicious people.

Although he had given the order, he still could not feel at ease.

The most important point was that they didn’t know who made the move, so they didn’t know how to deal with it.

An unknown enemy was the most terrifying.

“Let’s go and take a look?”

“That’s what I was thinking!”

After the discussion was over, figures appeared from the various large cities and headed straight for where Firerock city was.

.....

The ancestor of windthunder city was also among them. Compared to the confusion of the other patriarchs, he felt that this matter was very likely related to Tang Zhen.

Although the relationship between the major cities was tense, and the patriarchs were hostile to each other, it was not to the extent of hatred.

Directly destroying weapon forging city was equivalent to cutting off the lifeline of volcanic city, and this was a great enmity that would not rest until one of them was dead.

If an elder really did that, then a bloody battle would be inevitable. No one would know who would win until the last moment.

Furthermore, with the strength of volcanic city, no one would act rashly without absolute confidence.

Patriarch megacity could be ruled out.

As for the powerful believers, they did not have much disputes with volcanic city. On the contrary, they had the most frequent contact with volcanic city.

The demand for fire-type energy crystals in volcanic city was very high, and those powerful believers were the biggest suppliers. Why would they do such a thing?

In the eyes of the old ancestor of windthunder city, unless those powerful believers were blinded by greed, they would not attack fiery Rock City.

As for the powerhouses of the sea monster clan, it was even more impossible for them to make trouble when the two sides were working together. It would do them no good and would only make more powerful enemies.

After eliminating all the suspects, the only person who could do this was Tang Zhen, the Super expert who had crossed the sea.

Even though he had not fought with Tang Zhen, he was certain that Tang Zhen was not weak.

Even if he were to fight against it, he might not be able to escape unscathed. He might even be killed.

As for Tang Zhen's reason for taking action, it was not difficult to guess.

Judging from the previous encounter, Tang Zhen must have a special connection with the Grand temple. That was why he crossed the sea and constantly searched for information in all aspects.

Due to historical reasons and the fact that the warrior continent was preparing to cooperate with the sea monster tribe, the warrior continent was equivalent to the enemy of the Grand temple.

Since they were enemies, there was no need for them to have too many scruples. If there was an opportunity to attack, Tang Zhen would definitely not hesitate.

As for the second reason, it was because of the precious Firerock in Firerock city.

The patriarchs of the various megacity cities had some understanding of the special Firerock in Firerock city and knew that it had an extraordinary origin.

Compared to Tang Zhen, they knew more about the secrets of the Firerock. It was precisely because of the appearance of this thing that a crack had appeared in the sky above the martial continent.

In other words, it was Yan who had torn apart the plane barrier of the warrior continent, which allowed the Warriors from the outer realms to discover the entrance to the divine Kingdom by accident. They then gathered martial Dao experts to launch an invasion.

To be more precise, the Firerock was only one of the culprits behind the tearing of the divine Kingdom's dimensional barrier. There were other things besides that.

The whereabouts of those things were unknown, but one thing was for sure, they were all scattered in the divine Kingdom.

It was said that the sea monsters controlled one of them. Their ability to reproduce so rapidly seemed to be related to that thing.

The sleeping Aboriginal deity seemed to be related to these items. It was very likely that he had brought them here and caused the changes in the martial arts continent.

The reason why the divine Kingdom was in its current state was that the indigenous gods had once gone to the superior plane where these items were located. After returning, they fell into a deep sleep.

The news was revealed by the sea monster expert. The patriarchs of each city couldn't confirm whether it was true or not, but they thought it was very likely.

According to the sea monster expert, the injuries of the indigenous gods could not be healed, and they would die sooner or later.

And what they had to do was to plunder the divine source of the indigenous gods before they died, thus obtaining the qualifications to become gods.

Chapter 2153 The Mad Firerock forefather (1)

Tang Zhen advanced at an extremely fast speed. He was like a bolt of lightning that streaked across the sky and had already arrived at the horizon in the blink of an eye.

The patriarch of Firerock city's exasperated roar echoed in the air, causing the birds and beasts on the ground to scatter in all directions as if the end of the world had come.

"Bastard, animal, evil thief Qianqian"

The patriarch of Firerock city felt his heart bleed, and he spat out almost all the words he could think of to vent his anger.

He wanted to go all out against Tang Zhen, but it was a pity that he was unable to catch up to him. No matter how hard he tried to catch up, he was still one step behind.

This feeling of grievance almost drove the patriarch of Firerock city mad.

This was actually not Tang Zhen's true speed. If he was outside the divine Kingdom, he could tear open the void and instantly appear ten thousand miles away.

Even if the old ancestor of Firerock city had wings all over his body, it would be impossible for him to catch up to Tang Zhen's shadow. He could only eat the dust behind.

In terms of escaping speed, Tang Zhen wasn't even convinced by the creator-level experts.

It was a pity that this was a divine Kingdom. How could the plane barrier be so easily destroyed? If that was the case, the divine Kingdom would have been riddled with holes long ago.

Due to the existence of this restriction, the old ancestor of Firerock city had his eyes on Tang Zhen and was in hot pursuit of him.

Tang Zhen was also not in a hurry. He merely flew at a neither fast nor slow pace. He wanted to see just how many big fish he would be able to catch.

From time to time, he would even turn around and sneer at the people behind him.

The old ancestor of Firerock city was already seething with anger, and he was on the verge of exploding after hearing Tang Zhen's mocking words.

"Don't let me catch you, you'd better not let me catch you, Yingluo!"

The same words were repeated over and over again by the patriarch of Firerock city, and his expression was so twisted that he looked like a devil.

His eyes were spewing fire, wishing he could burn Tang Zhen into ashes.

In addition to the destruction of the Firerock and the theft of the treasure, he was even angrier that the other party had ignored his strength and actually done such a face-smacking thing.

If he didn't kill Tang Zhen, he would probably lose all his face and how would he face others in the future?

Apart from this, he also felt an indescribable depression. He wondered where this evil thief had come from to actually have his eyes on volcanic city.

"Ah, Yingluo."

The more he thought about it, the angrier he became. The patriarch of Firerock city was still dozens of miles away, but he was already roaring and throwing out beams of silver light.

This was a God-slaying javelin at the divine weapon level. Runes and magic circles were engraved on it, and a large energy crystal was embedded.

This was a divine weapon personally forged by the patriarchs of Firerock city after searching for materials. The targets of this divine weapon were also experts of the same level.

He had originally planned to use it as a trump card, but at this moment, he no longer wanted to continue hiding it.

If he didn't kill Tang Zhen, he would probably die from anger. In that case, what was the use of this divine weapon?

die! the flamerock city patriarch roared as the javelin turned into a stream of light and flew toward Tang Zhen's back.

His trump card weapon was extraordinary as expected. In the blink of an eye, he had already crossed through space and appeared behind Tang Zhen.

"Go to hell!"

break! the patriarchs of Firerock city roared, and the God-slaying javelins exploded in unison. The spearheads used the force of the explosion to push forward again.

There was a hint of anticipation in the eyes of the patriarch of Firerock city. He hoped that he would be able to hit Tang Zhen in one strike and then take advantage of the situation to kill him.

There seemed to be the sound of gold and iron clashing. The figure in front of him paused for a moment, then continued to fly forward.

what's going on? is there no effect? "

The heart of the patriarch of Firerock city skipped a beat, but he did not hesitate and continued to give chase.

In the blink of an eye, he had already arrived at the position where he had attacked earlier. However, he discovered that a few indestructible spearheads were floating in the air.

As for the spear shaft and the energy crystals on it, they had long been destroyed in the explosion and disappeared into the bottom.

even the God slaying javelin can't kill you. You are indeed capable. But so what? I will kill you today!

die! the patriarch of Firerock city growled. However, he still kept the spearhead painfully and prepared to repair it before using it again.

"There's a problem with the spearhead, throw it away!"

you're courting death! a sharp voice rang out, causing the patriarch of Firerock city to freeze for a moment before his expression changed drastically.

He quickly opened up his storage equipment and took out the spearhead before throwing it into the distance without any hesitation.

right at this moment, a loud boom rang out as blazing flames enveloped the old ancestor of firerock city.

"Beast Zhenzhen"

An extremely furious roar came from within the flames, and then the dusted-looking patriarch of Firerock city rushed out. His entire body was trembling, and his killing intent was almost tangible.

He coldly swept his gaze behind him. After which, he once again locked onto Tang Zhen's direction and disappeared without a trace in the blink of an eye.

.....

After the patriarch of Firerock city left, two figures slowly appeared not far from where he had been.

“How did you find out that something was wrong?”

A figure with two horns on his head asked with a hint of doubt in his voice.

I didn’t discover anything. I just felt that something was amiss. Who would have thought that Tang Zhen would really do something to it!

The other black figure said. There was a sliver of solemnness in his voice, as well as a sigh that he tried his best to hide.

“This Tang Zhen is indeed incomparably cunning. He’s a great enemy of my clan!” The expert with two horns said.

“I’ve already warned you that this Tang Zhen can’t be underestimated,” the black shadow continued, “but you just don’t take it seriously.

Now that he’s grown up and a large number of cultivators have entered the divine Kingdom, he’ll be the biggest variable once the war starts!”

The black figure then said in a cold tone, “No matter what your plan is, I’m going to kill this Tang Zhen. Since he has provoked the patriarch of Firerock city, I’ll take the opportunity to kill him!

Once we miss this opportunity, it will be as difficult as ascending to the heavens to kill this fellow again!”

From the tone of the black figure, it seemed that he had an irreconcilable enmity with Tang Zhen. It was the kind that would not rest until one of them died.

If Tang Zhen was here, he would definitely be able to recognize the other party’s origin. He was the demonic plane’s master.

The sea monster with two horns was displeased when he heard this, and he warned in a cold tone, “I know that you have a personal grudge with Tang Zhen, but we’ve already discussed it beforehand. When he returns to the divine Kingdom’s continent, we’ll kill him on the sea.

“Now that he has offended the patriarchs of Firerock city and is being hunted down by a martial arts expert, it’s a good thing. It’ll save us a lot of effort.

You and I have another mission, so we can’t act now. Otherwise, if we ruin the plan, can you bear the consequences?”

The demonic Dimension Master snorted coldly when he heard the sea monster powerhouse’s warning. His eyes were filled with unwillingness.

Although he wished he could hack Tang Zhen into a thousand pieces, he still had an even bigger goal. Compared to this, killing Tang Zhen could only be placed as his second priority.

However, the moment he thought of the demonic plane being invaded by the cultivators of the City Tower and the scene of him fleeing like a stray dog, the demonic plane master felt extremely humiliated.

alright, I won't attack him on the warrior continent. However, you're not allowed to stop him in the ocean!

Seeing the demonic plane's master compromise, the sea monster powerhouse nodded in satisfaction while sneering in his heart.

This guy wasn't weak and could be considered a good dog. Unfortunately, he was a little disobedient, but fortunately, he still had some vision of the big picture.

If the demonic plane's master was bent on doing things his own way, he might have to mobilize his helpers to get rid of this disaster in advance.

At this moment, the demonic Dimension Master suddenly said, "Although I can't fight, there shouldn't be any problem in telling those outer-domain martial artists some information, right?"

The sea monster was silent for a moment, then nodded.

The demonic Dimension Master laughed heartily and looked behind him, as if he was saying something.

The sea monster knew that the patriarchs of the megacity were hiding in that direction. Because of the two of them, the other party had chosen to hide.

After saying that, the demonic plane master laughed and disappeared with the sea monster.

After they disappeared, a few patriarchs of the megacity slowly appeared. They looked at each other before they continued to chase in the direction that Tang Zhen had disappeared.

Chapter 2154 Forbidden mountain range (1)

Although the demonic plane master's actions were restricted, he still wanted to embarrass Tang Zhen and told him all the information about him.

It would naturally be for the best if he could kill Tang Zhen. However, if he could not do it, he would definitely bring Tang Zhen quite a bit of trouble.

At this moment, a group of patriarchs from the megacity was still following behind Tang Zhen. They maintained a certain distance from each other and communicated with each other using their spiritual power from time to time.

The demonic plane's Master's words were not directed at a single person, but everyone nearby could hear them.

The patriarchs of the megacity already knew that the person who had caused such chaos in Firerock city was an expert from the believer's continent.

On the warrior's continent, the identity of a believer was very sensitive, especially in a situation where war was about to break out. This made a group of martial arts powerhouses let their imagination run wild.

Could it be that the Grand temple had already discovered the abnormality, so they took the initiative to attack and deliberately sent people to cause trouble?

If that was the case, he would have to be on high alert. Who knew if there were any other strong believers other than Tang Zhen?

“What is the background of this Tang Zhen?”

“Didn’t that guy just say that he was a spy sent by the Great Temple to cause destruction?”

hehe, you can just listen. Do you really believe his nonsense? ”

“I think that the guy with the sea monster clearly has bad intentions. Otherwise, he wouldn’t have told us these things.

I guess he wants us to kill each other so that he can reap the benefits!”

“I’ve heard of him. This fellow called Tang Zhen has extraordinary strength. I heard that he’s bi an.”

The patriarchs of the megacity followed behind at a steady pace, exchanging their opinions with each other, each with their own plans.

The old ancestor of the windthunder city sneered in his heart. He had already recognized the origin of the sea monster and also knew Tang Zhen’s identity. However, he did not participate in the discussion.

As for the demonic plane’s master, he did not recognize him, but he felt that his aura was somewhat familiar.

Although the demonic plane’s master had revealed Tang Zhen’s identity and background, the group of great city’s old ancestors were extremely cunning. How could they not guess his intentions?

The patriarchs of the other megacities also recognized the sea monster.

the sea monster tribe obviously knows about this. I’m afraid their purpose is to kill someone else with a borrowed knife!

this Tang Zhen has stolen the lifeblood of the patriarch of Firerock city. Both sides are already at war with each other. Why do you need to do this? ”

The patriarchs of the megacity were disdainful. Without a good reason, how could they attack so easily and let others use them?

The demonic plane’s master’s actions were somewhat laughable. After all, the current martial arts powerhouses had not reached the level of irreconcilable enmity with the Grand temple.

The relationship between the two was even closer than that of the sea monster tribe, but it was only limited to a small number of strong believers.

If there wasn’t a sufficient reason, they wouldn’t easily besiege and kill Tang Zhen. Unless the old ancestor of the fiery Rock City promised them huge benefits, they might have a chance to cooperate.

Not long after, Tang Zhen and the old ancestor of Firerock city exchanged blows again, but neither of them suffered any major injuries.

The old ancestor of Firerock city seemed to have confirmed Tang Zhen’s strength, and he was even more unwilling to let go as he continued to chase after him.

He glanced at patriarch megacity, who was following behind him. His expression was gloomy, but he only snorted in the end.

The patriarchs of the megacity sneered. There were many grudges between the megacities, and they would not give in to each other.

To be able to see the patriarch of Firerock city suffer, this trip was definitely not in vain.

One of the patriarchs of the megacity laughed as he watched the battle, " "This Tang Zhen is really interesting. He actually dared to snatch that item. Isn't he afraid that he won't be able to afford it?"

I guess he doesn't know how powerful that thing is. Otherwise, he wouldn't have tried to snatch it. I'm afraid it's too late for him to regret it now.

that's true. The old fogey in volcanic city almost went bankrupt because of that thing. He almost became a pair of pants!

hehe, only that idiot, the patriarch of Firerock city, would treat the things inside the Firerock as treasures and dream of controlling them.

The patriarchs of the megacity were gloating, and they seemed to have some understanding of the thing in the Firerock.

No matter what the final outcome of this matter was, it had nothing to do with them. The purpose of this trip was more to watch the show.

If he had the opportunity, it would not be bad to kill Tang Zhen in passing. Perhaps, he might be able to obtain an unexpected harvest.

There were even some who were prepared to lend a hand if the patriarch of Firerock city was seriously injured.

He would take this opportunity to get rid of the patriarch of Firerock city.

.....

The group of spectators each had their own ulterior motives. The pursuit between Tang Zhen and the old ancestor of Firerock city continued.

Although it hadn't been long, they had already run for who knew how far. During this time, they had passed by several giant cities, attracting the attention of the martial artists in the cities.

As they watched the chase between Tang Zhen and the old ancestor of Firerock city, they could not figure out what was going on. However, they also increased their vigilance.

Once two super experts fought, the impact would be at least dozens of miles, so they naturally had to be careful.

Martial artists soared into the sky one after another, guarding the vicinity of the giant city. At the same time, the patriarchs in the city issued warnings to not approach.

Fortunately, the worst situation did not happen. Tang Zhen only passed by but did not enter. He went straight into the depths of the martial arts continent.

The patriarch of Firerock city, who was following behind, no longer roared. Instead, he lowered his head and continued to chase. It was clear that he had made up his mind and would not give up.

After crossing the snowfield, desert, dense forest, and long river, a super mountain range that connected the ground and the sky appeared in front of them.

The mountain peaks were at least ten thousand meters tall. The top of the mountain was covered in snow, and the cold wind was as sharp as a knife.

There were also such mountains on the believer's continent, which surrounded the continent from three sides.

It was originally a mountain with four sides, but the side facing the warrior continent had been destroyed by an unknown force, which was why there was a defensive area built in the gap.

As for the Super mountain range in front of him, he didn't know what it was for. Could it be that there was a threat that needed to be defended against?

Tang Zhen didn't have the time to think as he headed straight for the mountain range.

When the patriarch of Firerock city saw this, he hesitated for a moment, but he gritted his teeth and gave chase.

He had invested countless resources into the item in the Firerock, and it would be of great use in the future. How could he be willing to let Tang Zhen take it away?

As for the patriarchs of the megacity city who were following behind, they all stopped in their tracks. They looked at the towering mountain in front of them with a hint of fear on their faces.

"These two lunatics actually ran to the forbidden mountain range. Are we still going to follow them in?"

"Are you kidding me? that mountain range is full of monsters and they can even absorb the energy of heaven and earth. What's the difference between going in and seeking death?"

the patriarch of Firerock city is also obsessed with money. Isn't he afraid that he might lose his life before he can get his things back? "

hehe, let's just watch. If the two of them die in there, we can go in and take their inheritance.

The group of patriarchs made up their minds to guard the vicinity of the mountain range, not willing to take a single step forward.

After waiting for a while, more and more martial artists appeared one after another, and among them were the divine soldiers of volcanic city.

After confirming that patriarch Firerock had entered the mountain, they discussed for a while and finally decided to enter the mountain together.

When the patriarchs of the giant city saw this, they sneered to themselves as if they were looking at a group of dead people.

At this moment, a series of loud noises came from the forbidden mountain range. Then, a huge Palace slowly appeared on the highest peak!

Chapter 2155 The dangerous mountain range (1)

The palace in the sea of clouds looked a little illusory, as if it didn't want people to know of its existence, so it was hidden.

Although they were extremely far away, a martial artist's vision was extremely good, and they could still see clearly.

The palace was incomparably tall, with all kinds of buildings arranged in rows. There was a constant flash of treasure light.

Although the sky above the forbidden mountain range was dark and cloudy, it still couldn't cover the light of the palace. Instead, it made the palace look even more majestic.

A burst of lightning flashed, and purple electric snakes shuttled back and forth in the sea of clouds. The roars of giant beasts rose and fell in the mountain range.

It was obvious that the ferocious beasts in the forbidden mountain range were also frightened by the sudden appearance of the palace. They could only express their uneasiness by roaring.

In the blink of an eye, the entire mountain range was filled with roars, the sound shaking the clouds.

The churning clouds and mist also displayed their might at this moment. They continuously gathered toward the cloud top palace in an attempt to cover it again.

The entire process repeated over and over again. It was as if two invisible and terrifying forces were fighting each other above the forbidden mountain range.

The martial artists outside the forbidden mountain range were all dazzled by the sight.

Attracted by this majestic and surging momentum, the cultivators trembled all over and were so excited that they couldn't speak.

They swore that they had never seen such a magnificent building before. It was as if all the treasures in the world had been collected to build this unparalleled building.

"This is the legendary Suan ni forbidden divine Palace!"

One of the martialists snapped back to his senses and couldn't help but shout, his eyes flashing with madness and greed.

As these words rang out, the originally silent foot of the mountain immediately became lively.

The cultivators used excited tones as they constantly whispered to each other, telling them the rumors they knew.

"Legend has it that the forbidden mountain range was the residence of a God a long time ago.

There are countless devout believers at the foot of the mountain, guarding the foot of the mountain closely. Any trespassers will be severely punished.”

I’ve heard that no matter how powerful a warrior is, they don’t have the right to fly here. If they want to see the gods, they have to go to the highest peak step by step.

“The believers who can enter the temple of forbidden extinction are all top experts. Only they can withstand the might of the forbidden mountain range.

If it were an ordinary believer, they would have been drained of all their energy within a few steps.”

The more the Warriors talked, the more excited they became. Their eyes were filled with anticipation and greed as they looked at the forbidden mountain range.

They were shocked by the reappearance of the legend, but they were also coveting the treasure. No one could remain calm with such a huge treasure in front of them.

At this moment, they were envious of the divine weapon guards of volcanic city. After knowing that the patriarch had entered the mountain, they had followed him without hesitation.

It was estimated that the moment the temple of abstinence appeared, the Warriors of Firerock city would head straight for it and try to get their hands on the treasure as soon as possible.

Just as the Warriors were burning with anxiety, wanting to enter the forbidden mountain range but afraid of the hidden dangers, a group of patriarchs from the giant city were also discussing.

The patriarchs of the megacity city knew more secrets than the Warriors who only knew about the legends.

A patriarch’s eyes lit up and he said in a voice only he could hear, ” “I always thought it was just a legend, but I didn’t expect it to be true. The palace of gods really exists!

If I can get the treasures in the temple, who else on the warrior’s continent can be my match?

His suppressed ambitions immediately became restless with the appearance of the divine Hall of abstinence.

there are treasures everywhere. The spring water formed by the condensation of earth and heaven energy flows freely in the palace. Energy crystals are scattered everywhere. Spirit herbs, rare beasts, and Suan ni can be seen everywhere.

The eyes of the old ancestor of the windthunder city also shone brightly as he pondered about how he could obtain the greatest benefits.

Only the top Warriors knew what the temple of abstinence meant. It represented the possibility of reaching the ultimate.

On the path of cultivation, one’s goal was to reach the end. As the residence of the indigenous gods, the temple of abstinence definitely had unimaginable benefits.

Since he had come across this opportunity, he definitely couldn’t miss it.

However, the patriarchs around him made him wary. Even though they were all talking and laughing now, once they touched the treasures in the temple, they would immediately turn hostile and kill each other.

“I reckon that the patriarch of Firerock city is already heading straight for the divine Hall. Compared to that item, the divine Hall of abstinence is the one that I really can’t miss.

However, you can’t fly in the forbidden mountain range and monsters run rampant. I think they’re still on their way.”

The old ancestor of the windthunder city hesitated for a moment and decided to observe for a while longer. After all, the forbidden mountain range was not an ordinary place. Even they did not dare to enter it rashly.

Before the changes in the warrior continent, the people living here were all fanatics. It was also one of the core areas of the God Kingdom.

All sorts of legends about the gods were also widely circulated on the warrior’s continent, including this magnificent temple in the forbidden mountain range.

However, after the incident, the entire martial arts continent was plunged into misery and suffering, and the Grand temple abandoned all the believers here.

The believers had lost their faith, and the originally majestic temple had completely lost its original influence.

No one paid any more attention to information about the gods. Instead, they despised them from the bottom of their hearts, and no one paid any attention to the legends about the gods.

Legend had it that when the alien Warriors descended, the temple of forbidden extinction was the main target of attack. A large group of Warriors had entered the forbidden mountain range.

The followers of The Guardian divine Hall were all top experts. How could they allow the outer-realm Warriors to offend them?

After a great battle, almost none of the outer-realm experts who participated in the attack survived.

The believers of the God Hall were also all dead and injured. In the end, the protective array of the temple of abstinence was activated and they disappeared without a trace.

However, the pursuit of wealth would never be obliterated. Instead, it would become more and more intense.

In the thousand years that followed, countless Warriors entered the forbidden mountain range to search for lost treasures because of the legend.

However, 90% of the Warriors never returned. Even if some Warriors were lucky enough to return, they still couldn’t get close to the location of the temple.

Although they had gained a lot, the terror of the forbidden mountain range had left an inextinguishable shadow of fear in the hearts of the Warriors.

If one's will was damaged, it would be difficult to make any progress on the martial path.

As time passed, more and more terrifying legends about the forbidden mountain range were spread. This area, which was once regarded as the residence of the gods by the believers, had become a real forbidden land of death.

This was also the real reason why the patriarchs of the giant city stayed outside the mountain and didn't want to enter it. They were actually the descendants of the outer-realm Warriors, so they naturally knew the dangers of the forbidden mountain range.

There might be treasures, but there were also indescribable dangers. Some monsters were not weaker than the giant city patriarch.

Even if they could avoid the monsters and get close to the temple, the runic magic circles in the temple would be enough to make it impossible for them to return.

Chapter 2156 Martial artists enter the mountains (1)

I can't wait any longer. If someone else takes the initiative, I'm afraid I won't get anything in the end!

Seeing more and more cultivators gathering and the entire foot of the mountain being occupied, the old ancestor of wind Thunder City made up his mind.

He didn't put those low-level martial artists in his eyes. They were just a group of ants that he could kill at will.

Even if these martial artists were lucky enough to obtain treasures, they would not be able to leave the mountain alive. Then, everything would be in vain.

The forbidden mountain range's dangers were not as simple as they seemed.

The ones who made the old ancestor of windthunder city feel fear were the other old ancestors of the other megacities. If they really found the temple of forbidden extinction, a fight would be inevitable.

"Do you want to find someone to form an alliance with? that would be safer?"

Just as this thought appeared in the old ancestor's mind, he saw a figure stepping out from the crowd, heading straight for the entrance of the mountain range.

"Damn it!"

The old ancestor of the windthunder city cursed in anger. He recognized the other party's background. He was the old ancestor of a huge city and was greedy and cunning.

Since there were already people who couldn't help but take action, he couldn't continue to hesitate, or he would fall behind.

At the thought of this, the old ancestor of windthunder city no longer hid and also flew out to give chase.

"Can't you all wait? then I'll go too!"

"Count me in, we'll meet again in the temple!"

hehe, let's all depend on our own abilities. I hope you can make it to the peak alive.

Seeing this, the patriarchs of the megacity no longer had the intention of letting others Scout the way and rushed towards the mountain pass.

"Brothers, let's attack together!"

Seeing that patriarch megacity had already taken action, the martial artists who were watching did not hesitate anymore. They immediately surged forward like a flood.

The mountain pass, which was less than a kilometer wide, was immediately filled with a dense crowd of martial artists. As they entered the mountain range, curses could be heard.

At this moment, no one cared about anything else. They only wanted to reach the peak as soon as possible and enter the palace of the Aboriginal deities.

However, in the next moment, the forbidden mountain range displayed its terrifying power, causing these crazy Warriors to calm down.

Caught off guard, everyone fell over.

The martial artists who were unable to fly were not any better. They all felt that there was an additional burden on their bodies, and they all staggered.

However, the patriarchs of the megacity were well prepared. The moment they entered the forbidden mountain range, they chose to land on the ground and run. Their speed was astonishing.

Looking at their appearance, they were clearly very familiar with the environment here, unlike those martial artists who had blank looks.

This was also a matter of cleaning up. When it came to a shocking secret treasure like the forbidden divine Hall, how could the patriarchs of the megacity city not care?

Even if they didn't dare to act rashly, the relevant information had probably been prepared for a long time.

Looking at the group of patriarchs leaving, the Warriors were anxious and angry, but they could do nothing about it.

Their strength could not be compared to the patriarch of the giant city, but they did not know if the other party would leave them with a piece of the soup after eating the meat.

After the rowdy cultivators crossed the mountain Gate, they discovered that there were more than a dozen wide mountain paths in front of them. Collapsed buildings and statues were everywhere on the sides of the paths, giving off a gloomy and terrifying feeling.

When they thought of the legend of the forbidden mountain range, the Warriors did not dare to be careless. They gathered their companions and began to move slowly along the mountain road.

.....

it's useless to think too much. We'd better hurry up and move forward. Otherwise, we won't even be able to get a bone!

A warrior with a giant axe rushed through the mountain pass and called out to his men. Then, he went straight to a passage at the side.

This was a group of bandits, only a hundred or so of them, and they were not eye-catching among the groups of martial artists.

They occupied the bear Ridge near the forbidden mountain range. The head of the bandits was called Zhao datou, who was known as the number one expert in Bear Ridge.

When he discovered the changes in the mountain range, big head Zhao gathered and collected them, and rushed over as soon as possible.

Seeing their leader leading the way, his men were a little hesitant because there were more than a dozen passages at the mountain pass, and no one knew which one was the right one.

If he took the wrong path, he might encounter danger.

Hearing his subordinate's concerns, big head Zhao laughed, turned his head, and whispered, " didn't you see that there were seven patriarchs of the megacity who took this path? "

His trusted subordinates nodded. They did see many patriarchs of megacity rush up the mountain path and disappear in the blink of an eye.

Seeing his subordinates nod in agreement, big head Zhao's face was proud, " "The patriarchs of the megacity are powerful and cunning, so they must have known about the forbidden mountain range.

The passage they chose must be the safest one. With them leading the way, we only need to follow behind them."

When big head Zhao said this, a trace of coldness flashed in his eyes. He looked at his subordinates around him and said, " since you want to get the treasure, you have to take a certain risk. If anyone is afraid, get out of my sight immediately!

The group of bandits shook their heads at the same time. They were desperadoes to begin with, and now that the treasure was right in front of them, how could they easily back down?

After seeing his subordinate's performance, big head Zhao laughed out loud, looking very proud.

"Brothers, since you trust me, then I can't take you into the fire pit. This time, we must prioritize stability and not let the treasure get to our heads.

If you don't have enough strength, don't covet the most precious treasures, because that will only cause you to lose your lives.

It's naturally the best opportunity to enter the divine Hall and steal its treasures. If that doesn't work, we'll collect the items left behind from the Great War. There's also quite a lot of good stuff inside!"

His subordinates nodded in agreement.

“Boss, I remember that you used to mention the forbidden mountain range from time to time. You seem to know a lot about this place?”

A trusted subordinate thought for a moment and asked the bandit leader, Zhao datou.

Hearing this, big head Zhao showed a trace of emotion on his face, and then gently shook his head.

“That’s all in the past, so there’s no need to mention it. You just have to remember one thing: always follow me.

If you run into danger, don’t blame me for not saving you. I don’t want to see a group of people dying to save one person ever again.”

Just as big head Zhao was repeatedly exhorting his subordinates, a strange sound suddenly came from a nearby mountain path.

The martial artists walking on the mountain path all had a change in expression as they drew out their weapons and looked around nervously.

They often heard the terrifying legends of the forbidden mountain range. Now that there was a strange sound, they would be very nervous.

Just as the group of martial artists were looking around, the skeletons of zombies wearing broken armor and holding rusty weapons suddenly crawled out from the soil on both sides of the mountain path.

“Traitors, die!”

Their eye sockets flickered with a dark green light as they brandished the swords in their hands and charged straight at the panicking martial artists.

The martial artists crowded in the mountain path turned pale with fright and quickly formed a defensive formation to fight against those monsters.

More and more martial artists took the opportunity to leave and continue moving along the mountain path. If they could avoid it, they would definitely not linger in battle.

Seeing this, the bandits of the black bear territory not far away drew their weapons one after another and looked around nervously.

“Boss, what the hell are these things?”

His trusted subordinate asked the number one expert of Bear Ridge in a trembling voice.

Big head Zhao frowned slightly and said in a light tone, “These are believers who died in battle a thousand years ago. They are all fanatical supporters of the indigenous gods. Even though they have been dead for so long, they are still guarding the temple.

To these monsters, we are invaders, traitors who have betrayed the native gods. That’s why they took the initiative to attack us.”

Hearing big head Zhao’s explanation, the group of subordinates suddenly realized and cast an admiring look at their boss.

As expected of the boss, the number one expert of the bear Ridge. He actually knew so many secrets about the forbidden mountain range!

boss, should we go help? I see that there are a lot of good things on those monsters? ”

Upon hearing this, the number one powerhouse of Bear Ridge immediately smacked his subordinate’s head and cursed loudly, ” “Help? it’s more like you’re going to die. Don’t look at how those monsters are about to fall apart. They can cut you in half with one strike!

Don’t look anymore, hurry up and leave with me. If you continue to dawdle, I’m afraid you won’t even get a mouthful of soup!”

Chapter 2157 Temple of forbidden extinction (1)

Turning back time, before the martial artists entered the mountain.

The moment Tang Zhen flew into the forbidden mountain range, he immediately felt that something was wrong.

The heavy pressure that fell from the sky reminded him of the time when he first arrived on the warrior’s continent. It seemed that such a situation had also occurred.

They couldn’t fly in the sky, so they could only walk on foot. However, the ground was full of human-headed trees.

This mountain range was obviously the same.

After realizing this, Tang Zhen became vigilant. He immediately drew his battle blade the moment he landed.

Soon after, he discovered that the energy in his body was being extracted in wispy threads. Although the speed was not fast, it was continuous.

The dissipating energy disappeared in the blink of an eye, as if it had been swallowed by an invisible mouth, leaving nothing behind.

The so-called danger zone was nothing more than this.

This place was just like the believer’s continent. It looked colorful, but it gave people the feeling that there were fake plastic flowers everywhere. It was dry and lifeless.

In such an environment, cultivators were like fish out of water. They couldn’t last for long.

Without the regular energy replenishment from the Grand temple, the believers on the believer’s continent would be no different from disabled people.

However, for martial artists, they could still display very strong combat power in such an environment because they were more focused on body-tempering.

Using the body of flesh and blood to burst out a destructive power that was far beyond imagination was the martial Dao pursued by martial artists.

Tang Zhen's expression was not very good. Entering the forbidden mountain range was the same as entering a cage to him. He would be unable to unleash his greatest advantage.

Fortunately, he had the world in his mind, so he didn't have to worry about being sucked dry. Moreover, in terms of martial arts techniques, he wasn't weaker than the patriarchs of the megacity.

In close combat, the Lou Cheng cultivators were not afraid of any opponent.

The patriarch of Firerock city, who had followed closely behind, was extremely excited, and his face was filled with ferocity.

How could he not have thought of the things that Tang Zhen could think of?

evil thief, there's a way to heaven, but you refuse to take it. There's no Door to Hell, but you chose to throw yourself into it. Since you dare to enter the forbidden mountain range, don't even think about leaving alive!

It was impossible to fly in the forbidden mountain range, and it was constantly absorbing energy from one's body. The person who had destroyed weapon forging city would not be able to hold on for long.

Even if he didn't do anything, as long as he blocked the only exit, this evil thief would not be able to escape!

He only needed to guard the mountain pass. If the other party did not want to die, they would have to obediently beg for mercy.

He felt like he was a cat that had blocked a mouse that had nowhere to go. Although the other party was very fierce, they would be his food sooner or later.

From now on, he could play with her however he wanted!

hehe, you can run. Let's see if you can run out of the forbidden mountain range.

The Grand patriarch of Firerock city was acting like a ruffian, smugly taunting him.

He was certain that he had won. From the moment he entered the forbidden mountain range, Tang Zhen already had no way to escape.

Tang Zhen looked at the contorted and smug expression on the face of the old ancestor of Firerock city and could not help but feel that it was a little ridiculous.

'To think that victory is in the bag right now ... Where did the patriarch of Firerock city get his confidence from? I'm deliberately showing weakness, but he still hasn't noticed it?'

Putting aside the fact that his cultivation method was completely different from that of a martial artist's and that he had an advantage in a dangerous place, his own strength alone was not much worse than the other party's.

After testing the waters along the way, Tang Zhen was now certain that if both parties were to fight, he had a 70% chance of killing the other party.

However, Tang Zhen did not make a move in the end as he looked at the patriarchs of the megacity who were following closely behind. He was afraid that those people would take advantage of the situation.

They had followed him all the way here, saying that they wanted to watch the show, but in fact, they had ill intentions.

If they seized the opportunity, not only would they attack Tang Zhen, they might even kill the old ancestor of Firerock city!

A good tiger would find it difficult to defeat a pack of wolves. The current environment was special, and there was no need for Tang Zhen to take the risk.

When the old ancestor of Firerock city saw that Tang Zhen was not speaking, he thought that Tang Zhen had realized the difficult situation he was in and was trying to find a way to escape.

“Don’t be delusional. Once you enter the forbidden mountain range, you’ll never have a chance to escape!”

You must be an outsider who doesn’t know the secrets of the warrior continent, let alone the dangers of the forbidden mountain range.

I can give you a chance now. Tell me your origin and purpose obediently, then tie yourself up as a slave, and I might spare your life.

If you don’t appreciate my kindness, you will die today!”

The face of the old ancestor of Firerock city was filled with pride, as if he had complete control over Tang Zhen’s life and death.

From the way he saw it, even if Tang Zhen did not do as he asked, Tang Zhen’s mind would still be thrown into chaos by these words.

It could also be regarded as the humiliation of the winner to the loser. That kind of pleasure was enough to calm the anger in the heart.

“If you want to kill me, we’ll have to see if you have the ability!”

Tang Zhen did not say any nonsense. He reincarnated and walked towards the mountain path behind him without the slightest hesitation.

However, his pace was neither fast nor slow, and he was full of provocation. He was clearly challenging the patriarch of Firerock city!

If you have the guts, then catch up to me.

If the patriarch of Firerock city really dared to follow them, then the forbidden mountain range would be his burial ground.

“Bastard!”

When the patriarch of Firerock city saw this, he flew into a rage, but he hesitated and did not dare to give chase.

Tang Zhen had stolen his treasure, and he wanted to cut him into a thousand pieces. However, after Tang Zhen entered the forbidden mountain range, the old ancestor of Firerock city began to hesitate.

His previous words were actually to force Tang Zhen to hand over that thing to prevent Tang Zhen from really entering the forbidden mountain range.

Who would have thought that Tang Zhen did not know about the dangers of the forbidden mountain range and actually entered the forbidden mountain range? he truly did not know what death was.

If it wasn't for the fact that Tang Zhen had such an item on him, the old ancestor of Firerock city wouldn't even be bothered to care about whether he would eventually die or live.

The patriarch of Firerock city was in a dilemma as to whether he should give chase or not.

Just as the old ancestor of Firerock city was hesitating, he saw that something strange had suddenly happened on the mountain path that Tang Zhen was on.

A seven-colored brilliance flickered in midair. Clusters of exotic flowers and rare plants bloomed as Tang Zhen advanced. Even the withered and dead giant mottled trees were fighting to pull out leaves and bloom.

In the deathly silent mountain range, there seemed to be a pleasant sound coming from it, which seemed to be happy and joyful.

Just as the old ancestor of magma city was dumbfounded, the mountain path that Tang Zhen was on also began to bloom with light that extended forward.

On both sides of the road, men and women dressed in luxurious clothes could be vaguely seen. Their expressions were happy but serious, and they respectfully lined up on both sides of the road, as if they were welcoming the arrival of an important guest.

"Is this the scene of the believers of the Kongtong Sect going to the temple to see the indigenous gods?"

The patriarch of Firerock city was very experienced and knowledgeable, so he immediately recognized that this was a scene from the legends of a thousand years ago. He did not expect it to appear before his eyes again!

The difference was that the honor guards were formed by fanatical believers back then, and the figures now were just illusions.

how could this happen? if there are believers worshipping, then the legendary Forbidden Temple must have been destroyed.

Just as this thought appeared in his mind, a huge and majestic palace broke through the clouds in the distance and appeared before the eyes of the patriarch.

Upon seeing this, the patriarch of Firerock city was completely stunned. His face was filled with shock and greed.

His mind wasn't filled with the legends of the temple of abstinence. He trembled with excitement at the thought of finding the path to the ultimate.

In the next instant, the old ancestor of Firerock city was like a wild dog that was snatching food as he sprinted madly in the direction that Tang Zhen had disappeared.

Chapter 2158 The number one expert of Bear Ridge (1)

Tang Zhen was also stunned by the sudden turn of events. He quietly observed his surroundings and confirmed that there was no danger present.

Although he didn't know why this was happening, he was sure that this welcoming scene was just an illusion.

The master of the illusion had died a long time ago. Perhaps he was a former believer.

Under the special power, the scene from a thousand years ago was re-enacted.

At the same time, he also saw the majestic temple on the top of the mountain, and his eyes narrowed slightly.

The appearance of this temple made Tang Zhen think of the Grand temple. Could it really be related to the native gods?

A thousand years ago, the warrior's continent was also filled with believers. It seemed quite normal for such a Palace to remain.

The only problem was, why did this happen after he entered the mountain?

A trace of doubt flashed across Tang Zhen's eyes. However, he did not think too much about it. Instead, he continued to advance along the mountain path.

The moment the patriarchs of Firerock city saw the divine Hall, a crazed look appeared on their faces as they chased after him.

He was even too lazy to care about Tang Zhen in front of him.

Tang Zhen laughed softly. He directly entered the forest by the side of the road and disappeared in an instant.

Upon seeing this, the patriarch of Firerock city hesitated for a moment before finally turning to look at the shrine on the summit.

The old ancestor of Firerock city did not know what the thing on Tang Zhen was. He only knew that it was very likely that it came from a super plane.

He had invested all these years regardless of the cost, only hoping to get a result, hoping that it would allow him to obtain more powerful strength.

However, after so many years, other than learning a few strange runes with average power, he had no other gains.

Because of this, he almost became a laughing stock.

At one point, the patriarchs of Firerock city, who were on the verge of bankruptcy, wanted to give up on the investment. However, in the end, they still held on to a glimmer of hope and gritted their teeth.

Therefore, when Tang Zhen destroyed the flamerock seal and took away that item, the patriarch of the flamerock city was so furious.

After all, the thing that Tang Zhen had snatched away was related to his hope of advancing to the ultimate realm and the huge amount of investment he had made over the years.

However, at this moment, the patriarch of Firerock city became hesitant.

As for what to choose, patriarch Huo Yan Cheng was in a difficult position.

Who would have thought that at this moment, the originally shining passage would rapidly shrink from the mountain pass at an astonishing speed.

When the patriarch of Firerock city saw this, he did not dare to think any further. He hurriedly began to run in the direction of the divine Hall.

He had heard some rumors that when this passage to meet the gods appeared, it would be a smooth journey in the forbidden mountain range, and he would not be attacked by any monsters.

If they left this passage, it would be difficult to move even a single step, and they would be in danger at almost every moment.

Although the ancestor was very confident in his own strength, he also knew that the monsters that could guard the temple were not weaker than him.

If they missed this once-in-a-lifetime opportunity, it would be extremely difficult for them to reach the shrine at the top.

As for the evil thief who had stolen his treasure, he could actually put it aside for the time being.

He had studied it for so many years, but he had not figured out the use of that thing. The other party might not be able to figure it out after obtaining it, so he would just treat it as a temporary possession.

After he stepped into the final realm, even if he had to turn the entire God Country upside down, he would still find this villainous person and tear him into pieces!

.....

Tang Zhen was silent for a few moments as he watched the old ancestor of Firerock City Chase after the passageway. He then continued to advance along the small path in the forest.

Tang Zhen had a trace of vigilance in his heart towards the sudden appearance of the passage. If there were no accidents, this passage would send him all the way to the temple.

If it was an ordinary building, Tang Zhen might have investigated it. However, when this temple was related to the native gods, he had to maintain sufficient vigilance.

When the Aboriginal deities won, they could easily kill Tang Zhen in the divine Kingdom. Even the Masters of creation might not be able to compete with them.

The power of the fallen Tiger was still there. Even though the Aboriginal deities were in a deep sleep, they still had means that could not be underestimated.

From Tang Zhen's point of view, a grenade used by a soldier could easily kill a group of rabbits.

Even if the soldier was dead, the grenade could still kill the rabbit.

Entering the forbidden mountain range was like a rabbit entering a trap. The seemingly alluring forbidden extinction divine Hall was actually an extremely large grenade.

Once it was detonated, how many lives would be needed to fill it?

At the same time, Tang Zhen had also discovered the dangers of the forbidden mountain range.

In the forest full of withered trees, there were all kinds of wreckage. There were the remains of a bloody battle a thousand years ago, and there were also martial artists who had fallen in the years that followed.

These were all gamblers who had come with dreams. They had made up their minds to enter the forbidden mountain range, but in the end, they had all died just a few thousand meters away from the mountain pass.

He was still far away from the shrine.

However, at this moment, they stood up again under the drive of a mysterious power and swung their swords at the new intruders.

Looking at their numbers, there were at least 100000 of them, scattered all over the mountain.

although they don't have the strength they had before they died, their numbers can not be underestimated. Moreover, as we get closer to the temple, these monsters will become stronger.

Tang Zhen turned his head to look at the martial artists that were continuously pouring in from the mountain pass when he thought of this. He gently shook his head.

These guys might not have realized that there were not only treasures waiting for them, but also the danger of death.

Not even one in ten thousand could reach the peak of the divine Hall.

In fact, this was also good. With the war about to begin, it was naturally a good thing to be able to consume a group of high-level martial artists from the enemy.

If it wasn't for the appearance of the shrine at the summit, Tang Zhen might have used some special means to cause chaos on the martial artist continent.

Wars always used every possible means, especially Wars between different races and planes. Once the curtains were drawn, it would be a battle to the death.

Unless one side completely surrendered, it was almost impossible to end the hatred.

He slowly pulled out his sword, and with a flash of cold light, the monsters that got close were cut into two.

However, even though their bodies were shattered, those monsters still crawled towards Tang Zhen. They were just like evil ghosts from hell.

“Can’t be killed? not necessarily!”

Perhaps these corpses were just puppets. Even if there was only a piece of minced meat left, they could still continue to attack.

Since that was the case, there was no need to continue wasting energy.

The attack just now had consumed almost twice the energy of normal circumstances. Perhaps as he went deeper, this kind of consumption would double.

The number of monsters increased, but Tang Zhen did not care. They were merely some rotten bones and were unable to cause him much harm.

As he moved forward, he cleared the monsters and unknowingly walked another few thousand meters.

From time to time, there would be killing and miserable cries coming from the surroundings. Tang Zhen turned a deaf ear to them and merely walked forward unhurriedly.

“Huala”

A series of footsteps could be heard, followed by the sound of branches breaking. Then, a group of martial artists with messy equipment suddenly appeared.

The martial artist in the lead had a full beard and was holding a battle axe in his hand. He was slightly stunned after seeing Tang Zhen.

“Brother, you’re going alone?”

The burly man saw that Tang Zhen was alone and asked in a probing manner.

Tang Zhen nodded. He swept his gaze over those martial artists and discovered that although they appeared to be in a sorry state, there were not many injuries on their bodies.

There were many monsters nearby, and the strength of this group of martial artists was average. To be able to come here unscathed, they must have some means.

“Brother, there are monsters everywhere. It’s too dangerous for you to act alone.

If you trust us, then follow us and we’ll make this trip worth it!”

The burly man said loudly with a confident expression.

Tang Zhen sized up the strong man with a smile that was not a smile when he heard this. He softly said, “Then I’ll have to trouble you. May I know your name, friend?”

The brawny man puffed out his chest and bid ten thousand.

the number one expert of Bear Ridge, Zhao datou. He’s talking about me!

Chapter 2159 Discussion (1)

the number one expert of Bear Ridge?!

Tang Zhen nearly laughed out loud. He once again sized up the other party and gently nodded his head.

“In that case, I’ll have to trouble you.”

Big head Zhao’s face was bold as he said to Tang Zhen, “Brother, you don’t have to be so polite and don’t think too much about it. I’m not like those guys.

All of them had their own problems. They were on guard against others as if they were thieves, as if good things would be stolen.

He didn’t think about how vast the forbidden mountain range was. There were countless monsters inside, and whether he could make it out alive was still a question. Even if he found something good, he might not be able to bring it out.

In this case, we low-level martial artists have to learn how to stay together and try to survive as much as possible. Then, we can think about the problem of getting rich.”

Speaking of this, big head Zhao asked Tang Zhen, “Brother, don’t you think so?”

Tang Zhen nodded. There was indeed no problem with Zhao datou’s idea.

In such a dangerous environment, having a group of companions to work together would undoubtedly increase their chances of survival.

The premise was that they had to trust each other. If they each had their own ulterior motives, cooperation would only be a joke.

People like Zhao datou were born with a kind of affinity, which made it easy for people to trust him.

This was a kind of spiritual power mutation. Tang Zhen had seen similar cultivators before. They were usually the leaders of some groups.

Forbidden mountain range was full of danger, so cooperation was a good thing. Of course, to him, there was no need for that.

Tang Zhen wasn’t in a hurry to advance. Since he had encountered this number one expert of the bear Ridge who had taken the initiative to get close to him, it was fine for him to follow him and advance slowly.

As for the temple of abstinence, he definitely had to go take a look, but now was definitely not the time.

brothers, follow me and keep moving forward. Remember, don’t fall behind!

Big head Zhao shouted and led the way, looking for the difficult roads.

Tang Zhen was able to tell that he had done it on purpose. This was because the number of monsters in such a place was far less than the roadside and ruins.

His group of subordinates followed behind and sandwiched Tang Zhen in the middle. Although they had chosen to temporarily cooperate, they still maintained an appropriate level of defense.

This was normal. Zhao datou took the initiative to invite Tang Zhen, but it did not mean that the other martial artists trusted Tang Zhen.

Tang Zhen didn't mind. He would give a reminder from time to time and try to avoid the areas with more monsters.

Big head Zhao saw this, and a thoughtful look flashed across his face.

The group of bandits in Bear Ridge basically hid as much as they could. If they couldn't hide, they would swarm forward and kill the monsters before quickly retreating.

Although their equipment was scattered, their cooperation was very tacit. They were definitely not ordinary soldiers.

Tang Zhen followed the team and would occasionally participate in clearing monsters. After seeing his clean and efficient skills, the eyes of those martial artists also became much gentler.

A true expert was more easily recognized by these martial artists.

"Brother, you're pretty good. Do you want to join the megacity or the wandering martial artists?"

Big head Zhao asked Zhen Tang as he took two steps back after splitting the monster in half with an axe.

"Me? a wandering martial artist."

Tang Zhen's tone was calm as he casually replied.

I can tell that you're also a wandering martial artist. Otherwise, why would you act alone? this is also the reason why I invited you to join us.

When Zhao datou said this, he sighed and said in a deep voice, "It's not easy for us wandering martial artists. We've been oppressed and deceived by those big cities all year round. If we want to get cultivation resources, we have to exchange it with our lives.

as far as this matter is concerned, don't think that we managed to sneak in during the chaos. It won't be long before those martial artists from the giant city seal off the mountain pass and block the only way out.

At that time, all the treasures we've worked so hard for will be taken away by those shameless guys, and we might even lose our lives."

When big head Zhao said this, he secretly glanced at Tang Zhen. After seeing his expressionless face, he said in a slightly depressed tone, "Brother, aren't you worried about the things I've said?"

Tang Zhen glanced at big head Zhao and softly said, "didn't you say that it's unknown if we can make it out alive? isn't it too early to think about this?"

Big head Zhao was stunned for a moment and smiled awkwardly.

"That being said, there are some things that we should plan early to avoid being caught off guard."

Big head Zhao explained. After seeing Tang Zhen's expressionless face, he braced himself and said, "Although I can't guarantee that I'll be able to leave this place alive, I'm sure that I'll have more chances than the others. Of course, the premise is that you have to listen to my command.

However, this matter isn't easy to handle. I can only take care of my own brothers first. It's inevitable that I can't take care of the others.

If you join our Black Bear Ridge, I'll guarantee that you'll find the treasure and leave the forbidden mountain range alive. What do you think?"

Zhao datou offered conditions to recruit Tang Zhen.

interesting. Are you that short of people? "

Tang Zhen glanced at big head Zhao and saw that his expression was very serious. It was clear that he really had this idea.

"Actually, I can see that you have extraordinary skills. If you want to get more treasures, you must have a strong partner.

However, treasures move people's hearts, and I'm afraid that at the last moment, someone will have evil intentions.

If it's my brother, the possibility of this happening will be greatly reduced. After all, the blood oath is binding, and the price of betrayal is too high."

The blood oath mentioned by big head Zhao was a special contract that was popular in the martial arts continent. It used one another's blood as a means of casting a spell to guarantee that one party would not betray the other.

If one went against the blood oath, they would be haunted by malicious ghosts and tortured to death.

In fact, this blood oath was a mental power spell. If the difference in strength between the two parties was too great, it would not be effective at all.

However, there was a strong restriction on Warriors who were not too different in level, so it had been popular in the warrior continent.

There must be a reason why Zhao datou wanted Tang Zhen to sign a blood oath. He wouldn't mention it without a reason.

The biggest possibility was that he knew the secrets of the forbidden mountain range but didn't have a suitable partner.

Tang Zhen's performance just now clearly made big head Zhao very satisfied, so he made this request.

"From what you're saying, do you know some secret?"

Hearing Tang Zhen's question, big head Zhao mysteriously smiled but didn't say anything.

There were some things that didn't have to be said.

I'm only interested in that temple. If you know the secret there, I can consider cooperating with you.

Hearing Tang Zhen's answer, big head Zhao's eyes widened, and his face was filled with shock.

“Brother, you’re quite bold to even think about the forbidden extinction Hall. Don’t say I didn’t warn you, but that place is filled with danger.

Even the patriarchs of the megacity may have a slim chance of survival. Going there is no different from courting death.

Listen to my advice, only what you can get is yours. It’s not worth it to risk your life for something you’re destined to not get.”

Zhao datou tried his best to persuade Tang Zhen. He was afraid that Tang Zhen would really go to the forbidden divine Palace. If he didn’t have a suitable partner, he was afraid that he would have made a wasted trip.

Tang Zhen laughed. He casually swung his blade and cut off a couple of monsters. Their heads soared into the sky.

Seeing that Tang Zhen no longer spoke, big head Zhao also knew what he was thinking. After hesitating for a moment, he finally gritted his teeth.

“Brother, as long as you’re willing to take a blood oath, I can take you to the forbidden divine Hall and take a treasure there!”

Tang Zhen swept his gaze over big head Zhao. He smiled and nodded.

The number one expert of Bear Ridge probably had many secrets. It was a coincidence that he had met such a person.

Chapter 2160 The heavenly Ascension platform, ten thousand paths

The wide mountain path was now covered with corpses. There were the remains of martial artists, but there were also all kinds of decayed bones.

The Warriors who were attracted to the forbidden mountain range by the treasure had obviously paid a heavy price. Almost every step they took, they would see bloody corpses.

On both sides of the road, the injured martial artists gathered together. They were on guard against the monsters that could appear at any time, and their faces were full of fear.

He had just entered the mountain, and who knew if he would be able to survive if he continued to advance?

Some Warriors couldn’t take it anymore and wanted to leave the forbidden mountain range, only to discover a terrifying thing.

Once a person retreated, the energy in his body would be drawn out ten times. The more he retreated, the faster the speed of the drawing.

Based on their current position, if they wanted to return to the mountain pass, they would probably be sucked dry!

It turned out that this forbidden mountain range was a place of no return!

Unconsciously, panic began to spread.

Only a part of the forbidden mountain range's ferocity was revealed, but it was enough to make many Warriors despair.

When they first entered the mountain, there were only a dozen or so mountain paths, but it didn't take long for an incomparably huge square to appear in front of the Warriors.

The number of passages up the mountain had also increased to 100.

There was a stone tablet on the square that indicated that there was only one safe passage out of the hundred roads that led to the next square.

No one knew which path was the right one. They could only try slowly and use human lives to explore the way.

The martial artists were eager to seize the treasure. They relied on their numbers and continued to advance bravely even though there were hundreds of paths.

After paying a heavy price, the Warriors finally rushed out of the passage. Except for the lucky ones who chose the right passage, the Warriors in the other passages all experienced a bloody battle.

At this time, the cultivators discovered in despair that a huge square had appeared in front of them again, and the road had actually split up again.

The more than two hundred paths made the cultivators afraid because the stone tablet had warned them that these paths were more dangerous.

Whether or not to continue forward had become the question that every martial artist was thinking about.

"The forefather has ordered that 30% of the treasures we obtain this time will be rewarded to our brothers. There will be more rewards after we return to the city.

However, if anyone dares to retreat, they will be executed and their entire family will be demoted to servants!"

But even so, no one dared to act rashly. They gathered in the square and watched as more and more people came.

The martial artists outside the mountain had no idea what had happened to the martial artists in the mountain.

Forbidden mountain range was the most famous and dangerous place on the warrior's continent. Forbidden extinction divine Hall was a legendary existence. Now that it had suddenly appeared, it had already shocked everyone.

One by one, the patriarchs of the megacity rushed over, trying to find an opportunity. The Warriors of the megacity also gathered in groups.

At this moment, there were at least 300000 martial artists stationed at the mountain pass, and this number was still increasing.

There were Warriors entering the mountain at every moment, not only to snatch the treasure, but also to guard against Warriors from other giant cities.

In a special environment like the forbidden mountain range, great ancestor-level cultivators couldn't fly. In a situation where their energy was being absorbed, they had to consider their own safety.

It was not impossible for many ants to bite an elephant to death.

It was for this reason that the patriarchs of the giant cities had gathered their elite warriors before they entered the mountain.

There were even some patriarchs of the megacity who personally led their Warriors to move out, appearing very cautious.

Before they knew it, these teams had all gathered in the second square. Even the patriarchs who had entered the mountain range alone had joined their own teams.

The old ancestor of the windthunder city was also in the square, followed by over a thousand elite martialists.

When they passed through the road of the first square, the windthunder city had paid the price of more than ten casualties, and more than a hundred people had been injured.

"Forefather, which path do you think we should take next?"

A martial artist asked the ancestor of windthunder city after looking at the fork in the road with a respectful expression.

"There's no hurry. Let me take a closer look."

The old ancestor of the windthunder city didn't act rashly. Instead, he looked at the paths carefully and narrowed his eyes.

The scene was different from when they first entered the mountain. At this time, the passage into the mountain had changed again.

From his position, he could clearly see the scenes on the roads. There was almost no obstruction.

Once one set foot on a certain path, there was no possibility of retreat. One could only keep moving forward.

If they took the wrong path, they would encounter all kinds of danger. Only those who could survive would be qualified to enter the next square.

The paths couldn't be crossed, or they would run into a spatial crack, and there was no chance of survival.

At this time, more and more martial artists gathered in the square, but they all maintained a certain distance from each other, with a vigilant look on their faces.

The old ancestor of wind Thunder City looked around and saw dozens of old ancestors of megacity city. They were all like him, looking carefully at the road ahead.

“Everyone, what are your thoughts?”

The old ancestor of the windthunder city took the initiative to ask the other old ancestors of the other megacities.

“The forbidden mountain range is full of danger. It really lives up to its reputation.”

One of the patriarchs of the megacity was the first to speak with a helpless expression.

Perhaps in the eyes of the outside world, they were all top powerhouses who could fly in the sky and burrow into the ground.

However, in front of the indigenous gods, the patriarch of megacity city was just a stronger ant among the ants. In fact, there was not much difference.

A long-bearded old man in a long robe said, “As far as I know, the square under our feet is called the heavenly Ascension platform, and there are nine in total.

With every one he passed, the path would double, and the difficulty would also double.

The last heavenly Ascension platform had more than 20000 passages, and if he chose the wrong one, all his previous efforts would be wasted.

Only by passing through the last platform can you enter the temple and pay your respects to the legendary God.”

Hearing the patriarch’s introduction, the Warriors on the square were shocked. It turned out that such a thing existed.

If that was the case, it would be extremely difficult to reach the forbidden extinction Palace.

this God is really perverted. He actually created such a test. Unless those believers are crazy, who would take such a risk? ”

A martial artist shouted, his face full of disdain.

Although they were the descendants of fanatical believers, they had long lost their reverence for gods, so they were also unscrupulous when they spoke.

what a brainless fool. You probably don’t know the generous rewards of successfully reaching the temple. Otherwise, you wouldn’t have said such things.

Another martial artist heard this and said in a mocking tone.

Just because of this sentence, the two groups of people almost started fighting, but in the end, they were stopped by a stern voice.

“What’s with the noise? since this passage is dangerous, then we’ll send people to explore it. We’ll take whichever path we can take!”

An old ancestor of the megacity looked at the palace on the peak with an impatient expression. He couldn’t hide his greed.

“That’s good.”

“Let’s do this.”

The patriarchs of the megacity city looked at each other and made up their minds.

Sending someone to test the waters would definitely come with a risk. It was impossible for them to personally make a move.

The subordinates of the various patriarchs were all trembling in fear, afraid that they would be chosen.

A martial artist from the giant city rolled his eyes and walked to the front of the wandering martial artists with his sword, his face full of killing intent.

When the other martial artists of the giant city saw this, they immediately understood what it meant. They all revealed ferocious smiles and surrounded the wandering martial artists.
