

## **Alternate 2161**

### Chapter 2161 Human life Pathfinder (1)

Regardless of equipment or strength, the wandering martial artists could not compare to the martial artists in the megacity. This was an undeniable fact.

Seeing that the situation wasn't right, the wandering martial artists all retreated. They couldn't hide their fear of the martial artists from the giant city.

At this time, there were tens of thousands of wandering martial artists on the heavenly Ascension platform. Their numbers were obviously more than the martial artists in the megacity, but they did not dare to resist at all and could only retreat again and again.

Some wandering martial artists tried to turn around and escape, but they found that they couldn't step on the road in front of them.

Many wandering martial artists were flustered and exasperated. They charged with all their might, but in the end, they were knocked back by an invisible force. They spat out blood and fell to the ground, unable to get up.

The patriarchs of the giant city sneered when they saw this.

Once they entered the heavenly Ascension platform, there was no possibility of leaving. Where could they retreat to?

"Bastards, what do you want to do? you're such bullies!"

so what if he's a martial artist from the megacity? he still has a life. At most, we'll fight to the death!

"Get lost, don't block this old man!"

The wandering ancient martial art practitioners were filled with grief and indignation at the thought that they would be used as Pathfinders by the patriarchs of the megacity in the future.

However, if they fought with all their might, they might not be a match for the martial artists from the megacity. Not to mention, the wandering martial artists were a pile of loose sand. How could they fight against a group of martial artists from the megacity?

When some wandering martial artists had nowhere to retreat to, they tried to resist and seek help, but they did not get any response at all. Instead, they received cold eyes.

No one would stand up for them if it didn't concern them. They just needed to ensure their own safety.

When the martial artists of the giant city saw this, the disdain in their eyes became more and more intense. They had some scruples in their hearts before, but now they were completely relieved.

These wandering martial artists were all mud that couldn't stick to the wall and were not a cause for concern at all.

"Hurry up! If they don't listen, kill a group first!"

A patriarch of the megacity said impatiently. In his eyes, the wandering martial artists were no different from ants.

The other patriarchs of the megacity also looked gloomy. They were obviously dissatisfied with the efficiency of their subordinates.

“Do it!”

The martial artists of the giant city did not dare to be slow. They immediately rushed into the group of wandering martial artists, and then a series of curses and killing sounds rang out.

The wandering martial artists who were being targeted struggled desperately. They knew the dangers of exploring the path, and it was likely that they would not be able to return.

Unfortunately, no matter how much the wandering martial artists struggled, their final fate was already decided.

On the ground of the square, there were still nearly a hundred corpses. The martial artists of the megacity would not show any mercy. They could just kill them and recapture them.

With so many wandering martial artists, they would be able to hold on for a while.

When the other wandering martial artists saw this, they heaved a sigh of relief as if a heavy burden had been lifted off their shoulders. At the same time, they retreated as much as possible to avoid being caught again.

feed them poison pills and send them into the passage. If they can reach the next heavenly Ascension platform alive, not only will they receive detox pills, but they can also receive other rewards.

A patriarch of the city said in a low voice. The city he was in was surrounded by dense grass and forests, which produced all kinds of medicinal herbs and poisons.

The captured wandering martial artists were forced to swallow the poison. They no longer had any intention of resisting and could only walk to the passage obediently.

The old ancestor of the wind Thunder City thought for a moment. He then walked in front of a few wandering martial artists, took out an item, and stuffed it into their flesh.

The few wandering martial artists did not dare to resist. They stood obediently in their original positions, like walking corpses.

“In!”

A group of martial artists from the megacity raised their sabers and placed them on the necks of the wandering martial artists, pushing them into the passage.

In the blink of an eye, those wandering martial artists had already stepped into the passage, and countless eyes were watching them from behind.

The patriarchs of the megacity were even more focused, staring at the wandering martial artists, trying to see what was unusual in the passage.

However, until the figures of the wandering martial artists gradually disappeared, the passage was still calm, as if no danger had occurred.

When the spectating martial artists saw this, they couldn't help but reveal doubtful looks.

what's going on? there's no danger? "

"If this continues, it won't take long for them to reach the second platform."

is this stone tablet just to scare people? or is it that too much time has passed, and some things have lost their effectiveness? "

"It's not that simple. Let's wait and see."

A group of Warriors whispered to each other. The patriarchs of the megacity frowned, not knowing what to do.

Seeing that the wandering martial artists who were exploring the way were about to reach the end, the martial artists of the giant city began to get restless, wanting to take action first.

If they were to arrive first, they would be able to enter the temple of abstinence first. If their speed was at maximum, they would probably not be able to get anything.

don't act rashly. Something's not right!

One of the patriarchs of the megacity suddenly spoke up and stopped his subordinates' restlessness. He frowned as he looked at the wandering martial artists in the passage.

After thinking for a while, he turned to look at the old ancestor of windthunder city. A thoughtful look flashed through his eyes.

When the other patriarchs of the megacity saw this, they all turned to look at the patriarch of windthunder city. They had all seen his actions.

"May I ask the old ancestor of windthunder city, what should we do next?"

One of the patriarchs of the megacity suddenly asked as he cupped his hands.

Seeing that everyone was looking at him, the old ancestor of the wind Thunder City shook his head and said in a low voice, "The scene that everyone is seeing may not be the truth. It is very likely to be an illusion.

If you really think that those wandering martial artists are safe and sound, then you'll probably die without even knowing why."

The Warriors of the giant city were stunned, but the patriarchs nodded slightly. Apparently, they had the same concerns.

"May I ask the old ancestor of the wind Thunder City, how did you determine that the passageway was filled with illusions?"

When the wind Thunder city's old ancestor heard this, he raised his hand and revealed something that looked like a strange insect.

“This strange insect is nameless and has nine seeds in the grooves on its back. It can live and die together with the parasite.

If the child died, the groove on the shell would change color, regardless of distance.

“I just implanted larvae into a few wandering martial artists. Now that the shells have changed color, those wandering martial artists are still moving forward. This in itself is not right.

That’s why I said that what I’m seeing is just an illusion. How can it be so easy to pass through the dignified passage of the heavenly Ascension platform?”

All the patriarchs nodded in agreement.

“Time waits for no man. What should we do next?”

Another patriarch of the megacity asked. He was worried that the hall of abstinence would suddenly disappear.

“Everyone can attack together and use a method similar to that of the old ancestor of windthunder city. I believe it would be effective.”

“That’s a good idea, I can give it a try.”

“That’s good.”

“Hurry up and arrest him!”

Following the ancestor’s orders, the martial artists of the giant city rushed into the wandering martial artists to capture the unlucky ones who were exploring the way.

In the chaos, another two hundred wandering martial artists proposed, and the rest were like chickens and ducks waiting to be slaughtered.

“Bastard, let go of my brother!”

Just when everyone thought that the matter was over, a furious roar was heard. Then, a brawny man with a battle axe rushed out.

When the martial artists of the giant city saw this, they immediately gathered around and looked at the brawny man with killing intent.

“Where did this stinky bug come from? are you tired of living?”

A warrior from the megacity sized up the burly man and said in a mocking tone, causing the other Warriors from the megacity to sneer at the same time.

my name is big head Zhao, and he’s known as the number one expert in Bear Ridge. Release my brother now, or you’ll have to ask my axe first!

Chapter 2162 Severely injuring the ancestor of the megacity (1)

Of the tens of thousands of martial artists present, only Zhao datou stepped forward, so he was particularly eye-catching.

All the martial artists' gazes fell on him.

Zhao Datou's heart was beating like a drum, but his expression remained unchanged as he glared at the martial artists of the giant city.

Although there were dozens of patriarchs of megacity in the square, and hundreds of battle King Warriors, Zhao Datou had no choice but to step forward.

His own brother was at the mercy of others, but as the boss, he didn't do anything. Wouldn't that chill the hearts of his other brothers?

From the moment he stood up, big head Zhao was already prepared to die, but there was a faint trace of regret in his heart.

The secret he was hiding would probably be brought to his grave.

The captured bandits of the bear Ridge were in tears. They tried to break free from the control, but they were cut down by the saber.

"Brother!"

Big head Zhao roared and rushed forward.

"Impudent!"

A martial artist from the giant city saw this and immediately stepped out of the crowd, waving his knife at Zhao Datou.

Big head Zhao roared and raised his battle axe to meet the attack. He took the other party's blow head on, and at this time, he had no way to retreat.

The weapons collided, sending sparks flying. At the same time, a muffled groan could be heard.

The expressions of the bandits of the bear Ridge behind him changed drastically. They could tell from the sound that Zhao Datou was at a disadvantage.

"Shua shua shua shua"

Big head Zhao took a few steps back, his face full of pain, and half-knelt on the ground.

His battle-axe was stuck on the ground, and blood was dripping from the web between his thumb and forefinger, flowing down the handle of the axe.

"Big brother!"

A group of martial artists rushed out and surrounded big head Zhao in the center, their faces full of grief and indignation.

the most powerful warrior in the bear Ridge? you're not even as powerful as my battle pet. I think you should be called the number one rat in the bear Ridge.

The martial artist from the megacity sneered and cursed at the group of angry bandits from the bear Ridge, causing the crowd to burst into laughter.

“Beast Zhenzhen”

“Bring all the clowns here and let them explore the way together!”

Not far away, an old ancestor coldly said without turning his head.

When the martial artist from giant city who had attacked before heard this, he walked forward with a grim smile and reached out to grab big head Zhao.

At this moment, a figure flashed.

Before the martial artist could react, he felt a force pushing him backward and he was sent flying into the tunnel behind him.

When the Warriors of the giant city saw this, they wanted to stop him, but they were too slow.

With a scream, the battle-King fell into the tunnel, and then there was no more sound.

“You’re looking for death!”

Seeing that his subordinate had been ambushed, one of the patriarchs rushed over and pounced straight at Zhao datou.

In the blink of an eye, he had already arrived in front of them.

Zhao datou and the others had not yet recovered from the sudden turn of events when they saw a patriarch pouncing at them, and their hearts immediately filled with deep despair.

Although they were in the forbidden mountain range, the patriarch was still the patriarch. As one of the top powerhouses on the warrior continent, he could smash them into meat paste with one punch.

At this moment, the figure from before blocked Zhao datou and punched the patriarch face to face.

With a muffled sound, the old ancestor actually retreated, his face full of shock.

Before everyone could see what was happening, the figure in front of Zhao datou had already gone straight for the patriarch.

“Bastard, Who are you?”

die! the old ancestor roared in anger. He took out a golden iron rod and swept it at the figure.

The figure seemed to sneer. Then, a cold light flashed in his hand, and an ancient-looking saber slashed down from the sky.

The blade and the staff collided, and the shock wave forced the surrounding martial artists to retreat dozens of steps. They fell to the ground and kept coughing up blood.

When he raised his head to look at that figure, his face was already filled with shock.

“Boom boom boom!”

A series of muffled sounds rang out, and the Square’s ground cracked inch by inch. Gravel shot out like bullets.

The spectators dodged one after another, but there were still many martial artists who were hit until their heads were bleeding, their faces full of horror.

The surrounding patriarchs didn't interfere. They just watched the two sides fight without blinking, their eyes flickering.

A stranger who had suddenly appeared had actually forced a patriarch of the megacity to retreat. Who was he?

The old ancestor of the windthunder city had a gloomy expression. The moment this stranger appeared, he had already recognized him.

It was Tang Zhen!

What he could not understand was that Tang Zhen had been being chased by the old ancestor of wind Thunder City all this while. Why would he suddenly appear here?

Tang Zhen was safe and sound. Where did wind Thunder city's old ancestor go? could it be that he had already been killed by him?

Or perhaps a Wufu?

The heart of the old ancestor of the windthunder city skipped a beat as he jerked his head up and looked into the distance.

He could vaguely see a blurry figure on the fourth platform.

"Damn it!"

The old ancestor of windthunder city cursed in his heart. At this moment, he no longer had the mood to care about his grudge with Tang Zhen. All he wanted to do was to quickly catch up to the old ancestor of Firerock city.

Otherwise, if he was one step ahead and reached the ultimate realm first, then the warrior's continent would be dominated by volcanic city in the future.

If that was the case, windthunder city's situation would become very difficult, and they would inevitably be ordered around by fiery Rock City.

we can't let that old fellow from volcanic city succeed. If it really doesn't work out, we'll cooperate with Tang Zhen. In any case, the enmity between him and volcanic city has already been formed, and it's impossible to resolve it.

The enemy of one's enemy was sometimes one's partner. The old ancestor of wind Thunder City was naturally clear about this point.

Just as this thought flashed through his mind, he heard a muffled groan.

Patriarch megacheng spurting out blood and was sent flying dozens of meters away, falling on the square.

There were terrifying knife marks on his body, and his chest and abdomen had been completely cut open. If he didn't rely on his strong body to lock his Qi, blood, and internal organs, his intestines would have been spilled all over the ground.

This was the difference between a martial artist and a cultivator. If Tang Zhen suffered such an attack, he would be able to recover in an instant because his body was condensed from energy.

As long as the spirit didn't die, the body wouldn't die!

However, martial artists were different. They cultivated their physical bodies and strengthened their divine soul. Only when they reached the ultimate realm of body and soul as one could they reach the level of immortality.

The difference in the path of cultivation would determine the level of one's future achievements. This kind of thing could not be forced.

The patriarch of the megacity sect was severely injured. Although he could heal, he would need some time.

However, when facing a powerful enemy like Tang Zhen and being in a special environment like the forbidden mountain range, it was easier said than done to heal his injuries.

"Protect the patriarch!"

A group of martial artists from the huge city rushed forward and surrounded the injured old ancestor. They looked at Tang Zhen with anger and fear in their eyes, but they did not dare to act rashly.

"Everyone, please lend a hand!"

The injured patriarch of the megacity city looked around and said in a low voice. His tone was filled with humiliation.

He clearly knew in his heart that it was impossible for them to be a match for Tang Zhen by just relying on his subordinates.

Without the help of the other old ancestors, it would be as easy as turning one's hand if Tang Zhen wanted to kill him!

"I'd like to see what kind of tricks this Sir has up his sleeve!"

One of the patriarchs of megacity stood out and said in a cold voice.

He was in a cooperative relationship with the injured old ancestor. If the old ancestor was still alive, he would be more valuable than dead.

"Thank you, I will definitely repay you for your help in the future."

The injured patriarch cupped his fists and did not say anything. At the same time, he looked at the other patriarchs around him.

Whether they were friend or foe, it should be time to test it out.

"This Sir is too much!"

I can't stand it either. If you want to kill someone, ask me if I agree first!

Sir, you look unfamiliar. You're not from the warrior continent, are you? "

As he spoke, a few more old ancestors stood out and confronted Tang Zhen from a distance.

The atmosphere became a little tense, and both sides seemed to be ready to fight at any moment.

Although Tang Zhen was alone, the old ancestors present did not dare to let their guard down. They could already tell that Tang Zhen did not use his full strength to attack earlier.

The reason that the injured old ancestor was still alive was because Tang Zhen had shown mercy. Perhaps, he was afraid that he would incur the wrath of the masses and be besieged.

If they really fought, even if Tang Zhen and the other old ancestors were killed together, one or a few old ancestors would definitely die.

This was a matter of life and death. These old ancestors were extremely cunning, so how could they easily take the risk?

Standing out at this time was just a gamble to send coal in the snow.

"If you want to fight, then fight! Cut the crap!"

Tang Zhen said coldly as he faced a group of patriarchs from the megacity. The saber in his hand let out a series of soft hums as his aura had already accumulated to its maximum.

Once the blade was drawn, it would definitely kill an enemy!

Chapter 2163 Daggers drawn (1)

Tang Zhen was accumulating strength. Those old ancestors could naturally see it.

When this strike was unleashed, it would definitely be an all-out attack with terrifying power.

It was precisely because of this that they didn't dare to act rashly. If they were locked on by Tang Zhen and attacked, they might be killed in one move.

Although he helped to maintain the situation, it didn't mean that he had to put his life on the line, especially in the face of such a fatal move.

He couldn't get involved in this muddy water!

The heavenly Ascension platform began to quieten down. The wandering martial artists' hearts were surging with emotions as they stared intently at the confrontation between Tang Zhen and the dozens of old ancestors as well as the tens of thousands of martial artists from the giant city.

Their feelings were extremely complicated. They originally thought that they were destined to be slaughtered by the martial artists of the giant city, but they didn't expect the situation to change so quickly.

The current Tang Zhen represented the benefits of the wandering martial artists, causing those martial artists from the megacity to not dare to act rashly.

you must hold on. Don't get killed by those patriarchs of the megacity!

A wandering martial artist said in a soft voice. From his point of view, as long as Tang Zhen did not die, there was no need to worry about their safety for the time being.

As for cheering and helping, his own words carried little weight, and his strength was weak, so it was better not to stand out.

Zhao datou and the others were already stunned. They never dreamed that Tang Zhen, whom they "picked up" halfway, would actually be so powerful.

He had severely injured a great ancestor in a head-on battle and was facing a group of great ancestors alone. His aura was not at a disadvantage at all.

Such a scene had completely exceeded their imagination.

Thinking of how he had bragged to Tang Zhen before, big head Zhao's already dark face turned darker, looking purple-red.

"Boss, are you okay?"

The subordinate next to him saw this and quickly asked, thinking that Zhao datou's injury had worsened.

"Pfft, I'm fine."

Big head Zhao forced himself to stand up and looked at the passage in front of him with hatred. He said in an unwilling tone, "don't let me run into that bastard again. Otherwise, I'll chop him to death with my axe. I'm the number one expert of Bear Ridge. How can I be defeated so easily?"

The subordinate beside him quickly nodded, but he couldn't help but snicker. That battle-King warrior had long been thrown into the passage, and his body was probably cold by now.

The number one expert of Bear Ridge was just a title that Zhao datou bragged about himself. It didn't mean he was very strong.

Even if he was invincible in the entire Bear Ridge, that was only in the bear Ridge. If they were outside, even a battle King warrior from a megacity could easily destroy them.

Of course, no one would mention this, or Zhao datou would be furious and try to prove how powerful he was.

The bandits of Black Bear Ridge admired and felt helpless about their boss, who was loyal, prideful, and occasionally clever.

It would be best if he was more cautious and not always let his emotions affect his decisions.

"What are you laughing at? laugh again, I'll beat you to death!"

Big head Zhao swept a glance at his subordinate and turned to look at Tang Zhen. However, he was constantly pondering in his heart.

Previously, he had thought that Tang Zhen was a wandering martial artist with extraordinary skills. Therefore, he had taken the initiative to recruit him.

He had a secret that only he knew, and it was related to the treasure in the forbidden mountain range.

The secret came from the ancestors and had been passed down for several generations. Unfortunately, none of the ancestors had entered the forbidden mountain range to verify the authenticity of the treasure.

Although there were secrets, Zhao datou didn't dare to act rashly. Before the forbidden divine Hall opened, the forbidden mountain range was a land of no return.

Big head Zhao hadn't lived long enough, but this matter was definitely on his mind, and he was doing his best to prepare.

He had even specially found a mountain near the forbidden mountain range and roped in a group of wandering martial artists. On the surface, he looked like he was a Bandit, but in reality, he was observing the changes in the forbidden mountain range.

In the past many years, nothing special had happened in the forbidden mountain range. Zhao datou even suspected that he would not have the chance to verify it until his death.

This secret would eventually be passed to his son, then his grandson, and then his great-grandson, Yingluo.

It wasn't until Tang Zhen and the old ancestor of Firerock city rushed into the mountain pass and the forbidden divine Palace appeared that Zhao datou realized with great excitement that the opportunity his ancestors had been waiting for for so many years had finally arrived.

Without any hesitation, he brought his brothers to the mountain pass and entered the mountain range in the chaos.

At this moment, big head Zhao felt his blood burning, and his heart was beating wildly.

He felt that hope was right in front of him. The dream that he had been dreaming of for many years seemed to be coming true very soon.

However, Zhao datou soon discovered that he had thought things too simply. Even if he had a secret in hand, he still couldn't guarantee success.

Although he had brought many brothers with him, big head Zhao knew that he could not point out any of them at the critical moment.

He still needed an expert to work with him, or else he would not be able to achieve his goal.

Big head Zhao was burning with anxiety. Such an opportunity was hard to come by in a hundred years. If he missed it, he was afraid that he would really bring his regrets into the coffin.

As a result, on the way, Zhao datou met Tang Zhen and confirmed that he was the business partner he was looking for.

Zhao datou didn't waste any time. He directly expressed his attitude and gave Tang Zhen time to consider.

If Tang Zhen was willing, Zhao datou would cooperate with him. After all, he didn't have much time to waste.

If Tang Zhen couldn't do it, he would have to hurry up and find new partners.

However, the foundation of all this was that the strength of both sides was similar, but at this moment, Zhao datou became a little hesitant.

Tang Zhen's strength was too strong, far beyond Zhao datou's expectations. Although this could greatly increase the success rate of the plan, it would also lose the safety guarantee.

A blood oath alone was unable to restrain an expert like Tang Zhen. Moreover, Tang Zhen had not agreed to make an oath at all.

If Tang Zhen wanted to monopolize the treasure after obtaining it, killing him would be as easy as turning his hand.

Big head Zhao couldn't help but secretly rejoice in his heart. Fortunately, he had been more careful and didn't tell his secret to Tang Zhen.

However, when he thought about how Tang Zhen had saved his life and not hesitated to reveal his identity to confront the patriarchs of the giant city, Zhao datou felt a burst of fear.

If it wasn't for Tang Zhen, he and his brothers might have already become corpses or be forced to be sent into the tunnel to be used as Pathfinders.

Tang Zhen's current situation was quite dangerous. It was also because of him. Otherwise, no one would be able to discover Tang Zhen if he wanted to hide.

Big head Zhao felt that he owed Tang Zhen a huge favor. If he didn't return it, he would never be at ease in his life.

forget it. I, Zhao datou, will never owe anyone a favor. For the fact that he saved my life, I have to tell him the secret!

Big head Zhao made up his mind and looked at the center of the heavenly Ascension platform square again, a trace of worry in his eyes.

The only thing he was worried about now was that Tang Zhen would fight with those megacity's old ancestors. Although he was not weak, he might not be a match for a group of megacity's old ancestors.

"You're going too far!"

The heavily injured old ancestor swallowed the elixir, and his wound healed at a speed visible to the naked eye. The bright red skin and tendons had completely closed his chest and abdomen.

everyone, please attack together and kill this guy of unknown origin. If he is allowed to act presumptuously, where will the face of the martialist continent be? "

The injured old ancestor was furious as he incited everyone to attack. His eyes were incomparably sinister as he looked at Tang Zhen.

The group of patriarchs remained silent. They were not hot-blooded and stubborn Warriors who would be manipulated by words.

However, Tang Zhen's existence would indeed cause more changes in this treasure hunt. If he could take advantage of the gathering of the old ancestors to kill Tang Zhen, he would be able to avoid some future trouble.

At the thought of this, the patriarchs of the megacity began to secretly discuss whether they should take action.

Tang Zhen had naturally noticed the small actions of those old ancestors. However, his expression did not change. The corner of his mouth carried a faint mocking smile.

"Everyone, I don't know how long the divine Hall of abstinence will last. Once it disappears, the heavenly Ascension platform and the passageway will all disappear.

So I suggest that we put aside our grudges for now and consider this matter after we enter the divine Hall of abstinence."

As he spoke, the old ancestor of the wind Thunder City slowly walked out. At the same time, he smiled at Tang Zhen.

Chapter 2164 The Tang Zhen that can't be provoked (1)

The sudden appearance of the old ancestor of the windthunder city stunned all the old ancestors, and a trace of doubt appeared in their eyes.

"Sir, what do you mean by this? could it be that you have colluded with this person, and that's why you are standing up for him?"

Patriarch megacity valued his reputation the most.

Tang Zhen had seriously injured him and caused him to lose face in public. This enmity could be said to be absolutely irreconcilable.

He wanted nothing more than to kill Tang Zhen, but it was a pity that he was unable to do so. He could only seek help from the other old ancestors. One could imagine how depressed he was in his heart.

At this moment, the old ancestor of windthunder city had jumped out and tried to help Tang Zhen out of this situation. Naturally, he would be the first to disagree.

The other patriarchs didn't express their opinions, but they looked at the wind Thunder city's patriarch with an inexplicable gaze. They were secretly guessing the relationship between him and Tang Zhen.

The originally tense situation also became a little awkward because of the interference of the old ancestor of wind Thunder City.

Tang Zhen swept a glance at the old ancestor of wind Thunder City. His thoughts turned slightly as he guessed the other party's intention.

Clearly, helping him out was a lie. The other party's main concern was to find out how the patriarch of Firerock city had passed the heavenly Ascension platform.

Tang Zhen had the most say in this matter.

If possible, he could even use him to deal with the patriarch of Firerock city. After all, the enmity between the two of them could not be resolved.

Apart from this, there was another reason. After the old ancestor of windthunder city found out about Tang Zhen's identity, he was afraid that Tang Zhen might have a trump card.

At this moment, everyone was trapped on the heavenly Ascension platform and was in a dilemma. If Tang Zhen was forced into a corner and used some kind of fatal area attack, then no one present would be able to gain an advantage.

Tang Zhen's guess was close to the truth.

After Tang Zhen left windthunder city, the old ancestor of windthunder city immediately gathered information about Tang Zhen and knew that he had many powerful means.

The runic missile was one of them.

It was a terrifying weapon that could easily destroy a sea monster's nest. If it was detonated on the heavenly Ascension platform, it was estimated that 90% of the martial artists present would be killed.

The old ancestor of the windthunder city didn't think that he was weak, but he didn't dare to test the power of such a terrifying weapon. That was why he had jumped out to be the peacemaker.

In the end, it was due to the physical limitations of a martial artist. If it was a Lou Cheng cultivator, the lethality of the rune missile would be greatly reduced.

The patriarchs of the other megacity cities looked at the injured patriarch with a contemplative look on their faces, while the patriarch of wind Thunder City was depressed.

"A group of brainless fools. Tang Zhen must be fearless since he dares to stand out in this situation.

If he's really pissed off and explodes the runic missile, I'm afraid you won't even have time to cry."

Although the old ancestor of windthunder city was thinking for himself, the other old ancestors had also benefited from it. He didn't want to be maligned for no reason after doing a good deed.

Some things had to be made clear so that those guys would understand what was going on. Even if they weren't grateful to him, they couldn't bear a grudge.

These guys were sinister and cunning. If they caused trouble for him later in the process, it would not be worth it.

"I'm afraid you don't know the background of this gentleman, but I do. Let me introduce him to you.

In fact, before this, I had not officially contacted this Lord. However, after he crossed the sea and landed, he first visited windthunder city, which gave me the opportunity to make contact for the first time.

After that, he headed to Firerock city and destroyed weapon forging city. At the same time, he also took away the item that belonged to the patriarch of Firerock city."

The group of old ancestors had a slight change in expression when they heard this. The gazes they used to look at Tang Zhen had also become complicated.

It was only now that they realized that the person whom the patriarch of Firerock city had been chasing with all his might was this powerful believer in front of them.

First, he had wreaked havoc in thunderwind city, then destroyed weapon forging city and snatched the item of patriarch Firerock. This person's courage was not ordinary.

Under such circumstances, the fact that he dared to confront dozens of patriarchs of the megacity alone showed that he had enough confidence in his strength.

There were also a few old ancestors who had strange expressions. They had some understanding of the item in volcanic city, but they did not expect that Tang Zhen would snatch it away.

Firerock ancestor's lack of vigilance towards Firerock was actually related to the special characteristics of that thing. Any patriarch who knew the inside story would definitely not have any ideas about that thing.

If it wasn't for the value of the Firerock, even if they were to give it to everyone for free, they would have to consider it carefully.

Tang Zhen did not intend to take that thing away. Instead, that thing clung to him and refused to leave the world in his mind.

When the old ancestor of the windthunder city saw the expressions on everyone's faces, he chuckled and added fuel to the fire.

patriarchs, you have some understanding of the situation on the believer's continent. Do you know that the believer's continent has recently started to use a type of giant warship called warship to enter the deep sea to eliminate sea monsters?"

Most of the patriarchs didn't know, but a few patriarchs nodded lightly, proving that the words of the wind Thunder city's patriarch were true.

"Since you're all busy with your daily affairs and don't know much about this matter, I'll give you a brief introduction.

This kind of warship was called a mobile defense area on the sea. It could fight and destroy the sea monster army alone. Through the supply of the temple on the ship, it could fight at sea for a long time.

If they reached a certain number, they could even cross the sea and launch an attack on the martial arts continent.

The weapons on this warship are very powerful, and they have a weapon called rune missiles, which can easily destroy sea monster nests!"

Upon hearing the words of the old ancestor of windthunder city, the group of old ancestors frowned once more with disbelief on their faces.

Due to their almost public cooperation, they had some understanding of the sea monster race. They knew that even if they were to attack by themselves, it was absolutely impossible to destroy the sea monster nest.

With such a comparison, the patriarchs of the megacity could imagine how powerful the warship was. Even if they were to fight it, they might not be able to gain an advantage.

I've also heard that this kind of warship only needs ordinary believers to control it, and it can move freely in the deep sea.

"That's true. When I met a strong believer some time ago, I also heard him mention this kind of warship.

He witnessed the whole process of the battleships wiping out the sea monster army and sighed that if this situation continued, the sea monster tribe would be in for a big catastrophe."

That's true. It's said that the sea monsters joined forces with the major cities to attack the believer's continent, which has a lot to do with this.

If they don't take any action, it won't be long before they're no longer the overlords of the deep sea."

As the saying goes, if the lips die, the teeth will be cold. Once the sea monster tribe is defeated by the Grand temple, then the next target of attack will definitely be the warrior continent, so we have to pay more attention to this matter!

The Warriors despised and hated the Aboriginal gods, but one thing was undeniable: the overall strength of the believer continent was stronger than that of the warrior continent.

If the believer continent attacked the martial arts continent, the martial arts continent would most likely be defeated.

When the old ancestor of the wind Thunder City saw this, he seized the opportunity to add, "as for His Excellency, he's the creator of this warship, the Commander-in-Chief of area 153, and his Excellency Tang Zhen, who also came from the outer realm.

As soon as he said this, the four seats were shocked.

The patriarchs of the giant city looked at Tang Zhen with surprise, fear, and undisguised killing intent.

Tang Zhen's expression did not change. He only smiled. He knew that the old ancestor of windthunder city definitely still had something to say.

"I just want to remind everyone that we're currently in the forbidden mountain range. Although this Sir Tang Zhen is alone, he has a rune missile that can destroy a sea monster's nest.

If you want to die, you can try, but you'd better not involve me, otherwise don't blame this old master for being impolite."

Hearing the warning of the ancestor of windthunder city, the other patriarchs of the megacity city, who had a fierce look in their eyes, were all shocked.

Only at this moment did they suddenly realize that Tang Zhen might not be afraid of them even though he was alone.

If he was forced into a corner and threw out a few runic missiles, the consequences would be unimaginable!

Chapter 2165 The scapegoat, Firerock forefather (1)

If they were in another place, the patriarchs of the megacity might not have given in.

However, the forbidden mountain range was different. One couldn't advance rashly and there was no way to retreat. Anyone would be a trapped beast.

If Tang Zhen was forced into a corner, at most, it would be a life and death struggle, and no one would be able to leave alive.

The old ancestor, who was seriously injured by Tang Zhen earlier, revealed a struggling expression at this moment. Soon after, he softly sighed.

"Forget it, I will no longer pursue this matter."

From this moment on, there would no longer be anyone who would stand up for him, much less attempt to kill Tang Zhen.

Even if he was holding in his anger, he could only suppress it in his heart. He definitely could not continue to provoke Tang Zhen, this powder keg.

If they continued to be unforgiving, the patriarchs of the megacity might turn hostile and turn from allies to enemies.

Without the support of those old ancestors, it would be as easy as turning his hand if Tang Zhen wanted to kill him.

Even if he was killed, no one would stand up for him.

"That would be for the best!"

Seeing that the tense situation had been alleviated, the old ancestor of the wind Thunder City walked in front of Tang Zhen and performed a bow that was commonly used among martial artists.

"Sir Tang Zhen, there's a so-called priority. Everyone's goal is to go to the temple of abstinence, so we can put aside our grudges for the time being.

I suggest that we work together for the time being and think of a way to get to the temple of forbidden extinction. What do you think?"

Tang Zhen nodded his head. The battle blade in his hand suddenly disappeared. At the same time, he swept a glance at the old ancestors in the surroundings.

"Please forgive this Tang's bluntness, but I really don't trust anyone here. It's better for us to act on our own."

Upon hearing Tang Zhen's reply, the old ancestor of wind Thunder City smiled faintly while the other old ancestors of the megacity revealed looks of disdain.

From their point of view, Tang Zhen did not know how to appreciate favors.

since you don't trust us, I won't force you. I just hope that everyone will continue to exercise restraint in the coming time.

At the same time, the old ancestor of the wind Thunder City turned his head and looked around with an inquiring expression.

No one objected, so it was considered an agreement.

The patriarchs of the megacity did not want to waste too much time either. No one knew how long the divine Hall of abstinence would be open for. Their top priority was to reach the summit as soon as possible.

If he missed this chance, who knew when the next forbidden extinction Hall would open?

The heart of the old ancestor of the windthunder city was beating like a drum. This was what he was most concerned about.

Although he had caught a glimpse of someone on the heavenly Ascension platform, he still couldn't confirm it. Maybe he was seeing things.

"He's already heading straight for the divine Hall through a tunnel of light. He shouldn't be far from the divine Hall now, right?"

Tang Zhen spoke in a faint voice. In reality, even he was unable to determine the exact location of the Firerock ancestor.

However, judging from the speed at which the tunnel was disappearing, and then estimating the speed at which Firerock patriarch was moving, he would probably be able to escape from the tunnel after traveling half the distance.

a glowing passage? what's that? "

The old ancestor of the wind Thunder City frowned and asked in a puzzled tone.

Tang Zhen shouldn't have any need to lie to him. In that case, the reason why the Firerock ancestor was able to quickly pass through the heavenly Ascension platform was definitely related to that mysterious glowing passage!

Could it be that patriarch Firerock had some sort of method that could activate this glowing passage, allowing him to get closer to the divine Hall of forbidden extinction even faster?

The thoughts of the old ancestor of the windthunder city started to run wild.

It was not impossible. There had been no changes in the forbidden mountain range for nearly a thousand years, but the forbidden divine Hall had suddenly appeared after patriarch Firerock had entered.

The wind lightning patriarch would never believe that there was no connection between the two.

Other than this, there was another possibility. This matter was related to Tang Zhen.

However, Tang Zhen was an outsider and not a fanatical believer. If there was no reaction when an expert believer came, the possibility of an outsider triggering a mutation was even lower.

The wind lightning patriarch would rather believe that this was just a coincidence.

Perhaps they had accidentally triggered some sort of restriction after entering the forbidden mountain range, causing the forbidden divine Hall to appear.

As the two of them conversed, the other patriarchs of the megacity were paying attention to them. When they heard Tang Zhen mention the glowing passageway, one of the patriarchs of the megacity was surprised.

After thinking for a while, he suddenly said to everyone, " "I do know a thing or two about this glowing passageway.

It was said that 1000 years ago, the forbidden mountain range was a forbidden area for the gods. If believers wanted to see the gods, they had to wait until the heaven-reaching platform appeared once every ten years.

Only by going through a narrow escape and successfully passing the nine heavenly Ascension platforms would one have the chance to meet the gods and obtain the final reward.

However, there were always exceptions.

It was said that after some special believers entered the heavenly Ascension platform, a glowing passage would appear from the nine passages of the heavenly Ascension platform, leading the believers directly to the temple of abstinence.

This glowing passage was the safest route, and they wouldn't encounter any danger.

It's just that this kind of thing is extremely rare. Even if it was a thousand years ago, it only existed in legends."

Hearing the patriarch's explanation, everyone was surprised.

according to what you said, could it be that the Firerock ancestor is a believer of the native God? this is too outrageous!

"It's not impossible. You have to know that it's extremely difficult for us to make any further progress at our current level of cultivation.

However, those believers could exchange their battle achievements for the opportunity to improve their strength. As long as they had enough battle achievements, it should not be difficult for them to advance to the ultimate realm.

Perhaps the Firerock forefather secretly betrayed the warrior continent and became a believer of the native gods in order to reach the final realm."

Hearing this analysis, the patriarchs of the megacity had different expressions. Although they didn't believe it completely, they felt that it made sense.

Not many people could resist the temptation of advancing to the ultimate realm.

I was wondering why the Firerock ancestor kept that useless thing. It was probably to protect himself. After all, only powerful believers have a large number of energy crystals, so it's only natural that he has frequent contact with it.

Perhaps a long time ago, he had already become the Great Temple's Lackey, just that no one knew about it.

Now that he's entered the forbidden mountain range, the forbidden extinction divine Hall suddenly appeared, and the heavenly Ascension platform has a special entrance, it's enough to prove that he's suspicious."

Patriarch megacheng had an old grudge with patriarch Firerock, so he naturally wouldn't miss the opportunity to hit him when he was down.

The atmosphere became tense.

&Nbsp; the goal of this trip was to enter the temple of abstinence and fight for the opportunities that might exist.

The patriarchs couldn't help but become extremely anxious when they suspected that the Firerock patriarch's identity might be a step ahead of them in entering the forbidden shrine.

If the Firerock forefather really seized the initiative, not only would they have worked hard for nothing, but they would also have to suffer a series of unforeseen events.

If the other party was really a secret believer, then after he advanced to the ultimate realm, he would pose a great threat to the other giant cities. This was something that the group of ancestors absolutely did not want to see.

If there was civil strife, sea monsters or believers would take the opportunity to attack, and the Millennium Foundation of the major cities would be destroyed.

let's not waste any time. We have to think of a way to get through the heavenly Ascension platform and reach the divine Hall of abstinence as soon as possible!

The old ancestor of the wind Thunder City suggested loudly, and the other old ancestors of the megacity city agreed with him.

"Sir Tang Zhen, we will need someone to Scout the path next. What do you think?"

Tang Zhen had blocked a calamity for Zhao datou, so he was now considered the representative of the wandering martial artists. The patriarchs of the giant city were afraid of him, so they didn't dare to capture him as they had just done.

Tang Zhen's eyes were cold and indifferent. He swept his gaze over the group of cowardly wandering martial artists behind him and gently shook his head.

I only have a hundred men. As for the other martial artists, they have nothing to do with me.

"That's good."

All the patriarchs of the megacity city, including the old ancestor of the windthunder city, chuckled as they looked at the wandering martial artists with a cruel glint in their eyes.

Chapter 2166 Always taking care of your own people \_1

Upon hearing Tang Zhen's words, the wandering martial artists who had been observing from the start burst into an uproar.

"How could you do this!"

you're such a bully. What's the difference between you and those Warriors from the megacity?"

"I'm not convinced. Why should we be the Pathfinders?"

They were filled with righteous indignation and had completely forgotten that when the martial artists of the giant city were capturing people, none of them had extended a helping hand.

His original mentality of getting lucky had completely disappeared, leaving only deep despair.

Big head Zhao sneered, turned his head to look at the wandering martial artists, and took a deep breath.

His eyes were filled with anger.

"You shameless things, what were you doing just now? when my brother was captured, did anyone stand out to speak for him?"

As long as you have some backbone, I, Zhao datou, will treat you as my brothers and ensure your safety even if I have to risk my life.

His Excellency Tang Zhen is our boss, not your father. Why should he care about your life and death?"

Some of the wandering martial artists looked ashamed, but most of them were still angry. They only considered themselves and didn't care about anything else.

"Cut the crap and arrest him!"

The old ancestor of the windthunder city only cared about Tang Zhen's attitude. As for those wandering martial artists, he didn't even put them in his eyes.

The Warriors of the giant city who had received the order surrounded the wandering Warriors again and quickly caught another group of people.

Seeing this, the remaining wandering martial artists' faces turned ashen, and some of them simply accepted their fate.

Now that things had come to this, he could only pray for good luck and not be unlucky enough to be caught or die in the process of exploring the path.

Zhao datou walked to Tang Zhen's side with a mysterious look.

"Sir Tang Zhen, many thanks for your help earlier."

At this time, big head Zhao's face was full of shame. When he recalled his previous bragging to Tang Zhen, he always felt that his face was constantly burning.

“You’re welcome. What’s the matter?”

Tang Zhen was also thinking of entering the forbidden divine Palace before the Firerock ancestor.

A group of patriarchs from megacity city had made groundless analysis, turning Firerock patriarch into a traitor of the martial arts continent and taking the blame.

Only Tang Zhen was clear that the glowing tunnel had been formed because of his appearance. He had only withdrawn from the tunnel because he had some misgivings.

He had already missed the opportunity once, and he didn’t want to miss it a second time. At the very least, he couldn’t let the Firerock ancestor get any benefits.

If the other party had really stepped into the ultimate realm, Tang Zhen’s situation would become extremely dangerous. Since he had destroyed weapon forging city earlier, Firerock ancestor would definitely not let this matter rest.

“Sir Tang Zhen, I actually have a secret that I’ve never mentioned to anyone.

I tried to work with you before because I know the secret that can help me reach the temple of abstinence faster!”

Tang Zhen was stunned when he heard this. He turned his head and carefully looked at big head Zhao, his brows slightly furrowing.

A group of super powerhouses were trying to find the correct passage, but they were not 100% confident.

Anyone would be surprised if a low-level warrior suddenly stood up and said that they could reach the temple of forbidden extinction safely and quickly.

Seeing Tang Zhen’s expression, big head Zhao thought he didn’t believe him and quickly explained.

“In fact, a thousand years ago, my family’s ancestor had stepped into that guiding passage and met the legendary God.

He remembered the order of the passage and made a passage for us juniors to remember.

He hoped that his descendants could find the right path to the heaven reaching platform and reach the forbidden extinction divine Hall again.

However, it didn’t take long for the alien cultivators to suddenly descend, and my ancestor died on the battlefield.

However, the words he left behind have been passed down from generation to generation, and they are regarded as his life.”

Big head Zhao said in an excited tone, “My family’s ancestors were all waiting for the forbidden divine Hall to reappear so that they could attempt the heavenly Ascension platform according to the instructions.

However, a thousand years have passed and the divine Hall of forbidden extinction has never appeared. It was only at my generation that I finally had the chance to see it!”

Tang Zhen gently nodded after hearing big head Zhao’s story.

how can you be sure that the channel doesn’t appear randomly? if it keeps changing, then the contents of your ancestor’s record will be of no value.

Big head Zhao sighed and said in a low voice, ” actually, I also want to verify if the words left by our ancestors are true. If the truth is as you say, then my family’s thousand years of inheritance can only be a joke.

For Zhao datou, verifying the authenticity of his ancestor’s inheritance was even more important than obtaining the treasure.

Tang Zhen did not say anything more. Instead, he randomly grabbed and five martial artists uncontrollably walked in front of him.

“I beg you, please let me go!”

“I don’t want to die, let me go!”

The five wandering martial artists struggled with all their might, but to no avail. Their eyes were full of despair.

“In your eyes, this place hides a shocking amount of wealth, but in my eyes, this is a man-eating demon’s cave.

From the moment you entered the forbidden mountain range, you were destined to never return.

But from now on, I can give you a chance to leave this place alive.

As long as you make it out of the passage alive, I’ll give you a generous reward and guarantee that you’ll be able to leave the forbidden mountain range alive.

It’s the same for the five of you and the other wandering martial artists.

Now tell me your choice. If you don’t want to explore the way, you can leave at any time.”

As soon as he finished speaking, the restraints on the five wandering martial artists were automatically untied, and they regained their freedom of movement.

The four wandering martial artists did not hesitate to turn around and retreat. They burrowed into the crowd behind them and refused to show their heads again.

Only one martial artist stood on the spot with a pondering expression. He then raised his head and looked at Tang Zhen.

“Are your words true?”

Tang Zhen smiled and nodded.

“What kind of person is Sir Tang Zhen? why would he deceive a mere martial artist like you?”

Brother, listen to my advice. You must make a decision early, or it'll be too late to regret.

Since he was in a desperate situation, he had to find a way to survive. He absolutely couldn't just wait for death.

This was only the first platform, and there were already 200 passages. When the ninth platform was reached, at least 10000 people would be needed to explore the way.

Even if you can hide, where can you hide?

Rather than looking for a one in ten thousand chance of survival later, it's better to take a gamble now. At least, the success rate will be higher!"

Big head Zhao seemed rough and impetuous, but his words were quite thorough.

Before all the wandering martial artists were dead, the patriarchs would never let the martial artists from the giant city Scout the way. Although there were more than ten thousand wandering martial artists present, they were far from enough to Scout the way.

Under such circumstances, it would be extremely lucky if he could obtain a death exemption medallion in advance.

The wandering martial artist had also thought it through. He gritted his teeth and nodded in agreement.

"Don't worry, you won't regret your choice."

As Tang Zhen spoke, he gently waved his hand, and a pile of items immediately appeared on the ground.

Everyone's eyes were not bad, and they could tell that these were not ordinary items. There were still many things that they did not know the use of.

"Wearing this armor can reduce the damage as much as possible. Taking these few bottles of medicine can make you more awake and agile, and your whole body as hard as iron.

There's also a communication device here that can keep in touch with me at any time. You can even use the Kasaya in special environments."

The eyes of that vagrant martial artist lit up after hearing Tang Zhen's explanation. If this was the case, his chances of survival would be greatly increased.

The other old ancestors had strange expressions on their faces. They did not expect that Tang Zhen would invest so much on a wandering martial artist who was just a Scout.

A trace of disdain was even revealed in the eyes of a few old ancestors. They felt that Tang Zhen's actions were unnecessary.

They were just some ants, and they could be captured after they died. If the Pathfinders died, the equipment would only be wasted.

The other wandering martial artists who had been forced to explore the way were full of envy, sighing in their hearts that they did not have such good luck.

Zhao datou whispered to Tang Zhen, then took the wandering martial artist who had finished changing into a passage near the edge.

Chapter 2167 The balance is broken \_1

At the same time Tang Zhen sent the people into the passage, the other wandering martial artists also had steel blades placed on their necks as they entered the passage with faces full of despair.

According to the instructions on the stone tablet, there must be one correct passage among the two hundred passages that could safely reach the second heavenly Ascension platform.

Therefore, everyone only needed to wait for the result. When a figure appeared on the second platform, they could continue to move forward along the passage.

Big head Zhao stood in front of the passage for a while before slowly retreating to Tang Zhen's side. His expression was slightly complicated.

He was more nervous than anyone else. If it turned out that the things left by his ancestors were useful, it meant that a great opportunity was waiting for him.

However, if he didn't use the Kasaya

Tang Zhen didn't pay attention to big head Zhao, who was worried about his personal gains and losses. Instead, he constantly observed the situation in the passage through the monitoring equipment on his wrist.

The truth was as he had guessed. The scene from the outside was completely different from the inside of the passage.

There were bones and zombies all over the place, and broken weapons were scattered everywhere. Even after thousands of years, they still hadn't decayed.

The air was extremely turbid, like a sealed cellar, giving people a sense of oppression.

Clusters of blood-red mycelium gushed out of the ground and covered the corpses. Some of them had turned into black flesh-like objects, and the mycelium was like hair.

this was a special fungus that could drive corpses to hunt for food and obtain the nutrients needed for their growth.

This type of fungus existed in many planes, and the natives could judge the level and strength of the zombies by the color of the fungus.

Some of the zombies that were completely covered in mycelium had already begun to wriggle slowly. Their bodies made a sound like wood rubbing against each other, as if they could jump up from the ground at any time.

This scene was extremely strange, and just looking at it made one's heart turn cold.

The wandering martial artist was nervous. Although he had changed into a set of excellent equipment from head to toe, it still did not give him enough courage.

If it wasn't for the fact that there was no return to this passage, he might have already turned around and left instead of continuing to press on.

"Don't be afraid, just keep walking forward!"

Tang Zhen's voice suddenly sounded, causing the wandering martial artist's mind to be jolted. He felt much more at ease when he thought of Tang Zhen's warning earlier.

Taking a deep breath, the wandering martial artist tried his best to move his feet and continued to move forward along the Broken Road.

Strange sounds kept coming from his ears, as if they were groans from hell, and from time to time, he could see blurry figures flashing around.

In such an environment, it would bring a great deal of mental pressure, and every step forward would be shocking.

don't be nervous. It's fine. I'll definitely make it out alive!

The wandering martial artist kept encouraging himself in his heart. He knew that he had no way out. If he wanted to leave this place alive, he could only keep moving forward.

After walking for a while, a huge monster appeared in front of them, almost taking up the entire passage.

Just like the strange plant he saw before, this monster was also made up of remains, flesh, and plants. It looked like a giant cattail leaf, and its huge leaves were shaking constantly.

On top of the long stem, which was as long as a neck, were the tassels formed by the accumulation of countless heads. A rancid liquid was constantly flowing out of the rotten and ferocious facial features.

The moment the wandering martial artists appeared, countless eyes looked over, and the emotions of madness and unwillingness enveloped them like a tide.

This was a mental attack, and sometimes it was impossible to guard against.

The wandering martial artist trembled in fear. He felt boundless fear, as if he would be crushed to pieces with just a light blow from the monster.

He wanted to continue moving forward, but his legs were as heavy as lead, not listening to his commands at all.

The feelings of despair kept growing, and all kinds of fear and uneasiness that had been suppressed in the bottom of his heart completely burst out at this moment.

The wandering martial artist's expression began to twist, as if a dark soul was awakening, and his original personality was about to collapse.

At this moment, a cold snort suddenly sounded in the wandering martial artist's ears.

The wandering martial artist was shocked. He had lost control of himself, but he returned to normal in a very short time.

“Thank you for your help, Sir!”

The wandering martial artist secretly wiped off his cold sweat. If Tang Zhen had not acted in time, it was likely that he would have completely lost his way and become a monster that only knew how to kill.

“Don’t waste time, hurry up and continue.

If I’m not wrong, these monsters won’t attack you. They’ll only test your will.

If your will is not strong enough, then you will be in real danger. You will probably be trapped in the tunnel forever.”

The wandering martial artist quickly nodded and immediately roused his spirit. He didn’t want to die Here.

Soon after, he discovered that the truth was just as Tang Zhen had said. Other than using a vicious gaze to look at him, the enormous monster did not launch any other attacks.

Her hanging heart also fell to the ground at this moment.

Outside the tunnel.

Tang Zhen looked at big head Zhao beside him. Under the other party’s expectant eyes, he nodded his head in an unnoticeable manner.

Big head Zhao froze for a moment, then clenched his fists tightly, his whole body trembling.

“It’s good that it’s useful, it’s good that it’s useful, Yingluo.”

Big head Zhao kept repeating the same sentence as if he was in a dream, and then he buried his head deeply.

His companions didn’t know what to say, so they just patted him on the shoulder.

After venting the emotions in his heart, big head Zhao looked at Tang Zhen and was about to ask something when he saw Tang Zhen gently wave his hand.

“Move out!”

Tang Zhen had already rushed to the front of the tunnel and stepped into it without any hesitation after his voice sounded.

brothers, keep up! Don’t fall behind!

Big head Zhao growled, called his men, and quickly chased after them.

This scene was seen by the other martial artists, and they all revealed surprised expressions.

the results of the investigation had yet to come out, so why was tang zhen and the others so anxious and impatient to enter the passageway?

The old ancestor of the windthunder city frowned. His eyes flashed and he decisively ordered the others to follow.

“What are they doing?”

The patriarchs of the megacity became restless. Even if they were in a hurry to go to the temple of abstinence, they didn't need time.

It's impossible for them to risk their lives so easily. The only possibility is that they've already found the correct passage.

After realizing this, the patriarchs of the megacity quickly called for their subordinates and drove the wandering martial artists into the passage.

These stones were meant to be used as Pathfinders, and they could not be easily thrown away.

As for the old ancestors themselves, they quickly entered the passageway, afraid that Tang Zhen would seize the initiative.

At this moment, those old ancestors had already faintly sensed that there was something wrong with Tang Zhen's performance. He seemed to be a little overconfident.

After they entered the passage, they realized that although the environment here was strange, they were not attacked at all.

The facts had already proven that this was the correct passage.

A sense of foreboding slowly rose in the hearts of the patriarchs.

“Let's hurry up. That Tang Zhen might know some secrets that we don't know about.”

“If he knows which way is the safe passage, he'll definitely try to get rid of us. We can't let him succeed!”

damn it, none of those guys from the believer's continent are good!

The patriarchs of the megacity cursed as they ran with all their might, their speed increasing.

By the time they ran to the end of the tunnel, they could no longer see their figures. Clearly, Tang Zhen's group had already left.

They rushed out of the passage in an aggressive manner, only to hear a loud bang. The patriarchs of the giant city were immediately shrouded in a sea of fire.

Chapter 2168 Unimpeded (1)

“Be careful of an ambush!”

The moment the flames erupted, the group of patriarchs immediately reacted. They either fled to a safe area as soon as possible or took out all kinds of defensive equipment to resist.

Although the intense shock wave was sufficient to split apart mountains and might not be able to kill these martial Dao experts, they should be rejoicing that Tang Zhen did not have the time to arrange a technique with even greater destructive power.

Even so, it was enough to put them in a sorry state and make them hide in panic.

When the flames died down, the surroundings were a mess.

Apart from the old ancestors covered in dirt, there was no one else on the second heaven reaching platform.

“They’ve already entered the passageway. We’re one step too late!”

“Bastard, you really think you can take the initiative by using such despicable means!”

“It’s the 35th passage on the left. I can feel the residual aura. Let’s go there immediately!”

One of the patriarchs growled and charged into the tunnel.

His face was filled with urgency and irrepressible excitement. He could not wait to reach the divine Hall of abstinence.

The other old ancestors followed closely behind. At this moment, they could already confirm that Tang Zhen should have mastered the method to confirm the safety passageway.

That was why he didn’t stop at all after reaching the second platform and entered the new passage in the shortest time possible.

Although they could follow Tang Zhen all the way, it still meant that they were a step slower than him. In this race against time, it was extremely likely that they would miss the treasure.

I knew there was something wrong with that Tang Zhen. I should have killed him earlier!

One of the patriarchs said angrily.

“Are you sure you have the ability to kill him?”

An old ancestor by the side said in disdain. The earlier exchange had been witnessed by everyone. In a one-on-one battle, these old ancestors might not be a match for Tang Zhen.

don’t forget that he still has a rune bomb. If he were to drop one at the exit of the tunnel, he might just end up taking your dog life!

There were more or less grudges between these old ancestors. Now that they had found an opportunity, it was inevitable that they would demean each other.

It was just a verbal battle, and it was not the time to make a move yet.

The patriarchs of the megacity rushed out of the passage, worried about their personal gains and losses, but they were ambushed again.

Fortunately, the patriarchs of the megacity were well-prepared and had cast their defensive measures the moment they rushed out of the passageway, so they did not suffer much damage.

“Don’t let me meet that Tang Zhen. Otherwise, I’ll never let him off!”

One of the patriarchs bellowed. His face was frighteningly gloomy. He had had enough of this.

Dozens of patriarchs of the megacity, top-notch martial arts powerhouses, had been embarrassed by an outsider.

alright, let's hurry up and look for clues. I hope he didn't intentionally erase the traces.

Although their anger soared to the sky, the old ancestors still swiftly searched for traces and judged the tunnel that Tang Zhen's group had entered.

although his strength had been suppressed, as a top-tier martial artist, his tracking ability was not affected.

It would take time to completely erase all traces, but it was impossible to do so in this race against time.

Soon, the patriarchs found the traces and entered the new passage.

"Get ready, defend against the ambush!"

The moment they were about to rush out of the passage, the great ancestors were all prepared. As long as it was not a rune bomb, they did not have to worry too much.

In the end, he had just charged out of the passageway when he heard the sound of weapons clashing. One of them was Tang Zhen.

The other person's eyes were blood-red, and his body was covered in wounds. It was Firerock patriarch, who had disappeared earlier.

As for the old ancestor of wind Thunder City, Zhao datou, and the others, they had already disappeared.

The two of them were fighting in full swing. It could be seen that Tang Zhen had the upper hand. If there was enough time, the Firerock ancestor would definitely die.

However, at this moment, patriarch Firerock was like a mad demon, fighting with no regard for his life.

One could tell that he wanted to enter the passageway but was firmly intercepted by Tang Zhen. He was simply unable to approach.

"I'll let you live a little longer!"

die! seeing the group of patriarchs rushing out of the passage, Tang Zhen fiercely slashed out with his saber, sending Firerock patriarch flying nearly a hundred meters.

Firerock patriarch spat out blood, but he once again leaped up from the ground and charged straight at Tang Zhen.

As for the injuries on his body, he didn't care at all.

Tang Zhen ignored Firerock ancestor. Instead, he quickly rushed into a passage and disappeared in the blink of an eye.

Without a word, Firerock ancestor followed closely into the passage, his body seething with killing intent.

"Patriarch Firerock has gone crazy!"

"If you were about to enter the temple of forbidden extinction first, but someone else did it first, you'd probably go crazy!"

“Don’t talk nonsense, hurry up and catch up!”

They did not care about the crazy Firerock ancestor. They only wanted to catch up as soon as possible and not let anyone else enter the shrine first.

Especially that Tang Zhen!

Who knew if he would kill them all after he got the treasure and advanced to the final realm?

They didn’t dare to take this risk and couldn’t afford to take it. Therefore, the wisest thing to do was to kill Tang Zhen immediately after entering the temple of abstinence.

Even though they had not discussed it with each other, the group of patriarchs had already come to a consensus.

As time passed, they crossed One Sky-reaching platform after another, and they got closer and closer to the divine Hall of abstinence.

Along the way, traces of battle could be seen from time to time, but there were no corpses left behind. Clearly, ancestor Firerock was still alive, and Tang Zhen had not been killed either.

The group of patriarchs had grave expressions. They had originally thought that it would take a long time to reach the temple, but they had not expected to rush over so smoothly.

However, this also meant that the final battle was about to begin.

The patriarchs present were likely to be his enemies, and it was hard to say who would kill who.

No one could guarantee what they would do in the face of the temptation of advancing to the ultimate realm.

Perhaps he was still smiling one second, but in the next, he would pull out a sharp blade and stab his vital parts to death.

After rushing out of the tunnel, nothing unusual happened this time.

There was still no one on the ninth platform. Clearly, Tang Zhen’s group had already successfully found the tunnel.

we’re almost there. We just need to go through this passage to enter the temple of abstinence!

The group of old ancestors suppressed the excitement in their hearts. They looked at each other and continued to search.

When they stepped out of the tunnel again, a huge square appeared in front of them. There were broken statues on the square, and at the end of the square was the magnificent divine Hall of abstinence.

Even after thousands of years of wind and frost, this divine Palace, which could be called an art treasure, still exuded an aura that made people respect it.

The forbidden extinction divine Hall was very large. Tang Zhen and the others who had entered earlier had already disappeared.

The patriarchs of the megacity, who had been gathered together, rushed into the temple in an attempt to find the legendary treasure.

At the same time, he would think of a way to kill Tang Zhen.

Chapter 2169 Invincible (1)

In the forbidden extinction Palace.

Tang Zhen was walking alone within the enormous Hall. He held a dark purple long war blade in his hand as his sharp eyes continuously swept around.

This battle blade had an extraordinary origin. It was exchanged by Tang Zhen through the balance of fate. It was specially prepared for the demonic plane's master.

However, he had taken it out now to deal with the patriarchs of the giant cities. This was because the situation was more dangerous than before.

As far as the eye could see, enemies were everywhere.

At this moment, he was searching for patriarch Firerock. The moment this guy rushed out of the passage, he went around everyone like a madman, and no one knew where he had run to.

Tang Zhen had only been a step slower, but he had missed the best opportunity to kill ancestor Firerock. This caused him to feel slightly depressed.

Compared to the treasures in the temple of abstinence, Tang Zhen was more concerned about patriarch Firerock. Hence, he had directly chased into the temple.

After entering the temple, a strange feeling attacked them, making them feel uncomfortable.

This was the pressure left behind by the indigenous gods, which made people subconsciously worship and submit to it. Even after thousands of years, it had not dissipated.

Within the temple's range, mental power was completely restricted, and it was impossible to search on a large scale.

It was normal for such a situation to occur. In order to maintain their dignity and mystery, the indigenous gods of any plane would not allow outsiders to explore their residence without restraint.

Otherwise, no matter how many secrets there were, they would be known by outsiders. In that case, where would the dignity of the gods be?

The problem was that the area of the temple was extremely large. If they wanted to hide it, there was almost no place to find it.

As for the purpose of finding the Firerock patriarch, it was to figure out the origin of that thing in his mind world.

On the entire warrior's continent, only Firerock ancestor knew what was going on. This was also the reason why Tang Zhen had led him into the temple of abstinence.

It was impossible to kill him halfway. The patriarchs of the megacity would not let him kill patriarch Firerock. After all, they were on the same side.

Moreover, time didn't allow it.

However, things were different in the temple of abstinence.

In order to snatch the treasure, the old ancestors would be on guard against each other. There would not be any problem if Tang Zhen were to make a move at this moment.

It didn't concern him, so he hung up high.

Tang Zhen had killed the Firerock ancestor, but the others might not be able to arrive in time.

Unfortunately, the Firerock ancestor had already gone crazy, or perhaps he had guessed Tang Zhen's plan. Therefore, the moment he reached the peak, he rushed into the shrine with all his might.

The temple of abstinence was damaged. Bones and remains could be seen from time to time. Apparently, the alien Warriors had already killed their way into the temple.

It was a pity that there was no winner in this war. Whether it was the believers or the outer-realm martial artists, they all ended up being completely annihilated.

Not long after, Tang Zhen entered a large hall. As far as the eye could see, there were treasures everywhere.

It was surrounded by beautiful murals, the contents of which were all scenes of races worshipping gods in various planes.

Tang Zhen took a glance and then shifted his gaze away.

To ordinary martial artists, the treasures in the hall were priceless. They could exchange a few of them for a huge amount of wealth.

However, to Tang Zhen, it did not have much value. It did not even have the qualifications to be stored in the Holy Dragon city's warehouse.

However, on second thought, keeping them would only benefit those old ancestors, so he might as well take them all.

As he thought of this, Tang Zhen waved his hand and the treasures that filled the hall instantly disappeared. They were all kept into the world of his mind.

In the world of his mind, that thing came over curiously. After circling around the treasure, it revealed a trace of disdain.

Tang Zhen could even sense the protest from that thing, accusing Tang Zhen of littering and polluting its home.

The corner of Tang Zhen's mouth twitched as he shook his head. He secretly thought that he would settle the score with her in the future.

At this moment, footsteps could be heard as two patriarchs walked in from the other entrance.

The two old ancestors were slightly stunned when they saw Tang Zhen.

“You came just in time!”

Tang Zhen’s voice had just sounded when he brandished his battle blade and headed straight for the two old ancestors.

“Tang Zhen, what do you want to do?”

The hearts of the two old ancestors panicked when they saw Tang Zhen taking the initiative to attack. Although the two of them were quite strong, they might not be able to defeat Tang Zhen.

The two old ancestors could only draw their weapons and brace themselves to receive Tang Zhen’s attack when they saw him charging over.

“BOOM!”

With a muffled sound, one of the patriarchs was sent flying. He was already spurting blood in mid-air.

“You hold on, I’ll call for reinforcements!”

run! the old ancestor, who was spitting blood, roared. He twisted his body before he fell to the ground and ran toward the tunnel beside him.

The blade that Tang Zhen had slashed out had caused his heart to tremble with fear, and he did not dare to fight with him at all.

If he didn’t run now, when would he?

“Bastard!”

The remaining old ancestor was so angry that he almost vomited blood. The two of them were not Tang Zhen’s match even when they worked together. Now that he was the only one left, what was the difference between that and seeking death?

He wanted to escape, but in the end, Tang Zhen firmly entangled him, and he was unable to escape.

Not long after, the silver-haired ancestor was already severely injured, and blood gushed out like a fountain.

“Tang Zhen, don’t go too far in bullying others!”

The silver-haired ancestor roared in a low voice. If they continued fighting, he would definitely die.

” you’re scared? that’s good. sign a contract with me. you’re not allowed to attack the believer’s continent. you’ll cooperate with me when necessary! ”

The silver-haired old ancestor was a little hesitant when he heard Tang Zhen’s request.

“If you don’t agree, then die!”

A cold glint flashed in Tang Zhen’s eyes. The battle blade in his hand was like a storm as it slashed toward the silver-haired old ancestor.

The silver-haired forefather was shocked. He felt that death would come at any moment. He did not dare to hesitate at all.

“Hurry up and stop, I’ll sign!”

The suffocating attacks instantly stopped. Tang Zhen laughed softly and signed a contract with the silver-haired old ancestor.

After the contract was established, Tang Zhen turned around and left. The silver-haired old ancestor looked for a safe place to recuperate with a gloomy expression.

After walking for a short distance, the sound of fighting could be heard from a building not far away.

Tang Zhen followed the sound and saw two old ancestors working together to attack another black-robed old ancestor. The other party was carrying an unknown item on his back.

Since it could not be stored in his storage equipment, it was obviously a rare treasure. No wonder other great ancestors were fighting for it.

The black-robed patriarch must have obtained the treasure, but the other two patriarchs must have encountered it and joined forces to snatch it.

Falling out at will was in line with the style of the patriarchs of the giant city.

When the black-robed old ancestor, who was being attacked, saw Tang Zhen, a trace of despair flashed across his eyes. However, his face immediately revealed joy.

Sir Tang Zhen, quickly come and help me. According to our previous agreement, I’ll give you half of the treasure!

Upon hearing the black-robed old man’s words, the two old men who were besieging him were stunned for a moment. Then, they looked at Tang Zhen with a vigilant gaze.

They were skeptical, but they were also afraid that Tang Zhen really had an agreement with the black-robed old ancestor. If that was the case, they would be attacked from both sides.

Tang Zhen directly turned around and left after hearing this.

Seeing this, the two patriarchs felt relieved and joined forces to attack again.

The black-robed ancestor cried out in his heart as he failed to shift the blame. He could only throw out the treasure he had just snatched and rush to the door.

Just as he thought he could escape, a figure rushed out of the door and raised a saber to cut him in the face.

Caught off guard, the black-robed ancestor was cut in half, his blood and internal organs spilling all over the ground.

Even so, the black-robed ancestor was not completely dead. He looked at the attacker with eyes like a dead fish.

“Tang Zhen Qian Qian Qian”

The black-robed old man spat out these two words with hatred. He raised his bloodied arm and then dropped it down powerlessly.

When the two old ancestors in the room saw this, their breathing became a little hurried. The speed at which Tang Zhen killed the black-robed old ancestor was so fast that even they did not have the time to react.

Although everyone's strength was greatly suppressed in the temple of abstinence, the old ancestor was still the old ancestor. His tyrannical strength was destined to not be easy to kill.

Moreover, they had many life-saving means on them. Even if they were ambushed, there was a great chance that they could survive.

However, after the black-robed old ancestor encountered Tang Zhen, he was killed so easily. It simply exceeded the phenomenon of the other two old ancestors.

Although the element of surprise was present, the main reason was that Tang Zhen was too strong. The weapon in his hand was too powerful!

"If you didn't drag me into this, you might have been able to escape safely. I might even have helped you."

Tang Zhen's expression was incomparably calm after killing an old ancestor. He merely grabbed the other party's storage equipment, turned around, and walked toward the depths of the temple.

The two patriarchs heaved a sigh of relief. They looked at each other with a hint of fear in their eyes.

"This Tang Zhen is not a simple person!"

"Yes, try to avoid him and don't provoke Qingqing."

Chapter 2170 Firerock ancestor has gone crazy (1)

Big head Zhao led his group of brothers and was slowly advancing in the temple, his face full of vigilance.

The temple of forbidden extinction was extremely large, and it was clear that there was another world inside. The house that looked like it was a few hundred square meters could very well contain a mountain.

Under normal circumstances, even if tens of thousands of people were thrown in, they would probably disperse in a very short time, and it would be difficult to meet in a short time.

Even so, Zhao datou still didn't dare to take it lightly.

The previous encounters had made him deeply understand what it meant to have a life as insignificant as an ant. In the face of benefits, the old ancestors and the Warriors of the giant city didn't even consider them as humans.

He killed them just like pigs and dogs.

Previously, at the heaven Ascension platform, Tang Zhen had stopped the Firerock ancestor and asked him to lead the windthunder city ancestor forward.

When he learned that Zhao datou knew the order of the passages, the look in the eyes of the ancestor of wind Thunder City was very strange, which made Zhao datou feel a little guilty.

He was certain that if it wasn't for Tang Zhen's presence, the old ancestor of wind Thunder City would have pried open his head and dug out all his memories.

"Don't worry, he won't dare to kill you!"

Tang Zhen's words made big head Zhao's hanging heart relax. He knew that this was a warning to the old ancestor of windthunder city.

The old ancestor of windthunder city just smiled and urged Zhao datou to hurry up, a fierce light flashing in his eyes.

It could be seen that the old ancestor of wind Thunder City was very afraid of Tang Zhen, which also made Zhao datou feel a little more at ease.

It was good that he had scruples, otherwise, he would act unscrupulously, and he would be in big trouble.

Then, big head Zhao led a group of martial artists and successfully passed through the heavenly Ascension platform, finally arriving at the temple of abstinence.

Looking at the magnificent temple of abstinence, Zhao datou wanted to roar and comfort his ancestors.

The heavens do not disappoint those who work hard. I have finally arrived at the divine Hall of abstinence!

Just as big head Zhao was getting excited, the voice of the ancestor of windthunder city sounded in his ear. There was a trace of coldness in his voice, "Zhao datou, right? you're quite lucky, but I still have to remind you.

The temple of abstinence was like a dragon's pool or a Tiger's Den. I wouldn't kill you, but that didn't mean others wouldn't.

If you're smart, take some things and leave quickly. If you're too greedy, you'll probably become a corpse soon."

Although the wind lightning patriarch's voice was cold and filled with killing intent, he didn't have any ill intentions.

Firstly, Zhao datou had led the way, and secondly, he was wary of Tang Zhen and was unwilling to fall out with him over this small matter.

Zhao datou and the others were ants, but they were taken care of by Tang Zhen. Killing them would be equivalent to making enemies with Tang Zhen.

How could the forefather of wind and thunder not see through this?

Big head Zhao quickly nodded and thanked him. Then, he called his group of brothers and quickly ran to the edge of the forbidden extinction Palace.

He knew a few locations where the treasures were hidden. Although the old ancestors might not be interested in them, they were priceless to low-level martial artists.

“Forefather, do you want to be Pixiu?”

A battle-King warrior from windthunder city asked in a low voice, his eyes cold and indifferent. If he were to kill Zhao datou and the others, it would be as easy as blowing off dust.

The old ancestor of the windthunder city shook his head, his face as calm as water.

“A bunch of insignificant guys. There’s no benefit in killing them, and it will also bring unnecessary trouble.

The main task now is to search for the temple of forbidden extinction. The faster, the better!”

as soon as he finished speaking, the old ancestor of the wind thunder city had already entered the temple. he didn’t want to waste any time.

After the group of martial artists from the giant city had all left, big head Zhao, who was hiding in a corner and secretly observing, heaved a long sigh of relief.

“Boss, what should we do next?”

The group of fierce bandits from the bear Ridge were all excited. They did not expect that they would actually come to the temple of abstinence, a legendary place that even martial arts powerhouses might not be able to reach.

When they thought of the scene of treasures being everywhere, they were so excited that their bodies trembled, and they wanted to shout to express their emotions.

Big head Zhao glanced at his excited subordinates and said in a cold voice, ” “Don’t blame me for not warning you. It won’t be long before a large number of Warriors from the megacity will arrive.

When they see the treasure in our hands, they will not hesitate to raise their swords and snatch it away.

So in the following time, no one is allowed to run around. After we find some treasures, we’ll immediately leave the temple.

If anyone is disobedient, then get out of here as soon as possible. Whether you live or die has nothing to do with this old man, and we are no longer brothers!”

Hearing big head Zhao’s serious words, the group of bandits didn’t dare to say anything.

Even if they were unwilling or had other plans, they would not mention it at this time.

“Boss, if you’re afraid, why don’t you go look for His Excellency Tang Zhen? he should be able to protect us, right?”

One of his subordinates suggested. He was obviously unwilling to accept this. Why did they not get the reward they deserved even though they had found the passage?

Big head Zhao chuckled and said in a cold voice, ” “His Excellency Tang Zhen doesn’t owe you anything. On the contrary, we owe him a favor. Otherwise, do you think you would still be alive?

No matter if it was the heavenly Ascension platform scouting or just climbing to the peak, it was almost a certain death situation.

If it wasn't for His Excellency Tang Zhen's intimidation, you and I would be dead bodies now.

If you want to trouble him again, you should consider your own abilities. Besides, how are you going to repay the favor? with your life?"

Hearing this, the Bandit's face turned purple, and he lowered his head in silence.

As for what he was thinking, perhaps only he knew.

Big head Zhao felt mentally tired. It was best to test one's heart before the treasure. Who knew how many people would take his advice to heart?

forget it. I've already done what I wanted to do, so I might not stay in Black Bear Ridge anymore. In that case, let's just leave it to fate.

Big head Zhao's interest waned, and his originally excited mood gradually dissipated into nothing.

.....

where is the treasure? where is the inheritance of the gods? where is it? "

In the dilapidated Hall, patriarch Firerock was like a mad demon, constantly searching for something.

"Damn it, who can tell me what the inheritance of the gods is and how to get it?"

At this moment, the Firerock patriarch no longer had the demeanor of a martial arts expert. His clothes were in tatters, and he looked like a complete lunatic.

The destruction of weapon forging city and the loss of the resources he had invested in it had already infuriated him to the point of vomiting blood.

As a result, he had been chasing the enemy all the way, but he couldn't do anything to the enemy. Instead, he had been defeated.

He was already burning with anger, and the pursuit was like adding fuel to the fire, causing Firerock patriarch to almost collapse.

Who would have thought that after entering the forbidden mountain range, they would actually see the legendary divine Hall? the Firerock patriarch's originally furious mood was immediately replaced by ecstasy.

As long as he could get his hands on the legendary treasures of the gods and step into the ultimate realm of martial artists, he would be able to control the entire martial arts continent.

At the thought of that scene, Firerock ancestor trembled with excitement. He had spared no expense in nurturing that thing. Wasn't it so that one day, he could dominate the entire martial arts continent?

Now, there was a new opportunity in front of him. Compared to the gold-eating monsters that had invested countless times but had no returns, the inheritance treasure of the temple of abstinence was a real opportunity.

After realizing this, how could Firerock ancestor still be in the mood to pay attention to Tang Zhen? he placed all his attention on the divine Hall of abstinence.

Under the impact of these two extreme emotions, Firerock ancestor was already showing signs of going berserk.

It was just that he didn't realize it himself, especially at the moment when the guide passage appeared, he was even more excited to the extreme.

To martial artists, this was a great taboo for cultivation.

The welcoming passage disappeared, and Firerock ancestor was trapped on the fourth platform. Just as he was racking his brain for a way to pass through, Tang Zhen appeared with a group of martial artists.

Patriarch Firerock, who had thought that the divine Hall of abstinence was in his bag and wanted to rush to the summit, instantly exploded!
